By Nanalee Nichols The merry, merry month of May is here. And, it's almost a shame that we no longer have May Day celebrations....the

month is so very beautiful. Everywhere lately the beauties of the the season abound.

Stop what you are doing for a moment and listen. The sounds of birds will filter through, probably even if you live in the middle of the city!

The cardinal males compliment their mates on the nest by singing "Pretty...pretty" to them. The wrens chip and chirp, while the martins dip and fly, happily twittering and commu-

On the roadsides are Indian paintbrush, clovers, bluebonnets and white lilies in marshy

The scent of honeysuckle wafts gently on breezes that blow just the right amount of cool across newly bared arms.

Sunshine hasn't turned blazing and harsh yet, but falls gently on grass so green it would make Ireland envious.

The trees are garlanded in a million shades of delicate color...from palest yellow to deepest green, with shades of purple and gold in between.

Magnolias unfurl their huge, showy blossoms, adding additional scent to the air.

The pristine white of newborn calves peeks from the grass while their fat, contented mamas graze

And what about the human side of nature?

Well, we look pretty good too. Children play, dressed in their immer shorts, rolling in piles of clover and running as fast as they

Elderly people stroll contentedly along, drinking in the sunshine and spring sights.

Farmers look with satisfaction on the neatly planted rows of milo and soybeans that seem to almost leap up overnight

Home gardners watch tomatoes for blooms, keep and eagle eye out for cutworms and take pleasure in their produce.

Letter 70 The Editor

Dear Editor:

I read with great interest your editorial on gum cracking, snapping, smacking, popping and all the other noises people make with gum. The very small minorityh to which you belong consists of at least two persons, me and you! The gum snapping, cracking, etc. drives me up the wall! Just ask my daughter. She has always been one of the world's best gum cracker-snappers. I think those cracks-snaps could be heard for a country mile. She learned right quick, don't do that around mother! I am also the same way about clipping nails. I can hardly stand to clip my own. The kids learned not to do that around me either. I might be a mi-

nority of one on that situation. Your editorial was pretty thought-provoking. It got me to wondering if gum chewing "invades your space". If they are gonig to start making people who chew gum go outside the building to do so or have little cubby holes set aside at work places for people who chew gum or your employer tell you that if you work for them then you can't even chew gum in your own home!

Sounds pretty familiar, doesn't Sincerely, Bettye Jane King

While visiting Rossie, she quoted by memory a poem that it took two years to write. It is about her childhood dream and was very good. She also played a gospel song she had written and recorded on a single that we also enjoyed.

The "One" Stew recipe is an original she created about 50 years ago. She has used the Orange and Pineapple Jello recipe about 20 years and takes it to lots of luncheons and is always being asked for the recipe. Remember, the jello comes in one box. It is orange and pineapple mixed. The Honey Baked Beans came in her light company statement about 20 years ago. The Frosted Flake Candy recipe came from a friend, Ruby Legate, about a year ago. The Sour Kraut Salad came from a magazine about 10 years ago. The Beet Pickles has been handed down from her greatgrandmother and is close to 150 years

Pats Lose To District Rival, MV

The Prairiland Patriots were not able to master the pitching of the Mt. Vernon Tigers Thursday at Mt. Ver-

Rain forced Tuesday's game to be postponed until Thursday, and a wet home field forced a relocation to Mt.

Larry Smith opened th bottom of the second inning with a sharp single to center, but the next three Pats all grounded out, leaving Smith at third

The Tigers used a fourth inning double and a squeeze bunt to score the game's first run. They added another run in the fifth on another well-executed bunt.

The Patriots found the Tiger hurler too much to handle until catcher Chad Whitley drove a high fastball out of the park in the sixth. The deficit had been cut in half at 2-1, but a fly out and back to back strike outs sealed

the Patriots' fate in the bottom of the seventh.

Mark Farris went the distance for the Pats, and he turned in a fine four hit performance while striking out eight. The loss drops the Patriots to 4-3 in conference play and 11-7 on the

Camp activities this year will be directed by Ms. Tami Bell, who is currently employed by the Houston Independent School District Outdoor Education Center as a program leader for fifth grade students.

Program activities include swimming, outdoor cooking, gardening, nature, crafts, photography, canoeing, sailing, sports, games and aero-bics. Girls will also have the opportunity to earn special interest badges and trail feathers, and in keeping with the 1992 Girl Scout Earth Care project, will participate in nature conservation projects.

Camping season is June 14 through July 18. Openings are currently available in all sessions but early registration is encouraged.

The Red River Valley Girl Scout Council invites all area girls and parents to come to open house and look into the opportunities and experiences Camp Gambill has to offer. For more information, call Linda Christian at 784-0804

Fluid Check

There are many fluids in your car that need to be checked regularly. Low fluid levels can cause problems. Look in your service manual for the proper levels for the battery, radiator, brakes, transmission, power steering, air conditioner, windshield washer, shock absorbers, engine crankcase and the rear axel.

What Should You Do?

Tips for the Neighborhood Rescue

Have you ever found a young bird or animal on the ground in need of help? Although your first response might be to bring the baby indoors, you'll most probably decrease its chance of survival by removing it from the wild. With their highly specific dietary needs, young birds and animals have a much greater chance of survival if left with their parents. Here are som tips for assisting baby birds and animals. DO NOT RESCUE....

If the animal just appears to be alone or abandoned. The parents may have been frightened away by your approach and are hidden nearby. Simply because you touched the baby. Most birds have a very poor

sense of smell, and you handling of the young will NOT deter the parents from caring for them.

If you can replace it in or near the nest, or cover the nest up again.

If the animal is weak, cold, sick or injured.

If the parents are known to be dead, or the baby is in obvious danger. If you have placed the baby back in the next and left the area for several hours, and are certain that the parents will not return.

WHAT TO DO ...

If you do find a baby that is injured, or you replace it in the next and the parents do not return for it, place the animal in a closed, tissue-lined box in a dark, quiet, warm place. Do NOT attempt to give it food or water. Be sure to keep all widlife away from very small children and domestic pets! Call a wildlife specialist as soon as possible for help. They will take the animal, or refer you to the wildlife center closest to you that works with the species that you have found.

Remember, the best way to help a baby animal is to return it to its parents. The next best way is to transfer it to a licensed wildlife rehabilitator, who has the knowledge and training to properly care for it. Either way, the quick and thoughtful action of a concerned person can make all the difference!

SENIOR CITIZEN'S CORNER HELPFUL IDEAS FOR SUCCESSFUL RETIREMENT

The Magic Number

65. The magic number. Have you ever wondered how that number was picked out as the retirement age? It wasn't the Social Security Administration or doctors who studied the working habits of older employees. That magic number was picked by Prince Otto von Bismarck, the Iron Chancellor of Imperial Germany over one hundred years ago. To ward off the rise of socialism, he started the first social security system in Europe. He implemented government-sponsored pensions, health care for the retired, and so on. Since an age to start had to be settled upon, 65 was chosen. And it's been the magic number ever since.

Nowadays, with the help of modern medicine and knowledge of the aging process, People are able to lead full, productive lives far past the age of "normal" retirement. However, it is still a hard habit to break. If, for example, you are 67

years old and still working, people look at you as if you've gone crazy. years ago!

I'm sure you've heard that before. changing. Even though many people school right now. are still retiring at 65, many are reentering the workforce to start a new and different career. Admittedly, twenty or thirty years of doing the same thing can lead to boredom and sloppy work habits. This, plus the opportunity of a lifelong dream to do something other than your previous occupation has put millions of people to work well into their 70's

a century ago. The only thing 65 remarks to them, or anybody that means is how fast everyone drives on the expressway.

The End of School

So as most people already know, it even waves at them. is getting nearer and nearer to the end og the school year. Yes parents, we know it seems like the year just sta-"Why are you still working?" they trted yesterday, but it seems that the ask. "You should have retired two kids are fixing to be out and in your hair once again.

But if you're thinking how bad it is You've probably even said it to going to be at home for the next few someone a few times. But times are months, just think what's going on at

For one thing the kids are getting tired of school. Yes I know most ofthem were counting down the days till when school started, but after all this time they're beginning to feel like they're being held in a jail cell. they feel like they have no freedom

So then when they feel this way they get mad at anything and every-Don't fall into a trap that started thing that talks to them, makes smart

They get mad at teachers tell them what to do also. A lot of I who get chewed out by the teacher, especially this time of the year, instead of taking it and looking the other way, will blow up and tell the teacher just where to go and what to do when they get there. Of course...that doesn't help things one

Even teachers get tired when it comes to this time of the year. they are sick of grading, averaging, and messing with unruly kids. So, they also, are on the verge of having a nervous breakdown.

So when you're thinking of what a time you're going to have this summer with your kids, think of the way they're feeling right now too! Give them a break every once in a while too. They're just kids after all!

Crime Increased Only 2% In Texas For 1991

Despite a record number of murders, crime in Texas increased only 2% in 1991 compared with 1990, according to Uniform Crime Reporting information compiled by the Texas Department of Public Safety.

'We're pleasedthe overall number of reported crimes in Texas grew only slightly last year, but we're very concerned with the jump in violent crime, which was 12.7%," DPS Director Col. James R. Wilson said.

"All law enforcement agencies in Texas face a tough challenge. The crime rate, the number of

reported offenses per 100,000 population, actually decreased slightly in 1991, dropping fro 7,825.9 to 7,818 or by 0.1%

The DPS statistics show 2,651 murders were reported in Texas last year, compared with 2,388 in 1990. That amounts to an increase of 11%. The largest violent crime category

increase was in aggravated assault, which gres by 13.8% last year. Rape cases increased 5.9%, and robberies by 12.1%.

"The news was a little better in the property crime category, " Wilson said. "Overall, property crime increased by only 0.9%, though motor theft was up 6.1%. Burglary decreased by 0.6% and theft grew slightly by

Social Security Notes

District Manager

Here's a good tip for anyone who works as a waiter or waitress--report your "tip" income now...and someday your Social Security benefits will be higher.

Many men and women work either full or part time as waiters or waitresses. And sometimes they are tempted to improve their current financial situation by pocketing tip income and not paying any income tax or Social Security tax on it.

But it's a case of being penny wise and pound foolish.

This is why. Many people tend to think of Social Security as a program only for the elderly. But Social SEcurity offers more than just retirement benefits. There's also disability benefits, payments to family members and survivors insurance. In other words, depending on life's circumstances, you may find yourself collecting Social Security long before you ever

thought you would.

Social Security isn't designed to replace all earnings you no longer have because of retirement, disability or death. It is a base that you can build on, now and in the future.

However, that base of Social Seurity benefits is directly related to the amount of past earnings--reported earnings, including tips, on which Social Security taxes are paid.

To insure that you receive full crfedit on your Social Security record you should provide written reports to your employer of tips totaling more than \$20 per month.

The employer will then deduct your Social Security tax due on tips received from your wages and report your total earnings to Social Secu-

(c) Any building, shed, fence, or n-made structure, which by eason fo faulty construction or other use is liable to cause injury or amage by collapsing or by a col-apse or fall on any part of such

ny building, shed, fence or an-made structure which cause of its condition or because f lack of doors or windows is availble to or frequented by malfactors or disorderly persons who are not awful occupants of such structure. (e) All buildings or structures that xtent that the roof, windows and oors or any other portions of the uilding or structure which protect rom the weather will no longer easonably protect from the weather, hether such deterioration results rom natural causes, or through lamage from exposure to the ele-ments (especially wind, hail or rain)

(f) All buildings or structures which are so structurally deterio-ated that they are in danger of color which cannot be expected tand storms such as may be

or through fire or through any other

bly anticipated in the area.

(g) All buildings or structures on structed hereafter which are not onformity with the city building ode as same now exists or as it may ave been amended to exist at the e of such construction.

(h) All buildings or structures as now constructed, or as are per-tted to be constructed in the fue, so as to constitute a menace to ealth or safety, including all condi-ons conducive to the harboring of ts or mice or other disease-carry-g animals or insects, reasonably culated to spread disease, and iuding such conditions hazardis to safety as inadequate bracing the use of deteriorated materials. Section II-Substandard buildings structures declared public nui-

nce. Substandard building or structures hin the terms of this article which ute a menace to the alth, morals, safety or general elfare of the occupants theeof or of public are declared to be public isances and shall be ordered to be ed, repaired or demolished as vided in this article. ection III-Inspection of build-

es as structures reported substan-rd; preparation, filing, distribu-n of report. The Mayor, any member of the

city council or any city personel may direct the building inspector to make an inspection of any building or structure in the city reported to be or believed to be substandard as defined by section I and upon being so directed, the building inspector shall make such inspection. He shall prepare and file with the Mayor, the council or city personel a writt4en report of said inspection, giving therein a general description of the building or structure in question, a description of the land on which it is located and street address, and stating his opinion as to whether or not such building or structure should be ordered to be vacated, repaired or demolished as provided in this article. In addition to this inspection and written report, the city council may direct the city personel to en-gage some person other than a city employee to make an inspection of said building or structure and to prepare and file a written report with the Mayor or council based upon said inspection and containing the same information required in the above report by the building inspec-tor. Upon the filing of said written report or reports, the city personel will have copies thereof prepared for and distributed to the Mayor, each member of the council and city

Section IV-Conditions, regulations and procedures for declaring building or structure substandard. Final determination of whether a building or structure is substandard and required vacation, repairing or demolishing shall be made under the

following conditions, regulations and procedures: (a) Emergency measures. When there exists an emergency, as de-fined in the following subparagraph, certain measures which may be taken, notice which shall be given of the order therefore and the procedures which shall be followed in carrying out said measures are as

(1) When it shall appear to the city building inspector that a building or structure in the city is a substandard building under the terms of this article and that such building structure or the manner of use constitutes an immediate and serious danger to life or property, the condition shall be deemed to justify the use of emergency measures and upon being so advised by the city building inspec-tor, the mayor, city council or city personel may order any of the fol-lowing emergency measures to be

(A) Immediate vacation of such building or structure or of adjoining

uilding sor structures;
(B) Vacation of the danger area around such building or structure;
(C) Such emergency shoring up and bracing of walls, roofs and supports as are required to render such building or structure safe;

(D) The destruction of such walls, roofs and supports or of the entire structure or so much theeof as cannot be braced or made secure with

(E) Posting of notices on or near such building or structure which notify the public of such orders an order all persons to keep out of such building or structure and the areas of

danger surrounding it.
(2) When any of the above-mentioned measures are ordered to be taken, notice of such order shall be

(A) Except as provided by (B) below, a copy of said order shall be delivered either personally or by certified mail to the person or persons shown by the tax rolls of the city and county to be the owner or

owners of said building or structure (B) In the event personal service cannot be made and the owner's address is unknown, such notice shall be given by publication at least two (2) times within ten (10) consecutive days in a newspaper or general circulation published within the city; provided however, that if in the

judgement of the city building inspector the notice requirements set forth herein and in (A) above would create such delay as would materially increase the danger to life or property, such notice need not be given to taking the measure which has been ordered. It shall be sufficient in such case for notice to be

given within a reasonable time after the measure has been taken.

(3) In the event that the notice required above cannot be given or is unnecessary, or in the event that such notice is given and the owner or owners shall fail or refuse to carry out such orders-either by private contract or through an agency of the city-and the cost thus incurred shall constitute a valid lien against the property upon the filing of a state ent of the expenses incurred with the county clerk of Titus County.

(b) Normal procedures. Where an emergency does not exist, the following steps shall be taken to determine whether or not a bulding or structure is substandard and the action to be taken if said building or structure is determined to be sub-

(1) After the reports have been filed, as set out in Section III, the city personel shall set a date for hearing the report by the city council and the r or owners of said building shall be given notice of such hearing

(A) The notice shall be written and shall be directed to the person or persons shown by the tax rolls of the city and county to be the owner or owners of such building or struc ture. Said notice shall state the date. time and place of said hearing and city the owner or owners to appear and show cause why such building or structure should not be declared to be substandard and why such owner or owners should not be ordered to vacate, repair or destroy said building or structure. A copy o the building inspector's report shall

accompany the notice. (B) Except as set forth in (C) alow, a copy of said written notice shall be delivered either personally or by certified mail to said owner or owners, or an authorized representa-tive thereof if the same be known, and shall be so delivered not less than ten (10) days prior to the hear-

(C) In the event personal service cannot be made and the owner's address is unknown, such notice shall be given by publication at least two (2) times within ten (10) consecutive days in a newspaper of general circulation published within the city and by posting a copy of said written notice in a place of prominence on the building or structure in question at least ten (10) days before said

(2) At the time and place stated in the notice of hearing, the city coun-cil shall hold said hearing and the owner or owners may make such presentation as he or they desire. After the hearing has been closed, the council shall then make a final ermination of whether or not such building or structure is a substan-dard building or structure. If the council determines that the building or structure has the appearance of being abandoned or is uninhabitable, that it is not repairable, and that it constitutes a nuisance to the citizens of Talco, or a fire hazard to the surrounding property, the council shall issue such orders as shall ap-pear reasonable necessary to prevent the building or structure from being a hazard to life or property and to eliminate the substandard quali-ties of the building or structure,

(A) Order demolition of said building by the owner or

(B) File suit in the appropriate court seeking an order declaring the building or structure a nuisance or

including but not limited to:

fire hazard and directing its demolition; or
(C) Order the owner to proceed to

make repairs.
Section V.-Council to furnish owner copy of findings; time limit' destruction by burning.

A copy of the council's findings and order set forth in the preceding section shall be delivered either personally or by certified mail to send owner or owners, or an authorized representative creof if the same be known, and the owner or owners shall have thirty (30) days in which to comply with the order to repair or demolish and clear the premises. In the event such personal service cannot be made and the owner's or owner's address is un-known, such notice of the council's findings and order shall be given by publication at least two (2) times within ten (10) consecutive days in a newspaper of general circulation published within the cityand by

posting a copy of said written notice in a place of prominence on the building or structure in question. There may be instances in which the structure could be destroyed by burning, and if the owner will agree to a destruction by burning, the matter will be referred to the fire chief who will determine whether or not the structure can be burned without danger to surrounding properties and if so, it will be burned at the city's expense and under direction of the fire chief; provided however, the owner or owners shall be respon-sible for the removal of all debris and rubbish from the premises after

Section VI-Failure of owner to comply; demolition by private contract or city; cost to constitute lien;

the structure is burned and for the

filing of lien.

If the owner does not repair or demolish in the time set out in the order of the city or the court, the city may proceed by private contract or by the city, to demolish the building or structure and clear the premises. In the event the building or structure is demolished, the cost thereof shall be charged to the owner and shall be secured by a lien on the property. The Mayor and council will determine this cost and cause the same to be filed in the deed records of Titus County, along with a description of the property and this lien shall be foreclosed as in Article 342.007 of

the Texas Health and Safety Code.
Section VII-Failure to comply with article constitutes misde meanor; penalty.

Any person who shall willfully refuse or fail to leave a building which has been ordered vacated under the terms of this article, or

who shall enter a building which has been ordered vacated under the terms of this article, or who shall enter an area around such building that has been declared to be dangerous and notice of which declaration shall have been posted, and any person who shall interfere with or hinder the vacation, repair or demolition of any building under the terms of this article shall be deemed guilty of a misdemeanor and shall be subject to a fine as provided in Section IV of the Code, and each and every day's violation shall constitute a separate and distinct offense. In case the owner or occupant of any substandard building ordered vacated, re-paired or demolished under the terms of this article shall be a corporation and shall violate any provision of this article, the president, vice-president, secretary or treasurer of such corporation, or any manager, agent or employee of such corporation shall be also severely liable for the penal-

Presbyterian Women Meet

The Presbyterian Women of the First Presbyterian Church met April 14 in the home of Mrs. Paul Ray Keys with seven members attending.

Mrs. Robert Temple, moderator,

opened the meeting with prayer. A letter from David Dearinger, director of Goodland Home in Hugo, OK was read. The group decided to remember the home with a special

offering in June. Money for the Least Coin was

collected. "The Distractible Journey" was the title of Mrs. Temple's devotional.

study by reading Psalms 37, Chapter 4 from "We Decide Together-Heal the Soul and Justice will Follow" was studied by the circle. Selected Bible passages were read and discussed by the members. The Bible indicates that God acts through worship and obedience to inspire justice for the world. True worship includes deeds of mercy. Each member read a verse from the hymn "The City". Special prayers of concern were offered for ill and absent members.

Refreshments were served by the hostess during the social hour Mrs. Tom Foley opened the Bible

The motto In God We Trust first appeared on U.S. coins in 1864
