CAN NOT EXECUTE THE TREATY SAYS RANTZAU

FULFILLMENT OF TERMS MORE THAN GERMAN PEOPLE CAN BEAR, HE DECLARES.

ASKS FOR LIGHTER PAYMENTS

Note to Council Containing Counter-Proposals Makes Plea for Membership in League.

Washington.—Germany, although realizing that she must make sacrifices to obtain peace, is convinced that the execution of the peace treaty, as drawn, "is more than the German people can bear."

Count von Brockdorff-Rantzau, head of the German peace delegation, thus sums up the attitude of the German nation toward the proposed treaty of peace in a note to the allied and associated powers outlining various German counter-proposals. The German note, delivered to Premier Clemenceau is made public by the state department.

The German delegation nowhere in its note asserts that it will refuse to sign the present treaty, but declares on behalf of the German nation that "even in her need, justice for her is too sacred a thing to allow her to stoop to achieve conditions which she can not undertake to carry out."

Exclusion of Germany from the league of nations, the note asserts, means that in signing the peace treaty Germany would be executing "a decree for its own proscription, nay, its own death sentence."

The German people, the note says, have been disappointed in their "hope for a peace of justice, which had been promised" and stand "aghast" at the demands made upon them by the "vicious violence of our enemies."

Outlining the counter-proposals, the German delegation agrees to reduction of Germany's army and navy, on condition that Germany be admitted immediately to the league of nations; to renounce Germany's sovereign rights in Alsace-Lorraine and Posen, but as to all other territories, which Germany is called upon to give up, the principle of self-determination, applicable at once, is asked; to subject all German colonies to administration by the league of nations, but under German mandatory, and to make the indemnity payments as required, but in amounts that will burden the German taxpayer no more heavily than the taxpayer of the most heavily burdened among those represented on the reparation commission.

Grade Teachers Get Largest Raise.

Dallas.—The largest increase ever salaries of the last year will go to the grade teachers of city schools, according to the final decision of the board of education. The 10c tax fund which will be turned over to the board of education will be divided so that grade teachers will receive an increase of 23.13 per cent over the amount paid this year, and high school teachers will receive a flat raise of \$150. Reserve teachers are scheduled for a increase of 15 per cent.

University Reunion to Honor Victors.

Austin, Texas.—More than 4,000 students and former students of the university of Texas served their nation in some special capacity during the war. Several hundred former students won commissions in the army, navy and marine corps. Seventy-four men and one woman gave their lives in the service. To celebrate the victorious return of her students, and to pay tribute to those who sacrificed their lives in the war, the university has planned a Victory reunion to be held on the campus June 6 and 7.

NEW YORK RECEIVES 2,000 MEN OF 36TH

TEXANS AND OKLAHOMANS EXPECT TO BE ON WAY SOUTH WITHIN TEN DAYS.

New York.—Two thousand Texans and Oklahomans of infantry and miscellaneous units of the thirty-sixth division arrived on the Great Northern and the Cunard liner Saxonia, marking the beginning of the movement to return the Texas and Oklahoma national guard from France. The Great Northern brought the 11th engineers, the 11th sanitary train, headquarters ambulance section, headquarters ambulance companies 141, 142, 143 and 144, and a detachment of company L of the 144th infantry. In addition to these units, the Saxonia brought company G of the 142d infantry, which served as a guard on the casual ship.

The piers were lined with Red Cross and army service workers, who distributed post cards upon which the soldiers indicated to the folks down that they had reached "the United States of America." Army bands gave serenades. The first tune was "The Rose of No Man's Land," played as the Red Cross nurses waived flags, and the soldiers cheered in glad token of their home-coming. It is no unusual sight for the people of New York and Hoboken to witness the return of troops, yet the coming of each boat gives an added thrill.

There were many dampened eyes as the bands played "To the Land Beginning Again."

These rugged southwesterners return in the pink of physical condition, with appetites whetted by outdoor life and a week of sea voyage.

It was related by members of the detachments that the division lost 591 killed and 2,119 wounded, that members of the organization are bringing home 30 distinguished service crosses, 129 croix de guerre and two congressional medals. Its fighting was principally in the Champagne sector.

AMERICAN DEAD ARE HONORED IN FRANCE

PRESIDENT PAYS HIGH TRIBUTE TO THOSE WHO FELL IN SPEECH AT SURESNES.

Paris.—In the American cemetery at Suresnes, on the occasion of memorial day, President Wilson paid just tribute to the enabled Americans who lost their lives in freedom's cause, in part, as follows:

"No one with a heart in his breast, no American, no lover of humanity, can stand in the presence of these graves without the most profound emotion. These men who lie here are men of a unique breed. Their like has not been seen since the far days of the Crusades. Never before have men crossed the seas to a foreign land to fight for a cause of humanity which they did not pretend was particularly their own, but knew was the cause of humanity and mankind. And when they came, they found comrades for their courage and their devotion. They found armies of liberty already in the field—men who, though they had gone through three years of fiery trial, seemed only to be just discovering, not for a moment losing, the high temper of the great affair; men seasoned in the bloody service of liberty. Joining hands with these, the men of America gave that greatest of all gifts, the gift of life and the gift of spirit.

"It will always be a treasured memory on the part of those who knew and loved these men that the testimony of everybody who saw them in the field of action was their unflinching courage, their ardor to the point of self-sacrifice, their full consciousness of the high cause they had come to serve and their constant vision of the issue. It is delightful to learn from those who saw these men fight and saw them waiting in the trenches for the summons to fight that they had a touch of the high spirit of religion, that they knew they were exhibiting a spiritual as well as a physical might, and those of us who know and love America that they were disclosing to the whole world the true spirit and devotion of their motherland. It was America who came in the person of these men and who will forever be grateful that she was so represented.

"And it is the more delightful to entertain these thoughts because we know that these men, though buried in a foreign land, are not buried in an alien soil. They are at home, sleeping with the spirits of those who thought the same thoughts, entertained the same aspirations. Noble women of Suresnes have given evidence of the loving sense with which they received these dead ones as their own, for they have cared for their graves, they have made it their interest, their loving interest, to see that there was no hour of neglect and that constantly through all the months that have gone by the mothers at home should know that there were mothers here who remembered and honored their dead."

ANGELES IS NAMED PRESIDENT BY REBELS

UNDER NEW REGIME VILLA WILL BE SECRETARY OF WAR AND DIRECT FIGHTING.

Washington.—Villa forces have proclaimed General Felipe Angeles provisional president of Mexico and Villa himself secretary of war.

The move, coming as the climax of military operations, considered by the Carranza government so serious that it has asked the United States for permission to move troops through Texas, New Mexico and Arizona, is regarded here as reflecting a situation more serious in Mexico than any since the triumph of Carranza forces over Villa three years ago. Viewed in connection with the activities of the Felicista forces in southern Mexico, the situation is regarded as full of possibilities.

American government officials are refusing to comment on the news until they receive official confirmation. There seems, however, to be no doubt of its authenticity.

Angeles' reported first proclamation announcing that Americans in Mexico would be protected is particularly interesting to officials here, coming as it does on the heels of the refusal of the state department to grant Carranza's request that he be allowed to move troops through American territory for the purpose of protecting Americans in Chihuahua. Acting Secretary Polk announced that he had notified the Mexican government he could not grant the request unless assurances could be given that Americans would be afforded protection while the troops were in transit. That this could not be done had been admitted previously by the Mexican authorities. Governor Hobby of Texas declined to authorize the passage of Mexican troops through Texas without guarantees of protection to Americans and so notified the state department.

Felipe Angeles is well known to American officials through his services to the French government during the European war as inspector of munitions in the United States.

Cotton Export Plan Explained.

Dallas.—Three hundred and fifty Texans, representing more than 65 cotton growing counties, heard W. P. C. Harding, governor of the federal reserve board, define the principles and give emphasis to the needs of the projected American Cotton Export Financing corporation at a meeting held in this city. Governor Harding recited that in his judgment and in "the judgment of practically every banking and financial authority in the country," makes necessary such an institution as the proposed \$100,000,000 financing corporation as the only possible antidote for breakers ahead that will bring about even greater financial disasters than that which brought hardships to the cotton farmers in 1914.

German Deliver Counter-Proposals.

Versailles.—Baron von Lesener of the German delegation informally delivered the completed counter-proposals to Colonel Henry, the French liaison officer. The Germans explained that there had been no time for translations, which would be sent later. The volume containing the counter-proposals is not bound, corner fasteners holding together the 145 pages.

THE NC-4 COMPLETES FLIGHT OVER ATLANTIC

TOTAL FLYING TIME OF 26 HOURS AND 41 MINUTES, NEWFOUNDLAND TO LISBON.

Washington.—Blazing the way of the first trail from the western to the eastern hemisphere, the United States navy seaplane NC-4, under Lieutenant Commander Albert Cushing Read, swept into the harbor at Lisbon, Portugal, Tuesday, the first airship of any kind to have crossed the Atlantic ocean under its own power and through its natural element.

Taking the air at Ponta Delgada, Azores, at 6:18 a. m., Washington time, on the last leg of the transoceanic portion of the voyage from Rockaway Beach, L. I. to Plymouth, England, the NC-4 covered the 800 miles in nine hours and 43 minutes, maintaining an average speed of better than 80 knots. The total elapsed flying time from Newfoundland to Lisbon was 26 hours and 41 minutes.

At the first opportunity the big plane will continue to Plymouth, 775 nautical miles to the north. To the navy department, however, it makes little difference when he completes the journey. The great object of all the effort lavished on the undertaking—navigation of a seaplane across the Atlantic through the air—has been accomplished, twentieth century transportation has reached a new pinnacle and the United States navy has led the way.

Commander Read had with him on the flight to Lisbon the same crew as that which left Newfoundland on the NC-4 on May 16. Lieutenants Hinton of the coast guard and W. K. Hinton were the pilots, with Ensign R. C. Rodd as radio operator and Chief Machinist's Mate E. S. Rhodes as reserve pilot-engineer. The crew was met at Lisbon by most members of the crew of the NC-1 and NC-3, who had preceded them on a destroyer.

New Railroad is Chartered.

Austin, Texas.—Articles of incorporation of the Oklahoma and Texas Southern Railway company with headquarters at Rucker, Eastland county, have been approved by the attorney general's department; capital stock \$200,000. Purpose, to construct and operate a railroad from Rucker, through Eastland, Stephens and Young counties to the town of New Castle, Young county, a distance of 65 miles.

Governors Likely to Visit Dallas

GREAT WAR WORK OF PIGEONS ON BATTLEFIELDS AND THE SEA

Carriers of Vital Messages Ever Since Battle of Marne in 1914.

U-BOAT IS TRAPPED BY BIRD

News From Trenches Taken at Full Speed to Headquarters and Supply Lines—Information Gained From Captured Pigeons.

Paris.—At the Ternes gate of Paris may be seen a memorial, the work of Bartholdi, on which is inscribed: "Monument to the Balloonists and Carrier Pigeons of 1870." What memorial will acknowledge the services of carrier pigeons in the world's war of 1914-1918 remains to be seen, but their work amid barrage fire, bursting shrapnel, the zip-zip of machine-gun bullets and the death destroying gases was of enormous value.

Carrier pigeons were used on all the battlefronts but their best work was on the western front, from the channel to the Swiss border and from the Alps to the Adriatic gulf. They carried messages at the Marne, when the Hunns were driven back by Marshal Joffre. Hundreds were used in the battle of the Yser, in Flanders, when the Belgians and the French halted the German advance; and they made many and frequent trips in the first battle of Ypres, in the drive on the channel ports when the British, French and Belgians stopped the Germans decisively in the final battle at the close of 1914. They aided in the capture of Neuve Chapelle by the British and they died in numbers with the British Tommies at the second battle of Ypres, when the Germans advanced toward the Yser canal using for the first time poisonous gas. Again the birds did valiant service when the French tried to break through in the Champagne in the fall of 1915, and in the whole series of the Verdun attacks lasting through July, oftentimes the only communications with men in advanced stations were the dogs that crept through the barrages and the carrier pigeons that returned with messages. Where telephone and wireless broke down, and men could not survive the storm of shell fire, it is recorded that 97 per cent of the messages carried by carrier pigeons came safely through.

Told of German Retreat.
When the Germans retired to the "Hindenburg line," it was carrier pigeons carried forward into the front advance lines that brought back the news of the retirement long before telephonic communication could be established. Through the whole area, 1,300 square miles, on a front of 100 miles from Arras to Soissons, carrier pigeons did their work effectively. And wherever the Americans fought, at Cantigny, Chateau-Thierry, Torcy, Boursches, Belleau wood, Conde-en-Brie, Bazancourt, Jaulgonne, Fere-en-Tardenois, Blizne, Clerges, Villers-Argnon, Fismes, Frapelle, Bazoches, Juvigny, St. Mihiel, Argonne forest—carrier pigeons were likewise on the job.

A carrier pigeon aided in capturing a U-boat and her crew. A coast watcher on one of the loneliest parts of the west coast at sundown saw the tip of a periscope arise and then the conning tower of a U-boat. The underwater boat stopped, and the officers and crew were seen on deck. The lookout man tied a note bearing the information to the leg of a carrier pigeon and released it from his basket. The next morning a German submarine, which had run out of gasoline, and its officers and crew were taken to a naval sub-base.

A British patrol boat was discovered by a German submarine and torpedoed and shelled. The skipper, having on board a carrier pigeon, wrote a brief message, telling his position and what had happened. As the boat sank, the skipper began swimming for some wreckage to cling to. The pigeon went up gradually in a spiral, and the Germans, seeing it, began shooting at the bird. The skipper, drifting on the wreckage, gave up hope when he saw the bird had been hit. Twenty miles away, however, it lighted on a patroling destroyer, its silver-gray plumage

specked with blood, its tall feathers shot away, and one of its wings wounded. The commanding officer read the message, the destroyer was rushed at full speed to the place indicated, and within three-quarters of an hour from the time that the pigeon was sent off, the officers and crew of the patrol were picked up where they clung to the wreckage.

Spy With Pigeons.
An American at Liege, in writing of the German advance, told this incident: "As I returned to the city, walking along the river Meuse, I saw one who, oblivious of war and its alarms, was dangling his legs over the water and peacefully fishing. The battle in the air, which he must have witnessed, had not moved him. The certainty that the Germans were only a few miles away had not concerned him. He smoked his pipe and placidly cast his line. It was soothing to overstrained nerves to see that chap, but it was only a few hours later that I learned a German spy had been arrested as he posed as a fisherman, with a creel full of carrier pigeons."

Another story reads: "In the cow, habit and tansure that mark the monk a young man told his beads aboard the train bound for Antwerp. And a woman, hardly more than a girl, kept her eyes fastened on the man of prayers. She studied on the devotion with which his fingers slipped from decade to decade of the long, well-worn rosary that hung from the cinchure about his waist. But, although his lips appeared to move in humble supplication, the woman saw that he had failed to kiss the cross. The lapse was significant."

"Spy!" the girl hissed into the face of the alleged ascetic. In an instant two guards had seized the man and rushed him down the train corridor. The woman examined the small wicker basket behind in the seat. Lifting the lid, she found three pigeons."

Get German Pigeons.
A news dispatch briefly summarized such a find thus:

"A German trawler was captured by a British warship near the Orkney Islands to the north of Scotland. She is believed to have been engaged in spying, as carrier pigeons were found on board."

Reference has already been made to the number of messages carried back to the French lines by carrier pigeons in the defense of Verdun. A pigeon captured by the French conveyed this information:

"The rolling fire of the enemy with guns of the heaviest caliber is such that sectors S, C, and H are to a great extent leveled. The garrison, including that of sector V, is disorganized completely. Some of it has been obliged to fall back on the Eighty-third and Ninety-eighth regiments, which also had to retire."

"Sector V (von Raun's) was subjected to such fire that its observation post was put out of order. All sorties are being bombarded and one is occupied constantly in replacing them."

"The battalion asks its immediate

relief this evening by fresh troops. It can fight no longer.

(Signed)
"FIRST LIEUTENANT STEIN-BRECHT."

Carrier pigeons tell headquarters of the progress of a battle. Here is a typical report when the French army fought along the Alsne:

"It immediately appeared that the destruction of the German defense had been accomplished with as much success as could be hoped for in so difficult a country. By 7:30 a. m. we learned by carrier pigeon and other means that the Chateau de la Motte on the French left near Allemant had been carried, and that at the center Malmaison fort was taken. At 8:45 Allemant village had been occupied, the prisoners numbered a thousand, and the French assault troops were advancing across the central plateau toward Vandesson and Mont Parnasse quarry. At 10:30 the news was that they were at the north of Hill 173, the further spur of Malmaison plateau, and in a quarry 220 yards west of the fort. By 2:45 p. m. the villages of Chavignon and Vandesson, with several neighboring quarries lying on the northern edge of the Alsne hills, had been occupied. Chavignon was the furthest point contemplated in the plan and represented an advance of one and one-half miles made in the face of the best remaining troops of the German empire."

Aided by Camouflage.
While many carrier pigeons changed their habits of spiraling, finding it a dangerous practice and learned to fly back and then forward at an altitude comparatively low, camouflage aided birds considerably in getting back to their loft carrying with them messages from troops in front. At Fort Vaux, in the battle of Verdun, the crown prince's army had a special group of men shooting down carrier pigeons as they left the fort.

And another story of Verdun. It was at Thiaumont, sixteen times taken, lost and retaken. Wireless and telephones had long ceased to exist. No human being could cross the terrain. The commandant was in desperate need of communicating with the rear. Suddenly the glasses revealed a dog, crouching on its belly, crawling through the flashes, and in a moment of temporary lull leaping forward. On its back was a pannier. Nearer and nearer the dog came, and prayers were involuntarily offered as the beast flattened out here and there in the debris for shelter. Another lull and the dog leaped forward and at last it scampered into Thiaumont with the pigeons safe in the pannier. On the dog's collar was this message: "We relieve you by attack on Froldterre, 3 p. m."

"Stop the German battery on our left. Here are the elements for pointing," was the written message of the commandant sent back by one of the pigeons. Another momentary lull and the pigeon is released. Dog and pigeon, faithful and distinguished friends of man, have done their work to save civilization.

Red Cross Workers Aid Exiled Greeks

Athens.—In its work in the Greek Islands the American Red Cross has the co-operation of the United States navy. Six submarine chasers have been assigned for transporting personnel and supplies.

On the island of Mytilene are 52,000 Greeks, who fled there from Asia Minor five years ago. Red Cross workers are regularly visiting all the towns and clothing has been given to about 20,000 of the refugees.

At the outbreak of the war, in 1914, there were 3,000,000 in Asia Minor. More than 500,000, escaped to the islands in the Aegean. Thousands were massacred. Armed bands of Turks roamed the countryside, plundering and murdering Greeks wherever

found. The others, driven out of their homes and sent inland, are now returning, to find their homes either destroyed or occupied by Turks.

The refugees in the Aegean Islands intend to return to Asia Minor as soon as conditions permit. At present the Greek government gives each refugee six cents a day.

The Red Cross is devoting much attention to the prevention of further epidemics, such as the typhus scourge, which took such a heavy toll at Mytilene.

Food is scanty and costly, and most of the refugees are underfed, even in the large towns. Nearly all are in rags. The hospitals are short of medicines and other supplies, and have been crowded by influenza cases.

Clothing, blankets and medicine are needed on all the islands. Canned meat for broth is wanted in the hospitals. American women run the workshops where clothing is made on the three islands of Mytilene, Chios and Samos.

22,000 in Town of Mytilene.
Of the 52,000 refugees on Mytilene 22,000 are in the town of Mytilene and its suburbs; the others are scattered about in 62 villages.

Of the 20,000 refugees on Chios part are sheltered in old houses and the rest in wooden barracks, divided with bagging and old carpets into "rooms," each accommodating a family of from five to ten persons.

The islands of Lemnos, Imbros, Tenedos and Samothrace are served with Red Cross supplies from Mytilene; Oinoussa is served from Chios, and Icania from Samos.

The American Red Cross agents were received at Mytilene with the greatest enthusiasm. The horses were unhitched and the carriage drawn by a cheering crowd to the residence of the governor general, who commandeered a private home and placed it at their disposal.

DADDY'S EVENING FAIRY TALE BY MARY GRAHAM BONNER

THE PONIES.

"In a stable," said Daddy, "there were two ponies and their names were Stephen and Betsy. Along side of their stalls was a bigger horse whose name was Alfred."

"Now Alfred looked after Stephen and Betsy and told them what they should do and how they should act. And he did more besides this, for it would have been rather tiresome if he had spent all the time telling them how they should behave. So he told them stories, too. And I shall tell you of an afternoon they all had of story telling in the stable."

"Betsy and Stephen," said Alfred, "I have taught you your lessons for the day. I have told you how you should neigh politely when you are given a lump of sugar and some oats."

"I have also told you what rides you should take the children. I have told you how you should take them along so nicely while they tell you what nice ponies you are."

"And I have told you that you mustn't kick or bite or behave badly, for no well-behaved pony will do that. And, too, I have tried to let the children know that the better they treat you the nicer you will be. For that is the way with all of us, big horses, people, ponies."

"The better we are treated, the nicer will we be, for then we won't feel nervous and miserable and unhappy, but we will feel cheerful and pleasant."

"I have tried to tell them this when they have come in the stable. I have looked around at them and I have

"I Had a Most Glorious Run."

tried to make my eyes tell them a good deal, how we like to be well treated and loved and cared for, and how we in turn do our parts."

"And I have neighed at them to let them know I was giving them a little horse's talk."

"But now I must tell you of an adventure I had some time ago."

"Oh, yes," said Betsy, "please tell us about your adventure." And Betsy got on the floor of her stall and looked all ready for story-telling time.

"Please tell us your adventure," said Stephen, and he stood up, for he thought he would like to hear of the adventure better that way. Both these ponies were black, with black manes and black tails, and oh, their hair was so soft and lovely!

"Once," said Alfred, the big horse, "I ran away. I got out of my stall, and at first I had a glorious run. I went and I went and I went. But after awhile I became very tired. Then I began to try to find my way back home."

"And I couldn't do it, and oh, how dreadfully worried I was! I didn't know what to do. I tried to find my home, and I kept going and going, without reaching it."

"After awhile a nice farmer met me and said 'Whoa' in such a kindly voice that I stopped. He took me into his stable and gave me fine oats, and then he took me back home, for he had heard I had run away."

"Betsy and Stephen neighed that the story had such a happy ending."

"Yes," said Alfred, "and I was so glad to get home that I never wandered off again."

"But I have another story to tell you of the time I took a little boy for a drive for the first time. He had never been driving before, and my master heard that he had been sick, and that driving would be good for him; only he had no horse to drive."

"And I was the horse which pulled him along as he took his first drive."

"Never will I forget how he loved the countryside and the flowers, just coming out, and he thought I was so wonderful. Think of having taken a child for a drive who had never been before!"

"Wonderful," said Betsy.
"You've told us such nice stories," said Stephen.

The Help That Counts.

No one can help you much. No one can help you at all, except as you help yourself. Others may point out the road, but you must walk in it. Others may show you the right, but you must choose it. Do not sit down and wait for help to live better and accomplish more. The help that really counts comes from yourself.—Giri's Companion.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit.

The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism.

HAD DECK OFFICER WORRIED

Lookout's Report of "Light Ahead" Naturally Caused Alarm, and Quite Likely Some Profanity.

The lookout had been given orders to keep a sharp watch for any lights. As the ship was just about twenty miles from port and it was a bit hazy the officer of the deck put on running lights.

Suddenly a hail came from the crew's nest:

"Light ahead, sir!"

"Where away?" shouted the O. D.

"Dead ahead!" came the reply.

The O. D. grabbed his glasses, and not finding the light ran from the port to starboard side trying to pick it up.

"Not seeing it, he yelled again: 'Where's the light now?'"

"Dead ahead, sir."

Calling the quartermaster to swing the boat around, he asked once more:

"Where is the light now?"

"Dead ahead."

"Come down here and show it to me," cried the O. D., getting excited.

Down came the man from the crew's nest and pointed out a light.

"You fool, that's our own mast-light!"—Judge.

Too Much So.

"I've got one here. I've dramatized a spring cleaning."

Joe Cannon's Sarcaasm.

Senator William M. Calder at the dinner of the Men's union of the Central Congregational church told this story:

"A congressman had prepared what he considered was an epoch-making address and was on tenter hooks to deliver it. He appeared to be more interested in his speech than he was in his bill. His bill, however, was a good one, and Speaker Cannon was trying to help it along. There were only a few moments left in which to do business and the man with the speech finally got Uncle Joe riled."

"If the gentleman will just wait a few moments till I pass his bill," said the speaker, "he can then make his speech."

Fox on Load of Hay.

A teamster in Pennsylvania carrying a load of hay not long ago noticed a number of fox hunters and dogs and wanted to see if anything happened. When the hunters came up they asked if he had seen a fox. He said he had not.

Some miles further on the teamster stopped to talk and got off the load of hay. As he was chatting he saw a fox leap from the wagon and trot off. The fox had evaded the dogs by leaping on the load of hay and burrowed into it before the dogs came up at his last stopping place.

TEN PAGES THIS WEEK

Wonder if Gov. Hobby is effected with the third term bug, too?

The public that pays the freight is becoming weary of strike tieups.

It looks to a bystander that this "sympathetic" strike business is being everworked.

It looks like the Democratic party is bankrupt in presidential candidates.

We need the conscience of women in politics. Bryan yes, put women in politics and they will soon have as little conscience as the men.

All this talk of running Wilson for a third term should cease. No man, however great he may be, should be offered what Washington refused to accept.

This talk of Wilson for a third term and Bryan for a fourth race shows that some Democrats consider the party has no available men from which to select a presidential candidate.

They are talking of Bryan as the Democratic nominee for president. Bryan rode the old Democratic donkey in three races, and like to have broken his wind for good. Why put him on the poor old mule a fourth time?

Harris County went pro and Harris County is the home of the Houston Post, Col. R. M. Johnston and George Bailey. If any further

evidence was needed that the open saloon in Texas is down and out for good, Harris County and the city of Houston have furnished the evidence.

Old John Barleycorn has been killed by law, but he has been killed so often and come to life again better watch him. Legally J. B. has been dead for several years in Callahan County, but we hear some whisper around that his "spirit" has been seen in Baird recently.

You do not want even a smelling acquaintance with boot-leg whiskey. It is dangerous in more ways than one, as some of our people know. The man who will violate the law to sell whiskey will not be over scrupulous about the quality of his goods. That is why boot-leg whiskey has such a bad name, every where.

If a third term for the Presidency why not a life term? The third idea as to the Presidency is at war with every fundamental principle of our government and no Democrat, especially, should think of such a thing. We have broken enough precedents during President Wilson's term, caused by the war, without committing the inexcusable folly of nominating him for a third term.

Some of the members of the Legislature predict that the legislature will ratify the suffrage amendment at the called session, regardless of the defeat of woman suffrage in the recent election. Very likely. The last legislature ratified the national prohibition amendment regardless of the fact that the people of Texas had defeated prohibition every time it was voted on. Some reformer are under no obligations to the people who elect them, it seems.

Barry Miller, member of the legislature, expresses surprise at the defeat of woman suffrage saying that the women have the right to vote in primary elections, why not in all elections? The voters of Texas by their vote have repudiated, by implication, the act of the legislature in allowing women in the primary.

The people are supposed to be the master, but not in Texas. The legislature is our master. They ratify national amendments to the federal constitution without referring to the people. They remove objectionable state officers at will. They enfranchise women as to primaries, not legal voters in any sense

and we predict will override the will of the people as expressed at the last election and ratify the amendment to the federal amendment granting suffrage to women. Senator Sheppard says the vote of Texas on women suffrage will not effect his acts in the senate. Certainly not. No reformer considers himself bound by the vote of the people if the vote is contrary to their wishes, U. S. senators are supposed to represent a majority of the voters in their states. If senators Culberson and Sheppard refuse to obey the vote of their state, the people of Texas should demand this resignation but they won't.

The legislature in state affairs is our Master, and Congress is our Master in national affairs, regardless of protest.

State and national representatives who disobey instructions of their constituents are embezzlers of power says Mr. Bryan, but they are worse. They are doing more to spread Bolshevism than all other agencies.

TO SCHOOLS DESIRING STATE AID

During the next two years the State will distribute two million dollars annually among schools needing aid in order to run their terms six or more months. To be entitled to receive this money schools must meet the following minimum requirements:

1. Vote a 50 cts., on the \$1.00 school tax.
2. Construct State Plan School Buildings, or Remodel Old Houses according to State Instructions.
3. Provide State Approved Room Equipment.

During the last four years three million dollars have been given to perhaps some three or four thousand schools in the State, and about 25 schools in Callahan County received some \$16,000 or more, these districts spending for school improvements more than \$40,000 on better houses, \$30,000, and for equipment \$10,000 and, the result is very gratifying, for these schools now rank "First Class" in the State and County Classifications of Schools. The majority of these districts voted school bonds to do this improvement.

Several districts have already voted bonds in order to qualify for aid this year and many other districts have requested the County Judge to order elections to be held soon. All other schools desiring to secure some of this State money should begin to get plans under way at once to meet the requirements and place their applications with the State as soon as possible. Application blanks will be sent to County Superintendents about the 1st or 15th of June and distributed among schools.

If your school needs a better house and more room equipment, and, your patrons wish to make a sacrifice in spending a little more money in providing a better school, I am convinced that this State Aid Appropriation will afford your district a splendid opportunity to "put over the proposition." More complete information will be given to trustees and patrons on request.

Respectfully submitted,
S. E. Settle,
County Supt.

PRODUCE INFERTILE EGGS

Poultry experts in a position to know whereof they speak estimate that \$15,000,000,00 are lost annually because of the production of infertile eggs during the summer months.

Fertile eggs will not keep during warm weather at a temperature above 60 degrees, and few people in the rural districts are able to keep their eggs at a lower temperature. Infertile eggs will keep for about two weeks in edible condition, which gives time to gather the eggs and get them to market.

Furthermore, during the spring and summer it is customary to eat eggs morning noon and night until one can scarcely stand the sight of an egg, simply because they are plentiful and may spoil.

It would be much better to save the eggs when the hens are not laying so plentifully, at which time eggs are at a premium.

This may be done by producing infertile eggs. Drive the rooster from the flock. This will not interfere with egg production. In fact expert poultrymen seem to feel that that it helps the production. Kill the scrub rooster, and pen the pure breeds until fall. Do not place them in a small pen, but rather in a roomy shady enclosure, where they may get plenty of exercise, grass and insects.

Eggs may be preserved in water glass and used during winter.

May the 29th has been set aside to banish the rooster from the flock and introduce the great drive for the production of infertile eggs in order to save Texas proportion of the annual loss.

For further information regarding this great drive see your County Agent, I. B. Cupp, or Home Demonstration Agent, Miss Bess Greenwood Baird, Texas or write to The Extension Service A. & M. College, of Texas.

PEACE CONFERENCE

It looks like things are becoming hopelessly muddled at the peace conference

The League of Nations part has been so amended, changed and twisted that no one seems satisfied with it, and it is a question now whether the United States Senate will ratify the treaty containing the League part. Our boys are coming home, and the idea is growing that our nation must get free of European entanglements as far as possible, and as soon as possible.

Faith in the League of Nations is losing ground. If the nations involved cannot agree on peace terms among themselves, how can they expect the world to have any respect for the League in the future?

The world is longing for permanent, just and durable peace and grasped the League of Nations plan as the one and only hope for a just and fair settlement, not only of this war but to prevent wars in the future. The nations responsible for the League plan cannot agree among themselves as to the proper course to map out.

All agree that Germany must pay, but all are not agreed as to how much Germany can pay.

Dr. Powell was summoned and found that a bone in his shoulder was fractured but thought he would recover all right. He was getting along very well at last report. He had a narrow escape from fatal injury, to say the least of it.

Booze Is Not a Good Cure
From the Ames Iowa Intelligencer

When a man comes to you all doubled up with pain and declares he will die in your presence unless you procure him a drink of whiskey, send him to a doctor or else give him a dose of Chamberlain's Colic and Diarrhoea Remedy. There is a mistaken notion among a whole lot of people that booze is the best remedy for colic and stomach ache.

FLOUR MILL FOR BAIRD

Mr. Gilbert was here this week, representing the Marvil Midget Mill people and efforts are being made to organize a stock company to put up a 40 barrel mill here. Baird business men must see that the mill goes. It will be worth a great deal to the town in a business way, far more than the cost. Mr. Cupp informs us that considerable stock remains to be subscribed before the mill can be put in.

BARBECUE FOR THE BOYS

We want Baird to give a big Barbecue to our soldier boys sometime in July after the boys all get home. Think about it and work it up. We want to show the boys of the county that we appreciate their services, no matter where they served their country, whether overseas, on the sea or in the army or navy this side the sea.

OFFICIAL VOTE

Of the election held in Callahan County, Saturday, May, 24th as announced by the Commissioners Court Monday. All amendments defeated in this County.

For Prohibition	465
Against Prohibition	522
Majority against	57.
For Woman Suffrage	412
Against Woman Suffrage	650
Majority against	238
For Gov. Salary	216
Against Gov. Salary	838
Majority against	622
For Land Amendment	350
Against Land Amendment	699
Majority against	349

The pros carried 9 boxes and the antis 8 and tie vote at Erath, Denton and Caddo Peak.

Suffrage had majority at only three boxes out of 20.

See call on first page of soldiers meeting at Baird Saturday, June 14, to organize a Soldier's Legion. Come on boys and organize. You may have to defend Old Glory against worse enemies at home than you found in Europe, but that is really not the object of the organization.

The object is to have every soldier that served in the army anywhere to organize for their own interest and to perpetuate complete records of the rank and file of the army. No matter what branch of service, or where you served, or how much or how little you served. If you enlisted in the army for only one hour you are entitled to membership. THE STAR will publish a complete list of all members with rank, company, regiment division of all Callahan county boys. This of itself will be history in the future. It will require organization to secure this information. Don't fail to attend the meeting. We want every soldier in Callahan county in this organization.

Mrs. J. J. Price, after a visit here with friends and relatives has returned to her home at Strawn. Miss Essie Walker accompanied by home.

IN MEMORIAM

"One by one we are gathering home." On the morning of March 30th, 1919, came a shadowy hand of death and tore from among those who dearly loved her, the noble spirit of Mrs. H. E. Jones, generally known as "Aunt Mary". Patiently and unswervingly had she borne months of intense suffering. She was a devoted wife, kind and affectionate mother. She had no enemies, none knew her but to love and respect her. Her useful, patient, self-sacrificing life, has better fitted her for the larger life she has entered, we can ill spare her it is true, but she has left behind forever the memory of many noble qualities that will make us better for having been her associates. Heaven is richer by taking her home. She is not dead but sleepeth. Some day, sometime, our hand shall clasp her hand over in that beautiful land where the Angels live among splendors that ear has not heard, that eye hath not seen, nor mind of man hath conceived. She leaves behind an influence for purity and goodness that will live eternally.

Oh! bereft ones, who yet tread on this toilsome journey of life, you sorrow not as those who have no hope, for the hope so sweetly strung and touched on earth now only makes sweeter chords in heaven.

Children and relatives, the beautiful fragments are gathered in God's great store house.

The early ties are sundered but with the eye of faith uplifted, to the bleeding lamb, there will come again a reunion of souls.

To you my friends, my deepest sympathy goes out in this sad parting. God grant we may so live, that when the dark robed messenger of death shall call we may be lifted to enter into eternal rest.

The stream is the calmest when it nears the tide.

And flowers are the sweetest at the evening tide.

And birds most musical at the close of day.

And saints divinest when they pass away.

For her to die, is gain, let us bow in humble submission to him who rules the universe and remember now we see through a glass darkly than face to face.

Joe Mitchell, of Baird, has received a letter from his son, Irving Mitchell who is in France, saying that he had received his commission as 2nd Lieut. ant. We are glad to hear of his success.

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-twisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Toppy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

TEN PAGES THIS WEEK

Cut the weeds.

Our guess is that Gov. Hobby does not feel flattered by the way pole tariat slamed his salary amendment.

Prohibition carried by twenty five thousand, and woman suffrage lost by twenty-five thousand majority. Evidently all prohibitionist are not in favor of votes for women.

The idea of the legislature seems plain. Hook on Woman Suffrage, Governors salary and land scheme to prohibition and pull the whole works through, but she did not work. The traces broke.

Some of the sunflowers and cockle burrs are doing their best to reach the top of the telephone poles in town, with every evidence that they will succeed if not cut down.

From reports from the county baggisting has commenced in dead earnest. This is one time when all West Texas is praying for dry weather for a few week.

Boys, your country is calling you to the wheat fields, and many are answering the call, just as cheerfully as they answered Uncle Sam's call to arms the past two years. No age limit in this harvest call, everyone who can help in any way is needed.

If caught, the sorry devils responsible for the recent attempt to assassinate government officials, we hope every one of them will be hanged. There is no room in this country for two flags, and none whatever for the red flag of anarchy. Smash 'em.

ALL HOME PRINT

Our advertising has increased to such an extent that we are compelled to return to all home print, beginning next week. At first the size will be 5 columns, 8 pages, smaller than at present, but will be enlarged to 6 columns 8 pages if necessary. Treasurer's Quarterly Report

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF W. C. MARTIN, Treasurer of Callahan County, Texas. COMMISSIONERS' COURT Callahan County, Texas, In Regular Quarterly Session, May Term, 1919.

We, The Undersigned, as County Commissioners within and for said Callahan County, and the Hon. J. R. Black, County Judge of said Callahan County, Constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 16th day of May A. D. 1919, at a regular quarterly term of our said Court, we have compared and examined the quarterly report of W. C. Martin, Treasurer of Callahan County, Texas, for the quarter beginning on the 10th day of Feb. A. D. 1919, and ending on the 12th day of May A. D. 1919, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of Callahan County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since his last report to this Court, and for and during the time covered by his present report, and the balance of each fund remaining in said Treasurer's hands on the said 12th day of May A. D. 1919, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Article 867, Chapter 1, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1897.

And we, each and every one of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of said Treasurer belonging to Callahan County at the close of the examination of said Treasurer's Report, on this the 16th day of May A. COMMENCEMENT AT THE COLLEGE OF INDUSTRIAL ARTS MAY 31 TO JUNE 3, WHEN MORE THAN TWO HUNDRED GIRLS WILL RECEIVE COLLEGE CREDENTIALS. A PHENOMENAL RECORD ACHIEVED IN SIXTEEN YEARS BY THIS WONDERFUL STATE-SUPPORTED COLLEGE FOR TEXAS GIRLS

Denton, Texas, May 30, 1919.—The College of Industrial Arts at Denton, Texas, the largest college for women in the United States with the exception of two, and an ideal place where Texas girls receive practical and cultural training that fit and qualify them for usefulness and for efficient service in all of the more important vocations open to women in this country, including especially that of homemaking, will close its sixteenth session June 3, at which time certificates, diplomas and degrees will be awarded to more than two hundred of the most attractive, cultured and thoroughly trained young women of the State, from an equal number of the best homes of Texas. The College opened its first session in September 1903 and has grown just as rapidly as the State Legislature has provided facilities to accommodate the constantly increasing number of girls who have annually applied for admission. The attendance during last session reached 1910 (1260 girls during the regular session and 650 during the summer session) and when the record for the present academic year has been completed, August 31, 1919, a marked increase in the number of students over that of last session will be shown. The College gives that type of education that produces the most valuable results when applied to the every-day concerns of real life, and that at the same time gives mental discipline social culture, and spiritual vision and outlook. Experience has demonstrated that the College of Industrial Arts is correct in its belief that a right combination of literary and industrial education stand the test and meet every demand of the present, progressive civilization. A summary of the different kinds of work done by the college follows: 1, Literary; 2, Manual Arts; 3, Kindergarten; 4, Household Art; 5, Homemaking; 6, Public School Music; 7, Reading or Expression; 8, Industry and Vocations; 9, Rural Arts and Science; 10, Fine and Applied Art; 11, Music—Piano, Voice, Violin; 12, Commercial Arts—Typewriting, Shorthand, Bookkeeping; 13, Teacher-Training in Vocational Home Economics; and for the satisfactory completion of the prescribed work of the several kinds the following college credentials are awarded and conferred: 1, Vocational Certificates; 2, Homemakers' Certificates; 3, Public School Music Certificates; 4, Teachers' Certificates; 5, Commercial Arts Certificates; 6, Degree of Bachelor of Arts; 7, Degree of Bachelor of Music; 8, Degree of Bachelor of Science; 9, Degree of Bachelor of Business Administration.

The College gives instruction and training in the literary subjects of as high quality as may be obtained at any other college or university of the first rank, and also gives instruction and training in the technical, vocational and industrial subjects as effectively as those subjects are taught in any other college or university of the whole country. The Vocational Counselor of the College is prepared, and ready at all times, to give students helpful advice and assistance in selecting their courses of study and in making preparation for the various vocations open to women in Texas and the South-west.

All parts of Texas are represented by the student body of the College, and all the honorable professions and vocations and vocations of life are represented by the parents and guardians of the students, the largest percentage of the students, however, are the daughters of farmers and ranchmen. The atmosphere of the College is distinctly moral, religious and democratic. Wholesome recreational activities are furnished by various college organizations, such as the Athletics Association, the Literary Clubs, the Glee Club and Orchestra, and the Y. W. C. A., and various other student organizations that promote a truly democratic spirit and are educational and uplifting in their results.

The instructional buildings, the equipment of the laboratories, the convenience and comfort of the residential buildings, and other facilities of the College conform to the best standards, and make practicable the rendering of the safest, the most efficient, and the most satisfactory education. The best indorsement and strongest commendation of the College are the thousands of Texas girls who have received inspiration, education, and training at the College, and have gone out over Texas to bless the State and make it a better, safer place in which to live. According to announcement the next regular session of the College will open Tuesday, September 16th, at which time it is probable that some 1500 Texas girls will matriculate in the College they love because of the opportunities it affords, and the service it renders. Parents and friends who are interested in the College may obtain a catalogue by addressing President F. M. Brally, College of Industrial Arts, Denton, Texas.

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.

Swift & Company, U. S. A.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

Just Missed Him. A negro was trying to saddle a mule, when a bystander asked: "Does that mule ever kick you?" "No, sah, but he kicks sometimes where I've jes' been."—Berkshire Eagle.

SHOOK WITH NERVOUSNESS

A Lady Was Flat On Her Back With Terrible Spells, But Her Husband Got Cardui,— And Now She Is Grateful.

McKinney, Texas.—Mrs. Mary Stephenson, of this place, states: "About a year and a half ago I was down in bed for six weeks, not able to sit up. I was flat on my back and had terrible spells. . . . Why, it looked like I would die. At times I didn't know anything. I would get nervous, I couldn't bear anyone to talk to me, —I would just jerk and shook with nervousness. . . . across my back was so sore and ached me all the time. I would have a dizzy feeling. My limbs ached and I would get numb and feel so weak. . . . I said to my husband I knew Cardui was good and I believed I had best try it.

He got me a bottle of Cardui, and when I had only taken one-half bottle of Cardui I felt stronger. I took a half a dozen bottles altogether, then in two weeks after I began taking I was up, in three I was doing my work. I praise Cardui for I believe it saved my life and I am grateful."

For over 40 years Cardui has been helping weak, sick women back to health and strength. Try it.—Adv.

Weak From Pain

Mrs. Gibbert Was in Misery, But Doan's Brought Her Splendid Health.

"About 15 years ago my kidneys were in bad condition," says Mrs. Lucy Gibbert, 15310 Columbia Ave., Harvey, Ill. "There was a constant, dull, bearing-down pain in the small of my back. I couldn't turn over in bed without such pain I could hardly breathe. Mornings I was stiff, sore and lame all over; my back was like a rusty hinge. "Inflammation of the bladder nearly drove me wild. The kidney secretions passed every little while, day and night, a little at a time, and burned like fire. Great seas of water formed under my eyes. "I was in such misery I would become weak and so nervous I would scream. I had nerve-racking headaches and the back of my neck pained me. I was so dizzy I didn't dare bend over for fear of falling on my face. My sight became blurred. I was sick all over. "Five boxes of Doan's Kidney Pills cured me of kidney trouble. Since then I have enjoyed splendid health and I owe it all to Doan's. "Starts to before me. SAMUEL DANICK, Notary Public. Get Doan's at Any Store, 60c a Box. DOAN'S KIDNEY PILLS. BUNGALOW MAKES DESIRABLE HOME

Five-Room Design Has Many Appealing Attractions.

IDEAL FOR SMALL FAMILY

Exterior of Design Here Shown is Pleasing to the Eye—Rooms Are Arranged for Convenience and Comfort.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1527 Prairie avenue, Chicago, Ill., and only enclose three-cent stamp for reply.

By WILLIAM A. RADFORD.

There is a longing for a home deeply rooted in the mind of every man, woman and child. Ofttimes the individual does not realize that he has this longing. But it is there and is brought to the surface in many ways. It may be the desire for a garden; for a breathing space all his own, or it may be the realization that the children need a place to play.

But what appeals to the thrifty citizen is the fact that it is economical to own a home. Money does not come

Consequently its full buying power should be realized. Many believe that renting a home is cheaper than buying one. If this were so there would be no investors in rentable property. Every renter can rest assured that when he pays rent he is not only paying for the house he lives in, but a profit besides. Just now, with fewer homes than there are families to live in them, the profit is what might be called "handsome." The property owner, like most other business men, has something that is in demand and he gets all the profit he can. It is economy to be your own landlord.

The need for homes and the desire of the government to promote building to keep the commercial and industrial life of the country prosperous has caused many, who have not heretofore considered it, to build their homes this year. The homes that will be built will be of many types of architecture. Some want and require large houses; others will build small houses.

The exterior view shows what a fine little home can be built from this design. The novel roof and porch treatment make its exterior pleasing to the eye and one that will give the owner a strong sense of satisfaction. The five rooms are arranged for convenience and comfort and are planned to give the owner a modern, livable home.

The dimensions are 30 by 40 feet, just right for a lot of 50 feet or more. The materials used are wood, with shingle siding for both house and porch, although faced brick would be exceptionally suitable for the porch, or for the whole structure.

From the floor plan that accompanies the perspective, it will be seen that the porch extends two-thirds of the way

across the front and around the side. The entrance is into a small vestibule at the end of the porch on the side. The living room, 21 by 12 feet, extends across the front of the house, and has a fireplace in the end wall. Back of it to the right are the dining room and kitchen, while on the other side are two bedrooms, with the bathroom opening off the center hall.

The dining room opens off both the vestibule and the living room, there being no doors in the opening off the latter. This room is 13 by 14 feet 6 inches, and has three large windows on the side. The kitchen 8 by 13 feet,

is at the rear corner. How well the fixtures are arranged in the kitchen, so as to make the work easy, is shown on the floor plan.

Off one corner of the dining room is a hall, at the end of which is the bathroom. Both bedrooms, 13 by 11 feet, also open off this hall. Plenty of closet room is provided, there being one in the vestibule, one in each bedroom and one in the hall.

Under the whole of the house is the basement, which is reached by stairs opening off the kitchen. The flue for the heating plant is at the front, so that that portion of the basement may be partitioned off, to keep the heat and the dirt from the fuel away from the vegetables and other storage rooms.

From this brief description and from the exterior view and the floor plan, it may be seen that this is an exceptional bungalow design. However, it always is well to consult an architect before building. In comparison to the advice he can give the prospective builder, his fee is small. It is easy to make costly mistakes in building, and with a reputable architect these will be avoided. The cost of this bungalow can be ascertained from him, or the local contractor or material dealer, there being no fixed price on labor and materials that will apply to all parts of the country.

Buying a home is not a hard matter. In almost every community bankers, real estate men and local chambers of commerce have devised, or are now devising, plans that will enable any reputable man of family to build his home this year. After the house is erected, the cost can be paid as rent, covering a period of years. In this way every man can own his home.

When the satisfaction that comes

with the possession of a home is considered, the responsibility that many people are loath to assume is well paid for. The home owner is the respected man in his community. He is a fixture that every other good citizen looks up to. His credit is good, and can be capitalized when needed. If the time comes when he is compelled for any reason to raise money, he has the finest security in the world, a piece of improved real estate.

It certainly pays to build a home; ask anyone who has one. And now is the time to build. While prices are higher than they were before the United States got into the war, they will not be lower for many years to come; in fact, prices of building materials have not advanced in proportion to the cost of other necessities, which leads some experts to the belief that they will be higher.

There will be thousands of new homes erected this year. And by just as many thousands as there are new homes, there will be increased the number of satisfied American citizens.

Made-to-Order Gravel for Ships.

The majority of contractors have to take gravel as they find it, and geologists tell us it was a long time in the making. It seems that it may no longer be necessary to wait for nature to form gravel from clay, but that it may be made when and where wanted and the method is described in a recent number of Little Journal.

It seems that there was no gravel to be found near the location of a southern shipyard where concrete ships were to be built. Fortunately clays were found to possess the necessary characteristics to enable them to be burned to

hard, though porous, lumps, and a second series of experiments showed that when the rate and temperature of burning was controlled it was possible to produce lumps of the desired size.

Something of a "Moose."

"One of the London Scottish," says Fullerton L. Waldo in "America at the Front," published by E. P. Dutton & Co., "was amazed when a boy from Maine showed him a picture of the antlered monarch of the Maine woods and told him it was a moose." "A moose, mon? A moose? In the de'il's name, hoo big air yer rats?"

Rejoice!

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By REV. P. H. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.)
Copyright, 1919, by Western Newspaper Union.

LESSON FOR JUNE 8 OBEEDIENCE.

LESSON TEXTS—Gen. 12:1-4; John 14:23-24; Matt. 7:16-23.
GOLDEN TEXT—Ye are my friends, if ye do whatsoever I command you.—John 15:14.

ADDITIONAL MATERIAL—Deut. 4:1-10; 1 Sam. 15:22-23; Matt. 5:19; Acts 4:19, 20; 1 John 2:16-24.
PRIMARY TOPIC—Showing Our Love to God by Obedience.
JUNIOR TOPIC—Abraham's Obedience and Its Rewards.
INTERMEDIATE TOPIC—When to Obey and How.
SENIOR AND ADULT TOPIC—Obedience a Test of Discipleship.

I. A Notable Example of Obedience (Gen. 12:1-4).

At the command of God Abraham went out not knowing whither he went (Heb. 11:8). His was not the obedience of convenience or prudence. To separate from home and kindred and take up the life of a pilgrim was not easy. Abraham did not stop to ask why, or what he would get out of it. The obedience that asks why is not obedience at all.

II. The Motive of Obedience (John 14:21-24).

The grand incentive of obedience is love to God. The obedience that is the result of fear or the hope of reward is not true obedience, therefore has not the approval of God. Only the child who reverences his father and affectionately strives to obey him enjoys his loving favor. The obedience which springs out of a heart of love issues in a life of joy and friendship with God (John 15:10-14).

III. The Solemn Obligation of Obedience (Matt. 7:16-23).

1. Warnings against false prophets (vv. 15-20).

(1) Their real existence. Ever since God has had a people false prophets and teachers have appeared among them. This need not surprise us, for Christ predicted that such should be the case.

(2) Their nature (v. 15). (a) Hypocritical. The devil does his most successful work by masquerading as an angel of light (II Cor. 11:14, 15). His ministers appear in this way and turn people from the narrow to the broad way. (b) This is suggested by their being "ravening wolves." It is when the wolf is in sheep's clothing that he does his most destructive work. The enemies of Christ posing as his ministers are most destructive.

(3) The unfailing test (v. 16-18). Their fruits. If one gives sufficient time for development the fruit can be discerned. Every tree bears its own kind of fruit. Nature is inexorable in her law as to this. You may search the universe in vain for an exception. It is equally true in the spiritual world. There is a vital connection between the faith of a heart and the fruit of a life. That which comes out in the conduct was first in the heart. A right heart is essential to right conduct. Give the false teachers sufficient time and observe closely and you will find that their lives will prove the teaching.

(4) Their end (v. 19). All false teachers shall finally be punished by being cast into the fire. Although God bears long he will see to it that this wickedness does not go on forever.

2. The dangers of empty profession (vv. 21-23).

Calling Christ "Lord" will not answer for disobedience to his will. One may even be a Sunday school teacher or preacher, and even perform many mighty works, as casting out devils and healing the sick and yet hear the awful declaration of Jesus Christ, "I never knew you," "depart from me."

3. The one and only safe way (vv. 24-29).

(1) Hear the sayings of Christ. To do this, one must prayerfully attend to reading the Word of God and meditate upon the same.

(2) Do what Christ commands. Hearing and doing the teachings of Christ is building upon solid rock. Such building can never be destroyed by flood and storm. Hearing and not doing Christ's sayings is building upon the sand which in time of the storm of God's wrath and judgment will be utterly destroyed. Obedience must follow hearing Christ.

The Need of God. People are asking in these days of upheaval and chaos, "What is wrong with the world." It needs God: it needs the religion of Jesus Christ and it needs that religion practically embodied in the lives of men. We see it in the lives of these men of the gospel. We need men like that multiplied many-fold in every church. We need men like that multiplied ten thousandfold in our land.

Rejoice!

O God, animate us to cheerfulness! May we have a joyful sense of our blessings, learn to look on the bright circumstances of our lot, and maintain a perpetual contentedness.—Channing.

RIGHTONE

BILIOUSNESS Caused by Acid-Stomach

If people who are bilious are treated according to local symptoms they seldom get very much better. Whatever relief is obtained is usually temporary. Trace biliousness to its source and remove the cause and the chances are that the patient will remain strong and healthy.

Doctors say that more than 75 non-organic diseases can be traced to an Acid-Stomach. Biliousness is one of them. Indigestion, heartburn, belching, sour stomach, bloated and gas are other signs of acid-stomach. EATONIC, the marvelous modern stomach remedy, brings quick relief from these stomach miseries which lead to a long train of ailments that make life miserable if not corrected.

ORCHARD TOPICS

SAVING GNAWED FRUIT TREES

Serious Injuries by Mice or Rabbits Can Be Remedied by Bridge Grafting—How to Work.

(Prepared by the United States Department of Agriculture.)

If fruit trees have been seriously injured by mice or rabbits eating the bark and sapwood at the surface of the ground, they can be saved by bridge grafting. First trim off the gnawed parts of the bark with a sharp knife leaving the edges smooth. Then take from the tree a twig of last summer's growth about as thick as a lead pencil and long enough to extend an inch and one-half above and below the gnawed part. Both above and below the gnawed part cut out a strip of bark an inch and one-half long and as wide as the twig or graft is thick. Trim both ends of the graft on the same side by paring it down to about half its thickness for a length of about two inches and then fit the prepared ends into the bark cuts above and below the injury.

Apple Tree Killed by Meadow Mice.

Fasten each end of the graft to the tree by driving in a very fine tack or brad not much thicker than a pin. Cover the ends of the graft and all cut surfaces with grafting wax. A union between the graft and tree will then take place and thus the gnawed part will be bridged over. In very bad cases of injury it may be necessary to fasten the lower end of the graft into one of the tree roots. Place a graft every 2 inches across the injured part.

PLANTING FRUITS IN NORTH

Of Much Importance That They Be Set Out While Plants Are in Dormant State.

(Prepared by the United States Department of Agriculture.)

In the North and wherever the winter conditions are severe on plant life, either from low temperatures, driving winds or other causes, fruits are usually planted in the spring as early as the soil can be put in suitable condition. It is important that they be set out while the plants are dormant and before the buds have started.

CALL APPLE KING OF FRUIT

Estimated Value of \$230,000,000 Placed on Crop by Department of Agriculture.

(Prepared by the United States Department of Agriculture.)

The apple is the king of fruits in value of crop as well as in the estimation of apple lovers, according to information gathered by the United States department of agriculture. For the apple crop of 1918 a value of \$230,000,000 has been estimated, or nearly three-eighths of the value of all fruits.

VEGETABLES IN AN ORCHARD

Crops May Be Planted Between Trees While They Are Small and Do Not Shade Ground.

(Prepared by the United States Department of Agriculture.)

Vegetables can be grown between the trees in the home orchard, while the latter are small and do not shade the ground very much. Some of the early maturing vegetables may even be grown between the rows of strawberries during their first season.

PROTECT FRUIT FROM PESTS

Paper Bags May Be Placed Around Grapes and Securely Fastened by Use of Twine.

(Prepared by the United States Department of Agriculture.)

Choice fruits, especially grapes, may often be protected from insect pests by the use of paper bags placed around the bunches and securely fastened by twine to the supporting shoot or cane. Bags may be put in place as soon as the blossoms have fallen.

I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel, because it makes you sick and you may lose a day's work.

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced, just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a bottle of Dodson's Liver Tone for a few cents under my personal money-back guarantee each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning, because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

IN MEMORIAM

Once more death has entered our midst and called from us Bro. M. F. Justice. Bro. Justice was married to Miss Margaret Sullivan, in Parker County, Texas, in the year of 1892. To this union were born 6 children, 5 girls and one boy, all who are living except one girl who died in infancy. He joined the Admiral Baptist Church in August, 1911, and was ordained a Deacon in June, 1912.

In the death of Brother Justice his children has lost a devoted father; the Church a faithful worker, and the community a good citizen. We extend to his children and relatives our deepest sympathy, and point them to the Savior he loved and served, and in whom he died in the full triumph of a living faith.

R. J. Harris,
J. E. Eastham,
J. M. Mayes,
—Committee.

A precious one from us is gone,
A voice we loved is still;
Another place is vacant in our home
Which never can be filled.

Oh! Father thy gentle voice is hushed,

Thy warm true heart is still,
And on thy pale and peaceful face
Is resting death's cold chill.

Thy hands are clasped upon thy breast.

And in our aching hearts,
We know we have no father now.

—By his children.

RESOLUTIONS

Sister Della Weeks was born in Anderson County, Texas, February 5, 1852, died February 22, 1919. Was married to George W. Weeks in 1868. To this union were born 13 children of whom 5 are living. She was converted and joined the Baptist Church in early life and remained a true and faithful member 44 years, afflicted in body, yet kind and pleasant to everyone and always seeking an opportunity to lead the lost to Christ. She was universally loved. Her life was spotless, a good example for all to follow. She fought a good fight, she kept the faith. She is not dead only quietly sleeping.

Farewell dear sister, but not forever.

There will be a glorious dawn.

We shall meet to part no never.

On the resurrection morn,

Thy thy darling form lies sleeping.

In the cold and silent Tomb.

Thou shalt have a glorious waking.

When the blessed Lord doth come.

Asleep in Jesus blessed Sleep.

From which none ever wake to weep.

Mrs. W. K. Davis

Mrs. J. A. Walker.
