

A lot of Republican aspirants to the White House would have felt a lot better if Cal had said "I won't run."

The American boy is now puzzled over whether he'd rather be Babe Ruth or Lindbergh.

The many jobs assigned to Secretary Hoover is further proof of the old proverb that "a good horse never lacks a rider."

Earl Carroll is to be bathroom orderly at the Atlanta prison, but there wasn't any campaign in the tubs.

Cal may not be the next chief executive, but at least he's a full-fledged Sioux for the rest of his life.

We are skeptical about this campaign against illiteracy. If it succeeds, where are we to get our jurymen?

YOUR OWN NAME

Write your name on a piece of paper and look at it for five minutes.

It is the most precious thing you have. It is connected with all you are and hope to be. Your name carries the life history of hundreds of men and women.

Your father gave it to you. He had in his youth many temptations to soil his name, but wore it ever like a white plume over his heart.

One day your father went and offered his name to a beautiful young woman. She blushed and hesitated. Then her father and mother inquired if the name he offered was a good name.

Finally your mother accepted your name, and she did not wear her engagement ring with half the pleasure that she did your name.

Then, they gave that name to you. Your name was sung into your ears on the music of your mother's cradle song. It was taken to the throne of God on the white prayer sand hopes of your sweet mother. It is forever sacred.

Your father looked into your pudgy little face and breathed a sigh of pride as he thought, "Now I have given my name to a human soul."

More than all earthly possessions is an untarnished name. Yet how easily is a good name lost. It is harder to regain than it is to find again the lost gold in sunken ships.

How do you treat your name?

Is the local merchant glad when he sees your name on his account book?

How does the banker feel when you induce him to lend you some money? Will he have to discount your paper, because your name is not worth 100 per cent?

If the pastor of your little church ever wrote a line after the names on the church roll, what would he put after yours?

The Bible says: "A great name is rather to be chosen than great riches."

If you and I in our poorest moments were given the choice of riches to anything else we might take the riches. But every man who has gotten riches at the sacrifice of his good name has lived to regret his bargain.

You are not done with your name. It will be given to another. It may be your own child, or perhaps some man and woman will honor your life and name their child after you.

The Scriptures say that we shall have names in Heaven and talks about the Lamb's Book of Life.

Treat your name as you do your soul and your inner honor, for what sells one will blast the other.

It is a great and pleasant thing to live and breathe a name that will be a blessing in our communities when we are gone.

I love to look over a book of great names—names that men have handed down, without a smear of devilry on them.

May you and I have enough sense and grace to do likewise.—Dr. J. W. Holland in Venus Express.

ISSUANCE OF BOND ELECTION
The State of Texas,
County of Haskell.

In the Commissioners Court of Haskell County, Texas.

On this the 6th day of August, A. D. 1927, the Commissioners' Court of Haskell County, Texas, convened in regular session, at the regular meeting place thereof in the Courthouse at Haskell, Texas, all members of the Court, to-wit:

Jesse G. Foster, County Judge; J. S. Aharnath, Commissioner of Pre. No. 1; R. B. Guess, Commissioner of Pre. No. 2; T. C. Gordon, Commissioner of Pre. No. 3; L. C. Philips, Commissioner of Pre. No. 4; being present, and among other proceedings had by said court was the following:

There came on to be heard and considered the petition of Jas. F. Cadenhead and 552 other persons, praying that an election be ordered in said Haskell County, for the purpose of determining the following proposition:

Whether or not the bonds of said County shall be issued in the sum of One Million Five Hundred Thousand (\$1,500,000.00) Dollars, for the purpose of the purchase of district roads and the further construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, throughout such County, and whether or not an ad valorem tax shall be levied upon the property of said County, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and

It appearing to the Court that said petition is signed by two hundred and fifty resident property taxpaying voters of said Haskell County; and

It further appearing to the Court that the amount of bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Haskell County, and

Continued deterioration of the cotton crop is reported from many counties of North, Central, East and West Texas, due to abnormally hot weather, excessive shedding of the plant, bollworms, leafworms and boll weevils, according to the Dallas News.

Premature opening of cotton bolls reported from Central Texas due to the dry, hot weather. It is believed that on account of wet spring the cotton plant made a shallow root system and the dry weather is causing heavy shedding. Because in many sections cotton bolls are much smaller than usual, farmers report that 1,000 pounds of seed cotton are required to gin a 500-pound bale.

Whether rains would help at this time is problematical because where the weevils and worms have established themselves, these pests would tend to increase. Farmers in some counties are poisoning with calcium arsenate furnished by Chambers of Commerce at cost.

A few counties, principally in West and Northwest Texas, report normal or better than normal cotton crops with rather bright indications, but throughout the principal cotton production areas of Texas the crop is far from satisfactory. There is slight hope for a top crop under the present conditions. The South Plains country reports good prospects for much of the early planted cotton, but the late cotton will have to have a late freeze to escape damage.

It's really a good thing to have meat out of our diet once in a while. Cheese and eggs are very good substitutes for meats, and can be used in many enticing ways.

A very attractive menu is given today by Miss Margaret Allen Hall, nutrition specialist at the Battle Creek College of Home Economics. This entire meal can be cooked at the same time in the oven, too.

A Good Menu
Macaroni and cheese
Baked chicken
Baked tomatoes
Strawberry shortcake
You may serve any beverage with this meal. Perhaps the family bread, a relish and a salad with slices of lemon, or lemonade.

Macaroni and Cheese
1 1/2 cups grated cheese
1 cup buttered crumbs
4 tablespoons butter
2 tablespoons flour
2 cups milk
1 teaspoon salt

Cook the macaroni in boiling, salted water, until tender. Drain and pour over it a dash of cold water. Make a white sauce of the last four ingredients and mix with the macaroni. Stir the grated cheese into the mixture. Turn into a baking dish, cover with buttered crumbs and bake in a moderate oven until nicely browned.

Stuffed Tomatoes
Stuffed tomatoes are a real addition to any menu.
6 large tomatoes
2 cups stale bread crumbs
2 tablespoons butter
2 teaspoons salt
2 tablespoons finely chopped onion
Cut off the blossom end of firm, ripe tomatoes and remove the inside portion. Prepare dressing by placing the butter and onion in a saucepan and cooking until nicely browned. Add salt and bread crumbs, moistened slightly with juice from the inside portion of tomatoes. Fill tomato shells with the dressing. Place in a buttered pan and bake in a moderate oven about one-half hour.

Strawberry Shortcake
This favorite American dessert, strawberry shortcake, is always a treat.
2 cups flour
4 teaspoons baking powder
4 tablespoons fat
2 tablespoons sugar
1/4 teaspoon salt
1/2 cup milk

Sift dry ingredients. Cut fat in with two knives, add milk slowly. Turn mixture into deep cake pan and bake in hot oven twenty-five minutes. When baked, remove from pan, split, spread with butter, and place sweetened, crushed berries between layers and on top of shortcake.

A huge super-burner which cooks as fast as gas is one of the most recent improvements found on one of the newest and most modern oil stoves.

Also Meatless
Another good meatless meal has corn omelet for its main dish. These recipes are also Miss Hall's.
Corn omelet
Spinach in Bechamel
Fried mushrooms
Cream puffs
Eveverage

In planning several menus you can save using your oven two days in a row. If you make the cream puff shells when you cook Menu No. 1, do not fill the puffs, however, until ready to serve them. Fill with whipped cream, slightly sweetened, or a thick custard.

Cream Puff Shells
1 cup hot water
1/2 cup butter
1 cup white flour
4 eggs
1/2 teaspoon salt

Heat the butter and water to boiling. Add the flour, mixing thoroughly and cook for a few minutes, stirring constantly. Get the mixture cool. When cool add the unbeaten eggs, one at a time, and mix each thoroughly before another is added. Drop from a tablespoon upon a buttered baking sheet and bake in a moderate oven twenty-five minutes, or until light when lifted from the pan.

Corn Omelet
4 eggs
1/2 cup drained stewed corn
4 tablespoons bread crumbs
4 tablespoons milk
1 teaspoon salt

Separate eggs, beat the yolks until thick. Add milk, drained corn, one-half of salt, bread crumbs. Add remainder of salt to whites of eggs and beat until stiff. Fold stiffly beaten egg whites into first mixture. Heat frying pan, grease well, pour mixture into pan and cook slowly over low flame until set. Insert spatula so knife around edge of omelet, remove when mixture is sufficiently set. Place omelet in oven for a few minutes to brown on top.

A Spinach Change
After you have cooked spinach as usual, hold for 15 minutes in the liquid, pouring water over it when the liquid is nearly gone. Put three tablespoons butter in hot omelet pan. When melted, add the spinach. Cook three minutes. Add 1/2 cup milk, salt, and 1/2 cup milk. Cook 10 minutes.

A broiler which is very satisfactory in use, and is one of the most recent improvements found on one of the newest and most modern oil stoves.

On account of the value of small grain, particularly oats, barley, and rye for winter pasture over a large part of Texas, as well as for clover crops, every farmer who has any livestock should sow some of this grain for grazing purposes, if he lives in a section where small grain will grow, states E. A. Miller, Agronomist, Extension Service, A. and M. College of Texas. In case no livestock is to be grazed, these crops will serve the very useful purpose of cover crops to keep the land from washing away and to take up and hold the available plant food, especially nitrogen, which might otherwise be leached out.

For grazing purposes the grain should be sown early, during August or the first part of September, as the experience of farmers is very conclusive that the early sown grain is the most profitable, since it furnishes a good deal more grazing than late sown crops. Small grain pasture, when planted early, will be the means of saving a good many dollars in feed, especially since cotton seed meal and grain will no doubt be rather high this year.

For early planting, oats, barley or other small grain may be drilled in with a small grain drill between the cotton rows or even corn rows, where they are clean, or the seed may be broadcast and then covered with a five-tooth, one row cultivator, harrow, or some other form of "scratcher." At least 3 to 3 1/2 bushels of oats, 2 to 2 1/2 bushels of barley, or 1 1/2 to 2 bushels of wheat should be sown per acre. For grazing purposes it is better to sow grain thicker than when grown only for grain.

If a grain or hay crop is desired, the oat and barley seed should be sprayed with a formaldehyde solution at the rate of one pint of formaldehyde to 10 gallons of water to prevent smut. This amount will be sufficient to treat 40 to 50 bushels. The seed are sprinkled with the solution and shoveled over two or three times, then it is placed in a pile and covered with a wagon sheet or other cover for several hours, after which they should be spread out to dry.

For wheat the copper carbonate treatment is now being used. This method consists of placing the wheat in a tight container which is arranged so that it can be revolved on an axis sprinkling three ounces of copper carbonate per bushel on same, and then through revolving the container so that every seed will be covered with the powder. If you have never grown small grain for pasture, it would be well to give them a trial and be convinced of their value for grazing, as well as for a cover crop.

Was in Misery All Over

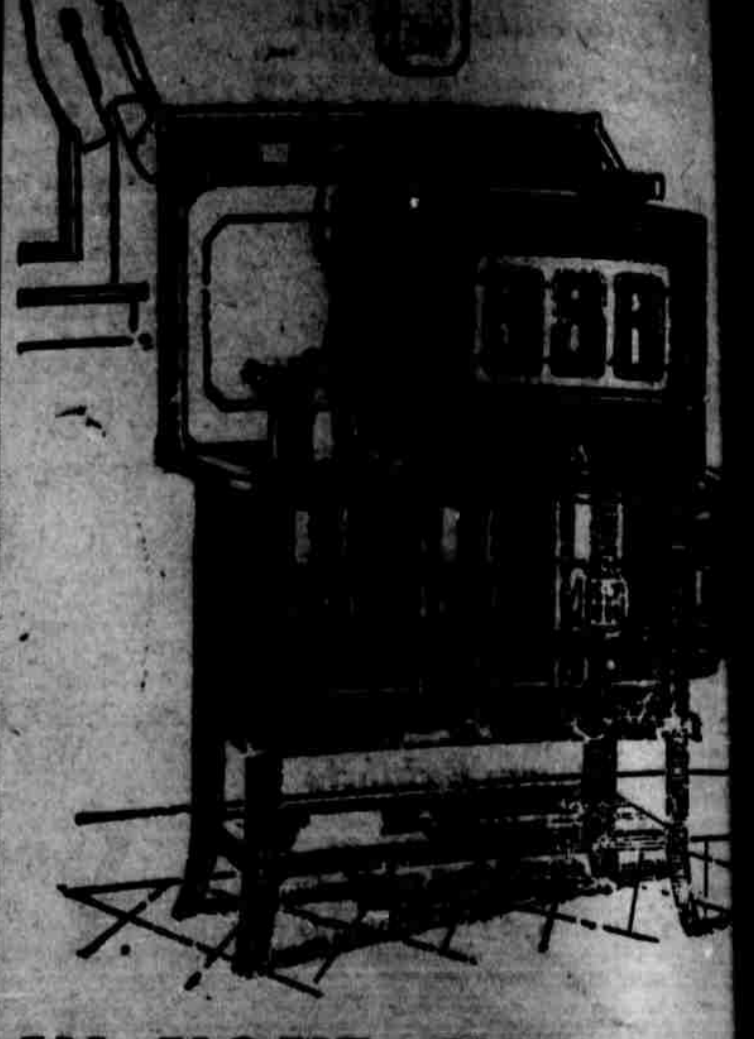

"I was in a dreadfully run-down condition," says Mrs. Chas. L. Lacroix, of Montgomery, La. "I suffered a great deal of pain. I was in misery all over. I could not sit up and I could not lie down. I couldn't sleep and at times I would have dreadful vomiting spells. The aches and pains seemed to cover my whole body."

"One night my husband brought me home six bottles of Cardui and I began to take it. I could tell that I was improving from the first bottle, but I kept on taking the medicine, for I knew that I needed a tonic that would build me up and strengthen me where I was weak and run-down. That is exactly what Cardui did for me. After I had finished the six bottles I felt fine."

"I feel truly thankful for what Cardui has done for me, for I could not have gone on living in the desperate condition I was in."

Sunday, August 28, the church called to order by the pastor and three songs were sung. The president arrived and made a report of the meeting. After a prayer led by Brother Ansel the secretary read the minutes of the last meeting. Then by request of the president Brother Ansel gave a short talk. The meeting was turned over to the Bible lesson, and of Jesus' Apostles were discussed. Group captain No. 1 took charge of the program. Missionary meeting—Ministry of the Home, was carried out throughout the program. There were no old business to come before the meeting but it was decided by vote to hold our next meeting at Bunker Hill. Brother Ansel dismissed with prayer and adjourned to meet Sunday, September 4 at Bunker Hill at 8 o'clock.

B. Y. P. U. Social

Thursday night, August 26, the B. Y. P. U. entertained with the social committee in charge. There was a large crowd and after a song and prayer the fun began. The school house was filled for games with all the seats against the wall. The boys drew for partners but as there were not enough girls for the boys it was decided for the two groups to play against each other. We were very glad to have Brother Arnold drop in and give a message.

He started a new group. He was enjoyed by all. It was the sides and I was won. Group No. 2 Group No. 1 which surprised caused a lot of excitement and Jacob, flowers, and other games were played. The last of all was the cake which was served. There was plenty for one went home happy, another social soon.
