In District Play**

The Yellowhammers did their part in making Homecoming a great event last Friday when they defeated the taunted Aspermont Hornets 52-0. The Hammers ran TDs in each of the first three quarters to take their third straight District 6-A win.

Quarterback James Tompkins struck first when he kept the pigskin for a four-yard touchdown run that climaxed an 80-yard drive in the first quarter. He booted the extra point to make it 7-0.

With 1:37 left in the first period, Ernest Kiker raced six yards for a TD, but the PAT attempt failed.

Tompkins returned a punt 12 yards to paydirt to start a 33-point scoring barrage in the second quarter. After Larry Kelley kicked off to the Hornets, the football rolled into the end zone and Rotan guard Joe Carrillo was there to pounce on it for another tally. Both PATs failed.

The third TD of the period came when Eddie Edwards romped 30 yards. Tompkins booted the conversion. Next, Tompkins fired touchdown passes of 52 yards to Kelley and 35 yards to Steven Baugh. He also kicked the conversions for a 46-0 halftime margin.

Rotan got its final score in the third quarter when Charles McCall ran four yards. A try for extras failed, leaving the score at 52-0.

Aspermont managed only one serious scoring threat. In the third quarter the Hornets moved the ball to Rotan's 18 before bogging down.

The Hammers make their last home appearance here Friday night with Wylie Bulldogs. This is district play.

**Heaviest Rain In
30 Years Falls Sunday**

Most folks admit we got a soaker from Sunday night's rain. An ordinary looking front moved in about 8 p. m. with much electrical display and thunder, but it seemed for awhile we would miss getting moisture, but the picture changed about 8:30 when a steady downpour started and continued for about 6 hours. Little wind and hail accompanied the rain, but roofs that had never leaked before did a good job this time (including the Advance building.)

Part of the business district was without electricity several hours, and WTU servicemen worked until 3 a. m. getting current to practically every customer, but Rotan Gin No. 2. A broken wire over a wide strip of waist deep water had current off at the west part of town and this could not be located until daylight.

Fred Byerly gauged 6.25 inches, which with his Thursday night's reading of .13 gives the wettest October in history of the local weather station. Many private gauges about town read up to 7 inches.

The fall was general over this area in varying amounts. Damage to cotton is undetermined. All agree the grade will be lowered on all, but several fields southwest of town had cotton 'picked' from the burr by rushing water. Much damage was also done in washing fields and terraces over much of the country.

Hackberry Creek flooded a number of Negro homes in the 'flat' and they were evacuated to City Hall for the night. Water rose into floors at several business houses at west end of town, but no damage was reported, just cleaning up.

Many unpaved streets in town were damaged considerably and it will take several weeks for crews to repair.

FM 611 was closed for a short time by high water and several farmers west of Rotan had to drive by Roby in order to get to Rotan Monday. Stock tanks are reported full. Clear Fork rose about noon Monday going across highway 70 in three places, for several hours. Double Mountain river was also on a big rise.

Practically everyone agrees this was the most water seen in Rotan in many years.

**Service For Edd
Darden Held Monday**

George Edward (Edd) Darden, 81, retired trucker, died at 9:30 p. m. Saturday in Callan Hospital.

He was born Feb. 14, 1884, in Pinson, Ala., and married Nora Inness Connelly in Winnsboro, Sept. 16, 1911. They came to Fisher County in 1919.

Mr. Darden had been a member of the First Baptist Church here since 1920.

Survivors are his wife; three daughters, Mrs. Merlin Northrup of Brownwood, Mrs. R. J. Pearson of Rockville Centre, N. Y., and Miss Jo Alice Darden of Fort Worth; one son, William Cecil Darden of Fort Worth; three sisters, Mrs. Annie Blue of Anniston, Alabama, Mrs. Gillie Hurst and Mrs. Noma Self, both of Birmingham, Alabama; eight grandchildren; one great-grandchild.

Young Outlook on Artificial Hair Coloring

The "Young Outlook" question asked this week was "What is your opinion of artificial hair coloring?" Randy Hughes, senior football player, doesn't like it. He thinks that if a girl was meant to have blond hair, she would have born with it. He said, "Artificial hair coloring looks artificial."

Lois Tompkins, freshman, doesn't like it on anybody.

Neither does Rebekah Crawford, senior and secretary of the student council. Her opinion is that dyed hair makes a girl look unnatural.

Jodie Thompson, whose hair has been more than one color, comes back with some positive statements: I love it! I'm for it 100%. It's exciting, and it gives you the feeling that you can be something different every day." Jodie is a sophomore cheerleader.

David Hammit, sophomore and parliamentarian of the student council doesn't like it. He says dyed hair looks "groady" and cheap.

Mary Jane Corhn, a senior and platinum blond said, "Well, I'd more or less have to be for it. However, I don't think I like it as well as before I tried it. It's pretty, if kept, and looks natural-but it's a lot of trouble. Some of it, like frosting, I like, but I like natural better."

Every boy that I questioned did not approve of dyed or bleached hair. The girls were about 50% for and 50% against.

Hammers Play Wylie In Home Finale

The Yellowhammers' fourth district game of the season will be played here tomorrow night against the Wylie Bulldogs at 7:30 p. m.

Wylie has concentrated on defense in running up its fine record this season, allowing only 18 points in the first five games. The Bulldogs are a loud, fiery, team, which makes up for their small size. Wylie has a good quarterback and will give the Hammers a hard-fought game.

This is the year's last home stand for the Hammers. They need everyone's continued support and a victory in each game to stay in the race for the District 6-A crown. Help fill up the stadium tomorrow night and keep the Yellowhammers on the winning trail!

Over Million Rural People Benefit From Water Legislation

More than a million people in rural America may benefit from an expansion in financial support for rural community facilities and family farms authorized by recent legislation, L. J. Cappleman, Farmers Home Administration State Director for Texas said today.

Private investors will provide the bulk of the funds on an insured basis through USDA's Farmers Home Administration.

The legislation signed into law by President Johnson on October 7:

- authorizes an increase from \$200 to \$450 million in the Farmers Home Administration's ability to insure loans in any one year for rural community facilities including water supply and waste disposal systems, and for the development and purchase of family farms.

- provides, for the first time, this type of credit for rural waste disposal systems.

- authorizes, for the first time, grants to supplement this type of credit for rural water and waste disposal systems. Grant authority may not exceed 50 percent of the construction of a project nor a total of \$50 million a year.

- authorizes, for the first time, grants totaling \$5 million a year for comprehensive planning of water and sewage systems.

- increases from 2,500 to 5,500 the size of towns eligible for such assistance.

- increases from \$1 to \$4 million size of a loan, or a combination loans and grant for water supply or waste disposal systems.

The 1,600 field offices of the Farmers Home Administration are being notified to accept applications under the expanded credit authorities. Grant assistance will not be available until funds are appropriated by Congress.

Applications for rural community facilities loans may be made by public bodies and nonprofit private organizations.

The \$450 million in insured loans plus the \$55 million in grants authorized yearly by the Act can help an estimated 800 rural areas containing approximately one million people obtain needed water and waste disposal systems and other facilities, and provide 18,000 farm families with credit needed to secure their foothold on the land.

With this expanded authority, we can be far more effective in helping rural communities and family farmers obtain needed resources, build their economic strength. We must cease looking to the cities for solutions to rural problems. We must work to make rural America strong.

George M. Dorman, County Supervisor for Fisher County, said that 16 farm ownership loans in the amount of \$328,350.00 and 1 soil and water association loan in the amount of \$38,100.00 have been made in Fisher County under the insured loan program.

Real Estate Loans made in Texas since the inception of the Farmers Home Administration are as follows:

- Soil and Water Association Loans 273 for \$28,263,340
- Soil and Water Individual Loans 1362 for \$8,520,653
- Farm Ownership Loans, 8625 for \$100,549,076
- Rural Housing Loans, 5774 for \$47,781,580
- Economic Opportunity Coop Loans, 2 for \$3800.
- Total all Real Estate Loans - 16,036 for \$185,118,449.

Mr. and Mrs. Wayne Poer and girls of Ralls, visited over the weekend with Mr. and Mrs. Walter Hartsfield. Lynna Poer remained for a longer visit with her grandparents.

FU Plans Annual State Convention

Texas Farmers Union is expecting a large attendance at its Sixty-Second Annual State Convention in Abilene at the Windsor Hotel on November 4th, 5th, and 6th. The many new county Farmers Union organizations in the rolling plains area within easy driving distance of Abilene promises a capacity crowd. The Waco based group is the Texas affiliate of the National Farmers Union which was founded in Texas.

Convention delegates will voice their views on state and national issues when they adopt the 1966 policy statement, which is one of the highlights of the three day meeting. State officers and delegates to the National Farmers Union convention will be elected by the assembled delegates.

The convention program will feature speeches by Senator Ralph Yarborough, Congressman Graham Purcell of Wichita Falls, and Congressman Jim Wright of Ft. Worth. President James G. Patton of the National Farmers Union will address the annual banquet session which will be held on Friday night, November 5th. Patton has served as president of the 750,000 member national organization longer than any other national farm organization leader and internationally recognized as an authority on world agriculture.

Other speakers who will address the Farmers Union convention are H. M. Baggarly of Tulsa, noted journalist, and Bill Crawford of Dallas, Southwest Regional Director of the Neighborhood Youth Corps. Lyle Robinson of the Swisher County Electric Cooperative will speak to the convention on his experiences in Viet Nam while serving on a mission there for the national association of rural electric cooperatives.

Convention Planning Committee chairman, Max Carriker of Roby, has announced plans for special ladies activities and a program for the interest and enjoyment of young people attending the convention.

The Board of Directors of the Texas Farmers Union will meet on November 3rd, the day before the convention opens, to select the location for the 1966 convention. The Board will elect seven district directors from the Board to serve on the Executive Committee.

NEW ATTENDANCE MARK SET AT SIX FLAGS OVER TEXAS

Six Flags Over Texas, nationally acclaimed historical theme amusement park located in Arlington midway between Dallas and Fort Worth, recorded 1,625,743 admissions through Sunday, October 10, topping the 1964 season attendance record of 1,622,566 visitors.

Another month and one-half remains on the Six Flags 1965 season with the Park operating on Saturdays and Sundays only until closing on November 28.

In announcing the new attendance record, Six Flags' founder Angus G. Wynne, Jr., president of Great Southwest Corporation, owner/operators of the popular tourist attraction, said "the success of Six Flags which has now shattered the previous season's attendance mark for the fourth consecutive year is a never ending source of gratification. It also is a challenging thing and one which we delight in accepting, for in order to maintain and increase Six Flags' popularity, we must put our best brains and talents to work each season for new ideas, rides, shows and attractions."

Six Flags, which opened in 1961, has now been visited by more than 6,500,000 people from every state in the Nation, and countless foreign countries.

Grubbs To Head Burleson Abilene Office

WALTER GRUBBS

Washington, DC, Oct. 18 -- Congressman Omar Burleson today announced the appointment of Walter Grubbs to be in charge of his District Office in Abilene.

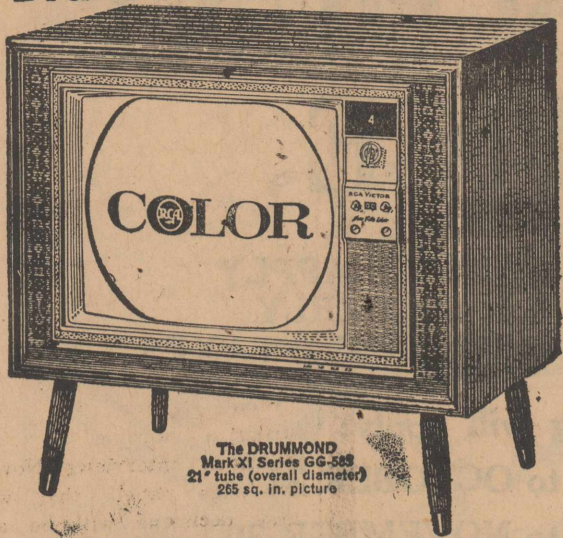

Grubbs moved to Abilene a year ago after serving for eight years as Assistant to Congressman George Mahon in Washington. Prior to that he was assistant manager of KPAR-TV in Sweetwater during the first year the station was on the air. He was manager of the radio station, KVMC, in Colorado City for approximately seven years where he also served as Mayor and a member of the City Council for six years. For the past year Grubbs has been Special Representative for Business Men's Assurance Company in Abilene.

In making the announcement Congressman Burleson said, "I am pleased to have Walter Grubbs join my staff as I feel that his years of experience in Washington, working with Congress and the many important matters involved in serving the people of a Congressional District, will make it possible for me to better serve the people of our 17th Congressional District. The proposed redistricting will add a number of counties to the 17th District. Grubbs will be visiting about over the entire District from time to time while Congress is in session and I am busy in Washington. When he is out of the District office Mrs. Grubbs will be available to accept calls and take messages for me in an effort to be of every possible assistance. My District Office is located in the Post Office Building in Abilene and I would be happy to have anyone stop by at any time it is felt I might be helpful in any way."

We Will Take A Stand

The pastor and members of the Cross Roads Baptist Church will take a stand against the evil of alcohol that is facing us.

We live in a rural community just out side of Roby, but if alcohol is voted into the city of Roby it will effect our community as well as all the other communities in Fisher county. So we as Christians will do all we can to defeat this evil. We will use our influence in every way possible to keep all of Fisher County dry.

D. S. Moore, Jr., pastor, Cross Roads Baptist Church.

Letter To Editor--

Dear Editor:

Your answer should be No Tuesday, November 2, on Constitutional No. 1. Amendments number 4, 9, and 10. Number 4 is to provide for a four year term of office for governor, lieutenant governor, and other state officials. (No other state in the union provides a four year term for its governor or permits him to succeed himself, except New York State, and it is on the verge of repealing its law in 1966. Number 1 is another blank check with any amount of money on it.

Number 9 allows the legislature to set salaries for the lieutenant governor and the speaker of the house. Presently, by Constitution, this is \$4800 per annum and \$12 per day for expenses. This salary is for all year around for two years, and they usually serve only five months out of two years (good salaries for staying home for nineteen months). In addition, they are provided with an apartment, two maids, and all utilities paid. The governor is now provided with a brand new airplane, a pilot, a beautiful mansion, free help, and other things.

Number 10 provides a four year term for state representatives. When the present lawmakers and other officials ran for their office, they were all anxious to get it on two year basis.

No. 1 Just Blank Check.

We can judge them on their records and such laws as they passed this year, mainly changing the criminal code, which left most prosecuting attorneys very much confused, especially about drinking drivers. They now claim you cannot take their driver's license away from them, which they fear more than the jail sentence or a heavy fine. Worst of all no arresting officer will be able to take a statement from the criminals and they must have the Justice of the Peace or some officer right on the spot to take their statement at any hour of the day or night at any distance. Some lawmakers who just met in Fort Worth this week said this law must be rewritten. Representative Dudley Mann said, "Undoubtedly the law has loop-holes." We need a well written and a well enforced law which will protect many innocent lives on our roads and highways. The entire legislature was a failure in redistricting the state as it should and now is still pending in the United States Court. They lack real leadership.

Remember to vote against numbers 4, 9, and 10. These three will cost you more in higher taxes, which are already too high. The choice is up to you. Be sure and vote November 2nd.

Citizens, keep government close to the people!

Please think twice before you sign any Blank Check such as number one. Take no chances and vote as you like.

Respectfully submitted, Cecil A. Lotief, Ex-State Representative. Rotan, Texas.

Some Married Men To Be Drafted In Nov.

Austin, Texas, Oct. 8 -- Draft-age men who married before August 27 may be called by some Texas draft boards in November to help fill a quota of more than 6,000 men for physical-mental examinations, Colonel Morris S. Schwartz, state Selective Service director, said Friday.

Currently, men in the 19-25 age range who are single and those married on August 27 and since are being tapped, in accordance with an executive order issued by President Johnson in late August.

The Johnson order provided that married men who married before August 27 would not processed for armed forces service unless single men and men married since August 27 are not sufficient to fill quotas. The order did not pertain to married men with children, who are deferred for dependency if boards are advised of a child or expected child in the family.

The decision to permit the forwarding of men married before August 27, Colonel Schwartz said, was made because some local draft boards may not have enough available men unless the move is authorized.

"If calls are kept at their pre-

sent level," the state draft director said, "the men who married before August 27 likely will be needed for induction about January. We have to take preparatory steps in view of the expected situation that will face us about the first of the year."

Colonel Schwartz said that he understood from his contacts with other state directors that the move also is being made in other states.

Texas local boards are scheduled to be sent their November induction quotas Friday involving a state call for 1,231 men. This compares with state quotas of 1,504 and 1,459 for October and September, respectively. The November quota of 6,245 men to be examined is also scheduled for mailing Friday.

The November state quota of 1,231 for induction is the Texas share of a national call for 32,450 men, 28,400 for the Army, and 4,050 for the Marine Corps. An earlier request by the Navy for 4,000 men was deleted in an amended call on the states.

Colonel Schwartz also said his office had received calls for 62 physicians, 15 dentists, and 6 veterinarians, to be supplied in January.

Local boards already have been instructed to forward doctors, dentists, and veterinarians for examinations preparatory to filling these quotas.

Christian Science Service Sunday

1001 Crane Street, Sweetwater

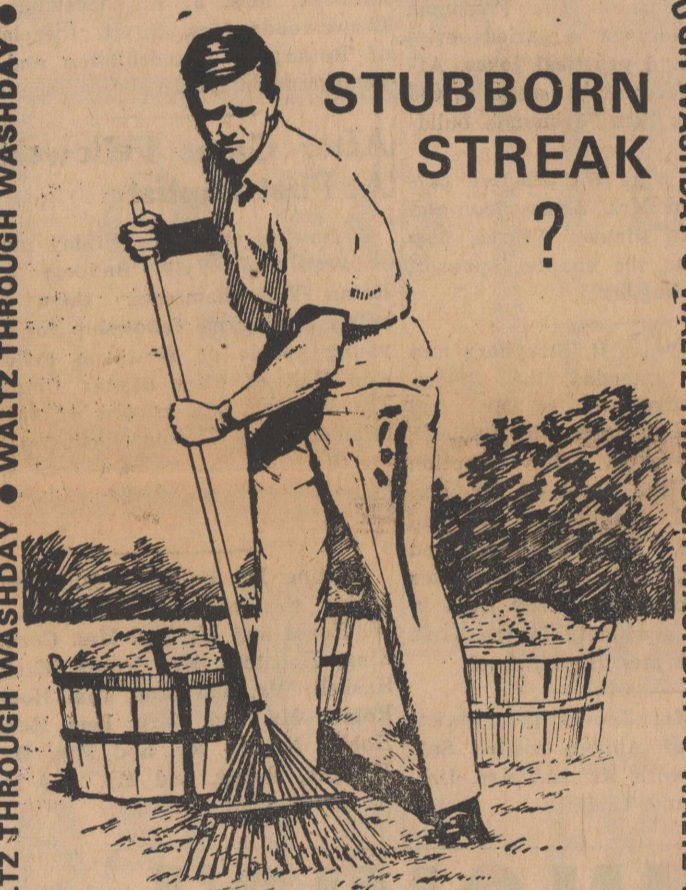

"If any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new."

These words of Paul to the Corinthians will be the Golen Text for a Bible Lesson on how spiritual renewal leads men to the discovery of their real identity and eternal being. The thought is brought out in these lines from the Christian Science textbook: "Being is holiness, harmony, immortality. It is already proved that a knowledge of this, even in small degree, will uplift the physical and moral standard of mortals, will increase longevity, will purify and elevate character" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 492). Sunday's subject is "Probation After Death."

Mr. and Mrs. Billy Hunter of Merkel are the proud new parents of a baby boy, which arrived Saturday, October 16, at 7:15 A. M. He weighed 8 lbs., and 5 ozs.

The Hunters have three other children.

THE JOY OF SHARING

There is pleasure in doing things with others
It may be looking at a picture magazine, or riding toys, or for parents it may even be sharing knowledge of the day's events that bring joy.

God's people have a desire to share with you in the greatest joy, that of worshiping together in God's House. **ATTEND CHURCH SUNDAY**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

'As It Looks From Here'
Omar Burleson, M. C.
17th District, Texas

Washington, D. C. -- After nine months the grinding 1st Session of the 89th Congress is approaching adjournment. There are still guesses as to the exact date.

In these nine months, all-time records have been set. From the standpoint of volume, this Congress has handled more legislation than any Session in history. As a matter of fact, it has produced more than any other in a full two-year Session. It is a matter of opinion as to the quality of some of the measures passed, but it represents the greatest effort in history.

From January 4 to October 7, 11,500 Bills have been introduced in the House of Representatives, plus 685 Joint Resolutions with the Senate. Senators have introduced 2,616 Bills and 116 Senate Joint Resolutions.

Of this number, 240 bills have been signed into Law. This does not include lesser legislation dealt with by Resolutions not required to

be signed by the President or Treaty Agreements ratified by the Senate. Some Measures introduced never see the light of day out of Committee, but many of them have hearings. Proposals considered by Committees during the first Session of the 89th Congress can be carried over to the Second Session, beginning in January, 1966, but in the meantime new bills will be introduced.

Some of the major laws, by categories, enacted thus far are:

- National Defense and International Security:
 - Authorizing \$15 1/2 billion for the Department of Defense for aircraft, missiles, naval vessels, research and development
 - Appropriated \$700 million additional for Viet Nam operation
 - Authorized \$5.18 billion for National Aeronautics and Space Administration
 - Authorized \$2.55 billion for Atomic Energy
 - Authorized \$1.78 billion for military construction at domestic and foreign installations
 - International Affairs:

\$3.36 billion for Foreign Aid Liberalized Immigration Laws Extended for three years Arms Control and Disarmament Agency and \$30 million for operation Extended authority to the President to control export of strategic or scarce materials

Authorized United States to increase its contribution to Inter-American Development Bank by \$250 million.

Authorized increase \$1.35 billion United States quota in the International Monetary Fund.

Authorized \$115 million for Peace Corps

On the Domestic Side:

- Reduced Excise Taxes by \$4.6 billion a year, repealing levies on furs, jewelry, other luxury items, and on radio, TV sets, cameras, household appliances, musical instruments, sporting goods and other. Cuts 10 percent on automobiles gradually to 1 percent and eliminates communications tax effective January 1, 1969
- Provided \$1.1 billion for Appalachian Rehabilitation
- Authorized \$3.3 billion program

of Public Works by loans and grants to local governments and public or private groups in economically depressed areas.

Authorized three-year \$60 million program of Federal matching funds to cooperate with universities, States, local governments, and private enterprise to establish State or regional technical service centers to disseminate findings of science and technology

Authorized additional \$50 million for Small Business Revolving fund to assist firms hit by floods, tornadoes and other disasters

Eliminate silver from dimes and quarters, cut proportion in half dollars from 90 to 40 percent silver

Authorized \$1.8 billion for 1966 for Antipoverty Program

Medicare and an increase in Social Security Benefits

A vast Public Housing measure and the creation of a Department of Urban Affairs

Meet MY COUNTRY COUSIN

This young rural housewife is really no different from her city cousin. Rural electrification with its marvelous conveniences liberates her from drudgery, brightens her day, lightens her chores, and heightens her interest in the world around her.

The member-owned Midwest Electric Cooperative has helped erase the lines between city and "country". They are doing it with a first rate electric utility they built themselves to serve themselves. In the process, the Midwest Electric Cooperative has strengthened the rural economy, attracted rural industry and provided a better, brighter world for its member-owners. Midwest Electric Cooperative is helping Texas grow.
