The Stars and Stripes Forever.

The Cowboy Carnival is in full blast at Midland.

Baird College will open next Monday, Sept. 4th.

Cisco went out Saturday by two majority. It will be in order now for the anti to refuse to sell any of the brew.

THE STAR acknowledges receipt of a season ticket to the Texas State Fair and Dallas Exposition Sept. 28th to Oct. 22d.

Senator Morgan, the brainiest man in the South, says it is a question of expansion but contraction is rightly says the so-called anti-expansionists are contractionists pure and simple.

It cost this government six billion dollars to free the negro, besides the eight billion dollars the south lost in the value of the slaves. Yet the negro is not as happy and contented as a free man as he was as a slave.

The people of the south should encourage the negro to go north. The best way to settle the negro question is to scatter the colored man and brother all over the union, and then the negro question will no longer be a sectional question.

The United States never obtained the consent of the people in any territory annexed to the United States except Texas and Hawaii. So Bryan and Bailey's fulminations about obtaining the consent of the governed is nothing but mere bombast.

Bolled down the anti-expansion argument amounts to this: The American soldier should either surrender to Aguinaldo or throw down their guns and skip from the Philippines. It is safe to predict that the American people will never consent to either proposal.

THE STAR is under obligations to the officers of the San Antonio International Fair, which begins Oct. 28th and closes Nov. 15th. It is one of the most interesting cities in Texas, and visitors to the International Fair this fall will be well paid for their trip to the Alamo city.

The anti-expansionist democrats continue to hold up their hands in holy horror about the war of conquest in the Philippines. Had Billy Bryan been elected president in place of McKinley there is not a bit of doubt that these same anti-expansionists would today see the "war of conquest" in an entirely different light from the way they see it now.

The fifth week of the Dreyfus trial in France began Monday. The trial has developed into a farce, and but for the pitiable condition of the unfortunate Capt. Dreyfus, whose liberty and perhaps his life hangs in the balance, would be the most laughable comedy in the world's history. Poor Dreyfus! everything indicates that the hangings who are trying him have already made up their minds to convict him regardless of what the evidence may be.

The Commissioners' Court has submitted the Court House bond to the people. The Court say they have discharged their duty in the premises and the question now rests with the people. There is no question but what the Court House should be rebuilt, but it is doubtful if the voters see it that way as a great many are interested in making the dear people believe there is no necessity for the bonds. It is doubtful if another term of District Court is ever held in this present building, so master what the voters say about rebuilding the Court House.

While talking to one of our business men this week regarding the cotton crop, he remarked that the cotton had shedded everything except the mortgage, and that was getting very shaky. Grandview Graphic.

Judge W. B. Plemons of Amorrilla, was on the west bound passenger last Saturday. He informed the editor of this paper that he intended to make the race for congress in this district next year. The writer served in the 24th legislature with Judge Plemons, and we know him to be able and fearless in the discharge of his duty, true as steel to his friends, and best of all a high toned honorable gentleman always.

THE ABILENE FAIR.

Callahan county should be represented at the Abilene Fair by all means, but so far we have heard of no move in that direction. Capt. W. J. Malby was in town Monday, and in conversation with him he said that if the people of Baird and the county would assist him he would get up a county exhibit and compete for the prize offered for the best county exhibit. Capt. Malby is getting up an exhibit to compete for the prize offered for the best exhibit from one farm. Capt. Malby says it will take between forty and fifty dollars to get up a county exhibit, and if the people of Callahan county will raise the amount he will go over the county and get up the exhibit. This is certainly a very liberal offer on Capt. Malby's part, and we certainly ought to make up the money and assist him.

THE STAR would donate \$5 towards this fund. There certainly ought not to be any trouble to get more who will give a like amount. Who else will help? We will publish names and amount given by each subscriber.

No Ex-Confeds Need Apply in Iowa.

For appointing an ex-Confederate soldier as a brigadier-general of Iowa troops, the Republican governor of that state finds himself sorely denounced by the National Union Veterans' association. The governor's self-conceit was that the man who was appointed though an ex-Confederate was the best military commander in the state. The opposition was not appeased by this statement. The offense of giving honorable military commands to ex-Confederate soldiers is one that President McKinley has been guilty of. The Iowa Veterans' association can find bigger game than a governor if they are out after all who have given just recognition to the merits of honorable and patriotic Americans who have served in the Confederate army. Fitzhugh Lee and General Wheeler are notable examples of ex-Confederates whom the president has designated to honor. He has no reason to regret his choice of these men. General Lee was sent where he could take no part in the fighting, but the annals of the campaign at Santiago bear witness to General Wheeler's skill and zeal in destroying his country's enemies. By the way, what are the members of the National Union Veterans' association doing in the line of furnishing fighters to subvert the uprising in the Philippines? We have not heard of the conspicuous order of any of those gentlemen in getting in the firing line. Ft. Worth Register.

"I notice," remarked Uncle Allen Sparks, "that they have discovered that the fragrance of a good cigar is due to the presence of a bacillus, and not to the quality of the tobacco itself. It seems to me it would be a good plan to procure a few bottles of this bacillus from the plural-form of the genuine Cuban tobacco and see if they will grow on the Connecticut cabbage."

WRECKED SEAMEN.

From Kinabato to Hatters, N. C., Many Vessels Went Ashore.

THIRTY PEOPLE WERE DROWNED.

The Beach Is strewn With Spars, Masts and Other Wreckage—Much Property Was Destroyed.

Norfolk, Va., Aug. 22.—Thirty-five shipwrecked seamen, who had nothing in the world but a few tattered and torn clothes on their backs, some injured and all miserable, arrived here yesterday from Hatteras, N. C. From them it was learned that the recent hurricane which sent so many people to death and destroyed vast estates in Porto Rico, added another chapter to its horrors in a little stretch of beach from Kinabato to Hatteras, N. C. Thirty people are known to have lost their lives in this district, which is only eight miles long, and the beach is strewn with spars, masts and other wreckage. The sailors say eleven vessels are ashore on the coast between Hatteras and New River inlet. Not so many damaging results has attended the storm in the past quarter of a century. Waves ran mountain high and the wind howled unceasingly several days and nights at a seventy-five mile velocity. That no more lives were lost by the storm at Hatteras is considered by the survivors nothing less than a miracle.

Among those who arrived yesterday were the crew of the barkentine *Freelita*. Cap. Benjamin R. Springsteen, of Baltimore, the *Gull* was broken in three pieces on Gall shoals, eighteen miles east of Cape Hatteras. There were four fatalities shortly after the *Freelita* went ashore, the captain, a wife washed overboard and drowned within ten minutes from the time the bark struck. The others who lost their lives were the captain's two sons, aged 24 and 12 years, a Mr. Oldenburgh, connected with the Lee family, and a relative of one of the vessel's owners, C. Morton, and company. The officer of the *Springsteen* boys was first mate of the *Freelita*. He and the Goldenborough had been washed overboard. His brother was drowned in the cabin.

Mr. Restorf, one of the crew, escaped from the wreck with the remainder of the crew, but he is still at Hatteras, suffering from a wound in his chest. He is twelve in depth of water. The captain is 54 years of age. The *Freelita* left Baltimore for Rio de Janeiro, Brazil, on Saturday, the 12th instant, with a general cargo. She passed out the cape on Monday, the 14th, and it was 9 p. m. when she struck. All were now or less injured.

Since the building of the Rock Island extension west from Chickasha through the Kiowa and Comanche reservations persons have been attracted to that section and are encroaching upon the Indian lands. To Prevent a Lynching. Little Rock, Ark., Aug. 23.—Over forty negroes are in the Pulaski county jail as the result of a concerted effort on the part of the authorities to run down the men who a few days ago committed assaults on five white women in this city. Ed. Wright was positively identified yesterday by Mrs. Kennedy as her assailant and was held to the grand jury without bail. Every precaution has been taken to prevent a lynching. A large number of the negroes was called by leading negroes, who are endeavoring to help run down and punish the guilty. They are anxious to see the guilty ones legally punished. The wholesale arrests have aroused much excitement among the other negroes. Dealers say their acts yesterday of arms and ammunition have been remanding in the city will be known as native battalions.

Philippine Bill Fighting.

Manila, Aug. 19, via Hongkong, Aug. 22.—The Filipino congress has not yet taken much more of a fighting spirit than might be expected after their recent San Fernando experiences and Gen. Lawton's drubbing in the south.

After giving up San Fernando with a feeble struggle they entrenched themselves at Angeles, working for several days and imposing non-combatant status on the work, thus saving the armed men for the fighting. They engaged Lieut. Col. Smith's regiment and the artillery for four hours, maintaining one of the most stubborn resistances of the campaign. But the Americans are indebted to the usual poor marksmanship of the Filipinos, as well as to their own strategy, for their small losses.

In the province of Cavite, where it was supposed the rebels had been scattered and demoralized beyond recuperation, they have assembled an army of several thousand men, distributed among the important towns, from the lake to the sea.

After the San Fernando engagement, the rebels attracted to deter the Americans from a further advance northward by menacing the railroad communication. Several hundred of Gen. Pilo del Pilar's men crossed the Rio Grande beyond the former posts and threatened Balanga, Quinao and other places with small American garrisons, while during Sunday and Monday night the rate of advance toward Manila to San Fernando, while the garrisons at Balanga and Quinao were being reinforced.

Man With a Calf's Brains.

Three months ago at Harmon, W. Va., Jay Lentz, foreman in the mines of the Great Western company, was caught under a fall of slate in the mines. His skull was crushed, and Dr. E. C. Hartman, rather unprofessionally named, hit him to die. A piece of his brain was broken away from the main body of the brain structure, and the skull covering it was broken away.

After a few days the doctors decided to take heroic measures. The shattered brain was cut away neatly and the brain removed and fitted into the cavity in Lentz's head. The wound was dressed and rephoned and the results were as follows:—The calf's head was fixed up with half a brain in it.

Both the miner and the calf have prospered satisfactorily, and the man is nearly as well as—more the operation, though his mental vigor is not entirely restored. The calf stands as though asleep till started, when it moves, but interrupted in a direct line. It will not eat till its jaws are started, then it continues chewing when food is "carried."
