# **Gorbachev pledges to reduce European troops**

NEW YORK (AP) — Mikhail S. Gorbachev, belittling military power as a solution to international tensions, announced today before his luncheon meeting with President Reagan that the Soviet Union was reducing its European troop levels. He also proposed new steps to end bloodshed in Afghanistan.

Gorbachev spelled out his proposals in an address before the U.N. General Assembly, as Reagan flew to New York and a meeting that will seal an extraordinary chapter in U.S.-Soviet relations as well as set the groundwork for relations when George Bush becomes president

The Soviet leader announced a dramatic unilateral gesture reduction by half a million in Soviet uniformed manpower. And he called for a ceasefire on Jan. 1 in Afghanistan, announcing the Soviet pullout from that troubled land will proceed.

In a speech that blended ponderous rhetoric with a quotation from Ernest Hemingway, the Soviet leader said, "The bell of every regional conflict tolls for all of us.

Urging that international leaders seek a "balance of interests," Gorbachev told a rapt audience of diplomats that nations should 'look for ways together to improve the international system and build a new world.

'It is now quite clear that building up military power makes no country omnipotent," Gorbachev declared. "What's more, one-sided reliance on military power ultimately weakens other components of national security.

A group of about 100 people, many of them elderly, stood across from the United Nations headquarters as Gorbachev arrived, a reminder of the internal dissent he left behind. The demonstrators carried blue and yellow Ukrainian flags. The Ukraine is part of the Soviet Union, but its independence is favored by many Ukrainian emigres in the United States.

Before Gorbachev spoke, Secretary of State George P. Shultz met at the U.S. mission across the street from the United Nations with Soviet Foreign Minister Eduard A. Shevardnadze. Both were at the

U.N. for the speech.

Typically blase New Yorkers couldn't help but notice the hubbub surrounding Gorbachev's arrival, which was heralded by a quartermile motorcade and left some natives applauding, some grumbling and some demonstrating.

'Red Alert: City Braces for Gorby Gridlock," screamed the front page headline of the New York Post

Gorbachev's visit to New York and the United Nations was the first by a Soviet leader since 1960, when an irate Nikita S. Khrushchev punctuated his rhetorical points by pounding his shoe on a desk in the General Assembly.

Wearing a top coat and fedora, and accompanied by his wife Raisa and two members of the ruling Politburo, Gorbachev declared: "We believe — and we hope that is the belief of the American side as well that this meeting will serve the best interests of the United States and the Soviet Union; indeed of all the world.

Visitors to the Christmas Happening on Sunday were treated to a "parade" of 35 trees in the museum. The trees were decorated by local businesses and organizations and WTC personnel, with decorations ranging from traditional to fanciful and stylistic. Several of the trees were donated to the museum for sale and some are still available.

More than 50 people passed through the museum during the Christmas Happening, Mrs. Leftwich estimated. "We appreciate everyone who helped make the Happening a success," she added. "Community participation and the help of many volunteers make the event possible each year, and the museum and WTC thank everyone who had a part."

WASHINGTON (AP) - President Reagan has lifted a six-year ban on U.S. export of cluster bombs to Israel on the understanding that the weapons will not be used against civilian targets.

The decision was denounced by Ambassador Clovis Maksoud, the League of Arab Nations' representative in the United States, who called it "shocking," "very provocative" and "sickening.

Reagan banned the sale of such munitions to Israel after that country used them against civilian target areas in Lebanon in violation of Israeli assurances to the United States.

Department State spokeswoman Anita Stockman said Tuesday that because "the issue of usage has been resolved pursuant to the terms of the recent understanding'' barring use against civilians, "we see no reason to prohibit Israel's access to these weapons which can contribute to Israel's security.

DEAR DR. GOTT: What should be done about Legg-Calve-Perthes disease after it has gone through all its stages? Our son, who has it, is 17. DEAR READER: Legg-Calve-

Perthes disease is a disorder of unknown cause marked by a derangement of the femoral capital epiphysis, the area of soft growing bone at the top of the thigh bone where it fits into the hip socket. The ailment typically affects one leg only, with a predominance in males between the ages of 5 and 10.

This bone disease produces hip pain, disturbance of gait and limitation of joint movement that may progress to muscle atrophy

bed rest. Some experts recommend pinning the unstable thigh bone. Children usually outgrow the condition, which subsides once the growing plates have matured and calcified in late adolescence.

Since your son's growth plates have probably fused by the age of 17, he should be able to be fully active now If he has some remaining disability, such as limitation of motion or weakness, he should have follow-up examinations by an orthopedic surgeon who will want your son to have continuing physical therapy to strengthen the

Many youngsters with Legg-Calve-Perthes disease develop osteoarthritis (wearing away of the joint) with time; this complication can be prevented or lessened by appropriate or thopedic treatment.

Carbon tetrachloride behaves like other hydrocarbons (gasoline, kerosene and paint thinner) in the system. It is far more dangerous in children than in adults because youngsters are more susceptible to its toxic effects. It is readily absorbed through lung tissue, leading to lethargy, coma and convulsions.

COSTA MESA, Calif. (AP) -The City Council has decided to allow kids in this city once known as "Goat Hill" and won't evict Barney Junior, a 90-pound pygmy goat.

Barney's owner, Angela Raj Kumar, had been told that the goat would have to go because city codes prohibited barnyard animals in back yards, and a neighbor had complained.

# Four dead in Soviet quake

MOSCOW (AP) - At least fourpeople were killed today by a strong earthquake centered in the southern Soviet Union near Turkey and Iran that caused extensive damage in eastern Turkey, authorities said.

State Turkish radio quoted Kars provincial Gov. Hasan Fakir as saying the four people who died came from the town of Akyaka. Many houses were damaged in this township and in the nearby Cildir township, it said.

The Kandilli observatory in Istanbul, reached by telephone, said the quake shook four eastern Turkish provinces twice, at 9:43 a.m. and 9:48 a.m.

In Moscow, the Soviet Earthquake Center reported the quake measured between 5 and 7 on the Richter scale and said it was registered in the republic of Armenia, just south of Tbilisi, a city of nearly 1 million inhabitants. It gave no immediate details or casualty figures.

In a telephone interview, an editor with the Armenian news agency Armenpress said the earthquake was felt in the Armenian capital of Yerevan.

'Everything in the building' shook," said the editor, who would not identify himself. He said there was no damage or loss of life in Yerevan, but that there were no reports yet out of other areas of the small republic located on the Iranian and Turkish borders.

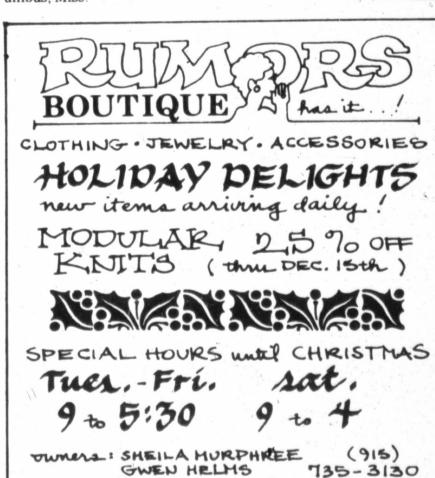

distinguishing between the top of three small and the top of a doubleton. My recommendation is that you lead low from three small cards, since I believe it is more important to let your partner know for sure when you are leading high from a doubleton. Here is a deal that demonstrates the effec-

tiveness of this approach. Against four spades, West led a low heart. East cashed two high hearts. Since he knew the remaining heart was held by West, it was futile to play a third round of the suit. So he switched to a low diamond. There was nothing for declarer to do but put up the king, so the contract was down

If West was a top-of-nothing leader, he would have led the eight of hearts. East would cash two tricks and then not know what to do. (It would be a reprehensible violation of the proprieties of bridge for West to fumble or hesitate before playing to the second heart) A third round of hearts would let South make the contract.

Until 1957, the natural lake never presented any problems, but a near cloudburst at that time threatened to overflow the soft dam. Howard County and Big Spring officials cooperatively raised it from natural peak of 2445 another five feet. Starting in May 1986, successive rainfalls, three times annual normal, raised the level until the dam was in danger of washing out.

# Orbison dead at age 52

HENDERSONVILLE, Tenn. (AP) - Grammy-winning singer-songwriter Roy Orbison, whose piercing three-octave voice made him a legend with ballads about lost love, including "Pretty Woman," died of a heart attack at age 52.

Orbison was brought by ambulance to Hendersonville Hospital late Tuesday but couldn't be revived, said Melanie

Lamb, a hospital spokesman. He died of a heart attack just before midnight, she said.

Orbison, whose talents also included playing the guitar, gave a concert Sunday in Akron, Ohio, before an audience of 2,000.

On Tuesday, Orbison was at the Nashville-area home of country music singer Jean Shepard, who said he had been with her husband.

"They were having a great time," she said.

Later, he suffered the heart attack.

"The paramedics worked on him probably for 30 minutes at the house. Then they took him to the hospital and worked on him for another 35 to 40 minutes.

Orbison achieved fame decades ago with his early hits "Pretty Woman" and "Only the Lonely.

He had 27 straight records on the charts during his heyday in the early 1960s. In 1977, Elvis Presley introduced him as "the greatest singer in the world." Bruce Springsteen salutes him in his song, "Thunder Road."

Orbison once estimated he had sold 30 million records, but added, "I don't normally keep tabs."

Some of his other hits include "Crying," "It's Over," and "Blue Bayou." Last year, he rerecorded his 1963 hit "In Dreams" after the song had been revived in the movie "Blue Velvet.

In a 1986 Associated Press interview, Orbison said the biggest thrill in his career was "just being in the business itself.

As for being called a legend, he said: "I did say facetiously once that being a legend meant being old. But someone pointed out that not all old people are legends. makeshift altar with a frayed Anyway, it's nice to have had

The string of plus months of water deliveries over last year continued through November for the Colorado River Municipal Water District, and an over-all increase for the year may approach five percent.

Deliveries of 1,097,782,900 gallons to municipal and industrial customers in November brought to 15,228,151,613 gallons the total deliveries for the year, farm borrowers and their only about 300 million gallons less than for all last year.

In November, municipal deliveries of 957,826,000 gallons were up only .61 of a percent, but those to oilfield and industrial customers in the amount of 139,956,900 represented a 25.36 percent gain. Most of this came in increase by the Power Resources generation plant in Big Spring, which was just coming on line a year ago.

During November, Big Spring received 190,487,000 gallons, up 18.82 percent; Midland 272,066,000 gallons, down 8.43 percent; Odessa, 420,248,000 gallons, up 4.49 percent; Snyder 58,879,000 gallons, down 11.68 percent; Stanton 6,982,000, down 6.19 percent. Robert Lee took 9,164,000 gallons, a 48.65 percent increase in demand since its own surface supply has dwindled.

# JV boys stop M-Wells, 52-47

CLYDE - Snyder junior varsity boys outlasted Mineral Wells 52-47 in area hoops action here Tuesday.

Hayward Clay, chosen all-tournament at last weekend's Coahoma Tournament, led the young Tigers with 18 points. Carlton Sanders scored 16. The win put the Tigers at 2-7 for the season. Three of those losses came from varsity teams in the Coahoma Tournament. Next action for Snyder JV will be in the Big Spring JV Tournament, Friday and Saturday in Big Spring. Snyder will tipoff at 4 p.m. Friday against Midland High in Steer Gym.

Point guard Mookie Blaylock tied his career high with 30 points - 21 coming from 3-point range while frontcourt players Stacey King and Andre Wiley scored 24 and 20, respectively.

"I thought we had nice balance. That's the way we like to play," said Tubbs. "You always play better when you're shooting the ball pretty good, and we were doing that."

**Rangers add Franco** to aid hitting average

ATLANTA (AP) - They might be the Texas Strangers next year, but at least they'll be able to hit.

The Rangers, who had the third-worst offense in the American League last season, added their second .300 hitter in two days Tuesday when they got Julio Franco in a trade with Cleveland.

Franco led all major league second basemen with a .303 average, his third straight year over .300. The Indians got first baseman Pete O'Brien, outfielder Oddibe McDowell and second baseman Jerry Browne.

Texas continued to be the Ryan to join busiest team at the winter meetings, where it had not made a deal since 1983. On Monday, the Rangers completed a nine-player trade with the Chicago Cubs that brought Rafael Palmeiro, the second-leading hitter in the National League last season, and another minor swap with the New York Yankees.

"You don't come here expecting to do anything. But we hoped to improve our offense and we have," Texas general manager Tom Grieve said. "We've given up some good players, but we've acquired some quality players, too.'

Franco, 27, had found a home at second base after being an erratic shortstop for the previous five years. Franco's .982 fielding percentage was his best ever. He also hit a career-high 10 home runs, drove in 54 runs and stole 25 bases.

# Smith did threaten to expose Aggies according to former employer Wilson

DALLAS (AP) - A former employer of Texas A&M fullback George Smith says that Smith threatened to expose violations of National Collegiate Athletic Association rules at the university if the athletic department did not send him money, the Dallas Morning News reported today.

The newspaper reported in a copyright story that Larry Wilson, who also coached Smith in high school, contradicts Smith's latest statements, in which he contended he only got friendly loans from Aggies coach Jackie Sherrill.

Wilson's comments corroborate Smith's previous story published by the Dalla newspaper last month, that \$4,000 in cash and money orders were actually sent in return for Smith's silence as a NCAA investigation of the Texas A&M football program wound to a close in September. Smith then told a news con-

ference that the payments were not "hush money," just a loan from Sherrill. He said he lied to help sell a proposed book. Smith could not be reached for

The statement came on Tuesday, just after State District Judge Paul Davis ruled that Carter running back Gary Ed-wards is eligible to play and that the team may continue in the playoffs.

At issue is Edwards' algebra grade, and whether or not he was passing the class. As things stand, Edwards will probably be

Wilson, director of city parks in Douglasville, Ga., said he hired Smith in June and July as a parttime worker.

Wilson told the newspaper he allowed Smith to make collect calls to Texas A&M athletic offices and overheard Smith talking to Sherrill and assistant coach George Pugh.

"He was always telling me those calls here." about money," Wilson said. "He said, 'I'm going to tell on them if contacted by the NCAA or by they don't come through with money."

criticized last year by majority owner Bum Bright specifically for what he called "inept play calling."

Now, the minority owner, Ed Smith of Houston, is teeing off on Landry.

Landry said Smith's 27 per cent ownership gave him the right to say anything he wants to say "even if the comment he makes isn't right."

Smith told KDFW-TV of Dallas: "We haven't had any leadership in the last three, four, five years. I think you have to blame the coaching staff. Maybe you blame (club president) Tex Schramm to some extent."

Landry said he wasn't "aggravated" by Smith of Houston, who reportedly was looking into buying the team.

Landry said he was staying through next season and perhaps longer depending on the buyer for the club.

"We're for sale and when somebody buys the team they'll have to make a decision on who they keep," Landry said. "I don't know what will happen but right now it's my job to put the Cowboys back on top. I'm not going to quit on my players. They're trying hard."

Schramm has been frustrated in his attempts to find a buyer for the team. Bright was asking \$100 million for the club and \$50 million for Texas Stadium.

Donald Carter, owner of the Dallas Mavericks, recently said he would like to buy the Cowboys 25. "and restore them to their former glory.

Landry quipped "I wish we could get an owner who could do that. If he could do that it would make my job easier."

The Cowboys have a club record 12 losses and will be on the road to meet the Washington **Redskins on Sunday** 

"I've been disappointed that our players have played some good games but haven't had a chance to be congratulated yet," Landry said.

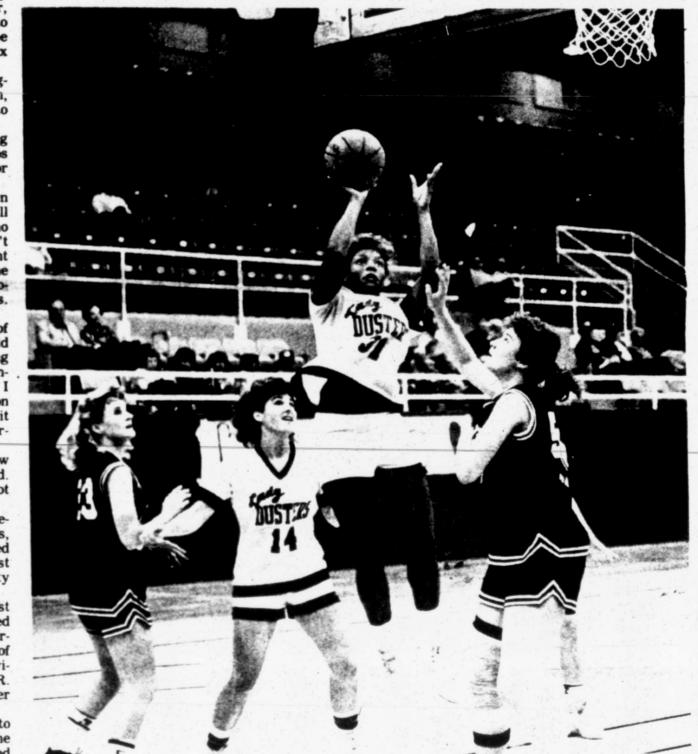

Dallas hasn't won a game since defeating Atlanta 26-20 on Sept.

"I've never had a team that tried any harder or played any harder," Landry said.

Steve Pelluer will start at quarterback against Washington and Landry added he "hoped" to

get backup Kevin Sweeney some action. The Cowboys were seven-point

underdogs.

IRVING, Texas (AP) - Tom

Dallas coach Landry was

carrying the football when Carter takes the field against Odessa Permian Saturday at Memorial Stadium in Austin in the semifinals.

The ruling came on the heels of four days of testimony.

"I've listened to a lot of testimony - most of it confusing," said Davis. "I had to ask myself, Were they fudging to make him eligible to play football?' I can't find any evidence of that."

"In my opinion, the commissioner of education for the state of Texas should not be in the business of assigning grades," Davis said. "The dispute the commissioner should have been hearing was the responsibility of the school in assigning the grade. I think the school acted respon-

sibly." "I was here during the entire trial," Kirby said. "And I am more convinced now than ever before that the school district took inappropriate action." "Everybody knows the impor-

tance of King Football," he said.

Kirby, who was named in the suit by Carter, said the TEA plans to appeal the court's decision and that he will request legislation disallowing an appeal of a TEA ruling on a student's athletic eligibility.

He said the district decided to go back and review the Edwards case only after it caused an uproar and was endangering Carter's state football playoff chances, and even then had an entirely different set of procedures.

Carter said in its lawsuit that Kirby had overstepped his authority in ruling Edwards was ineligible.

Shortly after Kirby made his decision, Carter obtained a temporary restraining order from Davis that allowed Carter to continue to play, pending the court hearing that began Thursday.

Algebra teacher Wilford Bates originally had given Edwards, who transfered out of his class in the final week of the six-week grading period, a 63. Edwards was is his new class for only three days before the six-weeks was concluded.

After Russeau reviewed Bates' gradebook, Russeau assumed a aside, Esiason said the "not complete" symbol was a 50 Astrodome should be the stage 'not complete'' symbol was a 50 but was actually a zero, according to Bates.

Landry added "I may be out of job, I don't know. If I am it would be great. I could find something to do but I sure wouldn't be listening to you guys (the media). I can't say when my last season will be. We'll just have to wait and see what it (the sale) brings.

Schramm said "I wish I knew when (the club) would be sold. Bum has the club for sale, not me.'

Bright issued a written statement through aide Jim Francis, saying it is not true that limited partners have a right of first refusal should the majority owner elect to sell.

"There is no such right of first refusal on the part of the limited partners," Bright said. "Fur-ther, it is not true that the offer of Ed Smith, as reported by television, was acceptable to H.R. Bright. There has been no offer made.'

Landry said he had talked to Smith just once on the telephone earlier in the season. He denied television reports there had been a shouting match.

"Can you imagine me in a shouting match?" the quiet-spoken Landry laughed.

# 1990s to be decade of higher oil prices, according to study

lower oil prices will end by 1992 and the coming decade will be marked by higher prices that will slow economic growth in the United States, a study by two economists at the Federal Reserve Bank of Dallas says.

Stephen Brown and Keith Phillips contend that falling demand for oil in the 1980s has had more to do with the collapse in oil prices than the disarray in the Organization of Petroleum Exporting Countries.

leak in a tire on its landing gear that NASA previously had said was not a concern. The leak did not seem to affect the smoothness of the touchdown.

As the astronauts and several officials of the National Aeronautics and Space Ad-ministration inspected the shut-tle, some damage could be seen to the underside, including "dings" in the black protective tiles. The tiles shown by NASA cameras "appeared to be a lot more damaged than usual," said NASA spokeswoman Nancy Lovato.

The landing was closed to the public because of the flight's classified nature, leaving only a few hundred journalists, invited guests and NASA employees to watch. Some 425,000 spectators witnessed Discovery's landing.

Atlantis' flight was the 27th shuttle mission and the longest of three trips dedicated entirely to military purposes, lasting 4 days, 9 hours and 5 minutes

Sources said Atlantis' primary goal - to deploy the spy satellite - was accomplished during the weekend.

# WTC cast honored at El Paso contest

Dave Harveson and Tony Lopez received Irene Ryan acting awards for their roles in the memory of Elaine Lambert, a Western Texas College entry in the American College Theatre Festival in El Paso last week.

WTC's entry, "The Fifth Sun," received a special accolade for "most moving and most courageous" production from the festival's critic, Ned Bobkoff. The WTC set and costumes also scholarship. received special mention.

Harveson appeared as Oscar Romero, archbishop of San Salvador, and Lopez appeared as Hector Navarez, diocesan priest. Written by Nicholas A. Patricia, "The Fifth Sun" was based on the assassination of Romero in El Salvador in 1980. It was presented for local audiences Nov. 18-21.

The Texas Tech University production of "Spring Awakening" was chosen to advance to the regional competition to be held in Lubbock in February. Harveson and Lopez will also go to Lubbock to continue competition for Irene Ryan scholarships.

"We received some very positive comments from Bobkoff," noted Jim Rambo, WTC drama director. "He was especially impressed by the effort put forth by our young students and the quality of the work they are doing. There were some really wonderful shows in the festival and I feel we always gain a great deal by being involved in it.

# Fritcher awarded degree at UT

The department issued a report Tuesday that provided a preliminary ranking of 155 environmental problems at 16 sites involved with nuclear weapons production.

"This is an important step in categorizing environmental problems in our defense complex,' Energy Secretary John S. Herrington said in releasing the report. "It will provide the department with the information necessary to allocate funds for environmental clean-up in a systematic and responsible manner."

The 232-page report lists each environmental problem found, provides a public risk assessment for each and describes what action, if any, is under way to resolve the problem.

The two most serious problems cited dealt with possible groundwater contamination at Rocky Flats outside Denver and the Pantex plant near Amarillo. Both sites warranted action by the department before completion of the survey because of the potential threat they posed, the report said.

None of the problems at any of these contaminants could seep inthe plants was found to be "an to a small aquifer, which may Pantex officials. immediate threat to human life" serve residents close to the nor-

**Christmas Store** has filed for bankruptcy

HOUSTON (AP) - There's another "Times are so tough in Texas that ... "story.

Times are so tough in Texas that The Original Christmas Store, a Houston yuletide tradi-tion since 1974, has filed for Chapter 11 bankruptcy reorganization less than three weeks before the holiday.

George R. Grubich, owner of the seasonal retailer, also said Tuesday he plans to seek personal protection from bankruptcy because his personal debts and business debts are mingled and confusion exists over who is responsible for outstanding liabilities.

Grubich said he filed for bankruptcy protection after a two-year searxch for new capital, including an unsuccessful attempt earlier this year to take the company public.

At one time, before the oil crunch, The Original Christmas Store operated retail outlets during the Christmas season in five cities, selling an array of Christmas items from traditional tree trimmings to elaborate imported decorations. The Houston store is the only outlet operating this year and it will remain open, Grubich said.

\$807,992 and owes \$1,975,284, mostly to suppliers of Christmas merchandise, according to the filing.
