Plan Caravan To Muleshoe Game

Mustangs Face Tough Opponent In Opening Conference Battle

Olton's Mustangs open conference football play Friday night against the Muleshoe Mules at Muleshoe and a motor caravan will accompany the Olton team to the game site.

The caravan is sponsored by Olton Lions Club and will be led by Deputy Sheriff V. L. "Smitty" Smith.

TAKING FIRST PLACE in Class B competition at the ENMU Homecoming parade at Portales, NM, was the Olton High School Band, directed by Fred Stockdale. The 80-piece marching band, with a drum major and five majorettes, competed against six Texas and New Mexico bands. The OHS Band and the Clovis High School Band, winner of Class A, performed during half-time activities of the ENMU-College of Idaho Homecoming game.

Hail, Heavy Rain Falls In Circle Area; Plenty Hands As Ginning Tops 15,000

Hail, rain and fog hampered gathering operations in the Olton area this week.

Fine hail and heavy rain fell in the Circle area Wednesday afternoon.

Glen Exter at Circle Gin said he believes the rain did more

damage to open cotton than was done by the hail.

Exter said hail fell for about 10 or 15 minutes. Fine hail stones covered the ground. He said he believes hail was heavy on the Frank Struve place.

Exter said the rain started

about 1 1/2 miles east of Circle Gin. He said rain also was reported at Springlake. Extent of the fall at Springlake was not immediately known.

Fog hampered gathering operations here Tuesday and Wednesday. Grainmen reported that dampness had slowed the flow of grain to elevators.

One grainman said some grain that has been arriving has been too damp.

Louie Mack Hardy at Ben F. Smith Grain Company said soy bean harvest is slated to begin soon. He said about

3,000 acres are in soy beans in the area this year.

A little corn is beginning to come to Olton elevators. One estimate set the milo harvest at two-thirds complete. The price of milo Wednesday was pegged at \$1.85.

In the meantime, ginning at the six gins serving the Olton area—including the Circle and Thompson Gin—had reached 15,181 by early afternoon Wednesday.

One ginner estimated that 35% of Olton's cotton crop had been processed. He set the average yield at more than a bale to the acre and said that grades have been good.

He said most of the cotton here has been grading as good as light spot and selling for from 30 to 31 cents a pound.

He observed that very little cotton is going into the loan. R. A. Williams with the Texas Employment Commission said the need for harvest hands is about 90% filled and could be completely filled if housing facilities were available.

Shetland Ponies On Display At Dickenson Farm

A sight guaranteed to make a youngster's face light up like a Christmas tree is right here in Olton—29 head of Shetland ponies, all colors and combinations of colors, the size of a Texas jackrabbit or big dog—and everyone has an open invitation to the "show."

This novel group is making its home on the farm of W. B. Dickenson, Jr., and the public is invited to go out any time. Dickenson's home is located just north of the Straw-Burrow Gin.

J. W. Brown of the Plains Agricultural Service and Dickenson obtained the ponies from a ranch in Wyoming where Brown had previously purchased ponies. Brown and Dickenson had to remain on a three-year waiting list for these 29 Shetlands. They drove up in William DeBerry's truck and hauled them back. This particular ranch has been raising ponies for 80 years.

"These ponies would make ideal Christmas presents for any child—they're the cutest things I've ever seen," stated Brown.

Anyone interested in purchasing one of these ponies can obtain it for approximately \$100, according to Brown. He was a vocational agriculture instructor at Olton High School before he resigned to devote full-time interest to his business.

Auction Sale Scheduled For Nov. 3

An auction sale is scheduled for Nov. 3, according to J. W. Brown of Olton Auction Sales, location to be south of the Plains Agricultural Service.

Anyone interested in consigning something for sale should notify W. B. Dickenson, Sr., W. B. Dickenson, Jr., or call the Plains Agricultural Service, by Oct. 25. This deadline is set in order that listings might be taken in sufficient time for handbills to be printed and distributed.

"We are planning for the biggest and best sale yet," stated Brown as he emphasized that anything from household equipment to farm equipment and livestock will be auctioned.

Eastern Star ladies will have charge of concessions at the auction.

TO HOUSTON

Ira Foster has gone to Houston. Mrs. Foster, who has been visiting there, will return with him. Mrs. Foster earlier accompanied a brother to the port city.

OHS Band Takes First At ENMU; Linda Fent Gets Twirling Second

The Olton High School Band won first place in Class B competition in the ENMU homecoming parade in Portales, NM, Saturday, Oct. 13.

Competing against twirlers from ten school bands, both Class A and B, Miss Linda Fent captured second place honors in the twirling contest. She was presented with a plaque for the second place winner. Taking

first place was Miss Sandy Bell of Clovis, NM.

Linda has served as a twirling instructor at the summer band schools at Tech the past two summers and has also given private lessons to area girls.

Participating in the parade in Class B were the high school bands from Morton; Bovina; Farwell; Dora, NM; Jal, NM; and Vaughn, NM. The Morton High School Band and Jal High School Bank took second and third places, respectively.

In Class A competition, Clovis won first place in the parade, with Muleshoe and Portales taking second and third place honors, respectively.

At the halftime of the ENMU College of Idaho homecoming game, attended by 5,000 fans, the Olton and Clovis bands, winners of their class, marched across the field. Also, approximately 50 twirlers from the entering bands performed in the halftime activities.

All visiting bands were invited to a free barbecue given on the ENMU campus after the parade.

Survivors in addition to the Olton sons are three other sons, Glen, Fred and Tommy Hankins of Eldorado; one daughter, Mrs. Lee Fox of Eldorado; and twelve grandchildren.

Services Held For Father Of W. T. Hankins

Mr. and Mrs. W. T. Hankins attended funeral services held for his father, O. C. Hankins, in the First Baptist Church of Eldorado, Okla., Monday afternoon.

A long-time resident of Eldorado, Mr. Hankins, 73, died Sunday morning, Oct. 14, in his home. His wife passed away in 1952.

Locals Attend Tax Conference

Andrew W. Stroebel, local attorney, and C. W. Grant of the Grant Insurance Agency, attended the fourth annual Texas Tech Conference held in Lubbock Monday through Wednesday.

Services Held For Sister Of Mrs. L. Graham

Funeral services were held Wednesday afternoon in the First Baptist Church in Pampa for Mrs. Bob Alford, 48, sister of Mrs. Lloyd Graham of this city, with Dr. Douglas Carver, officiating.

Mrs. Alford died Sunday night at McBride's Clinic in Oklahoma City, Okla., where she had been a patient for several weeks. Mrs. Graham had been at the bedside of her sister during the last days of her illness.

Born in Winnsboro, Tex., Mrs. Alford had been a resident of Pampa for 20 years.

Survivors besides her husband and Mrs. Graham include two sons, Bob, Jr., of Ballinger, and John of the home; her mother, Mrs. J. F. Elliott, Wellington; a sister, Mrs. Billy Cornett, Groom; two brothers, Amon Elliott, Wellington; Harmon Elliott, Littlefield; and one grandchild.

VISITS BROTHER

Mr. and Mrs. Tommy Moore of Tucson, Ariz., were week-end visitors with his brother and family, the Elmer Moores of Olton.

FFA Boys Exhibit Animals At Fair

Thirteen FFA boys and J. C. Lane, vocational agriculture instructor, are in Dallas this week for the purpose of exhibiting animals in the State Fair. The sheep show is scheduled for Wednesday and the calf and hog show for Thursday.

Having left Sunday for Dallas in semi-trucks, the groups will return to Olton Friday.

Those showing animals are as follows: Royce McFadden, showing Chester Whites, sheep and calves; Dewey Hukill, Poland Chinas and a calf; Houston Hamby, Chester Whites, sheep, and two calves; John Adams, a calf; Don Kidd, two calves; Sammy Thomas, a calf; Jerry Moore, a Hampshire pig; Lennon Young, a calf.

Also, John Lynn Burrow, a lamb; Darrell Dennis, a calf and a lamb; Harland Carson, a calf; Elmer Houston, a calf; and Carl Nafzger, three Hampshire barrows.

Nancy Brigance, a 4-H member, is having a calf shown at the fair by Jerry Moore.

Thompson Chevrolet Will Unveil 1957 Model Chevrolets Friday

The 1957 Chevrolet will be unveiled at Thompson Chevrolet Company Friday.

Fred Thompson, who operates the firm, said the showing will be from 8 o'clock Friday morning until 6 o'clock Friday evening. "We want to invite everyone to come out and see the new Chevrolet," Mr. Thompson declared.

VISITS BROTHER

Mr. and Mrs. Tommy Moore of Tucson, Ariz., were week-end visitors with his brother and family, the Elmer Moores of Olton.

The motorcade will assemble at 6 o'clock sharp on the bus parking area in front of grade school and will follow the buses ridden by the players to Muleshoe.

Troy Martin is chairman of the Lions Club motorcade committee.

Olton will be facing one of the toughest teams this year in the person of the victory-hungry Mules. That team has suffered only two defeats this season.

They were beaten by Springlake 19 to 14 and by Hale Center 41 to 34—almost the same margin by which the Owls defeated Olton.

Right halfback John Young is one of Muleshoe's best boys. He is fast and specializes on the pitchout and dive plays.

Olton will meet one of the slickest quarterbacks they will have to face in conference play in the person of Dick Johnson.

He is a sharp ball handler and runs more like an antelope than the namesake of the Muleshoe team. His specialty is the option play.

The Mule power runner is Bill Black who fills the fullback slot. He tips the scales at 170 pounds.

A boy that showed up well for the Mules against Hale Center is Leroy Corralez who weighs 153 pounds. He is an excellent broken field runner and is a threat any time he carries the ball.

Muleshoe's best lineman is Joe Roark who weighs in at 175 pounds. He plays center.

The Mules will be wearing solid black.

After a week of rest, the Mustangs are in high spirits, according to Coach Joe Turner.

The Olton team—already suffering from lack of depth—is injury riddled. Jack R. Straw and Jack Hysinger already were out and to make matters worse, Kirk McAdams suffered a jaw fracture in the game with Hereford.

Kirk probably will be out all season. His absence will be felt acutely by the Mustangs.

Mrs. Silcott Appointed To Committee

Mrs. C. S. Silcott was one of six Lamb County women appointed to an advisory committee to assist the county commissioners in management of a county library, to be effective Nov. 1.

The commissioners will assume responsibility of the library which, heretofore, has been operated by the Littlefield Women's Club. The club founded the library in 1913 when it was known as the Aftermath Club and the library consisted of 20 books in a member's home. The county has had supervision of the library since the opening of the courthouse in 1955; the library now including 6,500 books and being valued at \$20,000.

The Littlefield Club requested that the county undertake total operation and responsibility of the library, so action was taken to do so by Nov. 1.

In addition to Mrs. Silcott, other appointed members of the advisory committee are Mrs. Lena Hite, Earth; Mrs. Radley Nichols, Sudan; Mrs. Allen White, Amherst; Mrs. C. O. Stone, Littlefield, and Mrs. A. E. Brown, Spade.

Girl Scout Drive Through Saturday; Kick-Off Breakfast Held Mon. A.M.

A drive to raise \$484, the quota set for Olton as its part of the \$37,916 needed to finance the newly-formed Girl Scout Caprock Council, is continuing through Saturday.

A kick-off breakfast Monday morning launched the fund drive which was attended by ten volunteer workers and members of the drive committee. The drive committee is headed by Bill Yates and includes G. H. Bley, Dubb Granbery, Mrs. Marshall Stone, Mrs. Raiford Daniel, and Mrs. Paul Burrus.

In addition to personal solicitations, workers are maintaining tables in the bank and the cafes for the convenience of those wishing to make donations.

If the goal set for the Caprock Council is met, the council will be chartered in January, 1957. The new council is made up of Lubbock and nine surrounding counties. In the event that it is chartered, Olton will have regular professional Girl Scout help for the first time in its history. Heretofore, the Olton Girl Scouts have operated with the very minimum of professional assistance, and for the past eight years have been sponsored by the Olton Study Club.

Mrs. Leo Ross Bryant, recently elected neighborhood chairman, stated: "The enthusiasm and generous support of our citizens is showing all the Girl Scout adult workers that their efforts have been appreciated by the community. Our girls and leaders have so many wonderful plans for the coming year that we are confident we will be able to make a real contribution in service to Olton."

Cub Scouts To Sponsor Rides

Olton's Cub Scouts will sponsor pony rides and three different kinds of kid rides Friday and Saturday on the east side of the square, according to announcement of V. L. Smith, Cub Scout worker.

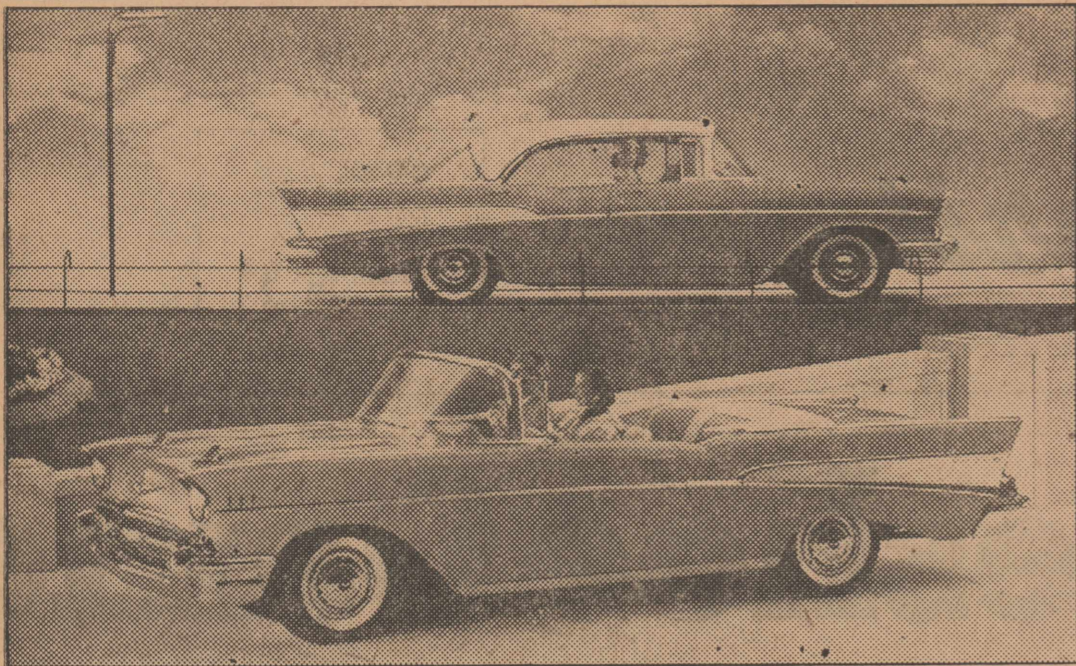

It is anticipated that at least 1,000 tickets will be sold for 25 cents each, the Cub Scout pack receiving half the proceeds on the rides and all on the ponies. Smith is owner of the ponies. Uniformed Cub Scouts have been pushing ticket sales this week, working in cooperation with Mr. Smith.

Southwestern Public Service will be in charge of lighting facilities.

VISITS PARENTS

Devin McAnally, son of the Rev. and Mrs. Russell McAnally, visited with his parents last week-end. He is a student at Roscoe High School.

1957 Chevrolets Carry Individual Beauty

Distinctive styling and trim treatments for each of the three series of 1957 Chevrolet passenger cars are emphasized dramatically in this two-level photo of the "Two-Ten" sport sedan, at top, and the Bel Air convertible. Bodies plus wide range in color choices total 460 for the line.

1957 Chevrolet Improvements Will Enhance Driving Comfort, Safety

While the 1957 Chevrolet boasts a number of improvements that will enhance the comfort and safety of driving, major interest in the chassis story is found in the greatest variety of power plants ever produced by a low price car builder.

Offered in the line that makes its bow at Thompson Chevrolet, Friday, Oct. 19, are one six and four eight-cylinder engines, ranging in horsepower from 140 to 283. The six develops 140-horsepower. The eights range in horsepower from 283, 270, 250 and 245 for the "Corvette V8" to 220 for the Super Turbo-Fire "283," 185 for the Turbo-Fire "283," and 162 horsepower for the Turbo-Fire "265."

Each of the engines is improved mechanically, but the gain in power—up from a peak of 225 horses in the 1956 line—is primarily due to large bore, higher compression ratios, higher lift camshafts and fuel injection.

With displacements of the six cylinder and lowest cost V8 remaining unchanged at 235 and 265 cubic inches respectively, the more powerful eights are measured at 283. Bore has been increased one-eighth of an inch over the highest powered 1956 V8 to a new 3.875 inches. Piston stroke in all Chevrolet eights stands at 3 inches, one of the shortest in the industry and a contributing factor in the effortless power output.

All high performance engines are based on the 283 cubic inch block, while varying in fuel induction, compression ratio, camshafts and valving. Mechanical-type valve lifters are used in the special high performance engines with compression up to 10.5 to 1 with fuel injection. Full pressure lubrication to the valve lifter galleries replaces the former metered system on all V8s. Full flow oil filters continue as a popular option, except on engines equipped with two four-barrel carburetors or fuel injection. Here filters are standard.

There are numerous other refinements. Top deck of the V8 cylinder block is increased in thickness for improved cylinder head attachment. The re-design will minimize cylinder wall distortion through over-tightening of hold-down bolts.

Spark plug electrodes protrude one-eighth inch farther into the combustion chamber, resulting in shorter flame travel. New metal heat deflection shields between spark plugs and exhaust manifold protects the spark plug wires and boots from heat. Starting motors of both six and V8 have been modified

to increase the efficiency of the solenoid.

Improved engine breathing is claimed for new "ram's horn" exhaust manifolds on the V8s. The new design provides larger gas passages which gradually increase in cross-sectional area from the inlet port at the cylinder head to the outlet. The manifolds are designed to rush spent gases from each cylinder with equal freedom from back pressures.

A new distributor of advanced design is used on V8 engines equipped with the two-barrel or single four-barrel carburetors. This places the breaker points directly above the shaft bearing, reducing fluctuations in the gap setting. An access door in the distributor cap provides for the setting of the breaker gap while the engine is running.

Clutches on the 1957 Chevrolets have been improved for durability. Both molded and woven facing material have greater strength and wear resistance. A new semi-centrifugal clutch is introduced in Super Turbo-Fire "283" and "Corvette V8" engines to produce greater force on the pressure plate.

Front and intermediate main bearing of V8 engines are one-sixteenth inch wider, while connecting rod bearings and the front and intermediate main bearings of all Corvette V8 engines are of a premium material, an alloy which is said to triple average bearing life.

Notched pistons and dual exhausts are also characteristic of the high performance cars. In all V8s pistons rings have been revised for better compression and oil control.

GOC Will Set Up Observation Posts In Olton

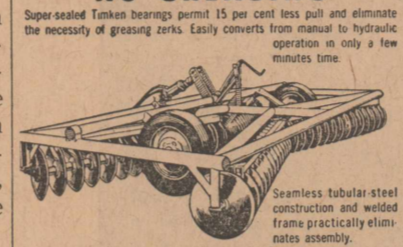

For the purpose of training Olton citizens for Ground Observer Corps observation posts, a meeting on Nov. 6 has been scheduled by Sgt. Alvin G. Doyle of Amarillo.

Although the meeting will be held in conjunction with the volunteer fire department, Sergeant Doyle emphasized that the meeting is open to all individuals who are interested in this phase of civil defense.

Purpose of the first meeting is to acquaint people with the Ground Observer Corps and what is expected of those who will man observation posts. After this first orientation program, two actual training classes will be set up, making a total of three meetings.

Observation posts are being

GATE-CLOSERS

Dear Friends

A farmer friend of ours paid Humble's field men a fine compliment recently. He said, "There's one thing about you Humble people, you close gates." Well, of course we do. All of us at Humble want the good will of the folks with whom we do business. And among those folks, the farmers and ranchers who lease their land to us for exploration and production are right at the top of the list. In fact, you farmers are partners with us in the development of a vital natural resource. If our efforts are successful then everyone involved benefits. Keeping the gates closed and the fences mended—things like that are the least we can do. We know. A lot of us grew up on farms and ranches.

Democratic campaign strategists confronted us with the new approach for politicians when they presented Stevenson in these five-minute TV appearances from his home, his study, his farm, his grocery store. The idea was good; the scene well-rehearsed; the effect, mmm, no comment.

Then the Republicans came up with the same basis for another gimmick—a question and answer period on TV for Ike, with a carefully picked audience of questioners representing a cross-section of Americans.

Again, the idea was good; the scene well-rehearsed; the effect, same.

It was not to be concealed that both Adlai and Ike were rather ill at ease and unsure. My opinion would be that in spite of all their experience as public speakers, without script before them they are almost lost.

They may be aspiring for the office of highest honor in the country, but as Thespians, neither would ever win the Academy Award.

Voice of experience: it's better to give than lend, and it costs about the same.

Even though I seldom saw Mrs. George Bohner previous to her illness, just knowing she's ill makes me miss her daily!

If you want to "win friends and influence people," don't ever tell a woman a dress is FLATTERING. Tell her it's BECOMING.

FLATTERING is accepted to mean deceiving, making her look better than she really does.

BECOMING implies that something she's wearing enhances, accentuates her good features.

Nothing quite so nostalgic as going through keepsakes.

A corsage ribbon, a gum wrapper, a napkin, a letter, a clipping, a luggage sticker, a crushed flower—each item recalls details

of an "important" incident you hadn't remembered.

You can't believe you were ever that silly!

You wonder what has happened to certain roommates, buddies, old beaux.

You feel a little swell at reading autographs in school year-books.

You wonder why in the world you ever saved certain of these things!

So you throw away something with which you felt you could never part.

Then you gently replace the things, feeling a little reverent, a little embarrassed, a bit vague and absent from reality.

But rather thankful that TIME IS, and that all those things are in the past.

Contentment, satisfaction.

Here's what put the magic in the new kind of FORD!

It started with the "Inner Ford." When Ford planned this baby, they thought in terms of a car through-and-through new.

The wheels got smaller. This Ford is so new that even the wheels have changed. Now smaller and broader, they help you take off quickly.

The wheelbase got longer . . . so now you can choose between a Ford that's over 16 ft. long—or one over 17 ft. long!

The frame got wider. Side rails bow out to give a more stable, safer riding platform . . . a lower, sleeker silhouette.

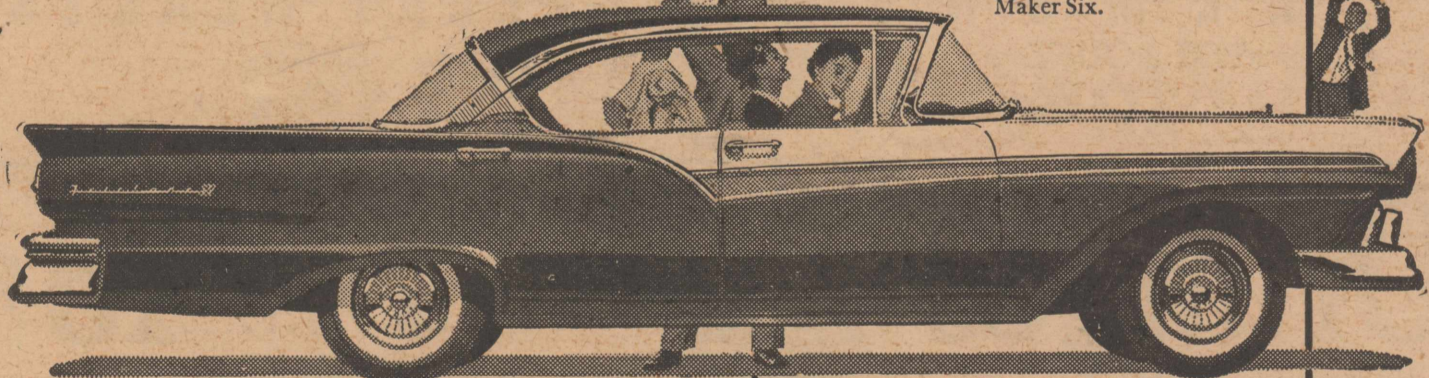

The ride got smoother. With new suspension, new springing front and rear, the ride this new Ford gives is the smoothest ever.

The handling got easier. Poised and balanced like a panther, this car has swept-back front suspension that works its magic when you need it most.

The power got hotter. There's a wide range of Silver Anniversary V-8's to fit every horsepower need* . . . plus a new Mileage Maker Six.

"Six or V-8 the going is great!"

What put the magic in the new kind of FORD?

The new Ford Fairlane 500 (118-inch wheelbase). Longer, lower, larger than many medium-priced cars, yet lower in price than most of them!

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body built for a low-priced car. No car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. They have the Touch of Tomorrow. Each graceful contour says, "Let's go!"

The style got smarter. With this new-look Ford you have a car that belongs anywhere! All Fairlane models look like hardtops.

The value got greater . . . the price is still Ford-low.

*A Special 270-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 312 Super V-8 engine delivering up to 288 hp.

ACCORDING TO THE WORD OF GOD—
DID THE SPIRIT OF THE LORD OR DID
PHILLIP TELL THE EUNUCH WHAT TO
DO TO BE SAVED?

THE SPIRIT OF THE LORD SAID TO PHILLIP (NOT
THE EUNUCH):

"Go down . . . unto the way . . . unto Gaza" (Acts 8:26).

"Go . . . join thyself to the chariot" (Acts 8:29).

PHILLIP SAID TO THE EUNUCH:

"Understandeth what thou readest" (Acts 8:30)?

" . . . preached unto him Jesus" (Acts 8:35).

" . . . if thou believest . . . thou mayest (be baptized)"

(Acts 8:37).

One learns how to be saved today from the New Testament and not from any other source.

Band Boosters Urged To Meet

A very important meeting of the Band Boosters is slated for Thursday night, Oct. 25, at 7 o'clock in the band hall, according to an announcement of Fred Stockdale, band director.

Purpose of the meeting is to discuss the proposed band trip to El Paso to participate in the Sun Bowl game on New Year's

Day. The OHS Band has received an invitation from Sun Bowl officials to perform at half-time.

"It is very necessary that band parents attend this meeting if they wish their children to participate in this trip. Farm parents that cannot be there at 7 o'clock are urged to come as early as possible," stated Stockdale.

Texans Find Ike Stands For Same Things We Do

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bureaucratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Republican. They always voted "er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's happened," one of them told me. "Seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stands for the things us Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little different, but by and large they think he has made us a fine President. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,
Tex

GAIL STAGGS WINS HONORS IN PLAINVIEW

Gail Staggs, daughter of Mr. and Mrs. Cecil Staggs and a member of the Halfway 4-H Club, took several honors at the Hale County Fair held recently in Plainview.

In the wet lot division of 4-H calves, she showed the grand champion. She also exhibited the reserve champion over all 4-H calves shown.

Gail entered several items in the fair, winning second on her 4-H dress in the youth division. She took several first and second ribbons on baked, frozen and canned products.

A sixth grade student, Gail attends school in Olton and is a member of the junior band.

ATTENDS WORKSHOP

Mrs. Leo Ross Bryant, recently elected neighborhood chairman, attended a workshop for all the neighborhood chairmen of the new Girl Scout Caprock Council, which was held at the Girl Scout Little House in Lubbock Friday, Miss Virginia Burgess, field director from Dallas, was in charge of the all-day training course.

ATTEND WEDDING

Rev. and Mrs. John Lewis attended the wedding of their niece in Lubbock Saturday morning.

VISIT PARENTS

Mr. and Mrs. Bill Todd of Brownfield visited her parents, Mr. and Mrs. I. V. Fent, over the week-end. They also attended the WTSC-Texas Tech game Saturday, Mrs. Todd having been a former student at the Canyon school. She is now a physical education instructor in Brownfield High School.

C. COX STARS IN "BABY DOLL" ACT

Olton unexpectedly contributed a star performer in the Junior League Follies held Friday night in the Plainview High School auditorium.

The rather reluctant participant was Carroll Cox, as he and six other men were picked at random from the audience by "The Baby Dolls." As the girls sang "You Must Have Been A Beautiful Baby," they escorted Cox and the others to chairs on the stage, immediately costuming them with baby bonnets, bibs and rattlers. After administering the full treatment to the impromptu stars, they returned them to their seats—blushing, but with half-grins to show that they didn't mind being "part of the act."

Several Oltonites attended the presentation of the Follies of '56 Friday, including Mr. and Mrs. Cox, Mrs. Wayne Hair, Dr. and Mrs. Jim Fite, Mrs. Cleo Smith, Mrs. Mardema Ogletree, Mrs. George Redinger, Mrs. Elmer McGill and Mrs. J. R. Duncan.

VISIT LEWISES

Saturday night guests in the Rev. John Lewis home were his sister and her husband, Mr. and Mrs. B. E. Glover, of Borger.

FHA Freshmen Initiated

SPRINGLAKE—The Springlake FHA freshman girls underwent initiation services last week and wore different costumes each day for three days.

On Wednesday they wore their fathers' pants rolled one inch above the knees, black hose tied with ribbons, and tennis shoes laced with binder twine, plus a banana in each shoe. They donned sweaters wrong side out and backward, a rhinestone necklace, pigtailed tied with red ribbons, and wore no make-up.

Thursday they wore burlap skirts, old black shoes, pajama tops, and a necklace of peeled onions. Black helmets covered their uncombed hair and they carried a plunger and knee pads. On Friday they wore dresses four sizes too large, high heels with bobby sox, big picture hat, four necklaces, six bracelets, and a slicked-back hairdo. They carried dolls with baby bottles.

Traffic Safety Is XIT Program

SPRINGLAKE—The XIT Study Club met Tuesday night, Oct. 9, in the community building with Mrs. James Busby and Mrs. Z. T. Byers as hostesses. Mrs. Jess Watson, president, presided.

Fred Marshall, deputy officer from the Texas Highway Patrol in Lubbock, brought an informative discussion on traffic safety and driver education. He was introduced by Mrs. Ernest Baker.

Following the program a short business session was held and the Girl Scout fund drive was discussed.

Centering the table, which was laid with a lace cloth, was a bouquet of fall flowers. Angel food cake, punch and coffee were served.

Guests were Mesdames W. T. Clayton, Jimmy Winder, Jess Watson, James Sanderson, Arnold Washington, Ronnie Smith, Alton McNamara, Edwin Jones, Cletis Clayton, Billy Clayton, Roy Byers, James Busby, Bill Burrow, Kenneth Boone, Z. T. Byers, and Baker.

Closing prayer was led by Mrs. Clayton.

WMS Circle Studies Books

SPRINGLAKE—The Eva Sanders Circle of the WMS met Monday afternoon at 3 o'clock for Bible study. Mrs. Lowell Walden, circle chairman, presided over the meeting.

"Building and Achieving," by Ralph Grant, and "The Fullness of Living," by J. W. Smith were taught by the Rev. John Williams.

Members present were Mesdames John Williams, Harlon Watson, Ernest Green, John Bridges, W. T. Jones, Jimmy Banks, Jess Watson, Ernest Baker, Walden, and H. A. McClanahan.

Joellen Spain Party Honoree

Joellen Spain, daughter of Mr. and Mrs. Don Spain, was honored on her fourth birthday Saturday with a party in her home.

Centering the serving table was a birthday cake with candles. Graham crackers, iced and decorated with animal cookies, and ice cream cones were served the guests. A potato relay and other outside games were played.

Children attending were Jamie Martin, Kenny Spain, Jacqui Bristol, Andy Hale, Greg Spain, Gary and Alicia Cooper, Gary Kelley, Terry Dale Snider, Carmen and Kelby Robertson, Cathy Spain, Joellen and her brother, Steve.

New Tractors On Display At John Deere

The new John Deeres are on display at Thompson Brothers Implement Company.

Newly arrived are the John Deere 420, the 620 and the 720. Greatly increased power and more versatile hydraulic systems are among the major advancements offered in the new John Deere tractors this year. Ed Thompson, who operates the farm implement firm, declared this week.

Mr. Thompson said the 520, 620 and 720 series—entirely new—retains the basic 2-cylinder engine design but delivers much

great power.

In factory tests on gasoline, the 3-plow "520" developed about 36 belt hp; the 4-plow "620" developed about 48 belt hp; and the 5-plow "720" developed about 58 belt hp. These tractors provide a wide choice of models and front-end assemblies, for all types of farming. Either LP-Gas or gasoline engines are available for the "520," "620," and "720" Series, and a Diesel engine is available for the "720" Series.

SCD Urges Stubble Mulching

"Stubble Mulching is the best way to handle residue left from harvesting grain sorghum," says Thurlo Branscum, who is chair-

man of the Lamb County Soil Conservation District Board of Supervisors.

Branscum points out, "Stubble Mulching helps control wind and water erosion and adds the organic matter back to the soil where it was grown."

According to Branscum, "The most common method of stubble mulching is to shred or cut the stubble and work it into the topsoil with a tandem disc or

one-way plow. This method works good on tight and medium-textured soils, but in the sandier soils the stubble should be left standing by running a large flat sweep under it.

This will cover the loose leaves to keep them from blowing off, and the roughness caused by the remaining residue on the soil surface will break the wind's turbulence to help prevent wind erosion."

"Another method used by Bill Nix, Waymon Bellar, Joe West and W. T. Mudgett of the Sudan area is to leave the stubble standing and list the middle back to the row. Then vetch or vetch and rye is planted to give a winter cover crop which is plowed under in the spring as a green manure crop," reports Branscum.

"Grain sorghum may be a problem for some farmers to handle, but my problem is getting the stubble," says W. W. "Bill" Bearden of Olton.

Branscum points out, "Bill's method is a stalk shredder and a tandem disc.

He shreds the stubble and works the residue into the topsoil. By keeping the organic matter near the surface, the decaying is much faster and the soil won't compact as easy decreasing the blowing hazard."

"Bill had a heavy cowpea and sorghum stubble on all of his feedland last year. He shredded the stubble and added cotton burs working them into the soil with a tandem disc, and then he added nitrogen fertilizer to replace the nitrogen that was tied-up by the soil bacteria in decomposing the organic matter," states Thurlo. Bill says, "The soil was conditioned so well that I only had to water my crop twice this season, and I expect a high increase in my grain yield this year."

Branscum concludes, "Where there is a heavy crop residue of any kind returned back to the soil, a nitrogen fertilizer should be used to keep free nitrogen available for growing plants and soil bacteria which are busy breaking down and decomposing the organic matter."

Here! New Task-Force 57 Chevrolet Trucks!

Performance-proved in a history-making test on the ALCAN Highway to Alaska

The Alcan Highway is the road where trucks grow old before their time. The road where gravel endlessly sledgehammers the life out of trucks. Where a fog of superfine dust chokes engines, and vicious ruts subject chassis to months of wear in a few hundred miles.

Six new '57 Chevrolet trucks, heavily loaded with cargo, roared north from Dawson Creek, B.C., through 1,520 miles of mountains and mire, rain and hail to Fairbanks, Alaska. Running around the clock, they made this tortuous trip—normally a 72-hour run—in less than 45 hours. As a special test during the run, two of the trucks went the entire distance without once having their engines stopped!

Come in and see how well these new Alcan champs measure up to your job.

FIRST WITH THE MOST MODERN FEATURES:

New 283-cubic-inch Taskmaster V8 is standard in Series 5000, 7000 and 8000, optional in Series 6000 at extra cost. Horsepower ranges up to 210 in Chevrolet's complete line-up of modern V8 and 6 truck engines.

Revolutionary Powermatic Transmission—exclusive with Chevrolet trucks! This six-speed automatic, designed specifically for heavy-duty hauling, is an extra-cost option in Series 5000 and 6000 and all heavy-duty truck models. Hydra-Matic is offered in 3000 and 4000 Series models at extra cost.

L.C.F. models outdate C.O.E. trucks in every way; yet offer all the traditional C.O.E. advantages.

Heavyweight Champs with Triple-Torque tandem are rated at 32,000 lbs. GVW, 50,000 lbs. GCW. Special features include built-in 3-speed power divider.

Alcan fleet reports up to 18.17 miles per gallon! That's the mileage reported by the Cameo Carrier, with Thriftmaster 6 and Overdrive (optional at extra cost).

All the way in DRIVE range with Powermatic! This Powermatic-equipped 10000 Series tractor traveled the Alcan Highway in a single forward-speed range!

nor glasses alone correct faulty vision

It would be ridiculous to measure a surgeon's skill by the stitches and sponges he uses. You seek the service of a trained, experienced and skillful surgeon because you want the best professional advice, skill and surgical aids to be had. It's his medical and surgical knowledge that pulls you through. You know his fee is based on professional services and not on the materials he uses.

ARE YOU AS WISE ABOUT YOUR EYES?

Glasses alone won't correct faulty vision. Their value depends on the skill with which your eyes are examined and refracted—your glasses prescribed and fitted.

Don't confuse the price of glasses with the cost of eye comfort. Seek professional advice, not glasses at a price.

Springlake Boy Plays With ENMU

Bob Price, a 190-pound freshman fullback from Springlake, has added much zest to the Eastern New Mexico University football team this fall.

The hard-driving back had carried the ball only once this per try.

He picked up two letters at Springlake High School before enrolling at Eastern. Price is due to see ample action in Saturday's Homecoming test with College of Idaho. He is the son of Mr. and Mrs. Curtis B. Price, Route 1.
