# Ford goes First!

## In Performance

At NASCAR's Speed and Safety Event at Daytona, Ford won the Manufacturer's Trophy for best all-around performance. And Ford's 225-h.p. Thunderbird Special V-8, in one day, smashed 30 world speed records at Kingman, Arizona. No wonder Ford is the world's largest-selling eight.

## In Safety

When the editors of "Motor Trend" unanimously voted Ford's safety program "the top car advance" of 1956, they had in mind Ford's Lifeguard Design... a whole family of safety features, including a deep-center steering wheel and double-grip door latches, to help protect you in case of accident.

## In Economy

In this year's Mobilgas Economy Run, a Ford Customline V-8 with Fordomatic won over all cars in its class. The sturdier, heavier Ford carried more weight with greater gasoline economy per pound than any competitive car... "sixes" as well as "eights"! Ford proved itself a regular gas miser.

The way a Ford performs, the way it saves, the way it protects you, go hand-in-hand with the way it looks and lasts. Ford's look was inspired by America's most exciting car, the Thunderbird. Its rugged K-bar frame and carefully-built body give it the endurance and reliability traditional with Ford. These are the facts behind Ford's reputation as the car that's worth more when you buy it... worth more when you sell it, too! Come in and let us show you!

When Ann Blythe had her accident and they took her to the hospital, they said she didn't have any blood pressure. Ann said, "Oh, that's alright. I've never had any blood pressure!" Of course, a little later she did have. We couldn't decide whether the lick on her forehead made her talk like that or if she was just trying to cheer up the nurses! *Dear Friends*

As a part of their work in Humble's Refining Research Laboratory, Humble scientists bombard petroleum hydrocarbons with electrons in a 2-million volt Van de Graaff Accelerator.

But if you ask one of these scientists what he expects to find, he'll answer, who knows!

For this is fundamental research. Results may be quick or they may be a long time developing. Who knows?

. . . Perhaps the scientists will find a way to increase the yield of useful products from a barrel of crude oil.

. . . Perhaps they'll be able to make improvements in the fine products already supplied you.

. . . Perhaps they'll develop an entirely new group of petroleum products.

Who knows!

This much, however, is certain: Humble research scientists at Baytown use every device of physics, chemistry, mathematics and mechanics to provide you with more and better petroleum products.

Two quick examples: The specifications for Esso Extra gasoline, the formula for Humble Uniflo motor oil. These, without question, are the finest products you can use in your car.

*Sincerely*

Notes To You

BY NELDA ROACH

(Springlake Teen-ager News)

Elvis Presley is the talk of Springlake school since every one saw him last Tuesday night at Lubbock. Approximately thirty SL students enjoyed the occasion. Some of the couples were: David Cearley, Norma Jean Stovall; Joe Campbell, Pat Armstrong; Sue Neal, Kenneth Lowe; Ernie Watkins, LaRue Glasscock; Claude Davis, Tanze Cole;

Charlyne Ellis, Max Brown; Shirley Chaney, Jimmie Duke; Ronald Sandel, Kay Haberer; Charlene Hamilton, Robert Riley; Elaine Riley, Jimmy Herring; A. L. Cody, Helen Salsman; John Blackwell and Shirley Green.

Wonder if anything serious will result from this: Richard Bills and Eunice Jenkins were together every night last week attending a Baptist revival at Sunnyside.

Jimmy Herring and Elaine Riley were together Thurs, Saturday in Littlefield, and Sunday afternoon.

What's this about James Coop-

er and Marilyn McGeath? They were together Sunday afternoon and night.

The seniors do not have much of a chance for dating until after the play--That isn't a problem for Janis Jones and A. J. Phillips because they are both in the play and are together every night. Robert Riley isn't in the play but he manages to take Charlene Hamilton home after play practice.

Sunday afternoon seems to be the day for couples to get together. Some of them were Naomi Starkey, Bobby Moore; Bud Cooper, Kathleen Wisian; Jane McGeath, Jerry Jacquess; Rita Crawford, Charles Moore; Norita Bolinger, Jerry James; Norma Jones and Otis King.

Rex Loftis and Carol Hamilton are always together. They went to the Muleshoe Rodeo Friday night and were together over the week-end.

Nita Messer and Charles Jackson (Littlefield) must enjoy each other's company. They were together Tues, Fri, Sat, morn., Saturday night and all day Sunday. Where is this leading to???

Another couple that just can't stay away from each other is Nelda Roach and Doyle Woolley. He managed to drag her away from play practice Tuesday night and Friday night Doyle, why were you so angry with her Sunday night?

Richard Green seldom gets in the news but when he does he makes headlines or that is he made headlines with Kay Wheat Saturday night. They were seen in Amherst at the "Drive-in movie. A. C. Lewis and Barbara Lott were with them.

ironing things out

by korkye martin

Hmmm, evidently when my duties at The Olton Enterprise were terminated, The Publisher meant "terminated." Why, he forgot even to bring home a paper last week.

You see, with the advent of Edna Price as our new bookkeeper, I was finally able to "retire" from newspaper business. But then, when it became so acutely apparent that they could produce without any help at all from yours truly, I suddenly became homesick for the smell and smudge of printer's ink (as if The Publisher doesn't bring home enough on clothes and hands).

It truly does get in your blood, I suppose--newspapering. At any rate, seems I can't keep my nose out of it. So here I am, trying to crash the columns of The Enterprise again; except this time, in my own way.

Of course, He may not consider my material worth printing (He does have the last word you know), but I can try!

It's a not-so-well-accepted fact among newspaper people that everyone considers himself a natural-born newspaperman, reporter, editor, whatever you wish to call it. There are some people who, because they do or do not advertise, would try to dominate the news columns.

On the other hand, there are some who are so timid as to fall even to call in a "personal," thinking "Oh, I'm nobody. They aren't interested in anything I do."

Whether you're the natural-born, the nobody, or the in-between, this is meant to be YOUR column: amusing incidents that happen around your house or on a fishing trip; your pet peeves; a helpful hint you've tried and proved; a philosophy of life you've confirmed; or even (and I include this guardedly) a smart quip by your little boy or girl.

We believe you'd enjoy reading about yourselves and your neighbors in a light that "strictly news" columns cannot afford. So let us hear from you.

So many new work-saving devices, time-saving methods and short-cuts are being presented on TV nowadays, that if you sat down to watch them all, when in the world would you get your washing, ironing, baking and cleaning done?

Heard a woman from another town remark the other day, "I think most of the teachers in our school are in it only for the money."

And she was serious! Of course, that possibly could be true in certain instances of other of the professions, but of teaching? Don't see how!

Andy and Cathy Stroebel just returned from a wedding trip and were moving into their new house in the Hillcrest Addition. Three bedrooms, but only two beds. So Cathy carefully supervised the placing of Bed No. 1 in Room No. 2, and Bed No. 2 in Room No. 2, with Room No. 3 to be used as a den.

Then after her bridegroom had laboriously set up each bed in the proper place, Cathy decided that Bed No. 1 should go in Room No. 1, and Bed No. 2 should go in Room No. 3. Andy quietly dismounted both beds, moved them accordingly, and replaced them per instructions.

This is just for the record, Cathy. Just try a deal like this again in 25, 10, or even 5 years!

In spite of all the jokes and the tongue-in-cheek stories told about conventions, they are wonderful things! If nothing more, you find out a lot about people

you know and have known. For instance, your spouse. Last week-end at the Panhandle Press Convention in Amarillo, we ran into dozens of people who'd known Troy in the days before glasses, crew-cut, and 175-pounds. And almost unanimously they exclaimed, "Well Troy, I didn't know you at all until you spoke. But that voice, I could never forget."

And then there was the Berger editor who had met my husband's wife a couple of years ago, and who, obviously surprised, remarked, "Why Troy, I thought your wife was slim!"

Today's diction lesson: COIFFER (pronounced koif'er) is a hairdresser; COIFFURE (pronounced koif'ur) is a hair arrangement.

Political Announcement

It has been talked quite a while that I was going to be a candidate for commissioner for precinct one. I have considered the job very much in every respect.

In my findings the past several weeks become more aware that this job is a full-time job with many big decisions to be made and lots of responsibility on the commissioner's shoulders.

Therefore, with my health condition improving as it is, it would be unwise for me to undertake such a big job if I were elected commissioner of precinct one.

I certainly want to thank the fellow citizens that bestowed so much confidence in me by asking me and encouraging me to be a candidate for commissioner.

No other truck can offer you as much as a new 1956 GMC

LOOK AT the facts--no matter what kind of truck you need. GMC's new light-duty power plants have as much as 16.2% greater displacement than the nearest competition. H.P.'s been upped as much as 20%. V8's are the latest in short-stroke design. In the new half-tonners, a brand-new fast-ratio cruising axle gives you all the efficiencies of overdrive. And it's an option at a fraction of overdrive's usual price. A new ride stabilizer gives Blue Chip

light-duties remarkable new riding comfort. No need to fight the steering-wheel--even on the poorest roads.

All GMC's now have a 12-volt electrical system. Tubeless tires are standard equipment. And a new boulevard styling makes a GMC far and away the best advertisement you can run.

ACCORDING TO THE WORD OF GOD—  
IN WHAT BODY OR CHURCH MAY  
ONE BE PLEASING TO GOD?

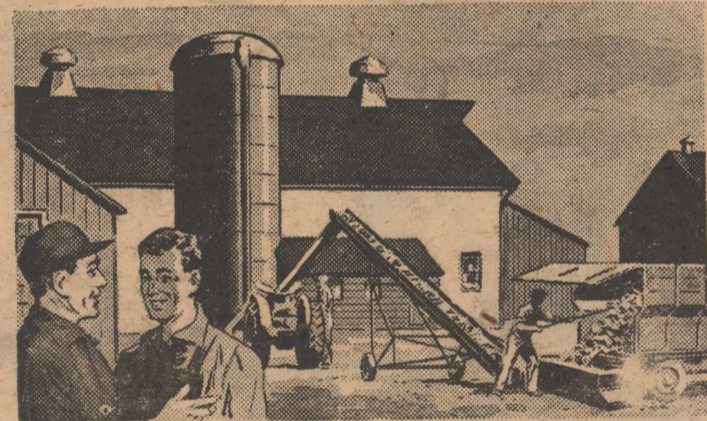

One may be pleasing to God in the body or church: THAT CHRIST BUILT, "my (Christ's) church..." (Mat. 16:18). THAT CHRIST PURCHASED WITH HIS BLOOD, "church of the Lord" (Acts 20:28). THAT CHRIST IS THE HEAD AND WILL SAVE, "the (Lord's) church" (Eph. 5:23). TO WHICH CHRIST ADDS THE SAVED, "the church" (Acts 2:47). IN WHICH CHRIST PLACED HIS TABLE (LORD'S SUPPER) "my (Christ's) kingdom" (Lk. 22:29, 30).

ACCORDING TO THE WORD OF GOD... there is no other gospel than the gospel of CHRIST (Gal. 1:6-9), no other name than the name of CHRIST (Acts 4:12), and no other body or church than the body or church of CHRIST (Eph. 3:21), in which one may be pleasing to God.
