OHS THINCLADS PLACE FOURTH IN CROSBYTON TRACK MEET

The Olton Mustang track team, which finished fourth among 34 schools in the highly-regarded Crosbyton Relays last week-end, will seek an even higher finish this Saturday at the Lockney Relays.

Coaches Jeff Smart and Joe Turner will take a full squad of boys to the Lockney meet. The affair is expected to attract a large number of Class AA, A and B schools from this entire area.

"We believe our boys can make a good showing," OHS coaches said Tuesday. "They are rounding into shape, and if Jarrell Edwards is able to run, we should do well." Edwards, a senior who can normally be expected to get points in the 440-yard dash and shot put, has been sidelined with a severe case of flu and virus.

At the Crosbyton Relays, the Mustang thinclads garnered 10 1/2 points for fourth place. Plainview won the affair with 24 1/2 points. Anton got second with 14 points, and Littlefield took third with 11 points.

Teddy Estes finished second in the 100-yard dash and Wally Stewart tied for third. The century dash was won by little Mus McMillan of Lorenzo in 10.2 seconds.

The Mustangs also got third place in the 440-yard relay (Wally Stewart, Darryl Dennis, John Jefferies and Teddy Estes), and took fourth place in the mile relay (Kirk McAdams, Dan Wallace, John Jefferies and Teddy Estes).

Other teams which won points in the meet included Matador 10; Spur, Hale Center, Sudan and Farwell with 9 each; Jayton and Springlake with 8 each; Lorenzo 7; Ralls 6; Sundown 5; Plains, Amherst, Post and Cotton Center with 3 each; Whiteface 2 1/2; Slaton and Happy with 2 each; Friendship with 1 1/2 and Lockney with 1.

Teams which did not score were Childress, Guthrie, Hart, Muleshoe, O'Donnell, Floydada, Crosbyton, Ropesville, Union of Brownfield and Coahoma.

Probable OHS entries in this Saturday's meet at Lockney, presuming Edwards is able to take part, were announced Wednesday by Coaches Smart and Turner as follows:

100-yard dash: Wally Stewart, Teddy Estes.
220-yard dash: Dan Wallace.
440-yard dash: Alvin Wallace, Jarrell Edwards, Don Kidd.
880-yard run: Kirk McAdams.
1 mile run: Arno Hall.
120-yard high hurdles: James Ray Hyatt, Alvin Wallace.
180-yard low hurdles: Wally Stewart, James Ray Hyatt, Royce

Former Olton Man Accidentally Electrocuted At Friona Sunday

Victim Was Father Of 7 Children

Marvin Burton, 27 years old, formerly of Olton, was killed instantly Sunday afternoon as 7,200 volts of electricity coursed through his body while he was helping erect a television antenna.

The accident occurred at the home of Burton's brother-in-law, Billy Pittman, on the H. E. Owens farm at Friona.

Mr. Burton was the father of seven children.

Mr. Burton was pronounced dead upon arrival at the Farmer County Hospital in Friona.

The Pittman family was moving from Olton to Friona and just unloaded their household effects when the tragedy occurred. Mr. Owens said that Mr. Burton and C. O. Collins, father-in-law of the other two men were erecting the antenna.

The guy wire Mr. Burton was holding came into contact with a hot wire in front of a transformer.

Mr. Burton was employed by Travis Carruth here in 1954. Funeral services were held Wednesday at Chillicothe.

Mr. Burton formerly resided at Chillicothe and Knox City.

Burton is survived by his widow Lavawn; five daughters, Virginia Mae, Thessie Lee, Carolyn Ann, Loreen and Doris Faye; two sons, Edward James and Eldon Dewin; his parents, Mr. and Mrs. A. D. Burton, Chillicothe; five brothers, R. W. Burton, Savage, Md., Edward, Hollyridge, N. C., Alton and Earl, both of Chillicothe, and Leon of Muleshoe; two sisters, Mrs. Thelma Lee Worley, Chillicothe, and Mrs. Dorothy Johnson, Bromide, Okla.

Mr. and Mrs. J. T. Copeland were in Dallas over the weekend.

One-Act Play Contest Slated Mon., Tues.

District 2-AA one-act play contest will be held here Monday and Tuesday nights, March 19-20, it was announced this week by Mrs. Harry Ford, district one-act play director.

Five schools—Tulia, Dimmitt, Littlefield, Muleshoe and Olton—will enter plays. Competition will begin at 7 p. m. each night in the high school auditorium.

Leslie E. Davis, assistant professor of speech at Texas Technological College, will be the judge. The winning school will take its play to regional competition in April.

Olton's play, directed by Mrs. Bill Rogers, will be "The Sisters McIntosh." Cast members are Kay Granberry, Juanice Hendrix and Bill Boverie.

Other plays to be presented are "The Running Tide" (Tulia); "This Way To Heaven" (Dimmitt); "She Stoops To Conquer" (Littlefield); "Legend of the Lake" (Muleshoe).

Admission will be 25c for students and 50c for adults.

Other Interscholastic League literary events will be held here in mid-April.

MRS. HAVINS IS TAKEN BY DEATH

Mrs. Frances Havins, 92 years old, died Wednesday of last week at the home of a daughter, Mrs. E. W. Vaughn of Olton.

Mrs. Havins is survived by 68 descendants.

She was born Sept. 10, 1863 in Arkansas and moved to Texas with her parents while still a small child. She was married when she was 17 years old to J. B. Havins of Burnet County.

Mr. Havins preceded his wife in death about 16 years ago. The couple had 10 children, three of whom preceded them in death. Mrs. Havins was a member of the Baptist Church. Funeral services were held Thursday of last week at Red Springs, near Seymour.

Survivors, other than Mrs. Vaughn, include four other daughters, Mrs. Ada Baker, Albuquerque, N. M., Mrs. Iva Robinson, Pampa, Mrs. W. H. Hogan of Lubbock, and Mrs. Ola Compton of Seymour; two sons, W. R. Havins of Ranger and T. S. Havins of Lubbock; and 26 grandchildren, 31 great grandchildren and 4 great great grandchildren.

Farm Editor Says 90 Percent Of Parity Absolute Minimum For Farmers Survival

BY ROY CLARK

When you consider what our American Farmer is accomplishing through cultivation of improved plant varieties, his ever-increasing use of chemical sprays and fertilizer, and irrigating his crops, the fallacy of limiting production by cutting acreage is easily apparent. Even if there were evidence that Congress will continue each year to appropriate the billion or more dollars needed for operating the soil-bunk (That's right, BUNK), and there is no such evidence, this ever-increasing productive ability will preclude success for acreage reduction as a means of cutting crop production. Coupling flexible supports (lower and lower prices) with this acreage reduction plan is supposed to cut back production on the remaining acreage. But when faced by a cut in the price of crops, American farmers have nearly always attempted to boost his income by "growing-more-for-less." They were never more able to do so.

Earnest Ezra recently told a Des Moines audience, "I have always felt that rural people of America are the safeguards of those principles" on which the nation was founded. "I don't want to see them discarded; without them, America is not safe."

On the same program, Cola G. Parker emphasized "the common denominators" linking farmers and businessmen.

Parker is president of that friend of the farmer in synthetic-

wool clothing, the National Association of Manufacturers. A great exponent of free markets for the other fellows.

Charlie Shuman, president of the decadent American Farm Bureau Federation, charges that all government farm aids have failed to lift farm income to any degree faster than the national-income increase. Shuman piously proclaims that the present farm ills came under the cover of government price supports.

My answer to Shuman is, "The hell you say!"

Between World War II and Benson, the American Farmer got 113 per cent of parity in 1946, 115 per cent in 1947, 110 per cent in 1948, 100 per cent in 1949, 101 per cent in 1950, 107 per cent in 1951 and 100 per cent in 1952.

Failure of the support plan to work appears to have begun when Earnest Ezra's hands started slipping on the reins of parity which declined to 92 per cent in 1953, 89 per cent in 1954 and 80 per cent in December, 1955.

Is Benson's sincerity a substitute for the success achieved by his immediate predecessors in the office of Secretary of Agriculture?

It is readily apparent that Benson has blundered. Now, having flexed farm parity to the breaking point—a charge he repeatedly has denied—he now cries for continuation of the flexible support program.

We cannot afford to give up high agricultural supports. They are the balance between agri-

culture and industry. They afford security and insurance to the American Farmer.

If they have failed, it has been because they did not cover enough of our farm products and because the application of the parity formula and marketing machinery have suffered from inept administration.

The opponents of 90 per cent parity supports for agricultural products point to the vigorous prosperity displayed by those industries they regard as indices of national prosperity as evidence that American economy no longer is geared to the farm economy. These men deny from high offices and the chairmanship of great corporations that the American Farmer is in trouble.

On what evidence is this "no trouble" theory—so heatedly declaimed by Blundering Benson—based?

Benson has turned a deaf ear to the personal pleas of dirt farmers, some of them your neighbors, who have pled, "We're in trouble. We need 90 per cent of parity for our farm products."

I have seen him nod in solemn agreement when wealthy oil men-farmers and financier-ranchers have quietly counseled, "Mr. Benson, all we farmers want is a free market and freedom from government regulation."

Whose advice has he taken?

At least half of our population is dependent on the American Farmer for income, wages and purchasing power. Agriculture has a greater capital investment

than does the whole of industry. If industry is to continue to enjoy protection from those "cheap goods and cheap labor" our farmers must, too.

Ninety per cent of parity is a practical basis on which to support all agricultural products. At 90 per cent, there is still a bonus at the market for the efficient, progressive farmer. The unfit will gradually drift into other work.

Flexible supports, on the other hand, are forcing many good once substantial farmers off their land. Hardest hit are those who operate "typical family farms"—an ambiguous term. Hard as the typical family farm is to define, however, it has furnished that national strength of character which has been our pride.

Since Thomas Jefferson asserted that people engaged in agriculture were "the chosen people of God, if ever He had a chosen people," this philosophy has been a trait of the national personality and politics.

But in view of the necessity of maintaining the balance between agriculture and industry, the balance structure's keystone supports must be maintained even at the expense of some of that proud agrarian individualism that is our heritage.

The American Farmer must have at least 90 per cent of parity at the market place. He cannot cut production and at the same time take continuous price cuts and survive.

Farmers Tell Of Union Trip To Washington

(Editor's note: Following is a report submitted by A. J. Givens on his recent trip to Washington, DC, with a group of Texas Farmers Union members.)

Thirty-three Texas Farmers Union members spent Feb. 26 to March 2 in Washington, DC, where they actively solicited support for farm legislation

which will increase farm income this year. This area was represented by A. J. Givens and Paul Hammer. They were joined in Washington by 125 other Farmers Union members from Illinois, Pennsylvania, South Dakota and Indiana who spent the same days in the capital city.

A. J. Givens reports this state's group contacted their congressmen and senators and that they urged them to support proposals that will provide 100% of parity income for all farm families.

Paul Hammer, Plainview, adds the present bill being considered by the senate falls considerably short of accomplishing this objective. Although, he points out, the bill does call for reinstatement of 90% price supports for corn, wheat, cotton and peanuts, and 80% for manufacturing milk. One of the highlights of the highlights of the trip, according to Joe Newman, Hart, was listening to a part of Senator Hubert Humphrey's comprehensive 358 page oration on the general farm situation, on the floor of the US Senate.

A two and one-half hour conference with Department of Agriculture officials revealed certain facts. Earl Laney of Hale Center, reports that seemed to be in direct contradiction to Secretary Ezra Benson's statement of the previous week-end, when he declared on a national TV show show anyone who claims farmers are depression-bound is simply "not telling the truth." Another department chart showed the farmers share of the consumer's food dollar is today at an all-time low, having dropped from 49c in 1950 to 38c now.

One of the department officials concluded his remarks by saying the material he had presented "highlights sort of a serious situation and that he didn't think it can continue much longer," according to Roland Shepard, Hart.

He also pointed out that most of the Washington Farmers Union visitors felt that Secretary Benson's nationwide TV statement of only four nights earlier to the effect that farmers were in a sound financial condition was not at all in line with the hard cold facts as presented by the department officials at their Tuesday morning conference.

Track Squad Faces Full Schedule

A full schedule of week-end meets faces the OHS track team.

Mustang thinclads will vie in the Lockney Relays this Saturday. Then on Saturday, March 24, they are scheduled to participate in the annual Odessa Relays.

Their journey to Big Spring on Saturday, March 31, for the ABC Relays.

The district meet is scheduled for Saturday, April 7, on the new Texas Tech track at Lubbock. Participating teams will include Lockney, Muleshoe, Dimmitt, Littlefield, Tulia and Olton.

Winners of first three places in each event at the district meet will qualify for the regional meet at Lubbock on Saturday, April 21. Winners of first two places in regional qualify for the state meet at Austin.

"Want your clothes to look better? Then you need an **ELECTRIC Clothes Dryer!**"

says Mrs. W. H. Simpson, Jr.
715 W. MISSISSIPPI STREET
FLOYDADA, TEXAS

"Yes, clothes that are dried in an electric clothes dryer look much better than line-dried clothes because you eliminate clothespin corners." You do away with outside dirt and dust, too, and your clothes are soft and fluffy instead of being wind-blown or stiff as a board.

"We save a lot of money with our electric clothes dryer. For example, the children used to need several pairs of pajamas, where now two will do nicely." So many clothes can be worn again right after drying, without ironing, in many cases, and tests have shown that clothes will last as much as 50% longer when they are dried electrically.

"I really enjoy my electric washer and dryer, as well as a dependable supply of hot water from the electric water heater." Plan now to build an all-electric home laundry with a washer, clothes dryer, and electric water heater. You'll have better washes, and more time for your family, as Mrs. Simpson does.

Niece of Mrs. H. B. Montgomery and former Olton teacher, Miss Sally Kingsley, was recently the subject of a feature story which appeared in a paper for the G.I.'s overseas, "Pacific Stars and Stripes."

Miss Kingsley is teaching the G.I. children in Japan. She went to Japan in 1954.

The feature story, which was titled "Woman Who Misplaced Texas," went something like this:

"The Lone Star State ordinarily is neither portable nor easy to lose, but Sally Kingsley managed both.

"This rather surprising situation came about when Miss Kingsley, a third grade teacher at Kisarazu Air Base, decided to guard against homesickness by bringing with her to Japan a bottle of genuine Fort Worth sand.

"Somehow in the hectic business of crossing an ocean she misplaced the sentimental Cowtown souvenir. This was a calamity only slightly less crushing than the Fall of the Alamo.

"Then, shortly after arriving in Japan she found the bottle where she had placed it in with a home permanent kit. Here the story should have ended with everybody happy. But it wasn't to be so.

"In her class at Kisarazu are six Texas children. So in typical Western spirit of sharing with one's less fortunate neighbor's, she gave each of the displaced

Texans a grain of his native soil.

"The next day the teacher was approached by an indignant mother who reproached her for discrimination. 'My little boy,' she said, 'came home all broken up because he didn't get a grain of sand, too. Despite what he seems to think, it wasn't my fault he wasn't born in Texas, too.'

"This should have dampened the crusading Texan's spirit but it didn't. In the six months she has been in Japan she has carried the sample of Lone Star soil from Kyoto to Nikko with side trips to Taipei, Hongkong, Bangkok and Siem Reap, Cambodia. In each place she leaves a few grains mixed with the local soil so that eventually she hopes a tourist from her state will be able to circle the world and never be out of sight of his native land.

"Just why an otherwise very nice and normal lady should go about the globe sprinkling dirt is something Yankees will find hard to understand.

"But Texans will understand—and applaud."

GMC brings you the most impressive improvements of all 1956 trucks

Now we can show you these great new GMC's that are further than ever ahead of all others. Their advances not only clinch power supremacy—but reach into fields still unexplored by other truck-makers.

For example, GMC's Road Shock Damper Suspension*—plus a unique new stabilizer—produces in half-ton models a ride comparable to the finest passenger car.

An optional new fast-ratio cruising axle in light-duty GMC's gives you an overdrive's pace and economy without its cost.

Sharply increased engine displacement in both sixes and V8's gives you a power family unsurpassed in

the light-duty field. Specifically, we offer 14.4% GREATER displacement on 6-cylinder models, 16.2% on V8's than our nearest competitors. And GMC V8's, mind you, match the shortest stroke ratios in the truck industry.

Styling is well into the future—panoramic windshield to sand-tight tail gate. Tubeless tires, of course. And a 12-volt electrical system is standard.

These are some of the strides presented in new 1956 Blue Chip trucks we now have on view. The values are even more notable. Come in and get the facts!

Hudson Buyers To Get Free \$25,000 Policy

Customers who buy a new and unused Hudson Hornet, Wasp, Rambler or Metropolitan automobile at Olton Motor Co. will receive, at no extra cost, a \$25,000 personal automobile accident insurance policy, it was announced this week by Everett Loveless, dealer. "This insurance program reflects our confidence in the single-unit body construction used on all Hudson cars," Mr. Loveless said. Mr. Loveless said the policy provides \$25,000 coverage for purchaser and spouse in the event of fatality to both, or \$12,500 in the event of fatality to one, while driving or riding in the

privately-owned Hudson car. The insurance is in effect for the entire year following original purchase of the car and can only be cancelled within that period by transfer of auto ownership. Inspiration for the program came from the frequent letters of owners who credited the saving of their lives to the built-in safety of single-unit constructed cars in accidents they described as being "otherwise fatal."

Mr. Loveless pointed out that the single-unit construction, in which body-and-frame are one solidly-welded unit, provides maximum built-in safety, as it puts added structural strength ahead of and around the passenger compartment. The "three-dimensional" frame completely surrounds the passenger compartment and affords more effective protection under impact from all directions, as opposed to conventional types of construction in which the frame is merely a platform to which the body is bolted. This impact-absorbing construction serves to localize the force of a collision, reducing body distortion and the tendency of doors to fly open under impact.

CASTRO CO. TEACHERS HOLD MEET

HART—The teachers of Castro County met in regular session Monday night and enjoyed a program on fine arts after a dinner.

Robby Jo Robertson, accompanied on the piano by Earlene Reisdorph, sang "Home Sweet Home" and "The House With Nobody In It," as Rebecca Burress painted the story of the song on a easel.

Marcina Reisdorph, from the Fine Arts Department at West Texas State College, Canyon, accompanied at the piano by Miss Reisdorph, drew the Legend

of Twilight Bill, also illustrated the Song of India, along with a series of cartoons.

Afterwards, the high school girls of Hart did a novelty folk dance and the second grade pupils demonstrated cartoon-drawing and finger painting.

At the end of the program there was an art exhibit and presentation of hand painted gifts from the art class to the superintendents and principals of the country.

Russell Gilmore was master of ceremonies.

Next Castro county teachers' meeting will be at Nazareth.

OLTON, TEXAS

M. T. JAMES, JR., Owner

We'll be going into our fifth year with The Enterprise before long. And we're still more than convinced that Olton is one of the best places in the world in which to live.

A note to those who thought Hillcrest housing project would break the town: City officials say that Olton is getting a better percentage return on its investment in Hillcrest right now with less than 20 houses out there than from any other part of the city. What kind of return will we be getting on our investment when the place is full of houses?

We join this week in congratulating the Girl Scouts upon the occasion of the 44th anniversary of their foundation.

Church Schedules Training Course

A service training course for teachers and prospective teachers will begin at 7:30 p. m. this Thursday at Main Street Church of Christ, according to E. R. Higgins, preacher.

"The course will cover all phases of teaching Bible study, and will meet each Thursday night for six weeks," Mr. Higgins said.

WEEK-END HERE

Visiting in the home of her parents, Mr. and Mrs. Tom Sluder, Miss Leabelle Sluder spent the week-end in Olton. Miss Sluder is a sophomore student at West Texas State College where she is majoring in Home Economics.

Beauty Salon Grand Opening Set Saturday

Grand opening of Olton Beauty Salon will be held Saturday March 17, it was announced this week by Mrs. Drexel Lawson and Mrs. C. D. Kirkpatrick.

Beauty salon customers and visitors will register Friday and Saturday for free prizes to be awarded at 4 p. m. Saturday.

Prizes include \$20 permanent first prize; \$10 permanent, second prize; shampoo and set third prize; manicure, fourth prize.

Olton Beauty Salon adjoins Howard Hall Insurance Agency

FUNERAL IN PLAINVIEW

Rev. R. H. Campbell was in Plainview Tuesday to preach the funeral for Mother Benefield, mother of George Benefield. Burial was in Kingman Kan.

VISITS HERE

W. C. "Red" Cowan of Fort Worth this week visited relatives in Olton. Mr. Cowan is a member of the state legislature.

VISIT HERE

Mr. and Mrs. L. S. Munkress Lawton, Okla., and Lloyd Roberts, Kress, visited in the M. T. Bagley home over the week end.

MINN. VISITORS

Mr. and Mrs. Ed Ruetter of Worthington, Minn., are visiting this week in the home of Mr. and Mrs. Arthur Nafzger. Mr. Ruetter is a brother of Mrs. Nafzger's.

FINE AFTER SURGERY

Mrs. W. T. Hankins, who underwent surgery last week at the Olton Memorial Hospital, is home and is reported to be "doing nicely."

VISITS MOTHER

Mr. and Mrs. Charles Vaughn and daughters of Lubbock visited Sunday in the home of Mrs. Vaughn's mother, Mrs. Jessie Allen.

SHORT GRASS

By G. P. T.

Supt. of Schools Carl Macon is an ardent baseball fan, and in particular, a close follower of the Boston Red Sox.

The jovial superintendent already is abounding with enthusiasm over the chances of the Red Sox in the 1956 American League pennant race. And it appears that his optimism is well grounded.

The Red Sox finished fourth in the junior circuit last year, with an 84-70 record, and they wound up the campaign only 12 games off the pace set by the winning Yankees.

During the off season, however, the Red Sox front office put on its trading britches and acquired Bob Porterfield and Mickey Vernon from Washington, without giving up much of value in return.

Porterfield, always highly regarded in the American League, won 10 games for the last-place Senators in 1955, and Red Sox Manager Mike Higgins figures that the big righthander can do considerably better with a pennant contender.

Vernon, a veteran first baseman, will add lots of hitting punch to the Red Sox attack. At Washington last year, he hit

301 and amassed 85 runs batted in.

Higgins and Macon have something else to be happy about. That is the fact that Thumpin' Ted Williams, generally acknowledged as the greatest hitter in baseball, is already in the fold and ready to start the season. The 1955 season, you'll remember, was almost a third gone when Williams came out of "retirement" to join the Red Sox. He got into 98 games, had 28 home runs, 83 RBI's and a .356 average. Williams would have won the AL batting championship but for the fact that he was at bat only 320 times, 80 short of the required 400.

One consoling factor to those of us who follow American League clubs other than the Red Sox is that, baseballwise, both Vernon and Williams are getting "old."

Vernon will be 38 next month. Williams will be 38 in August. You probably could count on one hand the number of active major leaguers who have reached their fortieth birthday. It's unlikely that Vernon will top the .300 mark this year, and it's also doubtful that Williams can again hit at a .356 clip, though I would not be surprised if he did.

Even so, Supt. Macon's Red Sox seem sufficiently improved to be in the thick of the pennant fight this year, and I'm just hoping that my Detroit Tigers will be one step ahead of them.

During Mark Twain's days as a newspaper man, he was editor of a small Missouri newspaper. One day he got a letter from a subscriber, stating that he had found a spider in his paper, and asking if this was an omen of good or bad luck.

Twain wrote: "Finding a spider in your paper is neither good luck nor bad. The spider was merely looking over our paper to see which merchant was not advertising so he could go to that store, spin his web across the door and lead a life of undisturbed peace forever."

Presidential election talk is moving into high gear, and it reminded me of a thing called the "1932 Psalm" which was once sent to me by a reader, and has been in my files since:

Hoover is my shepherd. I am in want.
He maketh me to lie down on park benches.
He leaeth me by still factories.
He restoreth my doubt in the Republican Party.
He guideth me in the path of unemployed for his party's sake.
Yea, though I walk through

the alley of soup kitchens, I am hungry.
I do fear evil for thou are against me.
Thy cabinet and thy senate they discomfort me.

Thou didst prepare a reduction in my wages in the presence of my creditors.
Thou anointed my income with taxes so my expense over-runeth my income.
Surely poverty and hard times will follow me all the days of this Republican Administration.
And I shall dwell in a rented house forever.

Here's the Big Difference That Makes It Possible

REVOLUTIONARY "SINGLE UNIT" CONSTRUCTION, PIONEERED BY AMERICAN MOTORS, MAKES RAMBLER, HUDSON, NASH AND METROPOLITAN THE STRONGEST, SAFEST, BEST ALL-AROUND CARS ON THE ROAD

PRIMITIVE OXCARTS WERE BUILT WITH FLAT WOODEN-BEAM FRAMES, AXLES AND WHEELS WERE MOUNTED BELOW. A FLOOR OR BOX WAS PUT ON TOP. THE BUGGY, WAGON AND "HORSELESS CARRIAGES" USED SIMILAR FLAT FRAMES AND ATTACHED BODIES

EVEN TODAY, MOST CARS HAVE SEPARATE FLAT FRAMES WITH SEPARATE BODIES BOLTED TO THEM

ONLY AMERICAN MOTORS BUILDS CARS ON THE "SINGLE UNIT" PRINCIPLE. BODY AND FRAME ARE WELDED INTO A TOUGH, SUPER-STRONG "SINGLE UNIT". RESULT: PERFORMANCE AT LESS COST... GREATER COMFORT... MORE INSIDE ROOM... EASIER PARKING... SUPERIOR HANDLING AND CORNERING... ELIMINATION OF BODY SQUEAKS AND RATTLES... DOUBLE SAFETY... TOP RESALE VALUE

Bennett Cerf Interviews George Romney

Noted publisher, columnist and television personality gets inside story of revolutionary advance in car construction from the President of American Motors.

CERF: Mr. Romney, why do you offer a total of \$25,000 insurance with your new cars?

ROMNEY: It backs our claim that "single unit" construction makes the strongest, safest, most modern cars.

CERF: Is there really that much difference between the way you and other manufacturers make cars?

ROMNEY: All the difference between yesterday's railway coach and today's streamliner. Other cars still use a principle old as the oxcart: A flat frame bolted under a separate body. In our cars, frame and body are welded as a "single unit". It's the biggest stride since the all-steel body.

CERF: And this makes a safer car?

ROMNEY: Twice as safe. Instead of a flat frame underfoot, our frame is a steel, box-girder enclosure as big as the car. It gives you "wrap-around" protection in front, rear, sides and top.

CERF: That sounds like real protection.

ROMNEY: That's not all. Flat frames others use are stiff, so they transmit collision force throughout the car. Our big steel box-girders up front absorb most of the impact. They take the brunt of the punishment instead of passengers.

CERF: What about performance?

ROMNEY: That's a real plus. "Single unit" construction gives a better power-weight ratio. It's stronger and safer, but eliminates useless weight and bulk. Our cars have set many racing records.

CERF: And economy?

ROMNEY: They're tops. Rambler holds the gas mileage record in Mobilgas Economy Runs. Again, because our "hard-muscled" single unit avoids dead weight.

CERF: I like room and comfort.

ROMNEY: Nash and Hudson have more room inside than any high-priced car. Rambler equals medium-priced big cars. As for ride, the greater strength of our "single unit" lets us use larger springs, and superior front suspension.

CERF: Isn't resale value important?

ROMNEY: You bet. Rambler has top resale value in the low price field. In addition to other advantages, welded single unit cars last longer, make better used cars.

CERF: If all you say is true, why don't the Big Three make cars your way?

ROMNEY: You see, mere "bigness" can be a handicap in advanced automobile engineering. One of the biggest of the "Big 3" was years behind others in adopting the all-steel body. The bigger you are, the more factories you have—the more it costs to change.

CERF: I can understand that.

ROMNEY: Beginning in 1940, we spent over \$50,000,000 to develop the "single unit" car. Today, it will cost the biggest companies billions to re-tool for our method.

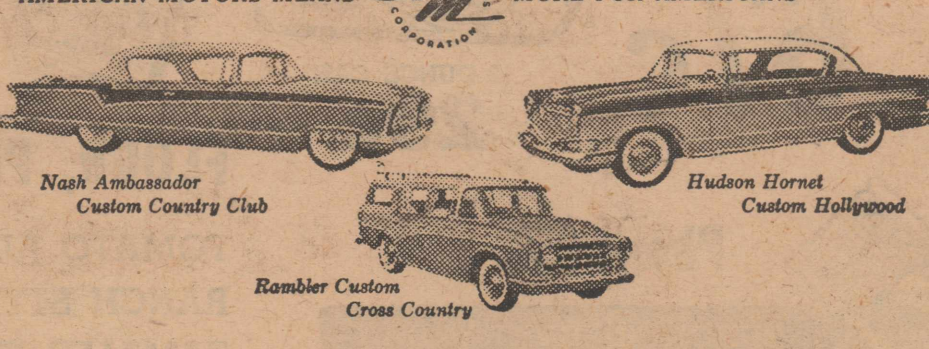

CERF: Do you think they will follow you?

ROMNEY: No doubt about it. Our major competitors will probably make the change gradually—piece-meal—or one model at a time. Frankly, we will be happy to see our "single unit" construction adopted, because it will mean better, safer cars on American highways.

CERF: Well, I'm about ready for another car. I'm going down to look at American Motors cars.

ROMNEY: All I ask anyone to do is see and drive our modern "single unit" cars at a Nash or Hudson dealer's. The rest is up to you.
