May 1 and 2 in Plainview.

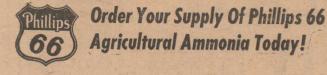

South Plains, Tex., Man Reports -

# **Maize Yields Increased** 1800 Pounds Per Acre

Bryan Karr, who farms 600 acres near South Plains, says: "By side dressing my maize with 90 pounds of Phillips 66 Ammonia, I've increased my yields on an average of 1800 pounds of grain per acre. Year before last, the average would have been raised considerably, because I cut a 4050 pound crop after it was beat down by a high wind. I usually side dress my maize around July 1, when the plants are about 6 inches high."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin . . . yields of sorghum grain or ensilage are increased ... profits on wheat and small grains are increased through higher grain yields and improved forage . . . more marketable vegetables are harvested.

Phillips 66 Ammonia can be applied pre-plant or as a side dressing. It can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia . . . it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

# Olton Man Friend And Foe Of Notorious Pancho Villa

One of the most vivid memories in the life of Abraham De Leon is that of standing in Mexico City long ago talking of land reforms with a big brute of a man who could smile like sunshine or scowl like death

Many years have passed since that day in Mexico City. Abraham now lives here in Olton and the broad smile beneath that great mustache has been a memory for three decades.

The man who wore that smile and mustache for four years (from 1912 to 1916) struck terror into the hearts of the patrons of

He was a man whom Abraham De Leon rode with and then against. His name is the most famous name in modern Mexican history. His name was Pancho

Actually, Mr. De Leon was a soldier riding under the leadership of Menistran Carranza. For a time during the revolution which overthrew Porfirio Diaz, Carranza and Villa were allies.

Mr. De Leon describes Villa as an "hombre gordo con un mustachie grande." (a fat man with a great mustachio).

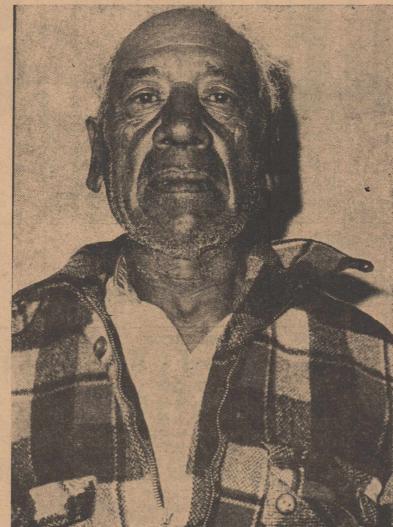

Villa was elevated to the rank of general but could neither read nor write. Mr. De Leon said Villa became infuriated and rebelled against Mexican upper crust after a patron had raped his sister.

chief of the gang was killed and day he sent all the family and Arango took up the name of Pancho Villa and sent it ringing from Panama to the Rio Grande and from the Pacific to the Gulf.

The remainder of Villa's story is history. Illiterate though he was, he aspired to the Presidency of Mexico. Denied this honor by his associates, he rose up against them.

Defeated at last, he was killed by an assassin. Mr. De Leon tells an interesting story of how he got mixed up in

the revolution himself.

ABRAHAM DE LEON

He was the son of a tenant other servants away.

man in Spanish) Arango fled to the His patron was very rich and hills and joined a gang led by a very much afraid of what the man who went by the name Arango bandidos would do to his fortune STEPHENS & SONS . . . . was later to make famous. The should the town be raided. One

farmer. His patron lived in town He procured a huge bottle of Villa's real name was Doroteo and Mr. De Leon went into town tequila to serve as refreshments Arango. After killing his patron, to work as a house servant and for Mr. De Leon and the latter (patron is the name for boss became a very trusted retainer. went to work burying the family
