Olton State Bank Tops Little League

Olton State Bank leads the Little League baseball loop here this week.

The Greenback team nipped Straw-Burrow Gin 3 to 0 in play last Thursday night. Winning pitcher was Joe Priest. Darrell Glover was the loser. Both boys went the distance.

Olton State Bank's runs came when Glover walked four men in succession and then Kenneth Neinstast got a two-bagger driving in two more runs.

Glover gave up two hits as did Priest. T. J. Robertson and O. E. Patterson officiated.

Olton Co-Op Gin defeated Farmers Gin 5 to 2 the same evening. Danny Robertson was the winning pitcher and Neil Andrews was the loser.

Co-Op got 5 runs on 10 hits and 1 error with 8 men left on. Farmers got 2 runs on 2 hits and no errors with 2 left on. Officiating were Jerry Dennis and Glen Gippson.

Monday night play saw Straw-Burrow defeat Farmers 10 to 9. Jimmy Schreier, Dennis Givens and Neil Andrews hit home runs for their team but still went down in defeat. Rocky Farrar was the winning pitcher and Givens was the losing pitcher.

Straw-Burrow got 10 runs on 6 hits and 2 errors with 4 left on. Farmers got 9 runs on 9 hits with 5 errors and 5 left on. Officials were Jerry Dennis and O. E. Patterson.

Olton State Bank's crew trimmed Thompson Chevrolet 15 to 4. The bankers got 15 runs on 7 hits and 10 errors with 6 men left on base. Thompson collected 4 runs on 3 hits and 1 error with 2 men left on.

Olton Woman's Mother Hurt In Traffic Mishap

Mrs. Vivian Garrett, Denton, mother of Mrs. Louie Mack Hardy of Olton, suffered back injuries and bruises Friday night of last week in an automobile accident at Denton.

She was hospitalized over night and dismissed.

The Hardy family went to Denton Friday night after being notified of the mishap. They returned early this week. Mrs. Garrett makes frequent visits to the home of her daughter here.

City, Dennis In Accord On Permits

The city of Olton has agreed to issue utility permits for the H. L. Dennis building.

Olton city council voted to issue the permits if Dennis would sign an affidavit that he would not use the permits in evidence in pending litigation with the city.

City officials also have agreed not to use the permits in evidence in the litigation.

The city contends that the building in question was illegally moved to a site in downtown Olton. Dennis contends that he had a right to move the building there.

The city declares that the site is within the city's fire zone. A law suit is pending.

House Destroyed

In the panel above firemen are shown braving intense heat to battle the blaze which razed the Short Whitley home in south Olton a week ago Thursday. The butane tank in the background was subsequently removed as a preventive measure. Firemen were hampered by lack of water. In the panel at left the home is a sheet of smoke and flame. It was burned to the ground. Only a few of the family belongings were saved.

Special Band Rehearsal Set

A special band rehearsal will be held at 7:30 o'clock the evening of Friday, June 26, according to Fred Stockdale, band director.

The rehearsal will be held in preparation for a concert to be presented at the Co-Op Gin Company stockholders meeting which will be held the following night.

No Concrete Facts Given In Charges Against Deputy

Sheriff Dyer Says Accusations Based On Personal Differences

V. L. Smith will remain in Olton as Lamb County deputy sheriff.

This announcement came Wednesday in Littlefield from Sheriff Dick Dyer. Sheriff Dyer made the announcement in an interview with The Enterprise following a meeting Saturday in Olton at which the Olton deputy was severely criticized.

The meeting was called by Olton Police Chief Floyd Cavin and neither Deputy Smith nor a representative of the newspaper were present. Cavin said he suggested that The Enterprise be notified and asked to send a representative.

Veto Press

He said the suggestion was vetoed.

Sheriff Dyer said at least some members of the city council were present. Councilmen contacted said it was not an official council meeting. Two members of the council said they departed the meeting after accusations descended to a personal level.

The sheriff said accusations against the deputy finally emerged as personal in nature and no concrete evidence was produced to indicate that Deputy Smith had not discharged his duty correctly as a law enforcement officer.

Personal Reasons

Sheriff Dyer said one man who wanted the deputy discharged based his request on a "personal difference" of long standing. Another man complained that he was no longer being called on to translate for the deputy in cases involving non-English speaking Latin Americans.

"I told them that if they could prove that he (Deputy Smith) has not been enforcing the law, I'd do something about it," Dyer declared.

20 Warrants

The sheriff also answered a charge brought by some Olton ministers a few weeks back that few search warrants had been issued for use in Olton. The sheriff said he is prepared to produce some 20 such search warrants issued for use here during the past year.

Dyer said a number of people contacted him following the meeting and requested that Smith be retained here. "One man even drove to Littlefield and requested that I keep him on," Dyer declared. Dyer was accompanied to Olton by Liquor Control Board Officer Loyd Dunlap.

In the meantime, vice apparently has gone underground in Olton, for the present at least. Chief Cavin said ten liquor raids in as many days hasn't produced enough liquor for as much as a single snifter.

Cavin filled the jail Saturday night with alleged roisterers from the flats. Liquor apparently was available somewhere but not at the usual spirit spas.

The city says it will try Lupe Martinez at 9:45 o'clock Friday morning on vagrancy charges. These charges against Lupe stem from the same incident which caused his attorneys to file a \$100,000 false arrest suit against Mayor D. Y. Ray and the city of Olton.

Six Olton FFA Chapter Boys Receive Lone Star Degrees

Royce McFadden Awarded Top Honor, American Farmer Rank

Six Olton FFA boys have been awarded Lone Star Farmer degrees and another has received the coveted American Farmer degree.

This was announced this week by Calvin Horn and Max Malone, Olton vocational agriculture instructors.

The American Farmer degree went to Royce McFadden. Receiving the Lone Star degree were Roy Neal Jones, John Lynn Burrow, Jerry Mathis, Jesse Joe Riney, David Morrison and Gerry George.

The Olton chapter received a silver rating and will receive a silver plaque. The chapter rating was 83.4 out of a possible score of 100.

Olton's newest American Farmer is 19 years old and is a 1957 graduate of Olton High School. During his FFA years he was outstanding in sheep production.

He showed champion sheep at Houston in 1956 and 57 and showed champions at Lubbock in 1957 and 1958. He exhibited a champion at Plainview in 1957.

Now Farming

Royce farms 320 acres of land now and has an outstanding record as an FFA boy and as a practical farmer. He is one of three boys in Olton's history to receive the American Farmer degree. The others are Wayne Bodkin and Bobby Johnson.

Olton's six new Lone Star Farmers all have fine records in FFA. Jesse Joe Riney graduated this year after four years in FFA work. He is a Chestervhite swine breeder and also has had outstanding crop projects. He owns half interest in a tractor with his father and is now in line to shoot for American Farmer.

David Morrison will be a senior next year. He has been in FFA three years. David showed the reserve grand champion barrow at Dallas last fall. He has a well balanced program and is feeding calves and has a swine breeding program.

David will feed some lambs and is engaged in a crop program.

John Lynn Burrow will be a senior next fall. He is a newly-elected FFA chapter officer. He has an outstanding crop and sheep breeding program. John Lynn showed the grand champion lamb at the Olton show last spring. He exhibited the third place lamb at El Paso. John Lynn is engaged in a fine calf and lamb feeding program for next year.

Judging Team
Jerry Mathis, Roy Neal Jones and Gerry George were members of one of the most impressive livestock judging teams in the history of their chapter. The team was

NEW LOCATION ON MAIN STREET

Bizzell's Grand Opening Saturday

Bizzell's will hold its formal opening Saturday in its new location.

Up to now, Bizzell's has been a maternity wear and children's store. In its new location it will be a full-fledged women's ready-to-wear and children's store.

Mrs. Mabel Bizzell, operator of the store, said she will have a stock of merchandise which will compare favorably to any on the South Plains.

There will be orchids for the first 100 ladies to register Saturday. There will be favors for the children and door prizes galore.

Door prizes will be given at 4 o'clock in the afternoon.

They will include a suit, a Graft knit Bermuda short set, Dottie Dan suit, ladies' luca bouffant slip, Formfit Shippie girdle, White Stag sport suit, pair of gloves, pair of hose, pair children's pixie shoes and a child's stuffed toy.

The Bizzells have lived here since 1952. Gerald is a salesman. They have two boys, Gary and Gail. Mrs. Bizzell is very active in church and community affairs.

Bizzell's formerly was located just across the street from Sherman Food. It now will occupy quarters formerly occupied by Kelley's.

Police Probe Robbery Try

City police this week were investigating a mysterious occurrence Sunday night at the Lloyd Blackwell home which may have been an attempted burglary.

Blackwell told Chief Floyd Cavin that someone rammed against the back door of his home Sunday night. Gun in hand, Blackwell investigated.

"I couldn't see anyone," he said, "but a car took off about a half block north of my house."

One man was held for investigation in connection with the incident but was released a short time after being picked up.

Home Razed By Fire In South Olton

Short Whitley's house was razed by fire late Thursday afternoon of last week.

Flames shot 20 feet in the air and blistering heat held spectators at a distance. The house is located in the south part of town.

George Thomas who operates a store across the street noticed smoke pouring from the eaves. He ran to the house and awakened Whitley.

Whitley was alone in the house. The remainder of the family of seven was in the fields chopping cotton. Whitley went to the bath room and opened the door after being awakened. He was met by a sheet of fire.

He escaped the blazing residence barefoot.

Harold Lloyd, who was operating a city caterpillar in the dumping grounds nearby, helped to save a few of the Whitleys' household belongings. The remainder was lost in the fire.

Both city fire trucks answered the call. Firemen were hampered in fighting the blaze because there are no fire plugs in the vicinity.

Three-Way Action Taken On Teacher Certification

The State Board of Education has taken three-way action to improve the training and certification of teachers for Texas public schools, according to Texas State Teachers Association.

Similarly, the move was based on three things:

Recommendations of a special

board committee after a one-year study, four years' experience under the 1955 teacher certification law, and in part upon recommendation of the State Board of Examiners for Teacher Education, an advisory professional group.

The continuing increase in student population, accompanied by a shortage of qualified teachers which required the issuance of 4,300 emergency teaching permits last school year, focused the spotlight on the role of certification in

meeting this emergency.

The education board did these things:

1. Effective immediately, established more practical regulations for issuance and renewal of emergency teaching permits, and placed certification of out-of-state applicants in the hands of the Texas Education Agency instead of teacher training colleges.

2. Asked the State Board of Examiners for Teacher Education to consider immediately possible

changes in:

(a) The number of professional courses required for a teaching certificate; (b) conversion of certified teachers to other teaching fields; (c) an accelerated program in teacher education for the exceptionally able students; and (d) certification requirement for persons already holding college degrees.

3. Called for extended study of several other problems in this field.

The special board committee praised as "basically sound" the teacher certification program set up under a 1955 law and said it found many strong points. However, experience now indicates a need for revisions, it reported.

The committee, headed by R. W. Byram of Austin, emphasized the "great importance to the Texas public school system" of having teachers prepared under present state standards.

These include a balanced program of approximately 40 per cent

liberal arts, 40 per cent subject matter courses he will teach, and 20 per cent professional education courses—including one-fourth devoted to student teaching in the subject field.

Emergency permits are issued to persons who do not qualify for a regular teaching certificate. The permits are for one-year periods, renewable indefinitely, and are issued when a school superintendent certifies that the persons is the best available for the teaching vacancy.

These permits have been issued in increasing number—1,100 four years ago and 4,300 during the past school year.

One stumbling block has been the requirement that the emergency applicant remove one-fourth of his training deficiencies each year. Conditions have changed and this requirement has become too big a burden, the committee pointed out.

New regulations now allow the emergency permit holder to remove either six semester hours or one-fourth of the deficiencies each year, whichever is less. In extreme hardships, this requirement could be waived for the next year. And it would be waived entirely for persons qualified to teach in high school but assigned to the sixth grade in elementary school, if they teach subjects for which they are obtained.

Teachers trained in other states have heretofore been referred by the Texas Education Agency to a Texas college for evaluation of their college credits and recommendation for certification or additional college work. Because requirements vary with each college, this has led to "shopping around" by out-of-state applicants. This evaluation was placed in the Texas Education Agency to simplify matters.

Four other problems were referred to the State Board of Examiners for Teacher Education. First, professional education courses required of teacher trainees. These include six semester hours of pre-professional courses, usually an introduction to education and a course in introductory psychology; 12 semester hours of professional courses, generally related to method, advanced child or adolescent psychology, public school curriculum, and history and philosophy of education; and a final six hours of intern experience in a regular teaching situation (student, or practice, teaching).

The board suggested that the six hours pre-professional courses be optional with the student, if the content was available in other courses; that the 12 hours of professional courses and the student teaching requirements be continued and strengthened.

It did suggest further, however, that a person with three years' experience under an emergency permit be allowed to substitute that experience for the six semester hours of student teaching. It suggested, also, that the college education department and the subject matter department in which the teaching is to be done both certify the student as to teaching ability.

Next, it recommended that a way be found for teachers to change from high school to elementary and vice versa, or from special areas such as art and music to regular classrooms, and vice versa.

Third, the board recognized the need for teacher training programs for the exceptionally able student, to parallel those in other fields.

Fourth, a plan whereby persons with college degrees but who have

not completed teacher preparation could become certified with a minimum of additional requirements.

Light Spot Cotton To Be Worth More

Light spotted cotton on the Texas High Plains is going to be worth

several million dollars more to farmers this year, according to Plains Cotton Growers, Inc.

Separate price support rates for split grades are a feature of the 1959 cotton law and represents attainment of one of the major goals of the Plains Cotton Growers, Inc.

Just recognition for light spots was one of the first goals adopted

by officers and staff members of the PCG more than three years ago. "It took nearly three years of hard work negotiating with the US Department of Agriculture, other producer organizations, and leaders throughout the cotton industry as well as with Congressmen and Senators before the PCG saw light spotted cotton recognized

for its true value," W. O. Fortenberry, president, said.

Records show that the Texas High Plains crop sometimes averages as much as 50 percent light spot during the crop year. Previously the Commodity Credit Corporation did not recognize light spots as a separate grade. A producer putting light spotted cotton into the government loan received only the value for full or heavy spotted cotton. The cotton trade has at times given substantial premiums for light spots over the full spot, which accounted for the fact that light spotted cotton was nearly always the first cotton from the Plains to move into trade channels. However, the producer had no real price protection on light spots other than the full spotted loan.

"The loan difference between spotted and white cotton has been widening rapidly the past several years. In 1956 the difference between a bale of Middling inch white cotton and a Middling inch spotted or light bale was 440 points or \$22 per bale. In 1957 this difference had widened to 575 points or \$28.75 per bale, and in 1958 had widened still further to 725 points or \$36.25 per bale," according to George W. Pfeiffenberger, Executive Vice President of the PCG.

"Since all spinning records and experience show that light spotted cotton is practically equal to white cotton in value and the physical difference in classing is often quite small, this difference of \$36.25 per bale has become ridiculous," Pfeiffenberger stressed.

Recognition of light spots in the government loan this year guarantees the farmer a loan on light spotted cotton 355 points above the spotted loan price. This would be the same as a premium of 355 points for his light spotted cotton this year, whereas last year he had no guarantee in the loan and his actual sales depended on what the market was at the time the cotton was sold.

An indication of how much actual money this might mean to the High Plains area can be obtained by considering the amount of light spots in production during previous years. For example in 1956 light spotted cotton accounted for 47 percent of the High Plains crop, in 1957 light spots accounted for 50 percent of the crop. Last year, 1958, there were about 500,000 bales or 25 percent of the crop that was light spotted.

Middling 31/32 inch cotton last year was worth 26.81 cents a pound in the loan if it was light spot or spotted, whereas Middling 31/32

inch white cotton brought 34.06 in the loan.

This year Middling 31/32 inch light spotted cotton is worth 29.48 cents a pound to the "A" farmer, a difference of 2.67 cents per pound above 1958. This is about \$13.35 a bale and multiplied times 500,000 bales—the amount of light spotted cotton produced last year—equals approximately \$6,675,000.

Cotton mills have found that light spotted cotton is practically identical with white cotton for most purposes and since it will still be considerable cheaper than white cotton, it has every opportunity for sale in the market.

A further advantage in getting a separate loan base for light spotted cotton is that the farmer can put light spots in the loan for purely orderly marketing purposes and then sell it out later if the market advances. He could do this last year, of course, but he had to take the full spotted loan price for it, which greatly discouraged his use of the loan for marketing purposes.

One of the original purposes of the government loan for cotton was to stabilize the market, and to prevent prices from falling when a large quantity was available at one time. This loan for light spots should accomplish such a purpose, Pfeiffenberger said.

of light spots, other producer groups elsewhere assisted in the struggle. Congressman George Mahon, Walter Rogers of Pampa and W. R. Poage of Waco also played vital roles in securing passage of this part of the new cotton bill.

"This is another example of what can be done through organized effort through an Association such as the Plains Cotton Growers, Inc.," Pfeiffenberger concluded. "The passage of this act alone will repay High Plains farmers many many times for the 15 cents a bale dues to this organization."

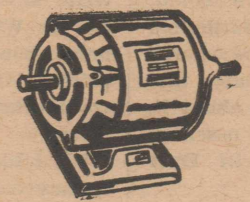

Gordon Chosen Youth Fellowship President

Freddie Gordon was named Sunday night as president of the Methodist Youth Fellowship. He replaces Gayle McAnally who moved to Lockney.

Other new officers include Christian Fellowship, Nancy Brown;

Christian Citizenship, Winfred Hair; Christian Faith, Ronda Robertson; Christian Outreach, Janet Oak; and Christian Witness, Joyce Curtis.

Becky Hall and Alice Ross Bryant were chosen as vice president and secretary-treasurer, respectively, earlier in the church year.

More car than this Impala Sport Coupe is hard to find at any price.

clings to curves like a cat on a carpet!
the travel-lovin' Chevrolet

Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance!

It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it.

The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field.

We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all

four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple.

This one's really made to travel and loves every minute of it.

Stop by your local authorized Chevrolet dealer's and sample Chevy's road sense!

Missionary Will Speak Sunday

Marion Baumgardner, a former agricultural missionary to India, will be the guest speaker for the First Methodist Church of Hart Sunday evening.

He will tell of his work in the University of Allahabad in that country, and show colored slides of this mission field.

Marion is a graduate of Texas Tech, and went to India for three years in the special missionary plan for college graduates now

being used by the Methodist Church.

Because of India's present policies concerning foreign missionaries, he was refused a visa to return to India after a year's furlough in the United States, and at present is working with the Southwest Soils Lab in Lubbock. In August he will return to Purdue University, where he has been doing graduate work.

The evening service begins at 7:00 PM, and will be followed by an informal fellowship hour, with a question-answer period.

The pastor, Rev. H. Lee Crouch, extends a cordial invitation to the public.

City Paves Half Block

The City of Hart is adding more street paving.

One half block of paving is underway from Broadway west on Avenue E. Page Construction Co., Dimmitt, is in charge. Construction is the same as other pavement in the city.

Redlegs In Important Win Over Dimmitt

Hart's Redlegs walloped the Dimmitt Braves Thursday of last week for their first win of the season.

At the top of the sixth inning with no one out, the score was 28 to 10 in favor of the Redlegs. Manager of the Dimmitt team called the game.

The win was credited to Carl Ward, who pitched three innings and gave up only four hits. When Ward left the mound, having pitched the maximum innings for one week, the score was 8 to 2 in favor of Hart. Other pitchers used were Gary Heller and Bobby McClain.

Outstanding hitting was done by:

Carl Ward who took four hits in six times at bat. Mark Martin and Tommy Morrison each got three hits in five trips to the plate. Bobby McClain and Gary Heller each got two hits in three tries.

Next home game is Friday night which will see the Redlegs pitted again against the Braves. The Redlegs play Dimmitt Gold Sox at Dimmitt June 22 and Nazareth Cardinals at Hart June 26. This will conclude the Redlegs' play until June 14.

Here are the league standings:

	W	L	Stnd.
Nazareth	3	1	.750
Dimmitt Gold Sox	2	2	.500
Dimmitt Braves	2	2	.500
Hart Redlegs	1	3	.250

There are interesting possibilities in this week's play. There could be a three-way tie for first place or a three-way tie for second place.

Here is Hart's batting averages as nearly as possible to keep them.

	AB	H	Ave.
Mark Martin	11	7	.636
Jerry Parker	5	3	.600
Carl Ward	14	8	.571
Tommy Morrison	16	6	.375
Harvey Sullivan	12	4	.333
Bobby McClain	10	3	.300
David Smith	11	3	.272
Joe Dee Johnson	7	1	.143

Hart Lumber Company Sets Formal Opening Saturday

Formal opening of Hart Lumber Company will be held Saturday from 7 o'clock in the morning until 9 o'clock Saturday night.

Cecil Ray Jones, manager of the firm, said door prizes will be given at 6:30 o'clock Saturday evening. It is not necessary to be present to win.

Hart Lumber Company is Hart's newest business. It is owned by Harold and Rodney Smith and Mr. Jones.

The firm will handle a complete

line of building materials, hardware and Philco appliances.

C. E. Mason will assist Mr. Jones. Secretary for the lumber company will be Donna Mason.

Treats for the open house will be coffee and cookies for older folks and bubble gum and balloons for the kiddies.

Mr. Jones said the lumber company offices and hardware portion is housed in a 25 by 130 foot masonry building.

Mr. Jones is a native of Hart and a graduate of Hart High School. Mrs. Jones is the former Louise Swopes. She, too, has lived at Hart all her life.

The couple has one child, Charles Ray, 9 months old.

Swindle Reaps First Barley

Bill Swindle brought in Hart's first barley of the season Friday afternoon.

In the 187 bushels weighed in, moisture was 11 percent, and there were 45 pounds to the bushel. The grain was brought to Hi-Point Fertilizer Co.

NOTICE
Three short blasts on the fire siren is a storm alert. A long steady siren or blowing of horns signifies DANGER—GO TO THE CELLAR IMMEDIATELY!

Jimmy Bostick Injures Back

Jimmy Bostick is suffering from a dislocated disc as a result of a recent injury.

Jimmy was lifting a sack of feed when he received the injury to his back. He has been hospitalized in Castro County Hospital, Dimmitt, under the care of specialists.

June 25, Thursday—WMU at 2:00 PM at Assembly of God Church.

I, as well as some of you, have so often wondered how the "Father's Day" came into being, and I found a clipping in another paper with the explanation.

In 1909, Mrs. John Bruce Dodd of Spokane, Wash., decided that a day to honor fathers should be set aside. This was her way of

paying tribute to her own father, William Smart, who had reared her, and five motherless brothers. With this idea in mind, Mrs. Dodd consulted her pastor, and then the thought was passed on to the Spokane Ministerial Alliance, who favorably promoted it.

Father's Day is the logical way of fulfilling the need of calling attention to Father's place in the home, his supervision as to the training of the children, his support in safeguarding the marriage tie, and his protection of womanhood and childhood.

In 1924, President Calvin Coolidge recommended the third Sunday in June as a national observance.

Since Sunday is Father's Day, think it only befitting we pay tribute to a man who could well be called our Father, for the love and respect we have for him. "Not how long we live, but how well we live," can so well be applied to him, for he is not an old man, but has lived well.

When a person has held a position for 30 years it speaks more than words can say for that individual.

Am sure that most of the men in this little City or Town or Community have at some time gone to him for advice as to when to plant, what kind of seed are best and then when to sell the grain. Also, he has been consulted on legal matters.

To YOU, OTTO DINWIDDLE, we would like to give our bouquet for this week, for YOUR JUST BEING YOU. We admire, respect, and love you.

Did you know we have a lot of new folks in our City? Have four new ministers and families since the first of the year, and I find they like to be called by their given names.

One of the Ministers recently said "If you come to me with a personal problem, we can feel a closer BROTHERHOOD if we call each other by given names." Though they do like to be called

Courtesy Favors Kay Nell Popejoy In Floyd Light Home Saturday

Miss Kay Nell Popejoy, bride-elect of Lonnie Bradley, was the honoree at a pre-nuptial shower Saturday afternoon in the home of Mrs. Floyd Light.

Some forty-three guests were received by Mrs. Light and registered by Miss Lawanda Brooks. Eighty-three gifts were presented the honoree.

The honoree was gifted with a Queen Elizabeth bedspread by the hostesses. Miss Popejoy wore a corsage of white carnations for the affair.

Miss Wyona Myrick and Mrs. Johnny Hindman presided over the serving table. Colors of blue and white were carried out in the table decorations. A white fitted taffeta cloth with ruffles covered the table.

Centerpiece was a miniature white tree with blue flowers and gold wedding rings tied to branches with blue ribbons. A large blue bow at the base of the tree had the names of the bride-elect and prospective groom on its streamers. Special guests were Mrs. Bill Dysart, Cindy, Herbert Dysart, Plainview; Stella Robbins, Lubbock; and Edna Brooks, Hale Center.

Hostesses included Mesdames D. D. Myrick, D. A. Bass, Johnny Hindman, Milton Sharp, Harvey Davis, W. C. Lacy, W. A. Hawkins, Sr., J. F. Clark, Sr., Edgar Varner, Roy Pysatt, Ewell Jobe, Jim Brooks, Floyd Light, and Misses Wyona Myrick and Royce Lynn Pysatt, all of Hart.

Also Mesdames O. D. Hindman, Vega; Hugh Savage, Levelland; Dennis Pierce, Lubbock; and John Fietz, Levelland.

These women work in the Hart School lunchroom. The workshop is being held on the Texas Tech campus.

Maples Girls Attend Round-Up

Two former Hart girls competed in the 4-H Round-Up at College Station June 9 and 10.

They were Mary Helen and Glen Ann Maples, daughters of Mr. and Mrs. Glen Maples, who only recently moved from Hart to Amarillo.

The girls competed in the poultry marketing and utilization division with their demonstration, "Any Time Is Turkey Time." On their return trip they visited with their grandparents here, Mr. and Mrs. Hubert Maples.

Talks, Demonstration Are Program For Club

Mrs. Loyd Davis led a discussion on "Child Care and Discipline" at a meeting of the Hart Progressive Home Demonstration Club Wednesday, June 10. Mrs. Doyle Davis was hostess.

Renee Brooks, a 4-H Club girl, gave a talk and demonstration on the making of a pear milk shake. Mrs. Bud Hill won the hostess gift.

The club will meet July 8 at 3:00 for the next meeting.

Those present were Mesdames Tom McLain, Dudley Aven, Joe Hart, Delford Davis, co-hostess; Cleve McLain, Gus McLain, Melvin Aven, James Clay, Loyd Davis, Bill Hill, Bud Hill, and Miss Brooks.

KITCHEN KORNER
BY LELIA GALLION

Since it is the time of year when we do lots of barbecuing, I have some very helpful hints you might like.

When choosing steaks, those 1 1/4 inch thick are best. Slash fat around meat every inch to keep steaks flat.

Gentle heat gives ham a tantalizing brown color, yet keeps the ham moist and tender. Cook 10 to 15 min. on each side if it is precooked ham; 20 min. if the ham isn't precooked.

When buying hamburger for patties to barbecue, be sure it has been ground coarsely. Be sure to pat gently into patties. These two things are very important in having nice juicy burgers.

This is a very good dish to

serve with your outdoor meals.
Skillet Hominy
Drain 2 cans hominy; put into skillet with a big chunk butter, cover with a cup of sour cream; heat over low part of heat stirring often.

Smoked Beans
2-1 lb. cans pork and beans
1/2 cup catsup
1/4 cup brown sugar
1 tsp. dry mustard
Combine all ingredients in bean pot, cover top with cut-up bacon strips. Bake uncovered on grill of barbecue pit or any barbecue grill with the hood down. Bake 1 hour (or longer makes them even better.)

Barbecue Sauce
1 cup diced onion
2 T. fat
1/2 cup green pepper
1 cup celery diced
1 1/2 T. prepared mustard

LEGAL NOTICE
ORDINANCE NO. 106
 An ordinance regulating the collection and disposition of garbage and trash within the City Limits of Olton, and providing a penalty for those who fail to provide proper containers or receptacles for such garbage and trash.
 Whereas, the City of Olton has no garbage disposal plant or other facilities for the collection of garbage and trash from the residences and business houses of the citizens of Olton; and
 Whereas, the accumulation of such garbage and trash creates a breeding place for mosquitoes and flies, and rats and other disease-bearing animals, thereby causing a highly unhealthy and unsanitary condition throughout the City of Olton; and

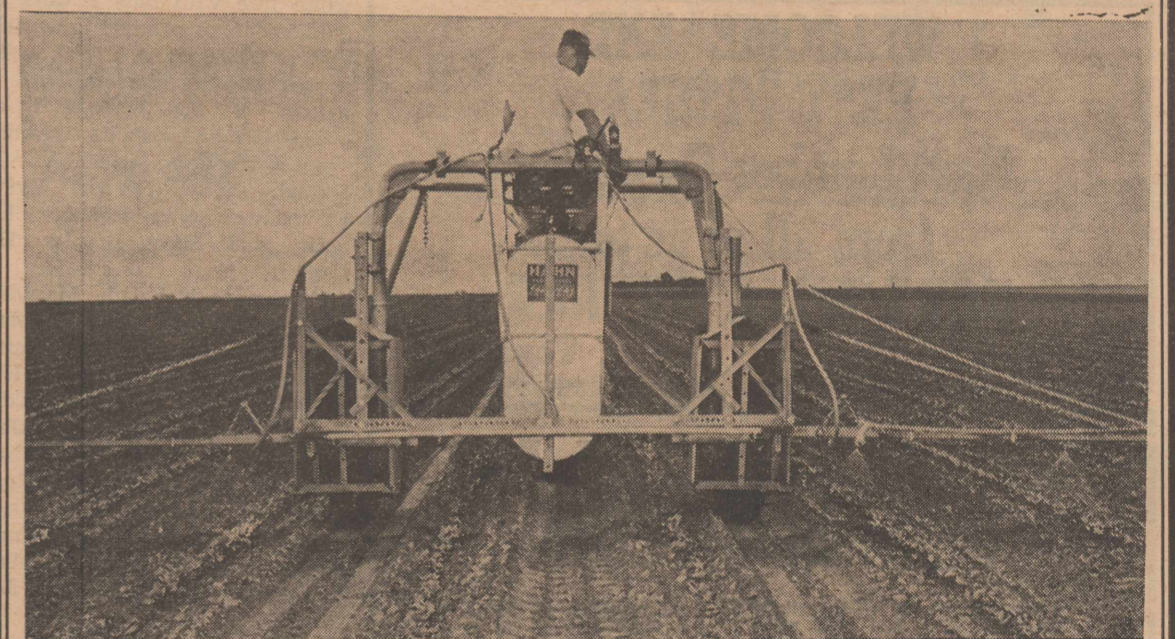

Whereas, such condition, as it now exists, greatly multiplies the hazards of spreading infectious diseases and greatly impairs the health and comfort of the inhabitants of said City; and
 Whereas, the City, in order to defray the costs of collection such garbage, may make a charge of \$1.00 per month for each residence and \$2.00 per month for each business, or the City may increase the water bill \$1.00 monthly for each residence and \$2.00 monthly for each business, at the election of the City Council, by adoption of a resolution designating the method to be used to defray such costs; and
 Whereas, the City of Olton has determined to assume the duty and responsibility of collecting, removing and disposing of such garbage and trash;
 Now, therefore, be it resolved that the following ordinance be passed and adopted:
Be it ordained by the City Council of the City of Olton:
 Section 1: Every person or persons occupying a residence within the city limits of the City of Olton hereafter be required to provide a suitable metal receptacle or steel container, in capacity not to be larger than 60 gal. and not less than 30 gal., and place same in the alley or street behind or at the side of such residence for such garbage and trash.
 Section 2: Every such person or persons so occupying such residence shall place all garbage and trash in such receptacle.
 Section 3: Every person, firm or corporation occupying and using a place for business or commercial purposes is hereafter required to provide a steel container or other metal receptacle in the alley behind such business for such garbage and trash, and every such person, firm or corporation shall place all such garbage and trash in such receptacle.
 Section 4: All such garbage and trash shall be picked up by the City once every two weeks at every residence, and once each week at every place of business, and remove it to the City's dump grounds for disposal.
 Section 5: The funds necessary

to defray the costs of collecting and disposing of such garbage shall be as follows: The City may make a charge of \$1.00 per month for each residence and \$2.00 per month for each business; or the City may increase the water bill \$1.00 monthly for each residence and \$2.00 monthly for each business at the election of the City Council, by the adoption of a resolution designating the method to be used to defray such costs.
 Section 6: Any person, firm or corporation who shall fail to provide a suitable metal container or receptacle for the deposit of such garbage and trash, or any such person, firm or corporation who shall carelessly or negligently throw garbage and trash on the ground or leave same out in the open, and not placed in such container, shall be guilty of a misdemeanor and upon conviction therefore shall be fined in any sum not less than \$1.00 nor more than \$100.00, and each day such person, firm or corporation shall fail to provide such metal container or shall permit such garbage and trash to remain in the open and, or on the ground and not placed in such garbage container shall constitute a separate offense.
 Passed and Approved this 9 day of June, 1959.
