### SWEET N' SOUR

Callahan County Clarion Established November 15, 1879

Autumn is now at her beau-Thanksgiving service, to be held tiful best in Spring Gap and at the Methodist Church in other weeded areas of the county - she's shimmering gold and russet brown, burnt orange and Rev. Leonard Gellegon, pastor of the Spanish Baptist Mission from every hillside and smoulall of this frost business is a loophole which the ignorant and uneducated use to explain a perfectly natural event in the yearly cycle of plant life. The yellow coloring is due to xanthophyll and the red to antho-cyanins present in leaf struc-tures. Now really, is that the stuff dreams are made of?

The only one we met on our pilgrimage to Spring Gap (praise be) were some very won-derful wandering gypsies - the The T&P Friendship Club had John Towler family, with Mrs. their annual Thanksgiving din-Towler gathering arm loads of the beautiful leaves to bring Autumn to her Second Grade class room. The Towlers believe every day living into the golden world of fantasy and imagination, for how else could Managination and the second quarter and only 3 in the second quarter. Most of the Gorman yardage was made in the second quarter. children?

Congratulations to two of the Baird High School's band members who attended the District week, and gathered in the honors. Carol Lynn McGowen won first chair in the Oboe section of the number one band, chosen from some 25 bands and over 200 contestants. Robert Law-rence was awarded a position in the second band. Elimination contests to determine the stu dents to make up the District bands were held in the morning hours, with the afternoon devoted to practice before the winners were presented in concert Saturday night. The competition included district schools from Breckenridge to Sonora The record made by the Baird students was excellent and the youngsters can be justly proud with it.

In a very short time now, the local A&P Store will move to spacious new quarters on Mar-ket Street. Sig Blakley, manager of the store, says that plans call for a grand opening the first week in December. The Sutphen building has been remodeled and decorated to house the A&P grocery, which will rise in status to super-market size with this enlarged location. The store will certainly be an asset to the community and a beautiful ad dition to Baird's business dis-

Junior class and sponsor Amelia Smith and Dick Vestal announce that ther recent mag-azine subscription plan is drawing to a close. An effort has been made to contact each resident in town, but in the case vou weren't home when you were called upon, you may still aid the class's effort by con tacting them /before Mryday the students can offer special holiday bargains.

#### REBEKAHS WILL HAVE

The Baird Rebekah Lodge wil their daughters, Mrs. W. H. Todd of Wichita Falls and Mrs. John T. Sparks of Midlahd, at the McElroy home in Baird.

### **Bears-Gorman** Play 6-6 Tie

game, the Gorman Panthers climaxed a 70 yard scoring drive late in the fourth quarter to tie the Baird Bears, 6-6 here Friday night.

Gorman had won nine games this year, and ended District play with a 3-0-1, while Baird has a 2-2-1 record. Gorman will reprerent District 7-B in bidistrict play.

The Bears tallied early in the first quarter when Calvin Bar-nes plunged over from 4 yards out. The pass for extra points failed.

Gorman scored late in the 4th quarter. Ronnie Page received a Barnes punt and returned to his own 30 yard line. The Panthers then marched 70 yard for a TD, with the big gainer of the drive a 45-yard sprint by Nathan Files. Gene Simmons went over from the 2 yard line and the conversion try failed.

Baird's defensive unit played inspired ball throughout the game, holding the Panthers three times within the five-yard line. Smith, Vines, Barnes and Higgins showed up pecially well. Baird held the strong Gor-man runners to no first downs

The Bears had 8 first downs to Gorman's 12. The Panthers had 278 yard rushing to the Bears out of 9 pass tries for 75 yards Gorman did not complete a pass but intercepted two of the Baird aerials. Baird recovered 3 Gor-man fumbles, and Gorman recovered one Baird miscue.

#### Many Have Diabetes And Don't Know It

Feeling tired lately? Hungry and thirsty all the time? Losing weight? Aches and pains in the fingers and toes? You might have diabetes.

Of course, you could these symptoms and not have diabetes at all. It might be something else. Or, you could have diabetes and not any of these symptoms. Only your physician can tell for sure.

The American Diabetes Association tells us that about 1,250-000 Americans are walking around with diabetes and don't know it. There are another 1,-500,000 diabetics who have been diagnosed and are under medical care. Almost all of these folks are leading fairly normal lives. It's those of us who have undetected diabetes that are the major concern of the American Medical Association and the ADA this fall.

November 12-18 is Diabetes Week. All over the nation communities will be putting on local Diabetes Detection Drives. The main idea is to remind all of us to go get a check up to find out whether we have diabetes.

The most likely targets for diabetes are persons who are related to diabetics, because the disease is hereditary. Other likely candidates are persons who are overweight or past 40 years old. Women are more likely to contact diabetes than men.

Diabetes can't be cured, but it can be controlled, by diet, ex-ercise, and, when necessary, by insulin. Neglect of diabetes can lead to all sorts of complications such as heart disease, failing eyesight, hardening of the ar-teries, kidney disorders, gangrene, cerebral hemorrhage or diabetic coma.

There are simple tests to de-termine sugar content of the urine. If the test show too much sugar, the physician usually then follows up with a bloot test for glucose tolerance. The best approach is to call your family doctor and tell him you want your whole family to have the diabetes test. He'll tell you what to do thereafter.

The diabetes tests are easy and painless. Don't take a chance on undetected diabetes

#### Contact SS Office If Near Retirement

the past 7 years, peak loads in the Abilene social se-curity office have been in January, according to R. R. Tuley, Jr., manager. He adds that claims filed in January are usually delayed in processing be-cause of such high workload.

Tuley suggests that persons 62 or older planning on retiring in January or February of 1962, drop by the office to discuss possible advantages of getting their claims filed before Jah-uary. With the liberalizations in the 1961 Amendments, everyone over 62 who has had three years or more of social security credits should investigate the pos-sibility of collecting at leas some retirement benefits in 1962 even though continuing to work. If expected earnings for 1962 are to be less than \$3,000, Tuley urges a discussion with a member of his staff about payment

The Abilene office is located at 203 Fannin Street. Office hours are from 9:00 A. M. to 5:00 P. M., Mondays through Fridays.

#### Texas Farm Bureau **Exceeds Quota**

The Texas Farm Bureau ended its fiscal year October 31, with the highest membership in its history, the organization di-rector has announced. Millard Shivers said the 1961

membership totaled 82,362, an increase of 1,370 over last year's figure of 80,992. This the ninth consecutive year for the state's largest farm organization show a gain in membership, Shivers said.

The Texas Farm Bureau, by virtue of its gain this year, will retain its position as fourth lar-gest in the nation. The state organization has been the largest Farm Bureau in the South for the past two years.

The TFB's 1961 national quota in the American Farm Bureau Federation was 81,617. This quota was exceeded by 745, making the fifth year in a row for the Texas Farm Bureau to exceed

#### Union Usuals and Unusuals By Veda Yarbrough

Hi neighbor! Yesterday was most like summer. Today, which is Monday, is real cold. There was a little fine mist when Ollie Tuesday more Gayle and I came in from Putnam late this afternoon. The weatherman said this afternoon that it would be about 35 degrees tonight. Seems like it might be cold enough to freeze.

The cotton farmers who ma-

chine their cotton will welcome a freeze or frost. John McIntyre sprayed the cotton here on my place last week to kill the leaves, but they did not kill good. There are lots of leaves this and that makes it hard to kill

and Annie Yarbrough.

#### Screwworm Program **Gains Momentum**

Callahan County Livestock in Texas, are becoming increasvisited her grandmother, Mrs. ingly aware of the animal health J. L. Tabor and Anna Bell at situation in Callahan County ingly aware of the animal health and Texas. The screwworm is a pest, causing an estimated annual loss of one hundred million dollars and is getting major attention.

If you, as a livestock owner, will stop and figure the money, labor and time you have spent during the past year in looking for, catching and doctoring the worm cases, you will easily see where the figure of a hundred million dollars comes from. On of the summer labor is used to

takes a heavy toll on every live-

Those visiting in the home of Mr. and Mrs. Alzie Price the past week were Mr. and Mrs. Celcil McDonald and family of Arizona, Mrs. Henry McDonald of Baird and Gerry McDonald of Sterilizing the male screwthis community worm fly and turning him loose The Johnnie Adair family of to mate on the female fly, which mates only once a lifetime. At In a recent case three small the rate of turning approxima- boys, playing in an old rifle tely 50,000,000 sterile male flies range near home, found a gren-loose per week, the screwworm ade, took it home, and later exwas eradicated from Florida in ploded it, injuring themselves. a two year period. Today screw Livestock Producer a dollar a year.

To set the program into effect in Texas, three million dollar is to be raised from the Livestock Producers. Donations are being asked for at the rate of possession. 50c per grown cow or steer and \$10c per adult sheep, goat or swine. This is a very small in-The Eula girls split basket-ball games with Coleman last yield. The money will be handled through a local county chair-man and secretary-treasurer of a county committee set up to handle this problem.

The problem will be more difficult in Texas than Florida because of its size and surrounding area, but through the use of buffer zones in Mexico and cooperation with surrounding sta tes, it can be done. The screw worm fly overwinters in a fifty thousand square mile area of South Texas, and this will be the first area treated.

For more information on this, contact your local Agriculture
