The Hospital Question

Does Olton want or need a hospital? This is the question to which the Olton Chamber of Commerce and Agriculture is presently seeking an answer...

people you know that have gone to other cities for medical treatment recently or how much money your family has spent on medical expense in the past year.

At its last meeting, the Chamber board voted to seek an opinion on the hospital question and to work for the project if the people so desired...

A hospital here would bring new people to town and create new jobs for some present residents. To consider a few, a hospital would require an MD or MDs, nurses, x-ray technician, administrative personnel, cook, janitor, yard man and probably other positions.

Many businesses would benefit directly from the hospital. Small items, sometimes forgotten, such as flowers, candy, magazines, pajamas, robes, house shoes and others would be purchased in Olton.

The indirect benefits would reach almost everyone. The more money kept circulating here, the more the town will grow.

We believe a hospital would be a beneficial and much needed addition to our town. We also believe that if the people of Olton really want a hospital, it can be built with local funds.

If it is necessary to seek federal money to build a hospital in Olton, the town does not deserve one.

What would a hospital mean to Olton and this area? Besides the obvious security and convenience of having hospital facilities near at hand, there are financial benefits to be considered.

We see no reason to believe that a hospital won't 'go' here. Other towns this size have successfully established hospitals.

For example, ask yourself how many

Nuclear Age Arrives For OHS Science Students

What sort of plant will a seed treated with radiation produce? What is the effect of varying amounts of radiation on live materials such as mice or rats? Olton high school science students are seeking answers to these and other questions about radiation through a new program of instruction involving the use of equipment and materials for studying radiation valued at \$1800.

Recipe Of The Week

This recipe for German Chocolate Cake was presented to us by Mrs. G.L. Peterson. 2 cups white sugar, 1 cup buttermilk, 1 teaspoon vanilla, 1 package German sweet chocolate, 1 teaspoon soda, 1 cup shortening, 2 1/2 cups cake flour, 4 egg yolks and whites, 1/2 pint whipping cream or 1 large can of evaporated milk, 1/2 cup chopped pecans, 1 cup short cut coconut, 3 egg yolks, 1 cup white sugar, 1 stick butter, Vanilla to taste. Mix together and cook until thick stirring constantly.

Mostly Lost!

Two kittens who 'lost' their tails were reported lost this week by Kristi Burrus who is lost without them, according to her grandmother, Mrs. Jeanne Maxey. Mrs. Maxey said the Max kittens, a type born without tails, were 3-months-old and blue-grey in color. Kristi, she said, has been all over the neighborhood looking for them. So, Fluff and Puff, wherever you are, please come home.

Becky Hall Will Ride Float In NTSTC Parade

Becky Hall, daughter of Mr. and Mrs. W.T. Hall, Jr., who is a freshman at North Texas State Teachers College, was nominated as one of five candidates to ride the Dorm float in the homecoming parade. Each dorm section selected one candidate.

VISIT SILCOTTS

Visiting in the L.E. Silcott home Sunday was their daughter and son-in-law, Mr. and Mrs. Earl Smith of Lubbock; Roy Granberry and Mr. and Mrs. Bill Smith, all of Olton.

How Much Will YOU Pay?

(Special to the Enterprise) NEW YORK. - What does an additional \$1 billion in spending on the part of the Federal government mean to the average Lamb County family? How much money does that sum take out of local pocketbooks? On the basis of some figuring done by the Tax Foundation, a non-profit organization, the cost locally is \$109,800 for each billion spent. That is the estimated amount that must be met sooner or later by the county's 6,100 families. The government may get this money through direct or indirect taxation, or by going into debt, which means reducing the value of the dollar, or by a combination of these methods. The statisticians at the Tax Foundation find that each billion dollars of increase in Federal spending represents \$19 to the average American family of four. It ranges above and below that amount in individual communities, in relation to their income levels. In other words, notes the report, a \$1 billion spending increase takes money that each family could have used to buy an electric toaster or five LP records. A \$2 billion increase would take the amount that they might have used to purchase clock radios or power tool sets. The enormity of a billion dollars can hardly be grasped. To reduce it to understandable terms, one economist put this way: If a firm went into business at the time Christ was born and proceeded to lose \$1,000 every day from that time on, it would not yet have lost a billion dollars. Another 778 years would be necessary. The Administration has stated that it expects to spend \$88 billion in the current fiscal year, a record peacetime amount. In terms of the average family in Lamb County, based on the Tax Foundation's estimates, this is equivalent to \$1,584. For the entire population locally, the bill comes to more than \$9,662,000. The biggest part of this \$88 billion spending program is for national defense. Non-defense appropriations are running much higher also. More money has been earmarked for domestic projects and civilian aid than ever before.

Auto Driving Skills VS Golfing Skills

It is an interesting contradiction in human nature that many individuals who are sure of their driving skills don't feel so self-satisfied about their golf game. They voluntarily look up the golf pro when they play a bad game of golf to find out why they are slicing or hooking their drives. They accept advice and may practice long and hard to get their golf swing back in the groove. On the other hand, when they hook bumpers or slice into another car on the highway or street, they blame it on their lack of attention or on the incompetence, or stupidity, of the other driver. They think the solution is simply to be more alert. Yet, if they were as open-minded about driving a car as they are about golf, they probably would admit that carless driving habits finally had caught up with them. The plain, hard facts are that the majority of injury-producing accidents are caused by self-acknowledged good drivers who are traveling at speeds under 50 miles an hour. Actually, these average drivers who become involved in an accident because of a thoughtless, unsafe maneuver like changing lanes without signaling and looking, probably have done the same thing so many times without having an accident that they have developed a false sense of security. Drivers who have satisfied themselves that they are safe drivers, even though they often have committed hazardous maneuvers, will be extremely hard to convince that they are heading for trouble. Of all the skills practiced by mankind, there is none that is used more--and improved less--than that of driving an automobile. From the time we first learn to drive, most of us believe we have mastered the art and there is nothing more we can learn. If you, the reader, still doubt the existence of this attitude, gently question the driving of a friend and you will learn what a good driver he thinks he is. By adopting a proper attitude, we will analyze our driving mistakes even more carefully than we study our golfing errors. We will resolve to practice better driving habits, knowing that, just as in golf, good results are produced by developing good habits. The difference is that in driving, the successful exercise of good habits, skill and judgement can save our life, and perhaps the lives of loved ones. VISITS MAYS Miss Lila Lee McFadden attended the Springlake Baptist Church Sunday with Lonna May and then spent the day in the Leon May home.

and 1200 schools throughout the nation. Purpose of the course, according to James Caley, science instructor, is to better prepare the students to live in a nuclear age. 'Science radioactive materials are expected to be used more and more by industry and in many other occupations in the future, such training is felt to be invaluable by educators.' O.H.S. students are already carrying out radiation studies such as measuring the half-life of a radioisotope, the uptake of minerals by plants from the soil using radioisotopes, and the effect of X-irradiation on the growth and development of seeds. Later in the year the students will use radioisotope methods in other studies including the effect of radiation on living animals and the study of how and where various chemical elements are used by living animals such as the use of radioactive iodine to demonstrate the uptake of iodine by the thyroid gland. Other investigations will be made into the uses of radiation and nuclear energy, radioactive fallout, fallout protection, and other aspects of nuclear science. Safety will be emphasized in student's use of the materials. Complete records are kept on the amounts of radioactive material on hand at all times. A record of student use of the radioisotopes is also kept. The radioisotopes are stored and disposed of using safe methods. 'When using the radioactive materials, local students will be exposed to less radiation than are most persons who wear luminous 'dial watches,' James Caley said this week. Each summer the National Science Foundation and the Atomic Energy Commission select and train limited number of high school science teachers in the use of radioactive materials in science teaching. The training is carried out at Radiation Biology Institutes scattered across the nation. Caley received the training this past summer and was furnished with the necessary equipment to carry out the program by the Atomic Energy Commission. Various sources of radioisotopes and irradiated materials are to be utilized. Radioisotopes being used are purchased from companies dealing in this specialty. 'Nine different isotopes were recently purchased at a cost of only \$18.00,' Caley announced. Two free shipments of radioisotopes are expected in November and February from the Atomic Energy Commission. Every citizen of the United States is a general license holder and could legally purchase radioisotopes in government regulated quantities. All amounts shipped to Olton will be within the legal general license quantities. Dr. Basil Johns, local physician, will X-irradiate some of the materials used, such as seeds and yeast, for the science department. In addition, Lubbock Methodist Hospital has offered to irradiate other live materials, such as mice or rats, with their Cobalt 60 teletherapy unit. This unit is ordinarily used to treat cancer with radiation. 'We are not teaching radiation to the exclusion of other learning,' Caley said, 'rather, we are using radiation materials often in place of other methods to teach many science concepts.' 'The use of radioactivity is simply another way of presenting many science learnings in a more stimulating and more challenging manner to the student,' he continued.

Larry Lee Takes Lead In Area Football Scoring

Larry Lee of Hart holds the lead in area football scoring, Jimmy Bennett of Kress and Gary Don Haught of Tulia are next in line. Lee is leading Bennett by 10 points and Haught by 12. Lee scored one touchdown in Hart's battle against Bovina while his nearest rivals failed to score. Lee has been the bright spot in Hart's football season. He

scored the Longhorns lone touchdown in their 41-6 pasting from Bovina in the district 2-B opener for both teams. The Longhorns had a week of rest last week when they had open date, but Lee will be out fighting again Friday night when the Hart Longhorns meet the Happy Cowboys in a tilt at Hart. It will also be the Longhorns homecoming.

The Hart Lions will host the Plainview Chamber of Commerce for breakfast on Wednesday, Nov. 1 at 6 a.m. at Lilly's Cafe.

CARD OF THANKS

I wish to say thank you for the kind words, beautiful cards, lovely flowers, and heartfelt thoughts for me during my recent illness. Also I want to say thank you to the doctors and nurses who were so nice to me. Bless you. Bea Gonzales.

Bob Copeland of Gould, Okla., visited in Hart Friday and Saturday. He spent Friday night with Mr. and Mrs. J.V. Wescott.

Rev. G.C. Applewhite of Lockney visited in the homes of Cecil English and H.E. Lomans Sunday.

Kittrell Shows Champion Berkshire at State Fair

Johnny Kittrell of the Hart FFA Chapter exhibited the Champion Berkshire barrow at the State Fair of Texas at Dallas. Kittrell's Barrow won the heavy weight Berkshire class and then went on to become Champion Berkshire barrow of the show. Kittrell's barrow showed in the drive for Grand Champion barrow of the show, but was beaten by a pair of Hampshire barrows. Other Hart boys making the

trip and showing prize winning animals were Kenneth Bailey, Danny Godfrey, Tommy Morrison, Roger Lancaster, Jerry Shive, Mike Reed, Dero Sargent, Eufemio Rubalcaba, John Smith and Wilburn Brooks. Lenny Tucker, advisor, Mr. and Mrs. W.A. Hawkins, Sr., and Theron Morrison accompanied the boys to Dallas. The members of the chapter appreciated the support given them by the Farmers State Bank for sponsoring one car.

Morton's 4th Quarter Scores Send Mustangs To Defeat

Morton's Indians proved to be "Indian Givers" of the worst sort here Friday night.

They gave up a touchdown to Olton early in the ball game, then got it and three others back as the Mustangs got the worst end of the deal, 26-15.

The loss squared the Mustang's District 2-AA record at 1-1 and left the Ponies with a 3-4 mark for the season.

Morton has an identical record in district play, but the Indians are 6-1 for the year.

With a concession from the Indians in a place or two, Olton could have come away with a victory.

But the Redskins were sharp traders when they needed to be, and they were able to take advantage of some costly penalties incurred by Olton.

The Indians broke up what had been a nip-and-tuck ball game with two touchdowns early in the fourth quarter. Going into the final stanza, Olton was behind only 12-7 and the Mustangs had been making threatening gestures.

In the third period, Olton advanced to the Indian 25, but there a 15-yard penalty stifled the march.

On another occasion, the Ponies moved into Morton territory only to lose the ball on a fumble.

What may have been the key play of the game came with 11 minutes left. Quarterback Steve Middleton rolled out on a keeper and sped 44 yards to the Olton 10, where he was finally nailed by the Ponies' Jimmy Lawson.

A few moments later, facing a fourth and five situation, Middleton used the same play to put Morton out front, 18-7. He kicked the point to make it 19-7, with 9:37 left.

Less than four minutes later, Fullback Wilburn Zuber got loose on a 45-yard TD run to give Morton a 25-7 lead. Middleton kicked the point, No. 26 for Morton, and the Indians had it in the bag.

Olton started like it would roll up a resounding victory. The Mustangs stopped Morton's first offensive effort and took over at their 40.

They stepped off 60 yards in 12 plays for the go-ahead TD.

Fullback Johnny Moses, who sparked the drive by gaining the last 30 yards in six consecutive carries, scored from the two. Charlie Burrus kicked the point and it was Olton by 7-0 with 3:08 left in the first quarter.

Morton came right back with a 51-yard drive for a TD. Middleton was the man who got the yardage when the Indians had to have it.

Facing fourth-and-four at the Olton 43, he ran 19 yards to the Olton 24 to keep the drive alive.

On the next series, Morton ran into a fourth-and-five situation at the Mustang 19. This time Middleton flipped a pass to End Glen Kuehler, with the play moving the Indians to the Mustang 13.

Zuber got the score on the next play, but Middleton's pass for the extra points was batted down and Olton still led, 7-6.

After Olton failed to gain, the Indians got another drive rolling. This one as for as 63 yards and was climaxed by a 23-yard scoring pass from Middleton to Halfback Charlie Ledbetter.

A running try for the extra points was no good and Morton led by 12-7 with 4:33 left in the first half.

Down 26-7, Olton drove 62 yards in six plays to score

With QB Johnny Schenck lead-

MUSTANG FULLBACK JOHNNY MOSES gains eight yards to the Morton 19 to spark a drive that netted the Mustangs' first touchdown last Friday night. Four plays later,

Moses scored from the two, putting the Mustangs ahead 7-0 early in the ball game.

QUARTERBACK JOHNNY SCHENCK raced 18 yards on this play in the second quarter. He cut back to evade Morton's Wilburn Zuber (32), but later fumbled at the

Morton 49, where Jimmy Lawson, at left, recovered the loose ball.

ing the attack, the Mustangs took the kick-off and, aided by two 15-yard penalties against Morton, moved to the Indian 19 with 1:21 left.

After Burrus picked up two, Halfback George Jones raced to the Morton 10, but a 5-yard penalty rubbed out the gain.

Operating from the Morton 24 with 30 seconds left, Schenck raced to the nine, but another 5-yarder nullified the gain, which would have given Olton a first down. Schenck's fourth down pass went incomplete and the Ponies went to the dressing room with a 12-7 deficit.

Olton dominated the third period, moving down to the Morton 25 midway in the quarter, but a 15-yard penalty quelled that march.

Morton wasn't able to dent Mustang territory until the fourth period, when Middleton got off his fine 44-yard run to the Olton 10.

Four plays later, Middleton got Morton's third touchdown and that was followed a few minutes later by Zuber's 45-yard run for a score.

Down 26-7, Olton drove 62 yards in six plays to score

with 3:03 left in the game. Schenck started it with two passes to Halfback James Lovelless, the last of which carried 27 yards to the Morton 29. Then Schenck carried four straight times, his last run a nine-yarder for the touchdown. Schenck also ran the extra points, making it 26-15.

Morton controlled the ball until the last two plays of the game, and the Mustangs were deep in their own territory as the whistle blew.

Defensively, the Mustangs played well until the fourth period, when they fell victim to Morton's long gainers.

Standouts in the line for Olton were Lawson, End Roy Moss, Guard Jimmy Bennett and Moses, who moved into the forward wall on defense. Linebacker Robert Duncan again was a defensive mainstay for the Ponies.

elected to play it safe on Moss' injury and shelve the senior end for the season.

Johnson, a senior halfback, suffered a leg hurt in the Hereford game and won't be ready for action this week.

Bryan said he has switched Fullback Charlie Burrus to end to take up the slack. Soph End Ronnie Parsons probably will start at the post, with Burrus scheduled to play some there. Co-Captain Jimmy Lawson will be at the other terminal.

At tackles, it will be Joe McKnight and Larry Fancher, while it will be Jimmy Bennet and George Phillips or Gary Bizzell at starting guards. Co-Captain Robert Duncan apparently is fully recovered from his leg injury and will be at center.

It'll be Johnny Schenck, James Loveless, George Jones and Johnny Moses in the backfield for the Ponies.

Leading the Longhorn attack will be Quarterback Johnnie Belt, a two-year senior letterman who is a dangerous runner and a fine passer. One of his favorite targets is End Ronnie Belt, a 175-pound junior.

Leading a tough Lockney line are Donnie Hanst, 165-pound guard, and Rayland Brotherton, 190-pound center who is the Longhorn captain.

Olton took a 30-8 victory over Lockney here last year. QB Belt scored the only Longhorn touchdown in that tilt.

Sugar Beet Meet Set

A meeting for all Sugar Beet Growers Associations has been set Nov. 14 at 12 noon, Bull Barn in Hereford.

Tickets for the barbecue which will be served by the Hereford Rotary Club are \$3.50 each.

The program will feature a panel composed of Congressmen Robert Poage, George Mahon and Walter Rogers.

Each panelist will give a ten minute opening speech. Written questions will then be addressed to members of the panel by Loyan Walker, moderator.

Anyone from the Olton area interested in attending the meeting is asked to contact Dick Whiteley, manager of the Olton Chamber of Commerce and Agriculture.

Scout Fund Raising Drive

A Boy Scout and Cub Scout fund raising drive will be kicked off here Nov. 2, according to Don Williams, fund raising chairman.

Olton's quota is \$900 of which \$275 has already been raised. The cost per boy is \$12.50 a year for their share of the South Plains Council expense.

Olton Rancher Invests In 10-Section Ranch

Merrill P. Brigrance, Olton rancher, purchased a 10-section ranch six miles east of Portales with a bid of \$33,500 an acre last week.

The ranch was put up for bid in two blocks, one containing 6,083 1/2 acres and the other 552 acres, at state land sale. Brigrance was one of 10 bidders who qualified by posting a cash bond of \$13,332.84.

Brigrance was successful on securing both blocks of land. The land, part of the Lee Bivens Estate, has been operated by Cold Water Cattle Co. of Amarillo, for many years. It is mostly in deep sand and lies along the highway between

Olton Hit By 3 Burglaries During Week

Olton was hit by three burglaries on three consecutive nights during the past week according to Emmett Burrows, chief of police.

Burrows said some suspects had been questioned in connection with the burglaries but no arrests had been made Wednesday.

Sunday morning, between 2:30 a.m. and 5:30 a.m. the Spot Lite Cafe was broken into. The jukebox was destroyed and the cigarette machine damaged. Reported mission were 100 records, some money in the jukebox, six T-bone steaks, three dozen eggs, a ham and some bacon.

Reported missing at Olton Bakery after a break-in Sunday night were cigarettes, candy, chewing gum and \$30 in cash. Burrows said pie was scattered over the floor of the bakery.

Monday night a screen was cut and raised in a house belonging to Higginbotham-Bartlett Lumber Co. where the Olton Garden Club is holding rummage sales. A topcoat and three or four suits of men's clothing were reported missing.

The burglaries were investigated by Chief of Police Emmett Burrows, Deputy Sheriff V.L. Smith and Night Watchman Ronald Harcrow.

Parsons Funeral Home Ambulance took Roy Moss to the Methodist Hospital in Lubbock Friday night after the Olton-Morton football game.

Improvements on the land were appraised at \$7,571.85 for the larger block and \$91.14 on the smaller block.

The successful bidder was required to pay five per cent in cash and has 30 years to pay the balance at four per cent interest.

All mineral rights are reserved for the state of New Mexico.

WEEKLY PRIZES!

CONTEST RULES

Winners selected in each ad must be circled in ink or pencil. Tie-breaker winners must be circled and scores printed in the spaces made available for them.

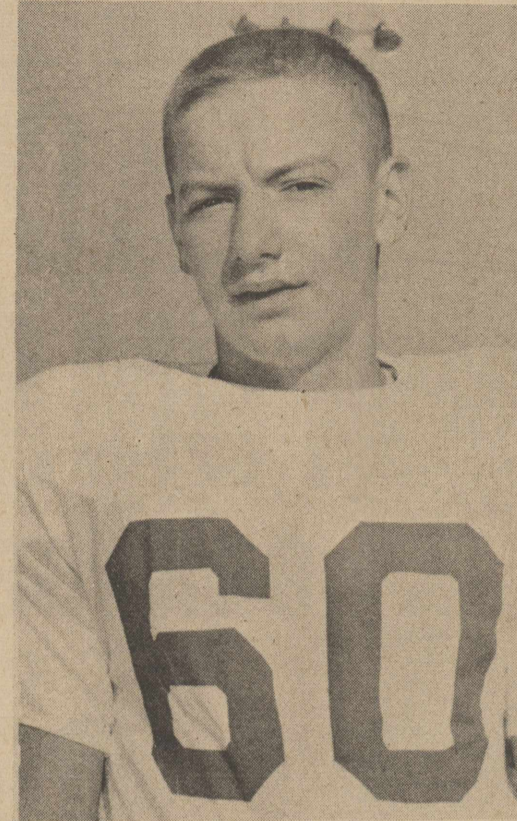

Each week's entry must be turned in to one of the merchants sponsoring the contest. Contestants are given a week to prepare and turn in their entries. When they receive their paper on Friday, they have until the next Friday at

4 p. m. to turn in their entries.

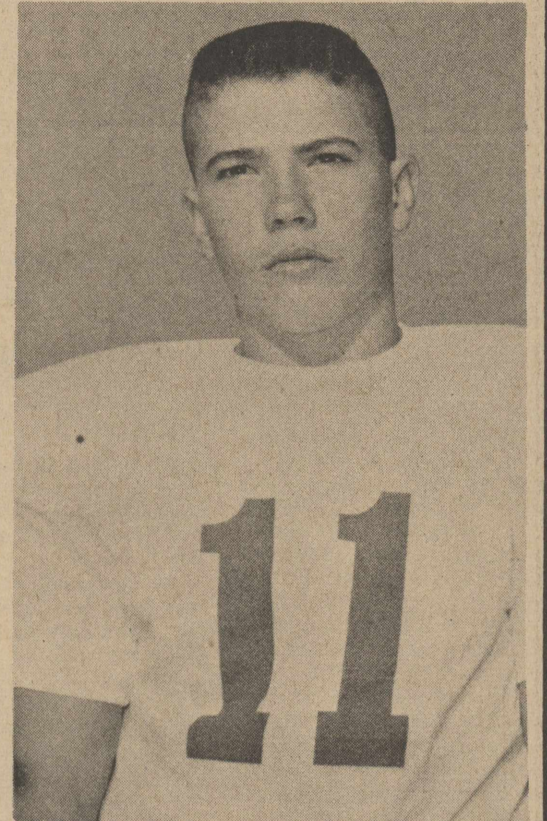

Sponsoring merchants may accept mailed entries, but none mailed directly to the Enterprise will be accepted. All late entries will be discarded.

In case of ties, a coin will be flipped to determine the winners.

Anyone may enter except employees of the Enterprise or their families.
