Stratford's representation as Texas Firemen's Training School was made possibe by the support of the City of Stratford, Sherman County and Citizens of this community.

Continuing Education is important in fire prevention and control. Trained fire fighters are an asset to the community. A volunteer fire Department must meet certain state requirements some of which are meeting twice monthly for at least 2 hours of training per meeting. At least 24 hours per year must be acculated per person each year in training exercises. The levels of fire fighting and number of hours required to attain each level are: Intermediate-122, Basic-162, Advanced-187. Careful records are maintained and reported to the state certification board annually.

In other business, vehicle insurance bids were opened and awarded to the Smith Agency. Bids were opened for the high school computer lab. Motion carried to table the bids on computers.

A preliminary budget for 1991-92 school year was discussed. The board will meet on August 29 at 8:00 p.m. for a tax hearing. The Board voted to have teacher induring November, and January.

Superintendent Brite gave a report on summer maintenance, first day of school for employees and tax collection. Meeting adjourned at 10:00 p.m.

Norma Herbold, daughter of Marillyn Albert and sister of Leonda Fedric, was critically injured in a taxi accident in Russia last week. Norma, a science teacher in Redding, Ca. along with her husband Joe, were enroute to the airport after attending an International Science Symposium in Moscow. Norma was one of the speakers to the group of 500 American and 500 Russian American and enbankment. Norma was thrown below. through the rear window. Joe was in the front seat with a seat belt and suffered only bruises. There were no seat belts in the back seat. She said the Russian hospital was extrememly primitive compared to U.S. Standards and was a frightening experience. Only through the intervention of the American Embassy was her husband able to get her removed from the Russian hospital. She is currently in the hospital in Schriesheim, Germany. She hope to be able to return home in a week or two. Extensive plastic surgery will be required.

During the summer months, drivers often get out of the habit of being alert for both school zones and school buses. Major Cawthon says that now is the time to get familiar with posted school times in your area. It's important to remember that school zones can be posted by blinking yellow lights or in some areas just a sign posting the school zone times. Either way it's your duty to be alert for our young children, some of whom are attending school for the first time and others who have moved to the neighborhood during the summer months and who may be unfamiliar with the

### **Public Notice**

On July 22, Southwestern Bell Telephone Company filed an application with the Public Utility Commission of Texas for approval of two new optional services, Exchange Connection Service and Customer Alerting Enablement. Exchange Connec-tion Service will permit a customer of the Telephone Company to provide voice messaging service, telephone answering service, or other services to itself or to patrons of the customer. Customer Alerting Enablement will permit residence and business lines to receive an alerting tone (intermittent dial tone) transmitted by an Exchange Connection Service customer. The proposed effective date for this offering is September 23, and will be available statewide where facilities permit.

The calling party's telephone number and other originating network call information will be delivered to the Exchange Connection Service customer when the calling number and the called number are served by the same switch. Additionally, the caller's telephone number and other of iginating network call information may be recorded and stored by the Exchange Connection Service customer. Customers may be able to identify the caller before the call is answered. All Exchange Connection Service customers will be required to sign a non-disclosure agreement prior to being provided service. In the agreement the customer agrees not to disclose the calling party's telephone number unless the customer has written permission from the

The Telephone Company estimates these new services will increase its annual revenues during the first year by approximately \$1.2 million. Providers of voice messaging service and telephone answering services and their subscribers are the types of customers likely to be affected by approval of these services.

Exchange Connection Service is provided to customers in two parts: Local Serving Arrangement, which provides access to the exchange network; and Optional Service Features. The proposed rates, for both Exchange Connection Service and Customer Alerting Enablement, including installation charges, are as

✓ Out The Library

by Dorothy Hails

At the top of the best-seller list is Amy Tan's new novel, The Kitchen God's Wife. This story had its beginning on a small island outside Shanghai in the 1920's. The narrative continues the story of China during World War II, and traces the happy and desperate events that led to the family's coming to America in 1949. In the end, the author shows why it is still possible to change the past, to claim the future, to go

beyond the fate of the Kitchen God's Wife.

Mickey Rooney's Autobiography, Life Is Too Short, is perhaps the ultimate portrait of survivor. His first stage appearance was at the age of seventeen months, and at seventyodd years later he's still on top of the world. He has written about show business itself-the greed, the glitter, the hard work, and the secrets behind the successes.

I Had A Hammer, The Hank Aaron story has been written with the help of Lonnie Wheeler. In a career that may be the most consistent baseball has ever seen, Aaron also set all-time records for total bases and RBI's. He ended his playing days by spending two nostalgic seasons back in Milwaukee with the Brewers, then embarked on a new career as an executive with the Atlanta Braves. He was for a long time the highestranking black in baseball. Hank Aaron's candor and insights have produced a revealing book about his extraordinary life and times.

These are three of the new books in the library. Come read with us. Library hours are Monday-1:00 p.m. to 8:00 p.m. Tuesday thru Thursday-1:00 p.m. to 5:00 p.m. Saturday 9 a.m. to 1 p.m.

### **Public Notice**

On April 9, 1991, Southwestern Bell Telephone Company filed an application with the Public Utility Commission of Texas to request that the optional feature "Call Transfer Disconnect" be available to all PLEXAR I customers by including the feature in Southwestern Bell's PLEXAR I tariff. Currently, this optional feature is available only on a customer requested basis.

Call Transfer Disconnect (CTD) is an optional feature that allows PLEXAR I customers the ability to transfer a call to another telephone number within or outside their PLEXAR I system, hang up, and permit the two remaining parties to continue with the call. The PLEXAR I user is then free to place or accept another call. CTD is not intended to be used to avoid toll charges. Therefore, CTD will not be available to PLEXAR I customers subscribing to optional Extended Metropolitan Service or Extended Area Calling Service.

If the company's application is approved, the monthly rate for CTD will be \$4.00 for each PLEXAR I station line. Prior to the June 19, 1991, interim rate approval, Southwestern Bell was billing customers who receive the service \$1.50 for each station line equipped with this feature. In addition, under Southwestern Bell's proposed tariff, every line within the PLEXAR I system must be equipped with this feature. The nonrecurring charge for the additional lines which must be equipped with CTD will be waived for existing CTD customers. The tariffed monthly rate will apply to all existing and future CTD customers.
