## Parents Receive Son's Posthumous Awards Friday

Capt. Jerry Rogers and Spec. Al Duron of the Abilene Examining Station were in Knox City Friday to present Mr. and Mrs. Paul Rios Sr., the Army Commendation Medal and Purple Heart awarded posthumously to their son, Paul Jr., who was killed in hostile action in Vietnam on May 25, 1970, at 2:05 p.m. while serving with Company C, 299 Engineer Battalion, 937th Engineer Group, 18th Engineer Brigade.

## Purcell Announces Results Of Postal Investigation

Dallas - The results of an exhaustive investigation into postal service in the North Texas area were announced this week by Congressman Graham Purcell (D-Tex). Based on reports of widespread postal service complaints submitted to his office, Purcell called for an investigation several weeks ago into the operations of the Dallas Regional Branch of the Post Office. Although the report is not available at this time, Purcell, a member of the House Post Office and Civil Service Committee, has been keeping in close touch with the investigators since they returned to Washington. According to Purcell, the matter will be dealt with when Congress reconvenes November 16.

## Smith In Hospital

Smith, son of Mr. and Mrs. Smith of Knox City, is hospitalized suffering from pneumonia, Korea and influenza there for approximately 30 days.

## Sh Reported Improving

Sh, who was returned to General Hospital last, is reported to be improving each day.

## KNOW

at Pat O. Wiley (Mrs. Wiley) is reported to be improving each day.

## Hounds Host Aspermont Friday Albany Lions Win Over Greyhounds In Tough Contest

The Albany Lions outscored the Knox City Greyhounds Friday night at Albany, 28-14, in District 7A action, but failed to top the Hounds statistic-wise. The fired-up Hounds gave the Lions a run for their money and the game was much more of a thriller than the score indicates. Fans who were in Albany for the important district game were very pleased with the all-out effort the Hounds made.

The Lions hit for a quick 20 point lead in the first half. However, the Greyhounds struck back in the 2nd half and it appeared for a time that the Hounds might pull it out.

The Lions scored early in the 1st quarter when halfback Ricky Jones picked off a Knox City pass and returned it 35 yards to put the Lions in front 6-0.

Then the next Lion score came on a 4-yard plunge by huge Albany fullback Bob Tidwell. A pass to the end zone was good for two points and Albany led 14-0. With only 25 seconds left in the half Albany scored on a reverse pass from a 43 yards out making the half-time score 20-0, as the try for the extra points failed.

The Greyhounds stormed back with crushing runs from Allan Orr and brilliant blocking from the Knox City line. Orr plunged over from the one yard line and the score read 20-7 after Ivan Logsdon boomed the PAT through the goal posts.

The Greyhounds, playing tough defense and allowing the Lions only three first downs in the second half, got the ball again and scored on a 55 yard run by Mike Newton. Ivan Logsdon then boomed another through the goal posts to make the score 20-14 with 10:42 left in the game.

The Greyhounds had another drive that stalled on the 30 See GREYHOUNDS, Page 2

LION PRESIDENT Sam E. Clotts, speaker Robert J. Tillman, and Program Chairman George Davis stand before detailed map of the Arkansas and Red River Basins.

## KC Man Injured In Accident Friday

Dell Large, who recently opened a repair shop with his son, Billy Joe, suffered second and third degree burns here last Friday afternoon when an explosion occurred as he primed a carburetor on a pickup.

Mr. Large is a patient in the Knox County Hospital, and no details were available at press time as to his condition.

## Control Of Chloride Pollution In River Basins Told KC Lions

Program chairman George Davis was responsible for a very informative program at the regular noon luncheon of the Knox City Lions Club Wednesday, October 28, when Robert J. Tillman, Tulsa District, U. S. Corps of Engineers, presented a detailed report on the Water Quality Control Study of the Arkansas and Red River Basins. He told members and guests that the U. S. Corps of Engineers has been actively engaged in planning control of chloride pollution in the basins for several years. The Public Health Service began the study of the Arkansas and Red River Basins natural chloride pollution in July 1957, and the Corps of Engineers began its work as a result of a congressional authorization adopted in December 1959. Mr. Tillman said the authorization read in part that they were to "determine, in cooperation with the Division of Water Supply and Pollution Control of the Public Health Service, methods and means of improving and managing water quality in the Arkansas and Red River Basins." He explained that the big job of this study was to determine the cause of mineral pollution of water in the two basins and to develop methods and procedures to control the pollution and improve the overall water quality. The preliminary investigations by Public Health Service showed that two mineral constituents, chlorides and sulfates, were the principal pollutants. The Corps' part of the work involved developing a plan of improvement for controlling the natural salt brines, designing structures to do this, and evaluating the bene-

## Truscott Grain Meet Sat. 2:30

Producers Grain Corporation of Amarillo will hold its District 7 meeting in the Truscott Community House at 2:30 p.m. Saturday, November 7.

District 7 is comprised of 52 counties in Texas and six counties in southwestern Oklahoma.

At this meeting, a director will be selected to serve for three years.

Producers Grain Corporation is one of the largest grain co-ops in the U. S.

All farmers and ranchers are invited to attend.

## KC Greypups Defeat Archer City Wildkittens

The Knox City Greypups defeated the Archer City Wildkittens Thursday night 22-13. This was a very important win for the Pups because now with one game remaining, the Pups can clinch a tie for the district zone with a win over Munday tonight (Thursday) at Munday.

The Pups got off to a slow start and were behind 13-0 with only 2:05 left in the first half. The Pups had the ball on their own 45 yard line when quarterback Joey Swain hit wingback Joe Huff on a 55 yard pass play and the score was 13-6. The PAT was a run by Joe Huff that was good making the score 13-8 with 1:48 left in the half.

The Pups then recovered their on-side kick, and with 45 seconds left in the half, scored on a 42 yard pass play from quarterback Joey Swain to fullback Robert Taylor for the 6 points. The PAT failed making the half time score 14-13.

The Greypups came back in the 2nd half and scored on a short run by fullback Robert Taylor and the PAT was a run by Gary Carver making the final score 22-13.

The Pups play the Munday Braves there tonight (Thursday) with the 7th grade game at 5:30 and the 8th grade game immediately following.

The Knox City 7th Grade remains undefeated. Thursday night they defeated the Archer City Wildkittens by a score of 30-0. Outstanding for the Greypups were quarterback Donny Skiles, running back Dale Bloxham and Charlie Flye and end Alfred Rios.

## Drought Loans Available For Knox Farmers

Wichita Falls - Drought emergency loans will be available for farmers and ranchers in eight counties of the 13th Congressional District, Congressman Graham Purcell (D-Tex) announced today.

The loans, available through June of 1971, were "imperative" Purcell said. Explaining the emergency program, Purcell added, "These loans will be obtainable through the county representatives of the Farmers Home Administration in the Department of Agriculture."

"The counties where loans will be available include Baylor, Cottle, Dickens, Foard, Hardeman, King, Knox, and Wilbarger," said Purcell, a top-ranking member of the House Agriculture Committee.

Emphasizing the severity of the current emergency, Purcell said, "Twenty years ago there wouldn't be a rancher in North Texas if there'd been this kind of drought. The tanks built with the help of the government programs literally saved the industry. Even so, I've talked to a lot of cattlemen who had to back off, and in some cases, sell entire herds because they just weren't able to water them."

"As far as this year's cotton crop is concerned", Purcell

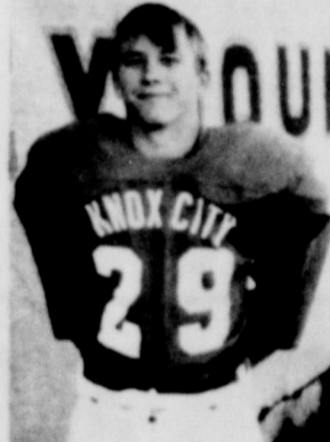

## Veterans Day To Be Observed By Offices

Veterans Day, Wednesday, November 11, will be observed as a national holiday for the Post Office, State Department of Public Welfare, FHA office, ASC and SCS offices in Knox City.

There will be no delivery of mail by city or rural carriers. Holiday schedules for the collection of mail will be observed. These schedules are posted in the lobby of the local post office.

No window service will be provided, but regular holiday lockbox service will be maintained.

Most KC businesses will remain open, Mrs. Doris Crowe, Chamber of Commerce manager, reported.

PHILLIP NEWTON

## KC Sophomore Greyhounds Pick

Phillip Newton was chosen 'Greyhound of the Week' by the local Quarterback Club at its regular meeting last week.

President Fitzgerald said the club selected the 155 pound back for his outstanding offensive play against Baird when the Greyhounds won their second district game of the season at Greyhound Stadium.

Parents of the KCHS sophomore are Mr. and Mrs. L. O. Newton of Rochester.

POLLUTION

Continued From Page 1

fits other than water quality benefits. Objective of the study was to make the waters of the Arkansas and Red River Basins usable at points of need.

In the studies, 15 major natural salt sources were found in the two basins, contributing about 15,000 tons of salt per day into the two rivers, the Red and

Arkansas. Mr. Tillman said that five of these sources are in the Arkansas River Basin and ten are in the Red River Basin, with the ten major areas in the Red River Basin contributing about 4,000 tons of salt per day.

In the Wichita River Basin, three major salt sources contribute an average of 325 tons of salt each day to Lake Kemp. Reduction or elimination of this chloride pollution from these three areas is essential for attainment of good quality water in Lake Kemp and farther on downstream in the Red River Basin.

Due to the size of the areas involved and the geologic conditions in the Wichita River Basin, it is considered impractical to attempt to control all of the chloride source areas, Mr. Tillman said, but they do think that a plan to control approximately 80 percent of the area chlorides would provide a good quality water in Lake Kemp.

In the studies conducted, the salt source areas were numbered as a method for easy identification. The Wichita River source areas are Area VII on the North Fork, Area X on the Middle Fork, and Area VIII on the South Fork. Area VII is located about eight miles south-east of Paducah in the south-

eastern quarter of Cottle County. Area VIII is located about six miles east of Guthrie near the center of King County and about four miles north of U. S. Highway 82. Area X is located about 13 miles northeast of Guthrie in King County.

The plan of control for Areas VII, VIII, and X is to construct small low-head dams downstream of the salt sources to collect the brine base flows and pump the collected brine to offsite impoundments for evaporation. Since most of the salt load occurs during low flows, and flood runoff in this semi-arid area is infrequent, about 80 percent control of the area chlorides could be obtained by this plan.

The specific plan for control at Area VII would be construction of a low-flow dam on the North Fork and a brine impoundment reservoir located on Canal Creek. The brine would be pumped from the low-flow dam through a 36-inch pipeline to the brine impoundment reservoir.

Control plan for Area VIII and X would consist of two low-flow dams and a brine dam. The low-flow dams for Area X and VIII would be located downstream from the source areas. The brine dam is on Bluff Creek about two miles northwest of Truscott. Brines collected at the low-flow dams would be pumped through 36-inch pipelines to the brine reservoir.

The work presently underway in these areas consists of detailed surveys and geologic investigations. Each dam site has been or will be mapped in detail. We are making extensive geological investigations of the dams and source areas, Mr. Tillman explained. Because of the unfavorable geology of this, we will make thorough visual reconnaissance and subsurface explorations by core drill for these sites he continued.

Design studies are currently underway to arrive at the most economical and efficient plan of control for these areas. Each area is carefully considered as to alternative site locations for the dams, pipeline sizes, and pump capacities. The hydrologic data gathering facilities have been expanded in these areas to help them in determining stream flow characteristics. After all the studies of the individual areas are made, a final plan of control for all the areas will be developed by a blending or combination of the individual areas to get the highest degree of control and as an end result the best water for the dollars spent. The latest estimate of cost for the desired control is in the neighborhood of \$65,000,000.

Mr. Tillman also introduced Wayne Wolf, field man who is doing the preliminary type work on the project.

IN LEA HOME Mrs. Winnie Steele of Albuquerque, N. M., and Mrs. Mabel Wilson of Hereford left Monday of this week to return to their homes after spending several days here last week with their sister and her husband, Mr. and Mrs. Ulric Lea.

IN PROPPS HOME Mrs. J. G. Dutton and her daughter, Mrs. Mildred Joiner, both of Lubbock, spent last Monday night here with Mrs. Buck Propps.

Sunday guests of Mrs. Propps were Mr. and Mrs. E. R. Britton of Stamford.

GREYHOUNDS

CUB SCOUT NEWS

By MRS. DONALD JOHNSON

The Cub Scouts had their first Pack Meeting, October 27 at the Methodist Church. The meeting was called to order by Cub Master, Jerry Ray. Den 2 said the Pledge of Allegiance for the opening ceremony. Den 3 presented some magic tricks and a skit concerning "Fire Prevention Week". Den 1 also presented a skit and the Webelos gave a knot-tying exhibition. Joe Clouts presented a Webelos Award to Junior Gonzalez. All the scouts formed a Living Circle for the closing ceremony. Refreshments were served after the meeting.

Garden Club To Meet Nov. 10

The Knox City Garden Club will meet November 10 at 2:30 p.m. in Mrs. Claude Reed's home. A program on leaves will be presented.

The Civic Committee has chosen the yard of Mrs. S. A. Cornett as "Yard of the Month" because of her flowering shrubs and beds of colorful petunias.

IN LEA HOME Mrs. Winnie Steele of Albuquerque, N. M., and Mrs. Mabel Wilson of Hereford left Monday of this week to return to their homes after spending several days here last week with their sister and her husband, Mr. and Mrs. Ulric Lea.

RETURNS HOME Mrs. Mabel Pyatt returned to her home here Tuesday afternoon after visiting with her sister and her husband, Mr. and Mrs. Everette Kelly, in Austin for the past ten days.

DROUGHT

(Continued from Page 1)

said, "I am at an absolute loss to explain how we managed to have any cotton at all. I've driven through and flown over every county in this district. Now there's one boll anywhere after July and August literally amazes me." Purcell said.

Alaska Seeks World Markets

New markets in Europe and the Orient will be served with Alaska seafoods by air, it was announced by Whitney-Fidalgo Seafoods, Inc., salmon packer and seafoods processor.

It has leased a major new quick-freezing and cold-storage plant at the Anchorage International Airport to receive and process up to 80,000 pounds of frozen fish daily. The company said it will deliver fresh and frozen products overnight to major cities in Europe and the Far East, utilizing the services of eight international airlines that fly via Anchorage between the U.S. and foreign destinations.

## A&M TO HOST HORSE SHORT COURSE

The 9th annual Horse Short Course will be held November 20-21 at Texas A&M University. B. F. Yeates, Extension horse specialist, says the program is designed to help both the experienced and novice horseman. Registration will begin at College Station's Ramada Inn at 1 p.m., November 20 with the first scheduled session set for 7 p.m. Local county agricultural agents can supply detailed information on program plans and registration, Yeates said.

## TAX DECISION MAKING IMPORTANT NOW

A good knowledge of new Federal income tax laws could save a farmer many dollars in the next two months.

Farmers prefiguring their final tax bill for 1970 shouldn't overlook those 1969 revisions in the Federal tax code, many of which went into effect for the first time this year, Jack E. Jenkins, area farm management specialist with the Texas A&M University Agricultural Extension Service, says.

The Tax Reform Act of 1969 contains nine provisions that deal specifically with reporting income from the farm, as well as numerous other changes that affect all taxpayers.

"Producers would do well to consult the new regulations before deciding whether to buy or sell a particular item between now and December or whether it would be more advantageous taxwise to wait until 1971," Jenkins said. "The goal of tax management isn't to avoid taxes, but rather, it is to minimize taxes paid, by taking advantage of all the provisions of the tax laws, as they apply to the farmer's particular operation."

Two of the Act's provisions affect the reporting of income from sales of livestock purchased for draft, breeding, sporting or dairy purposes, James I. Mallett, farm management specialist at Texas A&M said. Formerly, all such income would be treated as capital gains, which are taxable at the lower capital gains rate.

"Previously, livestock used in the farm business were specifically exempted from recapture of depreciation," he said. "Depreciation claimed in the past could then be deducted from ordinary income that is taxed at the usual rates."

"Under the new law, the gain on the sale of livestock is to

be treated as ordinary income, rather than a capital gain, up to the full value of previous depreciation deductions. This applies to depreciation taken after 1969."

The purpose of this change was to put livestock on the same tax base as other property used in business, depreciation on which is normally recaptured at time of sale.

"A second provision affecting livestock used for draft, breeding, sporting or dairy purposes, extends the holding period for certain animals before they can be sold and qualify for capital gains treatment," he said. "The old law allowed a 1-year holding period. The new retention period for horses and cattle in these categories is two years for stock acquired after December 31, 1969. The holding period for other livestock remains unchanged."

According to Mallett, the objective of the 2-year provision is to assure that cattle and horses are in fact being held for the purposes specified,

rather than for sale in the ordinary course of business.

Another revision in the tax law has to do with taxation of indemnities paid to farmers for crop damage or loss. The old law required farmers who used the cash accounting method to include crop insurance proceeds as a part of the year's income, even though the crop itself might not have been sold until the following year, he explained, adding that in effect, the farmer who customarily marketed his crop in the year following harvest was paying taxes on two crops in one year.

"The 1969 Tax Reform Act eliminates this hardship by allowing farmers to defer the reporting of indemnities until the year following the loss, if they establish that under their usual practice, income from the damaged or destroyed crops would have been reported in the year following the year of the loss," Mallett said. "This provision was effective for 1969 and subsequent years."

Other sections of the revised tax law that affect only farmers deal with limitation of farm losses, hobby losses, tax-free exchange of livestock of different sexes, recapture of soil and water conservation expenses and extension of the date for filing tax returns by farm-

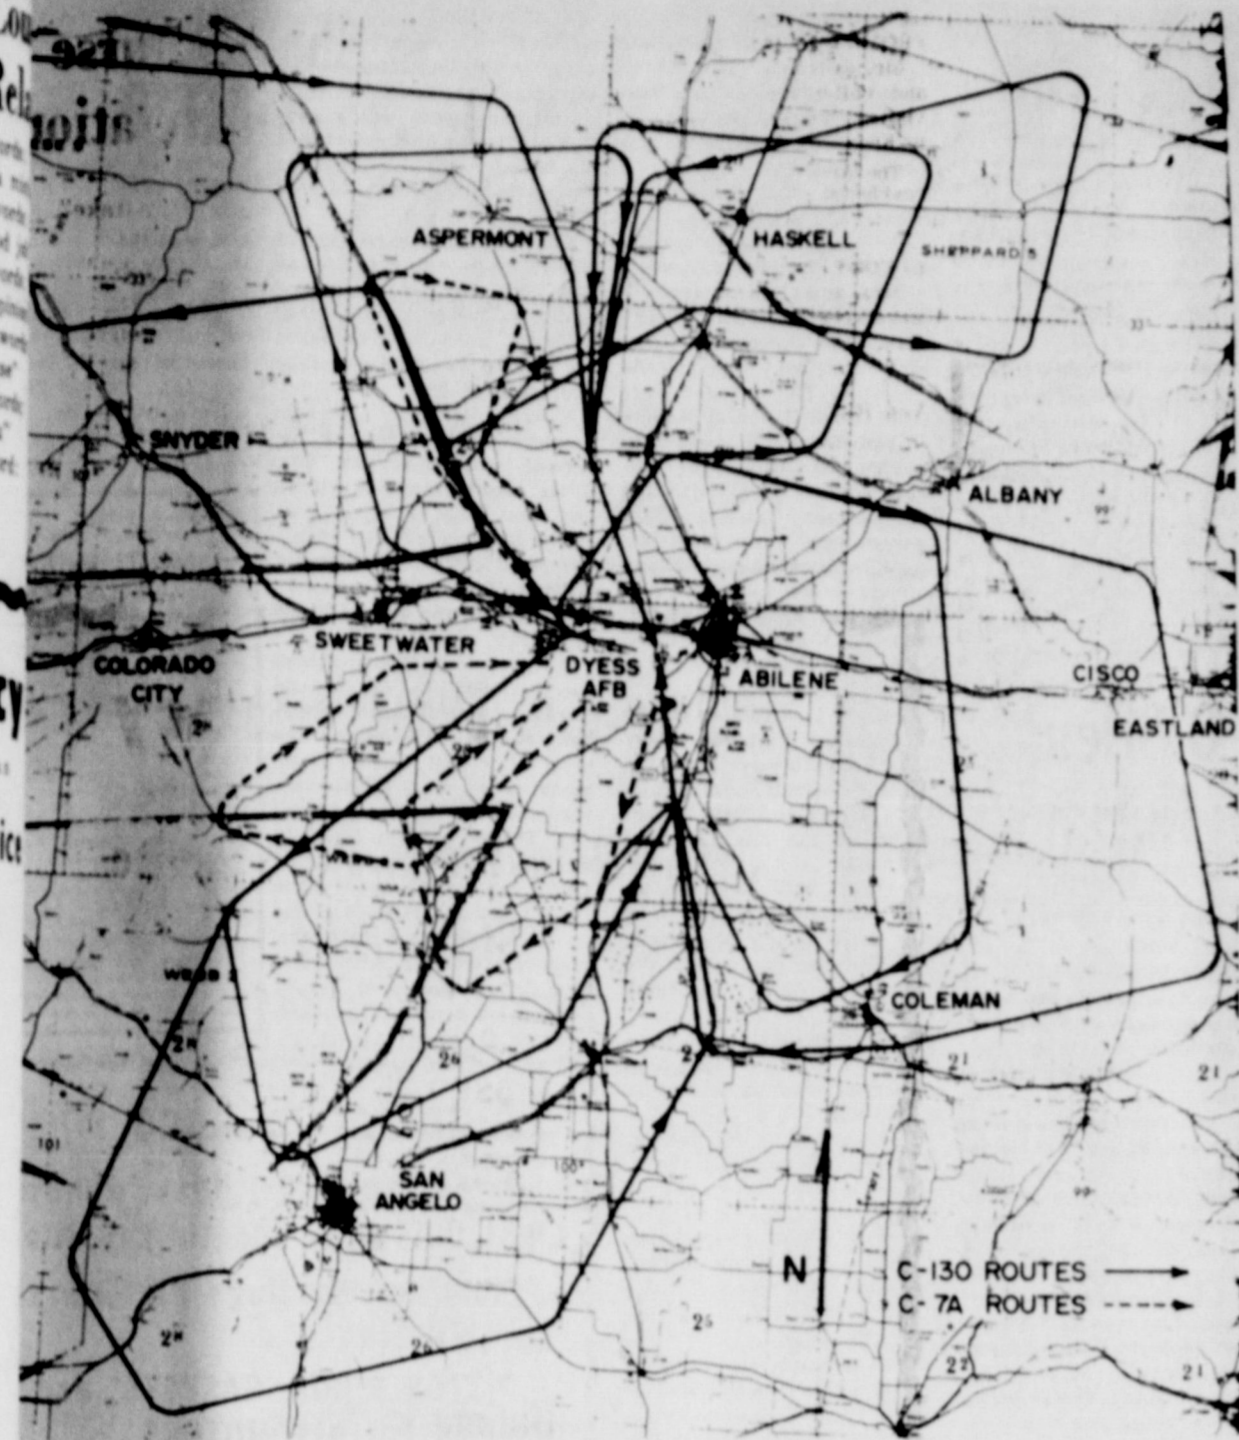

ers who do not file estimations. "Year-end tax moves should be aimed at leveling out income between tax years and avoiding the wide income swings into the higher brackets," he said. "You do this by deferring or accelerating income and deferring or prepaying expenses to fit your particular income situation."

Take a look at your total sales of both ordinary and capital items to date, then subtract all production expenses incurred to date plus all personal exemptions and allowed expenses plus amount of depreciation taken last year from total income to determine your taxable income picture.

"The amount of taxable income will tell you whether you should sell some more products before year end and hold off on buying next year's supply of seed, fertilizer, feed and other production items, or if you should do just the opposite," Mallett said.

Most farmers are busy with harvesting at the present and their thoughts are along way from income taxes, but decisions made during the remainder of 1970 can affect that final tax bill.

## Level Flying Routes Announced

Wide commitment to Tactical Air Force (TAF) Dyess AFB, intensive low level flying. The highest degree of proficiency maintained and the aircrews must be all modes of aerial as a result, C-130 and C-7A Caribou air-

missions over the "big country" on a daily basis. These low level flights may be scheduled between 8 a.m. and midnight, Monday thru Friday, and less frequently on weekends. Daylight missions are flown at an altitude of 500 feet above the terrain while night low level activities are conducted at least 1,000 feet above any obstacle, man made

or geographic, within three miles of the prescribed track of the aircraft. Airspeeds will vary from 115 to 290 miles per hour. All flights are made along specific routes which are approved by the Tactical Air Command, only after coordination with the Federal Aviation Administration and local airport managers. Minimum disturbance of farms, ranches and communities is the primary consideration in selecting low level routes. Towns, local airports, resorts, hatcheries and stock pens are avoided when planning the routes and will not be overflown by C-130 or C-7A aircraft under any normal circumstances. 516th officials would like to emphasize that, even though training must be

conducted at low altitudes and high airspeeds in order to be realistic all possible precautions are taken to prevent disruption of local agriculture and community activities. The areas affected by these training flights are Abilene, Merkel, Rotan, Aspermont, Hamlin, Stamford, Throckmorton, Haskell, Rule, Winters, Ballinger, Coleman, Talpa, Cisco, Eastland, Comanche, Carbon, Albany, Anson, Nolan, Christoval, Paint Rock, Tuscola, Tye, Sylvester, Roby, Girard, Buffalo Gap, Baird, Lueders, Seymour, Benjamin, Knox City, and Old Glory.

**O'BRIEN WHIPPED LUEDERS-AVOCA**  
In six man action last Thursday night the O'Brien Bulldogs handed rugged Lueders-Avoca their first district loss in two years, posting a 46-29 win. O'Brien received the opening kick-off and marched 53 yards in nine plays scoring as Danny Del Hierro hit Steve Figueroa with a pass. Lueders then received and on the third play went in to take the lead as they kicked their extra point. The first quarter ended Lueders-Avoca 8 to O'Brien 6.  
In the second quarter Lueders continued to gain momentum as they rolled to a 21-6 lead. O'Brien popped back into the ballgame as Ben Walling blocked a Lueders punt which was covered in the end zone by Figueroa. James Washington put O'Brien on the score board again with Rayland Hayes making the extra points good, which kicked the Bulldogs into the lead again. Lueders popped back and led at half time 29-24. The Bulldogs and Raiders battled to a stand off in the third quar-

ter. The Bulldogs with the ball on their own seven yard line, early in the fourth quarter hit the scoreboard again. Del Hierro hit Joe Flores with a pass and end George Adkisson threw a decisive block enabling Flores to ramble for a 74 yard TD.  
O'Brien began to roll as Del Hierro hit Hayes for a TD pass and Alan Holmes scampered in for a 6 pointer also. On both of these scores Hayes made the extra points good to end the scoring at 46-29.  
O'Brien defensive unit held Lueders-Avoca scoreless the second half, holding for four downs within their own three yard line, three times.  
The Bulldogs meet the highly explosive Weimert Bulldogs at O'Brien Thursday, October 29 at 8 p.m. in the second round of district 4B action.  
The whole O'Brien School has been busy over the weekend working on money making projects for their Halloween Carnival October 31. The 8th grade class hauled trash all day Saturday and had a dinner Saturday. The 1st graders and their mothers went around gathering empty popbottles Saturday. The 1st graders are selling chances on a home cooked meal; 2nd graders are selling chances on a hen; 3rd graders are selling chances on a thermal blanket.

David Navratil came home

HERE FOR WEEKEND

Mr. and Mrs. L. E. Groves, who are teaching in Maples this year, spent the weekend here at their home with their son, Bill.

By COACH JIMMY ROGERS

Of course it's real difficult to accept a defeat like last Friday night's ball game. We had been pointing to that game for sometime and it meant a great deal to the players.

We gave up some easy touchdowns on mental mistakes and also on a bad break which actually turned out to be the difference in the game.

We were real pleased with the effort our kids gave and especially after the half by showing that we came to play and not to lay down and play dead. We actually came very close to pulling that one out of the fire. We held Albany to only 3 first downs the 2nd half and moved the ball consistently but it seemed we could never get the big break. We won the battle of statistics but lost on the scoring end.

That game's over and we've got to forget it and think about

the Aspermont Hornets Friday night.

IN CLONTS HOME

## Junior Class News

By JAN LANKFORD

The Juniors have done it again! We got the Spirit Stick again for last week. That's the fourth time this year. Yea, Juniors!

We want to thank everybody who helped us with our bake sale and car wash Saturday, and also everybody who bought a Zip Code Directory.

We finally took our PSAT tests today (Monday). They were scheduled for last Tuesday, but the tests were delayed in the mail, or something, so we had to wait until today. We went to the Methodist Church to take them.

We play Albany this week, there. Good luck, Greyhounds!

## Sophomore Class News

By DEBBIE WALL

Tuesday, the Sophomores went to the Baptist Church and took NEUT tests. We got up there all day and got pretty tired.

District football has gotten off to a good start and basketball begins soon.

## Freshman Class News

By DENISE GRINDSTAFF

After working so hard last Saturday at a Bake Sale, door to door sales, and a Pancake Supper, the Freshman class won the Annual King and Queen contest. Our total amount of money was \$146.00 minus about \$10.00 for expenses. Ginger Crowover and Stanley Newton will have their picture put in the front and back of the annual since they were our representatives.

The Bullies played Haskell last Thursday night. They were defeated by a score of 6-0, but it was a very exciting game.

Monday was a teacher workday, so there was no school, thank heavens!

## Science Dept. News

By JEAN MARTINEZ

This week the students in Advanced Biology took their mid-six weeks test over the material covered in lecture.

Their lab was held Thursday and it was on connective tissue.

The students found several types of connective tissue, their basic function being for sup-

port and protection.

Connective tissue was found to have large amounts of intercellular substance that fills the space between the cells which are scattered.

Slides were made of several types of connective tissue in order to make a close study of each type.

The first slide they made was of cartilage. The cartilage was obtained from the hind limbs of a frog. It was found covering the ends of the long bones.

Cartilage is shiny white and slightly spongy, it serves as a shock absorber.

The cells which compose cartilage tissue were found to be oval and are called chondrocytes.

The next slide was made of connective bone tissue. A very thin cross section of the end of the bone was used. This was also obtained from the hind limb of the frog's leg.

Several structures of the bone tissue that were observed under the microscope were the marrow cavity, compact bone, periosteum, endosteum, haversian canal and osteoblasts.

The last slide of connective tissue that was made, was of tendon.

The function of tendon is that it attaches muscle to skeletal bones, and appears as long fibrous strands.

Tendon was obtained from the hind limb of the frog.

## Greenhand News

By RANDY PACK

We have been very busy this week learning Parliamentary Procedure. We have been learning the opening ceremonies, the procedure of the meeting, and the closing ceremonies. Our leadership contest will be Saturday and we will have to know the different responsibilities of the officers.

We look forward to winning first place in the contest.

## Greyhound News

By MAX SPENCER

(Written for last week)

Last week the Greyhounds defeated Baird Bears 33-8! It was the second week in a row that our team has worked together well. The line was making holes, right and left, the backs were hitting the holes and then gained tough yardage through second effort, and our receivers were making great catches. The defense held Baird to 110 yards rushing and 43 yard passing.

It will take this kind of effort without mistake to beat Albany! Albany is rated second in state but I believe that they are over rated! Our scout reports and films have showed us that they have weaknesses like every other team. No team is unbeatable, especially Albany!

## Houndette News

By CHRIS LARSON

On Saturday, November 7, the Houndettes will go to Plainview to watch our future opponents play against each other.

The team has been really shaping up lately. In fact, Coach Stillabower has increased their running to seven Death Valley! For those who don't know what those are - running to the nearest free shot line and back, to the farthest free shot line and back, and full court and back. WHIEW!!

Let's all go to the Knox City

basketball games and support our teams. Go Houndettes! Beat Weinert!

By the way, the freshmen coming out this year are Denise Grindstaff, Karen Leach, Diane Clouts, Debbie Bishop, Janna Hise, and Ola Marie Watson.

## Pep Club News

By ALICE MARTINEZ

Congratulations to the Freshmen for winning the spirit! The spirit was good last week so keep it up.

Those boys receiving stars were Max Spencer and Bobby Lewis, best offensive blockers; Max Spencer, best defensive blocker; and Phillip Newton, best running back.

## FTA News

By DORIS HOWELL

The Knox City FTA chapter met Tuesday night in the high school library. The speeches for Mr. and Miss FTA were given. The candidates are Dean Bouldin as Mr. FTA, Carol King as Miss FTA, and Emory Jones as Miss FTA alternate. We would like to extend our congratulations to these people for all of their hard work. These speeches will be given in competition on November 7th at the District 9 Convention in Wichita Falls. Approximately twenty FTA members will be going.

Dean Bouldin is running for District officer. We wish him the best of luck.

## Eighth Grade News

By STACY ANGLE

The Knox City Greypups proved that they could go all the way last Thursday night at Archer City when they came from behind to beat Archer City 22-13. If we can beat the Monday Warriors tonight (Thursday), we will be tied for zone winners. Good luck, Pups, we're behind you all the way!

See all of you at Monday tonight. The 7th grade game is at 5:30 and the 8th grade game follows immediately.

## Seventh Grade News

By MANDY LANKFORD

Last Thursday night the Greypups went to Archer City. The seventh grade won 30-0. They will play Monday there at 5:30 today, Thursday.

We are pleased with a holiday Monday because of teachers meetings at Rule.

## FHA News

By CAROL KING

## F.H.A. Girl Of The Month

DEBBIE WALL  
October

KAREN HELMS  
September

The Knox City FHA Chapter met Monday, October 19, in the school library.

The president, Alice Martinez, announced the names of our new Chapter mothers. The new Chapter mothers are Mrs. Tommy Kent, Mrs. Bruce Campbell, and Mrs. B. J. Foster.

The program, presented by Carol King, was a patriotic program. The FHA members that participated in the presentation of this program were Jan Lankford, Terri Whitten, Mary Jo Campbell, Jody McKinney, and Debbie Wall.

"Girls of the Month" are

Karen Helms for September, and Debbie Wall for October.

Karen Helms is the daughter of Mr. and Mrs. John E. Helms. Karen is a Junior this year and is an active participant in FHA. Karen also belongs to band, choir, and FTA, and enjoys playing basketball.

This is the third time that Karen has been presented with this award.

Debbie Wall is the daughter of Mr. and Mrs. George Wall. Debbie is an active member of FHA and attends meetings regularly. Miss Wall is also a member of FTA, band, choir, and plays basketball. Debbie is a sophomore this year.

## Lunchroom Menu

November 9 - 13

Monday: Orange Juice - Buttered Toast - Peanut Butter Whip - Milk

Tuesday: Grape Juice - Sliced Bacon - Buttered Toast/Jelly - Milk

Wednesday: Banana - Choice of Ready-to-Eat Cereal - Buttered Toast - Milk

Thursday: One-half Orange - Scrambled Eggs - Buttered Toast/Jelly - Milk

Friday: Orange Juice - Breakfast Roll - Milk

November 9 - 13

Monday: Beef Stew - Cheese Slice - Lettuce Wedges/Dressing - Crackers - Cinnamon Rolls - Milk

Tuesday: Enchiladas - Green Lima Beans - Cole Slaw - Corn Break/Butter - Apple Delight - Milk

Wednesday: Hamburgers - French Fries - Chilled Peaches - Ice Box Cookies - Milk

Thursday: Spaghetti/Meat Balls - Yellow Wax Beans - Tossed Salad - Corn Bread/Butter - Chocolate Pudding - Milk

Friday: Turkey/Dressing - English Peas - Cranberry Sauce - Tomato Wedges - Hot Rolls/Butter - Honey.

## KCHS Scrimmage Called Off

The scrimmage scheduled here last Monday afternoon at 5 o'clock between the Knox City Houndettes and the Weinert High School girls' team was called off due to technicalities involving interscholastic League rules, school officials said.

Weinert's girls had already played an official game and could not, under the rules, scrimmage. Knox City's eligibility list had not been sent in and therefore the Houndettes could not play in an official game.

With the eligibility list taken care of this week, Coach T. R. Stillabower reported that the Houndettes could and would be at Weinert next Tuesday, November 10, at 6:00 p.m. for a regular game, instead of the previously scheduled scrimmage.

FROM ABILENE  
Mr. and Mrs. Luke Pioneer and children, Mike and Denise, of Abilene have been recent visitors here in the home of her mother, Mrs. Jessie Teague.

FROM WICHITA FALLS  
Visiting her parents, Mr. and Mrs. Don Rallsback, Brent and Bruce over the weekend was Donna Rallsback, student at Midwestern University in Wichita Falls.

## Accent on Health

J. E. PEAVY, M.D.,  
Commissioner of Health

Travelers know the troubles that can occur from bad food or water while away from home, and in Texas special efforts are made to protect travelers on interstate carriers.

The Texas State Department of Health, through its Interstate Carriers Certification Program, makes regular checks of the water supplies used on trains, buses, airplanes and ships and boats. The result is safe water for the traveler.

In addition, motorists who travel in and through Texas can be assured of safe water because of another phase of the certification program which deals with water systems in the small towns and large cities throughout the state.

To have acceptable water, each carrier must first have an approved water supply from which to draw on. In most cases the water comes directly from a city source, but in some cases the water is supplied from a source different from a municipality. Houston Intercontinental Airport, for instance, has a separate water supply.

Floyd Williams, with the Water Supply Division of TSDH, maintains the records of the interstate carriers program. He said the carriers have a vital interest in having acceptable water facilities. But he admits that problems sometimes do arise. All reports made by the State Health Department are forwarded to the US Public Health Service, which makes a list of all acceptable watering points for bus, train, ship or airlines. If corrections are necessary in some phase of a carrier's watering point, a "provisional" rating is given and a certain length of time given to bring it up to the "use approved" status. In case of glaring deficiencies needing immediate correction to insure safe water for travelers, a "use prohibited" rating is given.

In Texas in 1969 the program covered 71 water supplies, 54 vessel (ship) watering points, 24 railroad watering points and 34 airport watering points. Inspection of bus watering points began only this year and 19 bus servicing areas have been inspected to date. Until just recently few buses had restrooms, therefore they hadn't come under the regulations.

Williams emphasized that the Interstate Carrier Certification Program was concerned only with the water supply and the facilities used in putting the water on the carriers and removing wastes from them. Sanitary conditions aboard the carriers are closely controlled by other agencies, and this combination gives the traveler the assurance that food and drink aboard interstate carriers are safe.

THE 1970-71 PEP CLUB officers are, president; Cindy Foster, vice-president; and Alice Martinez, secretary-treasurer; and Alice Martinez, who is Pep Club sponsor.

Tommy Guy Waldrip of Abilene Christian College in Abilene was home over the weekend to visit his parents, Mr. and Mrs. Tommy Waldrip.
