Baird Ball Teams Have Winning Season

BAIRD- The Summer baseball season is gradually coming to an end, but it's been a successful summer.

The Senior Teenage League entry, coached by Darrell Wright and Don Wilson, won their league and now head for Haskell next week and the district tourney. That winner qualifies for the state meet later this month.

The Red Sox, the Junior League team, won second place in its league by thumping the Clyde Braves, 7-5. Albany won the team championship.

The Yankees represented the Baird Little League in the District 28 team championship tourney at Weatherford last week, but lost both games.

Errors hurt the Yankees in the 8-0 loss to Breckenridge and 20-8 in the consolation finals to Cisco. The Yankees, coached by Roger Corn and Tommy Higgins, drew a second round bye.

The Baird All-Stars, coached by Mike Devenport and Darryl Gern, are now

working out for their first playoff game against Cisco, to be played Thursday, July 19, at Cisco at 8 p.m. The winner of that game advances to the tourney at Albany the next week. The All-Stars suffered a big loss recently when Mark Harris, one of the top players in the league, broke his foot.

The Yankees won the team championship by dethroning the Giants, 5-4, in the final game of the season. Both teams had gone into the contest with a loss to each other. The Braves finished third and the Tigers fourth.

This Saturday, the Junior and Senior Teenage teams will sponsor a soft drink bottle drive to help pay the expenses for the seniors at Haskell. People are asked to leave their bottles on the front porch for the players in case they are planning on being out of town that day.

All the leagues thank the people of Baird for supporting the program this summer.

This helped them win the Pioneering Award. A troop had to score 750 points to earn this award and Baird scored 998 out of a possible 1,000 points. This was one of the highest scores recorded during the four-week camp.

The five boys also earned 17 merit badges, two skill awards and two merit badges. In addition, Welch and McCormick earned lifeguard awards.

McCormick also won the diving contest in the swim carnival held Thursday and McCormick, Welch Branton and Bannowsky won the ping pong ball and spoon relay.

Parents of the boys came to camp Friday night for the closing program and

had a covered dish supper with the boys. At that time, Branton was recognized as the "top veteran scout" and Dyer the "top first year scout" for their work during the week. Both earned four merit badges and a partial.

During the Indian Dance ceremony staged by the Order of the Arrow Kotso Lodge, McCormick, Welch and Hart were tapped out as potential members of the Lodge. They will attend an initiation July 20-21, to become official members.

Charles Hart of Baird served as staff counselor during the four-week camp and Mark Allen was counselor-in-training.

The Baird troop will resume weekly meetings next Monday at 7:30 in the old jail. Any boy 11 years of age and under 18 who would like to join the scouts is invited to attend the meeting and join the organization. Presently, there are 16 scouts. Jack Swan is scoutmaster and is assisted by Charles Branton.

Any adult wishing to work with the scouts is also asked to attend.

The troop is hoping to go to a camporee at Santa Anna the last week of July and a court of honor is planned in August where awards from Camp Tonkawa will be presented. Officials from the Chisolm Trail Council in Abilene will be here that night to discuss scouting.

IS THE CHURCH PART OF YOUR LIFE?

KEEP NO FALSEHOOD BETWEEN YOU AND GOD

The controversial actress, Ingrid Bergman, in analyzing herself, said, "My two greatest assets are: I am honest and I have a short memory."

These two attributes had best go hand in hand through this cruel world. Be honest—really honest—and you'll be crucified. Jesus addressed himself to this very matter when He said, "Ye seek to kill me, a man who hath told you the truth."

Truth cuts across the grain of human nature. It defies passions and practices of the average man. Where truth condemns, error flatters.

Aristotle wrote, "Vultures are killed by attar of roses. Tigers are inflamed by sweet smells." So, when truth, Divine Truth, is presented to the world, passions are inflamed and hatred flows.

If your church or your pastor is not unpopular with the evil forces in your community, truth has been laid to rest behind the pulpit and in the pew. Billy Sunday put it in his own unique way, "If I rub the cat the wrong way, let the cat turn around." So deal with yourself and God that there is no falsehood between you. Be honest, even if you have to have a short memory.

Paul M. Stevens

Given in marriage by her father, the bride wore a formal gown of white chiffonette, accented with Alencon lace, designed by Priscilla of Boston. The moulded bodice featured a Queen Anne neckline defined in Alencon lace. The bodice was embellished in lace and featured tiny self

covered buttons down the back. The empire waistline fell into a natural line in back and the circular skirt fell to floor length and cascaded into a chapel length train. The bride chose a silk illusion veil caught to a camelot capulet crown. The veil was embellished at the crown with re-embroidered chantilly lace and edged in scalloped, re-embroidered chantilly lace.

Bridesmaids wore full length gowns of chiffon in pastel shades of yellow, pink, and blue.

The reception was hosted by the bride's parents in the Fellowship Hall of the church. Members of the houseparty were Melanie Helmer, Le Ann LaFon, and Kathy Gupton of Kermit; Mrs. H.A. Freeman of Cross Plains and Mrs. Cliff Holden of Clyde.

The couple will live in Kermit where he is employed by Teledyne Exploration.

The bride is a 1979 graduate of Kermit High School. The bridegroom is a 1976 graduate of Baird High School and he graduated from DeVry Institute of Technology in 1978.

The groom's parents hosted the rehearsal dinner at the El Rancho Steak House in Kermit.

Animal Bites, Rab'ies, The Beginning of Serious Problems In County

Raul N. Calvo Jr., M.D.
County Health Officer

COUNTY- It seems lately that we have a preponderance of bites inflicted by domestic animal pets and this cannot be regarded at this point as accidental injuries, and precursors of infectious processes. But it is being considered now as a whole disease entity and public health problem to our County.

Most people don't realize that there is another complication of animal bite which is the psychological trauma suffered by victims and their families.

In our County there were 2 episodes of Rabies bites which wherein one dog was confirmed by a test done at Austin, and the other had signs and symptoms manifesting rabies infection, although no appropriate test could be done on account of tissue lack.

The rool of skunks in the transmission of Rabies to unimmunized domestic and wild animals has been related to the following: 1. High level and long period of rabies viral secretion in the saliva, 2. A long incubation period in some cases 3. The carnivorous nature of skunks, 4. A general distribution of skunks through out Texas, 5. A natural tendency for dogs to come in contact with skunks.

I am going to outline

the most important part of the aspect of the prevention of rabies in humans. It is worthy to follow these specific guidelines established by the Texas Department of Health. 1. Emphasis is needed to increase public awareness of the potential threat of Rabies infection and of the ways to avoid possible Exposure. The avoidance of contact with animals exhibiting unusual behavior, is especially important. 2. Pet dogs and cats should be given Rabies vaccinations, although most of the rabies infections occur in wild life, human rabies exposures most often result from domestic animals, of these dogs account for most human exposures. 3. Stray and unwanted dogs and cats should be controlled. 4. Animals which bite or otherwise possible expose a person should be properly marked. (a) Healthy owned dogs and cats which have possibly exposed a person to rabies infection should be confined and observed under the supervision of a Veterenarian for 10 days, if signs suggestive of rabies develop, the animal must be humanely killed and the head submitted for Laboratory examination. (b) The Stray or unwanted dogs or cats that may have exposed a person should be killed immediately, and the head submitted for examination.

(c) Wild animals that may have exposed a person should be killed immediately, without damage to the head, and the head submitted for examination.

At the time of the bite it is imperative then that the person bitten must be brought to Medical attention. Your family doctor will be able to give you guidelines to follow which will help you prevent secondary infection or prevent rabies infection by itself. Your family physician will be able to assess whether you will have prophylactic treatment which is a preventative way of treating secondary infections.

It is very important not to let the biting or attacking animal get away. That animal has the only key with which to correctly answer the question, should anti-rabies treatment be given?

With these facts presented by me, I wish the cooperation of all physicians, veterinarians, animal control workers, and especially the Local Government Officials are needed for a successful outcome of these programs. We have a lot of stray dogs and we don't have any ordinances to protect people from the spread of the disease. If we can follow these guidelines we will be able to prevent secondary infections and it would be the best for our Com-

munity and the whole County.
