Some Workers Now Permanently Insured

"October 1946 was the first month in which some workers under the old age and survivors insurance program became permanently insured," Gordon James manager of the local ocial Security Administration field office, said today.

The program of old age and urvivors insurance went into effect on January 1, 1947. The 40th quarter, required by the Social Security Act for permanently insured status, was reached in October. Therefore, workers who have earned as much as \$50 of creditable wages in every calendar quarter since January 1, 1937, and who have now earned \$50 since October 1, 1946, have passed that milestone

and are permanently insured. With the passing of each calendar quarter from now on, other workers will be gaining that permanently insured status under the old age and survivors insurance provisions of the Social Security Act, as they too getthat fortieth quarter of cover-

"But remember," said James, "If you should quit work before reaching age 65, or if your wages should be reduced, the amount of your eventual bene-fits would be decreased accordingly. It is the average of your monthly earnings, figured since January 1, 1937, or since reaching age 21 (whichever is later) and to the time of reaching age 65, that determines your bene

Texas Tech Approved By American University Ass'n.

LUBBOCK (Spl.) - Texas HEADS SOCIETY Technological College has been approved for inclusion on the accepted list of the Association of American Universities, according to word just received by Pres. W. M. Whyburn of Tech from Frank H. Bowles, secretary of the association committee on classification of universities and colleges.

Graduates from Texas Tech, the youngest major educational institution in the state, may now enter graduate schools of any leading university in the nation without penalty, Pres. Whyburn said. He also pointed out that many organizations carrying national recongnition make membership in the AAU a prerequisite to forming chapters on a college campus.

Dr. Whyburn stated: "Approval by the Association of American Universities represents the result of twenty years of careful thought and closely coordinated effort on the part of all members of the college organization. It constitutes a recognition of our college, particularly with reference to activities in the field of scholarship, which is of the highest significance.

"The careful examination into all phases of the organization, instruction and operation of the institution which precedes action on an application for approval, makes favorable action a strong endorsement and a great asset of the institution. With this momentous achievement of Texas Technological College, our future as one of the great American higher education institutions is recogniz-ed. In it is inspiration for stu-dents, faculty and administrat-ive officers to redouble their efforts with the full knowledge that the value of these is known throughout the country."

A horse, a carriage, and a furlough, in a beautiful spot in southern France, prompt the happy smiles on the faces of these two Guardians of Peace who are taking advantage of the opportunities to see the sights of the world offered to men who choose to serve in the Regular Army. Travel, education, and a career are just a few of the advantages offered young men between 18 and 34 years of age, inclusive.

Specifications Received For **New City Well**

Plans and specifications were received by the City this week from Joe E. Ward of Wichita Falls, consulting engineer, for the proposed new water well to be constructed on city property near the present water

According to the plans, the well would have a depth of 42 city water tower, which will hold 50,000 gallons.

The City Commission will meet this week to approve the plans and expect to advertise and for bids next week. The contract ding. will probably be let within the next 30 days, and it is hoped couple will be at home in Rochto have the well completed within 100 working days after letting the contract, which will give the city an ample supply of water by the critical summer

Green Bugs Reported In Grain By Agent

Several farmers of Knox county have reported the presence of ereen bugs in their grain this week, according to County Agent J. M. Carpenter. Green bugs, as they are commonly known, are tiny plant lice, brown to slightly green in color, which feed on the grain and cause yellowing or dying of the plant. Unlike most insects, these bugs suck the juice from the plants instead of eating the leavesand therefore cannot be poisoned by men's Missionary Union were arsenicals. The only practical control at present is to keep the grain fields from getting too high and fields from getting too high and the plants too bunchy, by graz-ing, according to Mr. Carpenter. This keeps the lice from having a good place to winter. Experi-ments are now being conducted with DDT and it is hoped this chemical will be successful and available for spring control.

WASHINGTON. - President Tr. he should persuade his army to obey

the policy of its commander-in-chief.
At present the army is building a special wing to Walter Reed hospital at 12th and Dahlia streets in Washington which will exactly duplicate the navy's.

This wing is to take care of the President of the United States.

Simultaneously, the navy also has tal reserved for the President. It is all set to take care of him at any time. However, medical officers have changed in the White House and a navy doctor isn't in command any more. The army now runs the

navy, appointed Adm. Ross McIntire White House physician. But Truman, who served in the army, selected Brig. Gen. Wallace Graliam as White House physician.

And of course an army doctor does not like to practice in a naval hospital. Therefore the army medical corps, wanting to avoid the humility of sending the President to a naval hospital, authorized a new wing to the Walter Reed Army hospital. Thus, at the expense of thousands of feet of scarce lumber, tons of of feet of scarce lumber, tons or strategic metal and several thousand bricks, the special wing for the President is being built.

President is being built.

Mighty Eric Becomes A Hero

There was a devil of tender mock ery in the seigneur's brown eyes. He let the girl go, and stood looking

down upon her.
"And so you love this American?" "I-I sent him away. I am your wife, and I knew that you were not dead."

"You love him!"

Madeleine was silent, only looked up piteously into Eric's face, "Well-you love him?" "Ah, Eric, forgive me! Five years

That is natural, my little right. one," he answered tenderly.

Voices were shouting from the steps above them, leading down from the natural bridge. A man came into view. Nearly all the hair was singed from his head, and what had been his clothes was now mass of blackened tinder, in which the bright points of sparks glowed and vanished and appeared again. It was Nat Page, and behind him came a dozen ragged figures.

"Is Darrell here? Mark Darrell, is he here?" Nat shouted huskily.
"He is not here," cried Madeleine.

"Isn't he at St. Victor?"
"No! He must have been trapped in the fire. The flames were too strong for us. We may be able to reach him across the bridge. There's a strip that hasn't caught

Only Nat knew that Kinross was blind, knew what was in the spind of the fearfully injured man as he ran toward him. But Nat was too late. With a sigh, Kinross slipped from the bridge into the boiling, surging, eddying current below, to disappear instantly in that white vortex.

Had Kinross plunged deliberately to his doom, or had he been overcome by weakness, and fallen? That was one of the things that must remain unknown until the Judgment Day,

And then there was Madeleine. She was still tending Mark, and he could see that she was moving about the cottage in a dream-like stage, as if all the past was quite unreal to her.

Some day, Mark vowed, he would bring reality into their relationship. For the present he was content to the back and rest.

Lesson for December 8

PAUL ADMONISHES THE CHURCHES

LESSON TEXT-I Corinthians 11:20-27 tomans 13:13, 14; Ephesians 5:18-21. MEMORY SELECTION—Let us walk onestly, as in the day.—Romans 13:13.

Temperance is readily taught from the epistles of Paul for he was constantly moved by the Holy Spirit to exhort the churches and individ ual Christians to a careful and worthy walk before God.

In doing so he was not afraid to speak plainly about the use of intoxicants. Perhaps his brethren in the ministry today should consider him and take courage.

Our lesson is a temperance lesson. and since some twist that word "temperance" to fit almost any kind indulgence, we should like to uote a careful evaluation of it by Dr. W. R. White:

"Temperance is a seriously misunderstood word. The best definition we know defines it as abstaining from that which is harmful, using moderately that which is legitimate. We would not advise a man to be moderate in teasing a rattle-We would not tell him that it is all right to steal, lie or commit adultery just so he is temperate abut it. We would not tell a man to use dope moderately. . . . We could tell a man to be moderate about eating meat or any other wholesome thing."

The only way to be temperate about liquor is to let it alone! I. The Wrong Way and the Right

Way-in the Church (I Cor. 11:20-

There were a number of disorder things about the Corinthian church which needed correction. One of these concerned the Lord's Sup per. A time which should have given them a blessed unity in fellowship and love had become just the

opposite. It was their custom to eat a secalled love feast before the sacrament, and instead of making it a time of loving and sharing, the rich ate their sumptuous meals and le a poor brother gnaw on a crust of

Then feasting led, as it so often does, to excesses. Some became drunken on the wise and even par-took of the Lord's Supper while intoxicated.

We are not so much concerned with the Lord's Supper in this les son as we are with the behavior of those who attended. Think of coming to the holy table drunk! seems impossible, and yet it hap-

What is the explanation? But Nat didn't think the time was propitious to say very much just then, except to inform Mark about Broussac and Old, Andre. It was Mark who asked who it was had burst into the hundred that and open about what they do? No, it is rather that moral standards burst into the hut and torn away his have slipped to the point where they burst into the hut and torn away his ropes as if they had been mere strings. Then Nat had to tell him about Kinross. After that there was a long silence.

"I guess this rain's put out the fire," said Nat. "We must have lost a lot of timber, but there will be plenty of time to cut fresh dragways further back, before we start lumbering operations in the fall."

Mark nodded. He was still trying to take it all in. He had never quite believed that Eric Kinross was alive, and his return, to save his likewise?

Way-in the Heart (Eph. 5:18-21). This is a personal matter. The man or woman who finds satisfac tion in wine wants the overcoming power of the narcolle influence to take away the sense of responsibility for life. It is a weak and hopeless way to avoid facing reality.

The right way is to let the Holy Spirit take full control of the heart

and life. This is to be an experience of complete surrender, being "filled with the Spirit."

with the Spirit."

Does life then become drab and uninteresting? No. indeed! For the first time you will be really joyful. That inevitably leads to thankfulness, a grace too little known and practiced. It is for all things at all times. Do not overlook that fact. Then too there will be a delightful attitude of consideration and respect for one another (v. 21) and

1. No, it was conceived 2.400 years ago in Greece by Democritus, who was known as the "Laughing Philosopher."

Hord To Bect

So Easy. No Cooking. Saves Dollars. No matter what you've been using for coughs due to colds, you'll be the frist to admit that this surprising relief, mixed in your own kitchen, is hard to beat, for real results. Make a syrup by stirring 2 cups of granulated sugar and 1 cup of water a few moments, until dissolved. No cooking is needed—a child could do it. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Then put 2½ ounces of Pinex (obtained from any drugrist) into a pint bottle, and fill up with your syrup. This gives you a full pint of really splendid cough relief—about four times as much for your money. Tastes fine—children love it. It never spoils. You can feel this home mixture taking right hold of a cough. It loosens the phlegm, soothes the fri-tated membranes, and helps clear the tated membranes.
