

### In Revival

W. P. Dennis

Revival services at the Knox City Church of Christ will start tomorrow, Friday, July 19, with W. P. Dennis, minister of Tipton, Okla., in charge of the nine-day meeting.

### DDT and Sulphur More Deadly To Cotton Insects

A DDT-sulphur mixture is more effective against adult cotton flea hoppers and for the control of heavy infestations than sulphur alone, says R. O. Dunkle, county agent. This was indicated in results of recent experiments at the Texas Agricultural Experiment Station.

DDT has proven toxic to adult hoppers as well as immature forms. Tests have shown that a mixture of five percent DDT mixed with either sulphur or an insect diluent, also was effective in reducing the population of beneficial insects, thus causing aphids to become damaging.

For economical control of the hopper, it is essential to examine cotton to ascertain the numbers of insects present. Applications of from 12 to 15 lbs of sulphur per acre are sufficient to control light or medium infestations, while a five percent DDT mixture is recommended for heavy infestations.

The first applications of sulphur should be applied when from 15 to 25 hoppers are found on 100 cotton terminals. If the infestation rapidly increases due to the adults' migrating in, or if it reaches high numbers before being discovered, the DDT sulphur mixture should be used to stop the damage as quickly as possible.

Farm folks everywhere are familiar with fertilizers and insecticides. Now there's another new family of chemicals which will become just as necessary and just as familiar on the average farm or ranch. These are the hormone chemicals—the "growth regulators."

Art and Tone Jungman, A. H. Jungman of Lamesa, Cleo Pearce of O'Donnell, Joe Pearce of Munday caught 50 pounds of fish at Possum Kingdom lake on a two day outing last week.

George Wall, student at Texas Tech, is here visiting his parents, Mr. and Mrs. H. E. Wall.

Mrs. Henry L. White and Henry L. of Fort Worth are here visiting her sister, Mrs. B. B. Benton and family.

Anna Lee King will leave Sunday for San Diego Calif., on a two-weeks vacation.

### City Again Faces Water Shortage

"You never miss the water until the well runs dry," is getting to be the theme song of the Knox City council, whose otherwise restful nights are being haunted by the possibility of an acute water shortage in the city.

Mayor Roy Baker issued an appeal, printed below, to all residents, asking for conservation of water until the dry spell is broken by a good rain. Mayor Baker's appeal reads:

Some time ago we called your attention to the fact that the City faced an acute water shortage and we asked your cooperation in conserving our water supply. With the present heat wave, the situation is now critical and we are unable to pump water as fast as it is being used.

We are pumping the city well at full capacity until well past midnight each day and cannot keep enough water in the tower to provide adequate fire protection. We urgently request that you use your water very sparingly and in the event a fire breaks out, please close all water faucets immediately so that we can build up a reserve as quickly as possible.

Your City Commission regrets that it is forced to ask you not to use water. We had much rather tell you to use all that you like and we sincerely hope that we will be able to say just that before another year has rolled around. In the meantime, we will appreciate your cooperation and understanding.

Respectfully submitted, Roy A. Baker, Mayor

### Dunlap-Humphries Marriage Told Here Sunday

Rites of matrimony were solemnized for Barney Humphries and Mrs. Hazel Dunlap last Sunday morning at nine o'clock at the altar of the Methodist church. Rev. Vernon N. Henderson, pastor of the church, was the officiating minister. The couple was attended by Mr. and Mrs. Paul Fitzgerald.

Mrs. Humphries is the daughter of Mr. and Mrs. J. W. Hewitt of O'Brien and has been employed by J. M. Edward's grocery the past four years.

Barney, son of Mr. and Mrs. J. M. Humphries, spent over five years in the Army, about two years of which was overseas. He received his discharge October 5, 1945 and is now associated with J. C. Woodruff Co. at Benjamin and Knox City.

Mrs. H. M. Jones, Henry Jean and Martha Jane, are vacationing in Ruidoso.

### Discharged

Tom Paul Frizzell III

Discharged July 6 at Fort Sam Houston, Tom Paul Frizzell III, has been spending a few days in New Mexico with his parents, Dr. and Mrs. T. P. Frizzell, Jr., who were vacationing there.

Tom Paul plans to enter Texas Tech this fall.

### John F. Nall, 85, Benjamin Resident, Dies Here Tuesday

Funeral services for John Thomas Nall, 85, were held at the Benjamin Methodist Church Wednesday at 5 p. m. Mr. Nall, residing eight miles west of Benjamin, passed away at the Knox County Hospital, Tuesday, July 16, following a long illness.

Mr. Nall was born in Collin County, Texas, April 7, 1861. He was married to Miss Ophelia Rick, March 27, 1884, at McKinney, Texas. To them were born ten children, four preceding him in death. Mrs. Nall passed away January 27, 1937, at Paducah.

Rev. H. H. Hastings of Paducah, conducted the last rites. Burial was made in the Benjamin cemetery under the direction of E. Q. Warren.

Mr. Nall united with the Free Will Baptist Church in 1931.

Immediate survivors are four daughters, Mrs. Emy Zachary of Blue Ridge, Texas, Mrs. Frances Ross of Dallas, Mrs. Elsie Anderson of Terrill, and Mrs. Mallie Jackson of McKinney; two sons, Rufus Nall of Benjamin, and Archie Nall of Princeton, Texas; one brother, C. E. Nall of Memphis, Texas; one sister, Mrs. Liney Harrison, Memphis, Texas; forty-four grandchildren and several great grandchildren.

### IN APPRECIATION

This is to tell the Doctors, nurses and patients at the Knox County Hospital that we thank them and appreciate the kindness shown Mrs. Barrington and Eddie. Thanks.

Mr. and Mrs. E. W. Barrington and family

### County Agent To Get Assistant Under Vet Work

County Agent, R. O. Dunkle, has just received notice from the Extension Service and from the veterans administration that R. J. Penick will be placed in Knox County as assistant county agent in training, effective July 22nd.

This training program carries along with it a definite training routine in county agricultural agent work.

Mr. Penick's training period will extend over a period of approximately eight months, including the time that he has spent in a refresher course at A. and M. College. Mr. Penick is a graduate of A. & M. College and has his B. S. degree in agriculture, and has a background in farm experience needed to qualify for county agent work. Mr. Penick is also a veteran of World War II, with approximately three years of overseas duty.

Mr. Penick's activities while in Knox County will be that of assisting in 4-H club work and its many activities as well as some of the experimental work that is being carried on in livestock and crop production.

### Jimmy Craft Gets Navy Discharge

Jimmy Craft, son of Mrs. L. F. Glenn received his discharge Monday, July 8th, at Camp Wallace.

Jimmy entered service in June, 1945 and went through "Boots" in San Diego. After completing machinist's school, he went aboard ship and made three trips on APA transports. Jimmy plans to enter Texas Tech this fall.

### LIONS CLUB TEAM TO PLAY THROCKMORTON HERE TOMORROW NIGHT

Softball fans will be glad to hear that the KC Lions will entertain Throckmorton here tomorrow night in the first game in several days for the local club.

Manager Cyle Carver says his boys are in fine shape for the game, and plan to add the Throckmorton tribe to their string of scalps.

### Paul Russell Using Superphosphate To Increase Yields

Paul Russell, cooperator in the West Rochester Conservation group, had a good increase in yield of Austrian Winter peas and Hairy Vetch by the application of approximately 200 lbs. of 20% superphosphate to the acre.

Mr. Russell said that the phosphated peas and vetch made nearly twice the growth over that which did not receive the phosphate. He also noticed that on a check on rye, that phosphate did not increase the growth or production of the rye.

Mr. Russell believes that it is best to apply the phosphate to a legume crop, such as peas, vetch, and clovers, and let the legume make the nitrogen in order to have a cheap fertilizer that will then increase production.

The application of phosphate was made on sandy land and the peas and vetch were planted for a cover crop.

Mr. Russell plans to increase the acreage of peas and vetch and apply phosphate on as much as it is possible.

Mrs. E. F. Branton and her sister, Mrs. C. A. Vaughn, spent last week visiting in Albuquerque, Santa Fe and Ruidoso.

Lora Jean Propps spent the past weekend here with her parents, Mr. and Mrs. A. E. Propps. Lora Jean is employed at Fort Sam Houston, in San Antonio.

Ken Frizzell passed his entrance exams for Princeton University and will enter this fall. He graduated from the Lawrenceville School for Boys at Lawrenceville, New Jersey.

### Evangelist

Byron Bryant

Rev. Byron Bryant of San Antonio will be visiting evangelist at the First Baptist Church revival services starting July 25, and extending through August 4.

Pastor John Stout announces that two services will be held daily, at 10 p. m. and at 8 p. m.

Special song services have been arranged for the meeting.

### July Month For School Transfers

County Superintendent Merick McGaughey said early this week that July was the month for making school transfers. All students who intend to attend schools other than their home districts must make application for transfer before the end of the month.

"Patrons of the county schools are reminded that transfers must be in by the end of the month in order to get credit to the proper district where the pupil will attend," Mr. McGaughey said. "Students are liable for tuition unless proper transfer is made and recorded. Districts in which the pupil is planning to attend school, will not get the per capita credit it is due," he added.

Mr. McGaughey said those interested in transferring could call on school superintendents, or see him at any time.

### Simple Rules Best Aid For Sunstroke

Prevention of heat exhaustion and sunstroke for farm workers is more important than ever before with the critical need for food supplies. The National Safety Council states that the application of simple safety practices may bring a reduction of workers lost as it has done in industry during recent years.

According to the council, heat exhaustion and sunstroke are two entirely different things, although both may seem to result one from the other. With heat exhaustion the patient's skin is cold and clammy—while with sunstroke, the skin is hot and dry.

A simple rule may serve as a guide and avoid confusion regarding the treatment. Briefly it is this: If the patient is cold make him warm; if he is hot, make him cool.

The following measures will help prevent heat exhaustion among farm workers: Drink cool water and lemon or other citrus fruit juices, avoiding alcohol and ice water. Eat vegetables and light, easily digested foods. Wear light, loose clothing; avoid over fatigue; bathe daily; get plenty of sleep. Replace body salt lost through perspiration by salting food, drinking salt in water, or by taking salt tablets—about eight 10-grain tablets daily.

Sunstroke results from prolonged exposure to the rays of the sun. Consequently, it is advisable to keep the head covered with a broad brimmed hat and the body, including arms and legs covered with light loose-fitting, comfortable clothing.

In sunstroke cases move the patient to a cool, shady spot, remove the clothing and then place him on his back with head and shoulders raised. Apply ice cold cloths to his head and cool the body gradually with a cool bath. Call a doctor as soon as possible and administer cool drinks (not cold) if the patient is conscious.

### Politicians In Home Stretch Of Campaign

Knox County politics, blowing hot and cold during the past weeks, shows signs of stalling a seventh inning rally and making some of the contests worthwhile.

Little comment has been expressed on state politics, which will have to go through the refining process of the primary before the water gets hot.

Holding a political finger to the wind, apparently the race for County Judge has brought the greatest speculation. The incumbent, Carl Patterson, and Wm. Griffith, former county commissioner, are given even chances by the most conservative guesser. Only these two are in the race.

Knox City's own Joe Reeder, Jr., is pitted with Tommy Glover of Seymour in the contest for District Attorney of the 50th Judicial District. Both candidates have been making an intensive campaign for the office.

A write-in campaign for the office of County Attorney has been launched by friends of T. W. Templeton of Benjamin, whose name does not appear on the county ballot. James A. Stephens is the sole candidate on the ballot.

For District Clerk of Knox County, are N. S. Kilgore, serving out part of an appointed term, and Mrs. Opal Harrison of Benjamin.

In the Sheriff's race, L. C. Floyd, the incumbent, has two opponents, H. T. Melton of Benjamin, and E. J. Cude of Munday.

Knox City's home precinct has four candidates for the office of County Commissioner. They are O. L. Knight, T. A. Stogner, Barney Arnold, and John A. Smith.

### 4-H Club Camp Is Postponed

Because of the recent polio scare in Baylor County, advisors have decided not to hold the annual 4-H Club encampment at Seymour, scheduled for next week.

Club members have been advised of the postponement, and assured that the camp will be held as soon as cooler weather and conditions permit.

Mrs. L. J. Tidwell arrived home Tuesday from Merryville, Louisiana, where she has been for the past four weeks with her daughter, Mrs. Fred Griffith, who is recuperating from a serious operation.

Mr. and Mrs. Otto Lawson and Mrs. Hugh Webb attended the boat races at Lytle Lake in Abilene last Sunday.

Rev. and Mrs. Vernon N. Henderson, Vernola and Gene, Barbara Jane Almonrode and Mary Bea Woodward, returned last Friday after spending a week at the Methodist Camp Ground at Ceta Canyon in attendance at a Christian Life Camp.

Rev. and Mrs. V. N. Henderson and children and a group of intermediate boys and girls of the Methodist Church are in attendance this week at the Stamford District Intermediate Camp being held at the Methodist Camp Ground at Ceta Canyon.

Mr. and Mrs. Eugene Collier and Cynthia Ann of Lubbock spent Sunday with her parents, Mr. and Mrs. H. E. Wall.

and Mrs. A. M. Arm- Carol Ann and LaQuita left Sunday for a visit Red River, New Mex.

# Farm Prices Depend On Fate of Parity Program

Almost everybody feels that the parity formula needs overhauling. The difficulty in getting the job done lies in the fact that farm organizations, the U.S.D.A., and the Senate and House, each has a different idea as to desirable characteristics of a new formula.

Most differences of opinion center on the advisability of the inclusion of farm labor costs in calculating parity prices. If they were included, under several of the proposals, parity prices would be about

a third higher than their present levels. Some argue these higher parity requirements would go a long way toward solving our problem of maintaining farm peacetime prosperity. Other farm leaders strongly believe such action would set the stage and quicken the return of another farm depression.

Here's a few points farmers should consider in deciding whether it is advisable to tinkering with the parity formula and, if so, how it should be done.

1. Much higher price support levels would mean for several crops, particularly grains, continued high production regardless of whether the market slips during the next few years.

2. Should large surpluses develop farmers would have to depend on Congress for billions to support prices.

3. By inserting farm wages, it will be necessary to withdraw some of the items now included in the formula. You can't have a "weight" of more than 100%.

4. Farm wages are subject to wide fluctuations. They are very high during good times and very low during bad times. For example, farm wage rates now are 235% above the 1910-14 base period, while other costs used in present parity calculations are but 81% higher. Yet in 1933 the inclusion of farm wages would have meant a parity price from 20 to 30% below what it was under the present formula. Therefore, since fluctuations in farm wages are considerably more than the present index of prices paid, it follows the revision would mean a higher parity now, but in all likelihood would mean a lower one in a depression.

5. If the revised formula drives parity prices lower during a depression, this means a lower parity price at a time when the farmers need for income support is greatest.

6. A number of products presently at ceilings are considerably above parity. This revision, for example, may have little or no immediate effect on cattle, lambs and certain fruits and vegetables. In other words OPA pricing policy would still be within statutory requirements. However, on cotton, milk and some other items ceiling revisions upward would be required. Where this is necessary these products should return a higher income to the farmer as long as consumer demand stays strong.

7. The formula, in the writer's mind, needs some careful study and revision. Whether the proper revision should come by including labor across the board or by adjusting the "cost index" for certain enterprises must be decided by the farmers. This matter deserves serious statesmanlike consideration by all of our farm and ranch leaders.

Production increasing on Farmer's Needs

Farm families worked long and hard producing their share of the nation's war goods. In so doing, they over-used their farm plant. Now they find themselves needing badly such items as equipment, building materials, hardware supplies and fertilizers. Here's a brief glance of situations in important "cost" items.

Contrary to general opinion, the Civilian Production Administration in a recent survey found no large scale hoarding by industries. In fact, manufacturers are doing more business on relatively less inventory than they did in 1939.

Physical shipments of manufacturers have reached a new peacetime high; 50% above 1939. Then why shortages? The answer remains with general public. A larger percentage of our people have saved some of their war income, are still making good money, and are eager to buy things.

Retail sales in April were the highest ever. Mail order houses, an old standby in rural areas, aided in the accomplishment. Lots of folks were getting things from them. Of course, this meant many folks found them "temporarily out". Their sales for April were 66% above the same month in 1945.

The main reason farmers are

building materials is that the rate of residential construction is seven times that of last spring. Moreover, by "building a home for sale" rather than "for a family who wants to live in it"—such being the case for farmers—builders can in effect avoid ceiling prices. You see there are ceiling prices on most important building materials, hardware supplies and on contractor's charges, but none on finished houses. Farmers who live on their farms are not often in the market for finished homes.

Lumber production is moving steadily upward but like farm prices in 1939 it had a low base to start from. Lumber production was curtailed sharply during the war. March lumber production, up 24%, doubled normal seasonal increase from February.

Builders hardware will be available in 1946 to satisfy only half the "wants". One problem is that many unessential items are taking materials usually going into hardware. It adds up to this. If there is more profit in these items than in the essential ones, more of them will be made.

Auto production, like the trapeze artist, is going higher and higher. Yet production is still at least a year short of meeting basic demands. In April 150,000 units were turned out compared with 90,000 units in March and 48,000 in February.

Tire production, already running above prewar levels, is still rising. Essential tire needs should be met by the end of the year.

Production of farm machinery is far behind schedule due largely to strikes and inadequate supplies of materials. Once this industry gets cranked up and going "manual labor" will have a tough competitor. Manufacturers are aiming at a goodly portion of all jobs on family farms.

Here's a couple of trends farmers won't like. From February to March work shirt production fell off 10%, while dress shirts increased 30%.

On the average during the remainder of 1946 there will be 70 nails for every 100 the farmer wants. This is serious

## To The Democrats Of Knox County:

Democratic voters of this county signed a petition to place the name of T. W. TEMPLETON on the primary ballot as a candidate for County Attorney. Through an oversight the signers failed to acknowledge it before a notary public and consequently his name was not put on the ballot. We think in all fairness we should have a chance to vote for him and we are asking all Democrats who want him as our County Attorney to join us in a write-in campaign in the primary.

As soon as you get your ballot, run a line through the name printed on the ballot and write or print the name of T. W. TEMPLETON underneath.

REMEMBER—Your write-in will not be counted unless you strike out the name printed on the ballot under the heading: "For County Attorney."

### Tommy Glover Appeals To Voters In Seeking District Attorney Office

To the Voters of the 50th Judicial District:

Since I have not had the opportunity to see each of you personally and solicit your support for re-election to a second term as District Attorney for the 50th Judicial District, I wish to take this method of presenting to you certain facts pertaining to my record as an American citizen and as your District Attorney.

During the more than eleven years that I served as Official Court Reporter for this District, I had an opportunity to hear and observe some of the best lawyers in Texas in the trial of cases. I studied law during my spare time and in 1936 I passed the State Bar Examination and was licensed to practice law by the Supreme Court of Texas. I am not a graduate of any university or law school. All applications for admission to the State Bar of Texas must make the same examination, whether they be graduates of law school or not. I did not enter the active practice of law until I was elected as your District Attorney two years ago. Since that time I have engaged in the trial of criminal cases. In some of the best and most experienced lawyers in West Texas and the manner in which I was able to represent the

State in these cases has been most gratifying to me and my friends and to all those who are familiar with the facts and who believe in law enforcement. Had it not been for the training, knowledge and experience gained through those years in the courtroom, I could not, and should not, have been elected as your District Attorney, and neither could I have represented you and the State of Texas in a satisfactory manner against more seasoned and experienced lawyers.

I am not an ex-service man. I offered my services to the Government in 1942 and was not accepted. I have two sons, one of whom spent 32 months in the Army and 20 months of that time in the European Theater. The other served two years in the Navy, and I have the greatest respect and admiration for every man who wore the uniform of his country. But the fathers and mothers, the wives and brothers and sisters who had to stay at home and save their loved ones march off to war, and whose thoughts and prayers were with them every hour of the day, are also entitled to some consideration for the sacrifices and contribution they made toward winning the war.

It has always been the est-

ablished custom of the Democratic Party to return a man to office for a second term, and usually without opposition, when he has made an honest effort to carry out the duties of his office. So far as I know, there has not been one word of criticism or complaint of the manner in which I have administered the District Attorney's office. I have done my best to make you a good District Attorney and by virtue of the experience gained during the past two years, I am now in a position to make you a still better officer. I feel not only that I am due some credit and consideration for the conscientious effort I have made to serve you during my first term, but I have a further obligation to perform and an inspiration to continue as your District Attorney. Since my boys and yours fought to win the war and preserve our American way of life, I should like to help win the peace by a fair and impartial enforcement of the criminal laws of our State.

Whether I see you or not, I want you to take this as a personal message to each of you, and I earnestly and sincerely ask that you give my candidacy your fair, unbiased and impartial consideration.

THOS. F. GLOVER

If a woman is nothing but a rag, a bone and a hank of hair; then a man must be merely a brag, a groan and a tank of air.

The girls who don't get married this summer will be looking around for a Fall guy.

### Political Announcements

The Herald has been authorized to announce the following candidates for their respective offices, subject to the action of the Democratic Primary in July.

For Congress, 13th District: ED GOSSETT

For State Senator, 23rd District: GEORGE MOFFETT

For State Representative, 114th Legislative District: CLAUDE CALLAWAY

For District Attorney, 50th Judicial District: JOE REEDER, JR.

O. L. (Pete) KNIGHT

BARNEY ARNOLD

JOHN A. SMITH

### HEALTH LETTER

With a sharp increase in the number of persons being bitten by rabid animals in East Texas, and similar occurrences reported in other sections of the state, Dr. Geo. W. Cox, State Health Officer, recently warned all Texans to be on the alert for symptoms of this disease when around domestic or wild animals.

The 2,166 animal heads received for examination by the State Health Department during the past year have shown 687 positives, including incidence among cats, dogs, horses, rabbits, rats, squirrels, skunks, guinea pigs, coyotes, gophers, raccoons, hogs, sheep, and prairie dogs.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. Bites through clothing are not as dangerous as bites on exposed surfaces because the saliva is wiped off as the tooth passes through the cloth. If a person is bitten, the offending animal should be penned, if possible, for a period of ten days observation. If the animal is normal at the end of that time, the case can be dismissed. If it is necessary to kill the animal, this should be done in such a manner that the brain will not be destroyed, otherwise an examination to determine whether or not the animal had rabies will be impossible. If the head is sent to the State Health Department, care should be used in properly icing it to prevent decomposition.

### Allan Shivers Is Only Vet In Race

Senator Allan Shivers, of Fort Arthur, candidate for lieutenant governor, is the only war veteran seeking that office. Exempt from military service, he joined the army as a volunteer and served two years in Africa, France, Italy and Germany. A member of the Texas Senate 12 years, he is asking to be promoted to lieutenant governor on the basis of his service to his country and his state. (Political Ad.)

### Electricity Works for Peanuts!

And if you aren't up on today's expressive slang, "peanuts" means a very small amount of money. Like your electric bill. It really is "peanuts," isn't it—compared to most other items in your family budget?

While the cost of most things climbed through the years—the price of electric service kept right on going down. Even in wartime, when practically all prices popped up, electricity actually became a few "peanuts" cheaper.

As a matter of fact, the average American family gets twice as much electricity for its money today as it did 15 years ago!

All of this goes to prove an important point. Sound business management—and experienced employees—together have given the American people dependable, low-priced electric service—the best and most in the world! You'll enjoy that service even more in the electric years ahead.

## Farm Prices Depend On Fate of Veteran's Franchise Bill

Almost everybody in the parity formula hauling. The difficulty of the job is that farm prices are low. Each year has a new set of statistics of a new set of statistics. Most differ for the center on the Senate the inclusion of costs in calculation. If they were for der several of a from parity prices. This part of the authoring for free nk the facts of this mem- of Represent- astion, introduc- through the which would have a free vote for uniform. His proposal include ex-service men who had been dis-

...duced a bill (consti- al amendment) in the te, which passed through a branches of the Legisla- and was adopted by the ple at an election on Aug. 25, 1945. This bill extended the free voting privilege not only to the members of the armed services while they were still in uniform, but also to those honorably discharged, for a period of eighteen months after their discharge, and that's the reason that ex-service men and women can vote in this years election, without a poll tax.

I sincerely thank the people of this district for having elected me to represent them in the Legislature. I have been the author of bills and constitutional amendments, that have actually passed and become the law, than any other member of the Legislature. I expect to continue to use my efforts for the best interests of the people of this district, and the state of Texas.

## Veterans News

Veterans planning to enter school this fall should make their arrangements immediately. Veterans Administration authorities warned this week. A record enrollment is anticipated, VA said. Prospective students were advised to contact schools they expect to attend and to obtain certificates of eligibility from the nearest VA office.

A new physical medicine program for paraplegics (spinal cord cases) and amputees has been started by the VA hospital at Dallas. Promising results already have been obtained.

Dr. John J. Stazama, director of the program, said new physiotherapy techniques and exercises developed by VA specialists are of special benefit in the rehabilitation of these handicapped veterans.

Veterans who left Army or VA hospitals without the benefit of this new rehabilitation program can re-enter VA hospitals for the instruction, Dr. Stazama said.

VA personal counselors will soon serve veterans throughout the country. These experts are now taking a series of special university courses on counseling.

Very soon they will be available in VA regional offices to help veterans baffled by blind alleys in their education or on-the-job training.

The VA's master contract with 80 Texas county vocational schools to provide—initially—training for some 8,000 veterans became effective this month. William T. Murphy, VA's director of education and rehabilitation in the Southwest, announced.

The contract calls for three types of training to be provided veteran enrollees: agricultural, industrial and business. By fall, Murphy said, the number of

## Of Name Aid In Keeping Records

Brides, divorcees and other workers, who have been employed in stores, offices, factories and similar industrial or commercial work, should advise the Social Security Board of any change in their names if they are to continue to work in such occupations, Gordon James, manager of the Social Security Board field office at Wichita Falls, stated today.

"The reporting of such changes and corrections is necessary in order that the Social Security Board may keep their records under one account number," James said. "It is also important because it means full benefit rights when the worker retires, or in case of death of the wage earner, a accurate monthly benefits to his or her eligible survivors."

A form (CAAN-7003—"Employee's Request for Change in Records"—can be obtained by writing or calling at the field office in Wichita Falls.

schools operating under the contract may increase to 100, with a total enrollment of 15,000.

Similar contracts for agricultural vocational schools are operating in Louisiana and Mississippi.

Q. Can a member of the women's armed services obtain medical aid from the Veterans Administration in pregnancy cases?

A. Veterans Administration has ruled that pregnancy is not a disease or a disability but a natural phenomenon or process and therefore is not a responsibility of the government. However, if there are pathological complications, the ex-service woman can receive medical aid.

Q. Can a merchant seaman who is disabled in World War II receive vocational rehabilitation?

A. Not from the Veterans Administration, for the reason that he is not a veteran. He may secure it from the Federal-State rehabilitation program under the Federal Security Administration.

Q. For what purposes may a veteran get a guaranteed loan?

A. To buy, build, repair, alter or improve a home; buy a farm, livestock, equipment, or supplies or to acquire working capital; construct a farmhouse or other buildings on a farm; repair, alter or improve a farmhouse or outbuildings; improve farm land or equipment; conduct farming operations; purchase stock in a cooperative association where the purchase of such stock is required by Federal law in connection with obtaining a farm loan; buy a business; buy a building or land for business purposes; buy business supplies and inventory; buy machinery, tools and equipment for operating a business; construct, repair or improve a business building or personal property; obtain working capital for a business or profession.

Q. Can a veteran get a guaranteed loan to pay off a debt that is past due?

A. Yes, under certain conditions. Full information may be secured from the lender or from the local VA loan guarantee officer.

Q. What interest rate is charged?

A. The rate of interest on a guaranteed loan cannot exceed 4 per cent. The interest rate on a non-real estate loan which is to be insured for the lender instead of guaranteed may be as much as 5.75 percent.

## His Platform For Lieutenant Governor

Boyer House, candidate for lieutenant governor, recently announced a clear-cut and forward-looking platform in his campaign, calling for more farm-to-market roads and better prices and marketing conditions for farmers. He also urged higher pay for teachers, full payment of pensions, a "square deal" for veterans, steps to solve juvenile delinquency problems and development of Texas agriculture, industry and resources to provide jobs for all.

For Second Term As Railroad Commissioner

DEMOCRATIC STATE PRIMARY—JULY 27

We regard him as a distinguished Texan, and worthy citizen, on the basis of his record for his first term as Railroad Commissioner—during which he served as chairman of the Commission. His work accomplished includes:

- Establishing the "open door" policy for his important state office.
- Abolishing "favoritism" before the Railroad Commission.
- Brought about regular meetings of a full-membership commission pass on all orders.
- Established rule requiring ten days' notice before hearings on all matters coming before the Railroad Commission.
- Vigorously opposed piping Texas natural gas to other states.
- Fought for and helped secure reduced freight rates in Texas and Southwest.

THE STATE OF TEXAS  
COUNTY OF KNOX  
CITY OF KNOX CITY  
TO THE RESIDENT, QUALIFIED ELECTORS OF THE CITY OF KNOX CITY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID CITY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in the City of Knox City, Texas, on the 1st day of August, 1946, on the propositions and at the place more particularly set forth in the election order adopted by the Board of Commissioners on the 6th day of July, 1946, which is as follows:

**RESOLUTION**  
BY THE BOARD OF COMMISSIONERS OF THE CITY OF KNOX CITY, TEXAS, CALLING AN ELECTION ON THE QUESTION OF THE ISSUANCE OF \$20,000.00 WATERWORKS AND SEWER SYSTEMS REVENUE BONDS.

Whereas, the Board of Commissioners of the City of Knox City, Texas, deems it advisable to issue the bonds of the said City for the purposes hereinafter mentioned:

BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF THE CITY OF KNOX CITY, TEXAS:

1. That an election be held in said City of Knox City, Texas, on the 1st day of August, 1946, at which election the following propositions shall be submitted:

**PROPOSITION NO. 1**  
"Shall the Board of Commissioners of the City of Knox City, Texas, be authorized to issue the bonds of said City in the amount of \$40,000.00, the maximum maturity date being not more than Twenty-five (25) years from their date, and bearing interest at a rate not to exceed Three and one-half (3 1/2) per cent per annum, payable semi-annually, and to levy a tax sufficient to pay interest as it accrues and principal as it matures on said issue of bonds, for the purpose of improving and extending the Sewer System in and for said City, as authorized by the Constitution and laws of the State of Texas?"

**PROPOSITION NO. 2**  
"Shall the Board of Commissioners of the City of Knox City, Texas, be authorized to issue the bonds of said City in the amount of \$20,000.00, maturing serially in such installments as may be fixed by the Board of Commissioners the maximum maturity being not more than Twenty-five (25) years from their date, bearing interest at a rate not to exceed Three and one-half (3 1/2) per cent per annum, for the purpose of improving and extending the Waterworks System of said City, to be issued in accordance with and secured in the manner provided in Articles 1111-1118, both inclusive, of the Revised Civil Statutes of Texas, 1925, as amended, each bond to be conditioned that the holder thereof shall never have the right to demand payment of funds raised or to be raised by taxation, secured by a pledge of the net revenues from the operation of the Waterworks and Sewer Systems of the City, and by a deed of trust on said Waterworks and Sewer Systems and the grant of a franchise to operate said systems for a term of not exceeding twenty years in the event of sale after default as provided in the power of sale contained in said deed of trust?"

2. The said election shall be held at the City Hall within said City, and the following named persons are hereby appointed directors of said election, to-wit:

R. M. Farmer, Presiding Judge,  
E. R. Carpenter, Asst. Judge  
G. T. Glenn, Clerk,  
Mrs. Sam M. Clonts, Clerk.

3. The said election shall be held under the provisions of Chapter 1, Title 22 of the Revised Civil Statutes of 1925, as amended, including the provisions of Article 704, as amended by Chapter 382, passed at the First Called Session of the Forty-Fourth Legislature, supra. The Mayor is authorized and directed to have a copy of said notice posted at the City Hall and at two other public places within said City not less than fifteen days prior to the dates fixed for holding said election. He shall also cause said notice to be published on the same day in each of two successive weeks in a newspaper of general circulation published within said City, the date of the first publication to be not less than fourteen days prior to the date set for said election. Except as otherwise provided in said Article 704, as amended, the manner of holding said election shall be governed by the laws governing general elections.

ADOPTED AND APPROVED this 6th day of July, 1946:

ROY A. BAKER  
Mayor, City of Knox  
City, Texas.

ATTEST  
J. G. DUTTON  
City Clerk, City of Knox  
City, Texas."
