**New Ann Delafield Cosmetics Make Bow**

"More than one cream? What nonsense!" says Ann Delafield, world famous beauty and reducing authority. In quoting the well known beautician, Mrs. Paul Denton at Jones Rexall Drug Store announced the Ann Delafield Cosmetics, the first original "no nonsense" approach to beauty care in years—a cosmetic line especially developed for the streamlined life of today's busy woman. The local druggist now has the new line

in stock.

Miss Delafield, whose name is known and respected in the beauty world, Mrs. Denton said, has always believed that beauty begins within. Her new cosmetic line is vitamin-centered. Your daily vitamins, at the cosmetic counter, are intended to protect clear eyes, smooth skin and glossy hair. Mrs. Denton emphasized that the line has only one cream—Ann Delafield's all-purpose deep cream—a rich, luscious cream for deep-cleansing, deep-glowing and deep-lubricating the skin. Its precious oils, esters, cholesterol make it a day cream, a night cream and a throat, eye, skin and neck cream. Says Miss Delafield, "No mineral oil, no nonsense! Just the right cream for complete, scientific skin care."

In describing the new line further, Mrs. Denton said the Ann Delafield face powder is a true French formula with the foundation built right in. The powder comes in five face-flattering shades, true-matched on the skin to the Ann Delafield compact powder.

Other items in the revolutionary new line include a stimulating skin freshener, a long lasting cologne and a crisp-edging, indelible lipstick in five stopper shades, reported Mrs. Denton. She added that the Ann Delafield Glamour Eyes Compact is the first and only compact for complete eye make-up—mascara, shadow, eyebrow pencil

and eyeline in one tidy package. Mrs. Denton invites all the women of Knox City to see and sample this new line of cosmetics. As one of 10,000 independent druggists bearing the Rexall name, she has exclusive rights in this area.

In a way, every day is tax day, because of hidden taxes on everyday purchases.

For instance, if you are a family of three with an income of \$3,500 a year, you pay almost three times as much in other taxes (most of them hidden) as in income tax!

Now, we all know taxes are neces-

sary. (This company pays out taxes 23% of all the money it collects from the sale of electric service.)

But in return, all of us should realize that our government spends tax dollars carefully. And it should never spend taxes for those that people and businesses can pay for themselves.

## STREAMS in Desert Places

By Ozelle Stephens

God doesn't require of you big things to accomplish great results. In Exodus the fourth chapter we find God talking to Moses about a rod. When Moses trusted God to go before him he used the rod in a mighty way serving his Lord.

In Judges the fifteenth chapter we find Samson using a jawbone of an ass to slay a thousand of his enemies because God was with him.

Exodus the seventh chapter tells of the great victory of David with his sling-shot and a stone. David believed in God, and went forth with what he had to serve his God. That is the thing God wants you to do today, take what you have and start serving Him with all your heart. He will give the victory. Through faith in prayer to God you can accomplish great things for your Lord. The results will be a happy and joyous life here and many rewards to enjoy throughout eternity.

# MORE FACTS about TELEVISION

Don't be disappointed if your TV reception so far hasn't been as good as you'd like. Just get ready for the time—coming soon—when the Knox City area should get good reception from a number of stations.

For instance, Station KWFT, Wichita Falls, on Channel 6, is now broadcasting from a 120 foot temporary tower, and has an output of 5,000 watts. Later this station will have a 550 foot tower and a 10,000 watt output.

Station KFDX in Wichita Falls, on Channel 3, will be on April 1 with a 550 foot tower and will open on 12,000-watt output. In 60 days the station will be on full power of 60,000 watts. This area should get the station at all times.

Lawton, Okla., on Channel 7, will have full power soon of 10,000 watts.

Oklahoma City, Station WKY, will be on soon with a 100,000-watt output.

Station KRLD, Dallas, will broadcast from a 1,750 foot tower with a 100,000-watt output.

As soon as the Amarillo station opens, it will have full power of 150,000-watts from a 1,000 foot tower, and we should get the station with ease.

**MORE LIVESTOCK SOLD BUT GROSS RECEIPTS DOWN**  
 Texas producers sold more livestock during 1952 than in 1951 but their gross receipts were down 13 per cent. The lower average price for cattle was a major cause; however, according to C. H. Bates, farm management specialist for the Tex-

as Agricultural Extension Service, others factors also helped cut the net returns to producers. Feed supplies were short and the heavy expenditures for forage and concentrates "soaked up" much of the \$970 million received for livestock and livestock products during the past years, says Bates. During recent years, he adds, about 62 per cent of the farmers' gross income has been spent for operating expenses and when prices for livestock and related items were high, these costs were less painful. But it is a different story today.

It is doubly important this year, he adds, because the cost of items used in production are not likely to drop in price. Growing more of the needed feeds on the farm or ranch offers perhaps the best possibility for cutting costs. Here are Bates' suggestions: Increase plantings of high-yielding forage and grain crops; use supplementary pastures such as small grain, sudan and legumes where conditions permit; use fertilizers and soil renovation practices when practical and build the necessary fences to permit rotation grazing of pastures and fields.

And finally, says Bates, no livestock business can continue to be profitable without storage facilities for reserve feed supplies. One of the cheapest and best is the trench silo. Silage can be kept, if properly stored, for several seasons without loss in quality. If storage facilities are available, considerable savings can be made by putting up a supply of hay during the harvest season when prices are lowest. The same is true, says Bates, for either purchased or home-grown grains.

Livestock producers will find many suggestions in a leaflet titled "Short on Grass." Several emergency roughages are mentioned along with other feeding tips and management hints. Cotton producers will find in the "1953 Guide for Controlling Cotton Insects" the latest information on the rates of application and timing of insecticides recommended for use in Texas along with practices and suggestions that have proved useful in controlling cotton insects.

Most folks like to fish and the new bulletin on "Farm Fish Ponds" answers a lot of questions that pond owners have been asking about stocking, fertilizing, weed control and pond management. The fourth publication carries the title "Landowner-Operator Teamwork in Soil Building" and deals with problems related to the use of soil building practices on tenant operated farms. Included is a suggested agreement for use by landowners and tenant operators. Copies of each publication may be obtained without cost from the county agent.

**COMMUNISM LIVES ON AFTER STALIN'S DEATH, BENJAMIN ATTORNEY SAYS**

(Editor's Note: The following article on the death of Joseph Stalin was written by T. W. Templeton, Benjamin attorney.)

Stalin is dead! Back from the terrible distance his red soul has fled—beyond the grim iron curtain erected between man and infinitude, there comes no word.

Yet, there remains his record in this life. He was ruler-in-chief and patron saint of Communists and Communism; and from that bad eminence, attained by foul and evil means, issued those dread decrees that transformed the world into an armed camp, bowed the nations

under the heavy weight of armament and spread dread and unrest among all people. The shadow of his sinister profile fell across the path to peace and progress and prosperity.

The two principal tenets of Communism he held close to his heart: One, the ancient law of the jungle, "Let him who has the power take and let him keep who can"; the other, "The state is everything, the individual nothing." And who is the state? Why, Stalin, and others of his ilk who, by force, fraud and threats did unlawfully break and enter into the private home of the individual and did then and there, with malice aforethought, kill human dignity and human freedom.

He was the high priest of bedlam, the sable plumed

knight of chaos, the vice-regent on earth of his satanic majesty, the prince of darkness. This record, then, perforce he carried with him to the court of last resort; into the presence of the Supreme Judge who, in the Book of Books, has fixed a just and terrible fate for all who go down as Stalin sinned. Stalin lopped off. Communism—hydra-headed, lives on and to prevent its insidious infiltration into the very bone and sinew of this nation demands of you, and you, and me, wise and resolute good faith in public duty and private thinking.

**BENJAMIN SOROSIS CLUB HEARS MISS HAWKINS**

Miss Eudora Hawkins of the West Texas Utilities Co., Abilene, was guest speaker at the Benjamin Sorosis Club meeting March 5.

Miss Hawkins spoke on "Our Free Enterprise System and Encroaching Socialism."

"Basically," she said, "our free enterprise system succeeds because of our freedoms provided for in the Constitution—right to own property and receive just compensation therefrom."

"Business succeeds only if there is: (1) Not too high taxation; (2) private management; (3) freedom from government competition."

"The only alternative to Free Enterprise (freedom for individuals to own property and receive compensation from fruits of their own labors) is Socialism (let government own everything and distribute, or share the wealth."

"Three planks of the 1936 platform of the Socialist party," she concluded, "have now been incorporated in our government: (1) high income taxes; (2) increasing inheritance taxes; (3) amendment to let the Federal government own and operate industries. Our government now owns 100 industries."

Miss Hawkins showed a film, courtesy of West Texas Utilities Co., depicting the improvement of our standard of living since 1800. At that time few machines were in use. Man hours were long and hard with the animal, horsepower; production was low. As more machines came into use, man and animal hours lowered and production increased—raising our standard of living until today is five times what it was in 1800.

Refreshments were served by Mrs. J. C. Patterson and Mrs. O. W. Driver.

Mrs. Johnny Carver and daughter, Marsha, of Hobbs, N. M., visited Mr. Carver's mother, Mrs. Tom Orsborn, and her parents, Mr. and Mrs. H. P. Finley of Rochester, during the week end.

**A Difficult "Situation"**

Did you see that "Classified Ad" last week? The one that wanted a farmhand who had to be "an expert agriculturist, sheep herder, tractor driver, bridge player," plus being "an authority on chemistry and mathematics"?

Slim Thomas, who ran that ad more or less as a joke, called and said, "I got 23 answers and almost every one claimed they could meet all those qualifications! That means I want to keep the man I have—'Handy' Peters."

"He was thinking of quitting but now I've got to talk him into staying. Handy never pretends to be an expert, he's just a good all-around hired hand."

From where I sit, Slim's smart to be wary of people who consider themselves to be all-around "experts." Some folks will "expert" on anything—from the clothes a man should wear to whether he ought to drink beer or buttermilk. Personally I don't want to "classify" myself as knowing all the right answers.

# LOOK

Here's a Chance to Help Yourself While Helping Us!

We are soon to move our furniture store to our new location in Munday. Our new home—in about two weeks—will be two blocks north of the signal light, on the Seymour highway.

To keep from having so much to move, we ask you to move it to our home for us, at a great discount. For the next two weeks we are to drop our already-low prices to an undreamed-of lower price. We will also give you a very liberal trade-in on your old furniture. Some prices will be counted nearly 50 percent.

We must reduce our stock of bedroom, living room and dining room furniture, odd chairs and tables, and bed springs—in fact, our entire store is on sale.

Come in and pick your floor covering from one of the largest selections in West Texas. We have Armstrong in 6, 9 and 12-foot widths. During this sale our Armstrong 12-foot Quaker is going at \$1.00 per running foot. We have sixteen patterns to choose from.

We wish to thank each of our fine customers for your part in making our seventeen years of serving you in Knox County the pleasure and success it has been in supplying your needs in furniture and mattresses. Every aim is to please you. We surely expect you to come to see us in our new home.

CALL ON US FOR YOUR FURNITURE AND MATTRESS NEEDS!
