ONLY YOUR MILEAGE MERCHANT OIL-PLATES YOUR ENGINE

Does Spring begin on March 20th?...or on the 21st?"Begin it today!" pleads your engine. "Bleed out my Winter-poisoned oil. But this Spring help me with more than an oil-change. Change to Your Mileage Merchant! And that's changing to Conoco Germ Processed oil-the only way to change me into an OIL-PLATED engine."

You want this modern exclusive OIL-PLATING because especially in Summer your steady driving demands more than the plain old type of oil-film that slithers OFF the working parts like drops of

quicksilver. Exactly the opposite is achieved by the Germ Process-patented. It makes droplets of oil act like a billion tiny suction cups, powerfully attracted and OIL-PLATED to every working surface ... Never draining down, never inviting friction, no matter how many thousands of starts and thousands of miles you make all Spring and Summer. And you'll notice Germ Processed oil sticking so close to "Full"-even in older cars-that you'll stick to Your Mileage Merchant. Continental Oil Company
