KNOX COUNTY HERALD FRIDAY JULY 4, 1930

NUMBER 1

## Logore's Corner

This political buncomb and non-sensical claptrap about myself and honorable gentlemen for the side, who served four years in the Commissioners Court "Agin" the South Side in the of readjusting the road tax and the automobile license is absolutely false, without foundation in fact as is disclosed by Commissioners Court Minutes of Knox County, Texas, of June 27th Volume 5 at page 83, this vile being circulated as a smoke to divert the minds of the tax-payers of Knox County from the one issue in this race for Judge, the real issue in this election is, "An economic administration of Knox County vs The other sort of administration."

There are certain records in the case at Benjamin, Texas decided thus: "Minutes of the Knox County, Texas." In these large books is recorded diverse and facts of the Commissioners of Knox County.

For my four years service as County Judge, I presided over the Commissioners Court, the court did a good deal of business during that time, all of which is recorded on the minutes of the court.

I am not saying to you that I am not a single page in this would like for the tax payers of the county to compare the record of my four years service with the record of one-half years of the present regime and draw your own conclusions.

Some politicians of Knox County have used this gospel of hate and representation as a vehicle to get into office, but the old vehicle is wobbling. "It has been a wagon but it's about run."

Yours Respectfully,

## CLASS PLAY BIG SUCCESS

The play "The Path Across the Hill" which was staged Wednesday night by the Couples class of the Knox City Methodist Church was a big success. The school auditorium was filled to its normal capacity, making the crowd good but not too crowded. Those taking part in the play were buoyed to the exact height to act their parts well. Each knew his or her lines well and the director, Mrs. Tom Bollin, was heard to say that there was the least prompting and the least forgetting Wednesday night that she had ever seen of known of in a home talent play.

From the beginning of the first musical note sounded by the orchestra the spirit of the evening stayed in full sway. Nothing was dragged. One scene followed the other immediately, making a quick, well connected story, the in-between-act stunts were also snappy, both receiving hearty applause.

The evening's entertainment seemed to have been enjoyed by those in attendance and for those staging it. It is safe to say that it was one of the big nights of their lives. The play was staged for a religious purpose and the ideal of the class weighed in the hearts of all the members. They all worked, suffered and were happy together. The proceeds were sufficient to pay the song book debt and with a few dollars left.

The class wishes to thank all those who contributed in any manner to making the play a success. We are very grateful for the large crowd in attendance for this, in reality, was the one greatest work of our success.

 DR. CALDWELL WAS RIGHT

The basis of treating sickness changed since Dr. Caldwell left College in 1875, nor since he put the market the laxative product had used in his practice.  
 He treated constipation, headaches, mental depression, sour stomach and other indigestion entirely by means of simple laxatives, herbs and roots. Still the basis of Dr. Caldwell's Pepsin, a combination of other mild herbs, with pepsin. The simpler the remedy the better, the safer for the child and the adult. And as you can get results and safe way by using Dr. Caldwell's Syrup Pepsin, why take any strong drugs?  
 A bottle will last several months. All can use it. It is pleasant taste, gentle in action, and non-narcotic. Elderly people should use it. All drug stores have the product or write "Syrup Pepsin" to Monticello, Illinois, for free literature.

# THE VALUE OF SOUND DESIGN

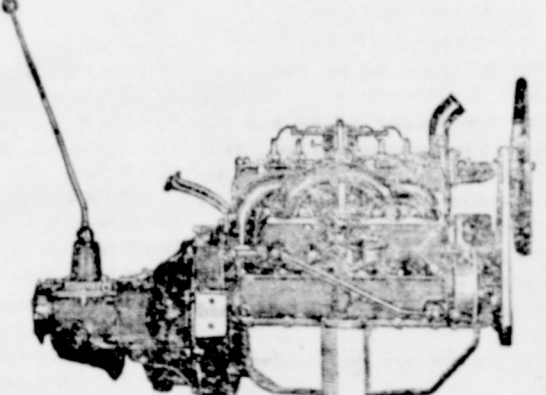

**New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy**

The good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

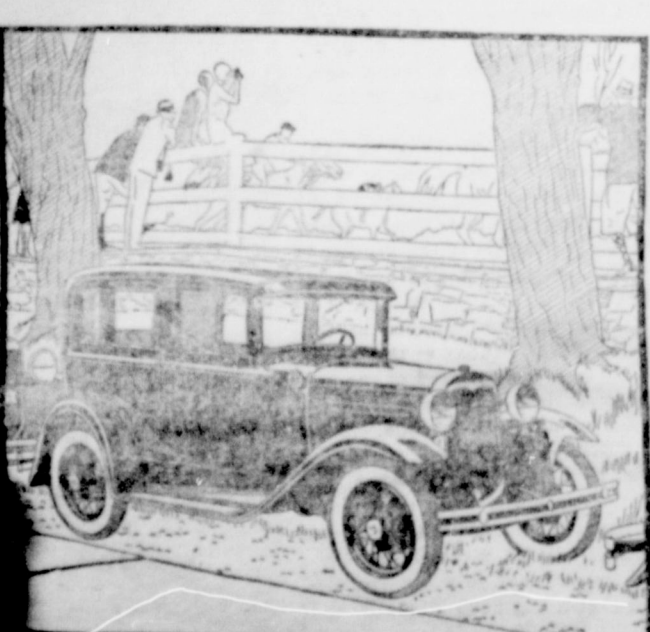

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.

## HAPPY MOTHER ENTHUSIASTIC ABOUT KONJOLA

Relates How New and Different Medicine Did Wonders for Her Little Boy of Twelve

**HARMON GLAZE**

Results are what count, and Konjola can be counted on for results. Sufferers want relief, not promises. Konjola has made a matchless record simply because it does the thing it is designed to do. Take, as a typical example of Konjola at work the case of Harmon Glaze, 12 whose mother, Mrs. Annie Glaze, Route 4, Lonoke near Little Rock Ark., says:

"My boy, Harmon, 12, had typhoid about five years ago, and his health since then was not good. He frequently had fever and had attacks of nausea. He had no desire to play and his appetite was poor. Nothing I gave him seemed to do any good. Konjola had helped me so much that I decided to give it to Harmon. Today, he is like a different person. He eats, sleeps, and plays like other children and is no longer subject to fevers. I am still giving him Konjola for it has done so much for both of us."

So it goes: victory after victory wherever Konjola is given the chance to prove its merits. You can put your faith in Konjola feeling that you will be rewarded abundantly.

Konjola is sold in Knox City at the Orient Drug Store, and by all the best druggists in all towns throughout this entire section.

Hot summer days never bother a lad much if he is fired with the desire to make money.

Enthusiasm and grit to earn and save under hard circumstances has been the foundation of many a man's success.

**Argotane Has Straightened Me Out and I Know From Experience It is A Good Medicine**

Argotane has straightened me out and I am in fine shape now," said T. D. Travis of 242 Graham St. Abilene, Texas. Mr. Travis does the distribution for all the local advertisers and is a very popular student of A. C. C.

"I suffered terribly from stomach disorders. The things I ate wouldn't agree with me I would have pains in my back and in my abdomen that would be quite severe at times I suffered greatly from headaches and would often get so bilious and dizzy every time I stooped over I would nearly fall.

"I read so much about Argotane and heard so many people talking about it I decided that it would help in my case it has proven. Argotane has got me in fine shape and I am not bothered with stomach disorders any more and my food doesn't bother me as it did and I'm not bilious or dizzy any more. I don't have my headaches any more. I am in fact, I feel splendid Argotane began helping me right from the start and I have only taken one bottle and feel like a new person. My health is restored and I know Argotane to be a fine medicine from my own experience."

Genuine Argotane may be bought in Knox City at the Orient Drug Store.

**"Very Latests"**

By MARY MARSHALL

Combining two figured materials in one ensemble is a difficult business, not because in theory the idea is not sound, but because of the difficulty of getting two figured fabrics whose tones are all in harmony. In a life serving two elaborate made dishes in the same course at

dinner. It can be done, but it is difficult to get just the right combination of flavors in both concoctions.

One way to achieve good results in combining the two sorts of figured materials is by using two different sorts of fabric in the same design

and color, and in most stores where material is sold by the yard it is possible to buy chiffon and crepe de chine to match which may be used in a variety of ways.

Chiffon and taffeta printed in matching colors and designs may be used for evening ensembles—the chiffon for the dress and the taffeta for the short jacket or cape which is such an indispensable addition to spring and summer clothes. The picture shows such a combination.

The Ford Phaeton, shown above, is equally popular as a family car and as a sport car for young people. The seating arrangement provides for the driver and one passenger in front and three passengers in the rear. Seats are upholstered in two-tone cross cobra grain artificial leather. The top is of the quick collapsing type, easily handled by one person, and folds flat. The windshield, of Triplex shatter-proof glass, is of the folding type and can be laid flat forward. The windshield wings fold over it, emphasizing the sport effect of the car.

**Hot Suff Texas**

"Texas occupies all of the continent of North America except a small part set aside for the United States, Canada and Mexico. Texas owns the north half of the Rio Grande, one of the few rivers in the world with one bank wet and the other dry. Texas is bounded on the north by 25 or 30 states, on the east by all of the oceans except the Pacific on the south by the Gulf of Mexico and by the Pacific Ocean and the rest of the world. Underneath they have at this writing been down only 8,000 feet or so for oil, and up in the air Texas has in Guadalupe Peak, 9,500 feet above sea level, the highest hill in the United States east of the Rockies.

"Texas is so big that the people in Brownsville call the Dallas people Yankees, and the citizens of El Paso speak of the residents of Texarkana as being 'effete Easterners'. It is farther from El Paso to Texarkana than it is from Chicago to New York and Texarkana is closer to Milwaukee by airline than it is to El Paso (Try this on your Rand-McNally.) The United States with Texas left out would look like a three-legged Boston terrier.

"The chief occupation of the people of Texas is to try to keep from making all the money in the world and at that the wealth of Texas increased 530 per cent between 1900 and 1907. At one time Texas was so wild that not even the law of gravitation was obeyed, and the chief pursuit of the Texans was Indians and Mexicans, but now it is crop records and oil production. It is so healthful in Texas that out in Eastland a horned frog lived 30 years in a corner stone without food air or water.

"Texans are so proud of the Lone Star State that they cannot sleep at night. If a Texan's head should be opened the map of the State would be found on his brain. The word 'Texas' is of Indian origin and means 'Friends' and the Texas people are that way unless you take a slam at their state. If your front gate is not at least 18 miles from your front door, you do not belong to society as constituted in Texas. Down on the King ranch the front gate is 180 miles from the front porch and the owner is thinking of moving the house back so as not to be annoyed by passing of automobiles. Other Texas landowners have whole mountains ranges of their ranches, and one Texan has 40 miles of navigable river on his farm. If the proportion of cultivated land in Texas were the same as in Illinois, the value of Texas crops would equal that of the 47 states combined. If all the people of the United States were to move to Texas, it still would be no more densely populated than is Massachusetts. Texas has land enough to supply every man, woman and child in the whole world with a tract 20 x 500 feet and have enough left over for all the armies of the world to march around five abreast.

"To move the Texas corn crop would take a string of box cars longer than the distance between New York and San Francisco. If the 1,500,000 tons of sulphur mined in Texas annually were in the hands of his Satanic Majesty, they would solve his fuel problem. If all the cotton grown in Texas were baled and built into a stairway, it would reach the Pearly Gates. If the 255,557,000 barrels of oil produced in Texas in 1928 were made into gasoline, it would run a well-known make if light car throughout eternity. If all the hogs of Texas were one hog, he could dig the Panama Canal in three roots and one grunt. If all the Texas steers were one steer, he could stand with his front feet in the Gulf of Mexico and his hind feet in Hudson Bay, and with his horns punch holes in the moon, while his tail brushed the mists off the Aurora Borealis. —Exchange. ITS GREAT TO BE A TEXAN.

Have you tried Fitzgerald's Auto berries? They taste better than strawberries and out-yield the dew-berry. Ask H. M. O'Brien.

**SONG REVIVAL DOING WELL**

The Song Revival being conducted this week at the Baptist Church under the management of Mr. Press Hitchcock is doing well. The attendance has been good with an increase each night. Mr. Hitchcock is a good teacher and is featuring special numbers each night which adds to the service.

The ladies of the church plan a lawn party and picnic Friday night, the closing night of the revival.
