REVIVAL MEETING BEGINS AT METHODIST CHURCH

Revival meeting at the Methodist church will begin this morning, August 4th.

F. M. Neal, of Amarillo, General Evangelist will be preaching.

At the insistent call of Rev. Neal gave up his position and entered the revival field. He is a new member of our Northwest conference and has served as pastor for more than 15 years.

His labors in this field have enticed and hundreds of weary of the ways of the world have found the Savior in his messages.

He preaches a powerful message and preaches a message powerful enough to save sinners and enable him to live a life of righteousness.

He had the privilege of preaching to him in revival meetings. He has seen the power of the Holy Spirit manifested in that peculiar and explainable way.

He writes me that he had the privilege of preaching to Bro. Robt. Kennedy of Texas who will have a singing and young people.

He tells me he is considered the best in the field. He has the privilege of being coveted by a young person, to come with one who is giving full time service.

He says that the community is fortunate in having these into our midst and weeks of their value.

He says that the citizenship is at least 15 miles of here themselves of this opportunity and be present at the possible.

He says that the citizenship is at least 15 miles of here themselves of this opportunity and be present at the possible.

He says that the citizenship is at least 15 miles of here themselves of this opportunity and be present at the possible.

He says that the citizenship is at least 15 miles of here themselves of this opportunity and be present at the possible.

COTTON GROWERS COOPERATIVE GIN COMPLETED

The Cotton Growers Cooperative Gin Co. with the following board of directors have just completed their new gin: A. J. Gore, Porter Lowrey, G. A. Branton, S. J. Reeves, J. S. Wilson, Lee Woodward, J. M. McBeath, E. G. Parkhill and R. K. McBrayer. J. H. Ingraham is their manager.

The new plant cost in the neighborhood of \$27,000, the old plant cost about \$30,000. The large motor in the new gin is 125 horse power and has a 10 horse power motor for the press work, which makes it possible to tie-out without running the gin. The voltage is expected to be 2200. The new plant is an air blast gin. They plan to be able to gin around 9 bales per hour on the two gins. Each gin has 5-80 Gallett, with Murry air-line cleaners, each gin is equipped with 16 unit cleaners and have double I type Hardwick Elder Burr extractors.

This machine is said to take out 98 per cent of the cotton from the burr. The old gin is equipped with a brush gin.

Last season the old gin paid a dividend of \$7.00 per bale. The complete earnings of the gin was \$50,000 and they had a clear profit of \$21,000.

This organization has a membership of 225 prosperous farmers.

In addition to the two Cotton Growers gins there are three other modern plants here in Knox City and O'Brien has one large plant also. We expect to have a story from the other gins soon.

King Gustaf Inspects New Destroyer

King Gustaf of Sweden on the bridge of the new destroyer, Bärensköld, as he inspected the latest addition to the Swedish navy. The monarch is an expert navy tactician.

Christian Church Gives Picnic To Benjamin Church

At the close of a Sunday School contest between the Knox City First Christian Church and the Benjamin Christian Sunday Schools, Knox City had to entertain their neighbor with a picnic.

The picnic was held at the Benjamin lake Tuesday evening with several hundred taking part in the eating, swimming and good fellowship gathering. Everyone expressed themselves as having a wonderful time.

Roque Tournament Held Here Last Week Drew Crowd

The Knox City Roque Tournament held here Thursday, Friday and Saturday of last week drew a large crowd of Roque fans, coming from many miles.

After many interesting and exciting battles the following boys were in the last games. Ed Shaver and Pete Cautcher tied Bill Tanner and Hulsey for first with Finis Walker and Joe Withrow up for third.

Monday the Roque fans will meet for a big day at Truscott.

J. E. Groves Dies At Waco; Former Simmons Student

J. E. (Dooly) Groves, former student of Simmons university died early Saturday at his home in Waco, friends were informed yesterday. Mrs. J. E. McPherson of Abilene, Mr. Groves' sister had been in Waco attending the bedside.

Funeral services and interment will be in Waco today.—Abilene Reporter.

The above mentioned was a brother of Mrs. G. T. Hardberger who has been at his bedside for the past two weeks.

The sympathy of the entire community is extended to the bereaved relatives in their hour of grief.

Knox City Dairy Changes Hands

A deal was made the first of the week, in which J. H. McGee sold the Knox City Dairy to A. Ratledge and sons. The business will continue under the same name and they expect to give you the same service that Mr. McGee gave.

Mrs. Ables, milliner for the Bryant-Link Co. is off at market this week.

HIGHWAY CONTRACT TO BE LET MONDAY

The state highway department has advertised to let one of the biggest contracts next Monday in the history of the department. It will be on the 20 miles of concrete surfacing on Highway no. 30 from Seymour to the Archer county line. The bid is expected to be about \$520,000.

The program on this highway has been speeded up on account of its importance to the traveling public. Archer county is already at work on her surfacing, and the contract has been let for concrete surface in Knox county. Instead of waiting for our grade to settle, it is likely it will be settled with water from the city wells at Seymour.—Baylor County Banner.

J. C. Lindsay Dies At Sons Home

J. C. Lindsay, aged seventy one years, died at his son's home one mile west of town about five-thirty o'clock, last Friday morning, July 26th.

Mr. Lindsay first came to Knox county about forty seven years ago. He became well acquainted and was always a man of good report among his friends and neighbors. During the past few years however his health has been poor and his activities somewhat impaired.

The original home and the place of his birth was Pike county Alabama. He was born on March 28, 1858. His first marriage was to Miss Lizzie Catrick, who has been dead a number of years. Of those living whom he leaves are a wife, Mrs. Lena Lindsay, four boys and four girls. Only five of the children were present at the funeral.

Mr. Lindsay united with the Christian Church at Roby, Texas about 1903. The funeral was conducted by H. N. Solliday at the home at four o'clock Friday afternoon. E. Q. Warren, local undertaker had charge of the funeral.

HOSPITAL NOTES

The following is a list of patients registered at the County Hospital at present: Ira Grinstead Racheater; Mrs. W. P. Hood, Rhineland; Mrs. Eunice Jordan, Vera; Mrs. S. Shook, Haskell; Mrs. P. G. Rader, O'Brien; Onie Brummett, Truscott; Alfred Kinnebrew, Vera.

SIX CYLINDER CARS PROMISE TO LEAD

For the first time in the history of the automobile industry, six cylinder cars promise to lead the field in production this year, according to a survey by the Chevrolet Motor Co. completed today. Up until this year four cylinder cars ranked first in annual production volume. Comparative production figures for the past six months of this year are offered in support of the forecast. During this period there was produced approximately 1,900,000 sixes as compared with approximately 2,265,000 fours, an indication of what the total for this year is apt to be.

How the change came about is illustrated in the survey. Chevrolet's manufacturing goal for the year is 1,350,000 cars. Chevrolet's change-over from a four to a six means deduction of this enormous total from the four cylinder field and adds it to the six cylinder field.

How the automobile has changed almost overnight will be noted in an inspection of the 1928 showing. Last year when Chevrolet was producing a four cylinder car, four cylinder manufacturers built approximately 2,098 cars, with one large manufacturer of four cylinder cars on limited production due to model change, while six cylinder manufacturers were making 1,617,000 cars.

As it now stands the year 1929 should show approximately 3,000,000 six cylinder units as compared to only 2,250,000 four cylinder units.

M. F. NEAL, Evangelist of Amarillo

MORE MILK FROM FEWER MILK COWS

The number of milk cows on the farms of the United States has changed only slightly in recent years. The number increased from 21,824,000 in 1921 to 22,531,000 in 1925, and then decreased to 21,824,000 on January 1, 1929. Production has kept up, largely because of better breeding and feeding of the smaller number of cows. The number of yearling heifers and heifer calves kept for milk cows is now larger than for last year, but is less than 1 per cent larger than the number ordinarily required to maintain the present number of milk cows. Changes in the number of cows milked during the next two years will depend, says O. E. Reed, chief of the Bureau of Dairy Industry, United States Department of Agriculture, largely on the relation between the price of beef and the price of dairy products, for this affects both the age at which the milk cows are sold for slaughter and the number of beef-type cows milked.

LEGION'S SEARCH FOR DISTINGUISHED CITIZEN

What citizen of our city during the past year has done the most to make this community a better, safer, happier and healthier place in which to live? The members of our American Legion Post are now trying to decide this question from a list of candidates submitted by various churches and organizations over the city. The winner when chosen will be publicly presented with a beautiful engraved certificate signed by the State Commander and Adjutant of the American Legion and his name placed with those chosen by Legion Posts in all other Texas cities on a parchment scroll in Headquarters office of the Legion Capitol in Austin. This is being done as a part of the State Program of the American Legion to promote good citizenship and to honor those in each community who are considered as most distinguished and worthy citizens in promoting the welfare of their community.

GIRL SCOUTS

The Girl Scouts and Brownies met Tuesday afternoon at the Methodist church.

Read the Herald for the news.

There is Profit in Stock Raising and Dairying.

The state needs more good milk stock and our farmer friends who already see the opportunity that a better dairy herd presents are to be congratulated on their foresight. We are strong for any industry that will further our community's prosperity, and our stock raisers and dairymen will do their share.

G. F. Glenn, local manager of the West Texas Utilities Co. of this city presented the Herald Editor with a copy of the annual of his company, or from the Industrial Department, with R. B. Niece Jr. Editor. It is a wonderful and beautiful piece of work from many stand points. Editorials, materials, pictures, information, history, Engraving and contained much information. Thanks to the West Texas Utilities Co. for such wonderful work. One feature about the annual it carries no advertising.

M. E. Whitten was in the city Monday and left the editor a sample of his fine peaches. Mr. Whitten has several varieties on his farm and in the sample we received. We tried several of each variety and to date have not been able to say which were the best. They were some peaches. This is a good peach country if we are any judge of the delicious fruit Mr. Whitten gave us. We may not be the best sampler, but we are one of them. Thanks to Mr. Whitten.

E. S. McElroy was here last week and looking into the cotton situation and visiting relatives. He represents the Harper Cotton that was introduced in the Bomarton country last year. Several hundred pounds of seed were planted here this season and is being watched with great interest. Over in the Bomarton territory this cotton run as high as 44 per cent lint and is ten days earlier than other varieties, is deep rooted and 1200 pounds will make a 500 pound bale. This cotton is making a big hit wherever it is planted.

Jesse Hitchcock and wife who are attending the Texas Tech at Lubbock spent the week-end with homefolks. Mrs. J. R. Bradberry returned with them for a few days visit.

Jess Brothers and family and J. K. Lea and family left last week for College Station to attend the Farmer's Short Course.

Mrs. O. M. White visited in O'Donnell and Ackerly last week.

Mrs. C. C. Hoge and children spent the past week visiting relatives in Hamilton county.

Mr. and Mrs. C. C. Hoge and children visited in Throckmorton day last week.

Mrs. A. Hoge of San Marcos is visiting in the home of her son, C. C. Hoge this week.

Mr. and Mrs. C. H. Hoge are guests in the home of C. C. Hoge and family.

Mrs. D. P. Littlepage and daughter, Kelly Ann, are visiting in the C. C. Hoge home this week.

Hazel Potter left Sunday for Goldthwaite to visit her grandmother.

Miss Annie Ruth Eastus of Abilene has been visiting in the L. W. Swift home the past week.

Misses Mabel and Marion Clonts are visiting in the home of their Uncle, T. P. Clonts of Muskogee Okla.

Mrs. Baker, Superintendent of the County Hospital, returned Saturday from a two weeks vacation spent in Dallas, Monday and Haskell.

Jack Wilson and Dennis White have returned from the Citizens Military Training Camp at Ft. Logan Colo.

Joe Humphries and family of Electra, returned to their home last week, after visiting Rev. and Mrs. J. F. Cummings and other relatives.

You can whip our cream but you can't beat our milk. Knox City Dairy.

Barney Garrett of Clifton, who has been visiting at Truscott, died at the County Hospital, Monday after a short illness. E. Q. Warren local undertaker shipped the body to Clifton from Stamford.

Part of the Knox City trade territory was visited by a good shower Sunday afternoon. Crops are looking exceptionally well.

Newspapers Most Effective

Announcement has just been made by the president of an American tobacco company that it will next year spend \$12,500,000 in advertising its principal brand of cigarettes. That is a lot of money for a single company to spend for advertising in one year, says the Trenton (N. J.) Evening Times. As a fact, the expenditure appears to be intended to retain a popularity already won. Of the total \$6,500,000 will be paid to the daily newspapers throughout the country and \$1,200,000 to the magazines, the announcement explaining that "this division of our advertising budget is based on the continued experience of the company with large scale advertising, which has satisfactorily demonstrated that newspapers offer the most effective medium of appeal." Can anything be more convincing than experience?

The umbrella, which lost much of its popularity when closed autos and porte cocheres came in, seems to be coming back into its own. In Europe the other day the umbrella of a princess kept her from being injured by the flying glass from a shattered window; in Chicago a woman chased her former husband and poked her umbrella in his ribs and he thought it was a gun and called the police; then he was pinched and had to catch up on his back alimony, says the Houston Post-Dispatch. In Houston a police officer took charge of a crossing while fire apparatus was passing and directed traffic with an umbrella.

The cost of the last great war, \$400,000,000,000, would have provided a comfortable home, it has been said, for every family in at least ten countries of the world, or a \$2,500 house erected on a five-acre lot, furnished with \$1,000 worth of furniture, for every family in the United States, Canada, England, Ireland, France, Wales and Russia, and would have given a \$500,000 hospital and a \$10,000,000 university to every city in these countries of over 200,000 inhabitants. Even then there would have been money left over.

Toledo's kidnaper-murderer who had the courage to kidnap and murder a child, was very much lacking in courage when it came his turn to die, and went to the chair with lips moving in panic-stricken supplications for mercy. Before you transgress the laws, try to consider how you will feel when called upon to pay, says the Houston Post-Dispatch. Two boys who thought it a heap of fun to hold people up and frighten and rob them have just been sentenced to spend five years behind the walls, and are beginning to realize that it is not so funny on pay day.

Perhaps we won't obtain a clearer idea of the problem of modern Russia if we realized how complicated it is. It isn't just a Russian problem. It covers a land occupied by a hodgepodge of 577 tribes speaking 150 different languages, says the Los Angeles Times. Under the circumstances it appears amusing to have some writer from Chicago or New York spend a couple of months in Moscow and then publish a large book embracing the whole solution of questions that half the inhabitants themselves have never heard of.

It must be admitted that at least one monarch is a success. The world rejoices in any happiness the king of England may enjoy and honestly sympathizes when hours of illness befall him. Even the citizen radically inclined fair-mindedly admits that there is no fault in being born to a throne, and that there is great honor due to one who holds his relationship to the people in terms of affectionate sympathy.

The late Payne Whitney died worth \$200,000,000 net, and is praised for his careful investments and his close attention given to them; yet in the bottom of his bank box are found \$50,000 worthless stocks and bonds, commonly called "cats and dogs," which fact goes to prove that even the best business men make mistakes.

Gunmen sometimes are not caught until other gunmen decide to give them up. The mysterious secrecy of Chinese colonies has been imitated in the underworld life of our own time and people. A way should be found to snap out of remote ancestral complications.

The reallocation of wave lengths was a boon to the radio anglers whose completed logs had robbed their sport of its zest, and they now complain that pauses for station announcements are too infrequent for a satisfactory bag before bedtime.

And what has become of the old-fashioned droll fellow who, wanting to "knock wood," used any nearby head?

"Walter," said the Old Crab in a restaurant, "can you keep a secret? Then I want you to take back this hash."

L. B. Hammock and family former owners of the Herald, returned from a trip to Arkansas the first of the week, where they have been looking at the country with a view of locating. Tuesday Mr. Hammock purchased a five and three acre tract making seven acres at the east side of town on the Munday highway. The acreage was purchased from W. T. Freeman and M. J. Hollabough. He expects to remodel all the improvements, making a mission style home of the stucco finish. On his acreage he will conduct a model dairy and poultry farm. We wish him much success.

Mrs. John Milford and children left last week for Brownfield to visit her sister, Mrs. Olie Stice who has been visiting here.

Claudia Sue Mosely spent Tuesday with her grandparents, Mr. and Mrs. W. E. Watkins of Rochester.

Miss Mattie Bennett has returned and at present is employed as night operator at the telephone exchange.

Mr. and Mrs. Q. B. Whitehead and sons of Sweetwater visited in the home of Mrs. Whiteheads parents, Mr. and Mrs. J. G. White Sunday.

Mrs. Henry Miller of Haskell died at the County Hospital last Thursday. Undertaker Warren laid the body to rest at Haskell.

L. L. Lynch and family of Sudan were guests in the Averitt home Friday.

Mrs. W. T. Averitt and son W. T. Jr. of Rule, were here visiting Joe Averitt and family Monday.

Everette Favor has returned from a visit with his parents at Rising Star.

Mrs. G. W. Boyles of Seymour was over the first of the week visiting her daughter, Mrs. C. H. Keck, Mr. and Mrs. Keck took her home Tuesday night.

Fred Papworth is the owner of a new Chevrolet purchased from Ashcroft Chevrolet Co. last week.

Ascroft Chevrolet Co. report the sale of a new Chevrolet sedan to R. H. Howell who lives near here.

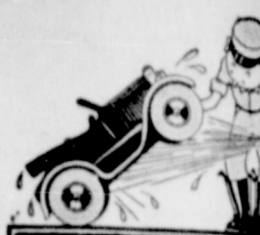

W. H. Dutton and family J. Ingraham and family spent the first of last week on the Clear Fork fishing. Dutton caught so many fish and they came so fast he let one big one get away with pole and all. If it had not been for the swift swimming ability of Mr. Ingraham he would have lost the largest one in the catch.

Mr. and Mrs. Joe Frank McCavly are the parents of a boy born, July 23.

Mr. and Mrs. O. S. Johnson of O'Brien, are the parents of a boy born July 28.

Mr. and Mrs. H. G. Newberry of Rochester are the parents of a boy born July 24.

CHRISTIAN CHURCH

Bible School, 10:00 a. m.
Communion, and Preaching,
11:00 a. m.
Sermon, The Royal Family
Hearken!

Remember that the Knox City Christian Church (or the Church of Christ) pleads for a complete restoration of the New Testament church in doctrine, ordinances, and life; for absolute loyalty to Jesus Christ as prophet, Priest and King; for the unity of all God's people on the New Testament as the all sufficient rule of faith and practice, for bigger purposes, broader sympathies and truer lives; for the conversion of the whole world to Jesus Christ. Come and worship with us. Hear the Sunday night sermon on, "Who's Who in the Kingdom of Heaven."
H. N. Solldiday.

NOTICE TO THE PUBLIC

I have leased the filling station just north of the West Texas Utilities sub-station and am equipped to give you as good service as any modern station. A part of your business will be greatly appreciated. Courteous service our motto. Pete Whitlen, prop.

Model of Architecture

The Parthenon, or Temple of Athena Parthenas, was a magnificent building erected under the administration of Pericles and was finished in 438 B. C. It was of the Doric order of architecture and built of Pentelic marble. It had columns on all sides, eight on the front and back and seventeen on each side. It was ornately furnished with statues and elaborate ivories, and plates of gold.

Apple Popular Fruit

The apple, with the peach, cherry and plum, belongs to the rose family, and no other fruit can be cultivated over such a wide area of the globe. It was probably introduced into England by the Romans and trees were first brought to America in 1629. The annual production in the United States is now about 200,000,000 bushels.

Youthful Genius

Ludwig Von Beethoven is said to have written a funeral cantata at eleven and in the same year was taken on a concert tour by his father, who represented him as being two years younger. He was only thirteen when he secured a position as assistant court organist. He began music in his fourth year.

Praise and Criticism

Praise is unwarranted when it leaves the worker with the idea that he is at the peak of perfection and can never be better. Criticism is unwarranted when it conveys to the worker the idea that he is at the bottom of the trough of imperfection and can never be better.—Donald A. Laird.

Camel Not Heavily Loaded

When a camel is three years old, it is taken into the caravan for a few trips to accustom it to desert travel. At four it carries a small load and at five can undertake a full share of work. However, loads carried by these huge animals do not exceed 400 to 500 pounds at most.

First Labor Secretary

On February 26, 1913, the United States senate passed a bill establishing the Department of Labor. The new secretary of the department was appointed when President Wilson came into office. He named William B. Wilson.

Could Populate Oceans

The conger eel, which is an important food fish of Europe, is said to lay 35,000,000 eggs, and it is estimated if each egg grew to maturity and the increase continued at the same rate, every ocean and sea would be full of conger eels in ten years.

Can't Dodge Trouble

"Our sorrows are a part of our lives," said Hi Ho, the sage of Chinatown. "He who seeks to run away from his troubles is trying to run away from himself."—Washington Star.

Prolific Sturgeons

The various species of fish produce varying amounts of eggs. The Atlantic salmon (Salmon salar) averages 1,425 per fish, while the sturgeons average 1,500,000 eggs per fish.

Earth's Land and Water

About three-fourths of the earth's surface is covered by water, the total water area being approximately 139, 85,000 square miles. The average depth of the ocean is 12,500 feet.

Old-World Ways

"What prevents the London business man having a sleep after lunch?" asks a doctor. Too frequently it is the arrival of the afternoon tea.—London Opinion.

Good Nuts

For children almonds are the best nuts. Half their weight consists of an easily digestible fat—a perfect substitute for meat fat, which many children won't eat.

Self-Educated Farmers

Farming itself is an education—country people win through to a wider competence, a deeper wisdom, than most city folk.—Farm and Fireside.

Useless Information

A motorist usually has the same opinion of a pedestrian's walking that the pedestrian has of the motorist's driving.—Cincinnati Enquirer.

Conundrum

What becomes of furniture that is too old even for poor folks and not yet old enough for rich folks?—San Francisco Chronicle.

Nuisance Tax

The average cold, we are told, costs \$3.30. The 30 cents is probably the amusement tax.—Philadelphia Inquirer.

Or Toothpicks

Unless somebody plants a few trees shortly future generations need not worry about splinters.—Indianapolis News.

Advice to Young Men

Beware of the girl who yearns over sunsets and knows her own type.—Woman's Home Companion.

Heaven's Dearest Gifts

Hearts that feel, and eyes that smile are the dearest gifts that heaven supplies.—Moore.

Not So Good

The man who takes his time usually takes others', too.

Mark Tremmier of Spur visited his brother, Prcie Tremmier the past week.

Clarence Linton of Wichita Falls is visiting John Elliott this week.

Mr. and Mrs. Chas. Lail and daughter, Mrs. Callie Lail and J. Russell Smith have returned from Boulder, Colo. They plan to move to Rochester in a few days to make preparations for the coming school term.

Mrs. Hudson is visiting her daughter Mrs. Ezell Clark of Levelland.

Quite a few people from the Cliff community are attending the meeting at Thorp. Freckles.

Knox City Dairy leads. All others follow.

KNOW TEXAS

Texas shipped 27,000,000
pounds of dressed poultry to
major markets in 1928—a record
for the state.

The Texas honey crop of 1928
was 6,000,000 pounds with hon-
ey valued at \$480,000 from an
investment of \$1,274,300 in the
249,027 colonies of bees.

With 595 different species
Texas has a greater variety of
bird life than any State in the
Union.

The 1929 commercial tobacco
crop of Texas brought an esti-
mated return of 53,500,000 more
than twice the value of the 1928
crop.

MRS. JONES INJURED

Mrs. Jones was badly kicked
by a cow last evening while milk-
ing. That's another kick for
the Knox City Dairy. Buy it in
the bottle.

Mr. and Mrs. D. Everette Kelly
who had been visiting the lat-
ter's parents, Mr. and Mrs. W.
H. Benedict returned to their
home in Waxahachie Friday.
Miss Lula Pearl Puckett accom-
panied them for a weeks visit.

Edwin Clarke of Levelland is
at home with his parents, Mr.
and Mrs. J. E. Clarke.

WICHITA MAN WAS DISCOURAGED BY MANY FAILURES

Farmer's Wife Had Suffering
For Thirty Years, Is Grate-
ful to Orgatone.

"If there was no other way
for my wife to get Orgatone,
she would actually walk twenty
miles rather than be without it,"
said F. W. Nott, who lives at
2406 Holliday st, Wichita Falls,
Texas.

"My wife suffered for thirty
years," continued Mr. Nott,
"and during that time I spent
thousands of dollars with spe-
cialists, hospitals, and medicines
trying to find something that
would overcome her troubles,
but she never got any relief un-
til she commenced taking Or-
gatone. Her stomach was in an
awful condition, and every time
she ate anything she would suf-
fer for hours afterwards. Some-
times when she would have
cramping spells, and then she
would suffer on account of gas
forming from undigested food,
she would have awful headaches
too, and would frequently get so
dizzy that she would either
have to sit down or lie down to
keep from falling. Her appe-
tite was so poor that she hardly
ate enough to keep her going
and got so thin and weak that
she was hardly able to get a-
round at all. She also suffered
a great deal from nervousness,
and never got a good night's
sleep. She finally got in such
a worn out run down condition
that she just had to give up try-
ing to do her work. In fact,
we were completely discouraged
over her condition, and gave up
all hope of her ever getting bet-
ter.

"I told my wife that I didn't
think it was of any use for us
to spend any more money for
doctors and specialists, but
she said 'No, we musn't give up,
for as long as there is life there
is hope.' Well I noticed Orga-
tone being advertised then and
I thought I would see if that
would do her any good, and be-
fore she had finished her first
bottle I could see that she was
mending right along. Her
appetite is as good now as it
ever was, and she can eat just
anything that she wants with-
out suffering agonies after-
wards. She has taken only a
few bottles of Orgatone so far
and her health is far better now
than it has been in over thirty
years. Her stomach troubles
have disappeared and her ner-
ves are in such fine condition
that she drops off to sleep as
soon as she gets to bed every
night, and she hardly ever wakes
up until she is called in the
mornings. She hasn't had a
headache or one of those dizzy
spells since she finished taking
her first bottle of Orgatone,
and is so well and strong in ev-
ery way that she now does her
own housework. I don't be-
lieve there is a medicine in the world
that equals Orgatone, and I just
can't find words to express how
grateful we are for the great
good it has done her and we
will praise this wonderful medi-
cine as long as we live."

Genuine Orgatone may be ob-
tained in Knox City at the
Orient Drug Store. adv.

For Every Tire Need

For the man who wants depend-
able mileage at low first cost—
MOHAWK tires and tubes, built
and guaranteed by MOHAWK
Rubber Co.

For the experienced driver who wants the
best there is in standard tires—MOHAWK
TIRES. For the man who wants the finest
that money can buy—tires that will last un-
til he turns in his car—MOHAWK Flat Tread
Baloons. We have them at money saving prices.

Home-makers
Select
the
"HOTPOINT"

The All-White Hotpoint—Priced at \$132.50

BECAUSE the Hotpoint frees them from hundreds of
tied-to-the-kitchen hours, it gives them an oppor-
tunity to enjoy the countless pleasures of life instead of
spending so much of their time in the kitchen these
"hot" summer days.

—This Electric Maid cooks foods
better without tedious hours of
watching... one can prepare their
meal, place it in the oven and set
the automatic time and temper-
ature controls, then forget it...
Everything will be cooked RIGHT
the first time and every time!

—Cooking electrically on the Hot-
point is cleaner... easier... more
convenient... quicker and more
convenient... cooler and more
YOUR cooking hours more pleas-
ant?

—At your first opportunity come in and
see the new Hotpoint... You'll be certain
to like it. A wonderful Steam Pressure
Cooker is included with each model priced
from \$132.50 up.
