FINE MATERIALS ASSURE FINE QUALITY CITY BREAD

If you were baking this loaf at home, you could not choose finer ingredients than the ones used in CITY BREAD.

For these bakers know, just as you know, that fine bread can be made from only fine materials—and so they are the only ones used! At the CITY BAKERY, you will also find a pleasing variety of sweet goods to choose from, made from the best ingredients and equally as nutritious as they are attractive and delicious. More and more housewives are turning to CITY BREAD. They have learned that in bread, as in all foods, quality is the cheapest in the end. At your grocer's.

PERSONALS

Mr. and Mrs. Will Chrane, of Dudley, were in Baird Tuesday.

Mrs. Than Warren has returned home from an extended visit with Mr. and Mrs. J. D. Dallas, at Tulsa.

Miss Jefe Lambert is in Cisco this week with her sister Mrs. R. Q. Evans, assisting in nursing her little son, Charlie Joe, who has been seriously ill with diphtheria, but is now improving. The little fellow was critically ill for about 48 hours and little hope was held for his recovery.

M. G. Farmer informs us that his daughter, Mrs. Marshall Turner, who recently underwent an operation for some throat trouble at Amarillo, is slowly improving and will be able to be removed to her home within the next few days. Mrs. Farmer is with her daughter.

Frost Johnson, of Big Spring, visited friends in Baird last Saturday. He tells us that his father and mother, Mr. and Mrs. C. E. Johnson, are contemplating moving back to Baird, or Clyde soon. Mr. Johnson, who has been with the Water Service of the Texas & Pacific Ry for many years, is now on the retired list. They made their home in Baird for a long time before going to Big Spring.

Let's We Forget—All children are requested to save tin and lead foil and carry it to E. Cooke's store and put it in the window. THE VALUE OF ADVERTISING

By Students of Baird High School

WHY IT PAYS TO ADVERTISE IN THE BAIRD HIGH SCHOOL ANNUAL

Norris Kelton Baird High School English IV September 20, 1929
Advertisements in the Baird High School annual bring in big results because of the large circulation of the year book. A large per cent of the families in Baird have at least one copy of our annual. Each member of the family wants to look through the book several times a year; therefore each advertisement is often read by each member of the family.

By advertising a business is helpful, not only in the amount of trade which the ad brings in, but in the help it gives the school. A business man helps himself which he helps the school, for a school is the backbone of a town; and there must be a town to have a business.

Students will favor those who advertise in the high school annual with their patronage. A student who is interested in his school will naturally patronize those who have helped that school progress. A business firm which has the good will and patronage of the children and students of a town will eventually gain the patronage of the fathers and mothers. The business

men who advertise in the Headlight are the business men who are going to get the interest and the trade from the high school pupils.

THE MOST INTERESTING ADVERTISEMENT IN THE 1929 HEADLIGHT

By Leo Thompson

I think that the most interesting advertisement in the Baird High School annual of 1929 is the West Texas Utilities advertisement. It is attractive and the manner in which the purpose of the company is set forth, is a manner which will bring good results and will more than pay for their advertisement.

Besides advertising electricity and electrical machines, the company sets forth the idea that we have. It also extends its congratulations to the students who set out on lifes journey after finishing the public high school.

A company that will advertise in this manner, will get results. It not only shows their willingness to serve but it shows that the company is interested in the public schools and will back the town in anything she undertakes that is for the upbuilding of this generation.

H. H. Adams has recently brought in an oil well on the Z. E. Wagley ranch in the Hart community. The well is reported to be producing about ten barrels per day.

The Putnam High School girls met the Cisco girls at Cisco Thursday in a game of basket ball, the Putnam girls coming out as winners of the game.

The Putnam schools were dismissed on Friday noon on account of the extremely cold weather.

Mrs. Earnest Waddell entertained the "42" club in her home on Thursday evening of this week.

The weather has been most severe the past wee, the temperature falling to three degrees below zero in Putnam. So far as we have learned, however, no serious damage has resulted except the bursting of water pipes all over town and the loss of a few cattle by cattlemen.

Mr. and Mrs. Claude King, M. W. Whitlock, W. A. Wallace and Mesdames Frank Warner and J. W. Pearce attended a joint installation of I. O. O. F. and Rebecka officers at Cisco on Thursday evening. After the installation ceremonies they were entertained with a program honoring the 110th birthday of Tom Wilde the founder of Oddfellowship. Refreshments were served consisting of Tuna fish salad, cakes, hot commee and tea.

On January 15, the Farmers State Bank held their annual meeting for the purpose of electing officers for the ensuing year. C. T. Hutchison, of Abilene was elected Pres. Y. A. Orr, vice-pres. R. L. Clinton, cashier and C. C. Russell, assistant cashier. Directors elected were C. T. Hutchison, Y. A. Orr, J. A. Clements, S. W. Jobe, R. L. Clinton. They voted ten per cent dividend to the stockholders for 1929.

Raymond Clark and Wiley Clinton narrowly escaped a serious accident Monday morning. They were enroute to their pasture about one and one-half miles north of town to feed cattle, and were pulling a trailer behind the car.

When starting down a long hill

the trailer tried to get in front of the car causing the car to topple over, throwing the occupants into a ditch. The men were considerably buried but not seriously hurt otherwise. The wind shield and doors of the car were broken and two wheels injured.

Scranton Farmers To Grow Better Cotton

Quite a number of farmers south of town near Scranton, have become interested in growing better cotton and trying to combat the boll weevil. They are organizing for the purpose of destroying all trash, brush etc. in which the weevils might find refuge from the wintry weather, by burning.

They are considering the purchase of a machine to spray the cotton, using a formula issued by the State Experiment Station, of Oklahoma. The formula used consists of Calcium Arsenate, black strap syrup and water.

The department advises one pound arsenate, one gallon of the syrup and one gallon of water thoroughly mixed. This can be applied with a sort of brush made by taking a stick, with strips of burlap cut in strips about two inches wide and one foot in length, tied or fastened to the end of a stick. Dip the brush in the mixture and spray the cotton plant.

This treatment should be begun when the plant is about five inches high, at intervals of five or six days until three applications have been made.

It is said if treated in this manner, the crop is not likely to be pestered by the weevil again during the season, but the farmers are advised to keep a close watch on their crops and if signs of weevils appear again repeat the treatment.

Women's Study Club

The first meeting of the Womens Study Club of Putnam for the year 1930 was held in the home of Mrs. Don Mitchell on Monday January the thirteenth.

The President, Mrs. L. E. Brock, called the meeting to order at three o'clock. The program of the afternoon was as follows, reading of minutes by the secretary, Mrs. E. P. Whitaker. Minutes were approved by the club and accepted. Committee reports were given and business of club was brought up for discussion and dispensed with. Mrs. Don Mitchell was leader for the program of study, the subject being, "Men who have contributed to Imaginative Literature in Texas." Roll call was made interesting by members answering with a verse with "Texas" as the theme.

Mrs. Homer Pruett gave an interesting account of the lives of Stark Young, Barry Benefield, and George Patullo. Mrs. E. P. Gardner and Mrs. F. P. Shackelford gave in a very interesting manner, "Poets of Note" including John P. Sjolander, Judd Mortimer, Lewis, Stanley E. Babband Whitney Montgomery.

The concluding number was readings from the above poets given by Mrs. R. D. Williams. This number was especially interesting.

The entire lesson study was intensely interesting, as each member had a well prepared lesson and contributed to the round table discussion of "Outstanding Feature Writers and Columnists."

The meeting adjourned to meet again Monday Jan. 27, with Mrs. W. H. Howard.

Cat Mothers Sparrow
Trained not to harm birds, a cat in London is mothering a tiny sparrow. Recently the half-fledged bird fell out of its nest and lay neglected on the lawn. Puss took it in her mouth and deposited it in her basket, where she had two kittens, and curled up to sleep with the little tabbies and the foundling. The owner of the cat fed the tiny stranger until it grew feathers. It now flies in and out of the window and often sits on the cat's back.

Expert Self-Defense
Jujitsu is the Japanese art of self-defense without weapons. It depends for its effects largely upon the principle of making use of an opponent's strength and weight to disable or injure him and by applying pressure so that his movements will throw him out of balance, dislocate or break a joint, etc. It opposes knowledge and skill to strength and demands an expert knowledge of human anatomy.

Life's Happiness
The best provision for a happy life is to practice honesty in good earnest, and speak truth . . . live easy and cheerful, and crowd one good action so close to another that there may not be the least empty space between them.—Marcus Aurelius.

First Cream Separator
The first continuous cream separator was invented in 1879 by Carl Gustaf de Laval, a Swedish inventor. This machine depended on the centrifugal principle of separating milk and cream, depending on the fact that cream is lighter than the rest of the milk.

Getting Crepe Effects
One method of producing crepe effects in silk materials is by alternating a right and left-hand highly twisted thread in the warp and filling the fabric with a highly twisted rayon. When the material is held off and doped, the effect of the alternating twisted threads is a patterning of the fabric.

Determining Emotions
An apparatus, described as a "complete give-away of the emotions which a robber attempts to conceal," has been designed by an electrical engineer. The device registers the heart-beats of the person under examination.

During Voyage
John Traynor and Ivan Olson were the first to cross the Atlantic ocean in a rowboat. On July 5, 1881, they left Bath, Maine, in a rowboat named City of Bath and reached Falmouth, England, August 24 of the same year.

Oppressive British Laws
The British Navigation acts were first enforced in the American colonies on June 10, 1604. These acts, passed by parliaments in 1651 but not enforced during Cromwell's reign, prohibited the colonies from trading with any country but England.

Nugget of Wisdom
Let us be of good cheer, however, remembering that the misfortunes hardest to bear are those which never come.—Detroit News.

Nation's Wheat Belt
The wheat belt of the United States includes Missouri, Kansas, Nebraska, Wisconsin, Minnesota, North Dakota and South Dakota.

Ancient Legal Expression
The expression "A man's house is his castle" was first used by Sir Edward Coke, famous British jurist, 1552-1634, in his Institutes, part III, "Against going or riding armed."

Earth's Waters
If the earth were a perfect sphere it is estimated that it would be covered by water to a depth of about 9,000 feet, or nearly two miles. The exact volume of water contained in the ocean is, of course, not known—only an estimate is available.

"Dreco" is the answer to her friends when asked why she looks 20% healthier.

The Dreco Expert at the Palace Drug Store was given this statement recently by Mrs. J. F. Gibson, of 192 W. Cherry St.:

"I was about ready to give up all the treatments and medicine I took failed to do me any good. After eating, I would suffer from indigestion, and the gas pains seemed to cut off my breath. I had terrible headaches and was always constipated. I felt bloated and bilious most of the time.

"I found just what I wanted in the Dreco treatment. Now I eat without suffering from indigestion and gas pains. My friends have noticed the difference in my physical condition and I recommend Dreco highly."

BRITON'S FAITH COSTS \$33,000

Confiding Foreigner Is Victim of "Com" Men in Stock Deals

Chicago.—David W. Tinkham of 8 Prince of Wales road, Bournemouth, England, acquired a great faith in mankind as he accumulated \$100,000 in the importing business, and then he and his wife came to America, retaining the abiding conviction. But after their first visit to the detective bureau they decided to return to merry England, where honesty still prevails.

The Tinkhams, sadder and wiser and poorer by \$33,000, told Sgt. Roy Van Herk and William Murphy how they turned their money over to a financial wizard and a decent appearing young chap from Canada. They had implicit confidence that the foresaid gentlemen were to meet them in Chicago and hand over winnings Mr. Tinkham thought he made on stock exchange of El Paso, Texas, and Reno, Nev.

Meet Lenely Canadian.

Mr. Tinkham is a distinguished gentleman in the fifties, with goatee and mustache, and Mrs. Tinkham is tall, stately and dignified. He was born in this country, but has lived in England for forty years, and when he sold his business last fall he brought his wife to Boston. Then they went to Florida and California and then to El Paso where Mr. Tinkham made the acquaintance of Walter Spencer of Calgary, who was homestick for Christmas in Canada.

The Tinkhams were sorry for his loneliness. Then Spencer thought he recognized in another stranger a friend of one of his acquaintances, Judge Baker of New York. The second stranger repulsed him at first, asking him if he were a reporter, and then welcomed him, explaining he was avoiding reporters.

Spencer induced the stranger, who said he was James W. Barker, an employee of the New York stock exchange, to talk about himself, which Barker reluctantly but modestly did. He produced a newspaper clipping that contained his photograph and told how he made money for the poor by giving stock market information.

The Old, Old Trick.

Barker sent Spencer to the "stock exchange" with a check for \$1,000 and Spencer came back with \$3,000 in cash. Spencer was then sent back with a check for \$75,000 and came back with a bundle of money supposed to be \$235,000, but right behind him was the manager of the "stock exchange," who doubted the genuineness of the \$75,000 check and took back the \$235,000 until he could be shown that Barker could have paid his loss if there had been a loss. But Barker didn't want the New York stock exchange to know he was speculating, so it was arranged that Spencer should get \$30,000, Barker \$15,000, and if Tinkham furnished \$30,000 he would share in the winnings.

Tinkham sent to England for \$7,000, and the three moved over to Reno, where they collected the package of \$235,000, but it was in escrow till they could convince the "stock exchange" they could have paid losses. That necessitated Barker's going to Canada to get real money and then they were to meet Tinkham here.

"That story is as old as Chicago," Lieut. William Crot told the trusting Tinkhams. "Look through the rogues' gallery and see if you can find pictures of Spencer and Barker."

The Reason Is, Autos Kill 'Em, Not Maim 'Em

Des Moines, Iowa.—Automobiles may make business for the doctors and the undertakers but to the manufacturer of artificial limbs they are only a mode of transportation.

J. G. Madigan, Des Moines, who has been manufacturing artificial limbs, arms and braces for 43 years, is the authority for the statement.

"My factory has turned out less than ten artificial limbs for automobile accident victims in the last two years," Madigan said.

"Sun Power" Engine Has 1,788 Mirrors

Los Angeles.—On the outskirts of this city is one of the world's queerest engines. It is run by "sun power," 1,788 mirrors reflecting the heat of the sun on a huge boiler which holds water. The heat of the sun turns the water to steam, creating power for operation of the engine. This system has been in operation since 1902.

Montana Once Home of Mammoth Animals

Baker, Mont.—Further proof that Montana was the habitat of mammoth animals before glaciers slowly crept over the North American continent was added here recently with the discovery of a huge jaw bone by George Clark, ranger, in the Oodi Creek district. The bone was shaped much the same as a human jaw bone but about seven times as large. Several teeth were still secure in the jaw; the chewing surface of one molar measured nearly eight inches. The bone is 32 inches in length.

Fame of Sargon Now Spreads Over World

People of This Country Sending Famous Medicine to Relatives and Friends in England, Scotland, Ireland, France, Canal Zone, Norway, Sweden, Cuba and Many Other Distant Lands.

If you had found a medicine that was of such benefit to you that you would go to the trouble of sending it to relatives and friends in distant countries, you would have to be convinced in your own mind that it possessed real merit, wouldn't you?

That's just what thousands of people throughout the United States have been doing with Sargon.

From all over America and where ever Sargon has been introduced, thousands of letters have been received from grateful users telling of the gratifying results that have been accomplished by this celebrated medicine.

THOUSANDS EXPRESS GRATITUDE

On November 27th, a letter dated November 23rd, was received at the Sargon offices advising that in one week one drug firm alone had received orders for Sargon to be shipped to Cavite, Philippine Island; Coca-Solo, Canal Zone; Belebroke, Ireland; and Paris France.

Only recently a well-known resident of Denver, Colorado, who had been restored to health by Sargon, sent a full treatment to London, England, to his sister, who is the wife of an executive of one of the greatest retail drug firms in the British Empire.

During the past month there appeared in the Toronto papers the statement of a well-known World War veteran whose health had been greatly impaired while in the service, who stated among other things, that he owed his restoration to health to two bottles of Sargon sent him by a friend in Minneapolis.

LETTERS RECEIVED FROM THE NORTHWEST

From the Northwest, many letters of this kind have been received advising that users of Sargon are sending it to relatives back in their old countries of Norway and Sweden.

Many such letters and endorsements have been received from men of prominence, including former governors, business and professional men, mayors, state and county officials, and even Ministers of the Gospel have deemed it their duty to come forward and tell what Sargon has done for them.

These are only a few of thousands of such cases and not a day nor a week passes that does not bring hundreds of statements from the people concerning the good this medicine is doing, and requesting case after case that would convince the most skeptical.

Sargon's fame is built on actual results—not empty promises, and only those who have put it to the test know its real powers.

Sargon's aim is not mere temporary relief, but new and abundant health. No wonder it is now called the medicine with a million friends.

Sore Throats and Coughs

Quickly Relieved by this Safe Prescription

Here's a doctor's prescription that is really throat insurance. Sore or irritated throats are relieved and soothed almost instantly with the very first swallow. About 90 per cent of all coughs are caused by an irritated throat; consequently for most coughs too there is nothing better than this famous prescription—it goes direct to the internal cause. It is put up under the name Thoxine and is guaranteed to stop coughs and relieved sore throats in 15 minutes or your money will be refunded. Singers and speakers find Thoxine very valuable. The remarkable thing about Thoxine is that while it relieves almost instantly, it contains nothing harmful, is pleasant tasting and safe for the whole family. Ask for Thoxine 35c., 60c., and 1.00 bottles. Sold by Holmes Drug Co. and all other good drug stores.

"Anything Good You Say About Orgatone Is Wholly Inadequate"

Says Well Known Denison Man Who Finds Relief After Years Suffering.

"I cannot praise it too highly, and anything good that can be said about Orgatone is inadequate," said Mr. R. W. Nash, of 113 Sears, Denison, in a conversation.

"I had suffered for so long," continued Mr. Nash, "and tried everything that was ever made for my condition without success, until I got to believe that there was nothing that would do me any good. If it had not been for Orgatone I would have to quit my work."

"My stomach trouble has been with me for years and years, and it got so bad that no matter what I would eat I would suffer from that bloating of the stomach, and the acid condition of my stomach was terrible. Of course I had headaches frequently, and just felt listless and tired all the time, and never knew what it was to have a good night's sleep. Finally the condition of my stomach effected my kidneys also, and then I would have to get up several times at night.

"Some of my friends told me about Orgatone and I started using it, and I never got as much relief from anything as I have from it. Why, it's almost too good to be true, but I can eat anything I want, and just sleep so fine at night now, and my kidneys do not bother me any more, while I never know what a headache is now. I look back and see how long I suffered when had I known about Orgatone, all that would have been spared me. I cannot praise it too highly, as I said before, as it has made a new man out of me."

Genuine Orgatone may be bought in Baird, at Wheeler's Drug Store.

**A PERSONAL REVIEW OF
TWENTY-FIVE YEARS**

Twenty-five years is a good while
to work at one job and a fellow
ought to learn a little bit about
that job in that length of time.

Well, twenty-five years ago,
Sunday afternoon, Dec. 29th, I was
ordained by a good old country
church over in Young county, and
from that time I have been busy
trying to be a faithful servant.

In that time I have had under
my ministry, I think, 1500 souls to
profess faith in Christ. I have
baptized about 1000 myself and
fully 2000 have come into the
membership of churches, where I
have ministered. Now, that is not
so bad when you remember that
half of these years, I have been
in school and had to work as a
student pastor.

I have always had a small salary
and as best I could I have sup-
ported my family and have always
led my church in gifts to missions
and the general support of the
Lord's work. I have been a tither
for thirty years and I find that
I have always had some funds to
put in the collections.

The past four years, I have
worked here with the church of
Baird. We have gotten rid of all
the old debts, have done some
improvements, pretty generally
supported the work of the denomi-
nation with our offerings and have
raised and now have in the bank
\$3600.00 for a fund to build a new
church.

We have had some 250 additions
to the church, during the four years
and about 100 of these have been
by experience and baptism. Per-
haps 200 or more have been saved
under the direct ministry of our
church and we are all grateful to
see and feel that the fellowship
of the church is good. Our people
love each other and are ready to
work together for the glory of the
Lord. As we enter the New Year
we feel that we can do much more
in the future than we have in the
past.

Pray for us, cooperate with us,
and let us all together see the
work grow.

of Buda did when it decided it
should have a cheese factory and
put up the money to build and op-
erate it? That would be the quick-
est way to go about getting it,
and the investment would not be
large. The gods help Texans who
help themselves.

Marble Falls Dam

It looks like the Marble Falls
dam will be built, and soon. The
company that has acquired the
lands is said to have spent a half
million dollars in preliminary
work. A large force of workmen
is building camp houses for those
who are to build the dam. Several
million dollars will be spent in
construction work in Burnet coun-
ty. Marble Falls and Burnet will
be the immediate gainers, but all
Texas should profit from the huge
enterprise.

Peanuts Pay Profits

Gillespie county farmers shipped
47 cars of peanuts from Fredericks-
burg last year and realized about
\$60,000 from the crop. Smithville
farmers are considering planting
a large acreage this year. The local
oil mill has agreed to put in the
machinery to convert them into oil
and butter, if sufficient acreage is
planted.

Using Texas Stone

Contractors who will build the
Travis County courthouse will use
Travis county stone from a quarry
recently opened. Every public
building in Texas, and for that
matter every private building
should be constructed as far as
possible with Texas material.
Texas builders should build
Texas.

Banning Cheap Shows

The chamber of commerce at
Crystal City has decided to ask
ban cheap shows and carnivals
as instruments for making money.
Texas has passed the stage of
cheap carnivals to support local
clubs and societies. There is too
much entertainment of a better
kind available.
