Child Welfare Board Established Locally

The establishment of the Knox County Child Welfare Board was recently completed with the appointment of two members-at-large by the Knox County Commissioners Court. They are Sarah Meinzer of Benjamin and Lu Rose Schumacher, county school nurse.

Other members are Cindy Thompson and Dr. Dale Selzer of Munday, Jerry Atkinson of Goree, Ann White and Patsy Gonzales of Knox City and Bertha Driver and Linda Griffith of Benjamin.

These appointees will represent the communities of Knox County to develop child welfare and child protective services. Noting that while instances of child abuse or neglect are not exceptionally high in Knox County, Child Welfare case worker Sammy B. White pointed out that Knox County certainly has its proportional share. With the support of the citizens of Knox County, this board can develop policies, raise money and direct the implementation of programs in the Department of Human Resources.

The present members of the Child Welfare Board are the first in Knox County, but boards have been established in other parts of Texas since 1932.

A meeting of the board has been

Kacy Longan Wins County 4-H Contest

Seven Munday 4-H'ers entered the Knox County home designer competition which was judged Monday, July 30, by Lou Gilly, Haskell County Extension agent.

Kacy Longan won the event and will represent Knox County at the district contest August 11 in Wichita Falls.

In the competition, students drew a room to scale on a poster, picking out pictures of furniture styles and showing samples of wallpaper and carpet to test color coordinating skills. Their choices were explained in a key also shown on the poster. Each student constructed one accessory to complement her chosen room, and then answered questions about the poster.

Some of the entrants spent some time in Abilene last week with their advisor, county Extension agent Jane Locknane, touring home furnishing stores.

Others in the beginner division were Jae-Jae Reneau, Dixie Reid, Missy Reneau, Susan Whittemore and Misti Zeissel. Robin Reneau was the only entry in the intermediate division and is eligible to compete in the district contest, but is unable to do so because of a prior commitment.

VRJC To Offer Classes Locally

Two continuing education classes, Ceramics for Young People and an Emergency Care Attendant course, will be offered in Munday by Vernon Regional Junior College, according to Paula Schur, local VRJC coordinator.

The ceramics class is for children ages 6-12 and will be held August 13-16 between 9 and 11 a.m. Students will learn to clean greenware and study basic techniques of glazing ceramic items.

Emergency Care Attendant classes will be held from 6:30-10:30 p.m. on Monday and Tuesday evenings between August 27 and September 25. This course is designed for ambulance personnel, policemen, firemen, health and physical education instructors, nursing home personnel and other interested persons.

Pre-registration for the ceramics class begins August 7. For more information concerning fees and locations for either class, contact Paula Schur at 422-4631.

set for 7:30 p.m. Thursday, August 22. At this meeting by-laws will be adopted and officers for the coming year elected. Length of terms for each board member will be determined by the drawing of lots. Terms are one, two and three years of membership.

Farm Bureau Sponsors Fireman

Bufore Berryhill, one of three Munday volunteer firemen attending the 55th annual Texas Firemen's Training School last week in College Station, was sponsored by the Knox County Farm Bureau and Texas Farm Bureau Insurance Companies. The agencies contributed toward the cost of the school.

Nearly 2,000 firemen representing about 750 cities from more than 25 states attended the school on the Texas A&M University campus. Courses offered include fire fighting, fire prevention, officer training, pump maintenance, specialized fire protection and disaster rescue training.

Since volunteer firemen are interested in attending this school to help do a better job of fire fighting and fire prevention, 100 county Farm Bureaus and the state organization have sponsored 100 firemen at the school.

"The Farm Bureau Insurance Companies believe volunteer fire departments have been very effective in reducing the amount of loss involved by fire in rural areas," said state president S. M. True Jr., of Plainview. "It is our hope in sponsoring this program that the fireman will help the Munday Volunteer Fire Department to better serve the residents of Knox County."

Johnny Reid Is Abilene Officer

John E. Reid of Munday was one of 18 new officers sworn in by the Abilene Police Department Thursday, July 26. The City Hall ceremony concluded 21 weeks of police training at the Abilene Police Academy.

Reid will be one of 159 officers on the city department. He is a graduate of Munday High School and the son of Mrs. Olga Jim Reid of Munday and the late Alvin Reid.

Local Man Designs Helpful Accessory

Munday welder Tony Shawver has built an ingenious device that he thinks "will revolutionize the booting industry."

His all-metal boot jack with handles will never wear out, never break, and can be used by anyone from age nine to ninety.

Shawver first thought of building a new type of boot-removing device after an old friend in Olney complained he couldn't wear boots any longer because they were too difficult to take off. Using ordinary boot jacks causes a person to stand off-balance, and a handle seemed to be a logical solution to this problem. Shawver said he thought he could weld the type of jack his friend needed, but waited too long to put his ideas into action. The friend died before the new jack came into being.

"I got to thinking about it later," Shawver said, "and I realized that if this jack could be used by one person, it could be used by anyone. There are a lot of people who aren't able to use a regular boot jack, especially older persons and children, and this invention makes it much easier for them to take their boots off."

The footpiece of the jack is a flat-iron with the U-shaped cutout to fit the heel of a boot. The handle, which is welded on, is constructed of hollow iron tubing, and can be easily adjusted to the needed height.

CONGRESSMAN JACK HIGHTOWER

Jack Hightower To Speak At Annual B-K Gathering

The regular annual meeting for members of B-K Electric Cooperative has been set for 7 p.m. Friday, August 10, at the Seymour High School auditorium. All B-K members are invited to attend.

Registration for the meeting begins at 6 p.m., and Joe Green's Boots 'N Saddles band will provide entertainment during this time. During the 7 p.m. business session, reports of officers, directors and committees will be given and two directors will be elected. John L. Grindstaff Sr., of Rochester and Charles T. Porter of Seymour have been nominated for re-election to the board of directors. Members of the nominating committee are David Counts, James Albus and Ann Tibbets, all of Knox City, and Mary Ruth Higgins, Jeannie Hunt and Kim Martin, all of Seymour.

Speaker for the annual meeting will be 13th District Congressman Jack Hightower. Hightower was first elected to Congress in November, 1974, and began his fifth term in 1983. He serves on the House Appropriations Committee and the subcommittees on Agriculture, Rural Development and Related Agencies, Defense and Legislative Branch. In 1982 he helped form the Farm Crisis Group, a coalition of

Education Reforms Help Some Schools, Hurt Others

Munday school superintendent Doyle Lowrance recently issued the following comments about the new changes in the Texas school system and how the changes will affect local programs.

1984 has been a year of reform in education for the public schools of Texas. HB 246 made dramatic changes in school curriculum and graduation requirements. HB 72 changes the way public schools are financed and also made changes in programs.

Teachers received a much deserved salary increase and school finance is now determined by a new set of formulas which helped some schools and hurt others. Program changes involve new eligibility rules for extra-curricular activities, tutorial classes for students making below 70, required passing of basic skills test in order to receive a high school diploma, maximum class size of 22 in grades K - 2, and testing for all teachers and administrators.

Vocational programs in Munday are facing about a 22% cut in state funding for 1984-85.

A career ladder has been added which could give additional salaries to teachers meeting certain criteria.

The 27-member elected state school board will be replaced with a 15-member appointed school board which will later revert to a 15-member elected board. In 1985, no school can begin classes before September 1 and must end no later than May 31.

A financial model, dated 7-18-84, entitled HB 72- Workshop Version, shows a reduction in state aid of \$83,000 for Munday I.S.D. when compared to a model dated 6-28-84 and labeled HB 72-Conference Committee Report. Even with this reduction, there will be an increase in the amount of state funds received by Munday I.S.D. Much of this increase will be absorbed in teacher pay raises, special education programs, compensatory education programs, career ladder monies and other program costs associated with HB 72 and HB 246. Any additional increase will help offset the rising cost in the overall operations of the school system.

Date Is Changed

The date for the 1984 Weinert Homecoming celebration has been changed to Saturday, October 13, to avoid a conflict with Munday homecoming activities.

Watch the Courier for more information concerning this year's homecoming events.

Local Girls Win Honors At District 4-H Fashion Show

Munday was well represented at the District 3-4-H fashion show held Tuesday, July 24, in Paducah, as three county contestants won honors. Approximately 75 boys and girls participated in the event, which included individual judging of garments, a program on computers for parents and leaders, a luncheon sponsored by West Texas Utilities and a fashion show and awards presentation.

Jae-Jae Reneau was named winner in the beginner division, and Lynn Parker took top honors in the intermediate category. Both girls competed against 18 others in their respective divisions.

Special awards for the best cotton

ensembles were presented by the Rolling Plains Cotton Growers, Inc. Lynn Parker was an award recipient in the intermediate division, and Amy Parker won a cotton award in the senior class.

Jae-Jae is the daughter of Mr. and Mrs. John Reneau, and Lynn and Amy are the daughters of Mr. and Mrs. Doug Parker. These young ladies were chosen to represent Knox County at the local fashion show held May 22.

Other Knox County residents attending the district show were John, Jean, Robin and Missy Reneau, Alice Reneau, Leona Partridge, Frances Parker, Lessie Nicholson and county Extension agent Jane Locknane.

Fire Department Receives Reward For Good Work

The Munday Volunteer Fire Department recently received checks totaling \$300 from Texas Farm Bureau Insurance Companies as expressions of thanks for the department's work on the properties of Zeissel Brothers Fertilizer and Seed near Rhineland and Don Hawkins west of Munday.

The money will be used for the fire department's loss prevention program.

The Texas Farm Bureau Insurance Companies pay fire departments this amount when the department works at a fire in rural areas involving property insured by the Farm Bureau. The insurance company believes fire departments have contributed to reduce the amount of loss involved by fire, and more importantly, to prevent fires. It is their hope this money will help the Munday Volunteer Fire Department in its program.

Homecoming Events Slated

Persons on the planning committee for the 1984 Munday Homecoming have released a schedule of events for that special day, Saturday, October 6.

Registration begins at 9 a.m. in the high school library. Lunch will be served in the cafeteria from 11:30 until 1:30, and a program in the auditorium starts at 2, followed by a pep rally, which kicks off at 3:30 in the gymnasium.

Graduates are invited to attend a reception at the Munday Community Center from 4 until 5:30, and the senior class will sponsor a supper in the cafeteria from 6 until 7:30.

The Homecoming football game against Knox City Greyhounds will begin at 8 p.m. and special events are planned for the halftime ceremonies, including crowning of the Homecoming and Coming Home Queens. A dance at the Rhineland gym will conclude the day's activities.

Past Homecoming celebrations have been huge successes, and this one is expected to be no different. Watch for more information in further issues of the Courier.

Raindrops Dampen Earth Temporarily

Two showers last week gave us hope for more moisture, but the good, soaking rain we desperately need doesn't seem to be much more of a possibility now than it was months ago.

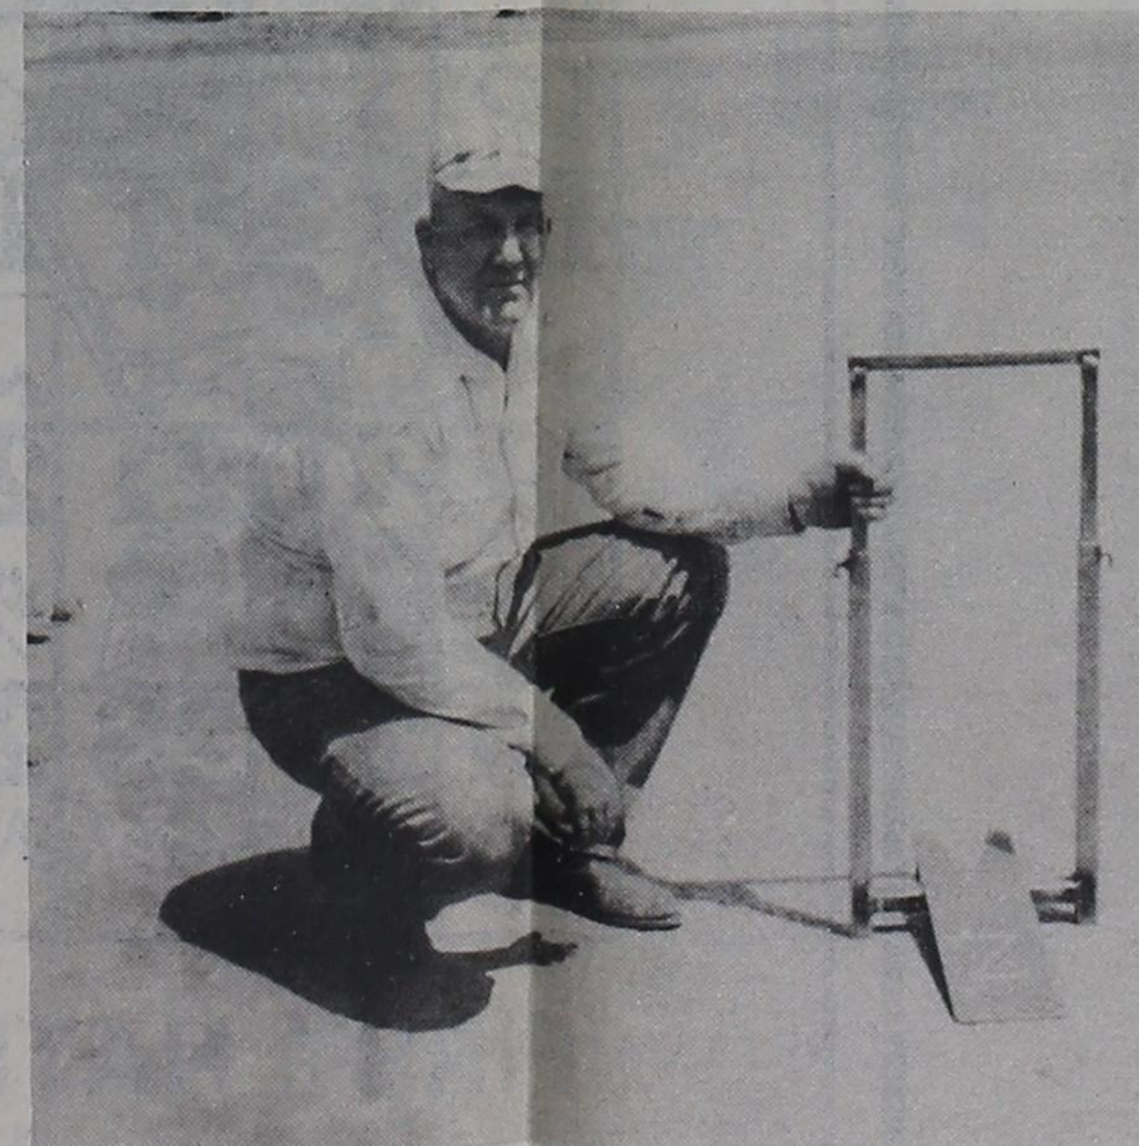

Munday received an official .30 of rain last week, according to Weather Observer Goodson Sellers. Rain fell Tuesday morning, July 24, and again Sunday, July 29, leaving us with somewhat lower temperatures that are especially enjoyable in the morning and evening hours.

Weather forecasters were predicting the possibility of rain later in the week, although they admitted their forecast might be a little off due to the breakdown of a weather satellite over the eastern United States. Weather patterns will be more difficult to pinpoint now, according to the Weather Service. We figure we could do just as good a job of predicting "hot and dry" as they do, without the benefit of modern technology!

TONY SHAWVER with new invention

Lightweight but sturdy, the jack can be left wherever it is most convenient. "I recommend that they be kept painted to avoid any problem with rust," Shawver pointed out,

"but there is nothing on them that can wear out."

The first jack, which was built in early June, was followed by seven more. At this point, Shawver is welding the jacks to order. For a

Conservation Information Day Scheduled

A Conservation Information Day is scheduled for 8:00 a.m. to 4:30 p.m., Wednesday, August 15, at the Soil and Water Conservation District building in Knox City. Local and absentee landowners and operators are encouraged to attend.

Jerry Pearce of the Soil Conservation Service, John Rector of the Agricultural Stabilization and Conservation Service, Joe Boone of the Farmers Home Administration and David Tunmire of the Texas Agricultural Extension Service will be on hand. Each representative will make available their agency's information on conservation and will answer questions as well.

Included with the conservation materials, I will have a number of other publications dealing with gardening, home pests, landscaping, livestock and field crops. Interested persons are encouraged to come by.

This event is being organized by the Knox County Food and Agriculture Council.

Cotton Scouting Aids Insect Control

About two weeks ago, eight local cotton producers, Emory Boring, Extension entomologist, and I took to the fields for a late season Cotton Pest Management Clinic. Our goal was to brush up on cotton insect scouting and then determine when and if insecticide applications are needed.

The bollworm larva and eggs were the main items we were scouting for. Based on the Moth ZV model, peak egg numbers were expected July 26 at Goree and August 4 at Rhineland.

On July 25, the day of the clinic, irrigated fields scouted between Munday and Rhineland had egg counts of 52,000 per acre and worm counts of 10,000 per acre. A dryland field examined only averaged 4,300 eggs per acre and no worms. Boring told the cotton producers at the clinic that the economic threshold for bollworms in blooming cotton is 5,000 bollworms per acre or five bollworms in 13 feet 1 inch of row (40" rows).

Joey Kuehler and Jeff Decker, who have been scouting for the Knox County Boll Weevil Association, reported similar worm and egg counts in irrigated fields on July 23. They also reported most bollworms present were less than half an inch long.

The Moth ZV model indicates a second peak for egg numbers August 27 at Goree and September 3 at Rhineland. Fields should be checked every three to four days where large numbers of bollworm eggs and bollworms have been observed and those that have been treated for bollworms.

Insect scouting is the only way to truly know the population of an insect in the field and if damage is being done. By scouting a cotton producer can time an insecticide application to do the most benefit or maybe even save himself an application.

Mrs. Marguerite King and Patsy and Heather King spent last week in Fort Worth visiting Mr. and Mrs. W. K. Warren and Rene', Mr. and Mrs. Keith Cash and Mrs. Erma Morgan. They also visited Mrs. J. B. Graham and Rhonda of Ennis and Mrs. Mary Lain of Cleburne.

Former Munday Man Dies Friday At Aspermont

Olen Odell Myers, 81, of Aspermont, died at 11:20 p.m. Friday, July 27, at Stonewall Memorial Hospital after a sudden illness.

Services were held Sunday at 2 p.m. at First United Methodist Church in Aspermont with the pastor, Rev. Marty Hamrick, officiating. Burial was in Aspermont Cemetery under direction of McCoy Funeral Home.

Born March 8, 1903, in Kopperl, he married Lola Reed July 27, 1924 in Aspermont. He managed the compress in Munday for a time, held various positions in the area, and lived in Aspermont for most of his life. He was a retired painter and weigher.

Survivors include his wife of the home; a daughter, Mrs. David (Glyne) Baum of Odessa; two sons, Jimmy D. of El Paso and Gary R. of Midland; and six grandchildren.

It's A Boy!

There's a new kid in town! Clifton Dean Haskin made his arrival Tuesday, July 24, 1984, at 6:38 p.m. He weighed in at 7 lbs. 13 oz. and measured 21 inches long.

His proud parents are Mark and Michele Haskin of Goree. Maternal grandparents are Martin and Barbara Bowman and paternal grandparents are Calbert and Nell Haskin, all of Goree. Maternal great-grandparents are John and Mildred Clifton of Colorado City and Floyd and Pam Bowman of Munday. Paternal great-grandparents are Pete and Pauline Beecher of Goree and Bobby and Wayne Burnough of Walters, Oklahoma.

There are also loads of aunts, uncles and cousins to help love and spoil him.

METER TAMPERING NOW A FELONY

The State of Texas has recently adopted an amendment to the State Penal Code making meter tampering a third degree felony. A third degree felony comes with a punishment of confinement in the Texas Department of Corrections for a term of not more than 10 or less than 2 years. In addition to imprisonment, an individual adjudged guilty of a third degree felony may be punished by a fine not to exceed \$5,000.

Before the amendment of the new law, it was a class A misdemeanor for meter tampering unless the loss of service was more than \$200. Under the new law, any meter tampering regardless of the amount of loss is now a felony of the third degree.

Meter tampering consists of, but is not limited to:

- (1) Diverting electricity from passing through a meter device.
- (2) Preventing electric service from being correctly registered by a meter device.
- (3) Unauthorized activation of electric service.

As a special note to our members, it will also be considered meter tampering if a meter is reset and electrical service is restored by anyone other than a Cooperative employee.

All Cooperative meters are sealed. This seal should not be cut or broken without special authorization. In cases where the seal must be cut for emergencies the Cooperative should be notified as soon as possible so that the meter can be resealed.

Teresa Cypert Is Shower Honoree

Miss Teresa Cypert, bride-elect of Montie McAfee, was honored with a bridal shower on Sunday, July 22, at the Munday Community Center. The couple will be married August 11 in the Munday Church of Christ.

Gay Yost and Olga Jim Reid greeted guests at the door and presented them to the honoree, her mother, Mrs. Billy Paul Cypert, her grandmother, Mrs. Eldora Gray of Knox City, the prospective bridegroom's mother, Mrs. Phillip McAfee, and his grandmothers, Mrs. Wilkie Guinn and Mrs. Charlie McAfee.

Cathy Cartwright registered guests, and Mona Choucair and Tena Myers presided at the serving table. The table was covered with a white cloth, and appointments were crystal. Decorations were bouquets of fresh flowers in the bride's chosen colors of pink and burgundy.

Hostesses for the occasion were Mmes. Boyd Baker, Al Cartwright, Robby Crownover, Byron Gass, Ray Herring, Chancey Hobert, Bunny Hutchens, Frank Jackson, Bill Kingston, Leo Koenig, Earlene Kuehler, Maynard Moore, Robert Nix, Dan Offutt, Tom Oustad, Wendell Partridge, L. B. Patterson Jr., Paul Pendleton, Grady Phillips, Olga Jim Reid, Kenneth Sanders, Dan Sloan, Bob Therwhanger, Buddy Urbanczyk, Lendon Walling, Leonard Welch, John Lee Wilde and Charles Yost.

Rhineland Ceremony Unites Miss Bejar, Willy Sanchez

Marisela Bejar became the bride of Willy Sanchez in a nuptial mass at three o'clock in the afternoon Saturday, July 28, at St. Joseph's Catholic Church in Rhineland. Father Bob Strittmatter, pastor, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Luis Z. Bejar of Munday. Mr. and Mrs. Seferino Sanchez of Goree are the groom's parents.

The couple exchanged vows before an arch covered with greenery and nosegays of pink and white blossoms and baby's breath. A basket of fresh flowers stood at either side of the arch, and two cathedral candelabras appointed with greenery and stephanotis completed the setting. Pews were marked with white lace bows, fresh flowers, greenery and baby's breath.

Given in marriage by her father, the bride wore a gown of taffeta and lace designed with a fitted taffeta bodice featuring a high neckline of Schiffler lace and short puffed sleeves. The full bouffant skirt was trimmed in Chantilly lace. Chantilly lace ruffles formed a bustle at the back of the skirt and extended into a chapel length train.

The bride's long veil was held by a white derby hat turned up at the side with a rose and accented with an illusion pouf. She carried a white lace fan with silk roses in shades of pink and white, dogwood blossoms, stephanotis and matching ribbon streamers. White lace gloves enhanced her wedding attire.

Jolanda Ramirez of Munday was maid of honor. Her gown of white lace over acetate taffeta featured a modified sweetheart neckline trimmed in lace and a rose at the waistline.

Christina Sanchez of Goree and Anita Robles of Avoca were bridesmaids. Their dresses were styled like that of the maid of honor except in pink. The attendants carried white lace fans accented with pink and white silk flowers and baby's breath.

Lionor Bejar, the bride's sister, was flower girl. She carried a basket of pink and white silk forget-me-nots with baby's breath and wore a hairpiece designed of the same flowers.

Ring bearer was Leon Anthony Sanchez of Goree.

Edward Sanchez of San Diego, California served as best man. Groomsmen were Jose Escamilla of Munday and Peter Martinez of Goree. Jose L. Bejar of Munday and Gabriel Sanchez of Goree were ushers.

The groom's parents hosted a reception at the Columbus Club hall. Decorations included an arch and candelabras holding pink, white and silver candles, and the serving table was centered with a wedding bell arrangement.

The couple will make their home

in Munday, where the groom is employed by Bearden Oil Services. He is a graduate of Goree High School. The bride, a Munday High School graduate, was named Miss Merry Christmas in 1980 and was a runner-up for Miss Munday High School. She attended Vernon Regional Junior College, where she was a member of the Chapparel Sweethearts Dance and Drill Team and was on the Dean's List.

Band Shirts Have Arrived

Gail Ramirez at T-Shirts, Too has announced that Munday junior high and high school band t-shirts have arrived at her business, and band students need to come by the store and select their t-shirts so the names can be imprinted.

Band students who ordered t-shirts need to take care of this matter as soon as possible.

Mrs. LeAnn Butin, Kelli and Jenny, of Oklahoma City are visiting their aunt, Mrs. Marguerite King and Patsy, this week.

CELEBRATE FIFTIETH ANNIVERSARY

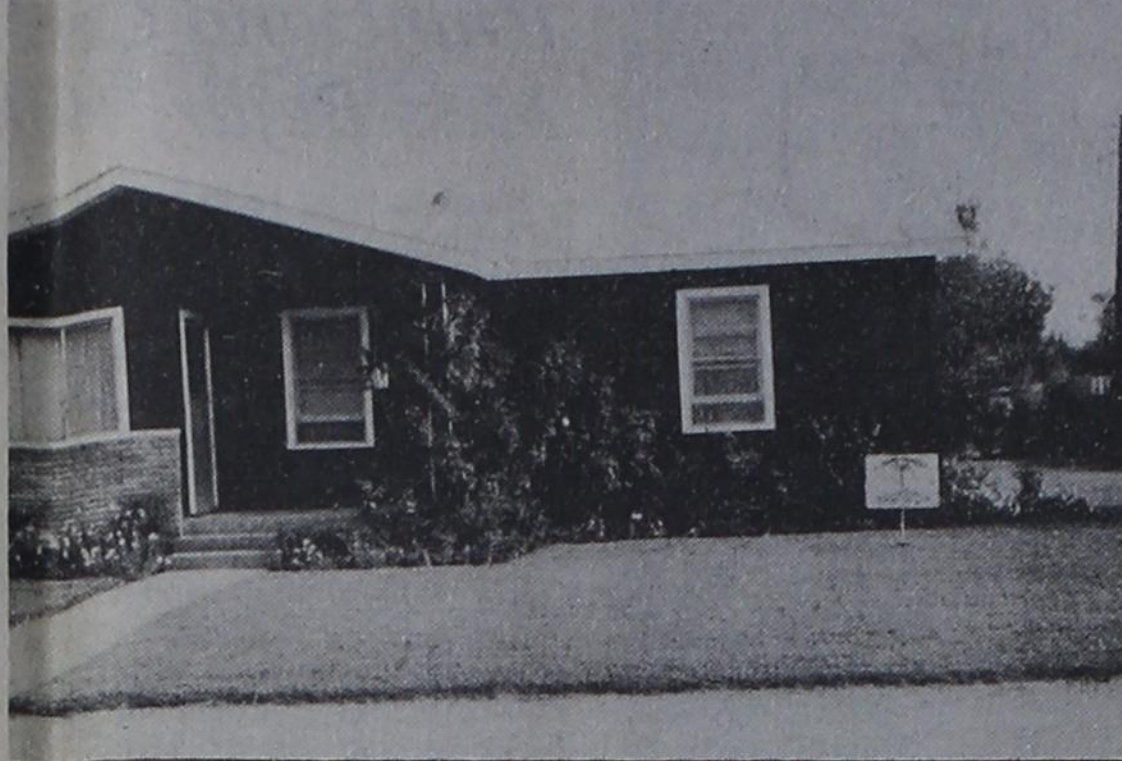

Aubrey and Lorene (Little) Struck, long time residents of this area, celebrated their fiftieth wedding anniversary at their home at 6200 N. Beaty St. in Odessa on July 21. The Strucks lived in Goree eighteen years.

They have five children, Harold and Phillip, both of Odessa, Jeannie Magar and Karen Aaron, both of Fort Worth, and Linda Joyce Straub of Burleson. The children were all present with eleven grandchildren and eight great-grandchildren.

Aubrey's brothers were all present except the twins, Herbert of Mangum, Okla., and Dewey of Eastland. The brothers attending were Archie and Billy of Goree, and T. W. of Wichita Falls. Their sister, who lives in New Carrollton, Maryland, was unable to attend.

Mrs. Struck's family attending were Buddy Little and Johnny of Odessa and Sue Loudermilk of Seymour. One sister, Odessa of Corpus Christi, was unable to attend.

The day was spent in visiting, exchanging gifts and taking pictures. Many friends came by to visit and they received many phone calls from those who couldn't attend. There were 75 present.

A PROFUSION OF brightly colored blooms graces the yard of Mrs. Evelyn Elliott at 541 W. Irving in Munday. Mrs. Elliott had watered her yard just before this picture was taken, and the grass sparkled brightly in the morning sunshine. The green grass and variety of flowers and shrubs influenced the Munday Garden Club judges to name this as their Yard of the Week selection.

Munday Resident's Brother Killed In Traffic Accident

Hubbard L. Nix, 62, of Seymour died Tuesday afternoon, July 24, at the Seymour hospital from injuries suffered in a car-truck accident that morning. He was a brother of Munday resident Robert Nix.

According to Seymour Police Chief Floyd Burke, Nix was heading west on Highway 114 when his 1965 Chevrolet four-door ran under the trailer of a 1979 Kenworth tractor-trailer rig loaded with 48,000 pounds of hay. The truck was headed south on U. S. Highway 283, and the accident occurred at the intersection of the two highways, with the victim's car traveling 190 feet, coming to rest at the north side of Ken's Exxon Station. Nix was pinned inside his car, and Seymour firemen used the "Jaws of Life" rescue tool to free him. He was taken to Seymour hospital by the Seymour/Baylor County EMS and died a short time later.

Services were held at 3 p.m. Thursday, July 26, at the Seymour Church of Christ with ministers Paul Evans and W. E. Burkham officiating. Burial was in Riverview Cemetery under the direction of Seymour Memorial Funeral Home.

Nix was born September 10, 1921, in Baylor County and attended school in the Mary's Creek community. He was a retired farmer.

Survivors include two sisters, Alma Brown and Shirley Vickers, both of Seymour; and a brother, Robert Nix of Munday.

Have you been doing anything interesting lately? We want to know about it. Call in or bring us your news items or locals by Tuesday noon.

School Spending Figures Given By Research League

Texans increased spending on local public schools by \$552 million last year, as trustees in 1,069 school districts adopted school budgets totaling \$9.0 billion. That provided more than \$200 in additional funds for each of the 2,727,512 students in the state, according to the Texas Research League.

Local property taxpayers were tagged for an additional \$327 million to pay for the increase. The remainder was funded by increases in state and federal aid programs and by higher local fees.

The figures come from the latest issue of *Bench Marks for 1984-85 School District Budgets in Texas*, an annual publication of the Texas Research League, an Austin-based, educational corporation engaged in governmental research.

School budgets adopted for 1983-84 called for spending \$2,713 per student for current operations. Munday ISD's budget provided for \$2,532.44 per student based on the 411 students in average daily attendance in 1982-83.

Four of five of these dollars were spent for salaries. Statewide, payroll expense averaged \$2,153 per student, as compared to \$1,824 in Munday ISD. Payroll expense is a combination of salary levels and staffing patterns.

The average salary for classroom teachers paid by Munday ISD in 1982-83 was \$16,636 which was 5.5 percent above the minimum salary prescribed by the state. The average among all school districts in Texas was \$19,501 per classroom teacher, or 21.8 percent over the minimum.

Munday's pupil-teacher ratio average is 14.6 to 1, below the 16.4 to 1 state average. The pupil-teacher ratio is not the same thing as average class size because teachers and students are not necessarily in class the same number of hours each day.

Statewide, the ratio of teachers to students has remained the same the past three years. The report notes that during the 1980s school officials have used additional payroll dollars to increase salaries beyond the rate of inflation, whereas during the previous decade more dollars were spent to hire additional teachers while average salaries grew less than the rate of inflation.

Local property taxes were in-

creased by \$327 million for a total of \$3.6 billion last year. Locally, the Munday ISD's tax levy was decreased by 13.2 percent for 1983-84, as compared to a 10.0 percent increase for the average school district in Texas.

School property tax rates in 1982-83 averaged \$0.613 per \$100 of market value (selling price). The school tax on a property selling for \$100,000 was \$613 in the average school district. Locally, the rate on market value in Munday ISD was \$.991, or \$991 on a property selling for \$100,000.

If the property were a homestead or owned by a senior citizen, the school tax would be less because of various exemptions. Open-space land that qualified would be valued on its productivity value rather than market value.

Revenue lost from exemptions totaled \$679 million, which was \$125 million more than that exempted the previous year. To balance school budgets, the revenue loss from exemptions was imposed upon other taxpayers in the school district.

Preparing school budgets for next year, the report noted, will be difficult. Not only did the Special Session of the Legislature provide substantial additional funds, but also changed the method for allocating aid to different districts. School officials also must begin implementing a variety of new educational programs including new curriculum standards.

Benjamin Students Attend FFA Camp

The Bobby Holder Future Farmers of America Leadership Camp was held at the Bobby Holder Camp site at Possum Kingdom Lake, July 24-26. The Bobby Holder Camp is an FFA camp that has operated for the past 31 years for the Future Farmers of America in Area IV.

Attending from Knox County were Amy Griffith of Benjamin, Area IV first vice-president; Benjamin chapter representative Lorrie Rolston and these students' advisor, Mr. and Mrs. Dick Dickson.

A strain of carrots with shorter, blunter ends has been developed so the carrots will not puncture the plastic bags in which they're packaged.

CONTESTANTS IN THE Knox County 4-H home designer competition were, in back row from left, Susan Whittemore, Misti Zeissel and Robin Reneau; and in front row, Dixie Reid, Kacy Longan, Jae-Jae Reneau and Missy Reneau. The girls are holding a room accessory they constructed to complement the room they designed and drew to scale. Kacy won the contest and will advance to district on August 11 in Wichita Falls.

August 3, 1967 MACHEN TEXACO PURCHASED BY JACK STEWART

Announcement was made this week that Jack Stewart had purchased Ernest Machen's Texaco Station with the transaction being completed August 1.

Mr. Stewart is an experienced service station manager and stated that it would be their desire to serve their customers with the best and fastest service.

He invites you to visit him in his new location and that your patronage will be appreciated.

CANTALOUPE AND WATERMELONS ARE BEING HARVESTED

The Knox County cantaloupe and watermelon producers have been busy harvesting these crops recently. Hard rains July 19-20 did considerable damage, particularly to many cantaloupes that were about ready to harvest. The excess rain kept water standing in some fields too long.

Grain sorghum prospects are real good in the county at the present time. The majority of the early crop is maturing and looks good in different parts of the county. Late grain sorghum also looks very promising at this time, but of course will be dependent upon weather conditions later on unless it can be irrigated.

Mr. O. E. Moore of Goree has a 50 acre block of grain sorghum maturing well. This field was irrigated when needed and looks promising for near 6,000 pounds per acre yield.

Harold Jones, also of Goree, has early grain sorghum with a potential 6,000 pounds per acre yield.

GORÉE MAN GALLON BLOOD DONOR

Mr. W. D. Robinson of Goree has received the American Red Cross Certificate for being a gallon blood donor.

Mr. Robins resides in Goree. He is self-employed as a contract pump-

L. JANE LOCKNANE
COUNTY EXTENSION AGENT - HOME ECONOMICS

An emotion like joy or fear of sadness, anger is neither good nor bad. At its worst it can lead to marital breakup, child abuse, even murder, but such extremes can be avoided. Anger can bring couples together as well as tear them apart; it can cause a surge of constructive energy as well as the lethargy of depression; it can encourage independence as well as reinforce old doubts.

The spectrum of anger ranges from mild annoyance to vengeful fury. As it escalates, physical symptoms intensify. Anger tells us that something is wrong and needs changing.

Different things trigger anger in different people, and the situation that provokes anger one day may not do so the next. Just what makes a person angry and to what degree usually depends on a combination of three variables:

1. Context - your reaction to any stimulus depends on what else is going on at the time.
2. Background - we all have things that we do the same way our family did as we were growing up. Often when someone does these things differently it brings on anger.
3. Personality - some of us are quick to anger, others are not. If your self-esteem is high, you're less likely to take offense.

If anger is a warning that something is wrong, then its purpose is not to win debating points but to right the wrong. Here are some tips to help your skills at processing anger effectively.

1. Choose your battle - When your anger is over some trivial cause, try to ignore it.
2. Cool off before acting on anger - We have all heard, "Stop and count to ten." This is good ad-

vice. Deep breathing, meditation, jogging and even counting can help release muscles and resolve the physical component of anger.

3. Stick to the point - Explain why you are really angry.
4. Recognize that the other person may have a point.
5. Write it out - This often works better for some than a face-to-face discussion.
6. Talk to a friend.

Anger has different styles. Understanding another person's style may make it easier to live with. What are you?

"The Terrible-Tempered Mr. Bangs" regards anger as a way of life, trusting no one, finding insult where none was intended.

"The Quiet One" withdraws when angry, leaving others wondering what went wrong. He or she may act sullen or not speak for days.

"The Martyr" feels no anger, yet seethes underneath. He or she defers to everyone and meekly accepts harsh criticism. But this master of sabotage will hide a hook in a compliment, arrive late, sprain his ankle on your birthday.

"The Hipshooter" is quick to express anger and quick to forget it. He or she is impulsive, volatile, often surprised at the negative reaction he evokes.

"The Counterattacker" hides his hurt over angry criticism by criticizing in return.

Demanding that a person change his style will rarely ever work. We have to learn to recognize different styles of anger and learn to deal with each.

So, if you're mad about something, good, anger can help you get what you want if you use it constructively.

**STATEMENT OF
NONDISCRIMINATION**

B-K Electric Cooperative, Inc., has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964 and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities.

Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color, or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants, or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D.C. 20250, or the Rural Electrification Administration, Washington, D.C. 20250, or this organization, or all, a written complaint.

Such complaint must be filed not later than 180 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations.

**County Receives
Remittance For
Mixed Drink Tax**

State Comptroller Bob Bullock recently sent checks totaling \$11.8 million to 222 counties and 426 cities as their share of the state's 10 percent mixed drink tax collected during the second quarter of 1984. Bullock said the state collected a total \$40.9 million in taxes on the sale of mixed drinks during the quarter, up 5.5 percent over the same period in 1983.

The mixed drink tax is collected by the Alcoholic Beverage Commission and city-county rebates are sent out quarterly by the Comptroller's Office. Bullock said the mixed drink tax has brought in \$80 million so far during 1984.

The Texas Legislature recently increased the mixed drink tax from 10 to 12 percent, and decreased the city and county share of the tax from 15 to 12.5 percent, effective October 2, 1984, but the actual amount returned to cities and counties will not change, and the state will get the entire gain from the tax increase, Bullock said.

Knox County received \$144.55 for this period on a total tax revenue of \$963.69.

CARD OF THANKS

It's great to live in Munday, Texas where you feel love one to another, which we felt in the loss of my brother, Hubbard Nix. We wish to express our thanks for the memorials, phone calls, cards, flowers, food and most of all, your prayers. God bless each of you.
