SHERRY PENDERGRAPH

## Mrs. Pendergraph Takes On Duties As Assistant Engineer

The Texas Department of Transportation in Munday has hired Sherry Pendergraph as Assistant Engineer.

Sherry started her new job in Munday, and will be assisting Area Engineer, Gary Mizer.

"Sherry has been real enthusiastic about working for TxDOT. So far, she's been a fast learner, and I'm very pleased with the job she has been doing," Mizer stated.

After serving five years and seven months in the Air Force, she decided to quit in '82 and take some college classes. It took her 10 years, having to stop and start again several times, but she finally earned her degree as an agricultural engineer in December of 1992 from Texas Tech University.

Sherry moved to Munday from Oklahoma. She travels to Lubbock on the weekends to be with her husband, Randy, who is an entomologist at Reese Air Force Base. "Munday has a lot to offer, and everyone is so nice," Sherry said.

She has recently joined the First Baptist Church, which is a big change from the one she was attending. She was a member of the Indiana Avenue Baptist Church in Lubbock, which has over 3,000 members.

We're glad to have you in Munday, Sherry!

## WEATHER REPORT

Following is the weather report for seven days ending Monday, August 23, 1993, as compiled and recorded by Glynn Weaver, local U.S. weather observer.

	HIGH	LOW	RAIN
August 17	101	75	
August 18	100	75	
August 19	101	70	
August 20	102	75	
August 21	102	72	
August 22	100	74	
August 23	97	77	
Rainfall year to date 15.83			

## Visitor Surprised By Local's Honesty

We received this letter through the mail from South Africa, and thought our readers might enjoy it:

Dear Sir:

My husband and I are missionaries in South Africa. In June we were traveling through Munday on our way to Midland. We were traveling with our family and six South Africans. We stopped at the Dairy Queen and while there, I left my wallet in the restroom with just over \$100.00. (To missionaries, that is a lot of money.) I did not discover it was missing until Monday after having been in your town on Saturday. The last time I remembered seeing it was at the Dairy Queen.

We called and the manager, I believe her name is Dulah Lambeth, informed us that someone from your community had found it and turned it into her and that she had it locked up in her vault. This was the last of our money and to say I was relieved is an understatement.

We had come to the states to see family for the first time in two years, and every cent was important. I was so overwhelmed with the

honesty of the people there and deeply grateful. Mrs. Lambeth mailed my wallet to me immediately. I am so thankful to see that there are indeed many honest people left in our crazy world. I am living in a country with many problems and I know that here my wallet would never have been turned in. Our friends from South Africa were so very impressed. It made me very proud.

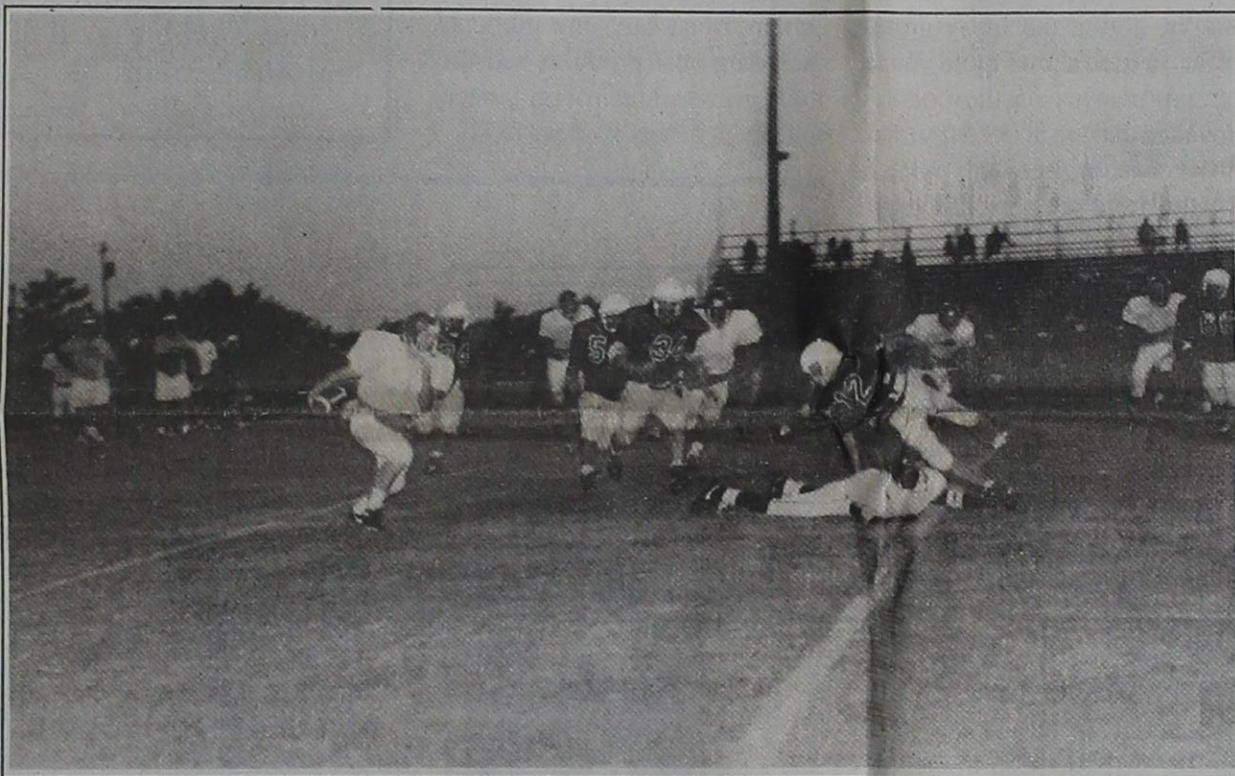

If you could please print a thank you in your paper from me, I would appreciate it. We read so many terrible things, it will be nice to read something positive. If you do print this, please send me a copy.

Thanks very much.

Sincerely,  
Brenda Speer  
Republic of South Africa

After talking to Dulah, we found out our good samaritan was Winters Matthews.

Brenda Speer thanks you, and we thank you, Winters, for being such an honest person, and for making our town look good!

MOGUL RUNNINGBACK AARON KISER runs around the right side while Bronco Flye lays a block to aide Aaron in gaining yardage in last Thursday's scrimmage against Anson. The Munday coaching staff stands in back watching for any mistakes that need worked on before the regular season kicks in. Munday will be hosting the Stamford Bulldogs in another scrimmage this Friday night at 7:00 p.m.

## Moguls To Scrimmage Stamford Here Friday

The Munday Moguls were impressive in their first scrimmage of the year against the Anson Tigers last Thursday night in Anson.

"I was real pleased. We started off with some youngsters who weren't used to playing varsity ball and then at the end we made lots of improvement," Coach Jim Edwards commented. "I thought our aggressiveness and intensity was pretty high and I thought we out hit them."

Munday's and Anson's first teams both ended up with one touchdown each.

"We need to work more on execution and staying with blocks on the offensive line," Edwards commented. "We also need to work on our passing game as well as conditioning."

The Moguls will be scrimmag-

ing the Stamford Bulldogs Friday evening, August 27. The scrimmage will begin at 7:00 p.m.

The Athletic Booster Club will be offering homemade ice cream, cokes, and tea at the scrimmage against Stamford Friday night.

If you would like to be listed on the booster page of the football programs, the Booster Club will have a sign-up sheet at the concession stand.

You may also purchase your reserved seat tickets at the scrimmage.

## Goree Homecoming In The Planning Stages

Activities are being planned for the Goree Homecoming to be held November 13.

Watch for details in upcoming issues of *The Munday Courier*.

## Getting Ready For Harvest Fest '93

The First United Methodist Church in Munday has announced their plans for another Harvest Fest '93 to be held Saturday, October 8.

The popular Country Store, with loads of craft and gift items, will be managed by Janice Dutton and Becky Ratliff. Joy Baker and Pansy Koenig are in charge of the bake sale.

Once again, an auction will be held, with David and Carla Key and Kent and Cindy Josselet in charge. The meal will be prepared by Wink Partridge, David McGaughey and Kenneth Hendrix.

As in the past, a beautiful handmade quilt has been completed by the ladies of the church. Jan Williams will be in charge of the ticket sales for this project.

Harvest Fest has become a tradition at the Munday church, and is an event that is looked forward to by the community, as well as the members.

DRIVE CAREFULLY . . .

## Construction Underway On Highway 222 West

Area residents need to be aware of the highway construction now going on between Munday and Knox City on Hwy. 222.

Approximately 10 miles of road repair, starting at the eastern city limits of Knox City and ending at FM 267 west of Munday, is now underway.

Jordan Paving Corp. out of Irving was awarded the contract for this project.

Type of work to be done will be to widen the subgrade out, add additional base and the two-course surface treatment. Also, the structures will be widened and have safety end treatments put on them and several sideroad structures will be re-installed with safety ends. Base material will be taken from the Little League Ranch north of Knox City, owned by Troy Powell. The cost of the project will be \$2,113,855.

On Thursday, August 19, a pre-construction meeting with the contractors was held at the Highway Department to discuss the different phases of the construction and how they will handle traffic, and to establish lines of communication with the contractors and personnel.

"The most important thing on any highway project is safety," Gary Mizer, Area Engineer, emphasized. He wants the public to

be informed about what will be happening so accidents can be avoided, if possible. He advised the contractors when to expect the heaviest traffic, which will probably be in the early morning and late afternoon when people are driving to and from work.

The highway work should take no longer than 202 working days, Mizer said. Jordan Paving Corp. "anticipates fairly fast construction on this job, not using this many days," he stated. The weather will be a big factor in the time it takes to complete the job.

There will be detour travel lanes to allow passing around the construction zone. Vertical panels will also be placed where it will be easy to distinguish where the traffic needs to drive.

During the construction phase, local residents and farmers will be told when they are fixing to start work around their property, and how long it will take. There should be no problem as to gaining access to their land during this time, Mizer said.

Everyone is encouraged to drive carefully on this stretch of highway during the next few months. All safety precautions by the highway department and Jordan Paving will be taken to ensure your safety.

## Enrollment Figures Down From Last Year's Totals

With the first week of school behind us, Munday ISD reports a slight decrease in enrollment compared to last year's figures. They had 470 enrolled the first week of school, 16 less than in 1992.

Doug Donoho, Munday Elementary principal, reports 292 in Pre-Kindergarten through sixth grade. Phil Hall, High School Principal, reports 178 in junior high and high school. The sixth grade has the largest class, with 46, and the ninth grade has the smallest class with only 22 students.

Class totals in elementary are: Pre-K, 37; Kindergarten, 36; first grade, 24; second grade, 40; third grade, 39; fourth grade, 33; fifth grade, 37; and sixth grade, 46.

Secondary school breakdown is: seventh grade, 40; eighth grade, 29; freshmen, 22; sophomores and juniors, 27 each, and seniors, 33.

The 1993-94 school year is officially underway, but hang in there

kids, your first holiday is less than 2 weeks away, which is Monday, September 6, Labor Day.

## Reserve Seat Tickets Available At Courier Office

Reserve football seat tickets for home football games are now on sale at the *Munday Courier* office. The Booster Club will also be selling them at the scrimmage against Stamford Friday night.

If you had reserve seats last year, you get first choice as to whether you want to keep them. They will go on sale to the public at halftime of the Munday vs Haskell football game September 3.

Purchase your seats early so you won't forget, or you may lose them to someone else!

\*\*\*  
HAVE A NICE DAY!

## Heat Unit Formula Charts Progress Of Cotton Crops

The Texas A&M Vegetable Research Station said the degree-day (DD-60s) is one of the most useful ways to assess cotton development. The formula involves adding the maximum and minimum temperatures for each day, dividing by two and subtracting 60.

Stage of Development	Average DD60s Required
Plant to emergence	60
Plant to 1st square	480
Plant to 1st bloom	900
Plant to peak bloom	1600
Plant to 1st open boll	1900
Plant to 70 percent open boll	2500
Degree days for June 14 through August 22: 1877.0	Degree days for August 16 through August 22: 184.5

## Booster Club To Sponsor Fund Raisers For Band Trip

The Munday Purple Cloud Band will be performing at the State Honor Band Concert in San Antonio in February. The Band Boosters are working hard to raise the funds needed for this big trip, and need all the cooperation from the area residents as possible.

The Band Boosters sponsored a co-ed baseball tournament over the weekend, and it was a huge

success. The grilled hamburgers and homemade ice cream went over really well with the players and spectators.

Another fund raiser now going on is the Dallas Cowboy Weekend giveaway, which includes one night's stay at *Wilson World* hotel, 2 tickets to the Cowboys vs New York Giants football game, and transportation from the hotel to

the game and back. Extra cash will also be added to help pay for meals and transportation. During the game, Tom Landry will be inducted into the *Ring of Honor*. This takes place on November 7.

Businesses accepting donations for the Cowboy Weekend are Michels Corner, Home Building Center, First National Bank in Munday, Munday Tire and Appli-

ance and Beaty's.

The winner will be announced at halftime on October 22 at the Munday/Spur football game.

On September 3, the Band Boosters will sponsor a hamburger supper at the high school cafeteria from 5:30 to 7:30 p.m. You may purchase tickets from any band member.

County Executive Director

**PECAN REFERENDUM**

The Pecan Promotion and Research Plan became effective on May 1, 1992, as authorized by the Pecan Promotion and Research Act of 1990. The Act requires that the Secretary conduct a referendum among eligible pecan growers, grower-shellers, and importers to determine whether to continue, terminate, or suspend the Plan.

Eligible voters are pecan growers and grower-shellers who have been engaged in the production and sale of pecans and importers who have been engaged in the importation of pecans anytime during the 2 years period of September 1, 1991 through August 31, 1993.

There are no minimum quantities required to qualify a voter.

If you wish to vote, you must register in person at the local ASCS office that normally serves the county in which the registrant's residence is located or where the registrant's headquarters office or business is located.

**DISASTER DEADLINE TO REVISE CERTIFICATION**

You have until August 31 to revise your certification and make CU for PAY out of failed crop acres if you destroy the crop or if it has been previously destroyed. This would guarantee the rate of deficiency payment on the destroyed acres - however - you would draw deficiency on 8% less acres when you opt to go the guaranteed route.

You would still be eligible for disaster on the original amount planted up to the maximum permitted acres if you had that much planted and previously certified as the crop.

**Social Security Fraud Can Look Legitimate**

Some Social Security recipients might be receiving official-looking letters intended to look as if they were sent by the Social Security Administration of the Federal Government. However, the Direct Marketing Association warns that these letters might be deliberate attempts to defraud consumers.

Recently, the Social Security Administration invited several groups to form a coalition whose purpose will be to educate the public about misleading advertisers and the laws that can prevent them from operating.

Learning how to spot fraudulent letters can help consumers avoid problems and will assist in reporting the letters and their senders to law enforcement authorities. Consumers should be alert to solicitations in envelopes bearing false warnings of the SSA's imminent demise and "official looking" markings. Often, these mailings will warn the recipient that he or she risks losing benefits unless the consumer takes action, such as making a contribution or paying a membership fee.

Material inside the envelope often asks the consumer to pay for a service or product the SSA offers citizens free of charge. Sometimes the letters ask consumers to reveal private financial information that should never be provided to anyone but the SSA or a bank, and then only if specifically requested.

Consumers who receive suspicious looking mail concerning

Social Security should contact the Social Security Administration, Office of Public Affairs, Misleading Advertising, Box 17740, Baltimore, MD 21235. By contacting the SSA, consumers will be helping the SSA track down fraudulent operations and at the same time will be protecting themselves and others from becoming victims of fraud.

**Molds On Foods -- What To Do?**

You see a fuzzy white mold on your cheese -- what do you do with it? You see a black fuzzy mold on your ham -- what do you do with it? You see a suspicious fuzzy mold inside a home-canned product -- what do you do with it?

Are molds dangerous to your health? Some molds cause allergic reactions and respiratory problems. And a few molds can produce poisonous substances called mycotoxins that can make you sick. According to the USDA's Meat and Poultry Food Safety Hotline, you can't always tell if the mold is dangerous to your health. Some mold toxins are powerful in small amounts, others aren't. You can't always scrape away or cut the mold off food.

It's important to understand that mold is a type of fungus that has "roots" that penetrate the food, a stalk that rises above the food, and spores that form at the ends of the stalks, giving the fuzzy growth. When a food shows mold you can see, you can bet that the roots have invaded and are under the surface. In some cases, the toxins produced by the mold are present through-

out the food.

Following are guidelines for handling moldy food and to reduce the chance of mold growth in foods in your kitchen.

General guidelines are that you can save hard or firm foods that have only a minor mold problem. On hard cheeses, cut off at least an inch around and below the mold growth. Don't let the knife touch the mold. However, if you notice mold growth on any cheese, sour cream or yogurt, discard them.

Other foods that molds invade are cured and smoked meats. Cut the mold off these, following the one inch rule, if it is only a small spot. In all cases, keep the knife out of the mold and keep everything clean and sanitized in your refrigerator. Mold spores spread. Discard moldy bacon, frankfurters, lunch meats or opened canned ham. Be wary of and discard any country dry-cured ham that has brown or black mold. Discard any moldy chicken. Beware of moldy vegetables and fruits. Cut out moldy spots of firm items, but discard any products that have a soft texture and into which mold roots could have easily penetrated.

Discard any moldy bakery products, corn, nuts, dried peas and beans and peanut butter. Pastry products are porous in texture and could support root growth; others may support growth of molds that produce harmful mycotoxins.

Any home canned products with mold growth are suspect and should be discarded.

Finally, be an informed consumer. Don't buy any products, including fresh produce, with any mold growth, and inform grocery managers of any suspect food.

**Goree Class of '83 Area Native, Meet In Birkenfeld Home For Reunion Virginia Horn, Dies In Arizona**

It's been ten short years since the Goree senior class of 1983 sat in the rooms at dear old Goree High.

Eleven of the seventeen graduating seniors met in the home of Ethel Birkenfeld, mother of Debra Birkenfeld Graf, Saturday evening, August 14. Debra and her mother had class pictures and old annuals laid out for everyone to look through. Lots of laughing went on as they shared fond memories.

Members of the Class of '83 attending were Terry Gray and Karen Urbanczyk Gray of Rhineland, Christina Sanchez Johnston of Wichita Falls, Virgil Reagins of Lubbock, Mitch Presnall of Amarillo, Linda Nickerson White of Waxahachie, Kent Urbanczyk of Goree, Barry Moore of Kingsport, Tennessee, Pam Hutchens Lawson of Levelland, Bucky Decker of Goree, and the host, Debra Graf. Several of the spouses attended, as well as their children.

Also attending were Bob Presnall, a former teacher at GHS, and his wife, Peggy.

\*\*\*

Virginia Sue Webb Horn, age 63, died Saturday, August 14, 1993 at Saint Joseph's Hospital in Tucson, Arizona.

A memorial service was held at 9:00 a.m. August 17 in Randolph Park in Benson, Arizona.

Born in Goree, Texas, on April 2, 1930, she attended schools in Knox City until 1945, Munday High School in 1946, and graduated from Alpine High School in 1947. She received her degree from Shannon School of Nursing in San Angelo and nursed in many hospitals in Arizona.

Mrs. Horn is survived by her husband Buddy Horn of Benson, Arizona; three sons, Theodore W. Guy Jr., Michael L. Guy and Donald W. Guy of Phoenix, Arizona; a step-son, Douglas A. Horn of Tucson, Arizona; her mother, Mrs. Dovie (Webb) Waldrup of Midland; a brother, B. D. Webb of Pensacola, Florida; a sister, Mrs. Ann Bellomy of Midland; a step-sister, Margaret Hill of Munday; and two grandsons. She was preceded in death by her father, Tom Webb.

**~ THANK YOU ~**

A great big thank you to all my wonderful friends and relatives for holding a benefit dance in my honor. Special thanks to the *Last Chance* band, to those who donated items for the auction, and to Henry Dancer for getting it all together.

May God bless all of you for your support and encouragement.

Renita Raynes & family

**VERA NEWS**

By Mrs. Thelma Coulston

Mrs. Bonnie Powers, of Lubbock, Mrs. Barbara Friday of Slaton and their sister, Gail and her daughter, Eva of Lubbock were recent visitors with the Ladie's uncle, Mr. and Mrs. Carl Coulston.

Mrs. Kathy Nelson of Archer City spent Friday with her parents, the Perry Kuykendalls.

Mrs. Wilma Beck has been a patient in Bethania hospital in Wichita Falls where she had knee replacement surgery Thursday.

Mrs. Maurine Parris visited recently with Mrs. Madge Boyd and Mrs. Opal Balch in the Texhoma Christian Care Center in Wichita Falls.

Mrs. Dorietta McGaughey of Seymour and Mrs. Katherine Epp of Glendale, Arizona visited Tuesday evening in the home of Mr. and Mrs. Harold Beck. Katherine is a daughter of the late Joe McGaughey.

Mrs. Betty Jo Kinnibrugh, Mrs. Maurine Parris, Mrs. Joyce Scott, Mrs. Aleitha Beck, and Mrs. Ranell Walker of Seymour were in Wichita Falls Thursday where they celebrated Aleitha's birthday at a local restaurant.

Mrs. Reba Nix of Munday spent Sunday with Mrs. Violet Patterson.

Ward Brook of Wichita Falls and Rayleen Brown of Floydada visited Sunday afternoon in the

home of his aunt, Mr. and Mrs. Harold Beck.

Sunday visitors in the Jerrill Trainham home were Clifton and Stephanie Brandon of Leuders and Toby and Eva Ann Crooks of Seymour.

Reservations for the noon meal at Vera's Homecoming, Saturday, September 4, and Sunday, September 5, have been mailed this week to Billy Dan Richards, Bill Rutledge, Elmer Rutledge, Cecil Dowd, Erma Jean Boggs, Cloris Reeves, Cecil Schroeder, Louise Phillips, Lynda Atwood, Gene Louder, Bob McGaughey, Bobby Roberson, Harold Hurd and Bill Townsend.

Claudell and Mary Bratcher were in Wichita Falls, Wednesday, to be with his sister, Wilma Beck who had knee surgery.

Mrs. Maurine Parris was in Sanger recently where she visited with Mr. and Mrs. R.L. Tucker and with friends, the Randal Murry family. Randal, a former coach in the Seymour school system, is now high school basketball coach in the Sanger I.S.D. and his wife Linda is 6th grade English teacher. Maurine also visited with a friend, Ellen Wood in Whitesboro.

Harold and Edith Beck visited Thursday with Mrs. Wilma Beck in Bethania hospital, in Wichita Falls.

## Chamberlain Clan Gathers For Annual Family Reunion

The family of the late Marvin and Edna Chamberlain met for their annual family reunion August 7-8 at Lake Arrowhead. It was held at the home of a grandson, Keith Chamberlain, son of the late Buster Chamberlain and Bobbie Chamberlain Oneal of Seymour.

Three of the children were in attendance: Merle Moore of Goree, D. G. Chamberlain of Fort Worth and Polly Williams of Weatherford. One son, Jim, of Seal Beach, California, was unable to attend due to illness.

The group was especially glad to have Marvin's brother, Jack Chamberlain of Dallas, to meet with them. Jack is 88 years old and the last living member of Marvin's immediate family. Jack's wife Shirley, their son Pat, his wife Cindy, and their daughter Chelsea, also attended.

Grandchildren attending were Gaylon Chamberlain of Newton, Kansas, D'Anne Chamberlain of Austin, David Chamberlain of Grand Prairie, Joy Clark of Amarillo, Dolan Moore and Marion Cunningham of Goree, Linda McFadden of Bryson, Jeanne Venator of Arlington, Vera Ellen Campbell of Wichita Falls, Martie Simpson of Milburn, Oklahoma, Karen Key of Arlington

and Keith Chamberlain. Great-grandchildren attending were Kelly Jo Moore of Goree, Randy Chamberlain of Wichita Falls, John Chamberlain of Hurst, Stephanie Greer of Moore, Oklahoma, Jimmie and Justin Maddox of Weatherford, Lisa Venator Morton of North Richland Hills, Danniell Chamberlain of Grand Prairie, Dana Barnard of Newton, Kansas, and Scott Chamberlain of Laurence, Kansas.

We also had four great-great-grandchildren present: Melissa Chamberlain of Burkburnett, and Josh, Jennie and Jamie Barnard of Newton, Kansas.

Others attending were: Jim Love, Jimmy and Betty Hawkins of Lubbock, Bobbie Chamberlain Oneal, Dinah Chamberlain, Mandy and Leah, Arnold Simpson, Ann Chamberlain, Billy Moore,

Doug Cunningham, Ray Clark, Diane Chamberlain, Belva Chamberlain, Clifton and Nadine Irick of Pilot Point, Oscar Oggier, Robert Venator, Mary Ann, James and Erin Lawrence, Nancy Oneal, Laurin Scott of Laurence, Kan-

sas, J. J. Denton and Ann Calhoun of Arlington, Dan Barnard and Derek Wiley of Weatherford.

Our thanks to our wonderful hosts, Keith and Nancy, for such a wonderful time. All are already planning for next year.

MR AND MRS. JOHN MAYFIELD

## Mayfields To Celebrate 50th Wedding Anniversary

Longtime Weinert residents, John and LaVern Mayfield, will celebrate their 50th Wedding Anniversary Sunday, August 29. A reception will be held from 2 to 5 p.m. at the Haskell National Bank community room.

The Mayfields were married August 29, 1943, at Mattson Baptist Church, approximately 12 miles southeast of Weinert.

John operated a grocery store in Weinert for more than 35 years and continues his farming and

cattle interests. LaVern is active in civic and church work. They have been members of the First Baptist Church in Weinert for 46 years.

Hosting the celebration will be the couple's children, Arch and Edy Lou Mayfield of Plainview, Evelyn Mayfield of Dallas, and Alexia and Duane Rimmer and their daughters, Adrienne, Elyse and Meredith of DeSoto.

All friends and family are invited to attend.

## Birthdays & Anniversaries

August 25 - Kenneth Groves.  
August 26 - Robert Hosea.  
August 28 - Cheryl Bunton Houtchens, Steven Sosa.  
August 29 - Ray Moore.  
August 30 - Manuel Serrano, Susan Edwards.  
August 31 - Robert and Kathy Bowen.

## Former Pastor Retires, Makes Home In Munday

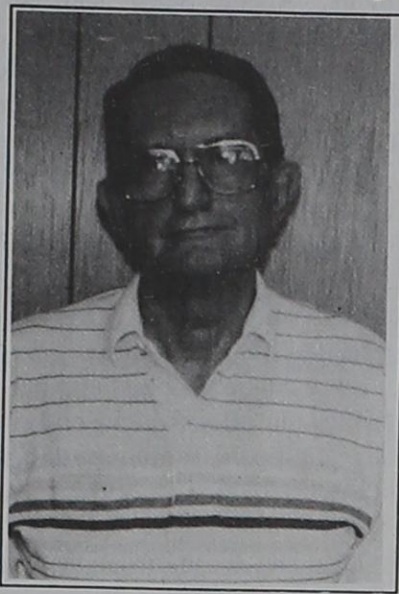

A former First Baptist Church pastor has returned to Munday to retire and enjoy the small town life.

Dr. H. B. Graves, Jr., was pastor of the local church from January 1967 to January 1978. "I got to be a pretty good fixture in Munday, Texas," he laughed. He decided to make Munday his retirement home because "it was Mildred's home town." Mildred, his wife, was born and raised in Munday.

Rev. Graves married the former Mildred Hendrix on January 5, 1981, after both their spouses had died of cancer just one year apart. His late wife, Ruth, was also from the Munday area. She taught junior high math here for ten years. She passed away in February of 1980.

July 1, 1993, was the official date of Rev. Graves retirement. "I had to have back surgery two weeks after I retired, so I'm not doing nothing now," he said with a laugh, "but I'm going to be doing supply preaching and interim pastorate duties."

He delivered his first message at the First Baptist Church on January 15, 1967. During his eleven

DR. H. B. GRAVES, JR.

years, the church was involved in extensive mission work, including the Rio Grand ministry, West Virginia ministry, major crusades in Spain and Germany, and six major crusades on the west Coast.

He was named Munday Citizen of the Year in 1973.

Rev. Graves' last pastorate was at Dogwood Hills Baptist Church in Palestine. "We built it from the ground up," he stated. The Baptist General Convention of Texas had a goal to build 2,000 new churches by the year 1990, starting in '85. "In fact, we made about the twenty-fifth hundred, we went over our goal," he said with a smile.

Rev. Graves said he hasn't had a chance to get around and visit all his old friends, but is looking forward to doing so in the near future.

## "On A Wizer Note"

by Paul Weiser,  
Knox County Extension Agent - Agriculture

August - one of those hot, dry, windy, wish it would rain and give us some relief months. The last thing in the world anyone should think about is a garden. Right?

The fall season in Texas is quite suitable for an outstanding garden. Vegetables such as lettuce, mustards, radishes, turnips, beets, and spinach all work well in a west Texas fall garden.

Some of the varieties to look for are: lettuce - 'Black Seeded Simpson', 'ButterCrunch', 'Salad Bowl', or 'Red Sails'; curled mustard - 'TenderGreen' or 'Southern Giant'; turnips - 'Purple Top White Globe' or 'Just Right'; radishes - 'Cherry Belle'; beets - 'Detroit Dark Red'; spinach - 'Early Hybrid 7'.

Early September is the latest you will want to start a fall garden. Be sure to keep the garden evenly watered. Soaker hoses and trickle irrigation seem to do a fine job without disturbing younger seedlings or leaving the foliage damp - an invitation for fungal diseases.

At this time an additional layer of mulch is very helpful. This will aid in keeping the soil cooler on those hot days and save on watering.

Now that the garden is growing good, let's move to that tree that has just been planted in the front lawn.

Be sure to water woody plants throughout the fall and winter.

Dry roots are more susceptible to freeze damage than are wet ones. Be careful not to water too heavily. The soil around the tree needs to be evenly moist but not water-logged.

A big problem with trees is over watering. If the soil does not drain

well you will be more likely to overwater. For example: a clay soil will take in water slower than sandy soil. The clay soil will also hold that water longer. If the sub-soil (at a depth of one to two feet - where most tree roots are) is clay, there may be an excess amount of water in that layer while the top six inches appears dry.

The best way to determine the soil drainage is at the time of planting. After digging a hole for the tree add 2 or 3 gallons of water (depends on the size of the hole). Time how long it takes for the water to completely disappear. This can help determine if the site is a well drained location or if poor drainage will be a problem. There is a recipe on how to do this in the Extension office.

Water can cause so many problems with lawns and gardens. Everything from drought to drowning and even diseases.

This past spring Knox County witnessed a time span which brought great moisture to the area. This also caused many fungal disease problems. If you have any problems with your lawns, trees or gardens give me a call in the Knox County Extension office in Benjamin. If I am unable to solve the problem, Mark Terning, County Extension Agent-Horticulture, Wichita County, is always willing to answer my questions.

California, Crowell, TX between the hours of 8:30 a.m. and 4:30 p.m. Monday through Friday. Deadline for submitting bids is September 15, 1993. 47-2tc

## SHERIFF'S SALE

The State of Texas  
County of Knox  
Notice is hereby given that by virtue of a certain Execution issued out of the Honorable 46th Judicial District Court of Foard County, on the 22nd day of June, 1993, by Janis Everson of said District Court for the sum of ten thousand, two hundred and nine & <sup>81</sup>/<sub>100</sub> dollars and costs of suit, under a certain judgment, in favor of State of Texas, acting by and through its Texas Department of Mental Health and Mental Retardation in a certain cause in said Court, No. 3888 and styled State of Texas, acting by and through its Texas Department of Mental Health and Mental Retardation vs. Gene Gordon, Et Al Defendant, recovered a judgement against Mary Pattie and placed in my hands for service, I, Henry L. Dancer, Sr. as Sheriff of Knox County, Texas, did, on the 19th day of July, 1993, levy on certain Real Estate, situated in Knox County, Texas, described as follows, to-wit:

**Fourth Tract:** The South 120 acres of the Southwest Quarter (SW/4) of Section No. 118, Block C, H. & T. C. Ry. Co. Surveys, Abstract No. 1449, situated in Knox County, Texas.

**Fifth Tract:** The North one-half (N/2) of the Northeast Quarter (NE/4) of Section No. 150, Block C, H. & T. C. Ry. Co. Surveys, Abstract No. 1334, situated in Knox County, Texas and containing 80 acres of land.

And levied upon as the property of Mary Pattie and that on the first Tuesday in September, 1993, the same being the 7th day of said month, at the Courthouse door, of Knox County, in the City of Benjamin, Texas, at the hour of 10 a.m. by virtue of said levy and said Execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Mary Pattie.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the *Munday Courier*, a newspaper published in Knox County.

Witness my hand, this 19th day of July, 1993.

Henry L. Dancer, Sr.  
Sheriff, Knox County Texas 46-3tc

**PUBLIC HEARING #2**  
City of Goree will conduct a public hearing at 7:00 p.m. on Tuesday, September 7, 1993, at the City office for the purpose of finalizing the activities and elements contained in the Community Development Program Application. Authorization will be given to submit this application to the Texas Department of Housing & Community Affairs. All citizens, particularly low income residents, are invited and encouraged to attend. Handicapped individuals that wish to attend this meeting should contact Glenda Decker to arrange for assistance. The application will be available for inspection at Goree City Office during regular business hours. 47-1tc

## GARAGE SALE

**GARAGE SALE:** Saturday, 8-7 510 S. 9th. Lots of misc. 47-1tc

## School Pictures To Be Taken Next Tuesday

Say cheese . . . it's time to take your picture!  
Elementary and secondary school students will have their pictures made next Tuesday, August 31, at the school.  
Photos usually turn out best if the students are dressed in bright colored clothing.  
The seniors will have picture retakes on Monday, August 30.

## CLEAN TEXAS 2000

QUESTIONS TO THE CLEAN TEXAS 2000 HOTLINE: 1-800-64-TEXAS

**Q:** We've succeeded in riding our home of most toxic products, but a tough one for us is charcoal lighter fluid. We're barbecue addicts! Are there alternatives?

**A:** Most environmental questions concern the lighter fluid, so that's the logical starting place. You can buy or make a chimney starter, a metal cylinder roughly the size of a three-pound coffee can, with a handle and a perforated interior platform about three-fourths of the way down. Place charcoal on the platform and a couple of sheets of crushed newspaper underneath. Light the newspaper and in about 20 minutes, the charcoal is ready. If you wish to replace the charcoal as well, studies have shown that electric grills are the least polluting, with natural gas and propane grills not far behind. Of course, these grills cost more than charcoal grills.

**Q:** With faucet aerators, don't you have to leave the water on twice as long to get the job done since you're not getting as much water? Do faucet aerators really work?

**A:** Yes, faucet aerators save water. Even though the flow is reduced, aerators make it feel as though more water is coming out because air is mixed into the water as it leaves the tap. You can easily reduce the amount of water used in a sink by 50 percent by installing an aerator. Here's an example: If you wash your hands by turning on the faucet and letting the water run over your hands and down the drain, you'll notice little difference in having air mixed with water. But if you fill the basin with water first, it will take longer to fill it. Tests have shown that a family of four can save as much as 280 gallons monthly by installing aerators in the kitchen and bathroom. You will also save energy by using less hot water. And by the way, aerators are among the simplest of all conservation devices to install. Check with your water utility before purchasing aerators - many utilities give them away as part of their conservation programs.

Your newspaper runs this column as a public service in cooperation with the Texas Water Commission. If you have questions about reduction, reuse or recycling of waste, call the Texas Water Commission Environmental and Recycling Information Center at 1-800-64-TEXAS, or write CLEAN TEXAS 2000, P.O. Box 13087, Austin, Texas 78711-3087.

## Social Security Numbers Used In Different Ways

by Patty Brandt, Representative  
Everywhere you go, someone is asking for your Social Security number. Many businesses and schools use the Social Security number as an identification number for their records. Employers use the Social Security number to report tax information required by the Internal Revenue Service. And of course we use your Social Security numbers to keep a record of your earnings while you're working and a record of your benefits once you're receiving Social Security checks.

If you want to work, you must have a Social Security number. You probably have one because every child in the United States over the age of one needs a number to be claimed as a dependent on his or her parent's income tax return.

If you do not have a Social Security number, you must apply for one from Social Security. There is no charge for this service. To apply by phone, call the toll-free number 1-800-772-1213, and ask for a form SS-5, Application for a Social Security Card. You may also ask for this form at a Social Security office near where you live. If you are 18 or older, you must go to a Social Security office in person to apply.

You must show us your birth certificate and some form of identification. A driver's license, school record or medical record may be used. If you're not a U.S. citizen, other documents are necessary to get a number. Check with Social Security for more information.

If you have lost your card, you can get a replacement by filling out the same form and showing some identification.

You also need to complete the SS-5 form if you have changed your name so you can get a new Social Security card. The new card will have your old Social Security number but will show your new

name. You do not get a new Social Security number. You will need an official document that identifies you by both your old name and your new name. For example, a marriage certificate, a divorce decree or a court order that changes your name. You may have two documents, one which shows your old name, and one which shows your new name.

All documents which you use for identification purposes must be original documents or certified copies of these documents. Uncertified photocopies of these documents are not acceptable. Take or mail the completed SS-5 and the documents to your nearest Social Security office. Your documents will be returned to you right away.

If you have any questions about applying for a Social Security card, or about the documents you need to show us, contact your nearest Social Security office. You may also call 1-800-772-1213 business days between 7 a.m. and 7 p.m. for help.

H. B. and Mildred Graves

## Extension Service Names New District Director

A veteran educator with the Texas Agricultural Extension Service has been named that agency's new District Director for agricultural programs in the 25-county Rolling Plains District.

M. Scott Durham, who has more than 14 years with the Extension Service, the last three as Director of its East District headquarters at Overton, will assume the post here September 1. His appointment was announced by Dr. Zerle L. Carpenter, State Extension Service Director. Durham will replace Ed Garnett, who retired last year after

more than 30 years with the agency.

Durham, 38, is a native of Fort Worth. He holds a BS Degree in Animal Science and a Master of Agriculture Degree, both from Texas A&M University.

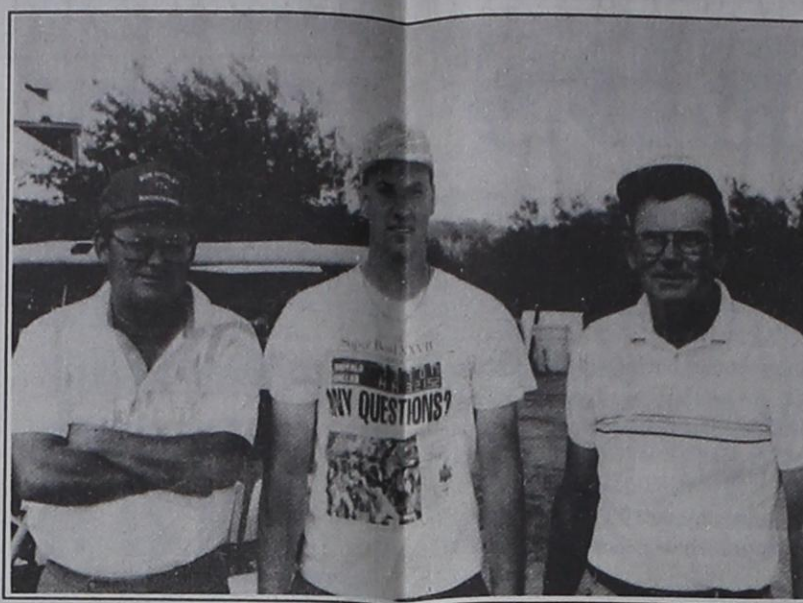

He joined the Extension Service in 1979 as a County Extension Agent in Lee County, serving there for two years. He then served six years in Bandera County as County Extension Agent and agriculture program leader. Durham then served Comal County for three years as agriculture program leader and trainer agent. He was named District Director for the East District in 1990.

Durham and his wife, Debbie, have two daughters and a son: Casey, 11; Laura, 9; and Mike, 7.

The Texas Agricultural Extension Service is an arm of the Texas A&M University System. County Extension Agents are professional educators who live and work with the people in a designated county and form the basic unit of the agency. District Extension Directors supervise agents and administer programs. Direct educational support is provided to agents by Extension Specialists, educators with a particular subject matter background.

Counties comprising the Rolling Plains District, effective September 1, are: Archer, Baylor, Childress, Clay, Cottle, Dickens, Foard, Hall, Hardeman, Haskell, Jack, Kent, Knox, Montague, Morley, Palo Pinto, Parker, Stephens, Stonewall, Throckmorton, Wichita, Wolbarger, Wise and Young.

**Harvest Fest '93  
coming  
October 9**

SUNDAY'S GOLF SCRAMBLE winners were Troy Nuckols, Corey Moore, and Jack Nuckols. This awesome trio shot a thirteen under par Sunday afternoon despite the windy condition. After the scramble was over those who participated were treated with their fill of watermelon.

## At Your Service

Dr. Larry Fitzgerald  
Minister, Church of Christ

Q: Why was someone forced to carry Jesus' cross? Who was Simon of Cyrene?

A: The first three gospels record that Simon was compelled to carry Jesus' cross (Matthew 27:32; Mark 15:21; Luke 23:26). Mark and Luke tell us that Simon was coming in from the country. Mark indicates that Simon was the father of Alexander and Rufus. Little is known about this fellow except what is written in the gospels. A Rufus is mentioned by Paul in Romans 16:13. Paul called him "eminent in the Lord" and said that his mother was like a mother to him. It's possible that this was the son of the fellow who helped Jesus carry his cross. It is very possible that Simon and his sons became Christians due to this event.

Cyrene (pronounced with a long "e" at the end) was the capital of Cyrenaica in north Africa just west of Egypt. Simon may have lived there and was coming to Jerusa-

lem for the Passover feast. Or he might have originated in Cyrene and had moved to the countryside near Jerusalem.

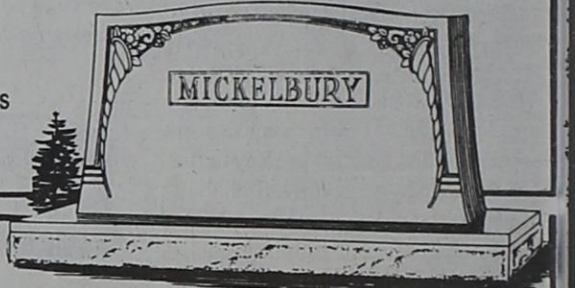

Why was Simon compelled to carry Jesus' load? Under Roman law, a soldier could force an individual to carry a load (compare with Matthew 5:41). Jesus had not been allowed to sleep and had just undergone horrible torture. He was physically exhausted. His physical collapse made it necessary that someone carry the cross therefore Simon carried it. It was not out of sympathy that the soldiers did this... just practicality to get their victim to his execution place.

One lesson we learn from this event is that Jesus had human weaknesses just like us. He would not draw upon some sort of supernatural strength.

## Notice of Public Hearing on Tax Increase

The North Central Texas Municipal Water Authority will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in 1992 by 11.2 percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property.

The public hearing will be held on September 2, 1993, 1:00 P.M. at 145 N. Munday Ave. in Munday, TX 76371.

FOR the proposal: Joe Clonts, Lee Bruce, Buster Echols, M.M. Booe, Kent Trainham & Royce Williams.

AGAINST the proposal: None

PRESENT and not voting: None

ABSENT: Leon Burkhram & Claude Payne

(Names of all members of the governing body, showing how each voted on the proposal, if absent, indicate absences.)

The statement above shows the percentage increase the proposed rate represents over the effective tax rate that the unit published on Aug. 11/12, 93. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	\$ 18,573	\$ 19,717
General exemptions available (amount available on the average home, not including senior citizen's or disabled person's exemptions)	\$ -0-	\$ -0-
Average taxable value	\$ 18,573	\$ 19,717
Tax rate	.1805 /\$100	.1995 /\$100 (proposed)
Tax	\$ 33.52	\$ 39.34 (proposed)

Under this proposal taxes on the average home would increase by \$5.82 or 17.4 percent compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would increase by \$ 0.019 per \$100 of taxable value or 10.5 percent compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.

## NOTICE OF PUBLIC HEARING ON KNOX COUNTY APPRAISAL DISTRICT BUDGET

The Knox County Appraisal District will hold a public hearing on a proposed budget for the 1994 fiscal year.

The public hearing will be held on September 13, 1993, at 7:30 P.M. at the Knox County Appraisal District, Knox County Courthouse, Benjamin, Texas.

A summary of the appraisal district budget follows:

The total amount of the proposed budget is \$137,000

The total amount of increase over the current year's budget is \$ -0-

The number of employees compensated under the proposed budget will be 2 and 2/3 (full-time equivalent).

The number of employees compensated under the current budget is 2 and 2/3 (full-time equivalent).

The appraisal district is supported solely by payments from the local taxing units served by the appraisal district.

If approved by the appraisal district board of directors at the public hearing, this proposed budget will take effect automatically unless disapproved by the governing bodies of the county, school districts, cities, and towns served by the appraisal district.

A copy of the proposed budget is available for public inspection in the office of each of those governing bodies. A copy is also available for public inspection at the appraisal district office.
