KEEP MUNDAY MONEY IN MUNDAY

Anderson-Clayton Cotton Company Buy Plant of Munday Cotton Oil Company

New Owners of Properties Will Greatly Enlarge Plant and Make Many Improvements In Oil Mill Plant In Munday

What is possibly the largest business deal that has ever been made in Munday was that consummated last week when the oil mill plant here was purchased by the Munday Cotton Oil Company by the Anderson-Clayton Company of Houston, which company owns a number of cotton oil mills throughout Texas, and is one of the leading oil firms in the state.

The transfer of the oil mill plant here to the Anderson-Clayton Company is the first move of the Munday Cotton Oil Company toward the sale of all their properties, including the oil mill here and gin plants located in Knox, Haskell and Baylor counties, and which were owned by H. A. Pendleton of Farmersville, Fred Pendleton of Dallas and Jim Pendleton of Farmersville, and we are informed that the gin plants of the company will be taken over by H. A. Pendleton and operated under the name of the Pendleton Gin Company.

Immediately upon taking charge of the oil mill properties here the Anderson-Clayton Company announced that many improvements would be made in the plant, new machinery will be installed, additional storage capacity will be erected and the daily capacity of the mill will be increased approximately twenty tons, and it is said that the mill will be operated for a longer period each year under the new ownership.

The oil mill plant will be operated under the name of the Munday Cotton Oil Company, Incorporated, and will continue under the able management of Mr. T. G. Bengue, who has successfully managed the properties for the past four years. We are also pleased to learn that no change will be made in the personnel of the operating force, Mr. H. P. Hill having been retained by the new owners as cashier and Mr. Meno Carroll as superintendent, and the new owners of the mill will follow the same policy that has been followed by the Munday Cotton Oil Company in giving its full co-operation to all movements that have for their purpose the advancement of Munday and the Munday country.

It will also be gratifying to the citizenship of this community to know that in the sale of the oil mill properties Mr. H. A. Pendleton is to retain his interests here in the gin plants of Munday and nearby towns, and we are informed that he contemplates making many decided improvements in the machinery of the plants in order that the patrons of these plants may enjoy the advantage of the best of service in his line.

The local plant of the Munday Cotton Oil Company has been under the management of H. A. Pendleton since 1911, at which time H. A. and Fred Pendleton purchased the plant and took over the management of the plant. At that time the plant was in a run-down condition and the properties were not on a paying basis, but under their control the concern was placed on a sound basis and has prospered throughout the years that it has been under their control, and as a citizen Mr. Pendleton has ever been ready and willing to contribute liberally toward the advancement of this community, and it will be good news to his many friends that he is to retain interests in this community.

The oil mill properties of the Anderson-Clayton Company throughout West Texas are under the management of Mr. J. C. Jones of Abilene, and we are assured that this concern will prove an asset to Munday and the Munday country, and we are pleased to extend to them a hearty welcome to our city.

W. C. Bevers went to Wichita Falls the latter part of last week for a visit with her daughter, Mrs. Theima Albright, and was accompanied home by Mrs. Bevers, who has been with her daughter during her serious illness, and they report her as getting along nicely.

Miss Lois Lott of Abilene was a guest recently in the home of Mr. and Mrs. U. S. Rogers.

MEN'S BIBLE CLASS TO ENTERTAIN THEIR WIVES

On Friday evening on the lawn of the Methodist church the Men's Bible Class, conducted by the Rev. R. B. Freeman, will entertain their wives, and it is our understanding that on this occasion the tables will be turned and the order of the evening will be to "let the men do the work."

KNOX LODGE 851 ELECTS OFFICERS FOR THE YEAR

At a meeting of Knox Lodge, No. 851, A. F. & A. M. held on Monday evening of this week the following officers were elected to serve for one year, beginning on July 1st: Austin Caughran, W. M.; J. D. Kethley, S. W.; John Spann, J. W.; C. A. Eiland, treasurer; Lee Haymes, secretary; D. E. Holder, Tyler.

Old Fashioned Home-Coming Service At Baptist Church

We have decided to have an old-fashioned home-coming service at the Baptist church on the fourth Sunday in this month, which will fall on the 26th. All living ex-pastors and members are being invited to be with us on that day. Sermons and addresses will be given by these visitors. Dinner will be served on the ground and the program will last throughout the day. There are at least three distinct things we would like to accomplish in this service. In the first place we would like to have a great fellowship meeting together. In the second place we want to break our Sunday school attendance record, and in the third place we want to have another dollar day for our church building fund. We have two weeks to get ready for the service. Let us not wait to get busy securing our dollar, or dollars. Those of you who were here the other day we gave our dollars will remember what a great time we had. Let us seek to make it even better this time. We hope there will be some who will bring as many as ten silver dollars to this service. There is no investment on earth that is calculated to bring as much return as this one.

We will have our regular services next Sunday. Our Sunday school is going well over two hundred and twenty five each Sunday, but we were having around three hundred before the scarlet fever scare. Let us not be satisfied until we make up the loss.

Visitors are always welcome to all our services.
P. D. O'Brien.

Messdames Warren, Mauldin and Kethley Club Hostesses

Messdames Fred Warren, D. T. Mauldin and J. D. Kethley were hostesses to members of the Munday Study Club Thursday afternoon with an 84 party in the home of Mrs. Warren. Pink and white, the club colors, were used in the decorations of the reception rooms. Crystal baskets of sweet peas marked the center of each table. Unusually attractive tally cards, of pink and white rose petals with funny face centers, were pinned on the guests at the door.

Refreshments carrying out the motif were served to Messdames Duval, Chester Bowden, J. O. Bowden, F. O. Campbell, H. F. Barnes, J. C. Borden, C. A. Eiland, Lovelace, Langford, McStay, W. R. Moore, W. E. Reynolds, Burns, Barton, John Lane, Tate, Elliott, Maples, Briggs, Neff, J. R. Smith, Hendrix, Freeman, W. H. Atkinson, Fritz, L. Hobert, McGlothlin, Miss Winnie Langford, Mrs. Miss Jones of Dallas and Mrs. Flenningan of Littlefield.

Mr. and Mrs. Rid Campbell went to Floydada the latter part of last week for a visit with Mrs. Campbell's parents, Mr. and Mrs. L. S. Webb.

Indian Serenaders of McMurry College In Fine Program Here

The Indian Serenaders, quartette from McMurry College, Abilene, gave an excellent program at the Methodist church on Thursday evening of last week, and were greeted by an audience that filled the main auditorium of the building.

The young men comprising this quartette are artists in their line, and the program given by them was equal to any that has ever been presented here, and was such as to reflect with credit upon the great institution which they represent, and we are quite sure that those who heard their program have a more kindly interest in this great school than heretofore.

HOME-RUN FEATURE GAME AT RHINELAND SUNDAY

The score of the Rhineland-Benjamin game, played at Rhineland on last Sunday afternoon, resembled that of the Texas League scores that are being hung up almost every day, the score being 16-3, with Benjamin taking the small end of the score.

Features of the game were home runs made by McGlothlin of the Benjamin aggregation and by L. Kuehler of Rhineland.

These two teams will play again Sunday afternoon at Benjamin at 3:00 o'clock.

NOTICE

Due to the financial condition of the country, the city council has been very considerate of the citizenship of Munday in regard to the connecting onto the sewer, and this is to give notice that everyone within 200 feet of the sewer line must be connected not later than November 1, 1927. Prosecution will follow failure to comply with the sewer ordinance passed by the city council on the 23rd day of September, 1926.

By order of the city council in regular session June 9, 1927.
J. J. F. C.

G. H. Jones, of Seymour, secretary of the E. K. Local Insurance association, was here on Friday of last week visiting his brother, C. B. Jones and family, and looking after business matters.

A Glorious Rain Over Knox County

Jupiter Pluvius has been very generous with this section of West Texas this spring, having supplied this section with a sufficient amount of rainfall all along to meet the needs of our farmers, and this week all of West Texas has been visited by a bountiful rain, which will be of untold benefit to those sections of West Texas that were needing rain to bring up their crops.

Reports indicate that the rain this week was of a general nature, having extended to practically all parts of the state, and its value is far too great to conceive.

Protracted Meeting Church of Christ to Begin June 19th

Through the courtesy of Mr. Jim Jackson in granting us permission to set our tent upon his property one mile south-west of Hefner for the purpose of conducting a protracted meeting, beginning June 19th, and continuing for ten days, we, the Church of Munday, feel very grateful to Mr. Jackson for this special favor and co-operation, and we will endeavor to use our best efforts to make the meeting a pleasant and successful one to all who may attend.

Especially do we urge all our membership, as well as the entire community, to make a small sacrifice of time and attend the evening services. Let's make this meeting a success and a blessing to all. Evangelist J. E. L. Harrison will do the preaching.
—The Elders.

THE THORP MISSIONARY SOCIETY WILL HOLD ICE CREAM SUPPER FRIDAY

We are requested to announce that the ladies of the Missionary society of the Thorp Methodist church will serve ice cream on the lawn of the church building on Friday evening of this week, and a cordial invitation is extended to the public to attend.

Mrs. Jimmie Ashcroft of Bormart was here on Friday of last week visiting her sister, Mrs. L. E. Loveless.

Chamber of Commerce Meets Thursday Eve; Important Business

The Munday Chamber of Commerce will meet on Thursday evening at the Masonic hall, and all members are urged to be present, as business of importance is to be brought before the body.

The program of the organization has been going along nicely and we believe that with the co-operation of the entire membership all of the goals of the organization will have been realized within a very short time and other worthy undertakings can be given attention, so let's get in there and stay in until we have accomplished more really worthwhile things for our town and community.

AT METHODIST CHURCH SUNDAY, JUNE 19, 1927

Don't forget there awaits you a hearty welcome at 9:45 at our Sunday school. Classes for all ages.

Preaching by the pastor at 11:00 a. m. and 8:30 p. m.; Leagues: Junior 4:30 p. m.; Senior 7:45 p. m.; Subject 11:00 a. m.—"The Christian Race." Subject 8:30 p. m.—"The Remedy for Sin."

Come and be at home with us. You are never a stranger but once.
R. E. Freeman, Pastor.

INFANT DIES

On Tuesday morning the infant child of Mr. and Mrs. H. R. Colthorp died, and the remains were carried to Goree for interment in the family burying grounds there. The sorrowing parents have the sympathy of the community in their sorrow.

Mr. and Mrs. P. V. Williams and children and Miss Charlotte Williams left on Wednesday of last week for Chanute, Tennessee, where they will visit with Mr. Williams parents and return Miss Charlotte to her home, she having attended school here, and her many friends are hoping that she will return to resume her studies at the opening of the next school term. They went by way of Dallas, where they stopped for a brief visit with Miss Opal Maples.

Farmers' Short Course Will Be Held Over Knox County Monday and Tuesday

Agricultural Experts From Texas Agricultural and Mechanical College Will Give Lectures On Topics of Interest to Farmers

NOTICE TO THOSE WISHING TO JOIN ORCHESTRA

Mr. L. D. Campbell is very anxious for all those who are interested in the organization of an orchestra to see or call on him at once. There is a great need of a good orchestra in Munday and we are sure that we can have one if those interested in music will give Mr. Campbell their co-operation. See him or call him at No. 70.

NEW OFFICERS CHOSEN BY KNOX CHAPTER 261 R. A. M.

At a meeting of Knox Chapter No. 261, Royal Arch Masons, on Tuesday afternoon the following officers were elected for the ensuing year: Roscoe Partridge, H. P.; John Spann, K.; Leland Hannah, scribe; C. A. Eiland, treasurer; Lee Haymes, secretary; D. E. Holder, guard.

Knox and Baylor 4-H Girls To Hold Two Days Encampment

The 4-H club girls of Knox and Baylor counties will hold their annual encampment at Cartwright pasture Friday and Saturday, June 17 and 18. Preparation has been made for a hundred girls. Only girls that are up with their work are entitled to attend.

The girls will bring enough food for dinner and supper Friday. The Goree Study Club will cook and serve breakfast Saturday. The Munday Study Club will serve dinner in the hall above Bell-Moore Chevrolet Co. Saturday.

FRIDAY

11:00 to 12:00—Get acquainted meeting.
12:00 to 1:00—Noon.
1:00 to 1:30—Organization of camp—Mrs. Kelley.
1:30 to 2:00—Recreation.
2:00 to 3:00—Social etiquette—Miss Maxwell.

SATURDAY

6:00 to 6:30—Exercise.
6:30 to 7:30—Breakfast.
7:30 to 8:00—Recreation.
8:00 to 9:00—Poultry Work.
9:00 to 11:30—4-H Appropriate Dress Contest.
12:00 to 1:00—Dinner.
1:00 to 2:00—Tour.
2:00 to 3:00—Final arrangements and camp dismissal.

The Head 4-H Club Meets In Home of Mrs. M. H. Stone

The 4-H Club girls met Friday afternoon at the home of Mrs. M. H. Stone with 5 members present, 7 visitors, the local leader, Miss Cannon and the Home Demonstration Agent, Miss Mayme Maxwell.

The club work for this meeting was dyeing and tinting handkerchiefs and scarfs.

We made plans for the encampment and also for the Mutt and Jeff entertainment.

The members present were: Thelma Miller, Cleo Polson, Grace Polson, Georgia Belle Roden and Balma Swain.
—Reporter.

J. W. Davy has returned from Dallas, where he took his little son, Bobby, the latter part of last week, and we are pleased to state that the little fellow is getting along nicely following the stroke of infantile paralysis which he suffered, and physicians attending him feel confident that he will suffer no ill effects from the stroke. Mrs. Davy will remain with him at Dallas until he has recovered sufficiently to be brought home.

John Spann made a business trip to Stamford on Wednesday.

On another page of this issue will be found a complete schedule and a list of speakers for the Farmers Short Course to be held in Knox County on Monday and Tuesday of next week, and here let us say that this page was made possible through the co-operation of the merchants of Munday whose names appear at the bottom of the page, and is contributed by them in the interest of better farm conditions in Knox county.

On this program will be found the names of men and women who are well known throughout the Southwest as authorities in their respective lines, and many of them have been engaged as instructors with the Agricultural and Mechanical College of Texas.

One of the outstanding features of the Short Course will be the address and information given by R. R. Reppert, Entomologist, of A. & M. College. He will offer valuable information concerning the many field pests with which the farmers are forced to contend each year. He will offer valuable information as to how these pests may be exterminated or controlled whereby they may do a minimum of damage. He will tell you of the most approved methods of controlling insect life of every character.

Walter Burton, who will talk about poultry, as he always does, is well known in Munday, having for several years served as judge of the local poultry shows, and his ability as a poultry expert is known far and wide. Walter is not only a poultry expert, but is an interesting talker as well, and may find time to tell some new stories.

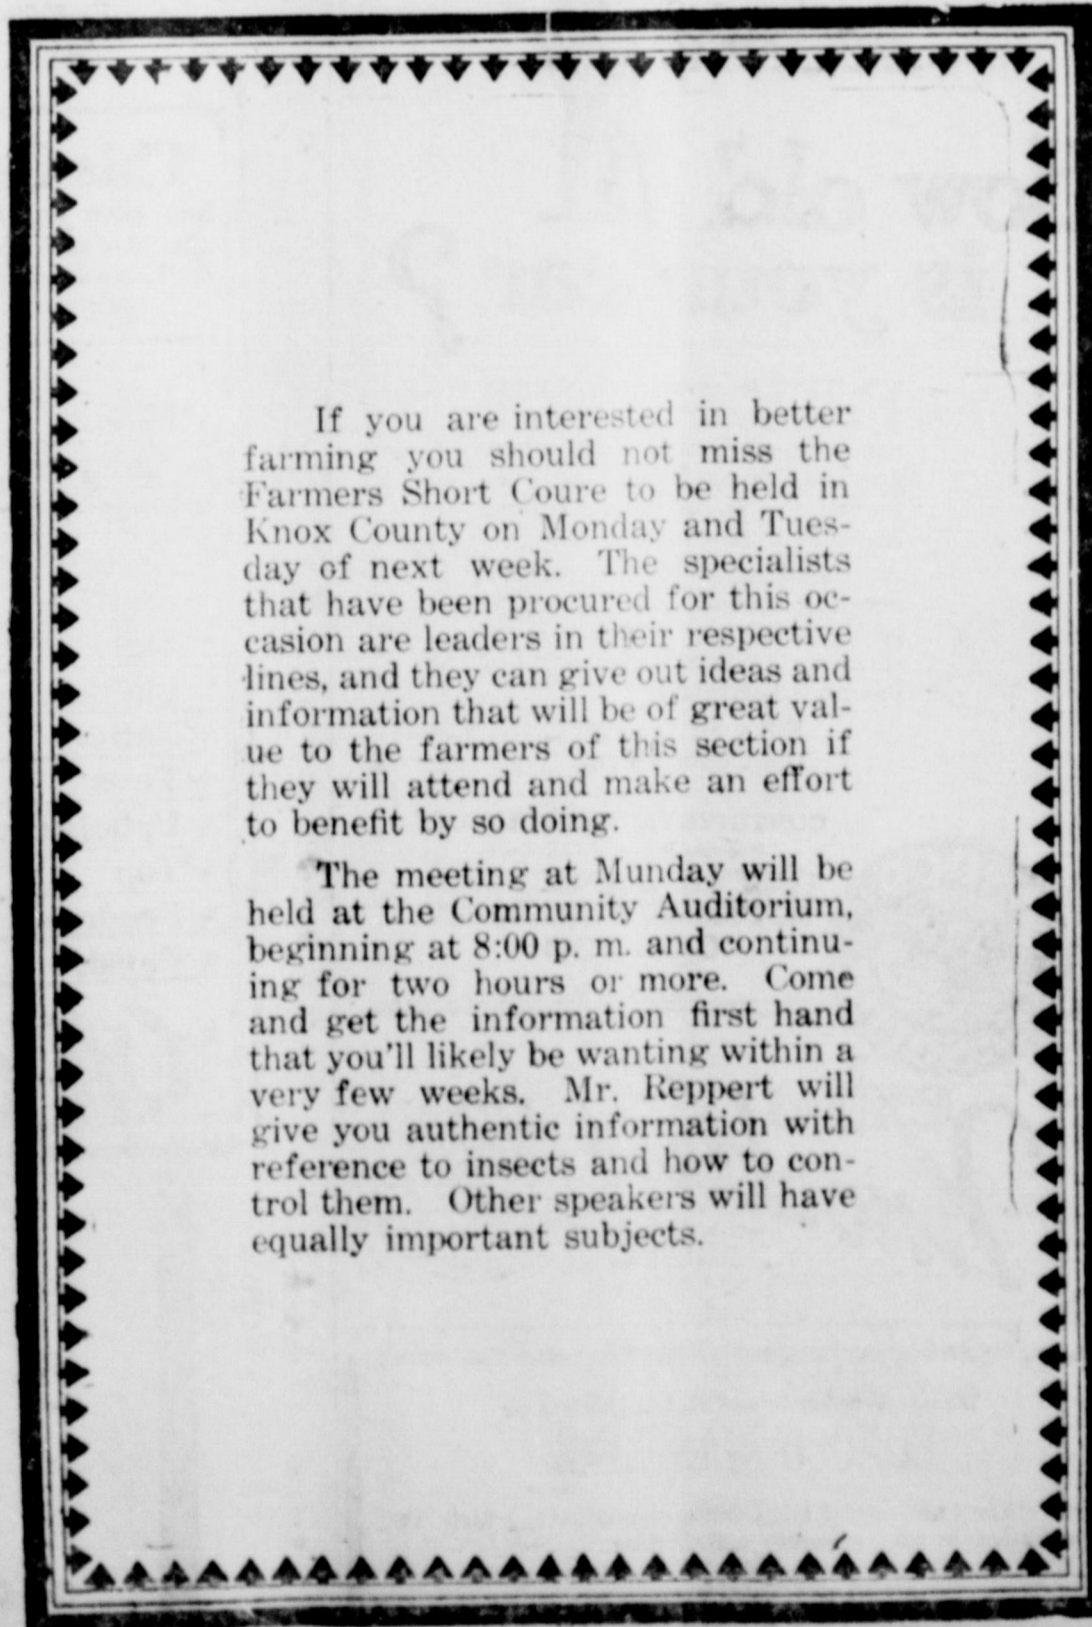

Then there are a number of other experts that will come here to give the citizenship of this community the benefit of the many years of study they have given to these particular subjects, and we believe that it will be worth the time of any man or woman, boy or girl to hear these talks.

In conclusion let us say a word of praise for our efficient County Agent, Mr. W. O. Logan, and County Home Demonstration Agent, Miss Mamie Maxwell, who have been instrumental in bringing this corps of experts to our very door. They have undertaken a task that was not an easy one, and whatever good that may be derived from these talks and lectures, let us bear in mind that the county is indebted to them for their efforts, and we trust that the farmers and all the citizens of the county will show their appreciation of their efforts, and the courtesy to the speakers, to turn out and hear their messages, and derive all the benefits possible from them.

County Agent W. O. Logan was here on Saturday of last week working in the interest of the farmers short course which will be held over Knox County on Monday and Tuesday, June 20 to 21, and expressed the desire that every farmer in Knox county attend this course at some of the places at which it is to be held, and stated that some of the best authorities in the state will discuss various subjects with which they are familiar, and the farmers of the county will be given an opportunity to gain information that will be of great value to them.

Mr. Wm. T. Amos of New York City is here this week visiting his cousins, Messdames R. E. Alexander and A. A. Smith. Mr. Amos is engaged in the oil business and is looking over the West Texas country and keeping in close touch with the oil developments.

H. A. Pendleton of Wichita Falls has been here this week attending to details pertaining to the sale of the properties of the Munday Cotton Oil Company here. Hap has been an important factor in the growth and development of Munday for many years and his many friends here join us in the hope that he will retain many of his business interests here.

A CASE WHERE YOU LOSE IF YOU WIN

By W. R. MOREHOUSE
Public Relations Commission, American Bankers Association
(This is one of a series of articles exposing the wiles of sharpers who are after your money.)

EVERY person who takes part in one of the many fake real estate raffles that are going on wins because there are no losers, regardless of the numbers they hold. The numbers, in fact, are only the bait to entice people into the scheme. The raffles are what might be termed "come-on" traps to catch investors. If you have ever tried your luck with a real estate raffle you doubtless felt like giving three cheers when advised that you had won, not knowing that in winning you had taken your first step toward being caught in the trap. You were momentarily overcome with joy over your success which looked to you like the "luck of a lifetime."

W. R. MOREHOUSE

Puffed over your good fortune, you hastened out to inspect your newly acquired piece of property. A high-pressure salesman representing the syndicate that was "giving" you the lot walked by your side. After a tiresome trip through an undesirable district the salesman pointed out your new real estate holdings—a narrow, shallow lot, unimproved, uneven, and with no conveniences such as water, sewer, gas and electricity. Not even graded streets or sidewalks. Not worth its taxes!

Before you were fully awake to the fact that you had been tricked your attention was directed away from the unattractive landscape salesman as to the value of the \$250 before you to another picture. You were shown another lot, ideal in the location with all modern conveniences soon to be installed, and told that if the lot you drew in the raffle was not entirely satisfactory you would be allowed a credit of \$250 for it on one of the more desirable lots being sold "to a few selected people as a special inducement and for a short time only" at the bed rock price of \$350. You were urged to take advantage of your further good fortune at being thus selected and to seize the chance to buy one of these specially priced lots.

"Think of it!" exclaimed the high-pressure salesman. "It will take only \$700 cash as we are willing to allow you a credit of \$250!"

Where You Begin to Lose
Perhaps, as you stood there, you began to suspect that other "winners" had come to view the same lot you had won. If you reached the conclusion that it was being repeatedly used as "bait" you were right. You realized that after all there is nothing free about so-called free things. But others, unfortunately less suspicious than you, would be impressed by the glowing statements of the high-pressure

be delivered to them upon payment of certain expenses in connection with the transfer, which, however, would exceed the actual value of the price lot.

There is nothing to be gained in participating in fake real estate raffles. There are plenty of legitimate sales. Raffles usually are only bait used to trap you. Of course, you win, but in winning you lose if you go through with it. Before drawing your money out of your savings account to go into a real estate scheme consult your banker or a Better Business Bureau to find out whether it is a bona fide plan. Spend time to save money!

HOME EDUCATION

"The Child's First School is the Family"—Froebel

"No matter how I talk and scold, Harry always leaves his pajamas on the floor in the morning, and he always comes in without wiping his feet on the mat," I heard a mother complain. "I tell him, and tell him every day, and still he continues being careless about such things."

I knew Harry's mother well, and I thought I would just watch and listen to see how she taught her boy to form right habits. In a few minutes in came Harry, bounding up the steps and into the house. "Mother, look what I've found," he shouted, his face eager and flushed as he held out his cap with a butterfly in it.

"Just look at your shoes, Harry. How often must I tell you to wipe your feet? And I've just cleaned the floor," was the answer.

Harry looked at his feet, the enthusiasm fading from his face, and with a downcast look, taking his cap and the butterfly, he went out.

A sadness filled me so that for a moment I could not speak. There was the child so eager to share his excitement with his mother, craving her sympathy, and how had she met his enthusiastic soul? With a rebuke that sent him away disappointed. He did not wipe his feet; he went out and did not return until dinner time. The incident set me thinking: what should the mother have done? Surely the muddy shoes and the clean floor were insignificant beside the opportunity for mother and child to get close to each other. Might she not have disregarded them for the moment in consideration of the child's eagerness and have rejoined with him over the insect and admired its beauty? She could then have gently called attention to his lapse and asked him to slip out and wipe his feet while she got down the nature book to look up the name of the butterfly.

I have another friend whom I have always admired because of her "way" with children. They all love her. She has a little fellow of two years who is a delight and a pleasure to every one because of his sunny disposition and pleasing manners. The other day I watched them, mother and son had been for a walk and were coming up the steps.

"Now we will wipe our feet together—first baby's right foot, then mother's right foot;

now baby's other foot and mother's other foot." The boy stamped and rubbed his chubby little feet giggling with glee at the play of wiping feet.

"You are training him early," I said as they entered. "That's the only way to instill a habit," was the answer. "We wipe our feet every time that we cross a mat, and I was amused the other day when we were in a department store; I found baby rubbing his feet on a new mat in the furniture department. Fortunately his feet were quite clean that time."

Talking about doing a thing will never teach a child to do it. Get him to do it so often that he cannot help doing it. Never let the child cross a mat without using it; do not let him leave the room until the pajamas are hung up, so that he will always feel subconsciously that something is wrong until they are put away. These and all other habits can only be gained by ceaseless work and patience on the part of the mother. Scolding does not help; it only drives the child away from you.

J. RILEY GREEN, 'JERSEY KING OF TEXAS,' DIES IN PARIS, TEXAS

"The Jersey King of Texas," a man known and loved throughout the world of cattlemen and women, an auctioneer, having to his credit the most remunerative sales in Texas history, a familiar figure for many years at the Southwestern Exposition and Fat Stock Show here.

That was Col. J. Riley Green, cattle raiser and auctioneer who died in a Paris, Texas, sanitarium yesterday morning.

Green had for many years been an exhibitor and auctioneer at the Fat Stock Show and both he and his wife were well known in Fort Worth.

As a cattle auctioneer he gained national prominence. He conducted sales in many States of the country, always getting top prices at his auctions. One sale in Fort Worth several years ago established a record, when a group of cattle including both calves and cows averaged \$750 per head.

Green was a member of the board of directors of the Jersey Cattle Club of New York, said to be the richest and largest cattle club in the world.

Green's pure bred Jersey cattle raised on his Red Roof Stock Farm at Wolfe City were noted for high quality and top prices brought at auctions.

The cattleman spent most of his life near Wolfe City. He

was for about six years county clerk of Hunt County, with office at Greenville.

Green is survived by his wife, who is almost equally as prominent as her husband in the cattle world. She was for two years superintendent of the Jersey stock division of the Fat Stock Show. She has been for several years secretary of the Texas Jersey Cattle Club and for many times sales manager of the club.

SIDELIGHTS

By Marcy B. Darnell

The old alibi, "I called you up and you were not in," will become obsolete if a new apparatus developed by two Swedish inventors gets into general use. This device records telephone messages received, although there be no one present to answer the call, and repeats them when the owner of the telephone returns.

A flash of lightning appears to serve no purpose, except to terrorize nervous persons. But Prof. Wilson of Cambridge University, England, has shown that the average lightning flash represents about 30,000 kilowatt hours of electricity, which if harnessed to a machine would be worth \$2,000.

Arthur Pepper of Liverpool has inflicted upon his baby daughter the longest name known, containing initials including every letter of the alphabet: Anna Bertha Cecilia Diana Emily Fanny Gertrude Hypatia Inez Jane Kate Louise Maud Nora Ophelia Quince Rebecca Starkey Terest Lysis Venus Winifred Xenophon Yetty Zeno Pepper. She is sometimes called Miss Alphabet Pepper for short.

The suicide wave has extended to our chimpanzee cousins, according to a news dispatch. Taran Bajazzo, an ape, who, or which, had amused thousands in London, Paris, New York and Berlin by his exquisite table manners and his human-like

smoking of cigarettes, was burned to death when he set fire to the straw in his cage.

Women's rights are being fought for throughout the world with varying objectives. In certain parts of China the women think they would be perfectly happy if they could obtain emancipation from the age-old custom of binding their feet.

Most people know that no person has ever served more than eight years as President of the United States, and some think that three terms, or twelve years, is the lawful limit. Really the constitution sets no limit to the number of terms a President may serve. He may serve a dozen terms if he lives and can get a majority of the electoral votes each time.

One of the causes for the acute traffic situation which exists in many cities was recently set forth by a schoolboy traffic cop, who said: "Some guy makes goo-goo eyes at a girl and she thinks she is some she-ba and looks around to see how many other girls are looking at her."

The Earl of Dalhousie of Gravesend, Eng., would not accept an estate worth \$30,000 willed to him by a woman miser, and the money will go to charity.

By means of a French invention the signature of the sender is autographed on a telegram.

Prairie View 4-H Club Girls Met June 2nd

The Prairie View 4-H Club Girls met in the home of Mrs. Tom Cluck on the 2nd of June. We will meet there all the summer.

Miss Maxwell taught us to make our guest towels. Also French and plain hemstitch.

We had ten members present, and two visitors. We will have our towels and also make muffins and biscuits at our next meeting.

The Vera Home Demonstration Club Met with Mrs. Ford

The Vera Home Demonstration Club met with Mrs. Ford, June 7th, our demonstrator, Miss Maxwell, being with us.

There were only 6 present and three who have chickens, and the number of eggs gotten the past month was 1,000.

Club voted to send our president to A. & M. short course the last week in July—we received one new member.

The Club decided to try to get up all the varieties for the fair the last of September. Our subject was demonstration on fertile and infertile eggs, also, why produce a better quality of egg and feeding for egg production. Demonstration on preserving eggs in "water glass."

Club adjourned to meet with Mrs. Inattlebaum the 1st Tuesday in July.

A Norwegian chemist has patented a liquid which makes wood fireproof.

WHITE—WHITACRE

Sunday forenoon at 8:00 o'clock the wedding ceremony of Mr. C. D. White and Miss Cora Whitacre was solemnized at the home of the bride's parents, Mr. and Mrs. C. N. Whitacre, near this city. Rev. R. W. Land officiating. C. D. is the son of Mr. and Mrs. O. M. White, a popular member of the younger social set and a young man held in high esteem by the people of his home city.

Miss Cora was a popular student of the Knox City high school and a young lady of winsome personality, amply fitted for the duties of life as well as a congenial associate in the flights of romance. The happy couples started on a trip to Stephenville by way of Wichita Falls, immediately after the ceremony but encountered engine trouble and a bad cloud when near Vera and returned to this city to await more favorable conditions for a trip. The Herald joins their friends in extending its best wishes for their

united future.—Knox City Journal.

WHAT'S NEW

Artificial tobacco is produced in Germany by impregnating a specially prepared paper with synthetic nicotine, after which it is made into cigars.

Dr. Joffe of Leningrad has invented an improved method of insulating high voltage transmission lines, using a comparatively cheap, varnishlike material for covering the wires.

By a new process it is said that gumwood of the Southern states may be utilized for the manufacture of newsprint paper.

A height-finder for use by anti-aircraft gunners has been perfected.

Light which gives no shadows and closely resembles daylight has been produced by a French engineer.

A HARD JOB

It's about as much of a job for a society climber to penetrate the "400" as it is for a Used Car to get access to our display floor. The car MUST HAVE THE GOODS.

GEORGE ISBELL
MUNDAY, TEXAS

A USED CAR IS ONLY AS DEPENDABLE AS THE DEALER WHO SELLS IT

These cars stand up!

EVERY General Motors car is built to represent General Motors quality and value throughout its life. Whether its potential mileage is to be used by one owner or several owners makes no difference.

That is the reason for the high resale value of the current series of the General Motors cars. It is also the reason why USED General Motors cars offer real opportunities.

General Motors dealers are dependable merchants and will give you, if you wish to buy out of income, the advantage of the low rates of the GMAC Plan of time payment.

The price ranges of the new General Motors cars are given below. Pick out the car which interests you most. Then clip and mail the coupon. We want to tell you all about that car and also why General Motors cars, used or new, offer real value to their purchasers.

8 models—\$525 to \$780. The quality car of the low-priced field. 3-speed transmission. Dry-disc clutch. Smooth, powerful engine. Fisher Bodies. Duco finish. Fully equipped.
CHEVROLET TRUCK CHASSIS: 1/2-ton, \$395; 1-ton, \$495.

6 models—\$775 to \$975. Has largest 6-cylinder engine in its price class. Fisher Bodies. Duco finish. Beautiful, stylish lines. Value proved by unprecedented sales.
PONTIAC 1/2-TON CHASSIS, \$585; with screen body, \$790; with panel body, \$770.

11 models—\$875 to \$1,190. Gratifies your finer taste. Satisfies every need. Fisher Bodies. Duco finish. 6-cylinder motor. Harmonic balancer, 4 wheel brakes and other new features.

7 models—\$1,095 to \$1,295. The "six" that is winning and holding goodwill everywhere. Fisher Bodies. Duco finish. Rubber-sprung chassis and other tested improvements. 4-wheel brakes.

18 models—\$1,195 to \$1,995. Everybody knows Buick's worth. Now finer than ever. New models without loss of Buick's best. 6-cylinder valve-in-head engine. Fisher bodies. Duco finish.

LaSalle

6 models—\$2,495 to \$2,685. The new and beautiful car designed and built as a companion car to Cadillac. Has V-type 8-cylinder engine. Bodies by Fisher. Duco finish. Now on display.

50 body styles and types—\$2,995 to \$9,000. The pioneer in the 8-cylinder field. Standard of the world. Duco finish. Bodies by Fisher and Fleetwood. 500 different color and upholstery combinations.

KNOX COUNTY FARMERS' SHORT COURSE

To Be Held In Knox County June 20-21. Agricultural Experts Will Deliver Lectures and Answer Questions of Vital Interest To Farmers of Knox County

EVERY FARMER IN KNOX COUNTY SHOULD AVAIL HIMSELF OF THIS OPPORTUNITY TO HEAR THESE EXPERTS. EVERY FARM WOMAN SHOULD HEAR THESE MESSAGES. EVERY CLUB BOY AND GIRL IN KNOX COUNTY SHOULD BE IN ATTENDANCE AND GET THE BENEFITS TO BE DERIVED. LET EVERYONE HEAR THESE LECTURES. BRING ALONG YOUR NOTE BOOK AND PENCIL AND TAKE DOWN THE FORMULAS AND OTHER INFORMATION—IDEAS THAT MAY PROVE OF GREAT VALUE IN THE FUTURE—FOR PROBLEMS ARE ALWAYS ARISING, AND

IT IS SELDOM THAT WE ARE GIVEN THE PRIVILEGE OF HEARING SUCH AN ARRAY OF REAL SCIENTIFIC LECTURES AS WILL BE HEARD IN THIS SHORT COURSE, AND THEY ARE BEING BROUGHT TO YOU THROUGH THE EFFORTS OF YOUR COUNTY AGENT AND HOME DEMONSTRATION AGENT.

HERE ARE THE SPECIALISTS THAT WILL TALK TO YOU AT THESE MEETINGS, AND GIVE YOU INFORMATION THAT WILL BE OF GREAT VALUE TO YOU. HEAR THEM:

PAUL HUEY, Formerly County Agent of Hale County, now Field Editor of Progressive Farmer, will discuss Breeding and Management of Dairy Cattle. Mr. Huey was on the International Judging Team and has studied dairying and judging in the East, and has visited the Island of Jersey and Guernsey to study breeds and dairying.

R. R. REPPERT, State Entomologist, with A. and M. College of Texas, will handle the subject of extermination and control of insects. Mr. Reppert is recognized as one of the best authorities in the United States on this subject, and will tell you how you may combat the cotton flea, the melon lice, the leaf worm and the many other insects that destroy millions of dollars worth of crops each year. Be sure you bring your note book and pencil and note down the useful for-

mulas that he will give you and be ready to ask him questions.

R. E. DICKSON, Superintendent of the State Experiment Station at Spur, and an expert on dry-farming. The work of Mr. Dickson along the line of breeding grain sorghums may justly entitle him to be known as the "Burbank of West Texas." He will give you something well worth your while, and his address should be one of the most profitable to the farmers of the Munday country of the entire course.

MISS MCGHEE, Home Economics Expert will have a message that will be worth while to the housewife, the club girls and all who are interested in improving conditions of the farm home. She is recognized as an expert in her line of work, and will be glad to assist the women of Knox

county in solving their problems.

G. W. (Stud) BARNES, Beef Cattle Specialist, A. and M. College of Texas. Mr. Barnes has studied range conditions throughout the West and Southwest, and will give some very interesting and valuable pointers on beef cattle.

A. L. WARD, Feeding Specialist, originator in Texas of the Ton Litter Contest. Mr. Ward was done more than any other man in Texas toward showing how to produce cheap pork, and will have something to say that will be well worth remembering on the subject of feeding. Bring along your note book and pencil.

MISS MAXWELL, Home Demonstration Agent, will ably handle subjects pertaining to the home preservation of foods.

THE TIME IS AT HAND WHEN MORE ATTENTION MUST BE GIVEN TO THE PRESERVATION OF THE SOIL. THIS HAS BEEN NEGLECTED BY SOME OF THE OLDER SECTIONS TO THE SORROW OF THE FARMER. EVERYONE KNOWS OF THE OLD FASHIONED METHODS, BUT THE DAY HAS COME WHEN THESE OLD FASHIONED METHODS WILL NOT GIVE THE FARMER A LIVING WAGE FOR HIS LABOR. PRODUCTION MUST BE INCREASED, THE SOIL BUILT UP, UNPROFITABLE COWS, CHICKENS, AND OTHER FARM STOCK MUST MAKE WAY FOR THOSE THAT WILL PAY A PROFIT. ONE GOOD COW MUST BE FED TO PRODUCE FIVE GALLONS OF MILK INSTEAD OF FIVE INFERIOR COWS THAT PRODUCE ONE GALLON. HENS THAT PRODUCE 75 EGGS YEARLY MUST MAKE ROOM FOR THOSE THAT WILL PRODUCE 200. THESE THINGS REPRESENT THE DIFFERENCE BETWEEN PROFIT AND LOSS ON THE FARM.

THESE SHORT COURSES WILL BE HELD IN FIVE TOWNS IN KNOX COUNTY, AND TWO DAYS WILL BE REQUIRED TO COVER THE COUNTY. THE SCHEDULE FOR THE MEETINGS FOLLOWS:

GOREE—Monday, June 20, 10:00 a. m. to 4:30 p. m. MUNDAY—Monday Night, June 20, 8:00 p. m.
KNOX CITY—, Monday, June 20, 10:00 a.m. to 4:30 p.m. VERA—Tuesday, June 21, 10:00 a. m. to 4:30 p. m.
TRUSCOTT—Tuesday, June 21, 10:00 a. m. to 4:30 p.m.

THERE WILL BE TWO TEAMS SO THAT THEY MAY SPEND A DAY AT EACH PLACE, BOTH TEAMS WILL EXCHANGE PLACES AT NOON AND GIVE A NEW PROGRAM EACH AFTERNOON, EXCEPT AT MUNDAY, WHERE THE SESSION WILL BE HELD AT NIGHT, AS INDICATED ABOVE. THE SESSION AT MUNDAY WILL BE SHORT, BUT WE BELIEVE SUFFICIENT INTEREST WILL BE SHOWN TO JUSTIFY ALL OF THE SPEAKERS MAKING BRIEF TALKS

Town Talk

J. E. Johnson of Caddo Mills, Texas, came in first of the week for a visit and to look after business matters. Mr. Johnson is with the Pendleton Cotton Company and makes his home in Munday during the fall season.

At a meeting of the city council on Monday night Lee Jungman was elected as superintendent of the municipal water system to succeed Cliff Lowder, who has been with the department for several years.

Mr. and Mrs. Carl Dunlap and children arrived in Munday the latter part of last week from Seminole, Oklahoma, and Mr. Dunlap will be employed here as driller of the Texas Company's Bowden No. 1.

L. M. Bramblett of Dallas arrived in Munday this week and will be associated with the Pendleton Gin Company. Mr. Bramblett is an experienced gin man and we are glad to welcome him to Munday.

Representatives of the Munday Fire Department who are attending the state Firemen's convention at San Antonio this week are Tom Rigsby, W. C. Newsom and Ardell Speke.

Mr. and Mrs. Frank Decker and little daughter left on Tuesday for Clarendon and Memphis, where they will visit with relatives, and will then go to Colorado, where they will spend a few days visiting relatives and enjoying an outing.

L. A. Blackwell of Weatherford was here first of the week visiting relatives and looking after business matters. Mr. Blackwell is a son-in-law of Mrs. G. C. Spann and is a traveling representative of the Baker-Poston Company of Weatherford.

Mrs. Joe Haymes and children of Abilene are here this week visiting relatives, while the Rev. Haymes is in Dallas teaching in the S. M. U. school of theology.

Judge and Mrs. Clem Calhoun of Abilene are here this week visiting in the home of Mrs. Calhoun's mother, Mrs. C. R. Haymes, and other relatives.

Mrs. W. E. Gray and children of Abilene are guests in the home of her parents, Mr. and Mrs. W. S. Bailey, this week.

Mrs. Cora Edwards left on Thursday of last week for Rochester, Minnesota, to be with an uncle during an operation.

Miss Lorena Wilson came in the latter part of last week from Arizona, where she has been teaching school, and will spend the summer months here with her parents, Mr. and Mrs. E. M. Wilson.

Mr. and Mrs. J. C. Campbell and children were visitors to Floydada the past week-end, where they visited in the home of Mr. and Mrs. W. A. Baker. They also visited in the home of his brother, W. S. Campbell, at Spur.

In the absence of P. V. Williams, John Spann is in charge of the Peoples Theatre.

A card from Prof. J. Horace Bass requests that his paper be sent to him each week at Austin, where he has accepted a position with the Department of Education for the summer, and will be engaged in grading papers from schools over the state seeking units of affiliation. He will also do some work in the University of Texas.

A fishing party composed of Carroll Hopkins, Jack Henry, C. C. Pippin, Claude Morton and J. A. Kennedy went to Lake Kemp on Saturday, and their efforts were rewarded by a good catch of catfish. The trip was without mishap of any kind except that "Hop" fell in the lake in an effort to locate the north star, but was promptly rescued by "Pip."

Mrs. Ralph Atmar of Wichita Falls was a week-end guest of Dr. and Mrs. Wm. P. Farrington.

Mrs. E. B. McFarland and son, John, of Sulphur, Oklahoma, are here this week visiting her mother, Mrs. J. F. Rhea, and other relatives.

J. R. Counts has recently returned to Munday from Goree, where he has been for several months.

Mrs. Molly Harper has returned to her home at Weslaco, Texas, after a very pleasant visit with Mrs. R. M. Stevenson.

Wilson Harber has returned from Lubbock, where he has been a student in the Texas Technological College, and will spend the summer months with his parents, Mr. and Mrs. T. J. Harber.

Mrs. Frank Stone and son and daughter of Paducah were week-end guests in the home of Dr. and Mrs. A. A. Smith, and were accompanied home by Misses Madge and Maurice Smith who will visit with them for several days.

Mr. and Mrs. R. L. Lair returned Monday from Anna and other points in North Texas, where they spent a week visiting relatives and friends.

Pastor P. D. O'Brien was one of the speakers in a Stewardship conference at Seymour Monday and Tuesday of this week.

Rev. J. W. Moore, who has spent seven years in China as a Southern Baptist missionary, spent two days in the home of Rev. P. D. O'Brien this week. Brother Moore spoke in several churches of this section, on the situation in China.

Miss Dessie Banks left Friday morning for Raleigh, N. C., to visit her brother, Joe T. Banks and she will attend Summer school while there.

Dr. and Mrs. E. E. West and little son, Tom Porter, of Abilene, were guests Sunday in the home of Mr. and Mrs. M. F. Billingsley, and were accompanied home by Mrs. Billingsley, who will visit them for a few days.

Dr. and Mrs. Wm. P. Farrington have as their guest his mother, Mrs. C. L. Farrington of Huntsville, Texas.

Miss Winnie Langford left on Wednesday of this week for Boulder, Colorado, where she will attend the summer session of the University of Colorado.

Mr. and Mrs. Don Wells are rejoicing over the arrival of a fine girl in their home, the young lady having made her arrival on last Saturday.

John Rhea and family of Wichita Falls were week-end guests of his mother, Mrs. J. F. Rhea, and his sister, Mrs. E. M. Wilson.

Mr. and Mrs. Ardell Speke and babies left first of the week for Decatur, Texas, where Mrs. Speke and children will visit for several days, and Ardell will go to San Antonio to attend the Firemen's convention as a delegate from the Munday Fire Department.

Jess Brannan has returned from Silverton, where he has been engaged in contracting for several months. He states that it was very dry out that way and that prospects for a crop this year were not very promising unless rain came within the immediate future.

Mr. and Mrs. L. D. Campbell went to Knox City on Friday, where Mr. Campbell succeeded in securing a number of music pupils, and he will spend one day each week in that city giving lessons to his pupils.

W. C. Hill was stricken suddenly ill on Sunday night with an attack of acute indigestion, and his many friends will be pleased to know that he is now on the road to recovery.

C. R. Elliott was a business visitor to Haskell on Thursday of last week.

Kingsley Davis, who has been attending the University of Texas, came in first of the week for a visit with his father, Dr. Joe Davis.

Rev. R. B. Freeman was a business visitor to Abilene on Thursday of last week.

Mrs. J. W. Wiley and children left on Thursday of last week for Abilene, where they will spend some days visiting her sister, Mrs. Coffman, and will then go to Bronte, Texas, for an extended visit with Mr. Wiley, who has accepted a position with the Western Union Telegraph Company and is located at Bronte.

Alfred Freeman left on Friday morning for Austin, where he will attend the summer session of the University of Texas.

Miss Iva Tidwell, who attended Simmons University the past year, arrived home last week and will spend the summer months with her parents, Mr. and Mrs. J. L. Tidwell.

Mr. and Mrs. Earl T. Williams of Loraine came in Saturday for a visit with relatives and friends here. Mr. Williams returned to Loraine first of the week to look after his newspaper business, while Mrs. Williams and the baby will remain here for a more extended visit.

At the same time he announces that the present Model T car will continue to form an important part of the Ford Motor Co's. production.

You may continue to buy Ford cars and trucks now with the assurance that they will be made in the future and not find yourself with an obsolete car. In other words there will be the new car just announced and the present model T always available to you.

BAUMAN MOTOR CO.
Munday, Texas

R. D. Bell of Haskell was here Friday of last week looking after business interests.

Mr. and Mrs. R. E. Alexander returned Saturday from Dallas and Fort Worth, where they went on business and for a visit with her brother, the Rev. S. E. Stevenson, and family.

Mr. and Mrs. Jack Henry of Floydada were here over the week-end visiting in the home of her brother, Carroll Hopkins. Mr. Henry is a postal clerk in the Floydad post office and is on his vacation.

Editor E. L. Covey of the Goree Advocate was a business visitor to Munday on Friday of last week.

A letter from Prof. J. E. Rhodes requests that his paper be sent to him at Denton until further notice. Prof. Rhodes is taking special work at the North Texas Teachers College at Denton during the summer months.

Mr. and Mrs. R. B. Davy returned the latter part of last week from Leonard and other points in North-east Texas, where they visited relatives and old friends for several days.

FEDERAL aid to the States in the building of good roads will be continued this year. The allotment of money will probably be about \$75,000,000, the same as in the last fiscal year. The money allotted in any one year is carried over into the next in the event it has not all been spent during that year.

During the last fiscal year the Federal road projects completed contributed a net addition of 9417.3 miles to the mileage of improved roads in the Federal aid highway system. The United States Bureau of Public Roads has completed a map of the United States on which is shown the final location of the United States system of highways, consisting of approximately 80,000 miles of the most important roads in the country. This system embraces ten main transcontinental routes designated by numbers, each of which is a multiple of 10. The important north and south routes are numbered 1, 11, 21, 31, etc. The plan contemplates that these important through routes shall have many variants and cross-overs to other routes which will reach practically every large city and serve every section of the country. In its final form the system has the approval of each of the State Highway Departments and work on the unimproved sections is to be pushed in the states rapidly.

A main system of highways for the nation is the underlying idea of the scheme. The unimproved sections at present are to be given priority in improvements, and marking and safety signs are to be placed on these sections as soon as possible.

PRIZES OFFERED FOR BEST VOICES

National Radio Audition Open to Young Singers in This Country.

America's future generation of vocal stars will be disclosed to the world this fall as another of the wonders due to radio. Every young man or woman with the gift of song, whether from country, town or city, will have an equal chance.

A nationwide quest for the best young singers and the opening of the door of opportunity to them has been undertaken by the Atwater Kent Foundation, an institution established for scientific and educational purposes by A. Atwater Kent, the Philadelphia radio manufacturer and sponsor of the Sunday night grand opera hour, broadcast over a network of nineteen stations.

The Foundation has announced plans for a "National Radio Audition," to find by competition the best undiscovers voices in the United States. Prizes aggregating \$17,500, with tuition for a musical education in certain cases, are offered as follows:

The two winners of first place in the National Audition—a man and a woman—will each receive a gold

A. Atwater Kent, President of Atwater Kent Foundation, which opens door of opportunity to undiscovers voices.

Medal, \$5,000 in cash and two years' tuition in a leading conservatory.

Winners of second prizes will each receive \$2,000 in cash and one year's tuition.

Winners of third prizes will each receive \$1,000 and one year's tuition.

Winners of fourth prizes will each receive \$500.

Winners of fifth prizes will each receive \$200.

Musical clubs and women's clubs in each community in each state will be invited to hold local contests to select the best young men and best young women singers of their towns. These winners will then be certified to a state audition, which will be broadcast by a radio station in each state. A state winner of each sex will be chosen and will receive a silver medal.

The next step is a district audition. The young men and women who have won state honors will be taken to a central broadcasting station in one of five districts, where an audition will be broadcast to select the two winners—a young man and a young woman.

At the time of each district audition, the winning girl and boy will be taken to New York for the final National Audition to be broadcast over a national network of stations. All expenses of contestants in the district and final auditions, including railroad fare, hotel bills, entertainment, etc., will be paid by the Atwater Kent Foundation.

The spirit and purpose of the National Audition are indicated in a statement by A. Atwater Kent, president of the Foundation, who said:

"The discovery of one of those rare voices, of which each generation gives us a very few, seems to me an event of profound national importance. Even when such a voice could give pleasure to only a few thousand people in a year it was a national treasure. Now that millions may enjoy it on the same evening through the medium of radio, such a voice has become priceless.

"The National Radio Audition, supported by the Atwater Kent Foundation, is an undertaking to search the entire country for beautiful voices and to offer these singers an opportunity for full development, recognition and reward."

The principal qualifications for contestants are as follows:

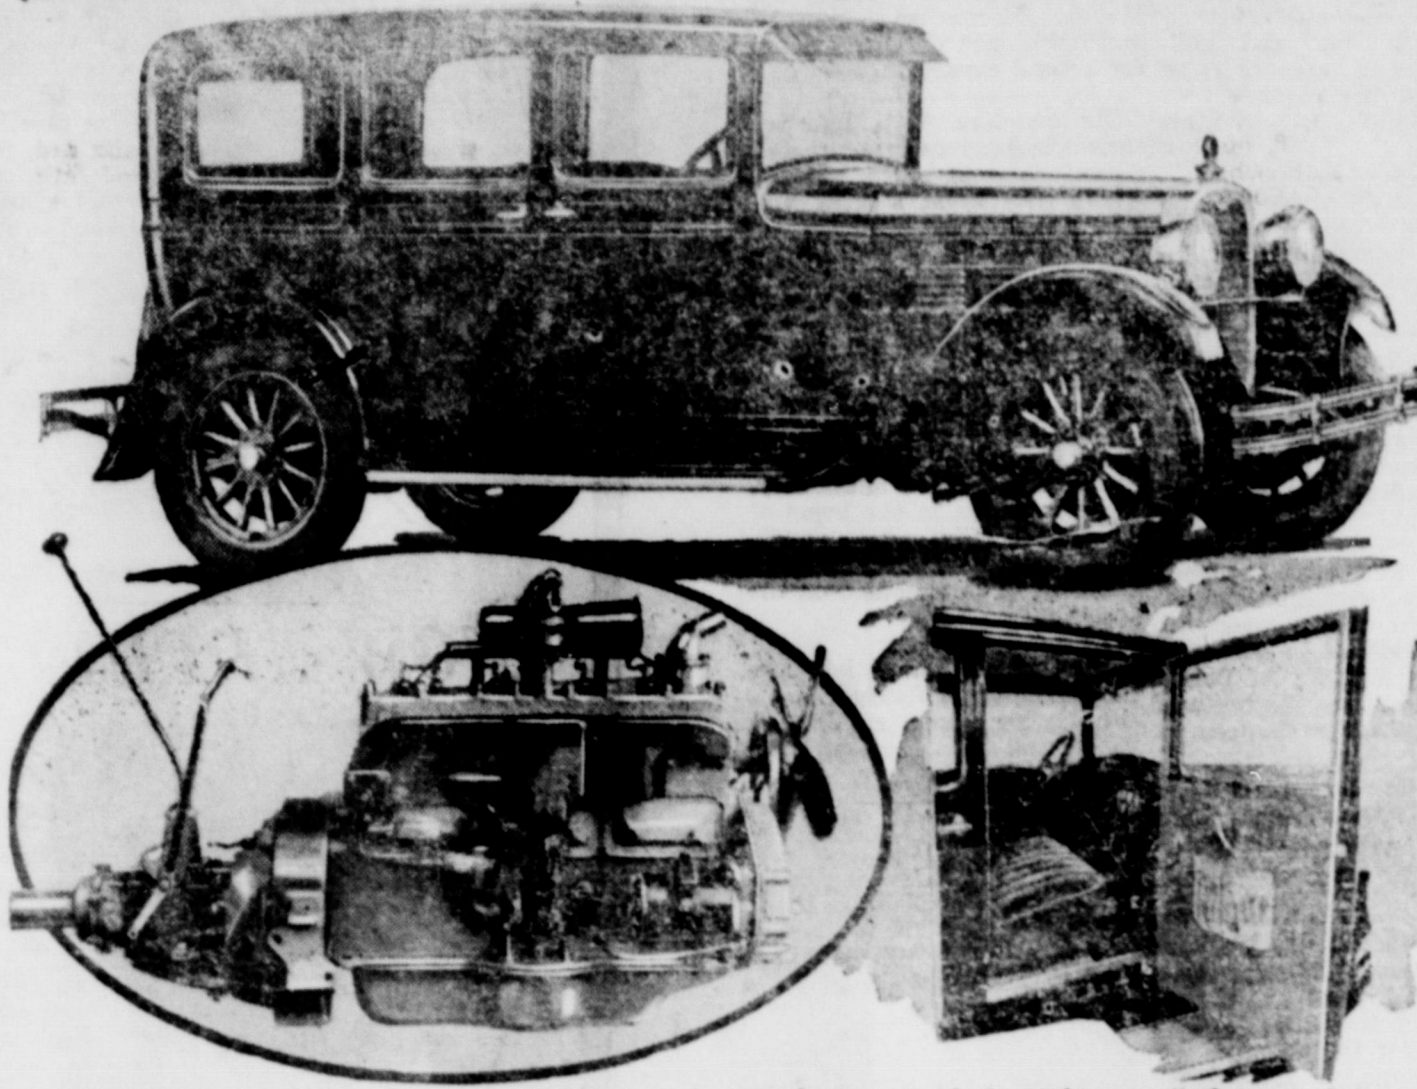

Must not be over 25 years old. Must never have been associated with a professional theatrical or operatic company; must never have been a paid principal in any concert held outside their own states; must declare an intention to follow a musical career and must be free from theatrical or musical contracts.

This limitation permits choir singers to enter the auditions, even though they may have received financial compensation for singing in churches. Other groups from which entries are anticipated are students in musical schools and locally prominent singers in high schools and colleges. Musical organizations in each state are also afforded an opportunity to participate.

Chicago burglars secured \$40 from a store safe they had broken open, but overlooked \$8,000 contained in an old envelope.

Poison gas spread by airplanes is being used in fighting mosquitoes in large swamps.

Distinctive New Dodge Brothers Six Cylinder Sedan Introduced To-Day

Dodge Brothers new six cylinder four door sedan, the introduction of which marks one of the most important events in the company's history, is shown above. The car is distinctive in its long, low, graceful lines. It is presented by Dodge Brothers as the last word in comfort and performance for cars in or near its price class. Beauty of design, exceptional performance, style and comfort of interior appointments, and ease and economy of operation are major attributes.

In the oval is shown the new six cylinder motor, said by persons who have studied its performance to be excellent in smoothness of operation by no car, regardless of price. One of the most impressive features of this motor is the extremely heavy crankshaft and unusually large bearing area. The crankshaft is machined all over and weighs 69 pounds. Its rigidity combined with the extra large bearing area, results in the extreme smoothness with which the motor performs at every speed.

To the right of the motor is pictured the roomy front seat. Ample leg room for the driver is provided and the gear shift lever, parking brake lever and dash controls are within easy reach.

NEWS ITEMS FROM KNOX CITY JOURNAL

Miss Savella Bridges who finished at John Tarleton College, Stebensville, this year and will teach in the Knox City school, has arrived home from that city to spend the summer with her parents, Mr. and Mrs. L. N. Bridges.

Mr. and Mrs. Press Hitchcock returned home Wednesday from a three weeks outing at Houston and Galveston. They visited several interesting historical grounds and buildings while in that part of Texas. He states that from Houston to Knox City has now had good rains and crops are booming all along the route.

Drilling was resumed at the Texas Teague No. 1, Tuesday night at 9:00 o'clock, after a suspension since about that

time Sunday night, caused by a hung bit and a broken walking beam.

Miss Vivian Favor who has been teaching near Plainville this year has arrived home to spend the summer with her parents, Mr. and Mrs. S. L. Favor.

Hollis Warren has returned to his home here to spend the summer vacation. He was a student in the McMurry College, Abilene this year.

Prof. M. E. Noble, who will be Superintendent of the Knox City school for the term of 1927, and 1928, was here last Friday and Saturday arranging for the storage of his furniture until he can move here in August. He will attend the Teachers Training School at Canyon until that time.

Mr. and Mrs. S. A. Bryant of Memphis, Texas, accompanied

by their daughter, Miss Elizabeth, arrived in Knox City last Friday to spend several days in the home of their daughter and son-in-law, Mr. and Mrs. O. L. Jamison.

Horace Finley arrived home from Stephenville last Friday, having completed the term of 1826-27 in John Tarleton College of that city.

Miss Ruby Evans who has been attending the T. W. C. College at Fort Worth arrived Saturday to spend the vacation in the home of her parents, Mr. and Mrs. W. F. Evans.

Dr. R. C. Edwards made a trip back to his old home during deer season last fall and had the good fortune to bring down a fine buck, the mounted head of which now adorns the wall of his office in this city.

Miss Veta Humphries, a student of McMurray College,

Abilene, is here to remain thru the summer in the home of her parents, Mr. and Mrs. J. T. Humphries.

Miss Frank English left Monday afternoon for Canyon to at-

tend the State Teachers Training College for the summer term.

Prof. and Mrs. Joe Cloud of Rule, were visitors in our city Friday last. They will each have positions in the Knox City school for the coming term.

Miss Virginia Lowery has arrived in Knox City to spend the summer vacation with her folks. She was a student in the John Tarleton College this term.

On some of the large Wyoming ranches it is said that 15 per cent of the cattle are lost annually by theft.

Counterfeit money representing about half a million dollars was recently destroyed by the Treasury Department.

An apple grown in the state

of Washington is said to have measured 15 1/2 inches in diameter.

Henry Harwood of Ipswich, Eng., killed 415 men and women \$5 each.

THE RULE OF THE RANCH

As in the Western novels the cowpuncher married the beautiful school teacher who came from England, and after a great celebration in Iron Spike, they lit out for their ranch in the mesquite, some thirty miles away.

Some two months later one of the guests at the wedding celebration happened to meet the bridegroom riding into Iron Spike.

"Howdy, Bud?" he cried.

"How's the wife?"

"Ain't you heard?" inquired Bud, rather surprisedly. "Why, as we were riding out, the wife's horse shied pitching her off, and she broke a leg. We were more'n twenty miles from the doc, too."

"My," exclaimed the other, "ain't that terrible! What did you do, Bud?"

"Do?" echoed Bud. "What could I do? Why I shot her, of course!"—London Answers.

Airplanes with folding wings, enabling them to be carried in small compartments on board ship, have been devised by Navy experts.

GET IN THE SWIM, come out to Broach's Lake for a nice cool plunge into the water. Good spring boards, everything to make your trip enjoyable. Lots of shade, tables for your lunches, benches, dressing rooms and every convenience. Charges 25c per person. Go in when you please—come out when you like.

THEY ARE HERE

The Dodge Brothers new six cylinder sedan is here for your inspection, as well as the fours with the New and improved engine, and we extend a cordial invitation to the citizens of this section to call at our place and allow us the pleasure of showing and demonstrating to you the many improvements made in the fours and the wonderful new six.

Though long in preparation, the Senior, as the new six is designated, is Dodge Brothers first contribution to six cylinder motoring. It is, therefore, a completely new car, but the word new as applied to the Senior has an even wider meaning than is usually associated with it.

In every structural detail this car conveys the idea of the rugged and permanent type car which has always been associated with Dodge Brothers name.

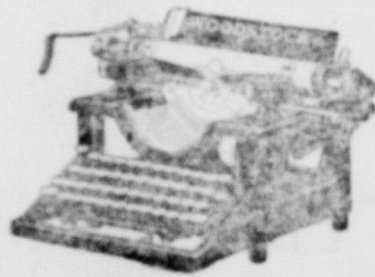

To appreciate the beauty and the many superior features of this car it is absolutely necessary to see the car—take a ride in it and note the complete ease with which the car responds to every movement of the driver, and the superiority of the upholstery and appointments of the interior, then you'll understand why this new Dodge Brothers Senior has been hailed as the sensation of the motor car industry.

Again let us invite you to call on us for a demonstration of this new six and the fours with the new and improved engine.

WOODSTOCK

Some of the largest commercial institutions in the United States are adopting the Woodstock Typewriter as standard equipment, and many of the leading business colleges have adopted them. Where speed and simplicity go hand-in-hand, and where typewriters are put to the severest tests—there you'll find Woodstock Typewriters.

Anyone can own one of these wonderful typewriters, as they are sold either for cash or on easy payment plan. We'll be glad to demonstrate this machine to anyone interested, and will gladly give local references of Woodstock users.

The Farmer's Place

Phebe K. Warner

So much is being said these days about the farmer. You'd think he was an orphan and the whole world wanted to take him to raise. Not rear, but just raise.

The farmer has had enough advice the last few years to kill him. Kill him dead, physically, mentally, socially, financially and spiritually. And that is just what ails him. He has taken so much of everybody's advice that it is about to paralyze him. He is worn out physically because he has tried to do everything the people told him to do. He has tried to diversify and raise a little of everything. He has more to eat at home but it took more work and time to get it. He has tried to raise more cotton on fewer acres, and he succeeded so well that "they say" he broke the cotton market. He has tried to improve his seed and the standard of his livestock but it all cost more and did not amount to much in a drought or flood or hailstorm or early frost. And the bugs took their toll of \$2,000,000,000 every year just the same.

Mentally the farmer is about dried up because the business men Chambers of Commerce, newspapers and politicians insist on doing all his thinking for him so he will have more time to work and produce something for them to eat and wear. "You just keep busy in the field and WE'LL do your thinking for you and relieve you of all that strain. That's our business. To THINK. So you just go ahead and do the work that produces all the new wealth every year that keeps the world fed and clothed and keeps the wheels of industry and commerce buzzing, and we'll sit in the shade somewhere and think out ways for you to get rid of your crop." And that's nothing more than cold science and logic. Everybody knows the human brain works better in a cool place. The farmer who works out in the hot sun ten hours a day and puts in another six hours choring around gets too hot and tired to do much brain work. From three to six hours a day is about as much brain work anybody can stand. They've got to get out and play golf the rest of the day or their brain power would break down. But

a fellow can think a lot faster than he can work. And that's why it don't take so many hours to get rid of a crop as it does to produce it.

The farmer is about dead socially because by the time 8,000,000 farmers and their families produce enough raw materials to furnish the other 75,000,000 people in this nation something to DO and something to EAT, and something to WEAR he is too tired and he don't have time to take a bath and dress up in his Sunday clothes and go somewhere even if he had a bath tub, and the Sunday clothes to put on.

And financially, well, most of the farmers are broke. Because for the past half century or more the farmer has been working his body more than his brain. Every year more and more of his neighbors have moved to town to join the THINKERS and the consumers which meant more work for the farmers and fewer to do it. That condition has forced him to buy every kind of high priced machinery. Labor has gone up until to day the farmer is forced to pay about twice as much for half as much work as he used to pay. His living expenses, if he tries to live, have increased with the new day in which we are all trying to live. Everything he has to buy—shoes, stockings, furniture, tools, food, wagons, harness, everything has gone UP in price, but how about the products he offers for sale?

Who fixes the prices of the farmer's crop? The THINKERS! Whom do they think about when they fix the price? The THINKERS! In whose favor do they fix the farmer's price? The THINKERS! Who is doing more than anybody else in America to rob the farmer and bankrupt American agriculture? The THINKERS! The people who make their living by telling the farmer what to do and how to do it. And then when his work is done, his time and money spent, his strength gone and he has laid his \$8,000,000,000 worth of new world, these same THINKERS insist that he go back home now and slop the pigs, gather the eggs, milk the cows and put in another crop and they will look

after the crop he has just completed.

We're BUSINESS MEN, you know. We are THINKERS. We understand commercial life better than you do. We know how to fix the prices for you better than you do. So just turn your entire crop over to us and we will gladly take care of it for you. That's our business—looking after YOUR business."

Any third-grade school boy can divide \$8,000,000,000 by 8,000,000, the number the farmers in the United States and prove that the average income on the American farm is \$1,000, out of which the farm and family must be supported, the home built and paid for, and the children educated. As a rule the farm family has about four more children in it than the THINKERS family. If it did not have the THINKERS would not the women and children do about half of the farming in this nation?

What is the farmer's place in the business world? The farmer is the most essential man in this nation. More people depend on him for a job than any other being. He could if he chose to do so, paralyze industry and commerce, starve the nation to death in six months and freeze it out in a year. He is the only business man who produces \$8,000,000,000 of new wealth every year. And the thing he needs to do most of all is to rise in the dignity of his own mission and DO his own THINKING, and attend to the financial and business end of his own business. And when he does this he will come to life SPIRITUALLY.

NOTICE OF APPLICATION TO MAKE MINERAL LEASE

Notice is hereby given that I have applied to the County Court of Knox County, Texas for an order to execute and deliver to C. A. Eiland as Trustee an oil and gas lease on all that certain lot or parcel of land situated in Knox County, Texas, being Subdivision of Subsurvey Number 7 and 8 of Original survey Number Fifteen (15) of David G. Burnett lands, same being the property of the estate of Virginia Everett Smith, a minor; said lease to be made for a term of Five years at a consideration of One dollar per acre and to provide an annual rental of one dollar per acre and to be on the form known as Producers Special No. 88 New Form and said application will

be heard by said Court on the 25th day of June, 1927. MAGGIE V. SMITH, Guardian of estate of Helen Elizabeth Smith, Mary Hope Smith and Virginia Everett Smith, Minors.

GRASSHOPPERS

Reports in various parts of the state indicate that there are small local infestations of grasshoppers, and especially in sections where drought conditions prevail, states R. R. Reppert, Entomologist, Extension Service, A. & M. College.

The grasshoppers are moving from the grasslands and doing damage to cultivated crops. It is believed that farmers in some parts stand in immediate need of suggestions in their control as given below.

The formula for poison bran mash to control these insects is as follows:

Course wheat bran—25 lbs.
Paris green or white arsenic—1 lb.

High grade amyl acetate (avoid cheap grades of banana oil or bronzing liquids)—1 oz.
Cane or sorghum molasses (avoid corn syrup)—2 qts.

Water sufficient to make a moist mash as explained below: Mix the bran and poison together thoroughly. Dilute the amyl acetate and molasses in about two gallons of water. Pour this liquid over the mixture of poison and bran until every particle is moist. Then make further additions of water and mix thoroughly until a mash is obtained that is quite moist, yet so it will fall apart after being tightly squeezed and so may be readily sown broadcast.

This quantity of mash should be broadcast so as to cover about five acres. A good practice is to mix at night and sow early in the morning before nine o'clock since the hoppers do not actively feed until the dew dries up. If it is desired to kill hoppers in grass land sow ever the entire acreage to be protected. Where they are migrating from fence rows or pastures into cultivated crops sow the fence row or a fairly broad margin of the pasture, and also a broad margin of the cultivated crop with the mixture.

Amyl acetate is preferable in the formula but if it cannot be obtained, substitute six lemons for one ounce of the amyl acetate. This should be diluted with water as with the other substance, but one should use

both juice and rinds, grinding the latter in a fine food chopper.

Do not place the mash in piles.

Do not use lead arsenate—use Paris green or white arsenic.

Do not use cheap banana oil or bronzing liquids.

Sure He Was

Cop—"Hey, where are you going? Don't you know this is a one-way street?"

Abe (in new car)—"Well, I'm goin' on way, ain't I?"

Not a Total Loss

"What's all the rumpus about?"

"Why, the doc just examined us and one of the diffident boys is knocking the stuffings out of a perfect one."

No Excitement

Mrs. Fred—The Robertsons pay cash for everything, I understand.

Mrs. Jack—What a monotonous life they must lead!

College English

First Student—When I was sight-seeing in Italy, I came across a girl who went to Varsity. It was in a very quaint city.

Second—"Genoa?"

First—"No, but it didn't take me long to get acquainted."

Conversation in a Drug Store

"Gimmie a tablet."

"What kind a tablet?"

"A yellow one."

"But what's the matter with you?"

"I want to write a letter."

A Most Generous Offer

"If the smallest hole appears after six months' wear," reads a Philadelphia tailor's advertisement, as reported in the Country Gentleman, "we will make another absolutely free."

She Meant Well

An old lady walked into the Judge's office.

"Are you the judge of Reprobates?" she inquired.

"I am the Judge of Probate," replied the old lady.

"Well, that's it, I expect," answered the old lady. "You see," she went on confidentially, "my husband died detested and left several little infidels, and I want to be the executioner."

Customer (in lunch room):

"Waiter give me a glass of milk and shredded wheat biscuits."

Waiter (shouting to kitchen):

"Cow juice and two straw pillows."

"De doctah say I got too much f'on in my blood."

"Does you eat much po'k, nigger?"

"Sho! Whatfo' you ask?"

"Den you'd bettah eat less po'k; you's full of pig-f'on."

An ancient negro was relating some of his experiences:

"And I suppose" remarked one of the party with sarcasm

"that you remember the Fall of Rome?"

"Well, sah" answered the old man, shaking his head "I don't zactly say I seed it, but I doos recollect hearing something drap."

"Where did the car hit this maa?" asked the lawyer when questioning the physician at the trial.

"At the junction of the dorsal and cervical vertebrae" responded the doctor.

The foreman of the jury rose in his seat and remarked: "I've lived in this county for upwards of 50 years and I never heard of any such place; I believe it's a made-up case."

FEED SUPPLIES and REMEDIES

Munday Hatchery

To All Our Friends and Customers:

In the sale and transfer of the property of the Munday Cotton Oil Co. to Anderson-Clayton Co., of Houston, Texas, we take this opportunity to express to you our sincere appreciation for your kindness and support during the many years of our pleasant business relations with you.

We have endeavored to conduct the affairs of the company on such a high plane as to merit your confidence, and trust that we have not entirely failed in our efforts.

We have many warm, intimate friends among the good people of Munday and vicinity, and our sincere wish is that prosperity and happiness in the future be the portion of each and every one.

We are not separating ourselves from our many friends in Munday and vicinity either in a business or social way in every respect, but expect to join you in every effort to secure all the good things, which the people of this section deserve.

In the operation of the affairs of the Munday Cotton Oil Co., we have endeavored to serve the community and we thank you for kind support. We know however, that the new management will take the advantage of every opportunity to render greater service than we were able to render, and we know that you will join them in their good work.

We shall take it as a personal favor if you will meet and get acquainted with the General Manager, Mr. J. C. Jones of Abilene and his representatives, so that you and they may join your efforts in promoting the welfare of this, the best section of our great state.

We are advised that the new management will not make a change in the local management of the plant in any respect, retaining Mr. T. G. Bengé as manager, Mr. H. P. Hill as cashier, and Mr. Menco Carrol supt., and have instructed them to continue the operation of the plant along the same line that we have operated it. We appreciate this very much, and feel that the new management is making no mistake in selecting the local management.

Again thanking all our good friends for their kindness, we are,

Sincerely,

W. F. PENDLETON
H. A. PENDLETON

De-Urbanizing America

The small town finds electric power a strong ally. As the evolution of industry turns into a new and brighter phase, factories are released from concentration in densely populated urban centers. To a substantial extent this has been made possible by the transmission of electric power from advantageously located generating stations, efficiently operated and adequate in capacity, to communities for miles around; sometimes bringing electric service for the first time; sometimes replacing inadequate local plants.

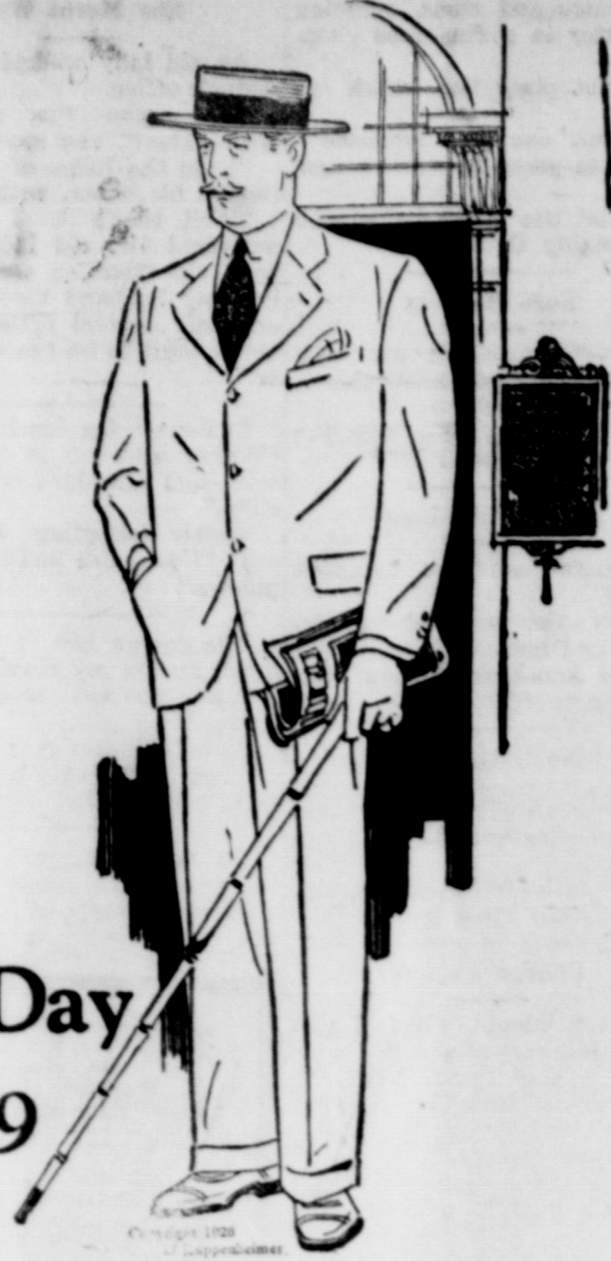

With the assurance to the small community of ample and economical power, industry is enabled to realize the advantages of better and cheaper living conditions for workers, and in many cases closer proximity to raw materials and markets.

Development of the local demand immediately available—the grist mill, grain elevator, waterworks system, street lighting—justifies the initial investment by the utility company, which there after co-operates with the community in building up local industries and attracting new ones.

In this kind of healthy development, apparent throughout America, the West Texas Utilities Company is one of the most active participants.

PAPER FROM ALASKA

For several years the enormously increased demand for paper of all kinds has given concern to many, who feared that with the depletion of the forests of Canada and the United States a paper famine might ensue.

This fear has led to the substitution with more or less success of other fibres instead of wood, as well as efforts to make available new sources of wood pulp supply.

In the search for new timber the paper manufacturers have recently turned to Alaska, where immense forests of suitable woods have been discovered. Within the past few months two of the largest timber sales ever made by the United States Forest Service were negotiated for Alaskan forests.

The last one, which accepted the bid of the San Francisco Chronicle and associates, involves the purchase of 835,000,000 cubic feet of pulp timber in the vicinity of Juneau, Alaska, the contract requiring the erection of a paper mill of 200 tons daily capacity, to be increased within 15 years to 400 tons.

The same interests are seeking water power sites in that region where tremendous potential water power exists.

Recent surveys of Alaska by government aviators have revealed almost limitless natural resources; and it is likely that adventurous spirits of the future will there find a virgin field for their activities.

Secretary Kellogg is in bad with some of the reporters already, and he is making matters worse by not resigning as they predicted he would.

At Valley Forge in 1778

VALLEY FORGE in June, 1926. Overhead a bright blue sky and banks of fleecy clouds. A breeze scented with dogwood stirs the tops of maples that break the long stretch of farmlands, carpeted in green and dotted with daisies. Sunshine and the song of birds and far in the distance the sound of the oncoming bus bringing another expectant group of prosperous visitors to that shrine of American patriotism, the headquarters of Washington in Revolutionary days.

Valley Forge in January, 1778. White fields stretch unbroken back from the frozen Schuylkill. Smoke is curling on the frosty air from the log huts of the American army. Blood-stained tracks lead from these huts to the commissary's shack, well-nigh destitute of the provisions which are needed for hungry men. From the two-story stone farmhouse of Isaac Putta, General Washington emerges, talks a minute with two of his officers, and then mounts his horse for his usual morning ride. His face is calm and serene, for in spite of the serious condition of his little army, he is confident that the summer will bring them success.

How familiar it all seems—this story of Washington at Valley Forge. Historians and novelists and painters have caused this part of our historical inheritance to stand out in bold relief. It was a happy idea to have this scene visualized on canvas for posterity by Edwin Austin Abbey and hung in the hall of representatives of the state capitol at Harrisburg, where hosts of Americans making a pilgrimage to Washington could stay their journey an hour or two and view it.

Where Patriots Suffered. Few of us without rereading our history could fail to be reminded of the battle of Germantown; that congress had fled from Philadelphia to York; that the campaign in New York state had been successful; Schuylker and Gates with less than 2,000 men defeating Burgoyne's army of 10,000. But most of us could tell of the hardships of the winter of 1777-78, when 21,000 barefooted and half-clothed men endured cold and hunger at Valley Forge.

It was not a winter of idleness, although but little time was spent on training in the art of war until Baron Von Steuben arrived from France late in February and set to drill the troops in the manual of arms and the simplest evolutions. On their immediate arrival at Valley Forge, the men had lived in tents, but the increasing cold made the building of warmer quarters imperative. Each but accommodated 12 men, so in gangs of 12 they worked together laying the logs and pointing them with clay. Washington offered a reward for the one finished first and in the best manner. Other rewards were given for a cheaper and more quickly made roof than boards and for the best substitute for shoes made of rawhide. Not until all the men were installed in their log huts, would General Washington move from his quarters into the small stone farmhouse, where he maintained his headquarters until they broke camp on June 19, the day the British evacuated Philadelphia.

Shows Old Way of Living. Since 1878, when this farmhouse was purchased by the Continental Memorial Association of Valley Forge, it has been the center of attraction. Here the public may get a glimpse of the old way of living. A feature of the log kitchen, hung with ladies' shillies, and griddles, was the chimney placed at the outside angle of the ell. On the large platform built across the chimney corner all the boiling and baking of the household was done—laundry, culinary, and autumn killing.

Another rallying point in this house, where he maintained his headquarters until they broke camp on June 19, the day the British evacuated Philadelphia.

Another rallying point in this house, where he maintained his headquarters until they broke camp on June 19, the day the British evacuated Philadelphia.

Shows Old Way of Living. Since 1878, when this farmhouse was purchased by the Continental Memorial Association of Valley Forge, it has been the center of attraction. Here the public may get a glimpse of the old way of living. A feature of the log kitchen, hung with ladies' shillies, and griddles, was the chimney placed at the outside angle of the ell. On the large platform built across the chimney corner all the boiling and baking of the household was done—laundry, culinary, and autumn killing.

Here is R. B. Howell, son of J. W. Howell, residing west of Munday, and raises White Leghorns, Jersey cattle and Poland China hogs. R. B. is a poultry club member, and is raising some fine White Leghorns, and recently sold \$33.50 worth of cockerels in one deal. He is one of the youngsters of Knox County who is taking an interest in and deriving benefit from the work of County Agent, W. O. Logan. Photo courtesy Farm and Ranch.

FARMERS UNION WILL HOLD IMPORTANT MEETING SATURDAY

The Farmers Union will meet at the hall at 3:30 o'clock Saturday afternoon, and important business is to be transacted and all members are urged to be present.

Mrs. Bill Henderson Wins First Place in Button-hole Contest

Red Top Home Demonstration Club met last Tuesday at Mrs. E. B. Frasure's to have a button-hole contest, to determine who would go to College Station to the Short Course. The house was called to order by the president. Nine members were present. Club songs were sung. A motion was made and seconded that instead of having a cream supper to obtain money to send a member to the short course but that each member be assessed one dollar. As the expense of preparing the cream would be over that, and we decided that this way of raising our money would be best. All who can bring your fee to the next club meeting at Mrs. E. T. Cluck's. The meeting closed and we went into the reading of instructions to make correct button-holes. The following entered the contest: Mmes E. B. Frasure, W. T. Strange, Tom Henderson, Felix Franklin, Geo. Floyd, Bill Henderson, R. H. Grimes, Lewis Floyd and Alvin Floyd. Button-holes were sent to Mrs. Julia Kelly, Baylor Co. Home Demonstration agent, to be judged. She awarded Mrs. Bill Henderson first place, to be given next meeting day at Mrs. E. T. Cluck. Subject: "Producing Better Eggs."—Reporter.

Bread and Muffins Is Topic of Meeting

The Girls 4-H Home Demonstration club of Gillespie community held their regular semi-monthly meeting Wednesday in the club room of the school house. At this meeting we had eleven members and one visitor present.

The first year girls made biscuits and twin mountain muffins, and I wish to say if the population of Knox county were to use as much baking powder as they did, the wealth of the baking powder companies would be greatly increased. (Note to all first year girls): Look on your receipt leaflet and if your twin mountain muffin receipt calls for 4 tsp. of baking powder, change it to 2.

The second year girls made Parker house rolls, cinnamon rolls and tea rolls. They were good, considering that we didn't let the dough rise long enough. The third year girls and fourth year girls made angel food cake.

While these were cooking Miss Maxwell told us how to prepare for the encampment and we planned our part of the stunt program.

We adjourned to meet July 13 in the usual place. Visitors are cordially invited.

Those present at this meeting were: Visitor, Mrs. C. R. Laid, members, Faye Alvey, Olive Mae Partridge, Ollie Mae Burrus, Mildred Burton, Callie Faye McGregor, Flora Lee Hunter, Dorothy Gray, Elizabeth Henter, Mildred Draper, Cora Smidley and Pearl Union.

A Message To Those Who Have Never Tried Our Service....

If there is any resident of Munday who has never ordered anything from our store, this is a personal message.

We want YOU to know that we mean every word we say regarding our idea of service. It's almost a mania with us—and we are working the service idea so hard, we try to do better than we promise.

But you can't know about us 'till you give us a trial. As soon as you've finished reading this, think what you need, go to your 'phone and tell us you are 'from Missouri' and want to know whether our claim is worth anything or is it just 'hot air.'
