

Drive for Scrap Metal is Opened

An intensive drive for collection of scrap metal in Knox county to be presented to the axis powers in the form of fighting materials from the hands of allied forces was begun this week.

It was pointed out that Knox county has already shipped 350 tons of scrap metal to be converted to war machines and materials. Yet, there remains hundreds of tons more, and the present drive is to urge everyone to bring their scrap iron, etc., in to the local dealers.

The International Harvester Co. has released its men from their regular duties during the month of May to aid in the campaign to get scrap iron moving. W. P. Ledbetter, representative of the company, is spending this week in this territory. He is working with Fred Broach, local dealer for the company, and C. R. Elliott, member of the county war board, and others in encouraging the citizens to get busy and get that scrap iron out of their way and put it where it will do some good for the allied cause.

Cotton Stamp Program Stops On May 30th

Austin.—The Cotton Stamp program will be discontinued on May 30, 1942, the Department of Public Welfare has been advised by the Agricultural Marketing Administration. Executive Director J. S. Murchison explained that this action was made necessary because the government finds it imperative to release all manufacturing facilities of the cotton industry.

Cotton stamps were exchangeable for cotton goods and were issued to public assistance recipients in seven counties of Texas. These included Tarrant, Dallas, Hill, McLennan, Travis, Harris and El Paso.

All Teachers In Munday Schools Are Re-Elected

All teachers in the Munday Public Schools were elected at a called meeting of the Board of Education last week.

Those elected were: Mr. L. S. Hardegree, principal of the high school; Mr. L. M. Palmer, principal of the ward school; Jessie Merle DeLoach, English in high school; Dorothy O'Donnell, Homemaking; Edna Lou Brock, Commercial; Mancel W. Ayers, Vocational Agriculture. Jack Perryman, coach, was given commendation and honorable election due to his leaving for the Navy soon. Mr. Milburn, science, did not request election for next year.

In the ward school the following teachers have been elected: Mr. and Mrs. Clyde Kennamer, Mrs. L. M. Palmer, Mrs. L. S. Hardegree; Miss Addie Beene, Miss Mayme Holcomb, Miss Kathleen Barnett, Miss Ruby Dell Nees; and Mr. Cecil Hood, band director, was given an honorable recommendation and election due to the fact that he is leaving next week for the Naval Reserve. Mrs. Buel Bowden was highly commended for her work as substitute teacher the past half year, but due to local regulations local married women teachers are not being given positions at present.

Due to the shortage of teachers over the state, L. A. Woods, state superintendent, has requested that all those who have degrees and are qualified to teach, get their applications in to local superintendents. Present statistics show that a large shortage will take place in September. With the application all prospective teachers not now in the profession should include in what section they would like to teach.

MISS CLARK ACCEPTS POSITION IN DALLAS

Miss Loma Rae Clark, who has recently finished a business course in Dallas, has accepted a position with the United Mutual Fire Insurance Company in that city. Miss Clark is the daughter of Mr. and Mrs. Tom Clark of the Sunset community.

Mrs. Olive McDonald of Dallas is a guest in the home of Mrs. A. F. Huskinson.

Defending the Pacific Coast

CANADA'S west coast defenses have been vastly improved since the Japanese attack on Pearl Harbor. The Bofors anti-aircraft gun in this photo is one of many, all manufactured in Canada, which stand ready to blast away at the first sign of an enemy raider. Because of the deafening noise which accompanies the rapid fire of the gun, the cease fire order is given the trigger man by a yank of the rope which the soldier at left holds in his hand. To equip and train the army which guards Canada at

home and abroad, \$1,000,000,000 will be spent in 1942-43. When it is complete there will be a Canadian army overseas of two corps. A division now in Canada will be equipped as an armored unit, trained and sent overseas. Another army tank brigade will be created for use with infantry divisions. Defense of east and west coasts have been placed under two commands. Air, land and sea services in these areas, as well as in Newfoundland, have been placed under the single command of the senior officer in the area.

Landowners Vote on Soil District Saturday

Warren Martin Is Gilliland Supt.

Warren Martin, superintendent of the Truscott schools, was recently elected superintendent at Gilliland, succeeding S. H. Thompson.

Mr. Martin has been with the Truscott schools for three years, teaching there two years before becoming superintendent. He is regarded as one of the county's leading school men.

Mr. and Mrs. Thompson had planned to move to their farm in Collingsworth county, but Thompson is now planning to enter some phase of the U.S. military service.

Balloting Saturday, May 23, on the creation of the Wichita-Brazos Soil Conservation District including Knox and the north half of Haskell counties "ought to be 100 per cent" according to August Schumacher, chairman of the Knox county Land Use Planning Committee. Mr. Schumacher further stated that: "A number of our leading farmers and ranchers have been working to get a soil conservation district for well over a year. There are such districts in much of the rest of Texas, including over 80 million acres, I believe. We have a lot of erosion problems that need the benefits of a district. I hope that every landowner and his wife who lives in Knox county and the adjoining part of Haskell county will vote on May 23. You do not need a poll tax."

County Agent Dunkle, assisted by vocational agricultural teachers and 17 landowners conducting a series of meetings to further acquaint local landowners with operations of a district. While general approval of the new conservation district is expected to be given in the election of May 23, the vital need of every landowner and his wife casting a ballot is emphasized by the County Agent's office and other agricultural leaders. Insetad of approving the district by the needed two-thirds majority, it is to be hoped that landowners will approve the district by as near 100 per cent as possible.

"It is important to remember, states County Agent Dunkle, that a soil conservation district is 100

"WOMEN'S ARMY" TO TRAIN AT DES MOINES, IOWA

Congress has authorized establishment of the Women's Army Auxiliary Corps to the limit of 150,000 members, and President Roosevelt directed Secretary Stimson to limit initial mobilization to 25,000. Mrs. William P. Hobby of the Army Bureau of Public Relations was named WAAC director. Mrs. Hobby, who is a Houston woman, said members will be assigned 62 different kinds of jobs and will replace enlisted men who are now performing noncombatant duties. The first class of 450 officer candidates will be trained at Fort Des Moines, Iowa.

HAWKINS CHILD INJURED BY RUN-AWAY PONY

The eight-year-old daughter of Mr. and Mrs. J. G. Hawkins, who reside near Munday, was painfully injured last Friday when a Shetland pony which she was riding ran away with her. She had started to the mail box when the pony became frightened and ran away. The child received numerous bruises as she was dragged by the pony, but fortunately only one small fracture was reported by the attending physician.

KNOX COUNTY FAVORS MARKETING QUOTAS

Farmers of Knox county voted 84 per cent in favor of wheat marketing quotas in the election held recently. The total vote for the election was 152, with 127 for the quotas to 25 against the quotas. The vote by communities was as follows:

Benjamin 20 for, 4 against; Knox City, 8 for, 4 against; Munday, 21 for, 5 against; Gore, 13 for, 1 against; Rhineland, 14 for, 3 against; Vera, 11 for, 1 against; Truscott, 27 for, 5 against; Gilliland, 13 for, 2 against.

Mr. and Mrs. G. R. Eiland and Mrs. Lillian Holt were in Wichita Falls last Sunday to visit Sgt. G. R. Eiland, Jr., at Sheppard Field, and with Dr. and Mrs. James N. Walker and little daughter.

Foard County Red Cross Thanks All County People Who Aided Crowell Folks

The following is a copy of a letter received this week from the Foard County chapter of Red Cross, thanking the Knox county chapter for donations made to the tornado sufferers of Crowell:

Dear Chairman:

This acknowledges receipt of your donations to our tornado sufferers for which we want to thank you. It will help our people to rebuild their homes and re-establish themselves.

We had 150 homes destroyed completely, about 250 badly damaged, and around 100 with minor damages. There were less than 25 homes that escaped without damage. Not a person escaped without being effected in some way. There were 1,500 people homeless, without food or clothes when your people came to our rescue and assistance.

Each of our people would like, if possible, to shake hands with each of yours and tell them just how much we do appreciate what you have done for us.

As a matter of information, your

local Red Cross chapter will be given credit in the National Red Cross for the aid you have given us. This will be handled through St. Louis. We want you to know that every penny will be spent in Crowell to help our stricken people.

Many of our best people were forced to eat at the Red Cross, and hundreds are wearing clothes donated by the Red Cross.

At present, our situation is well in hand as to clothing and bedding, but the housing problem is acute. The National Red Cross is starting to repair and building furnished homes. They are a "Rock of Gibraltar" in time of need. We could never have made the progress we have to date without them. It is impossible for us to acknowledge all the people who contributed to our relief, so we will appreciate it if you will have this letter published in your paper. We thank you.

Yours very truly,

Foard County Chapter,
American Red Cross,
Geo. D. Self, Chm.

Each of our people would like, if possible, to shake hands with each of yours and tell them just how much we do appreciate what you have done for us.

Lee Powell Is Elected Supt. Of Vera School

Lee Powell, superintendent of the Williams High School in Hardeeman county, was elected superintendent of the Vera schools at a recent meeting of the school board. It was announced here this week.

Mr. Powell has been at Williams for a number of years, and he was coach of the powerful Williams basketball team which was runner-up in the state tournament here some two or three years ago. Powell has had a number of years of experience in the teaching profession and comes to this county very highly recommended as a school man. He will begin his duties around July 1, it was stated.

Powell succeeds Jesse G. Thompson, who has served as superintendent at Vera for five years. Thompson plans to enter civil service work, according to reports received here.

MEMORIAL DAY FLOWERS NEEDED

Following their usual custom, members of Lowry Post No. 44 of American Legion will decorate the graves of all American war veterans in the county on Memorial Day May 30.

Graves of veterans of the Civil War, Spanish-American War and World War I will be decorated.

To do this, the American Legion will need a lot of flowers, and its members are appealing to local citizens for flowers for this purpose. If you have flowers notify some member of the American Legion, and a member will pick them up and arrange them into wreaths for Memorial Day.

Truscott Girl Is Selected Head Of Bible Study Group

Denton, Tex.—Miss Neva Mills, from Truscott, who is attending North Texas State Teachers College at Denton, has been selected as the head of the Bible Study Committee for the Wesley Foundation for the coming year. The Wesley Foundation is the young people's organization for college students in the Methodist church.

Miss Mills and the other officers of the organization were installed in a recent meeting of the Foundation.

Mahans Attend Relative's Funeral

Mr. and Mrs. Wade Mahan were called to Wellington last Monday on account of the death of Wade's uncle, Larkin C. Forbis.

Mr. Forbis, brother of Wade's mother, Mrs. J. A. Mahan, was a pioneer of Collingsworth county. He was 67 years old and had been dangerously ill in a Wellington hospital for several weeks.

Funeral services were held at 3:30 o'clock Tuesday afternoon from the First Methodist church in Wellington, conducted by Rev. J. Edmund Kirby, pastor.

S. H. Thompson, Superintendent of the Gilliland School, Was a Business Visitor Here Last Tuesday

S. H. Thompson, superintendent of the Gilliland school, was a business visitor here last Tuesday.

U.S.O. Campaign Committee Named

Leland Hannah, county chairman, Wednesday named committee-men for this trade area who are to assist him in the campaign for U.S.O. funds, which opens over the county Friday.

R. D. Atkinson is chairman of the Munday committee. Others are Curtis Coates, Lyle Stodghill, Chan Hughes, Travis Jones and Jimmie Silman.

Chairman for Goree is Mrs. Barton Carl, and Chas. Stengel is chairman at Rhineland. Names of other chairman over the county were not available Wednesday.

J. E. Reeves Home To Visit Parents

J. E. Reeves, Jr., who is a naval reserve cadet in the merchant marine at New Orleans, came in the first of last week to visit his parents, Mr. and Mrs. Jim Reeves.

J. E. was on furlough which was up last Monday, but he became ill and his commanding officer extended the furlough several days.

After reporting back to New Orleans, J. E. will have six months training at sea, after which he will go to New York to complete his course which will require about eight months longer.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Elton Busby of Brownfield announce the birth of a son, Tom Allen, on May 5th. Mr. and Mrs. Busby are former residents of this county. Mr. Busby is the son of Mr. and Mrs. T. M. Busby.

Cecil Cooper Tells of Value Of U.S.O. to Service

Cecil Cooper, a member of the air corps at Salinas, California, on leave awaiting assignment for training as a flying cadet, has this to say in regard to the U.S.O.:

"It is the finest thing you have ever done for the service man. There you can always find your favorite newspaper or magazine or a good book to read. You can listen to a radio or play the phonograph. You can have a shave or a shower. You can play basketball, table tennis, or most any other game."

"The U.S.O. furnishes us good shows and other forms of entertainment free. The units act as clearing houses for invitations from people who want to entertain a group of soldiers for a dinner, or over a week end."

"The U.S.O. furnishes us with writing material, pens, ink and typewriters, and sell us food items, candies, cigarettes and drinks at cost."

"I believe there is no better way for the home folks to build morale among our army, navy and marines than to financially support the U.S.O."

The county drive for U.S.O. funds begins Friday. Remember, "You help someone you know when you help the U.S.O."

ANOTHER BOY

Contratulations are extended to Mr. and Mrs. C. W. Selman upon the arrival of a 7-pound son, born Wednesday night at the Knox county hospital. Mother and little son are reported doing nicely. The father, manager of Perry Bros. store here, is happy upon the arrival of his second son.

FROM TEXAS A. AND M.

Woodrow Myers, who has been attending Texas A. and M. College, came in the latter part of last week to visit his parents, Mr. and Mrs. R. L. Myers of the Sunset community. Woodrow received his bachelor of science degree in petroleum engineering at the graduation exercises last Friday night.

Final graduation exercises for 21 seniors of Munday high school will begin next Sunday, when the baccalaureate service will be held at the Munday school auditorium, beginning at 8:30 p.m.

Rev. H. R. Whatley, pastor of the First Baptist church in Haskell, has been selected by the seniors to preach the baccalaureate sermon. Rev. Whatley is an interesting and forceful preacher, and he will have a message of interest to all seniors and their parents and friends.

The program for the baccalaureate service is as follows: Processional, Holy, Holy, Holy; invocation, Rev. R. L. Kirk; choir, Awakening Chorus; scripture reading, Rev. Whatley; solo, "Teach Me To Live," Mrs. A. V. Kemletz; sermon, Rev. Whatley; choir, True Hearted, Whole Hearted; benediction, Rev. W. H. Albertson.

The seniors' final graduation exercises will be at the school auditorium on Friday night, May 29, beginning at 8:45 o'clock. The program for this exercise is as follows:

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

OUR AMERICAN WAY IS WORTHY SACRIFICE

We are all for America, without a doubt. Yet we hear on every side talk of the disadvantages of sugar rationing, tire rationing, and the possibility of a gasoline shortage. This is not basically unpatriotic. It is only to be supposed that we should hate to give up these erstwhile essentials, and it is a bit hard for us to get used to the idea of cutting down considerably on our sweets, conserving tires and gasoline.

But we have lots to think about these days, and lots to remember. We must get it into our heads that if American traditions are to be kept alive—if America herself stands—we must sacrifice, and keep on sacrificing more and more every day, to that end. We must realize that now, more than ever before, we must save every article of clothing, or bite of food we can to prevent actual need and hunger tomorrow.

If we could but take one good look at the poor, conquered people in other lands—if we could know the hunger they know, feel the painful punishment they feel, fear the heartless, barbarous, inhuman despot they fear, we'd tuck our heads in shame at the thought of even murmuring about having to do without a little sugar, or staying at home when we'd like to be on the road.

Let's not talk any more, then, of the disadvantage of having to do without this and that. Instead, let's thank God we have what we have, and that we are strong enough to defend it against the beasts who would make of our world what has been made of other worlds we know only by newspaper and radio.

MORE THAN GUNS

When total war hits a nation, it means far more than steel and aluminum, airplanes and tanks, machine tools and auto industry conversion. It means hard work and sacrifice on the part of everybody—farmers and the people who make civilian goods as much as those who work in the more spectacular war industries.

The men and women who man the civilian front have the task of supplying the American people, as well as a large part of the rest of the world, with necessary food and clothing. Theirs is the task of keeping the best-fed and best-equipped army in the world—an ever-growing U.S. Army—in the field.

And that is no easy task in these days of scarcities—scarcity of raw materials, scarcity of labor and scarcity of time.

Theirs is really an enormous job, for the average American in the Army needs almost double the food and clothing he gets in civilian life. The average male civilian in this country eats 125 pounds of meat a year. The soldier gets 360 pounds. The civilian drinks 150 pounds of milk, but the soldier drinks 210 pounds. The civilian wears two pairs of shoes a year, the soldier three. The civilian gets one pair of trousers, the soldier five.

These manufacturers and producers of "non-essential" goods are making it their job to see to it that the civilian population—millions of whom are manning the production front—do not suffer for want of essential food and clothing, and that our soldiers have the highest quality of everything necessary to make them the strongest army ever known.

PATENTS AND WAR

Since the days of the Yankee tinkerer, patents have encouraged inventors to invent, manufacturers to manufacture and investors to invest in new enterprise.

The American Patent System has played an important role in the development of our individual civilization and our high standard of living. Now inventions brought forth under its stimulus will help win the war and preserve our civilization.

Every invention which can contribute to victory must be fully utilized in our all-out war effort. If Congress finds it necessary to enact special legislation to achieve this purpose, it should make certain that the laws passed will not permanently weaken the incentive to invention and to the development of new industries from inventions. We shall need patents for prosperity tomorrow.

Certainly this is not the time to "overhaul the patent system," as some Congressmen have suggested. The bill on which hearings are now being held by the Senate Patent Committee is advanced as "war legislation," but its major provision would establish permanent compulsory licensing of patents. Proposed legislation of this nature has been considered and discarded by Congress at least five times in the last 30 years.

America's No. 1 job now is to win the war. Neither Government nor industry can afford to take time out now to settle such a controversial issue.

RUBBER FOR AMERICA

Hope for the American motorist is found in the ambitious synthetic rubber program which is being developed by the oil industry.

W. S. S. Rodgers, president of the Texas Company, says that the automobile is so interwoven with our national economy that its necessary civilian use should and must be continued. The government's current synthetic rubber plans call for the creation of a supply which will be almost entirely absorbed by military needs. Therefore, the oil industry has appointed a committee "to make recommendations for increasing the announced programs so as to include some rubber for what we consider essential civilian use." Commenting on this, Mr. Rodgers said, "I have a great deal of confidence in American ingenuity, and I would not be surprised if we should soon find some satisfactory solution to this rather difficult problem."

Very great progress has been made in increasing the wearing ability of synthetic rubber for tires. According to W. S. Farish, president of the Standard Oil Company of New Jersey, rubber substitutes developed as late as 1940 would deliver only 200 miles of service. New synthetic rubber may deliver 10,000 miles at speeds of not over 35 miles per hour. And, says Mr. Farish, a single day's output of steel would enable the oil industry to build all the equipment needed to keep the necessary civilian cars rolling.

It will, of course, be a long time before much rubber is available for anything except vital use. So take the best possible care of your car and its tires. And in the meantime, it is reassuring to know that the oil industry is doing everything in its power to give this nation the synthetic rubber it so desperately needs.

FEMINE COMPETITION

Women can satisfactorily fill all or most jobs performed by men, subject only to the limitations of strength and physical requirements, and they should be paid equally for equal work. That's the opinion of William P. Witherow, president of the National Association of Manufacturers, who says that as many as four million women may be employed by the end of 1945.

Manufacturers and industrial relations experts have been conducting a series of clinics throughout the country in order that they can adopt a "sound approach" to the employment of women in war jobs.

Describing the survey, Mr. Witherow reported, "These unique, one-spot 'women clinics' were held in key war producing centers, stretching from New York as far west as Oklahoma City, for the purpose of exploring personnel and employment relations problems involved in the employment of a million and more women in war industries within the near future."

The survey yielded some interesting facts on the feminine invasion of a heretofore largely masculine field. For one thing, their presence in factories is stepping up the war efforts of the men.

At first the men resented the invasion of what was formerly strictly a male domain, but soon they began to slick their hair, wear ties and even coats occasionally. In many factories the women began by doing more work than the men. The men couldn't stand that, and they stepped up their own efforts.

If the fair sex does have the effect of accelerating war production, women should be a welcome addition to our industrial battlefield. And certainly they should be paid the same wages for the same work.

Production of one type of longrange bomber has been doubled since the Jap attack on Pearl Harbor.

NOTICE OF SHERIFF'S SALE

The State of Texas
County of Knox

By virtue of an order of sale issued pursuant to a judgment decree of the District Court of Knox County, Texas, by the Clerk of said Court on the 28th day of April A.D. 1942, in a certain suit No. 4226, wherein the City of Munday, Munday Independent School District, and the State of Texas and Knox County parties to suit; recovered a judgment establishing the amount of taxes due each of said above named, as well as the taxes due the defendant State of Texas and Knox County, as follows: City of Munday the sum of \$446.48, the Munday Independent School District the sum of \$212.02, and the State of Texas and Knox County the sum of \$158.58, aggregating Eight Hundred Seventeen 08-100 Dollars for taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff, and defendant by the said District Court of Knox County, on the 24th day of March, A.D. 1942, and to me directed and delivered as Sheriff of said Knox County, I have seized, levied upon, and will, on the first Tuesday in June A.D. 1942, the same being the 2nd day of said month, at the courthouse door of said Knox County, in the City of Benjamin between the hours of 2 o'clock P.M. and 4 o'clock P.M. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said parties in and to the following described real estate, the same lying and being situated in the County of Knox and State of Texas, to-wit: All of Lot Number Seven (7), and North One-half of lot Number (9), in Block Number One (1), West Munday Addition to the Town of Munday, in Knox County, Texas. (The above judgment does not include taxes due for the year of 1941.) Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Dated at Benjamin, Texas, this 28th day of April, 1942.

LOUIS CARTWRIGHT,
Sheriff Knox County,
Texas.

The steel industry continues to operate at close to capacity, and capacity is constantly being increased. Last month, over 7,000,000 tons of steel were produced. The average weekly production in recent weeks has been close to 1,650,000 tons.

A street lamp that can light a longer stretch of roadway has resulted from defense priorities on metals. The great demand for aluminum forced industrial engineers to find a substitute metal for street light reflectors. They developed a silver-coated glass reflector inside a steel hood that was as good as

Realizing that loose talk may upset employees in the plant, one war factory devised a rumor board and placed it in the shop. Now, when a worker repeats a rumor, his fellow workers tell him to write it on the Rumor Board and sign his name. In most cases that ends the rumor.

Lots to eat and drink for everyone and after all, that's what makes the picnic a success for boys and girls our age. We voted our \$5 we had to be given to the expense of the picnic but our roommothers returned half of it to us with instructions that a Defense Stamp for each class member should be bought. We appreciate the attitude of the roommothers and assure them that each class member will get a 10c stamp.

Ethel Franklin moved away last week, in fact to Waco. We regret losing Ethel and wish for her a happy situation wherever she lands.

Final tests will be given the latter part of this week and the first of next and from all indications they are to be plenty hard. Well, we are plenty good, too, so why should we worry?

Freshman News

Last Tuesday morning the Home Ec IA class served their first successful meal—a breakfast. The girls were divided into groups, each group having one required duty. The groups will take turns with these tasks, each group doing a different task each time. The group that served breakfast was Berniece Douglas, Patsy Ruth Mitchell, Mildred Smith, and Latrece Johnson. The host was Patsy Ruth, the hostess, Berniece, the two sisters were Latrece and Mildred, with Latrece serving part of the meal, as the meal was served in compromise style. The two guests were Jimmy Silman and Milton Thompson. Jimmy and Milton both seemed to enjoy the breakfast. Our menu was:

Strawberries and Shredded Ralston Sugar Cream
Puffy Omelet and Bacon Muffins Butter
Milk Water

We are now taking up luncheons and Tuesday morning we will serve a light luncheon, Wednesday, a medium luncheon, Thursday a heavy luncheon.

Treasure Island has proved itself as interesting as its name promised to be. We will try to finish it by Friday. We're three-fourths of the way through it now. Tuesday, an achievement test will be taken. English IA has not started to review, but the IB class has been reviewing for two weeks.

Our picnic will be next Monday night at the Seymour park. All that care to swim will be granted this wish. Our committees are finishing their duties this week.

Sophomore News

Well, two more weeks and we are hoping to be Juniors. We all study hard and are as good as we can be. Just ask Mr. Hardy if you don't believe us.

One of our classmates, Buddy Gafford, took his exams early and has gone to Coleman to work. We miss having him but wish him success and happiness at his work.

History seems to get some of the Sophs down (even the reporter). We just had two chapters, which was 80 pages, to outline and also finish our workbooks.

In English we are writing an autobiography—in case you don't know what that is, it is the story of our life. Some of us have such interesting lives that we may never finish.

Can you feature the Soph girls baking a cake without sugar? Well, we did it and they weren't so bad; just ask any of the girls.

Well, this is all, so so long until next week.

7A News

Last Friday afternoon 7A room enjoyed a picnic in the city park. Three of our roommothers were present. They were: Mrs. Leland Hannah, Mrs. R. L. Ratliff and Mrs. C. N. Smith. Before our weiner roast several games were played. We wish to thank Mr. J. L. Stodghill for the truck to carry us there.

Seven A has had 100 per cent attendance lately and hopes to continue. It is very proud that the close of school is near, and we really dread the exams.

Last Friday we received a Thank You card from Mrs. Kennamer, thanking us for the gift we sent her while ill.

The eighth year pupils are very proud of their two poets, Patsy Massey and Oleta Norman. Some swell poems are being written by these two pupils.

Plans are under way for a fine graduation program May 28. We are very glad that most of us will be in high school next year.

One of our best pupils, Howard Franklin, has moved to Waco. We will miss him very much and hope he will remember us at graduation time.

NOTICE OF SHERIFF'S SALE

The State of Texas
County of Knox

By virtue of an order of sale issued pursuant to a judgment decree of the District Court of Knox County, Texas, by the Clerk of said Court on the 28th day of April, A.D. 1942, in a certain suit No. 4225, wherein the City of Munday, Munday Independent School District, and the State of Texas and Knox County parties to suit; recovered a judgment establishing the amount of taxes due each of said above named, as well as the taxes due the defendant State of Texas and Knox County, as follows: City of Munday the sum of \$275.36, Munday Independent School District the sum of \$175.34, and the State of Texas and Knox County the sum of \$149.83, aggregating Six Hundred 53-100 (\$800.53) Dollars for taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiffs and defendants by the said District Court of Knox County, on the 24th day of March, A.D. 1942, and to me directed and delivered as Sheriff of said Knox County, I have seized, levied upon, and will, on the first Tuesday in June A.D. 1942, the same being the 2nd day of said month, at the courthouse door of said Knox County, in the City of Benjamin, between the hours of 2 o'clock P.M. and 4 o'clock P.M. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said parties in and to the following described real estate, the same lying and being situated in the County of Knox and State of Texas, to-wit:

Being all of Lots Number One (1), and Two (2), both in Block Number Seventy-Four (74), in the J. T. Lee Second Addition to the Town of Munday, Texas, in Knox County, Texas.

(The above judgment does not include taxes for the year 1941.)

Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Dated at Benjamin, Texas, this 28th day of April, 1942.

EGG-CELLENT!—Typical American biddy honored as nation's hens exceed government's 1942 production quota of 4,200,000,000 dozen eggs. Citation made during Springtime Egg Festival when chain stores sponsored special sales program to help producers through peak production.

DESERT TRAINING—U. S. soldiers are learning the ins and outs of desert warfare at the huge new training base near here at Indio, Calif. Here they are—men and tanks—lined up during recent maneuvers.

We wonder Why—
The E.Y. pupils had a perfect English lesson a few days ago. Willis is never absent. (How about it, Pip?)
Howell moved to Waco.
Lucille was so lonesome that she forgot about school.
Bitter used a dictionary so much. Billie Joe just loves English.
Cadel was talking about failing.
May 15 was such a big day for the eighth year pupils.
Martha likes to walk so well. (New shoes?)
Patsy has so much trouble.

Third Year News

The third year students are very proud of the blue ribbon they received from the Board of Insurance Commissioners a honorable mention in the state fire prevention poster contest.

The poster was made by Carolyn Hardegree with the assistance of the other members of the class. The theme of the poster was "Fire Traps Make Happy Japs." An airplane with a match beneath it and the picture of a laughing Jap were used. These and the lettering were from construction paper. This was all mounted upon poster board.

The ribbon is to be kept by the third year room.

Senior Report

As the close of school is drawing near the Seniors are beginning to realize that their school days in Munday High will so be over and they will leave their positions for the next class as is customary. We look over our four years in High School and realize all the fun we have had and hate to leave, but since we can't remain here always we must go out in the world and seek our life that is already planned for us. We now bid you goodbye.

The Seniors want to thank the Baptist Missionary Society for such a lovely reception given us last Tuesday evening. We also wish to thank the roommothers for such a nice time last Friday night at the club house. The dinner was so nice and the entire class enjoyed being together once more.

Seniors on Review

Probably the most outstanding life history of any Senior is that of our reporter, Miss Juracy Jones. Juracy was born in Arapua, Matto Grosso, Brazil, South America. We don't expect anyone to remember anything of this except just South America. This happened on May 7, 1925. At the ripe old age of two, Juracy moved with her family to a farm in Haskell county, Texas, U.S.A.

She started on the road to an education there in Haskell county, but came to the city when she was in the fifth grade. She has been with us every year since then, and is now a loyal Senior.

Despite the fact that she was born in South America no one thinks of Juracy as anyone but one of us. She is a very patriotic American and really gets around in High School.

This year Juracy is reporter of the Senior class and has been quite successful at it. She is also Senior Life reporter of The Mogul, school

annual. In her spare time, Juracy keeps the office and plays in the band.

We are confident Juracy will have success in East Texas State Teachers College at Commerce, where she plans to enroll this summer and major in Business Administration.

Here's to you, Juracy!
—Ben Bowden

Junior News

Well, the Juniors are all hoping for nice weather because we are planning a picnic Friday night at Seymour Park, to which the Seniors are invited.

We expect we shall be pretty busy this week, what with "Finals" coming up next week, and it is a relief to see we have only a few more days to go.

In History we have finally finished our workbooks and will finish our poetry and book reports in English this week—we hope—so if you happen to see any of the Juniors mulling around, you will know they are reciting poetry.

Railwork Scheduling Asked

Eight major railroads serving the Southwest have been asked by Defense Transportation Director Joseph B. Eastman to plan their maintenance-of-way work for periods of the year when farm labor demands are low. Pointing out that winters are mild in this region, Eastman asked railroads to plan as much track and roadbed work as possible for January and the spring and early summer months. He suggested that maintenance-of-way officers check with the local offices of the U.S. Employment Service to find out when local peak demands for farm labor are likely to occur.

Wool Samples Asked

Following up a suggestion made by a New Orleans tailor, the War Production Board has asked that tailors and clothing stores all over the country turn in old wool samples and wool clips to the Red Cross. Trouser cuff clips already are being collected by the Red Cross. H. Stanley Marcus of Dallas, chief of the W.P.B. apparel section, pointed out that contribution of wool samples not only will add to the supply of reprocessed wool but also will increase Red Cross revenue.

Gasoline Rationing for Visitors

Vacationing automobile drivers from the Southwest will obtain the same gasoline ration in the East Coast and far Northwest areas in which rationing is now in effect, according to Max L. McCullough, region OPA administrator. Motorists entering the regions on business will be eligible for ration cards to provide for their needs. Ration cards will be issued to visitors by local ration boards in the affected areas.

Delivery Order Delayed

Effective date of the Office of Defense Transportation order limiting local delivery service has been postponed from May 15 to

June 1. When the order goes into effect, it will prohibit more than one delivery per day to any one customer. In addition local carriers using rubber-tired vehicles must reduce their total mileage by 25 per cent a month, compared with the corresponding month of 1941.

Road Building Allowed

Authority for State, county and municipal agencies to continue their spring and summer roadbuilding programs, without special application under the WPB order limiting all construction, has been issued by the War Production Board. Under the authority, only materials which are ordinarily available locally, such as sand, gravel, etc., may be used. No important types of steel may be used, except from stocks already in the hands of road departments or contractors.

Typewriter Rentals Okayed

Although new and used typewriters cannot be purchased except with certificates issued to eligible by local ration boards, any person or business needing a typewriter is entitled to rent a used office machine or a new portable directly from any dealer, the OPA announced.

Bicycle Rationing Delayed

Rationing control over the sale, transfer, or other disposition of new adult bicycles has been delegated by the WPB to the Office of Price Administration. Sale of such bicycles has been frozen since April 1.

The Hefner home demonstration club met last Tuesday afternoon in the home of Mrs. Homer Lambeth. Roll call was answered by giving household hints.

A county council report was given by Mrs. J. E. Cure, and it was reported that 25 garments have been made for the Red Cross. "The Care of Clothing" was given by Mrs. Roy Jones, Mrs. Turner Standlee and Mrs. F. M. Lambeth.

The club plans to send a box of clothing and other articles to the relief of Crowell. Refreshments were served to 15 members and 3 visitors.

In a letter received by the Times last Wednesday, Pvt. Paul J. Fettsch writes he is now attached to the 63rd Pursuit Sqdn. His address is: Pvt. P. J. Fettsch, 63rd Pursuit Sqdn., Barracks T-5, Farmingdale, Long Island, N.Y.

Pvt. Fettsch wants to know what is going on at home, so he keeps the Times posted on his address.

Former Munday Girl is Married In Walters, Okla.

Of interest to relatives and friends in Munday is the announcement of the marriage of Miss Bertie Mae Norville, former Munday girl now residing in Wichita Falls, to Sgt. Kenneth Bloom, of Swanton, Ohio. The wedding ceremony took place at 1:30 Friday afternoon in the home of Rev. Moore in Walters, Oklahoma.

The bride, daughter of Mr. and Mrs. B. O. Norville of this city, was attired in a beige suit with which she wore harmonizing accessories. She was unattended.

The groom is the son of Mr. and Mrs. Floyd Bloom of Swanton, Ohio. He is a graduate of the Swanton high school and was employed in that city prior to his enlistment in the army 18 months ago.

The couple will make their home in Wichita Falls, where the groom is stationed at Sheppard Field.

Velton Moore of Haskell has accepted a position at Smitty's Auto Supply store in Munday. Mr. Moore has been employed in the Haskell store for the past two years.

Use Poultry In The Home Menu

With Knox county's increased poultry and egg production work well under way homemakers naturally think of new ways to use poultry and eggs in the menu. Many farm families raise one lot of chickens for eating purposes and when they get too large for frying, no more chicken is served until next year. If it is convenient to have only chicken of one age for eating this year, then let's try preparing chicken in as many ways as possible.

Chickens from 8 to 12 weeks of age are good broilers. Cut in halves or convenient size servings, salt and pepper to taste, brush with fat and place in your broiling oven being careful to maintain a very moderate temperature (300 F.) and to keep the fowl several inches from the flame. The result will be a tender, juicy, well-flavored fowl. Smothering is an excellent method for frying. For young (under 1 year) fat chickens, nothing beats a real roasted fowl.

Baked and fried chicken are of course old favorites with many of

us, but a sure way to have variety and to get the most from your chicken, is to stew (simmer) until the meat may be separated from the bones easily, chop the meat and serve in any of the many interesting ways. Chicken pie, chicken a la King, chicken salad, and creamed chicken are only a few of the possibilities. Fry the fowl recipe in a rice ring or patty shells.

Creamed Chicken

- 4 teaspoons butter
- 1 cup chopped celery
- 1 tablespoon chopped onion
- 1-4 green chopped pepper
- 2 c. flour
- 3 cups chicken broth
- 1-2 to 1 cup cream
- Salt to taste
- 3 cups diced cooked chicken

In the fat, cook the celery, onion and pepper for a few minutes. Stir in the flour and blend thoroughly. Then stir in the cool broth and cream and cook the sauce until smooth and thickened. Salt to taste. Heat thoroughly.

Mrs. A. F. Crouch of Medford, Oregon, is here for a visit with her parents, Mr. and Mrs. L. E. Hunter, and with other relatives.

Although the rate of saving of

American people this February was double that of February a year ago, this trend alone is not enough to check inflation, according to financial experts.

AT THE METHODIST CHURCH

Luther Kirk
If all the membership of the church attended the services as regularly as you do would there be two services each Sunday, one service each Sunday or just one service a Sunday now and then? Could it be that you are one of those members who attend only on special occasions and more especially when there is a funeral? Did you know that all religious services in Munday could be abandoned on Sunday evening and about 85 per cent of the church members wouldn't know about it unless someone told them? My! How some people love the church. It has been a long time since we have had to bring in extra chairs to accommodate the crowds, yet if three-fourths of our membership should come to church at the same time we would have to do that very thing. Wouldn't God love to "Bless America"? Are you helping Him to do it?

Evictions Frowned On

Landlords in defense-rental areas of the Southwest who evict tenants in the hope of evading maximum rent regulations are "engaging in a futile and unpatriotic act," according to Max L. McCullough, region OPA administrator in Dallas. Wholesale evictions of war workers by landlords will not be tolerated by the OPA, he said, and new tenants will not be required to pay, nor landlords allowed to collect, rents in excess of those charged on the maximum rent date prescribed for each rental area. Rent control in designated areas is a local problem for 60 days, after which the OPA may act.

New Set-Up To Serve Farmers In Emergencies

According to instructions received from the U. S. Department of Agriculture and from the State extension service headquarters, county extension agents, R. O. Dunkle and Neva Van Zandt have been busy completing the set-up in Knox County for a human line of communications from Washington to the last farm family. When this set-up is perfected, emergency messages may be sent from Washington to every farm family in the United States in six hours or information from the farm may reach Washington in the same time.

Knox county has been divided into 10 communities. The communities are then broken down into from 2 to 5 neighborhoods. Each community has one man and one woman as community Victory Leaders and each neighborhood has one man and one woman as neighborhood Victory Leaders. Then each neighborhood leader has the farm families in his particular neighborhood listed and each knows who he is responsible for.

An example might be a request from the Department of Agriculture to know the number of beef cattle ready for sale this year in order that further plans might be made for feeding our soldiers and meeting lend-lease agreements. The community leader would compile information from his neighborhoods and give to the county agents; the agents would in turn send the information to College Station and from there it would go to Washington.

All states in the state and all states in the union are working on the same plan and we in Knox county are a part of the great chain. The set-up is to take care of wartime emergencies as related to Agriculture and will be used for that purpose only.

IT PAYS TO ADVERTISE

... after 10 YEARS of Competition between Two Theories

Countless thousands of tons of strategic materials were wasted in building unnecessary socialized plants and transmission lines that duplicated existing systems adequately serving the public.

Here are the results of this long conflict between two theories—free enterprise as against tax-free competition built with tax dollars:

- Today, in time of America's greatest need, the country's electric operating companies are supplying over 90 per cent of all the power commercially generated;
- Last year they paid \$510,000,000 in taxes, enough money to equip 2,400,000 soldiers or build 9,273 fighting planes;
- The average home now gets over twice as much electricity for its money as it did 15 years ago.

It represents American genius at its best. In little more than two generations, an "experiment," at which wisecracks scoffed, has become indispensable in American homes and in America's war effort.

It has been possible simply because America's electric companies have been built and operated the American way—by good business management.

West Texas Utilities Company

INVEST IN AMERICA! Buy War Bonds and Stamps!

WE CHEERED, too, when Uncle Sam called on industry to work 24 hours a day, seven days a week, until the war is won.

Continuous production, you see, is nothing new to us. We've always worked that way. It's one big reason why we were prepared to serve the army training camps, the flying schools, and the new war plants in West Texas—all in addition to serving your home and business.

We are proud that our service to you has not suffered despite the unforeseen problems created by the war. We believe that it is a credit to the American way of doing things... a tribute to the American system of free initiative and free enterprise.

The electric industry throughout the nation is providing power where it's needed, when it's needed... more than the combined total of all the enemy nations!

This is in contrast to claims by proponents of socialization who, many months ago, predicted an immediate and disastrous shortage of electric power—and calling for political management rather than business management.

Hundreds of millions of tax dollars were diverted from useful production to subsidize political projects in competition with electric systems already owned by the public (through millions of small stockholders) and regulated by the government.

Rhineland School Students Make Year's Final Report

With this reports ends your editor's duties as supervisor of the Rhineland Register. I wish to take this opportunity to thank all of the reporters for their splendid cooperation during the past school term. I have enjoyed this work and thank you one and all for the honor you have conferred on me. Naturally, I am glad I am finishing my high school training, but, fellow-students, I hate to part with your daily comradeship. I deeply appreciate your friendship and hope our ways will not part too far as not to be able to meet occasionally and talk over "old times."

May the future hold for each of you an abundance of material and spiritual blessings.

Senior Report

The Seniors wish to express their heartfelt thanks to all who helped honor us with such a lovely banquet. We also wish to thank Miss McGraw and the various committees who helped make our picnic at the Seymour park an ever-remembered occasion.

The Seniors wish to extend a cordial invitation to everyone to attend their graduation exercises Friday evening, May 22, at 9 o'clock.

As this will probably be the last report written by the Senior reporter this year, I wish to take this opportunity to say that I have enjoyed being class reporter and I hope that the Rhineland Register will continue for many years to come.

Sophomore Report

There are only a few days left until school will be out again. Everybody, we are sure, is glad that school is turned out again as we were going so long without a stop. Hope everyone has passed his grade.

Yesterday we finished our Economic Geography with a little test. In our prose and poetry we will finish tomorrow and those who are thought to have failed their state exams will take the exam in this subject.

Freshman Report

The class is sure tickled that this week is their last week of

school for this year. We have finished this year with much success. During the past year of school we last only two classmates. A few students will be busy taking final exams this week.

We hope the Seniors enjoyed the banquet, as we all enjoyed the meal, and especially the poem that Father Herman read, and the talks given by the Seniors.

Report Room IV

By the time we read this report school will be out. Of course we like going to school, but we all will enjoy our vacation. We want to thank Miss Claus for being so patient and we feel that we have learned a great deal.

Wouldn't It Be Funny If
 —Herbert would go to school at Rhineland next year?
 —Marion and Sue were in a large class.

—Donald and Adelaide had to take final examinations.
 —Betty Lou didn't giggle.
 —Maxine grumbled.
 —Eddie were tall and dark.
 —Herman misbehaved in school.
 —John Ed studied.

News of Room III

We are taking our final exams this week. Everyone except LaVerne Albus and Jewel Marie Hoffman had to take them. We hope all will pass on to the next grade.

We are sorry that this is the last report for this year, but we hope to be back with you again when school takes up in August. Your reporter has enjoyed her work during the year and hopes she has measured up to your expectation.

We Wonder Why
 Miss Himmels made the exams so easy?
 Clarence made such a low grade in arithmetic?
 Francis tried to sweep the room from both ends at the same time.
 A certain girl had such a good time at the Senior banquet?
 Veronica had to miss just when exams were on the run? Too bad! Too bad!

New CCC Camps Are Established

Austin.—New CCC camps have been established at Camp Bowie, Brownwood, and Camp Wolters, Mineral Wells, where boys will be assigned to work on military reservations. Only five of the camps, which previous announcements indicated would be closed, have been closed thus far. These were at Coleman, Denton, Memphis, Newton, and Waxahachie. Closing orders are expected in June for 11 additional camps. These camps include three for white boys, located at Wolfe City, Morton, and Humble. Eight are for colored boys, located at Bogota, Mt. Pleasant, Winnsboro, Nacogdoches, Yoakum, Seguin, Huntsville, and Austwell. If all expected closing orders are received the state will then have 10 CCC camps. Seven of these will be for white boys and will be located at Breckenridge, Temple, Gatesville, Brownwood, Mineral Wells, San Antonio, and Alto. Three will be for colored boys, located at Waco, San Augustine, and Zavala.

Boys now being selected for CCC services will be sent for induction to the camp nearest their home on May 20. All boys enrolling must be willing, however, to leave the state.

This sugar shortage isn't so bad. For one thing, it's caused me to re-new acquaintance with East Texas ribbon cane.

And try sprinkling a little salt on your grapefruit instead of sugar. It's different—but good.

Only "fly in the ointment" is the rubber shortage—and me just having changed over from a belt to suspenders and acquiring the knack of thrusting my thumbs in them and rearing back with the feeling of importance it gives. And when a fellow make a point in an argument and then snaps his suspenders, that clinches matters. But I guess there'll be no more suspenders after the present supply is gone.

A gentleman slipped on the stair of a subway and started to slide to the bottom. Halfway down, he collided with a lady, knocking her down, and the two continued their way to the lower landing.

After they had reached the bottom, the lady, still dazed, continued to sit on the gentleman's chest. Looking up at her, he finally said politely, "Madam, I'm sorry, but this is as far as I go."

Tom King, who was in the office of State Auditor longer than any other man, didn't grow up down along the Rio Grande. He was employed, quite a few years back now, to audit the books of a big mercantile establishment near the border, and he asked about a "miscellaneous" item of several thousand dollars.

"Oh, that's for 'pelon'!"—(the writer doesn't guarantee the spelling)—replied the manager.

Though not having the least idea in the world what "pelon" was, King didn't wish to betray the fact so he waited a while, then returned to the item and inquired cautiously and received the same reply. By now, the manager had sized up the situation and was secretly amused. At last, King had to come right out and ask what pelon was.

And for the first time he made acquaintance with one of the quaint customs among the Texas citizens of Mexican ancestry; when the family buys a week's supply of groceries for cash or settles a bill that has been running a while, the merchant "throws in" a sack of candy or some other little gift.

Inventory Made Of Fire Departments

Equipment of Texas fire departments includes enough heavy hose, if placed in one line, it would extend from Dallas to within a few miles of San Antonio.

This was revealed by Marvin Hall, State Fire Insurance Commissioner and State Fire Defense Coordinator, following a state-wide inventory of equipment of fire departments in the state. The inventory covered equipment of 510 departments.

Footage of all types of hose for fighting fires, if placed in one continuous line would extend for a distance of 337 miles.

Personnel of all fire departments totals 13,652 men. Of these, 2,916 are paid and 10,736 are volunteer firemen. Hall said these figures do not include the thousands of persons who have been trained, or now being trained, as auxiliary firemen in local Civilian Defense organizations.

Equipment for use in reviving persons overcome by smoke, heat or other causes, includes 99 inhalators owned by fire departments. Other information gleaned from the inventory shows Texas firemen have 573 gas masks, more than 3,000 fire extinguishers of various types; 2,936 nozzles for 2 1/2 inch hose, and 65,829 feet of ladders.

There are almost three thousand fire trucks of all types. More

than a fourth of these are pump-ers. Hall added that further information revealed 841 ambulances are located in the 510 towns and cities included in the inventory.

Barnicoat, Hollis Barnicoat, and Dorothy Barnicoat, and her husband whose name is unknown, establishing tax liens, and Defendant, in favor of said plaintiffs, for the sum of Five Hundred Twenty and 25-100 Dollars for taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff, by the said District Court of Knox County on the 24th day of March, A.D. 1942, and to me directed and delivered as Sheriff of said Knox County, I have seized, levied upon, and will, on the first Tuesday in June, A.D., 1942, the same being the 2nd day of said month, at the courthouse door of said Knox County, in the City of Benjamin between the hours of 2 o'clock P.M. and 4 o'clock P.M. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said defendant in and to the following described real estate levied upon as the property of said defendant, the same lying and being situated in the County of Knox and State of Texas, to-wit:

Situated in Knox County, Texas, and being all of the North One-Half of Block Number Twenty-One (21), of the R. P. Munday Addition to the Town of Munday, Texas. The above judgment establishes the amount of taxes due each of the above named parties as follows: City of Munday the sum of \$252.07, Munday Independent School District the sum of \$174.50, and the State of Texas and Knox County the sum of \$93.68, and decreeing the title to said property to be vested in the City of Munday, Texas, as to all parties, and ordering the same sold and proceeds applied pro rata to the payment of the amount of judgment in favor of each as above set forth. (The above judgment does not include taxes for the year 1941.) Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Dated at Benjamin, Texas, this 28th day of April, 1942.

LOUIS CARTWRIGHT,
 Sheriff, Knox County,
 Texas.

U.S. is Needing Trained Pilots

Lubbock.—Civil trained pilots can now enter the armed forces as instructors or utility pilots at \$3600 a year. These men will not be used as combat pilots but will relieve those already in the service who will be released for active combat duty.

The U.S. Civil Service Commission and the Secretary of War have authorized their appointment as trainee instructors in the Air Corps Flying Command with a commission in the army and a military rating as service pilot.

All applicants must have passed their 21st birthday and not have reached their 42nd. They must possess a currently effective certificate for Civil Aeronautics Administration commercial pilots with a rating of 250 horsepower or more.

A physical examination and a flight check in an army plane must be passed by all applicants. Temporary appointments as trainee instructors will be made to qualified applicants for a period not to exceed 90 days, ample time to complete the required training. The Army Air Forces have made available two million dollars for the training and conditioning of these men.

Men between the ages of 21 and 32 will be recommended for the grade of Second Lieutenant, those past their 32nd birthday for the grade of First Lieutenant.

After acceptance applicants will report to a basic school, either Randolph Field or Goodfellow Field in the Gulf Coast area. The training will include night flying, formation, cross-country, navigation, a course in the Link trainer, radio code, weather, and general instruction.

Application blanks may be obtained at any CAA office or from the Aegional Procurement Supervisor, P.O. Box, 1689, Fort Worth, Texas.

Mrs. W. E. Spaid and son, Walter Edward, of Camargo, Okla., and Mrs. Lynn Waldrip and daughters, Peggy and Betty, of Colorado City have been here visiting in the home of their parents, Mr. and Mrs. Walter Harris.

ness. Cut out the core of the lettuce with a sharp-pointed knife. Then hold the head under running water so the water falls into the place where the core was taken out. The leaves will then slip off easily—each leaf separate, whole and unbroken. Lettuce is a perfect vegetable for salad. In every season of the year, there's some vegetable that will go with it. Also it is a natural salad by itself—a sizeable piece of it, or more easily managed shredded lettuce, with the favorite dressing.

TOWNS, AS WELL AS CITIES, HIT BY LOAN SHARKS

Loan shark activities are not confined to the larger cities of the State but extend into smaller towns and cities as well, declares Assistant Attorney General Frederik Isely who has made an extensive study of the problem.

Cities in the 6,000 to 10,000 population class have usurers exacting their 240 per cent and higher a year, he says. Therefore rooting out the evil is a matter that affects the welfare of the rank and file of people throughout Texas.

Soil Election ...

(Continued From Page One)

per cent democratic. Its affairs are handled by a Board of Supervisors composed of 5 landowners who live and operate farms or ranches within the district. Such districts may be furnished trained soil conservation technicians by the U. S. Department of Agriculture and other kinds of assistance. We do not expect much assistance during the war, but we want to be ready when the war is over and since conservation increases yields anything that is done will help just that much. People will be called upon to help develop a plan of work for the district, which requires considerable time, and as the U. S. Department of Agriculture feels that such districts may render considerable service during the war period I believe that we should go ahead and organize the district

under state law. I hope that every resident, Knox county landowner and his wife will vote on May 23." Meetings:

Meetings explaining the operation and needs for a soil conservation district are being held throughout the county according to the following schedule. It is hoped that you will attend the one in your community:

SUBSTITUTING FOR SUGAR

College Station.—By observing several simple rules, homemakers successfully can substitute honey or molasses for part or all of the sugar required in their favorite recipes.

Hazel Phipps, Extension Service specialist in food preparation, says the characteristic flavors of honey and molasses make many foods

more delicious. Both vary in moisture and acidity, she says, so the amounts she recommends for sugar substitution are "approximate."

It takes about 1 1-2 cups of molasses or sorghum to equal one cup of sugar in sweetness. Each cup contains approximately one-fourth cup of water so the liquid in a recipe should be reduced in proportion. In products which are leavened, about one-fourth teaspoon of soda should be used for each cup of molasses or sorghum.

Miss Phipps gives this caution: Molasses and sorghum burn easily, so the temperature for baking should be lower than the temperature for baking mixtures made with sugar.

Rules for substituting honey for sugar are quite similar. Mixtures with honey brown easily and high heat changes the flavor of honey, so cooking temperatures should be lowered. A cup of honey gives approximately the same amount of sweetness as one cup of sugar, so the exact amount may be substituted. However, each cup of honey, like molasses, contains about one-fourth cup of liquid, so the liquid requirements of the recipe should be reduced one-fourth cup for every cup of honey used.

The specialist's final advice is:

Use approximately one-eighth to one-fourth teaspoon of soda per cup of honey in baked products such as cakes or quick breads.

Mrs. C. F. Woodall of Hanford, Calif., came in recently for a visit with her parents, Mr. and Mrs. Frank Trammell. Mrs. Woodall's husband, who is in the service, has been sent to school in Florida, and she will visit here while he is in school. She is the former Mozelle Trammell.

Frank Allen and daughter, Mrs. Rupert Williams, were in Throckmorton last Wednesday to attend the funeral of Miss Dexter King. Miss King was the daughter of State Representative A. H. King of Throckmorton, and for the past eight years had been an English instructor at John Tarleton College.

TO CAMERON MEETING

J. A. Caughran, Robert Green and Kenneth Myers, all of the local Wm. Cameron & Co. store, were in Childress last Tuesday night where they attended a regular sales program school of the company.

Let's Scrap The Japs With Scrap

The War Industries need the scrap metal that is piled up on your farm in order to continue to make bombs, tanks, battle-ships and bullets.

Your Government NEEDS This NOW!

Do your part by bringing or sending in your scrap iron. The shortage of scrap metal is a serious problem. Munday has shipped 350 tons of scrap iron. Let's make this 700 tons.

Remember this ... you will aid the War program by accepting Defense Stamps or Bonds as payment for your scrap iron.
