#### April 21 Is Set As Final **Date For Collection**

Jim Reeves was named local chairman of the United National Clothing Collection in Munday at a meeting last Wednesday night, and the town was divided into 33 separate zones for collecting clothes.

A chairman was named for each zone, and these chairmen are asked to serve in their designated zones and contact all persons in their area as soon as possible. They are urged to get the clothing to a central place such as their own home -and then call Mr. Reeves, who will send a truck after the clothing.

#### TRAGEDY IN THE VETERANS' HOSPITALS

An appaling revelation of inhuman political management is being brought to light by a reporter's investigation of government veterans' hospitais. There are nearly one hundred of these hospitals, built at a cost of over a quarter of a billion dollars, to mail matter, under the Act of Congress, March 2, 1879. provide the finest care in the world for our returned war veterans. Appopriations have been granted in first zone, per year without stint to maintain these institutions—and yet veterans are dying needlessly in them!

The Cosmopolitan magazine has published an article on conditions in the veterans' hospitals, packed with figures and facts that make the blood run cold. Only one patient in six leaves these hospitals as the Munday Times office. cured. The treatment received by tuberculosis patients is marderously negligent. Of all the veterans treated for tuberculosis, only 3.67 per cent are discharged as "quiescent," "apparently arrested," or "arrested." #### PROFITS AND WAGES

A British educator from Oxford, L. P. Jacks, asks why the profit motive should be treated differently from the wage motive, in the exhortations of social reformers. If private profits are anti-social, because private and not communal, are high wages less anti-social or less private? Why condemn one and praise the other?

If an investor, in risking his savings, tries to increase his profits from four to five per cent, how is this different from a workman who tries to increase his wages from \$40 to \$50 a week? Each has the same motive and aim.

The wage earner should remember that when government takes over business, the worker is no caused a sensation in Paris. longer free to charge all the traffic will bear. #### WILL THEY WANT SOCIALISM NOW?

The rapidity with which France was adopting socialism, or communism, previous to World War II, was causing economic instability in that nation.

Yes, the first is a trick, but the second is a fact-a fortunate fact for you.

By using more and more electricity over the years, you've helped us reduce the price to a point where the average family now gets about twice as much electricity as it did 15 years ago for the same money.

Keeping the price of electricity pinned down to the floor in wartime is a much tougher job than keeping a pin-up girl floating in mid-air!

It takes much more than magic. It takes careful planning, hard work and good business management.
