

## VICTORY LOAN DRIVE WILL OPEN MONDAY

### Club Meetings Over County Are Well Attended

Two hundred and eighty nine 4-H Club boys and girls in Knox County attended the recent 4-H Club meetings that were held in eight different communities. At each club the officers of the 4-H Club girls were in charge of the meetings, which were conducted in a very satisfactory manner and according to the Roberta Rules of Order.

The Demonstrations given by the agents, Lucile King, County Home Demonstration Agent and R. O. Dunkle, County Agent, were concerning the use of Paradiachlorobenzene (P.D.B.) and the use of the new insecticide DDT. Miss King gave the club members full instructions concerning the use of P.D.B. in the control of peach tree borers. Miss King had a small box of earth in which was placed a branch or limb of a peach tree and then showed the club members correct amounts of P. D.B. Crystals placed in circles around the tree according to size and age of the tree.

A field demonstration was also given on A. L. Ressel farm in the Union Grove Community where ten boys and girls and four men and women attended the demonstration. Miss King stressed the point that the P.D.B. Crystals should be placed in a circle around the tree about two inches from the base. She also explained that 1 oz. by weight should be used for unusually large trees and 3/4 of an oz. for trees 1 to 3 years of age, and 1/2 oz. for young trees. The point was also made that the crystals should be covered with several shovels full of dirt and the dirt placed with the back of the shovel to make a cone-shaped mound. The material, she explained, should be applied between October 20th and November 15th. After about six weeks the mound of dirt should be torn down and the residue of crystals removed.

The County Agent, R. O. Dunkle, gave a demonstration to the club members concerning the uses of the new insecticide, D.D.T. A small spray pump was used in spraying the insecticide and precautions were stressed concerning its careless handling. Recent experimental demonstrations conducted in Knox County indicate that D.D.T. is one of the most effective sprays in the control of flies and mosquitoes and it can be expected that further information and experimental work will bring about its new uses in 1946, and that the spraying of livestock in the control of flies will be effective of from a period of eight to 15 days.

### Knox Memorial Library Adding Many New Books

The Knox County Home Demonstration Memorial Library is still growing. Six books have been added the past week. They are as follows: "Texas" by Owen P. White; "The Children's Classics" by Hans Christian Anderson; "The Adventure of Tom Sawyer" by Mark Twain; "The Adventure of Huckleberry Finn" by Mark Twain; "Treasure Island" by Robert Louis Stevenson and "Alfred Edward Houseman". We would like for everyone to pay a visit to the Library when you are in Benjamin. Mrs. J. C. McGee of Union Grove Club will be librarian, Friday, October 26. We especially urge the boys and girls of the armed forces to come and use the library.

The latest books are ordered each month. Books are coming in each month. If anyone wishes to donate a book in honor of your boy or girl that served or is serving in the armed forces we would be very grateful.

Sgt. Howard Collins, who has been stationed at LaJunta, Colo., spent the week end here with his wife and with his mother, Mrs. Ora Collins. He has just been transferred to Sheppard Field, and expects to receive his discharge within a few days.

### Knox County Hospital Notes

Patients in the Knox County Hospital, October 23, 1945

Mrs. G. W. Lefevre, Rule.  
Sandra Ellis, O'Brien.  
R. A. Shaver Sr, Rochester.  
Mrs. H. T. Ward, Aspermont.  
T. H. Tanner, Rochester.  
Mrs. Laura McMahan, Knox City.  
Mrs. W. C. Glenn, Benjamin.  
Paul Horn, Truscott.  
Mrs. M. B. Reed, Knox City.  
Betty Humphrey, Munday.  
C. S. Woodward, Knox City.  
Mrs. John Brock, Rochester.  
Mrs. Minnie Abbott, Knox City.  
Mrs. Olive Penrod, Rochester.  
Mrs. Ray Martin, Knox City.  
Baby Martin, Knox City.  
Clarence (Bud) Thompson, Knox City.

Mrs. Riley D. Bell, Munday.  
Mrs. Alton Ward, Goree.  
Baby Ward, Goree.  
Mrs. J. R. Vaughn, Vera.  
James Davis, Munday.  
Baby Claud L. Hill, Goree.

Patients Dismissed Since Tuesday October 16, 1945.

Edward Basaldua, Knox City.  
Baby Basaldua, Knox City.  
Mrs. Ted Goller, Rochester.  
Richard Brinegar, Leland.  
Mrs. Maude McWilliams, Benjamin.

Herman Christopher, Jacksonville.

Mrs. Dee Cochran, Guthrie.  
Mrs. E. B. Lusk, Rule.  
Billy Mausell, Llano.  
P. J. McClellan, Knox City.  
Mrs. P. J. Clellan, Knox City.  
Leo Warden, Llano.  
Murean Guerro, Munday.  
Baby Guerro, Munday.  
Mrs. F. M. Harrison, Knox City.  
Mrs. Ella Kidwell, Rochester.  
Mrs. R. H. Condon, Throckmorton.

Mrs. W. G. Johnston O'Brien, Donald Tankersley, Knox City.  
Mrs. Idabel Gray, Abilene.  
Pascell Mandaza, Ranger.  
Billie Castleberry, Rochester.  
Mrs. Myrtis Rogers, Rochester.  
Ina May Wallace, Munday.  
Ina Gene Wallace, Munday.  
Mrs. R. A. Brown, Vera.  
Baby Brown, Vera.

Mrs. G. D. McCarty, Knox City.  
Mrs. Neil Perdue, Knox City.  
Mrs. La Roy Stubbs, Knox City.  
Baby Stubbs, Knox City.  
Miss Ola Bell Kennedy, Haskell.  
Mrs. E. C. Thompson, Munday.

**Births:**  
Mr. and Mrs. Ray Martin, a Daughter, Knox City.  
Mr. and Mrs. Edward Basaldua, Knox City, a Daughter.  
Mr. and Mrs. Mureno Guerro, Munday, a Son.  
Mr. and Mrs. R. A. Brown, Vera, a Daughter.

### Guest Clubs For Achievement Days Are Announced

At a recent meeting, the Knox County Council voted to have an achievement day in their local communities and have other clubs as their guests. They are to invite the 4-H Club girls to put on an exhibit with them.

The clubs drew to see who would be their guests for achievement day. They are as follows:  
Vera, November 14, Sunset guests; Sunset, November 1, Gilliland guests; Truscott, November 8, Hefner guests; Benjamin, November 23, Brock guests; Brock, November 23, Knox City guests; Knox City, November 16, Munday guest Union Grove, November 9, Benjamin guests; Munday, November 21, Union Grove guests; Gilliland, November 7, Truscott guests; Hefner, November 6, Vera guests.  
The 4-H Club girls and the women's exhibit will be held on the day that the agent meets with the club.

### PFC. SEBERN JONES RECEIVES DISCHARGE

Pfc. Sebern M. Jones, who has been serving in the U. S. Marines, came in the first of this week with that coveted discharge slip. He had been stationed at Eagle Mountain Lake, near Fort Worth, for the past several months.

Mr. and Mrs. Jones and son, Mike, plan to visit with relatives in San Antonio and other points for a while before Sebern settles down to civilian life.

FIRST POST-WAR BOX-CARS—built of B-29 lightweight metal and equipped with Timken bearings can be pushed and pulled about so readily that these two St. Louis, Mo., misses do it with ease. The girls, Janet Feuerborn, in striped sweater; and Maxine Hanebrink participated in a demonstration of the new equipment

by the Rock Island Railroad and The Timken Roller Bearing Company at Union Station in St. Louis. Roller bearings permit the cars to be started with one-eighth the power necessary to move a car on friction bearings and will eliminate hot boxes. The cars are capable of maintaining high speeds in road service.

### Future Farmers To Get Nine Gifts For Circulating Project In County

#### Rebus Guess Talks To Wife And Sister; Calls From London

"Just a moment, please, London calling!"

That's probably what was heard when the telephone was answered at the Can Hughes home at eight o'clock last Monday morning. London did call, and it was Mrs. Hughes' brother, Pfc. Rebus Guess, who is serving with the Army of occupation in Germany.

Guess expected to talk to his sister, but he had a surprise coming, too. He also got to talk to his wife! Chan had been informed that Guess would call at eight o'clock Monday morning, so he went "out to the farm" and brought Mrs. Guess back with him so she could talk to her husband. Mrs. Hughes and Mrs. Guess both talked on the call from London.

Pfc. Guess has been overseas about a year. He received a 3-weeks pass from Germany—and award for being the best boxer in his outfit—and was spending the time in London.

Relatives don't know why he had the urge to call home, but they're glad he did. And Pfc. Guess is probably much happier after having talked to his loved ones. His voice came over the wires as clearly as if he had been calling from a nearby town.

### School Bus Drivers' Clinic Slated Saturday

A school bus driver's institute, the purpose of which is to make school buses safer for the children by avoiding accidents, will be held at the court house in Benjamin next Saturday, opening at 9:45 a. m. The Texas Highway Department is cooperating in the institute.

Highway Patrolman Arthur Hill of Seymour will be present and discuss safety in regard to school buses as to points of law.

Guy Stein, county Red Cross first aid chairman, will discuss general first aid as applied to minor injuries, as well as more serious cases.

This meeting is open to the general public, and all drivers of school buses in the county are required to attend. The State requires such institutes to be held as a prerequisite to state aid in the schools.

Through the leadership of John E. Reaneau and the cooperation of Munday's business and professional firms, the Munday Chapter of Future Farmers of America will have nine gifts, instead of one, for their circulating project in the county.

The project started with \$65 grant from Sears Roebuck Foundation. When time came to select the boy to receive this bred gilt, a committee composed of Mr. Reaneau, C. P. Baker and W. R. Moore was unable to decide which of nine boys wanting the gilt should get it. Then it was decided that Munday would help on the project.

Within a short time Mr. Reaneau had secured over \$400 from local firms for this project, with splendid cooperation being given by everyone contacted.

The Future Farmers are now in the market for nine gilts, and it was decided to secure the Duroc-Jersey breed. They will be purchased as soon as possible, with some expected to be brought in next week.

Boys who will receive gilts are: Bobby Howell, Charles Hardin, Clifton Swain, Billy J. Lain, Gene Brown, Delbert Montgomery, H. C. Claburn, Clyde Snody, and Jessie George Smith.

In addition a Duroc boar will also be purchased for the local Future Farmer chapter.

### Lloyd W. Routen Gets Discharge

DEWITT GENERAL HOSPITAL—Private Lloyd W. Routen, whose wife, Francis, and three children, Joyce, Janice and David, reside at Box 271, Munday, Texas, has received an honorable discharge from the Army of the United States. He was released from the Separation Center, Dewitt General Hospital, Auburn, California.

After entering service at Fort Sam Houston, Texas, Routen was assigned to Camp Wolters, Texas, Camp Berkeley, Texas, and Camp Adair, Oregon. In August, 1945, he was assigned to Dewitt General Hospital where he worked as a ward attendant.

Prior to his entry into the Army in October, 1944, Routen was engaged in farming at Munday. His brother, Pvt. Earl E. Routen, is now with the Army Quartermaster Corps in New Caledonia.

Pvt. Riley D. Bell, who is stationed in California, is spending a furlough here with his wife and other relatives.

### Bananas Grow In Knox County

An unusual sight to many Knox County people is a banana tree which is bearing fruit this year on the Adolph Havran farm southwest of Munday.

Mr. Havran has two banana trees on his place, which are rooted so they can be moved into the cellar during the winter months to prevent freezing. One of these trees is three years old, and is bearing fruit for the first time this year.

Large blooms appeared on the tree, and as the blooms shed, there were three small clusters of bananas. These are growing to maturity.

Quite a few people are making a trip to the Havran farm to assure themselves that bananas will really grow in Knox County.

### Moguls Romp Over Haskell To Tune of 19 to 0

In a game in which good playing and teamwork were marred by fumbles, the Munday Moguls freely over the Haskell Indians last Friday night on the local gridiron, winning the game by a score of 19 to 0. Munday's conference stand now shows one conference win and one loss.

Munday fumbled soon after receiving the opening kick off, but held Haskell on downs to regain possession of the ball. The two teams continued to battle it out in the opening quarter, which closed scoreless.

A pass from Bouldin to Haynie in the second quarter brought Munday's first touchdown. John Spann converted the extra point.

Johnnie Spann was on the throwing end of the next touchdown play, tossing a pass to his brother, Joe Spann, who romped the remaining distance to cross the goal stripe. Conversion failed. Johnnie made a sensational end run to place the ball within the 10-yard line, from which point it was carried over on a line back for the third carrier. Again the try at conversion failed.

In the final stanza, Billy Bouldin carried to the three-yard line after receiving a pass and doing some fine broken running. Here the Indians killed the touchdown threat by intercepting a Mogul pass and kicking out to safety.

Cadwell and Harbrough stood out in the Munday line play, often breaking up the Haskell formations and downing the ball carriers for losses.

Mrs. G. R. Eiland, Jr., and Mrs. James N. Walker of Dallas visited with relatives here a while Sunday. They were enroute to El Paso to meet M/Sgt. G. R. Eiland, Jr., who is returning from duty with the air forces in the European Theatre of Operations.

### To the People of this Community

You've celebrated V-E Day and V-J Day but how about V-I Day? While you were buying extra bonds to equip and back our fighting forces, you also were beating down the threat of runaway living costs at home. The record of your part in fighting inflation speaks for itself in this report to you by Ted R. Gamble, National Director of the Treasury's War Finance Division. Says he: "Americans invested in war bonds two-thirds of every excess dollar of war wages above the cost of living."

The extra Victory Bonds you buy today are the most important bonds you have ever owned because they battle to preserve the gains you have scored on the home front. Hold the war bonds you own. Buy extra Victory Bonds. That's self-interest which serves you and your country. Don't fritter away the job you did for yourself in seven previous war loans. V-I (Victory over Inflation) Day is today and every day you buy more and more Victory Bonds.

THE EDITOR

### Grand Master of Texas To Visit Haskell Lodge

Word was received here last week that Hon. Bascom Giles, master of the Grand Lodge of Texas, A. F. and A. M., will pay a visit to the Haskell Masonic Lodge on Monday night, November 12. This occasion has been designated as "Past Masters' Night" for the 91st Masonic district.

The following letter from W. A. Mclear of Seymour, district deputy grand master of this district, has informed all lodges of the meeting:

"It is certainly a great pleasure for me to inform you that on Nov. 12, 1945, our Grand Master, Hon. Bascom Giles, will pay the 91st Masonic District a visit. It has been a good many years since we have been honored by having a Grand Master in our district.

"This meeting will be held in Haskell, at the Haskell high school. The evening meal will be served at 6 p. m., and at 7:30 the Grand Master will bring us his message.

"This meeting will be given in honor of all the Past Masters of the various lodges in this district and we urge that as many past masters as possible will be present, as well as the entire membership of your lodge.

"We are also extending invitations to the surrounding districts and are expecting a nice turnout from them. We are counting on 400 to be present to greet our Grand Master."

### Capt. W. R. Moore Lands In Boston; Here On Leave

Capt. W. R. Moore, Jr., who has been serving in the European Theatre of Operations, is here for a visit with his wife and with his parents, Mr. and Mrs. W. R. Moore, Sr. He landed in Boston, Mass., on October 10, and arrived in Munday last Saturday night.

Capt. Moore served in the Headquarters 54th Ordnance Group of the Seventh Army and spent about 28 months over seas. He saw service in North Africa, Sicily, and Southern France and was at Augsburg, Germany, on V-E Day.

Capt. Moore, a graduate of Texas A. and M. College, entered the service as a second lieutenant. He was stationed at Atlanta, Ga., for some time before sailing for overseas. He is on "terminal" leave until February, at which time he expects to be inactivated.

### Auction Sale Has Heavy Run

The Munday Livestock Commission Co. reports a big run of cattle for last Tuesday's sale.

Canner and cutter cows sold from \$6 to \$7.50; butcher cows, \$8 to \$9.25; fat cows, \$9.50 to \$12; butcher bulls, \$7.25 to \$8.50; fat bulls, \$9 to \$10.75; butcher yearlings, \$9 to \$11.75; fat yearlings, \$12 to \$14.50; rannie calves, \$7.25 to \$8.50; butcher calves, \$9 to \$11.75, and fat calves \$12 to \$13.75. Several bunches of stocker calves sold by the head from \$28.50 to \$54.50.

### Weather Report

Weather report for the period of October 17 to October 24, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1945	1944	1945
Oct. 17	53 48	83 82
Oct. 18	60 48	89 83
Oct. 19	57 50	77 73
Oct. 20	45 44	77 80
Oct. 21	49 47	67 71
Oct. 22	33 43	62 76
Oct. 23	42 43	77 78
Oct. 24	42 48	82 86

Rainfall to date this year, 20.30 inches; rainfall to this date last year, 16.78 inches; rainfall since Nov. 1, 1944, 24.30 inches.

### County's Quota Is \$295,000.00

New Bond Is Issued As Memorial To Roosevelt

With the nation's mighty Victory Loan Drive, the last drive of World War II, opening next Monday, committee members of Knox County are making plans for raising the county's quota of \$295,000.00. It is expected that this quota will be raised as readily as any of the other seven War Loan Drives.

Of the over all quota of \$295,000, the county is requested to raise \$145,000 in Series E Bonds.

A new Series E bond is being issued for this drive. It is the new \$200 Victory Bond—a prized addition to your collection—a special Roosevelt memorial bond that will help furnish our country and its returning veterans the very thing Victory promised. Our job is to bring our men home, care for the wounded, rehabilitate the veterans and clear the decks for the way of peace.

The Memorial Bond, issued only in \$200 denominations, bears a handsome, engraved likeness of Franklin D. Roosevelt with a suitable inscription.

W. E. Braly, county chairman stated this week that a meeting will be held soon to allot the overall quota to various communities of the county. Then committees will begin work toward obtaining their goal.

Begin now to invest in victory. Your personal thankfulness for the Victory will be measured by your support of the Victory Loan!

### Bluford McCauley Home From Europe

Cpl. Bluford McCauley, who has recently returned from Germany where he served with the 332nd Engineering Regiment, is visiting his parents, Mr. and Mrs. W. F. McCauley.

Cpl. McCauley was with the advance sector for 15 months. His regiment took part in all of the reconstruction that went on, and McCauley superintended the building of docks at Cherbourg.

To those men who served their country so valiantly in laying the bridges on which our armies crossed, we pay tribute. Without this service there could have been no victory. The accomplishments that were theirs are almost unbelievable, laying bridges in less time than was thought possible.

Cpl. McCauley's regiment received the Presidential Citation and meritorious wards for their contributions in the war.

### Moguls Play At Stamford On Friday Night

Following their 19-0 victory over Haskell last Friday night, Coach Clyde Latham's Munday Moguls will journey to Stamford next Friday night for their annual game with the Bulldogs.

Stamford, somewhat weaker than in previous years, has several conference victories to her credit, while Munday has only one conference loss. This promises to be a most interesting game—one in which either team could emerge the victor.

A large number of Mogul fans are expected to accompany the team to Stamford.

### Cotton Ginnings

The cotton ginning report from the Department of Commerce, bureau of the census, shows that 3,324 bales of cotton were ginned in Knox County from the crop of 1945, prior to October 1. Records show that 3,280 bales were ginned over the same period in 1944.

The report was submitted Oct. 22 by Hoyle A. Sullins of Vera, special agent for the department. Munday has ginned a total of 4,442 bales, according to a report from the gins Thursday morning.

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On."

## MAKING HAY

"Making hay while the sun shines," is an old saying that applies in almost every walk of life today. Especially is it true of retail distributors. Now, while customers are plentiful is the time to make friends. And the best way to make friends is to give the best possible service even though swamped with business. Tomorrow's successful retailers are busy storing up good will to draw on in times of adversity. Tomorrow's failures are busy ringing up sales—and making enemies by discourteous, inefficient treatment of customers who tolerate such conduct because they have no choice at the moment.

And as sure as the sun rises and sets, those who are digging their own business graves through ill treatment of consumers, will be the loudest critics of tomorrow's successful merchants. The old charges of monopoly and unfair trade practices will fly thick and fast. Legislatures and the halls of Congress will ring with demands for laws to curb enterprising firms whose only offense is serving the public too well for inefficient competitors.

Perhaps when the time comes, the public will remember what it endured during the war boom. It will remember the indifferent management, and the surly clerks who took their cue from management. In the end, it may be more sceptical than ever before of measures to curb efficient low-cost distribution. It may have had its fill of mediocrity.

## HEADED TROUBLE

The OPA is headed for trouble. It has orders to keep prices down and yet a stbe head of OPA recently remarked, "Wages are definitely not my job." And wages are on their way up. Thus, with the biggest element in the cost of production completely beyond its reach, the OPA, in order to stay in business, adopts what it calls a "cost absorption policy." Costs it can't control it expects to turn over to retailers for "absorption." This weird tactic, believe it or not, is its "cornerstone of price control."

The greatest danger is that the OPA, while it is getting itself into hot water, will drag the distribution industry along with it. Retailers have enough headaches already. If they are forced to carry the inflationary ball for OPA, the results cannot be anything but disastrous. The country relies on an efficiently operated distribution system. On the whole, profit margins are narrow. The solvency of retailers, including such mass merchandisers as chains, depends upon a high volume of sales, volume that has been gained by keeping prices as low as possible.

No one has greater interest in keeping prices down, than retailers themselves. They realize that there is little room in the delicate combination of prices and volume for the kind of tinkering OPA is indulging in at the present time. If wages go up substantially, prices must go up. If prices are not allowed to follow wages, efficient retail distribution as we now know it, will be wrecked at a cost far greater to the public than normal price adjustments based on cost of production.

## REALITY INSTEAD OF PIOUS HOPE

The Pacific Northwest, with miles of timbered forest land stretching in every direction, is faced with a fuel famine. Strikes have disrupted the lumber industry. Wood and sawdust are nearly non-existent in larger cities. The warning has gone out to home owners to switch to coal. How often the coal industry has heard those words in recent years! And in some manner enough coal to keep people from freezing is gotten out of the ground.

Of course heating homes is but a part of the task of coal. It runs trains and furnishes most of the power and light in the country as well. The production records set by the coal industry throughout the war, in spite of strikes, manpower and equipment shortages, are something for the history books.

One of the reasons why the coal industry has succeeded in meeting the most exacting emergencies is found in the nature of the industry itself. Coal mining is a competitive enterprise. Competition has pushed the individual companies ahead over an admittedly rocky road at times. But the result has been beneficial to coal and to the nation. The industry is extensively mechanized. American miners work in greater safety and comfort and at higher wages than any other miners in the world. Production efficiency has soared to heights that would have been unbelievable a few years ago.

In fact, our coal industry has actually accomplished the objectives of enlightened operation which government controlled or owned industries of other nations merely talk about in an atmosphere of pious hope.

## THE MUNDAY TIMES

Published Every Thursday at Munday  
I. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgar . . . . . News Editor  
Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 3, 1879.

## ARE THEY AFRAID OF COMPARISON?

A medical authority, writing in the Christian Science Monitor, touched upon a timely aspect of the medical care issue when he said: "Advocates of compulsory (health) insurance are just now making use of the large number of rejections by draft boards in support of their cause. They never break down those figures to show how many were rejected for 'illiteracy' in spite of free and compulsory education. Neither is there usually any mention of the percentage of physical disabilities which cannot be prevented or cured by medical care."

"No one mentions that the percentage of rejections is fixed by the standards of acceptance and that in no other country are these so high as in the United States. If the standards required physical perfection, few would be chosen. Since the whole argument is designed to prove that compulsory insurance would reduce the number of rejections, it would seem natural to cite the many countries that have operated the cost of governmental systems that are being urged for adoption here as proof of the inferiority of American medicine."

"This comparison is never made, which suggests some of those using this argument may be aware that some of those using this argument may be aware that such countries were all compelled to set lower standards of acceptance for military service and then were unable to show a smaller percentage of rejects."

## THERE IS A WAY TO HELP

Your son forgoes the roar of Jap warfare for a moment watching a USO Camp Show.

Your brother finds a laugh in the antics of the USO Hospital Circuit.

A little Chinese girl, the age of your own daughter, forgets her hungry when she's fed good food.

Your cousin relaxes in the United Seaman's Service rest center in India.

Your neighbor suppresses despair as he plays a game of baseball with other prisoners in a Jap prison of war camp.

You would like to be there yourself, wouldn't you, to see the war-weariness leave your son's face for a moment; to see your brother's laugh from his hospital bed; to prepare that Chinese youngster's first real meal in months; to relax with your cousin who has been dodging suicide planes and Jap subs; and to cheer to victory your neighbor in the Jap prison camp. Would you like to be there? Who wouldn't bring whatever peace he could to a world valiantly striving to throw off the yoke of oppressive aggression.

But you can't go. You would be another mouth to feed in China. It would be dangerous for you to join your son in the front lines. A ship of the Merchant Marine isn't a safe place for civilians.

But your neighbor in the Jap prison camp would be glad to change places with you and let you play with his baseball and bat.

You can't offer these people your own hand to help. But you can help! To extend the helping hand around the world to our own fighting forces and men of the Merchant Marine, to our allies and to refugees and war victims, is the job of the 22 war-related agencies supported by the National War Fund.

It will be your next work and your dollars that will make the approaching National War Fund campaign a success. It will be the all-out effort of everyone that will provide these services that you would like to deliver yourself to our men overseas.

Give generously of your time—give generously of your money. Let your contribution, both in work and cash, be in accordance with the Texas campaign slogan.

"Sure, I'll Give a Texan's Share!"

A woman is a person who can hurry through a drugstore aisle 18 inches wide without brushing against the piled up tinware, and then drive home and knock the doors off a 12 foot garage.

# In The WEEK'S NEWS

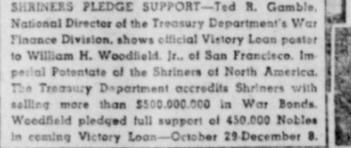

COUNTRY'S BIGGEST—"Tiny Tim" Jones, volunteer fireman of Imperial, Pa., 473 pounds, claims to be the nation's biggest fireman.

ALL LOOK PRETTY—Martha Vickers, movie star, poses with pretty pups, some of many who "rained down" on her in a forthcoming picture in a "stunt" shower that poured cats and dogs as well as water.

CHEERS FOR THE ADMIRAL—Fleet Admiral Chester W. Nimitz, who played a leading role in our Pacific victory, waves to admirers as he rides from Washington airport with his daughters.

SHRINERS PLEDGE SUPPORT—Ted R. Gamble, National Director of the Treasury Department's War Finance Division, shows official Victory Loan poster to William H. Woodfield, Jr., of San Francisco. Imperial Potentate of the Shriners of North America. The Treasury Department accredits Shriners with selling more than \$500,000,000 in War Bonds. Woodfield pledged full support of 450,000 Nobles in coming Victory Loan—October 23-December 8.

FROM IRON LUNG TO WEDDING GOWN—Julia York, 21, infantile paralysis victim who has been chosen pin-up girl of the 398th infantry, will wear her iron lung shortly to don wedding gown when her soldier sweetheart returns from Europe.

TO AID VETERANS—The welfare of veterans all over the country is the chief concern of Major Matt Urban, veterans' campaigns, who has been appointed editor of the Veterans' Bulletin Board for Liberty magazine. The new regular lecture, making its appearance in the November 10 issue, will answer veterans' questions to help them in the transition from war service to civilian life.

## The Airplane Of Tomorrow

One of the war's greatest paradoxes is that its urgent need for developing the world's most destructive force at the very same time advanced that same instrument as a peacetime agency faster and further than any period in history. That instrument is, of course, the airplane. The growth of air transport since Pearl Harbor is a modern miracle which holds so much in store that there seems to be no limit to the forecasts of the post-war future of this industry which has become full grown practically overnight.

The airlines of the United States, under contract for the Army and Navy, flew more than 308,000,000 miles during the first three years of the war, carrying vital personnel and cargo to the far corners of the earth. They racked up the almost incomprehensible figure of 2,600,000,000 passenger miles and 707,000,000 ton miles. New developments in design, power plant and instruments, rushed to fruition in ten times the speed of normal civilian development, were responsible to a large degree. Credit goes also to the pioneering skill and courage of the airlines for companies which had never before flown outside the U. S., pioneered routes over all the oceans where man had never ventured before.

During this same period the airlines demonstrated in another way that they have come of age, depending no longer on any benevolence from Uncle Sam. For the first time the revenues which they turned into the postoffice department from the carriage of air mail so far exceeded the fees paid to the carriers that all the deficit of the early years has been wiped out. Last year the airlines far from receiving a subsidy made a substantial profit for the government.

The harvest of the extraordinary efforts of the war years was ready to be reaped as soon as final victory came and it will be shared by millions of Americans whose war service has made them more air-minded than ever. Already the 19 domestic lines have concrete plans, with many orders already signed, to increase the size of their fleet to 1005 planes. Those ships will be capable of carrying nearly 37,000 passengers. They are not just the dreams of designers even though many of them will be able to cruise at speeds of close to 350 miles an hour and carry loads of 20 tons over distances of 3000 miles and up. Some of these planes have actually seen strenuous war service. From the chaos and destruction of war has come at least one benefit which will be of incalculable value in bringing mankind closer together—the airplane of tomorrow.

Mrs. W. B. Hayley and three children of Seymour spent the week end here with Mrs. Hayley's parents, Mr. and Mrs. Jim Henslee.

## Lines Form Television Picture

Television pictures are constructed of hundreds of fine horizontal lines scanned in the pickup unit, transmitted individually and reconstructed in the receiver. More than 30,000 lines are required for a single second of high-definition television, according to Westinghouse engineers.

For quick results, use a Munday Times classified ad.

## Legal Notice

### CITATION BY PUBLICATION

#### THE STATE OF TEXAS

To Rudoph Andres, GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 10th day of December, A. D. 1945, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 23rd day of October, 1945. The file number of said suit being No. 4404.

The names of the parties in said suit are: C. J. Stengel, Bertha Roy and husband Francis Roy, Clarence Stengel, a minor, Mildred Stengel, a minor, by C. J. Stengel, their father and next friend, Ethel Stengel, a single woman, Ella Hall and husband, J. P. Hall, Bertha Balhorn and husband, W. W. Balhorn, Mary Loran, a widow, J. C. Andres, Clara Andres Pierce and husband, Mike Pierce, and Caroline Andres, a single woman, as plaintiffs, and Rudolph Andres, as Defendant. The nature of said suit being substantially as follows, to-wit:

Being a suit for partition between the above named plaintiffs and the defendant of the following described land:

First Tract: situated in Knox County, Texas, being the North 120 acres out of the East half of Section 82, Block 2 D. & W. Ry. Co. Survey.

Second Tract: Situated in Lamb County, Texas, to-wit: Being all of Labor Number Six (3), in State Capitol League No. 681, containing 189.8 acres of land.

Third tract: Being also in Lamb County, Texas, and being all of Labor Number Ten (10), in State Capitol League Number 650 and containing 177.1 acres of land.

Plaintiffs alleging that said property is owned jointly by plaintiffs and the defendant, the first five parties owning jointly a 1/8 interest and all other parties and defendants owning each a 1/8 interest therein.

Issued this the 23rd day of October, 1945.

Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 23rd day of October, A. D. 1945.

(Seal) N. S. KILGORE,  
Clerk District Court,  
Knox County, Texas.

Hubert Isbell of San Antonio visited with relatives and friends here the first of this week.

## Goree News Items

Seaman Monte Pollen, who has been serving in the South Pacific area, came in Monday evening to see his wife and 10-month-old son, Pat, whom he had never seen.

Pvt. Weldon Warren of Fort Riley, Kans., was here last week on a 15-day furlough with his wife and family and visiting his parents, Mr. and Mrs. Sam Warren of Munday. His wife accompanied him as far as Wichita Falls on his return.

Mr. and Mrs. T. J. Peck and daughter, Dimple, and Mrs. W. A. Parnley were week end visitors in Clovis, New Mexico, last week.

Everett Jones of Fort Worth was a visitor here with his parents, Mr. and Mrs. G. D. Jones, last week.

Jack Coffman, who is a student at Texas University, Austin, was a recent visitor with his parents, Mr. and Mrs. Orb Coffman, and with his grandmother, Mrs. Sarah Coffman.

Mr. and Mrs. Michael James and son, Mickey, of Houston were recent visitors with Mrs. James' grandparents, Mr. and Mrs. W. S. Heard.

Misses Jean and Lorene Thomas of Wichita Falls were week end visitors in the home of Mr. and Mrs. Barton Carl.

Pvt. Taylor Cooksey of San Diego, Calif., was a recent visitor here with his parents, Mr. and Mrs. Harper Cooksey.

Mrs. S. M. Claburn has been on the sick list, but is reported improving.

Mrs. Carl Oliver and son were visitors with relatives at Wichita Falls last week.

Garner Miller of Woodson, who has recently been discharged from the service with the Seabees, is visiting his uncle and aunt, Mr. and Mrs. E. N. Miller.

Mr. and Mrs. Andrew Gilbert of Munday were here Sunday to visit Mrs. Gilbert's parents, Mr. and Mrs. S. M. Claburn.

L. Loran of Rhineland was a business visitor in Goree last Tuesday.

Mr. and Mrs. B. Hunt visited with relatives in Dallas several days last week.

Mr. and Mrs. Henry Griffin are taking a rest and vacation at Rockport, Texas after selling their drug store to Dorse Rogers of Munday. They will visit a number of points of interest before returning to Goree.

Mr. and Mrs. Murl Pearson came in last Wednesday from Abilene, where they visited relatives. Seaman Pearson spent more than three years in the navy. He will rest here with his wife's parents, Rev. and Mrs. S. E. Stevenson, and will later enter school for special training.

Mr. and Mrs. J. W. Fowler were business visitors in Wichita Falls last Saturday.

Mr. and Mrs. Orb Coffman and daughter, Mildred, were recent visitors with relatives in Haskell.

Miss Chloe Dell Staleup was a

visitor with her parents over the week end. She is teaching school at Graham.

Mr. and Mrs. W. S. Heard have had recent word from their son, Major Pat Heard, who has been serving in the South Pacific, that he will be home soon.

Mr. and Mrs. Heard Reeves of Wichita Falls were visitors with Heard's grandparents, Mr. and Mrs. V. M. Reeves, recently.

Barbara Jean Barger has returned from a visit with relatives at Houston.

## Grub Treatment For Cattle Will Be Profitable

Cattle grubs collect a big toll in money from Texas farmers yearly. Grubs also take a heavy toll indirectly from non-farm people. This is in the form of meat which the grubs make unfit for eating. R. O. Dunkle, County Agent, estimates that grubs levy a tax of about five million dollars a year upon Texas cattle growers.

Here's the way he figures it. About 840-thousand of the two million Texas cattle slaughtered yearly are grubby, and these animals are discounted an average of nearly four dollars each. This is the main item of loss. But the remainder of the five million is in damaged hides, a reduction of twenty five per cent in milk flow, and greater expense in feeding stock afflicted by grubs.

And here's what the parasites take from folks who eat the meat: An average of two pounds per infested animal is destroyed. Dunkle estimates that this would be sufficient for the most ration of forty six hundred persons. And the leather lost because of damage by the grubs is sufficient to make about one million pairs of shoes. The money represented in the loss of meat and hides falls upon the cattle producers, but during meat and shoe rationing the consumer also has a large interest in the problem of controlling the parasite.

Dunkle says that protene and sulphur is the most effective treatment for grubs. This mixture may be applied as a dust or spray, and as dip when both grubs and lice are to be controlled. The time that the first treatment for control of grubs should be given varies according to section of the state. Generally, Dunkle says, it should be made in the southern half not later than October twentieth. In the east and northeast sections November fifteenth to December fifteenth is the most desirable period, and October twentieth to December first in the Panhandle and West Texas.

For more complete information see your county agricultural agent, or write to Gregg at College Station.

LUBOCK.—Under the G. I. Bill of Rights there are 223 students attending Texas Technological College. Three of these are women. Of the men, 30.5 per cent or 81 students are enrolled in engineering, 68 in arts and sciences, 40 in agriculture and 33 in commerce.

J. K. Kane was here the first of this week to visit his son, Jerry Kane, and his family.

## Grain Goes Up; Cost Comes Down When Power Elevators Are Used

By IRA MILLER  
Farm Electrification Bureau

Far removed from the grime and noise of big city factories, an ever increasing number of farmers with electrical service are, to some extent, putting grain handling operations on almost a production line basis.

Elevators, blowers and bins, connected by chutes or conveyors to corn shellers, grinders and mixers—and often to feed lots as well—save labor and put extra farm dollars in the bank. As Dr. J. B. Davidson, agricultural authority, said: "The only conditions under which the handling of grain by hand can be justified is when the quantity moved is so small as not to justify the overhead expense of machinery. Elevating machinery will increase the labor of one man two to ten times."

Handling grain "the electric motor way" isn't the exclusive property of the big farmer; the small operator can do it too.

When a farmer has an electrically-equipped drive-in, crib-granary, grain handling can be practically automatic. The front end of the wagon or truck is hoisted off the floor and grain slides into a floor dump to be elevated into overhead bins or side cribs. Small grain flows from bins to the grinder to be blown or re-elevated into bins over the mixer. Ear corn can be dropped or carried by floor conveyor to a grinder or sheller; shelled corn can be returned to overhead bins for later use.

The farmer who doesn't have a crib-granary can get virtually the same automatic results with an electrically-powered portable elevator and overhead bins connected by chutes to grinding, shelling or mixing equipment or to wagons to be hauled to centrally-located granary equipment. One Ohio farmer, who didn't feel he could afford a crib-granary, used less than one kilowatt hour of electricity, costing only a few pennies, to raise 200 bushels of corn into the loft of an old building with a portable elevator equipped with a one-third horsepower motor.

Motors, ranging in size from 1/4 to 5 horsepower, are used to operate crib-granary stationary elevators and wagon hoists, with the size of the motor depending on the amount of grain to be elevated and the speed required. Most farm authorities, however, recommend motors of 1 or, preferably, 2 horsepower for this operation.

And—speaking of the money and

THIS BUSY mid-western farmer flips on the switch and his granary elevator does the rest.

time saved elevating grain electrically. An Iowa farmer says he saves \$370 per season in direct labor costs with his elevator. Another farmer states that his stationary crib-granary elevator enables one man to unload 40 loads of corn per day or a load of grain in from two to three minutes. This latter elevator is equipped with a 3 horsepower motor.

## GET THE MOST OUT OF ELECTRICAL APPLIANCES

COLLEGE STATION.—Electrical appliances for making home work easier soon will be on the market, and farm women will be buying new cleaners, mixers, irons, and other appliances which they had to do without during the war. Electrical appliances, if used in the correct manner, can save a great deal of energy and time, says Mrs. Bernice Claytor, home improvement specialist for the A. and M. College Extension Service. All too often, however, the housewife starts out using her appliances without checking to see if her methods are best for time and labor savings.

When the homemaker buys a new appliance, it will save her time and work in the long run if she studies out first the best way of doing the job. Just as an example, here are a few pointers in cleaning a room with a vacuum cleaner. First the housewife should see that there is enough light and ventilation in the room for a good and comfortable job. After she decides on the best method of doing the job, she must estimate any part of the task she can or combine steps in the cleaning.

"If you can use one attachment for several jobs," says Mrs. Claytor, "you may be able to do all those steps before the attachment is changed. Keep everything within easy reach so that when you need to change attachments you can do it quickly. Attachments have a specific job. Be sure you are using the right one for the job you are doing."

Proper method of using any electrical appliance will save

money, too, Mrs. Claytor continues, because the appliance will last longer and need fewer repairs.

E. C. Weeks of Elliyay, Ga., is here to spend a two weeks' vacation with his brother and wife, Mr. and Mrs. Ralph Weeks, and with Mr. and Mrs. Raymond Hargrove.

H. A. Pendleton was in Fort Worth the latter part of last week, where he attended the T. C. U.—Texas Aggie football game on Saturday afternoon.

Mr. and Mrs. Aaron Edgar spent the week end with Mr. and Mrs.

Roy Rogers near Quanah. They were accompanied home Sunday by Mrs. Edgar's father, W. J. Bridge, who will visit here for several days.

S/Sgt. and Mrs. John R. Rayburn and little daughter of Fort McClellan, Ala., came in the first of this week for a visit with relatives and friends in this section.

Mr. and Mrs. Grady Thornton of Amarillo spent the week end with relatives and friends here and at Goree.

Mr. and Mrs. Walter Skiles and

family spent the week end in Stamford with Mr. Skiles' mother, Mr. and Mrs. C. W. Sarrels.

Mrs. H. H. Bledsoe of Canyon spent the week end with her parents, Mr. and Mrs. R. L. Ratliff, and with other relatives and friends.

## E. W. Norris And Wife Observe Their Golden Wedding

Mr. and Mrs. E. W. Norris held open house at their home in Goree on October 14th, in observance of their golden wedding anniversary. One hundred and forty guests called to congratulate Mr. and Mrs. Norris on this happy occasion. Out-of-town guests were:

Mr. and Mrs. Frank Norris, Mrs. Terry Housman, Miss Lou Pittman, all of Fort Worth; Mrs. J. B. Norris, Graham; Mr. and Mrs. Raymond Ratliff, Lee Haymes, Mrs. W. M. Mayo and Mrs. Jack Mayes, all of Munday; Mr. and Mrs. Kelley Woodall, Mr. and Mrs. Floyd Coffman, Miss Margaret Coffman and Edwin Coffman, all of Littlefield; Mr. and Mrs. W. A. Lyles and Mrs. Ozella Fredason, Haskell.

A beautiful spray of gifts were on display, attesting the esteem in which has been held for this beloved couple during the many years they have spent in Goree.

## Munday H. D. Club Meets Wednesday With Mrs. Tynes

The Munday Home Demonstration Club met on Wednesday, Oct. 24, in the home of Mrs. J. O. Tynes. The house was called to order by the president, and a business session was held.

The meeting was then turned over to Miss Lucile King, the agent, who gave a demonstration on making marshmallows. Mrs. Swindle read a letter from the Knox City Club inviting the Munday ladies to a party in the home of Mrs. L. N. Bridges on November 16.

The Munday Club is to entertain the Union Grove Club on November 28 in the home of Mrs. J. B. Scott. The committee to help Mrs. Scott is composed of Mrs. E. J. Cude, Mrs. J. B. Broach and Mrs. Joe Patterson.

Present for the demonstration were Mmes. D. C. Swindle, E. J. Cude, A. M. Searcy, J. O. Tynes, G. L. Pruitt, F. L. Bowley, J. B. Broach, Joe Patterson, Ralph Weeks, J. B. Scott, G. L. Conwell, a new member, Mrs. H. C. Hawes, and the agent.

The next meeting will be in the home of Mrs. D. C. Swindle on November 14.

## JUNIOR CLASS MOTHERS TO HOLD BAKE SALE

The Junior Class mothers of Munday high school will sponsor a bake sale next Saturday. The sale will be held at the city hall. Baker pies, cakes, dressed chickens and other items of food will be on sale. These ladies will appreciate your patronage.

## New Officers Sunset Club Are Elected Recently

The Sunset Home Demonstration Club elected its officers for the coming year in a meeting held on Tuesday, October 18, in the home of Mrs. J. S. Shannon. They are as follows:

Mrs. R. M. Almanrode, president; Mrs. W. E. Pack, vice president; Mrs. Jerrv Nix, secretary-treasurer; Mrs. T. J. Partridge, council representative; Mrs. H. R. Hicks, alternate representative; Mrs. Layne Womble, reporter; Mrs. Gill Wyatt, parliamentarian.

Plans were made for the achievement day meeting on Thursday, November 1.

Refreshments were served to 12 members and seven visitors. The visitors were Mrs. Leon Partridge, Mrs. Chester Bowden, Mrs. Raymond Crouch, Jeanelle Partridge, Christine Lindsay, Barbara Jane Almanrode and Miss McAfee.

Miss Boniebelle Reid, who is attending business college in Wichita Falls, spent the week end with her parents, Mr. and Mrs. Gary Reid.

## Wesleyan Service Guild Has Week of Prayer Program

Members of the Wesleyan Service Guild met at the Methodist Church last Monday night for their "Week of Prayer" program.

A very interesting program about mission work in Africa and some of the work carried on in U. S. was carried out, with Mrs. Joe Bailey King as leader. Others giving part on the program were Miss Ruth Baker, Miss Merle Dingus and Mrs. Hazle Shelton.

Others present were Mmes. Oscar Spann, Don Davidson, Leon Partridge and Forrest Yancy.

Mrs. A. E. Ford and family visited with relatives in Carlsbad, N. M., over the week end.

D. R. Sullivan and little son, Dickie, of Vera were visitors here last Sunday.

## DANCE AT RHINELAND

A dance will be held at the Rhineland Community Hall on Tuesday evening, October 30. Music will be furnished by the Brown Derbies of Stamford. The public is cordially invited to attend.

## Sunset Club To Hold Achievement Meeting Nov. 1st

The Sunset Home Demonstration Club will hold an all-day achievement meeting on November 1, in the home of Mrs. Gill Wyatt.

The Gilliland Home Demonstration Club and the Sunset 4-H Club Girls will be afternoon guests.

Members will spend the morning arranging the work for display. A covered dish luncheon will be served at noon.

All members are urged to be present for the morning and bring their club work for display.

## Munday Student In On Dean's List

DENTON.—Names of 203 upperclassmen at North Texas State College were put on the dean's honor list this week, showing an increase of 38 over the number of honor students listed at the beginning of the fall term last year, according to Dr. B. B. Harris, dean of the college.

The list includes the names of each student who attended the college during the previous semester and completed at least 12 semester hours of class work with an average grade of B and no grade below a C.

## MARVIN C. BROWN RECEIVES DISCHARGE

Marvin Cleo Brown, seaman first class in the Navy, whose home is in Benjamin, recently received his discharge.

Brown spent 19 months in overseas duty and participated in the following operations: Siapan, Guam, Layte, Luzon and Okinawa. His wife, Oma Brown, and their three children live at Benjamin.

## ABUNDANT FOODS FOR OCTOBER

COLLEGE STATION.—Cabbage and Irish potatoes will be abundant during October, the U. S. Department of Agriculture has reported, and sweet potatoes are expected to be plentiful during the fall. Since large amounts cannot be stored successfully over long periods, homemakers are being urged to use these foods generously in their meal planning.

Instructions on making fruit at home can be obtained from county home demonstration agents or from the A. and M. College Extension Service headquarters at College Station.

## At The Churches

### BENJAMIN METHODIST CHURCH J. P. Patterson, Pastor CALENDAR

### Sgt. Guy Hardin Given Discharge

SAN ANTONIO, 18 October.—After 25 months overseas service with the Army Air Forces, S/Sgt. Guy Snell Hardin of Munday, is being honorably separated from the Army of the United States at the San Antonio District Installation of the AAF Personnel Distribution Command.

While in the Army he was a Gunner with the 8th Air Force, completing 20 combat missions.

Sgt. Hardin is the son of Mrs. Nell Hardin of Box 476, Munday, Texas.

This facility at San Antonio is another example of the Air Force's

policy of "looking after its own," and is spending the flow of airmen back to civilian status.

### CITY SECRETARY CLOSING OFFICE AT FIVE O'CLOCK

Because of some confusion among those having business at the city secretary's office, Harvey Lee has given the office hours.

With the change back to the standard time, the city secretary's office adopted five o'clock as the afternoon closing hour. Office hours are from 8:00 a.m. to 5:00 p.m., with the office being closed at noon from 12 to 1:00 p.m.

Rose cut in the afternoon have a life expectancy ten hours greater than those cut in the morning.

### Victor Tomanek Gets Discharge

Sheppard Field.—Pfc. Victor J. Tomanek of Gilliland, Texas, has received his honorable discharge from the Army Air Force. He is the son of Mrs. Anna Tomanek of Gilliland. Prior to discharge he was stationed at Topeka Army Air Field, assigned Military Police.

He has been in Service since January 28, 1942. He has been stationed at Lincoln, Neb.—Kessler Fld., Miss.

He served overseas as an Infantryman in the Aleutians. He wears the Good Conduct Medal-Asiatic-Pacific ribbon with one bronze star.

### Texas And Her Annexation

By Dr. E. C. Barker, Professor of American History, The University of Texas

(This is the second in a series of articles on events having to do with the annexation of Texas to the United States this year is observing the Centennial of Statehood.)

The annexation of Texas by the United States was for ten years a subject of world importance.

#### Sectional Controversy and Threats To The Union

At home, the subject aroused bitter sectional controversy between the North and South. Abolitionists, who are determined to prevent further spread of slavery, declared that annexation would be unconstitutional and would cause the dissolution of the Union, intimating that it would justify the secession of the states that had abolished slavery. Southern states, on the other hand, declared that refusal to annex would

### Justify secession of the South.

#### International Aspects

In international relations, Texas was an actual or potential bone of contention between the United States, Mexico, England, and possibly France. Since Mexico refused to accept the battle of San Jacinto as final and repeatedly declared its intention to reconquer Texas, annexation might lead to war between the United States and Mexico. British financial interests in Mexico, desire to promote abolition of slavery, and commercial aims shaped England's policy toward Mexico and Texas and caused it to oppose annexation by the United States.

Evidence indicates that the British government had no desire at any time to make Texas a part of the empire, but it was willing to establish a protectorate over the rising republic and guarantee its independence to prevent its acceptance of annexation by the United States. French policy was never aggressive, but the government was ready to follow England's lead in trying to prevent annexation by the United States.

#### Texas Diplomacy Played On The International Situation

The Texans used the international situation to their advantage. Houston, during his two administrations, was able to feign an indifference toward annexation that he probably did not feel, thereby stimulating anxieties of pro-annexationists in the United States and encouraging British statesmen to hope that Texas would remain independent. It is a notable fact that neither American nor British diplomats never felt quite sure of Houston's preference. The same doubt was felt about Anson Jones, under whom annexation treaty engagements with England which would have made annexation difficult if not impossible.

The historian can neither approve nor disapprove the sincerity of Jones and Houston. In the light of the circumstances, contemporary documents can be construed to support the hypothesis that they worked shrewdly to hasten annexation, or to defeat it altogether. Naturally, after annexation was accomplished, both contended they had always desired that end, and I believe that they were sincere.

Pvt. and Mrs. Joe Butler came in a few days ago from Fort Benning, Ga., to spend a furlough with relatives and friends in this area.

Mrs. Grady Shytles, Jr., was a visitor in Lubbock over the week end.

### Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

Austin, Texas.—Because of the economic losses they cause to industry and commerce and the annoyance they create in homes, rats have been considered a serious menace to mankind since long before their role as vectors of disease was understood. Today at least six diseases are known to be transmitted to man from the rat, according to Dr. Geo. W. Cox, State Health Officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tapeworm, and food poisoning. Typhus fever, in the past few years, has become a major health problem in Texas.

"It is necessary to public health," Dr. Cox said, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of special importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that unlike other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places includes the employing of ratproof design in buildings, employing ratproof methods of construction and installation, and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in ratproof containers, the proper storage of garbage in closed containers until disposal, and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradication of a nuisance and economic menace but in improved health conditions and the certain decrease in the incidence of typhus which, alone, would make the control program worth-while.

Barbara Lee and David New Walker of Dallas are spending this week with their grandparents, Mr. and Mrs. G. R. Eiland.

### LOCALS

Mrs. Silas S. Redwine of New York and her mother, Mrs. Tom Chambers of Fort Worth, visited Mr. and Mrs. G. W. Redwine the first of this week. Silas, son of Mr. and Mrs. Redwine, who is in the merchant marines, is making his home at New York at the present.

Mr. and Mrs. J. D. Crockett were business visitors in Abilene last Thursday.

#### RECEIVES DISCHARGE

S/Sgt. J. C. Walling received his discharge from the Army last week at the San Antonio separation center. He has been in the service since January, 1942, having served two years in Panama and several months in Italy. He and his wife, the former Louise Moore, are visiting here with his parents, Mr. and Mrs. W. H. Walling.

A. E. Richmond was a business visitor in Haskell last Tuesday.

Miss Maggie Searcy of Dallas spent the week end with her parents, Mr. and Mrs. A. M. Searcy.

Mrs. Mildred King has returned home after several days visit with relatives in Corsicana.

#### BIRTH ANNOUNCEMENT

Mr. and Mrs. M. L. Sharpless of Roanoke, Texas, are the parents of a son, Louis Wayne, who was born on October 15. Mrs. Sharpless is the former Mary Helen Watters, granddaughter of Mrs. R. L. Brownfield of Fort Worth, a former Munday resident.

## Washington News Letter

By Congressman Ed Gossett

Washington, D. C., Oct. 20.—The House this week passed two bills of considerable magnitude and importance. First, they passed a federal aid to airports bill modeled after the federal aid to highways program. The bill obligates the federal government to match state governments and municipalities up to the sum of 50 per cent, and commits the federal government to spend around \$700 million on this program. The vote on the bill was 279 to 82. Seven Texas Congressmen including myself were among the 82 voting against this bill. The \$700 million is to be spent on civil aviation alone, and has nothing to do with any military program. We felt this amount of money should not be authorized at this time as it would benefit only the richest communities and would be used only by commercial lines and by folks able to own private planes. If such a program is practical necessary it could have been authorized at a later date in a more reasonable sum. Furthermore, some of us felt if this simply were a public works program to furnish employment and use material, as some contended, it would be better to spend it on schools, farm to market roads, etc. Once money is authorized it will be spent, regardless of need.

The second important bill passed by the House was known as the Revision Bill, which provides for cutbacks in appropriations and contract authorizations totaling \$52,453,535,000. I supported this bill wholeheartedly. Under it the federal government will recapture or save more than \$52 billion from appropriations and authorizations heretofore made by the Congress, largely on war materials. It is high time we became economy minded and to restrict expenditures to necessities. Luxuries can hardly be afforded with a national debt of almost \$300 billion.

I introduced a bill this week to create a National Scientific Research Foundation. Such an organization has been recommended by the Director of War Mobilization and Reconversion and by several Committees of the Congress, as well as many foresighted individuals who feel we should devote to the problems of peace the same scientific efforts devoted to the problems of war.

During the war more than 3 per cent of all scientists in America worked on secret government projects. The results were phenomenal in turning out thousands of offen-

sive and defensive weapons, the most notable of which were radar, proximity fuses, and the atomic bomb. The proximity fuse is what its name implies. It causes shells and bombs to explode in proximity to the target though a direct hit it not made. It is said to have increased the accuracy of naval fire by 400 per cent, and to have helped defeat the Jap suicide attacks; to have saved Britain from the assault of V-bombs and to have been the decisive factor in our winning the Battle of the Bulge.

In the field of medicine wartime scientific research made marvelous contributions. Due largely to wartime development of penicillin 97 per cent of all wounded men who reached hospitals survive. Meningitis, a terror of World War I was completely conquered. Other toxoids and vaccines were developed which reduce to zero deaths in our army from tetanus, yellow fever, and epidemic typhus. DDT largely eradicated malaria and other tropical diseases and helped secure our Pacific bases.

However, what hasn't been done is a dark picture. Disease still takes a terrific toll in American life. Approximately a million and a half civilians die annually, mostly from diseases about which little is known, such as heart ailments, cancer and malignant tumors, cerebral hemorrhages, infantile paralysis, etc. Then of course we have the less fatal disease such as colds and hay fever, from which nearly every human suffers discomfort, pain, and loss of earning power. We spend four billion dollars annually on medical bills, and lose nearly 10 billions in production from illness and disease. Certainly extensive and intensive scientific research could eliminate or reduce most of these diseases. We should have scientific brains in the workshops of peace as well as the workshops of war.

General Patton is still a favorite subject of discussion in Washington. While it is generally agreed he was a great soldier, it also is agreed he was a poor administrator. That great soldiers make poor administrators can be proved by the case of U. S. Grant, and disproved in the cases of George Washington and Andrew Jackson.

### "Clinics" To Aid Merchants At Job Of Reconversion

Austin.—Business "clinics" to help the merchant meet reconversion problems are being conducted by the University of Texas Bureau of Industrial and Business Extension Training, and the State Board for Vocational Education.

A series of three meetings are held for the merchants and businessmen: the first to discuss reasons for reconversion, and the importance of the sales person's position; the second deals with the function of distribution; the third with the techniques of reconversion selling. James R. D. Eddy, director said.

"The Bureau, a part of the Division of Extension, will hold the clinics wherever requested," Mr. Eddy said. "Usually chambers of commerce make the requests for the training, but others may do so. Towns already receiving the service are Goldwaite, San Saba, Lometa, and Lampasas, Madisonville, Crockett, and Naegedoches.

### Flying Farmers

STILLWATER, OKLA.—Many of the farmers who attended the Flying Farmers Conference here at which there was a general discussion of landing facilities in relation to the farm have made changes in their own landing fields as a result of the discussion. There were 82 planes at the convention which was held under the auspices of the Oklahoma A & M College.

### Organizations For Clothing Drive Being Completed

Henry J. Kaiser, National Chairman of the Victory-Clothing Collection for overseas relief, scheduled for January 7-31, 1946, announced today that already 1,395 men and women have agreed to serve as local chairmen in their communities.

The majority of these men and women organized their communities in the successful collection of used, serviceable clothing of last spring which was also headed by Mr. Kaiser.

Wisconsin leads with 97 acceptances. Texas is second with 89 and New York third with 87.

America's spring cleaning which was done in answer to the plea "What Can You Spare That They Can Wear?" yielded enough clothing to help 25,000,000 war victims in Europe, China, and the Philippines, according to UNRRA (the United Nations Relief and Rehabilitation Administration).

The goal of the Victory Clothing Collection is 100,000,000 serviceable garments in addition to shoes and bedding. Contributors are invited to attach good-will letters to their clothing gifts.

According to the UNRRA and

other relief agencies working overseas the 25,000,000 people assisted are only a small percentage of the destitute, homeless and looted people who are in desperate need of clothing. Conditions are such that Canada, Australia and New Zealand have been conducting clothing collections for relief of the invaded and bombed countries, and President Truman has announced that the need justifies another appeal to the people of the United States.

Mr. and Mrs. Sied Waheed and family visited with relatives in Haskell last Sunday.

Mr. and Mrs. Wade Mahan were business visitors in Austin the first of this week, where they attended an insurance meeting.

Mrs. C. P. Baker spent the first of this week in Dallas, attending the markets and purchasing merchandise for the local Baker-McCartney store. She was accompanied to Dallas by her sisters, Mrs. A. P. Barker of Lockney and Mrs. G. V. Smith of Floydada.

Mrs. B. L. Blacklock was a visitor in Ruidoso, New Mexico, over the week end.

Moody Johnson was a visitor in Vernon last Friday.

## LETTERS FROM THE PEOPLE

The Cottonseed And Feed Situation In The Munday Territory, as Viewed By A Farmer Citizen

Just a few years after the town of Munday started to build, there was also an oil mill erected and began operations for the purpose of processing or changing cotton seed from a crude state into feed to be used for the feeding of livestock, also oil to be manufactured into cooking oils, etc., and in return to earn a fair margin of profit from the investment.

Cotton gins were also erected, both individual and cooperative, for the sole purpose of separating seed from the lint and selling the seed to the oil mill, and also in return, to realize a fair margin of profit on their investments. Both mill and gins have cooperated and enjoyed a lucrative business, and most of the time furnished a sufficient amount of feed for feeders, dairymen, farmers and townspeople's livestock.

But at the present time it seems that the picture has changed to a certain degree. The large grain crop has just been harvested, and most of it shipped out of the territory, and if one will survey the county over, he will find a small amount of bundle feed. This leaves a major part of the feed situation to be taken care of by cotton seed, hulls as a filler, and meal and cake as protein.

Just at this time and for the past two years, a very large per cent of the cotton seed has been sent to mills other than the local mill, leaving our local to operate on a very small amount of seed. If this continues, the mill at Munday will be forced to close and the community will lose an enterprise which maintains a weekly pay roll (while in operation) of several hun-

dred dollars. In addition, it has an annual tax payment of about \$1,300.00 to the state, county, city and school.

However, this does not include salaries of some five or six salaried employees.

Now, take into consideration the fact that the local mill keeps normally on reserve for the summer trade a sufficient amount of hulls and meal in proportion to needs, and if that is not done and feed is shipped from other points back to Munday, the consumer will pay the freight, making feed cost more than if produced here at the mill.

The mill, being located in the center of a cotton producing area, has made it possible to have a cheap drayage charge, thus lowering the cost of feed consumed by farmers and townspeople, who in many instances keep a milch cow.

As viewed from the standpoint of future service, the writer believes that as long as the mill is here, regardless of ownership, whether individual or cooperative, enough seed should be delivered to the mill so that an adequate amount of feed could be produced to accommodate the trade territory. Think it over!

A Citizen.

Mrs. Elouise Lackey and baby daughter of Haskell were visitors here last Sunday.

Mr. and Mrs. Karl Harbin and children of Abilene visited friends and relatives here last Saturday.

### No More "Bumping"

WASHINGTON.—Removal of War Department priorities on air travel and reduced fares by the commercial airlines have resulted in a heavy increase in demand for planes seats. The airlines are putting more planes into service and will meet the public demand as rapidly as possible. Travelers are protected against "bumping" under the new regulations.

Mrs. Ora Collins, who suffered a broken hip several months ago, has been taken to a Fort Worth hospital for further treatment. An ambulance from the Mahan Funeral Home took her to Fort Worth on Tuesday.

Mr. and Mrs. C. T. Russell and son of Carlsbad N.M., spent the week end with Mrs. Russell's parents, Mr. and Mrs. W. H. Walling, and with other relatives and friends.

## Postwar Agriculture Demands

### THE RIGHT TRACTOR

### FOR THE PARTICULAR JOB

THE proverbial Jack-of-all-trades was master of none. The modern world of science and technology passed him by.

The same principle applies to farm tractors. The tractor that does a wide variety of jobs unsatisfactorily can't possibly produce the greatest results at the least cost in any job.

But that's what the farmer—particularly the small operator—has got to do to meet postwar competition: he's got to produce the most food possible with the least effort and, consequently, at the lowest cost.

The farmer with 10 acres in truck crops needs one kind of tractor. The farmer with 100 acres in wheat alone needs another kind—or, as is usually the case, two or more different tractors. The tractor which does a good job on the Great Plains may be useless in the

rice territory. And so it goes.

Conditions of climate, the lay of the land, and the character of soils in the different parts of this vast country, together with wide variations in the nature of crops and the size of operations, combine to produce wide differences in the requirements for tractors. Harvester's policy is to meet all these requirements.

That is why Harvester's postwar line includes a great variety of Farmalls and other specialized tractors and attachments rather than a single tractor with a single system of tools. Every tractor in the line was developed after scientific research and testing under actual operating conditions showed the specifications needed for efficiency and economy.

Every Harvester-built tractor is the right machine for its particular job.

## INTERNATIONAL HARVESTER

# AA FARM NEWS

When winter legumes are plowed under they add a vast amount of valuable organic matter to the soil. There is no better or cheaper way of building the soil and increasing production. Every winter legume plant is a miniature nitrogen factory drawing nitrogen from the air and storing it in its roots. When the legumes are plowed under in the spring, they add this stored nitrogen to the soil. Start a legume planting program. Farmers can earn a substantial payment under the 1946 AAA program and at the same time build up their soil.

Another good example of the benefits derived from the deep breaking of sandy cropland can be witnessed on the A. L. Smith farm in the Munday Community. Crops are better and Mr. Smith stated that this land did not blow like the other land did.

The AAA payment for the deep breaking practice is \$1.50 per acre. This payment is made to help offset the expense of the practice.

## THE OUTLOOK FOR WHEAT

Conditions in the United States are favorable for maintaining wheat acreage at around current levels for the next year or two, according to the Department of Agriculture.

The surpluses of wheat that accumulated before the war in the United States and in many foreign

countries have been reduced to moderate levels, and export demands for wheat are sufficient to take most of the surpluses from the 1945 wheat harvest.

But if farmers maintain a large acreage for several years, we'll be in trouble again. Farm production in other countries can be expected to recover in a couple of years. They'll be in a position to produce their own wheat. And if we hold our acreage at the present level past the time when our export demands for wheat are reduced, the United States will have to solve problems of wheat surpluses.

The USDA Rural Health survey, which has now been completed, shows that four-fifths of the farmers contacted favor more public clinics in rural areas, and three-fourths would like to subscribe to some flat-rate pre-payment plan to cover hospital bills, doctors and nurses for themselves and their families.

Fruitt Large of the Knox City Community was in the office Monday and requested prior approval on a well, deep breaking, and terracing practice. Mr. Large is planning an extensive soil conservation program on his farm.

Secretary of Agriculture, Clinton P. Anderson, in an address in Town Hall, New York City on the occasion of Share The Food Day said in part: "If the family next door to you were starving, you would rather raid your ice box and take some food over to them, even if it meant less on your own table. You would want to do the same thing if the needy people abroad were brought over here so that you could get to know them personally, or if you could make a trip through ravaged lands and meet these people where they live. Of course we can't bring these folks over here and we can't all go abroad to get acquainted with them. But what we can do is to tell their story, to bring needs home to us as directly as possible. Even though these hungry people live across the ocean, they remain our neighbors, our friends, just as if they lived next door. We must do all we can to share our food with those who are suffering from the devastation of war. We must also be realistic in facing the practical problems of getting food to places where it is needed."

Some remarks made by farmers about the Austrian Winter Peas they seeded are: Claude Richardson, Knox City, stated that he had a good stand; Lee Smith stated that most of his were up and doing fine; Clyde Bullion and Charlie Hamilton stated their peas were outgrowing the wheat planted at the same time; Ted Russell, Vera, believes the Austrian Winter Peas are what the farmers of Knox County need to build up the soil.

J. A. Caughran, accompanied by Jack Fool of Abilene, was a business visitor in Wichita Falls last Monday.

P. V. Williams spent the first of this week in Dallas, attending to business matters and booking pictures for the local Roxy Theatre.

Mr. and Mrs. Briece Dobbs and family of Dallas visited with friends and relatives here over the week end.

Mrs. Joe Pickard of Dallas and Mrs. R. D. Brown of Cameron are here for a visit with their sister, Mrs. Fred Broach, Sr., and with other relatives.

**I GIVE YOU TEXAS**  
by BOYCE HOUSE

What makes a Texan tick, anyhow?

To understand Texas, and therefore Texans, it must be borne in mind, first of all, that Texas is big. Senator Ben (Pitchfork) Tillman of South Carolina is credited with having said (and Texans gustily repeat it) that Texas has more trees and less timber, more rivers and less water, more cows and less milk, and you can see further and see less than any darned country in the world.

From the North to South, the State is about 900 miles and it is nearly as huge from east to west. The Gulf Coast line is 370 miles long and for nearly a thousand miles the Rio Grande separates Texas and Mexico. Amarillo is closer to the capitals of five other

States than it is to the capital of Texas. It is often said that the people in El Paso call the citizens of Texasiana effete Easterners and that the inhabitants of Brownsville call those of Dallas durnya-kees.

Not only is Texas big, but the State has a wide range of soil, of rainfall, of terrain and of climate and so it is a land of contrasts.

In the eastern part there are saw mills and farms; mockingbirds sing in the thickets and dogwood blooms in the shadow of tall pines. At Tyler is the world's biggest rose garden and East Texas has the largest oil field in the world—30,000 wells.

Then in the western part of Texas is the Llano Estacado, the endless "Staked Plains." Tradition says that the early Spaniards in that hillless, treeless region marked their course with stakes so they could find their way back. In this general area are great ranches with their cattle and sheep—and more oil wells. And here are sagebrush, caeti of many species, and the twisted mesquite; the rugged Big Bend section, its grandeur unsoftened by man, and the highest peaks east of the Rockies, the loftiest almost 9,000 feet.

In between the east and the west can be found the "black waxy" soil where there are cotton fields and singing negroes gathering the

## Stratford Is First To Spray Against Polio

STRATFORD.—This in one of the first cities in America to spray the entire community with a DDT solution aimed at the prevention of polio. Every public building and every private residence has been sprayed with DDT, a five-percent Technical Grade DDT insecticide, and the 887 residents of this North Plains city are agreed it performs miraculous feats in ridding the community of pests, wherever applied.

Recently one of the outstanding athletes of Stratford High School died of polio. The entire community became aroused and wanted to do something before others were stricken with the dreaded disease.

Mayor J. R. Pendleton, Judge L. P. Hunter, Superintendent of Schools Elmer Wooten, and County Agent Jamerson held an emergency meeting with a state sewerage inspector, here to inspect a \$100,000, 57-block sewerage project. The inspector recommended the use of a good DDT solution spray. These officials met with F. L. Yates, Stratford druggist, and the group telephoned E. S. Craig, DDT distributor in Amarillo, for an emergency supply. Craig rushed several cases to the group within two hours. Everyone in the community began spraying. Heavy coats of the solution were spread over the school buildings, court house, post office, theater interiors

and around all outside points where insects might breed. Individual residents pledged to cover their premises completely. The whole job was completed within an afternoon, Yates said.

One other community, in the Gulf Coast area of Texas, used DDT as a spray against mosquitoes. So far as is known, however, Stratford is the first community to apply such a solution throughout the town through a volunteer effort, and by hand.

Mr. and Mrs. R. T. Morrow and family visited with friends in Haskell last Monday night.

Mrs. G. W. Gardner of Fort Worth, Mrs. Kate Mahoney of Dallas and Mrs. A. F. Minton of Red

Springs spent the week end visiting in the home of Mrs. Frank Bowley.

Mrs. Freddie Glover and son, Carroll, of Benjamin were business visitors here last Monday.

Willard Reeves, who is in naval school at Georgia Tech, Atlanta, Ga., came in last Sunday and spent the first of this week here with his parents, Mr. and Mrs. J. E. Reeves, and with other relatives and friends.

During  
*Planning Stage*  
is the time to decide on house heating

Building a new home or bringing an old one up to date with a remodeling job requires many decisions in the planning stage. Probably none is more important than deciding on the method of heating the house since heat is so essential to comfort and health.

Whether you decide to heat your new home with floor furnaces, circulating heaters, gasteam radiators or a combination of these, or with a central furnace, the location of the equipment should be determined during the planning stage of the house so the necessary flues for venting the equipment can be shown in specifications and on plans.

The new gas heating equipment for venting to a flue will be coming off production lines in substantial quantities by January. So there is time to carefully plan with your architect or builder the heating of your new home. It is most important to plan heat as part of house if sought-after natural gas heat is to be enjoyed at its best.

## VENTING

Heating Appliances to a flue prevents wall sweating and eliminates stuffy air

## Mexican And Texas Youths To Tour Texas

COLLEGE STATION.—Youth of Mexico and Texas will cement good neighbor relations in a 12-day joint educational tour of South, central, North and West Texas.

According to an itinerary released by Director Ide P. Trotter of the A. and M. College Extension Service, 12 students of the National School of Agriculture of Mexico and 14 members of Texas boys' 4-H clubs will meet at Laredo on November 3 and live and travel together until November 15.

The tour will be sponsored by the Foundation of a nation-wide merchandising company in cooperation with the Texas Extension Service. The visit of the Mexican students is a good will response to one made by 24 Texas 4-H Club to Mexico last May 28 to June 7. On that occasion the Texas club boys were guests for a day of the students at the School of Agriculture,

## Show Judge

D. Burns, general manager, Pitchfork Land & Cattle Co., Guthrie, will judge breeding classes of Herefords entered in the Greater Pan-American Hereford Exposition at Dallas Nov. 9-18.

Mrs. James A. Rayburn and Mrs. John King and little son, Mike, of Wichita Falls visited with relatives and friends here the first of this week.

and a group of English-speaking students remained with the Texas visitors during a four-day stay at Mexico City.

The Mexican students chosen for the tour were selected on the basis of scholarship, leadership, and character. They are: Velasco Sanchez Juan, Vezquez Jesus Munoz, Cattoneo Aldo Artega, Martinez Basilio Rojas, Leon Panfilo Rodriguez, Gonzalez Enrique Tamez, Leal Gonzalo Barragan, Ochoa Rogelio Espinosa, Jimenez Mauro Palomares, Sandoval Antonio Rois, Gussies Pablo Ruiz, and Bilia Gumersindo Bargo. They will be accompanied by Luis Mae Sinta, secretary of the National School of Agriculture, and Ramon Fernandez, professor of agricultural economics and Manuel Rosello Duhagon, professor of agricultural engineering.

The 12 Extension Service districts of the state will be represented by one 4-H Club boy each. Two additional boys, Dietrick J. Gember of Bexar County, and Billy P. Hancock of Hall, were added because of their leadership during the Mexican tour. The district boys are: Eason Williams of Hutchinson; R. B. Jones of Yoakum; Ernest Mark of Baylor; Billy Clyde Davies of Hunt; Billy Joe Byrd of Morris; Frank Robbins of Upton; J. Joe Hoelscher of Runnels; Alvin Ray Hoppe of McLennan; Bobby Martin of Jefferson; Humberto Reyes of Goliad; Ernest Westreck of Brazo; Roy Harnicky of Jim Wells.

The tour will include the Lower Rio Grande Valley, the King Ranch San Antonio, Austin, College Station, Dallas, Fort Worth, Abilene, and San Angelo.

## Hereford Show At Dallas Will Attract Many

Statewide participation has been assured in the gigantic livestock parade which will open the Greater Pan-American Hereford Exposition in Dallas on Nov. 9, it was announced Wednesday by Delmo Johnson and Carl Sewell, Dallas businessmen who are serving as co-chairman of the parade committee. John W. Carpenter, president, Texas Power & Light Co., is honorary chairman of the committee.

Every community in Texas has been invited to join in the parade. Cities and towns which have not yet arranged for participation were urged by Johnson and Sewell to send delegations appropriate to the spirit of the occasion.

Hundreds of horsemen and horsewomen, wearing frontier western clothing, will ride in the colorful pageant. Yoked oxen, special horse sections of palominos and paints, old-time western vehicles, and floats illustrating frontier ballads will be included in the parade. New style and old style Texas Rangers will participate.

All parade participants will be guests of the Exposition at a chuckwagon barbecue feed, to be held at the State Fair Grounds immediately following the march.

D. Burns, general manager, Pitchfork Land & Cattle Co., Guthrie, will judge the breeding cattle entered in the Exposition, according to an announcement by Jack Frost, Exposition president, and Lloyd Wheelock, president of the Texas Hereford Association. Capt. Robert B. Tate, Nolan County farm agent before entering the Army, will judge entries in the Junior Cattleman's Baby Beef Show.

The Baby Beef Show will be judged Saturday morning, Nov. 10. Breeding animals will be judged Monday and Tuesday, Nov. 12-13.

A premium list of \$20,000 makes the Greater Pan-American Hereford Exposition, to run through Nov. 18, the world's oldest single breed livestock show of 1945.

An International Championship Rodeo will be held, and strenuous competition is promised by Alex Mickle, Exposition executive director, in the four contest divisions. Some of the nation's best known bronc busters, bull riders, calf ropers and bulldozgers will be entered in the competition. In addition, champion cowboys and special performers from this country, as well as from Canada, Mexico, and South and Central America, will appear at the 12 rodeo performances.

Fred F. Florence, president of the Republic National Bank, is chairman of the Exposition's board of directors. Other members of the board and of various committees include a long list of the leading citizens of Dallas.

### COTTON INSULATION

Memphis, Tenn.—The postwar construction boom is expected to create a new major market for American cotton in the form of building insulation, the National Cotton Council reported today.

Government officials who have tested the new flame-proof cotton insulation estimate that the current popularity of insulated homes and buildings could create a peacetime demand for 500,000 bales of cotton a year for insulating purposes. Before the war only automobile tires used more than that amount annually.

Cotton insulation was developed in 1940, but its manufacture has been limited by the war. Tests show it to be the lightest and most efficient of all commercial insulating materials.

Mr. and Mrs. J. E. Reeves and son, Perry, spent last Sunday in Fort Worth and Denton, visiting with relatives. In Denton they visited with their daughter and sister, Miss Joan Reeves, who is a student in T. S. C. W.

### RUPTURE

SHIELD EXPERT HERE  
H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Kemp Hotel, Wichita Falls, Friday only, Nov. 2 from 9 A. M. to 4 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

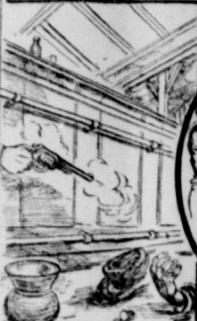

Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago, 45. Large incisional hernia or rupture following surgical operation especially solicited.

## Why Fats Are Necessary In A Good Diet

Edible fats are still on the short side of the food picture, and it is important that we use them wisely. Because of the vital part they play in maintaining adequate nutrition, there are great demands on the world supply of these foods, says Jessie Cline, home economist.

Just why is fat a necessary part of the diet? We all need to obtain energy from our food. As a source of heat and energy, fat has no equal; it supplies more than twice as much as the same amount (in weight) of protein, starch or sugar. Moreover, fat is an essential part of body tissues, especially brain and nerve tissues. For these two purposes, a certain amount of fat is necessary. The equivalent of about 6 tablespoons of fat per day is considered by scientists to be a minimum requirement for the ordinary civilian.

If we eat a generous amount of fat, we need less thiamine, or vitamin B1. Fat also helps the body to absorb and use the fat soluble vitamins, of which vitamin A is one.

There are certain substances in fats, called unsaturated fatty acids, which are essential to good nutrition. They particularly affect the health of the skin. Meat fats and lard are relatively rich in these substances, so they are especially valuable in the diet. In fact, lard has been used in the scientific treatment of certain types of eczema cases with remarkable results.

Lard is 100 per cent fat; hence it is a very concentrated source of energy. Lard is easily digested and almost completely used by the body. And it has the added advantage of being an economical, all-purpose cooking fat.

A Want Ad In The Times Pays

## New Container To Be Used For Air Express

DALLAS.—Development of a free-fall cargo container which will be useful in delivering air express freight to small towns and communities not equipped with airport facilities is revealed in the U. S. Steel News, employee publication of United States Steel Corporation subsidiaries.

In a "now-it-can-be-told" article entitled "Boxes From Heaven," the magazine relates the contribution made by the Corporation through one of its subsidiaries, the Gerrard Steel Strapping Company, in fashioning used by the army to drop supplies without aid of a parachute.

Although the box is made of wood, it is made of steel strapping that makes it impact proof. The steel has sufficient elasticity to absorb the shock of the fall without breaking.

When dropped from great heights, the box does not crack open or explode, although it sometimes rebounds from the ground as much as 30 feet.

The box, equipped with a wire cutter which enables it to be opened in 22 seconds, was used by the army to deliver such varied articles as gasoline, ammunition, food, medicine and rifle parts.

"Boxes Away!" may well become the slogan of a peacetime bombardier, since the container in effect will place all towns on an air express line. The box also will be invaluable in dropping supplies to isolated communities in time of floods or forest fires.

Gilbert Myers, who is serving in the Navy, and his wife and two daughters, who are making their home in Denton, are here for a visit with Gilbert's parents, Mr. and Mrs. Rob Myers.

Mr. and Mrs. J. W. Roberts visited with relatives in Haskell last Sunday.

## Many Items Added To Our . . .
