

## Kracker KrumbS

Odd Bits Salvaged  
At Random

Weather Report: Isn't it the  
darnest thing you ever saw?

Here several weeks ago we  
were fussing about the dry  
weather and sand storms. It  
looked like the dust bowl days  
were coming back.

We needed moisture for wheat  
crops, water for livestock, water  
for water supplies in many  
towns—in fact, we needed moist-  
ure.

We opined that "winter moist-  
ure" was what we made a crop  
on, here in Knox county, and we  
hadn't had any winter moisture.

It looked like that "other de-  
pression" was headed right to-  
ward us, with not much chance  
of us getting out of its path.

A crop failure on a high priced  
lease would wipe many farmers  
out completely, and with them  
wiped out, the rest of us were  
same as gone.

Cattle men couldn't graze their  
cattle on wheat fields. Wheat had  
rooted so shallow, the cows would  
pull it up by the roots. And wheat  
wouldn't grow off without moist-  
ure.

"I'll tell you, if it doesn't rain  
pretty soon, us farmers are  
gonna get mighty blue," one  
fellow said to us recently.

We needed moisture in the  
form of rain, sleet, snow, or hail.  
We needed moisture in any form.  
We needed moisture, period.

And then it came! And in a  
couple of days, the cowmen were  
battling icy highways and coun-  
try roads, trying to get feed to  
their cattle. It was a freezing  
rain, if you remember.

Cars couldn't be controlled on  
the ice. Calls came to the oil  
mill for cattle feed, and folks  
there were afraid to put their  
trucks out on the road.

When walking, people couldn't  
keep their upright positions. We  
"busted" ourself one morning,  
right in our front yard. But we  
didn't suffer any ill effects.

But others did. Some crippled  
around for several days. Doctors  
did X-rays on a number of  
others who were injured in falls.  
Some went to the hospital, others  
were confined to bed.

Telephone and electric lines  
were broken by the heavy cost  
of ice, and maintenance crews  
had a terrible time making re-  
pairs and trying to keep up com-  
munications.

All communications were cut  
off in many places. Dr. Newsum's  
short wave set kept us in touch  
with the outside world, and we  
were told later that one little line  
remained up between here and  
Quannah to keep the town in  
electricity.

The moderating period came  
after a few days, and the thaw  
revealed that we'd received 1.16  
inches of moisture. It was a life-  
saver!

Scarcely had we gotten com-  
fortable when some more rain  
and snow came. This gave us  
added moisture.

Then last week, it rained some  
more. By the end of the week,  
we'd begun to wish we had our  
drainage project completed, in  
stead of just having the bonds  
voted and sold.

Sunday, the clouds began  
drifting away. Old Sol came out  
in all his splendor, and a more  
beautiful day you couldn't ask  
for.

The Missus turned out the fire,  
opened the doors and windows  
and aired things out consider-  
ably. "We may have another spell,"  
she says, "but we'll get the house  
sweat dried out from this one."

Comes the news over our radio.  
Another blizzard is on its way—  
and the worst one yet. The day  
was to be nice and balmy that we  
kinda took the attitude of the  
little boy who sized up a giraff  
for the first time and says "I  
still don't believe it."

## Last Rites For T. J. Cartwright Held Tuesday

T. J. (Uncle Tommy) Cart-  
wright, pioneer resident of Knox  
county, died at his home in Al-  
pine, Texas, on Monday, Janu-  
ary 24. He had been in ill health  
for some time.

Thomas Jefferson Cartwright  
was born in Grayson county on  
May 14, 1863, and was 85 years,  
8 months and 10 days of age. He  
was married to Emma Jene How-  
ser in Grayson county in 1884.  
Their two children were born  
there. Ridley Francis died in in-  
fancy, and the other son, Perry  
V. Cartwright, lives in Alpine.

The family moved to Knox  
county about 1890, where Mr.  
Cartwright established the Bar-  
T-Bar Ranch. They moved to  
Brewster County in 1912, where  
he and his son, Perry, established  
the VT brand. He had been a  
member of the Highland Here-  
ford Breeders Association for 30  
years and acted on the board of  
directors for several years.

Mr. Cartwright joined the  
Baptist church at New Hope,  
Knox county, on October 7, 1894,  
and he was an ordained deacon  
in the Alpine Baptist church at  
the time of his death. He made  
the real estate exchange that  
made possible the Piasano En-  
campment Establishment.

He is survived by one son,  
Perry V. Cartwright of Alpine,  
and one sister, Mrs. Mary Bost  
of Howe, Texas. He was uncle  
of Louis Cartwright of Munday.

Funeral services were held at  
the graveside at Goree cemetery  
at 3:30 o'clock last Tuesday aft-  
ernoon, being conducted by Rev.  
S. E. Stevenson, pastor of the  
Goree Baptist church. Burial was  
in Goree cemetery.

## Instructors From Cottle County Visit Local Vets School

Reuben Tye, C. Roberts and  
J. D. Shumake, instructors in  
the Cottle County Vocational  
School for Veterans, were here  
on Thursday last week, visit-  
ing the various classes of the  
Knox county veterans school and  
observing teaching techniques in  
these classes.

They were accompanied here  
by Fred H. Brownlee of Child-  
ress, area T & I supervisor who  
makes regular visits to the local  
school.

These men complimented these  
classes very highly, and Brownlee  
stated that each of them have  
been making splendid progress.

## Drive Lags On March Of Dimes; Funds Needed

The one big job of our county  
now is to finish the "March of  
Dimes" with flying colors.

Although the campaign results  
have been slowed down by bad  
weather, there remains plenty of  
time to finish the drive with  
credit to the cause. Rev. W. G.  
Barr, county chairman, stated  
this week in speaking of the  
drive. He urges all people to re-  
member the great job they did  
last year in this drive and to do  
no less this year, because the  
need is greater.

The drive is scheduled to close  
January 31, but local directors in-  
dicted this week that the time  
may be extended in order for the  
community to raise its quota.

According to Reverend Barr,  
the following totals were raised  
in Knox county communities in  
1948:

Benjamin, \$135.08; Truscott,  
\$92.40; Gilliland, \$22.27; Vera,  
\$59.25; Goree, \$166.03; Munday,  
\$615.12; Rhineland, \$185.00; Sun-  
set, \$31.15; Brock, \$20.08; Knox  
City, \$804.93.

Gene Harrell, local director,  
and Winston Blacklock, publicity  
chairman, are exceedingly anx-  
ious that Munday shows the  
same good spirit that was shown  
last year in this great humani-  
tarian work. "Let us at least  
equal our record of last year,"  
they said.

A hen that lays 200 eggs a  
year puts about 14 times as much  
calcium into the eggs as she does  
her body.

ANOTHER TEXAS FIRST—To Mrs. Oveta Culp Hobby of the  
Houston Post goes the honor of holding the highest ranking title,  
ever accorded a woman in American journalism. She received the  
distinction when he was elected president of the Southern News-  
paper Publishers Association at the organization's recent convention  
in Florida. Mrs. Hobby, wife of Texas' ex-governor W. P. Hobby, is  
one of many nationally known personages who addressed the daily  
and weekly newspaper publishers of Texas on January 22 in Austin  
during the Annual Mid-Winter Meeting of the Texas Press Associa-  
tion.

## Winter Continues Its Icy Grip On This Area

### January 31 Is Deadline On Poll Tax Payments

Buddy Bumpas, tax collector,  
has announced that Monday, Janu-  
ary 31, is the deadline for pay-  
ing poll taxes for voting in the  
1949 elections.

Property taxes must also be  
paid by that time in order to  
avoid an added penalty.

Taxpayers wishing to pay poll  
taxes by mail may do so by send-  
ing \$1.75 for each poll tax and  
giving the following information:

Name; age; voting box; birth-  
place; number of years in state  
and number of years in Knox  
county; occupation.

### Meeting Slated To Form Cub Scout Pack At Benjamin

A meeting for the purpose of  
organizing a Cub Scout Pack and  
Boy Scout troop at Benjamin will  
be held at the Benjamin school  
building on Thursday night, Feb-  
ruary 3, it was announced this  
week.

Both mothers and fathers of  
children of Cub Scout and Boy  
Scout age are urged to attend  
this meeting.

Jimmie Hale of Wichita Falls,  
area field representative, will be  
present to answer any questions  
about the scouting program. Re-  
freshments will be served.

This will climax efforts to or-  
ganize the Scouts of Benjamin,  
which have been under way for  
some time, according to Edward  
L. Kirk, principal of the Benja-  
min schools.

Mrs. Al C. Williams announced  
Wednesday that she will present  
her piano pupils in a recital in  
the near future.

The elementary school pupils  
will be presented in a recital on  
Friday, February 4, at 7:30 p. m.  
in the school auditorium.

The public is cordially invited  
to attend this recital.

Be careful! Observe local and  
state traffic rules.

## Camera, Birdie Await Kiddies At Local Hotel

Your Child's Picture May Be  
Published In This Newspaper

February 2nd and 3rd are the  
big days for the picture taking  
of your youngsters! The Times  
is having pictures taken of all  
children who are brought by  
their parents or other guardian  
to the Yarbrough Hotel between  
10 A. M. and 6 P. M. absolutely  
free of charge. The Woltz Studios,  
of Des Moines, Iowa, nationally  
known children's photographers,  
will be in charge of the photo-  
graphy. The Times wants a pic-  
ture of your child to print in its  
forthcoming feature "Citizens of  
Tomorrow," a series of photo-  
graphic studies of local children.  
The more we get the better the  
feature will be, so the coopera-  
tion of mothers and fathers is  
urged.

It often seems to parents that  
children are little one minute and  
are grown up the next, so fast  
does a child's growing stage pass.  
Here is a splendid opportunity to  
catch a likeness of your child or  
children at this present stage for  
the pleasure you will enjoy in  
seeing it in print. You will want  
to clip it from this, your home  
town newspaper, and prepare it  
for the youngster when he or she  
grows up.

There is absolutely no charge  
or obligation for taking the pic-  
tures. Parents don't even have to  
be a subscriber to the Times, nor  
even a reader. You do not have  
to purchase pictures either,  
though you may obtain a limited  
number of additional prints by  
arranging direct with the Studio  
if you want them. That is entire-  
ly up to you! There is no age  
limit.

That children are looking for-  
ward to the fun, since our pre-  
vious announcement of this com-  
ing event, is shown in numerous  
instances.

## Throckmorton To Play Local Cagers Friday Night

The "Hounds" from Throck-  
morton will be here on Friday  
night of this week for an inter-  
esting conference basketball  
game with the Munday Moguls.  
Both cage teams are fast, and  
this game promises to be one of  
the most interesting ones of the  
season.

The game will start at 7 p. m.;  
Coach Billy Cloud said, and  
games will be played by both the  
A and B teams.

The Moguls defeated the An-  
son quintet on the local courts  
last Friday night by a score of  
45 to 25. McGraw was high point  
man with a total of 18 points to  
his credit.

The B team also defeated the  
Anson juniors, 24 to 11.

## Cancer Control Chairman

Karl Hohlitzelle (above) of  
Dallas has been selected state  
campaign chairman of the Amer-  
ican Cancer Society, Texas Divi-  
sion, for its annual cancer control  
month in April.

## LOCAL BOY TAKING PART IN MANEUVERS

Lloyd L. Reed, seaman, USN,  
son of Mr. and Mrs. John L.  
Reed of Munday, is taking part  
in cold weather maneuvers off  
the coast of Alaska while serving  
aboard the landing ship USS  
1122.

The operations will continue  
through January and February.  
Reed, who attended Munday  
high school, entered the Naval  
service October 23, 1947, and re-  
ceived his recruit training at the  
Naval Training Center, San  
Diego, California.

## Knickerbocker Sermon Sunday To Climax Methodist Drive On Church

### Ralph Tidwell To Be Honored In Memorial Stadium

STEPHENVILLE—Ralph Tid-  
well of Munday, former student  
of John Tarleton College who  
lost his life in World War II, is  
one of the 184 ex-student war  
dead who will be commemorated  
by the erection of a Memorial  
Stadium. He attended Tarleton in  
1942-43.

Sponsored by the Tarleton Ex-  
Students Association, a three-  
year fund raising plan, now in  
its second year, has raised approx-  
imately \$55,000 toward its \$100,-  
000 goal. The college recently ac-  
quired a 38-acre tract west of  
the present campus for the loca-  
tion of the stadium. A football  
field has been leveled and sodded  
in the new area and games will  
be played there next fall.

Plans for the stadium include  
a seating capacity of 8,000 with  
dressing rooms, showers, and  
other facilities located beneath  
the stands. The stadium is de-  
signed to accommodate agricultural  
fairs, livestock shows, and for  
general community use as well as  
to provide a place for athletic  
contests.

## Knox Voters Give Approval To Bond Issue

Very little opposition was  
shown to the \$25,000 hospital  
bond issue last Saturday, as Knox  
voters gave their approval of the  
hospital bonds by a wide margin.

In incomplete tabulation of the  
results gave the favorable vote a  
margin of 432 to 53, with only  
the small boxes at Brock and  
Hefner unreported since Satur-  
day's election.

Weather conditions have delay-  
ed the final count of the election,  
to decide issuance of \$13,000  
worth of bonds to retire an exist-  
ing indebtedness for recent im-  
provements and \$12,000 for addi-  
tional improvements. It was in-  
dicated that an official canvass  
of the election will be given by the  
Commissioners Court the latter  
part of this week.

The vote by boxes, as sent in  
under Knox City dateline and  
published in Wednesday's issue of  
the Wichita Falls Record-News,  
is as follows:

Munday 65 for and 24 against;  
Goree, 26 for and 14 against;  
Vera, 10 and 0; Benjamin, 43 and  
0; Gilliland, 9 and 0; Truscott, 23  
and 0; Rhineland, 11 and 0; Sun-  
set, 11 and 4; Knox City, 234 and  
4.

Members of the Commissioners  
Court said they believe with the  
new funds they can put the en-  
tire hospital in first class condi-  
tion, and that Knox county will  
have medical facilities second to  
none.

## G. C. Conwell Passes Away At 5 p. m. Wednesday

G. C. Conwell, 65, well known  
resident of Munday, passed away  
at the family home in Munday at  
about five o'clock Wednesday  
afternoon. Mr. Conwell had been  
in ill health for several weeks,  
but a brain hemorrhage which he  
suffered Wednesday was given as  
the immediate cause of his  
death.

Mr. Conwell had resided in this  
area for many years, and had  
been engaged in farming south-  
east of Munday until about four  
years ago when he moved into  
town. He was a member of the  
Baptist church.

Funeral services were incom-  
plete at press time Thursday, but  
they had tentatively been set for  
Friday.

Surviving him are his wife,  
Mrs. Celie Conwell of Munday;  
four sons and two daughters, who  
are: Carl Conwell of Bomarton,  
Floyd Conwell of Fort Worth,  
George and G. C. Conwell, Jr.,  
both of Goree, and Mrs. Clifford  
Cluck of Munday. Mrs. Lynn  
Cook, Bomarton. Other survivors  
include his mother and a half-  
brother, who reside at Azle.

The First Methodist Church  
financial campaign to raise \$15,-  
000 to complete funds for erect-  
ing a new church building will  
close with a sermon by Dr. Hu-  
bert Delaney Knickerbocker at  
the morning worship hour next  
Sunday.

Dr. Knickerbocker, who is re-  
puted to be the greatest finan-  
cier in the Methodist Church, has  
raised millions of dollars for  
schools, hospitals, and churches.  
His great lecture-sermons have  
completely revolutionized the  
lives of scores of churches to  
which he has delivered them, and  
his appearance in Munday cul-  
minates an eight-week program  
of fund-raising by local Metho-  
dists.

The First Methodist Building  
Committee headed by W. R.  
Moore Sr., includes J. A. Caugh-  
ran, M. F. Billingsley, J. C. Harp-  
ham, Oates Golden, and J. C.  
Borden. This group met recently  
and asked a Texas contractor, active  
in church building, for an  
early estimate on the construc-  
tion of the proposed church. Ac-  
cording to Rev. William G. Barr,  
pastor, this bid is expected for  
presentation to his congregation  
Sunday morning.

Because of Dr. Knickerbocker's  
prominence and the appeal of his  
personality and spiritual mes-  
sages to all persons, Reverend  
Barr cordially invites the public  
to attend this service. Music will  
be by the church choir under the  
direction of Mrs. Oscar Spann.

Those who have served with  
the pastor on the financial cam-  
paign include men, women, and  
youths of the church. A consid-  
erable sum of the goal has already  
been reached in this drive which  
has been directed by committees  
composed of chairmen Dwight  
Key, Mrs. J. C. Harpham, and  
Robert Green; and committee  
members including Mrs. Paul  
Pendleton, Moulton Wiggins,  
Scotty Ponder, Mrs. Herbert  
Partridge, Miss Barbara Barr,  
Harold Fox, Mrs. Travis Lee,  
J. K. Jackson, and Miss Joy  
Morton. Weekly recording of  
pledge fulfillments has been done  
by Mrs. Don L. Ratliff and Mrs.  
Howard Collins.

Highlighting the weekly ser-  
vices each Sunday morning since  
December 5, pep-talk speakers  
have included Melissa Lee, Har-  
old Fox, Mrs. H. R. Hicks, J.  
Walter Moore, J. C. Harpham,  
Mrs. C. P. Baker, James H. Bard-  
well, W. R. Moore, Sr., Lee Hay-  
mes, and Mrs. Fred Broach, Jr.

## Plans Being Completed For CDA Banquet

Plans for the Community Devel-  
opment Association's member-  
ship banquet, the first meeting of  
this type in some time, are going  
forward to completion.

The banquet will be held at the  
Munday elementary school on  
Thursday evening, February 3.  
The meal will be prepared in the  
school lunch room and served by  
members of the home economics  
classes.

An interesting program of  
songs, talks, reports and enter-  
tainment will be held. All mem-  
bers and their wives are urged  
to make plans to attend.

The feed and entertainment  
committee is headed by Winston  
Blacklock, who reports a good  
program under way. Ticket sales  
will be in charge of Paul Pen-  
dleton, who says some of the  
others are gonna help out.

Tickets will go on sale the  
latter part of this week. Directors  
of the C.D.A. are urging a full  
attendance of the membership.

## Knox County Man Is Flight Engineer On T. W. Airlines

John N. Therwhanger, native  
of Knox county and former resi-  
dent of Haskell county, has been  
named one of the 256 "aerial  
Howkshaws" who sit in the pilot's  
compartment of all Trans World  
Airline four-engine planes.

Known as flight engineers, the  
new technicians are flight liaison  
men between mechanical experts  
on the ground and pilots in the  
air. Their job is to check the safe-  
ty efficiency of all TWA planes  
and to make sure all planes are  
ready for flight before they are  
taken off the ground.

## The Munday Times

Published Every Thursday at Munday  
Aaron Edgar and Grady Roberts . . . Owners  
Aaron Edgar . . . Editor and Publisher  
Entered as second class matter January 4, 1919, at the postoffice in Munday, Texas, under Act of Congress, March 2, 1879.

### LOCAL NEEDS FOR 1949

We're pulling for these needs in 1949. What will the year bring?  
1. A modern street sweeper. Our paving cost us money, let's protect it!  
2. Paving of road through Rhineland, and definite progress on Throckmorton road.  
3. Completion of our drainage system. It's gonna rain one of these days.  
4. An adequate waterworks system. This is a must for the continued growth of Munday.  
5. Building of more housing projects. There continues to be a housing shortage.  
6. Recreational facilities for our youth of today—our citizens of tomorrow.

### GUIDE TO FIRE SAFETY

W. E. Mallalieu, general manager of the National Board of Fire Underwriters, recently announced that the 1949 edition of that organization's national building code has some off the press. It is to be distributed to municipalities, building officials, schools, libraries, and so on. The first code appeared in 1905, and this marks the sixth revision.  
The purpose of the code is to make our buildings safe, and it is a composite of the views and experience of fire protection engineers, the building industry, and others. In Mr. Mallalieu's words, "It is a practical approach to the building code problem because it will encourage a large amount of standardization; approved American standards and nationally recognized standards of trade associations have been widely used."  
The chief advance included in the 1949 code is an article requiring all existing buildings—no less than those to be built in the future—to conform to certain minimum requirements for safety to life. This is a direct outgrowth of the lessons learned by the terrible hotel fires occurring in 1946. A code which does not affect buildings erected prior to its adoption is seriously inadequate from the safety point of view.  
No community can afford to be without the most modern building code possible—and that code must be backed up by rigid, impartial enforcement. The National Board's new code is the best obtainable guide.

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.  
**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

**ALLAN SHIVERS SEES LEGISLATURE NEEDS**  
Lt. Gov. Allan Shivers did not attempt to steal the show from Governor Jester, but he did make a few observations out of the wisdom of his experience. It will be worth while to weigh his suggestions carefully.

Mr. Shivers looks on government as the biggest business in the state. He is right about that. He thinks that we must change our ways of handling that business. To that end, he proposes a legislature session every year. He wants year-round pay, with a legislature council in operation between sessions. He wants the legislature to be full-time men.

The Shivers plan will do much, to raise the dignity and prestige of the legislature. It puts the Legislature in position to act promptly and adequately upon the needs of the state. It maintains throughout the year the legislature check upon the judicial and the executive branches.

A compact, well-paid Legislature elected at separate (off-year) elections, so that the entire attention of the people can be centered on their choice, ought to become a body of enhanced effectiveness and practical leadership. And when that has been achieved, it will be safe and politically possible to take out of our Constitution some of our long and detailed enactments and transfer them to the books as statutes which may be amended by the Legislature as the changing conditions of Texas may require.

Mr. Shivers knows what he is talking about. He has hit on the No. 1 need for constitutional reform.—Dallas News.

Certain industries which could not begin to fill the demand a short while back—such as household appliances—have been cutting production. Even in the motor car field, where shortages have been intense, conditions are changing rapidly. Some types and models of cars—mostly in the higher priced brackets—are available almost immediately. The market for lowest-priced cars is still strong, but producers believe that an era when cars will have to be pushed to make sales, isn't far off.

Few seem to think a serious economic setback is coming in the near future. But the peaks are leveling off.

## Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., Jan. 22, 1949—So much has been said about the Inauguration this week, that our comment would probably be an anti-climax. The day before the Inauguration it rained. The day after the Inauguration it rained, but Inauguration day was bright and clear. Many wisecracks were made around the City about President Truman's luck and the fact that he continued to get the breaks. Someone even said they guessed "God must be a Democrat". The parade was by far the longest and most elaborate ever witnessed in the Capital City. It was more than five miles long and took more than three hours to pass the reviewing stand. More than 15,000 uniformed persons participated. There were 55 elaborate floats. Texas was represented in the Inaugural Parade by the Cavaliers of San Antonio and by a beautiful, gigantic float under-written and paid for by Mr. Wright Morrow of Houston. Riding on the float was three beautiful Texas ladies; Mrs. Lloyd Mentsen and Mrs. Tom Pickett, wives of Texas Congressmen, and Miss Evelyn Wilson, daughter of Mr. and Mrs. John Wilson of Wichita Falls, Texas. A million people watching the parade were also privileged to see a magnificent air show in which 615 of the Nation's latest and best planes participated.

Congressmen were limited to 7 seats at the Inaugural ceremony. We were happy to have tickets for the following persons: Mr. Ray Nichols of Vernon, Editor of the Vernon Daily Record; Mr. Riley Cross, of Denton, Editor of the Denton Record-Chronicle; Miss Louise Mason, of Vernon, who is a student in Washington, and her sister; Mr. Bill Booher and Mr. J. V. Boley, of Jacksboro; Mrs. Gossett and our oldest son, Glenn. During the last Inauguration in front of the capitol, in January, 1941, Glenn was an infant and still with his mother in the Garfield Memorial Hospital in Washington.

Some comment has been made around Washington about the cost of the Inauguration. The seats out in Capitol Plaza probably cost around \$5.00 each to build and of course were used only for this one ceremony. The Inauguration stands have been called "Curly Brooks Stadium", Curly Brooks being former Republican Senator from the State of Illinois who was Chairman of the Ar-

From where I sit... by Joe Marsh

### Who's A Foreigner?

While I'm waiting for a haircut the other day, Slim Hartman lets slip with a crack about those "foreigners" who live by the depot.  
"Now wait a minute, Slim," snaps Doc Sherman. "Don't forget we're all 'foreigners' more or less. Some of our families have simply been here longer than others. But even if they came over on the Mayflower, they were foreigners to the Indians."

Slim gets a little red and you could see that Doc had him. "And the reason they came here," he goes

on, "was to find freedom to do and think as they wanted to so long as they didn't tramp on the rights of the other fellow."

From where I sit, America became the great land it is today through our being tolerant of different people and different tastes—whether it's a taste for square dancing or waltzing, radio or movies, goat's milk or a temperate glass of sparkling beer.

### Uncle Sam Says

This Christmas, join the Payroll Savings Plan where you work and start your regular, automatic purchase of U. S. Savings Bonds. Or, if self-employed, join the Bond-a-Month plan where you bank. You should start filling those 1948 Christmas stockings now, so that ten Christmas from now you can fill your whole family's stockings, including your own. And you will be facing the future with security and confidence. U. S. Savings Bonds will open the door to future security and happiness.

**BUSINESS FAILURES**

AUSTIN—A total of 85 businesses failed in Texas during 1948, reports from Dun and Bradstreet to the University of Texas Bureau of Business Research showed.

For the year 1947, business failures totaled 55.

There were 10 business failures in December, 9 in November, and 6 in December 1947.

Average liabilities per failure were \$51,000, compared to \$33,000 in November, and \$11,000 in December 1947.

**Knox Prairie Philosopher Says Russia Is Wasting Time In Trying To Explain Our U. S. Economic System**

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is off on a deep subject this week, which he handles as adequately as he does a simple one, if you get what we mean.

Dear editor: I was getting ready to build a fire with a copy of the Dallas News the other mornin, as a sort of anniversary present for my wife, although understand this ain't no standard procedure and I don't have no intentions of edgin in on a woman's province and buildin a fire every mornin, when I noticed a interesting headline and tore that page

J. A.

off and when the room got warm read where Russia held a big meeting last week so its economists and other experts could explain why the United States hasn't had a depression recently.

Accordin to the article, the Russians are baffled over the lack of a depression over here, as their experts had told em we'd have one shortly after the war, and when a Russian official tells something to happen, it has to happen, or what does that make Stalin? But here the U. S. is, still boomn, and the Russians is hard-pressed to explain it.

Now it ain't my intention to be of any help to the Russians, but I don't mind sayin I don't see how on earth they expect to understand our economic system from way over there when we don't even understand it ourselves right here in the middle of it. We got all sorts of experts, and while most om em are pretty good at recognizin what's already taken place and can explain satisfactorily what happened after it happens, very few of em can tell you any more about what's gonna happen economically in the future than they can about which way a cat will jump, a woman driver will turn, or a politician will vote after he's elected. It is possible that the Russians

**Legal Notices**

**CITATION BY PUBLICATION The State Of Texas**

To: T. P. Brown, and the unknown heirs of T. P. Brown, Miles W. Jenkins, and the unknown heirs of Miles W. Jenkins, and all other persons owning or claiming or asserting any right or title to the land and premises hereafter described: GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of March, A. D., 1949, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas.

Said plaintiff's petition was filed on the 19 day of January, 1949. The file number of said suit being No. 4695. The names of the parties in said suit are: Annie Mae Johnson and Thurman Johnson as Plaintiff, and T. P. Brown, and the unknown heirs of T. P. Brown, Miles W. Jenkins, and the unknown heirs of Miles W. Jenkins, and all persons owning or asserting any claim to the land hereafter described as Defendants.

The nature of said suit being substantially as follows, to wit:

Being an action in trespass to try title to and concerning the following described land and premises, situated in Knox County, Texas, and being all of Lots Numbers Eleven (11), and Twelve (12), in Block Number One Hundred Twenty Seven (127), of the Reeves and Musser Addition to the town of Munday, Texas. Praying for rents, damages and costs of suit, as well as for title.

Issued this the 19th day of January A. D., 1949.

Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 19th day of January A. D., 1949.

Opal H. Logan, Clerk District Court Knox County, Texas

(SEAL) 26-4tc.

will finally attain the atomic bomb secret, but I doubt they'll ever understand our economic system. It ain't somethin to be figured out. Just somethin to be used and enjoyed.

At least, that's the way me and Henry Kaiser and Rocker, feller treat it.

Yours faithfully, J. A.

**Wage Statement Due With Returns On Income Tax**

The office of the Collector of Internal Revenue cautioned taxpayers today that income tax returns filed on either of the individual income tax forms could not be accepted unless statements of employers are attached.

The Form W-2, issued by all employers to their employees, can not be used as a return this year.

Instead, all persons filing individual returns must use either Form 1020-A or Form 1040. Form 1040-A should be used by all persons having income from wages or salaries not in excess of \$5,000.00. It can be used as a joint return of husband and wife. All Forms W-2 received from employers, for both the husband and wife, must be attached. The Collector's office will figure the taxes or refund due on these returns.

Forms 1040-A may be secured from employers, post offices, banks, and field offices of the Collector of Internal Revenue.

Persons having income in excess of \$5,000.00 must use Form 1040. If any income was from wages or salaries, the Forms W-2 must be attached.

Under present law, employers must give their employees their Forms W-2 not later than January 31, 1949.

Income tax returns received in the Collector's office without the necessary Forms W-2 attached will be returned to the taxpayers for correction.

T. J. Gaines of Marysville, Calif., spent last week end with his parents, Mr. and Mrs. R. L. Gaines.

Harvey Lee was a business visitor in Stamford one day last week.

Mr. and Mrs. Robert Boynton of Plainview visited in the home of Mr. and Mrs. G. W. Dingus and family last Sunday.

Ronald Foshee, who is attending A & M College, College Station, visited his parents and friends last week end.

price of paint is up as much as **65%**

yet natural gas service for homes is **less than prewar price!**

Above ground, underground and underwater, paint plays a vital part in your natural gas service. Thousands of gallons are used each year to protect and preserve all equipment.

The cost of paint, and the cost of labor to put it on, has soared.

So far... the Lone Star Natural Gas rates for homes, reduced in 1942, continue in effect.

Without leaving home you get a bargain buy with Lone Star Natural Gas Service. A penny's worth cooks a meal for three. It operates a living room heater 45 minutes. Or it heats enough water for two baths.

A penny spent for less-than-prewar-price Lone Star Natural Gas is the biggest bargain ever!

**LONE STAR GAS COMPANY**  
A Texas Corporation

Who gets him off to work—

Wakes him up

Tells him the news

Makes his coffee

Shaves his face

Washes his shirt

Presses his pants

—and does everything but kiss him good-bye?

His wife? ... Sure, she helped a lot—and she kissed him, too! But a co-star in this morning drama is Reddy Kilowatt, your electric servant.

All through the day, Reddy does so many jobs so quietly and efficiently you almost forget he's there. But try and live without him! Yet his services cost so little. As a matter of fact, electric service is by far the big-

gest bargain in your family budget. What else does so much—for so little?

No, Reddy Kilowatt mustn't kiss you. But he can do almost everything else!

## Mrs. I. V. Cook Is Hostess To Munday Study Club

Mrs. I. V. Cook was hostess to the Study Club when it met last Friday at the Study Club house. Program director was Mr. A. E. Richmond and was entitled "Community Welfare". Mrs. Richmond gave a talk on "Safety For All". And a very interesting discussion on "Do You Know Your Home Town", was given by Mrs. A. L. Smith. She brought pictures of the earliest business houses in Munday, along with interesting details. Mrs. Smith also brought some local papers, The Munday Times, dated as far back as 1907. Mrs. M. H. Reeves discussed medical current events. Following the program, the regular business meeting was held.

## Gilliland Club Meets In Home Of Mrs. Whatley

The Gilliland home demonstration club met recently in the home of Mrs. A. J. Whatley. The following answered roll call: Mmes. O. R. Miller, Charles Meek, Charlie Groves, Jim Cash, Homer Martin, Monroe Cash, A. J. Whatley, Hewett Simmons, J. R. Spivey, Earl Burgess, George Solomon, Omar Cure, John Thompson, Richard Winstead, Emil Navratil, Arnold Navratil, W. T. Cook, Glen McGuire, Alton Cook, Jim Welch, O. A. Burgess and John Jamison. Visitors were Mmes. Harvey James, Oscar Wilson, Dalbert Cook, May Reed, Doshia Reed and Jacky Horne. A test was given on parliamentary rules, and games were enjoyed by all. Mrs. Harvey Lee James was also honored with a bridal shower. The hostess served a delightful refreshment plate.

The next meeting will be in the home of Mrs. Monroe Cash on February 2. Everyone is urged to attend.

## Sunset Club Meets With Mrs. Roscoe Partridge

The Sunset Home Demonstration Club met Thursday, January 20th at 2:30 o'clock in the home of Mrs. Roscoe Partridge. The house was called to order by the president, Mrs. Roscoe Partridge. Roll call was answered by six members each answering with a special subject. Minutes of the previous meeting were read by the secretary, Mrs. Weldon Floyd. Opening exercise was the whole group repeating together "The Pledge To The Flag" and "The Club Prayer". A lengthy and interesting business session was held. The president appointed the standing committees for the year. The club worked up their club budget and club goals. Also Mrs. R. M. Almanrode gave an interesting discussion on the T.H.D.A. A donation of \$5.00 was voted to be given to the March of Dimes by the club. Delicious refreshments were served to Mmes. T. J. Partridge, Jerry Nix, R. M. Almanrode, Weldon Floyd, Joe Voss and the hostess.

The next meeting will be Thursday, February 3rd in the home of Mrs. R. M. Almanrode. Lyndol Smith, who is attending Baylor University in Waco, spent the week end here with his parents, Mr. and Mrs. A. L. Smith.

Mr. and Mrs. Raymond Long of Childress were visitors here Thursday, in the home of Mr. and Mrs. Ardell Speice. Mr. Long was also here on business for the Texas Highway Department.

Mr. and Mrs. Jack Cartwright and Frankie of San Antonio were here last Tuesday to attend the funeral of T. J. Cartwright.

Arthur L. Graham of Frederick, Oklahoma, was a week end guest in the home of his niece, Mrs. Ardell Speice.

## Wayne Blacklock And Miss Frances Perry Married In Haskell Ceremony

Miss Frances Perry, daughter of Mr. and Mrs. Hoyt Perry of Haskell became the bride of Wayne Blacklock, son of Mr. and Mrs. Ben L. Blacklock of Munday, at 4 o'clock Sunday afternoon, January 23rd, in the First Methodist Church in Haskell. Reverend Vernon N. Henderson read the double ring ceremony before an arch entwined with fern, and flanked by baskets of white gladiolus, palms, and floor candelabras with tall white tapers. The bridal aisle was marked with white satin ribbon.

A medley of love songs were played by Mrs. O. E. Patterson, organist, as a prelude to the wedding. Mrs. Patterson also accompanied Genelle Bailey, who sang, "I Love You Truly", and "Because". "Claire de Lune" was played during the ceremony.

The bride, given in marriage by her father, wore a gown of ivory Dutchess satin, fashioned with a bias-fold shawl around the shoulders, with seed pearl trim and full gathered skirt extending into a cathedral train. The bodice was buttoned down the back with tiny covered buttons. The long glove fitting sleeves extended into a point over the hand. Her veil of lace trim bridal illusion was held in place by a train crown of seed pearls. She carried a white Bible topped with a white orchid.

Following the old tradition, the bride wore her mother's diamond and pearl lavalier as "something old", her gown, veil, and satin slippers as "something new", her "something borrowed" was the white Bible, which belonged to the mother of the bridegroom. She wore a pair of blue garters belonging to her aunt, for "something blue" and a pair of pearl ear screws, a gift from the groom.

Amelia Perry, sister-in-law of the bride, was matron of honor. She wore a gown of aqua tafeta made with a fitted bodice, full gathered skirt and sweetheart neckline, and matching gauntlet. Her bouquet was of pink gladiolus. Laverne Kuenstler and LaVern Livengood were bridesmaids. They wore orchid gowns identical to that of the matron of honor. They also carried bouquets of pink gladiolus. Each wore mock veils of white net, held in place with tiny ribbon bows. Carolyn Lee Blacklock, niece of the bridegroom, was flower girl. Her dress was of pink taffeta identical to the other attendants.

Bob Haymes of Dallas served as best man. Ushers were Ray Perry and Don Perry, brothers of the bride, and Winston Blacklock and Lamoine Blacklock, brothers of the bridegroom.

The brides parents were host to a reception immediately following the ceremony at the Magazine Club. Miss Wanda Dulaney presided at the guest registrar. Mrs. Theima Bricker of Fort Worth, aunt of the bride, served

the cake and Mrs. Ruth Livengood, another aunt of the bride, ladeled punch. Other members of the house party were Miss Lucille Zelisko, Miss Mary Fowler of Lubbock, Miss Louise Livengood and Miss Mary Lou Kuenstler.

The brides table was laid in a beautiful lace tablecloth, lighted with tall white tapers, centered with a three-tiered wedding cake topped with a miniature bride and groom. Mrs. Ray Overton furnished music during the reception.

For a wedding trip to New Orleans, the bride chose a sugar-spun blue gabardine suit with white and elephant grey accessories, and an orchid shoulder corsage.

After their return from New Orleans, Mr. and Mrs. Blacklock will live in Abilene, where Mr. Blacklock is a senior student in Hardin-Simmons University.

## Miss Steedman Of Benjamin Married To Austin Man

Miss Anora Steedman, daughter of Mr. and Mrs. J. R. Steedman of Benjamin, and Mr. Rhea Merritt of Austin, son of Mrs. Merritt of Lockhart, Texas, were joined together in a double ring ceremony on Sunday, January 23, 1949. The wedding took place in the University Methodist Church in Austin, with Dr. Hall as officiating minister.

Jerry Merritt of Austin, brother of the groom was best man. Mrs. Winona Corbitt of Dallas, sister of the bride, was matron of honor. Other attendants were Badge Steedman, brother of the bride and Miss Ree Kinnidy of Austin.

The bride wore an aqua blue suit, with white accessories; her corsage was of orchids. The matron of honor suit and accessories were of grey, and her corsage was of pink carnations. Her attendant's suit was of wine, with pink and black accessories; her corsage was also pink carnations.

Mr. and Mrs. Merritt are both students of the University of Texas, and each lacks only a few hours having their degrees. Mrs. Merritt has been teaching in the Benjamin Public School during the first semester of this school year. Mr. Merritt is an Engineer of a Construction Company in Austin.

Among those attending the wedding were Mr. and Mrs. J. R. Steedman, and sons, Keith, Don and Badge, all of Benjamin; Mr. and Mrs. Bill Steedman of Fort

MRS. WAYNE BLACKLOCK

Worth; Mr. and Mrs. J. R. Steedman, Jr. and children, of Wichita Falls; Mrs. Winona Corbitt of Dallas; Jerry Merritt and Miss Ree Kinnidy of Austin; Mrs. Merritt of Lockhart and other relatives and friends. The bride and groom left immediately after the wedding ceremony for a trip into Old Mexico. Upon their return trip, they will make their home in Austin.

## Sorosis Club Meets Thursday In McGaughey Home

The Benjamin Sorosis Club met Thursday January 20th at 3:00 p. m. in the club room in regular meeting with the president, Mrs. M. D. McGaughey, presiding. During the business session the club voted to make a donation of \$10.00 to the March of Dimes.

A special committee composed of Mrs. Oran Driver, Mrs. Lee Snailum and Mrs. Allie Moorhouse was appointed to see that work on club room was finished

and see about getting a new stove for the kitchen.

Mrs. Hebert Sams will order All Occasion Cards for the club to sell for the purpose of making some money for the club.

The resignation of Mrs. G. H. Hudson was read and accepted. "Know Your Neighbor" was the program topic for this meeting with Mrs. J. W. Melton as leader. The following program was enjoyed by all.

Music: "La Paloma"—Mrs. Jack Idol.

Canada—Economic and Social Conditions—Mrs. J. W. Melton. Films: "Mexican Moods" and "People of Canada" were shown by Miss Eudora Halcomb, of Abilene, Texas. The showing of the films was a courtesy of the West Texas Utilities Company.

The hostesses, Mrs. O. W. Driver and Mrs. Lee Snailum, served refreshments to sixteen members and one visitor. Club adjourned to meet again February 3rd.

**Social Security Card Necessary For Every Employee**

"Going to work on a new job without showing your social security card to the employer is as big a gamble as putting money in a bank without giving your name," says Erton F. Tate, manager of the Wichita Falls social security office, "your wages can't be posted to your Old Age and Survivors Insurance account, just like your money can't be credited to your account. And the chances are that your Federal insurance account is more valuable than your bank account."

"Every three months," Tate says, "your employer must report your wages to the Social Security Administration to be posted to your Old Age and Survivors Insurance account. He must show the number of your account on the same line with your name and the amount of wages he had paid you. The number on your social security card is the number of your insurance account. If you don't show your card to your employer, he can't have your account number on his report. And you can't get credit for your wages."

"You want to be certain that all of your wages are posted to your account," Tate said, "because the retirement or supervisors benefits that you and your family will collect is a percentage of the wages that have been entered into your account. The way to assure that all of your wages will be posted is to show your social security card to each employer at the time that he puts your name on his payroll."

"Ma" Eiland left on Wednesday of last week for Galveston, where she is visiting her son-in-law and daughter, Mr. and Mrs. B. F. Hood, and their children.

**Rebus Mayfield Buried At Weinert Last Saturday**

Funeral services for Rebus Lee Mayfield, 14, were held from the Baptist church in Weinert at 2:30 last Saturday afternoon, with the pastor, Rev. Walter Copeland, officiating. Burial was in the Weinert cemetery.

Young Mayfield passed away Friday morning in an Abilene hospital, after a long illness. He is survived by his parents, Mr. and Mrs. Clyde Mayfield of Weinert; two brothers, Cogdell Mayfield and Tiffen Ray Mayfield; one sister, Couill Mayfield and two grandmothers, Mrs. Lura Mayfield of Weinert and Mrs. R. B. Guess of Haskell.

Miss Polly McBeth was a business visitor in Fort Worth and Dallas the first of this week.

Mrs. M. C. Hallmark and Sue visited Mr. and Mrs. Don Phillips and children in Plainview last week end.

**"Courtesy" Given As Good Method To Reduce Accidents**

What can drivers do to reduce their chances of collision on the highway?

In a single word the answer would be, COURTESY. That's the belief of George Clarke, managing director of the Texas Safety Association.

"All rules of the road boil down to this fundamental concept—courtesy," said Mr. Clarke.

"The biggest collision-maker we have on the highway today is the fellow who refuses to yield right-of-way," he declared. "Yet the simple exercise of courtesy could prevent most mishaps."

The Association is cooperating with the National Safety Council's safety education program for August, emphasizing courtesy and defensive driving. These rules were offered for life-saving on the highway:

Consider carefully the rights of others.  
Offer hand signals before stop-

**Terracing Gets Under Way In Knox County**

The terracing program is in full swing at this time, with terrace lines being run on all the following farms: H. E. Wall, C. H. Chaffin, Mrs. S. M. Clonts, and C. M. Conner. These farmers believe that terraces are necessary to hold what is left of their soil and to conserve the moisture to be used during the summer.

With the help of some legume crops in a good rotation, these farmers are on the way to improve their soil and to get the utmost benefit from the moisture that we get.

M. H. Mansfield says that his terraces, with the help of a cover crop of rye and hairy vetch, increased his production about 1/3 this last year. He also says that he loses very little water from his land, which is rather steep in places. Gullies which were deep in places are healing over in one year's time, so that trouble with machinery in crossing them is a thing of the past.

Mr. Mansfield worked his conservation plan out with the help of the Wichita Brazos Soil Conservation District and the Soil Conservation Service technicians.

ping or turning. Understand both local and state traffic laws.

Rely—not on HIS brakes, but on your own.

Take time to reach your destination safely.

Exercise reasonable judgement and common sense.

Stay within your own lane, except for passing.

Your courtesies will reflect in the attitude of others.

County Supt. M. D. McGaughey of Benjamin was a business visitor here on Wednesday of this week.

**BIRTH ANNOUNCEMENT**

Mr. and Mrs. Tommy Parkinson are the proud parents of a six and a half pound baby girl born in the Saint Ann Hospital in Abilene. The baby has been named Vickie Kay. Baby and mother are doing nicely. Mrs. Parkinson is a sister to Mrs. Homar Lain of Munday.

**BIRTH ANNOUNCEMENT**

Mr. and Mrs. E. C. Zeckser of Topeka, Kansas, are announcing the arrival of a son, Michael Charles, who was born January 15th in a Topeka hospital. The little boy weighed four and one-half pounds. Mrs. Zeckser is the former Mary Lois Beaty, daughter of Mr. and Mrs. G. H. Beaty of Munday.

**RETURNS FROM HOSPITAL**

Virgil Yost returned home from a Wichita Falls hospital last Sunday after undergoing an operation on last Friday. Reports are that Mr. Yost is doing nicely.

Mrs. A. V. Kemletz of Abilene is here, visiting her mother, Mrs. Roger Williams, and other relatives and friends.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

**AUSTIN**—Throughout America men and women have become conscious of the necessity for fighting the menace of venereal disease, and it is a matter of pride to public health workers that the entire nation now joins in the observance of National Social Hygiene Day, which is this year is dated February 2.

Dr. Geo. W. Cox, State Health Officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocozy Mount, and that a total of approximately 15,000 patients per year are being treated throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

In the past two years a blood testing survey of more than 80,000 Texans has disclosed that between seven and ten per cent of

that number had positive tests for syphilis and that a large majority of them did not know they had the disease and had never had medical treatment for it. This vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98 per cent of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until no longer infectious. A continuous educational program carried on by the State Department of Health is another effective means for controlling venereal disease among our people, and reducing the number of crippled, blind and paralyzed persons who are annually the victims of syphilis and other venereal diseases.

## 1948 Taxes Become Delinquent

## You're Cordially Welcome To These Church Services

### FIRST BAPTIST CHURCH

Huron A. Polnac, Pastor  
**Sunday School, 10:00 A. M.**  
**Morning Worship, 11:00 A. M.**  
**Training Union, 6:30 P. M.**  
**Evening Worship, 7:30 P. M.**

### FIRST METHODIST CHURCH

Wm. G. Barr, Pastor  
 Services Sunday January 30 at the First Methodist Church will be as follows:

**Sunday School At 10:00 A. M.**  
 Joel Massey is General Superintendent, and Earl McNeil is General Secretary. A full attendance is expected for this Bible study. Visitors welcome.

### Morning Church At 10:55 A. M.

A very unusual service is being planned, according to the pastor, Reverend Wm. G. Barr. "The service, he says, "will be interesting, entertaining and invigorating to both young and old." The speaker for the morning and evening hour is the Reverend Dr. H. D. Knickerbocker from Dallas. Dr. Knickerbocker is to arrive in Monday Friday to assist the pastor in making final plans for the Sunday service. "These services will be basically spiritual according to Reverend Barr, but will seek to put the spiritual and the financial together as big brothers in the final effort to conclude the building campaign successfully. And I urge our people to prove their love and interest in this thing by being present for both services." The public is invited.

### Evening Service At 6:00 P. M.

Dr. Knickerbocker will speak at the evening hour. The public is urged to hear this man of God in his witty, humorous, grace-

ful presentation of the case of Christ.

**Youth Fellowship At 7:00 P. M.**  
 Joy Morton is president. A good program is being planned.

### CHURCH OF CHRIST

#### THE CHURCH

When I stumble, she steadies;  
 When I fall, she lifts;  
 When I suffer, she consoles;  
 When I go down into the valley, she lights the way.

The church makes my community a better place in which to live. She has taught my civilization all it knows about honesty, love, truth, hope, and charity.—The Live Oak.

#### SUNDAY SERVICES

 Preaching ..... 11:00 A. M.  
 Communion ..... 11:45 P. M.  
 Bible Study ..... 6:30 P. M.  
 Preaching ..... 7:00 P. M.

#### WEDNESDAY

Bible Study ..... 7:00 P. M.  
**WELCOME TO OUR SERVICES**  
 D. L. Ashley, minister.

### CHURCH OF GOD

Everyone is cordially invited to attend services at the Church of God. Young people's endeavor, Thursday at 8 p. m.; regular services Saturday evening, 8 p. m.; Sunday school at 10 p. m.; sermon at 11. Evangelistic service Sunday evening at 8 o'clock.

H. E. Weatherby, pastor.

Mr. and Mrs. Donald Jolly of Fort Worth, Mr. and Mrs. Bobby Haymes of Dallas, Mr. and Mrs. Mack Haymes of Eastland and Mr. and Mrs. John Nobles of Big Spring visited their parents, Mr. and Mrs. Lee Haymes, over the week end.

## Speaker Rayburn Meets a Texan

Linda Brown of San Antonio, March of Dimes Poster Girl, makes herself at home on the desk of Speaker of the House Sam Rayburn in the Capitol at Washington. She greeted the Speaker after opening the 1949 Fight Infantile Paralysis drive during a call on President Truman in the White House. Linda is holding the Speaker's pipe and his pencil.

## Hybrid Corn Proves Superior To Other Varieties In Experiment Tests

Corn hybrids in Texas again proved their superiority over the best adapted open pollinated varieties last year, says E. A. Miller, extension agronomist of Texas A&M College.

In experimental tests and demonstration plots over the state, the hybrids came out on top. The Texas Agricultural Experiment Station recently released results of 1948 tests with various corn hybrids.

Here's what they found. The hybrids made even a greater percentage increase over native corn during the long dry spell last year than during normal years. This points out the fact that the hybrids are more drought resistant than the best native corn varieties. In these tests, says Miller, the new yellow Texas hybrids number 24 averaged 32.5 percent more than the highest yielding open pollinated variety. Hybrids 20, 18 and 8 made increases of 27.26 and 23 percent respectively.

In the white hybrids, the new Texas 11W averaged 21 percent more than the highest yielding open pollinated variety.

County agricultural agents reported 2,912 demonstrations by farmers with corn hybrids, and 2,199 by 4-H club boys with an average increased yield of 7.6 bushels per acre. This means a

25 percent increase over open pollinated corn, says Miller.

Some exceptionally high yields were made by both 4-H club boys and adult farmers. Among the club boys, some of the top yielders were John D. Alcorn, Leonard Ross and Dwyane Alcorn, of Harrison county with 100.6, 86 and 82 bushels respectively in the county contests. Julius Wayne Beckham and Milo Maness, Upshur county club boys got 94.5, 71.5 and 68.4 bushels in their county contest. James Ray Findley, Rusk county club boys, got a yield of 87.5 bushels, and Charles Bishop of Van Zandt county got 83 bushels. James Hobbs and Louis Muniza, club boys in the Wharton county contest, averaged 70 to 68 bushels respectively.

Among the high yields made by some of the adult farmers, there were 87 bushels by R. C. Kuldell, of Brazoria county; 84.5 bushels by R. E. Saxon and 83 bushels by R. E. Washburn of Henderson county in a 199 bushel per acre contest. J. K. Hodges, of Coryell county, averaged 75 bushels.

In Milam county, 50 4-H club boys averaged 23.5 percent more with hybrid corn than with native corn grown side by side with the same treatment.

Using experimental results as

a basis, these are the Texas hybrids to use in the following areas: over the entire corn growing region, Texas 24 is first choice; followed by Texas yellow hybrids numbers 20 and 12 in East Texas, and Texas yellow hybrids, 20, 18 and 8 in the blackland region and in the southern and western corn growing areas.

The white hybrids 11W and 9W have made the best record in the Gulf Coast Prairie. In the lower Rio Grande Valley, under irrigation, Texas Yellow 24 and Texas White 13W and 11W have made the highest yields of over 100 bushels per acre, says Miller.

So, if you're looking for higher yielding corn, try corn hybrids.

W. A. Spelce and son, Kenneth, went to Fredrick, Oklahoma Saturday. They were accompanied by Miss Stella Coffey, sister of Mrs. Spelce. Miss Coffey will spend some time there visiting relatives.

Mrs. Ralph Geddie of Lubbock was a visitor for a few days in the home of her parents, Mr. and Mrs. Stanley Wardlaw.

Mr. and Mrs. Tom Martin of Crosbyton spent the week end here visiting friends and relatives.

O. H. Spann, Jr. who is attending McMurry College in Abilene, spent the week end here with his parents, Mr. and Mrs. Oscar Spann. Jack Wheeler of Tulia, also a McMurry student, was a guest in the Spann home.

# FARM PROGRAM NEWS

from the County Agricultural Conservation Committee

The commercial family farm is still the chief unit in the U. S. Agricultural economy, reports the Department of Agriculture. In 1945, the year of the last farm census, these farms made up more than half of our farms, produced 70 percent of the total value of products, and provided homes for more than 58 percent of our farm population.

Large-scale-farms—businesses usually large enough to be operated chiefly by hired labor—made up less than 2 percent of our farms, and less than 4 percent of the farm people lived on them; these farms accounted for almost 22 percent of the gross value of farm production.

At the other end of the scale, 26 percent of our farm populations lived on 1 and one-half million small units—mostly part-time and residential—which contributed about 3 percent of the total value of all farm production. In addition, there were nearly a million small scale farms which contributed little to commercial agricultural production.

Many people have been alarmed about the tendency toward larger farms over the last quarter-century. Evidence indicates that the medium and large commercial family farms are competing successfully with larger units, but the almost one million

small-scale farms—turning out products valued at from \$500 to \$1,200 a year—provide the "toughest problem."

A survey of 49,000 persons owning farm land, conducted by the Department's Bureau of Agricultural Economics, shows that about 87 percent of all farm lands in 1945 was held by individuals and the remaining 13 percent was owned by corporations, partnerships, or public agencies.

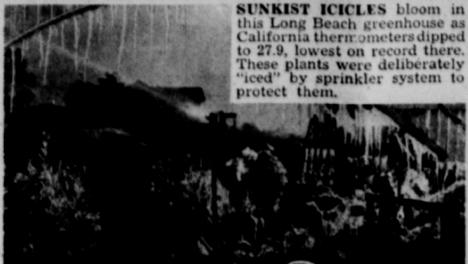

### Reserves In The Soil

With reserves of a number of crops beginning to pile up in bins and warehouses it is time to speed up the building of reserves in the soil, says B. F. Vance, Chairman of the Texas PMA Committee.

As the chairman explains, wartime production and demand since the war have encouraged heavy cropping of some land that should be going back into a rotation of grass and legumes, he advised.

Although the record crop of 1948 indicates that the farmland of America is strong and that it has the productive capacity if properly handled, a check of individual farms and fields within farms shows a definite need for conservation. There is too much sheet erosion—washing away of the topsoil—too many little gul-

## People, Spots In The News

lies starting and signs of breaking down of the soil structures. Year after year of cropping—plowing, seeding and cultivation—has been destroying the humus in the soil. The granules of soil are breaking up so that wind and water can easily carry away the soil particles, and it is the best part of the soil that is carried away.

It is not too early, the chairman points out, for farmers to begin thinking of crop adjustments to avoid unbalanced production—too much of one crop and not enough of another. Fortunately such adjustments fit into a program of soil and water conservation. With full bins and cribs of wheat and corn, less land will be needed to produce these crops and more land can be devoted to the production of pasture and hay. These crops restore humus and improve the soil, which in turn are effective in controlling erosion.

The chairman suggests that farmers talk over their production—conservation problems and plans for 1949 with their county Agricultural Conservation Committee during the winter months. Lists of practices to meet local needs have been drawn up for the 1949 Agricultural Conservation Program and are now available to farmers.

Mrs. T. J. Mitchell left last Sunday for Palo Pinto to spend sometime with her sister, who is ill.

**BOYCE HOUSE**  
Gives You Texas

Courage of the highest order was manifested on the Texas frontier by Judge W. C. Linden, venerable attorney, now living in San Antonio. The Bar of the Hill Country has paid him a great tribute (quoted in part): "First becoming county attorney of Llano County, he was soon elected district attorney. The noted San Saba Mob organization was at the height of its power. Its influence was formidable indeed; its members and sympathizers, extensive. Many were falling victims to its lawlessness and violence. Nighttime homicides were common. Intimidations, extortions and kindred crimes were rampant. Young Linden (this was in the 1890's), with characteristic zeal and energy and in utter defiance of danger, entered into the prosecution of these gentry. If he ever felt the sensation of fear, it was never manifest.

"Many instances of his prosecutions and convictions of these criminals are yet recalled and retold by old-timers. One instance is where a known sympathizer of the mob was being prosecuted and its various members had assembled in the courtroom to overawe court and juries. Linden, asking indulgence of the court, in his argument to the jury, called

the names, pointed out, one by one, these mobsters, relating to the jury their respective connections with the mob and its sundry murders and the evidence he had against them, and concluded by plainly telling the jury that, while his evidence against this accused was ample to warrant conviction, he apprehended that these evil influences about might restrain a jury from doing its duty.

"Concluding his address, he left the courtroom for his hotel. Encountering on the nearby corner, a collection of those mobsters awaiting him, he deliberately drew his pistol, calmly remarking that he was there to do his duty and no influence could deter him; that they might 'get' him but they knew he would get some of them first, and telling them to have the man posted a short way down the street with his gun to put it away, he passed them and walked deliberately to his hotel where, in a short time, came the message that the jury to the surprise of all, had convicted the accused.

"The influence of the able and fearless Lindon, as district attorney, accomplished more than all other agencies toward the breaking up of the notorious San Saba Mob, a service within itself never to be forgotten in the annals of the Hill Country administration of justice."

# Veterans' News

The next few years will see an increased demand for college graduates in the fields of medicine, psychology, kindergarten and elementary school training and certain phases of electricity. At the same time, competition will grow keener for positions in the fields of engineering, chemistry, pharmacy, law and personnel relations.

These conclusions were contained in a study prepared for the Veterans Administration by the Occupational Outlook Service, Bureau of Labor Statistics, U. S. Department of Labor.

The study is being used by VA advisement and guidance officers as an aid in counseling disabled veterans planning to take educational and training courses.

Veterans enrolled under the GI Bill in on-the-job training courses or in schools below the college level who desire leave of absence, should apply for it at their training establishment or school, and not at the Veterans Administration.

In the past, these veterans were required to make application at the appropriate VA regional office. Now, they must obtain approval from their employer-trainer or school official before going on leave.

Absence leave is provided only in cases of emergency.

Leave is accrued at the rate of two and one-half days a month throughout training—including that time during which the veteran is on approved leave of ab-

sence. However, it may not be accrued beyond 30 days.

Veterans training on-the-job or in below-college-level courses under Public Law 16 (for the disabled) must continue to apply for leave at VA.

Questions and Answers  
Q. Who chooses the institution or establishment in which a veteran trains?

A. For vocational rehabilitation training under Public Law 16, VA selects the facility with concurrence of the trainee. Under Public Law 346 (GI Bill), the veteran chooses the training institution, but may have the guidance of VA if he desires it.

Q. Will Veterans Administration accept collect telephone calls from physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A. Yes.  
Q. Does my converted National Service Life Insurance have a cash surrender value?

A. Yes. All converted policies have cash surrender values, paid up insurance and automatic extended term insurance values, together with policy loan provisions, effective after the policy has been in force one full year.

Q. Is VA pension, compensation, or retirement pay reduced during hospitalization for veterans who have dependents?

A. T. It is not, provided the necessary proof of relationship has been established. Veterans should make certain that such proof is established promptly. Any additional allowance or increased compensation for aid and attendance, however, will be discontinued upon hospitalization.

Kelton Tidwell of Camp Hood, Texas, visited his parents, Mr. and Mrs. Buck Tidwell, over the week end. Mr. Tidwell took him as far as Abilene on his return to Camp Hood last Monday.

## Progressive Farmer Names Don Jones As "Texas Man Of The Year"

The state's great crop—cotton—is at the crossroads. If its growers can cut costs by putting steel hands to the jobs that human brown now performs, cotton will continue to hold its important place on Texas farms. This month we honor as our 1948 Man of the Year in Service to Texas Agriculture, the man who has led the way in West Texas in mechanizing the cotton crop. Don L. Jones, superintendent of the Texas Experiment Station at Lubbock.

Commenting on the award, Dr. R. D. Lewis, director of the Texas Station, says: "It is no mere coincidence that Don Jones has been a real leader of agricultural research on the High Plains, and that that section now shows the highest degree of mechanization of the cotton crop of the world. Through his vision, his confidence, his faith, his hard work, and his sound judgement have come many of the ideas and mechanical developments and cultural procedures that have led to this high degree of mechanization. "Naturally, we are pleased that you have chosen one of our staff members for an award of outstanding service to Texas agriculture. Don Jones fully merits such an award. And in honoring him, you give encouragement and stimulation to the other research workers in Texas agriculture."

Don Jones has found that mechanical harvesting of cotton serves two important purposes on the South Plains. First, it cuts the cost of producing the crop. "This station recognized early the importance of mechanical harvesting to this area," says Jones. "Our harvesting costs me about 50 per cent of the total production costs." Moreover, it speeds up the harvest. This avoids the heavy loss in grade that occurs when cotton remains in fields.

Jones has tackled the problem from three angles: First, the development of power-driven strippers to cut down costs and hasten the harvest. This avoids the heavy loss in grade that occurs when cotton remains in fields.

Jones has tackled the problem from three angles: First, the development of power-driven strippers to cut down costs and hasten the harvest. Second, stormproof types of cotton to make harvesting easier and to give higher quality cotton. And, finally, chemical defoliation for the same purposes. "We soon recognized the importance of defoliation in the mechanization picture," says Don. "By defoliating the leaves, much better grades were possible. We started our defoliation work in 1943."

In addition to his work with cotton, Don Jones has had a part in the breeding of combine varieties, which has led to the amazing development of grain, sorghums as a commercial grain crop. He has also been ready with information about irrigation of cotton and grain sorghums and other crops as irrigation wells began to spring up all over the South Plains shallow water belt.

It seems to us that, perhaps, this one characteristic—foresight—is most responsible for Don Jones' valuable contribution to Texas agriculture. He has been able to look ahead with remarkable clarity and plot the trends of South Plains agriculture. He has then directed the work of his station in such a way as to be ready with vital research information when farmers needed it. He has kept up with—in fact, been out in front of—the rapidly changing Plains agriculture.

Don was born in Wisconsin in 1892. He had 35 years academic training at the University of Wisconsin. His first job in Texas was on the Lubbock Station from 1917 to 1923 as scientific assistant. From Lubbock, Jones went to Chillicothe, where he was superintendent of Substation No. 12 from 1923 to 1925. Since 1925, he has been superintendent of Lubbock station.

Don Jones married Lottie B. Drennan, August 11, 1931, at

Lubbock. They have three children—Don L. Jones, Jr., Nancy Ann Jones, and Charles R. Jones—all of whom are attending school and living at home.

The Progressive Farmer believes that in making this award to Don L. Jones, it is recognizing the achievements of an agricultural worker who has made an outstanding contribution to the state.

Mrs. Jack Tidwell returned home last Friday from a Wichita Falls hospital, where she had been undergoing treatment for several days. She is reported to be doing nicely.

Mrs. C. P. Baker and Charles Baker were business visitors in Fort Worth over the week end.

Miss Bobby Whitworth and Miss Kay Hallmark of Hardin-Simmons University, Abilene, visited Miss Whitworth's parents, Mr. and Mrs. Tuck Whitworth last week end.

**High Speed Roll-Over Tests Car Body**

The accompanying photographs show the culmination of a grueling series of tests conducted by Fisher Body engineers on a new car body before it is placed in production.

The car was rolled over at 50 miles an hour on a special course at the General Motors Proving Ground. Towed by another car, the test model automatically unhitched itself as it went up and over a ramp, hurtling through the

air 45 feet before hitting the ground.

In this test, the car rolled completely over and was driven off under its own power. Not a single pane of the safety plate glass was cracked. The test was made purely as an experiment to see how the new body by Fisher withstood the shock of being turned over at high speed.

Fisher Body engineers made high speed movies of the entire sequence to study in detail how the body resisted the shock.

**SUPER-SURE-GRIP**  
**TRACTOR TIRE**

Come in and inspect this new tire that Goodyear has specially designed for tough traction jobs. Take a look at its massive structure and estimate the length of the tight-twisted cord that makes it super-strong in body.
