VOLUME 46 MONDAY, KNOX COUNTY, TEXAS, THURSDAY, MARCH 15, 1951 NO. 33

Kracker Krumb's Odd Bits Salvaged At Random

Had a discouraging letter recently from our paper supply house, the contents of which we quote you.

"We have been notified by our source of supply of news print that due to present conditions, over which we have no control, we can expect to receive approximately 10% less news print than formerly."

"We therefore have no alternative but to advise our customers that they can also expect this cut, and to ask they conserve their stock as much as possible and to spread their usage so that all their quota will not be used up the first part of the year and leave none available later. It is entirely possible additional restrictions may be imposed, but we wanted to give you this information now."

Last year we used more than our 1950 quota, using a carry-over from 1949.

This year we had no carry-over, having on hand January 1, 1951, only enough newsprint to print eight pages for that week.

You see what we're facing. We can use less newsprint by printing less copies of our newspaper.

Recently, we mailed out cards to our subscribers whose subscriptions were not paid up.

Response has been wonderful—but if you're one of those who haven't responded, do so at once. We can print less copies of our paper by cutting off delinquent subscribers!

It nearly tears our heart out, too, to remove a true and trusty member of our "Times Family" from the list—but unless we "conserve our stock" we may not have anything to print a paper on by year's end. This is our plea—our final one—to get your subscription in good shape.

Sitting in a hospital room during the week end, listening to the incoherent talk and ramblings of a beloved father, who suffered a heart attack several days earlier, we tried to assume the manner of paying no attention to him, thinking he would soon quiet down and assume natural sleep.

We picked up a tiny hospital magazine, and read the following:

ONE SOLITARY LIFE

"Here is a man who was born in an obscure village, the child of a peasant woman. He grew up in another obscure village. He was an itinerant preacher. He never wrote a book. He never held an office. He did not go to college. He never set foot inside a large city. He never traveled two hundred miles from the place where he was born. He did none of the things that usually accompany greatness. He had no credentials but himself. While still a young man the tide of popular opinion ran against him. He was turned over to his enemies. He went through the mockery of a trial. He was nailed to the cross between two thieves. While he was dying his executioners gambled for the only piece of property he owned—his coat. When dead he was taken down and laid in a borrowed grave through the pity of a friend."

Nineteen centuries have come and gone and today He is the centerpiece of the human race and leader of the column of progress. I am far within the mark when I say that all the armies that never marched, and all the navies that were built, and all the parliaments that ever sat, and all the Kings that have ever reigned, have not affected the life of man upon this earth as powerfully as has that One Solitary Life.—Author Unknown.

It being near the anniversary of His death and resurrection, the article impressed us and we thought it very timely. We pass it on to you.

Pallmeyer To Serve As Knox County Agent

The post of county agent for Knox County has been accepted by Bill Pallmeyer, it was reported last Friday. Pallmeyer has been serving as assistant agent for Wichita County since March 1949. Prior to going to Wichita County, he was assistant county agent in training in Hall County.

Pallmeyer is replacing Kenneth O. Lewis, who has served several years as Knox County agent. He replaced Max Carpenter, who is agent in Wichita County.

Mr. Lewis has been called to active duty with the Air Force and is to be stationed at Sheppard Air Force Base. Pallmeyer will assume his duties in Knox County on Friday, March 16, it was stated.

Replacing him as assistant agent in Wichita County is Glen Dunkle, son of County Agent and Mrs. R. O. Dunkle of Graham, who has been assistant county agent in training in Hall County for several months. Glen is a graduate of Benjamin High School.

C. D. A. Members Elect Directors

Three new members in the Munday Community Development Association were named last Monday night, as a final official count was made on the election ballots which were mailed to the members around March 1. Response to the ballots was splendid, with over 100 members voting for their choice of directors.

The three of nine who obtained the most votes declared were: Mark Wadzek, with 51 votes; E. W. Harrell, with 46 votes; and Worth Grafrod, with 47 votes. Others who names appeared on the ballot are: Robert Green, J. D. Gillespie, J. C. Harpham, Carl Gage, Chan Hughes and J. B. Graham.

The new directors replace W. R. Moore, Aaron Edgar and E. B. Littlefield, whose 3-year terms expire the first of April.

State President Of Women's Clubs Is On Program Here

The Munday club women were honored by a visit from Mrs. J. Howard Hodge of Midland state president of the Texas Federation of Women's Clubs who met with a group here on Wednesday afternoon, February 28, at the First Baptist Church. Mrs. Hodge brought a very inspirational address on "Women's Clubs in World Affairs."

An outstanding musical number on the program was a piano and organ duet by Misses Shirley Yost and Carolyn Hannah. A tea hour was held in the social rooms of the church following the program. Fifteen clubs of the area were invited here for Mrs. Hodge's visit.

During the evening, Mrs. Hodge was honored at a dinner party in the home of Mrs. W. T. Sharp. She was an overnight guest in the home of Mrs. A. L. Smith.

Conwell Infant Is Buried Wednesday

Patricia Lee Conwell, infant daughter of Mr. and Mrs. G. C. Conwell, Jr., passed away Thursday morning at the Knox County Hospital, where she had been under treatment. She was born March 3, and was 10 days of age.

Funeral services were conducted at the graveside in Johnson Memorial Cemetery at three o'clock Wednesday afternoon. Rev. Temple Lewis of Weinert officiated. Burial was under the direction of Mahan Funeral Home.

Surviving her are her parents, a sister, Brenda Christine, and her grandfather, G. W. Leyendecker of San Antonio.

Mrs. Tom Cloud and Tommie of Fort Worth are spending a week with relatives in Munday and Goree.

Completion Of New Methodist Church Delayed

Completion of the new \$150,000 First Methodist Church here has experienced further delay it was revealed last week by Rev. R. L. Butler, pastor, in an interview with Hamilton Wright of the Abilene Reporter-News. The church is expected to be ready for occupancy about April 22.

It was hoped weeks ago that the congregation might enjoy the new buildings for the first time on Easter Sunday. But this hope was nipped when bottlenecks in materials developed. Rev. Butler told Wright the worst hindrance was in securing metal clips for installing the ceiling.

The date for dedication has not been set. The congregation is still some \$6,000 short of funds to make the structure free of debt. That liquidated, and the dedication ceremony can be held.

Knox County Hospital Notes

Patients dismissed since

March 5th:
Mrs. Mondell Mills and baby girl, Knox City; Mrs. G. H. Hudson, Benjamin; Linda B. Thompson, Munday; Tommy, Deanna, and Glenda Carter, Knox City; Florene Postnail, Knox City; Mrs. H. H. Bales, Knox City; Mrs. R. R. McCall, Rude; Mrs. W. L. Albertson, Munday; Mrs. Lou Miller, Rochester; Mr. and Mrs. D. B. Jones, Goree; Miss Alma Green, Benjamin; Doris Marie Donaldson, O'Brien; Mrs. Leon Strickland and baby, Knox City; Art Jungman, Knox City; Margaret Bullion, Truscott; Mrs. Bud Norris, Aspermont; Mrs. G. C. Conwell, Goree; Jo Denton, Knox City; Mary Lois Gray, Breckenridge; Mrs. W. M. Rister and baby, Munday; Mrs. L. R. Cox and baby, Knox City; Mrs. Dick Wardlaw, Munday; Barbara Sue Walker, Knox City; Mrs. A. Hall, Rochester; Charles Reeves, Knox City; Mrs. J. A. Thomas, O'Brien; A. Kennebrough, Gilliland; Mrs. Juan Martinez and baby, Munday; Robert Jackson, Munday; Mrs. J. T. Cypret, Knox City; Mrs. Tom Speck, Aspermont; Mrs. Wesley Garrison, Knox City; H. M. Barrera, O'Brien.

Patients in the Hospital March 12th:
Eugene and Glenn Harper, Vera; Mrs. Ben Hunt, Munday; Gerald Barnett, Benjamin; Farrah baby, Rochester; Mrs. G. M. Sharp, Rochester; Verna Faye Mayberry, Gilliland; Mr. and Mrs. J. W. Hickson, Knox City; Bob Armstrong, Knox City; Mary and Victor, Jr. Contreras, Knox City; Mrs. Henry Young, Rochester; Mary Miranda, Rochester; Lee Wampler, Knox City; Herbert Sams, Benjamin; Pierce baby, Munday; Pete Newberry, Rochester; Mrs. Newt Caldwell, Aspermont; Mrs. George Smith, Benjamin; Joe Mitchell, Rochester; James Vandell, Munday; Conwell baby, Goree.

Births:
Mr. and Mrs. W. M. Ritter, Munday, a daughter.
Mr. and Mrs. L. R. Cox, Knox City, a son.
Mr. and Mrs. Juan Martinez, Munday, a son.
Mr. and Mrs. M. E. Everheart, Knox City, a son.
Mr. and Mrs. Leon Strickland, Knox City, a son.

Deaths:
George Brown, Knox City.

First All-Texas Worsted Fabric

Garland Adair (left), curator of history for the Texas Memorial Museum, Austin, presents to Robert E. Pent samples of the first worsted fabric ever woven from Texas yarn spun from Texas-grown wool. Pent is president of Pioneer Worsted Co., New Braunfels, the first worsted plant to be established south of the Mason & Dixon Line.

Local Teachers Go To Convention

Munday's schools were well represented at the tenth annual Oilbelt Convention of Texas State Teachers Association in Wichita Falls on March 9 and 10. Instructive program pertaining to school problems highlighted the convention.

Attending from Munday were: Mr. and Mrs. J. H. Bardwell, Mrs. Maurysa Blacklock, Mrs. R. B. Bowden, Mr. and Mrs. C. C. Brown, Supt. and Mrs. W. C. Cox, Mrs. Wretha Fitzgerald, Mr. and Mrs. E. L. Goolsby, Mrs. Paul Pendleton, Mr. and Mrs. E. R. Ponder, Miss Eugenia Robertson, Miss Jessie Vick and Mrs. Mary White.

Oil Activities

The North Knox City Palo Pinto reef line pool, northeast of Knox City, has been extended a half-mile southwest with the completion of Stanolind Oil and Gas Co. No. 1 Edna M. Travis.

The well flowed 135 barrels of oil daily through 11 5/8 inch choke, with pay from 4,235 to total depth of 4,252.

Another pay for Knox County is indicated in the Stanolind Oil and Gas Co. No. 1 Florence Bowden, being completed in the Palo Pinto reef line pool northeast of Knox City.

The reef was topped from 4,253 feet to total depth, 20-minute drillstem test shows a strong blow of gas to surface in 17 minutes. With 1,650 feet of pipe in hole, oil unloaded and the balance of the recovery was pressured out. There was no water. Flowing bottomhole pressure was 350 pounds and 15-minute shutin bottomhole pressure was 1,650 pounds. Surveys are being run.

J. B. BARNICOAT DIES AT CALIFORNIA HOME

Mrs. Lennie Kuehler received word this week of the death of J. B. (Tuffy) Barnicoat, resident of Munday for many years, who died suddenly of a heart attack last Monday at his home in Glendale, Calif.

Further details will be published in next week's issue of The Times.

Mr. and Mrs. Eddie Savage of Paducah, spent Tuesday in the home of her parents, Mr. and Mrs. Ardell Speice.

Mr. and Mrs. Earl McClellan and granddaughters of Hobbs New Mex., spent the week end in the home of Mrs. Ruth Searcey and family, and with other friends and relatives.

Mr. and Mrs. Sid Almanrode of Tennessee spent last week in the home of Mr. and Mrs. R. M. Almanrode and family.

The Editor Moves

We used to live on E Street. Now we live on G Street. We used to be in the 800 block—now we're in the 1,000 block. As close as we can figure, the address is 1015 G Street, but there's no house numbers up yet.

We're living in our new home, which had just been completed block south of the Methodist parsonage. Our pastor is mad because we moved into our new house before he moved into the new church.

We had the telephone moved, too. The number has been changed from 97-J to 372.

The new house isn't entirely straightened out on the inside—neither is it entirely finished. If you come to see us, better bring a chair to sit on!

The whole business brought about a pretty nice little debt—but, shucks, we ain't worrying! We got 20 years to work that out!

Local Officers Attend Meet In Wichita Falls

Several Knox County officers attended at meeting of peace officers from Texas and Oklahoma last Thursday in Wichita Falls, when the topic of discussion was chiefly the rising number of reported safe crackings throughout the two states.

The fourth conference of burly and robbery investigators was filled with reports by officers from Oklahoma City, Lawton, Duncan, Chickasha, and Altus in Oklahoma, and by men from Dallas, Vernon, Fort Worth and Wichita Falls.

Acting host and District Chairman Charles E. Wilson, Wichita Falls city detective was in charge of the program.

Throughout the day, the numerous reports seemed to indicate that modes and manners of yeggs were still the same, but newer gangs and more professional men were crowding the field. The chief aim of the conference was to allow officers to meet and compare, connect and assimilate notes and data or their investigations of burglaries and robberies.

Plans for the next conference were set for July 10 in Vernon. Attending the meeting from Knox County were Sheriff Homer T. Melton, Deputy J. F. Hill, both of Benjamin, and D. E. Whitworth and R. F. Horan of Munday.

Sunset PTA To Give Program On Saturday Night

An enjoyable program is in store for all who attend the Sunset PTA meeting Saturday night, March 17, at 7:30 o'clock, according to Herbert Partridge, director. The program will consist of the following:

Band music, Munday High School Band; Girls Chorus of Weinert, directed by Mrs. Conner Horton; tumbling acts by a girls' gym class of Haskell, directed by Mrs. Will Gilmore.

There will be no admission charges and the public is cordially invited to attend.

Fire Destroys Goree Produce Business

One of Goree's oldest business houses was destroyed last Monday afternoon when the Goree Produce and Feed Store burned. The fire is reported to have started when an oil heater exploded.

The store was owned and operated by Ed Vaughn for a number of years. The building and contents were partially covered by insurance.

Weinert Preacher To Speak At Goree

Rev. Temple Lewis of Weinert will preach at the Goree Baptist Church next Sunday morning and evening, it was announced Tuesday, in the absence of the pastor, Rev. S. E. Stevenson. Rev. Stevenson is assisting in a revival meeting at Weinert.

C. D. A. Plans For Annual Banquet On March 3th

Plans are being completed by its directors for the annual banquet of the Munday Community Development Association, which will be held at 7:30 p. m., Friday, March 30, at the school auditorium.

The banquet dinner will be served by Miss Eugenia Robertson and her home economics girls.

Various committees have been appointed and are formulating final plans for this annual affair, which shows promise of being the biggest and most entertaining of any held prior to this time.

Principal speaker will be Sidney J. Kring, Wichita Falls civic leader, who was recently awarded the first Wichita Falls Spark Plug Award for his civic work in that area. For over 20 years a leader in professional civic work, Kring has the reputation of being one of the most outstanding after-dinner speakers in this area.

In addition, a group of entertainers from Lamesa, who have appeared at a number of civic dinners in this area will be here to give enjoyable entertainment in the lighter vein. Program for the banquet will be completed within the next few days.

Tickets went on sale Tuesday, and are being sold very rapidly. Since the auditorium will accommodate a limited number, it is suggested that those desiring to attend the banquet secure their tickets early. They may be secured from members of the C. D. A. directors, at the C. D. A. office, or at the following business houses in Munday:

Farmers Co-op Gin, Blacklock Home and Auto Supply, First National Bank, City Drug Store, Gafford's Barber Shop, Munday Lumber Company, Reid's Hardware, Broach Equipment and J. C. Harpham Insurance Agency.

Meet Of Scout Leaders Slated

The district committee meeting and roundtable for all Boy Scout leaders will be held at the Seymour Country Club House on March 20, it was announced this week by Winston Blacklock, district commissioner. The meeting will open with a Dutch supper at 7 p. m.

At this meeting, discussions will be held on the following topics: Cubbin, theme for April, railroad; Scouting, troop awards contest; Exploring, program helps.

All troop and pack committees are being urged to attend this meeting.

Goree P-T. A. Has Meeting Tuesday

The Goree Parent-Teacher Association met Tuesday afternoon in the High School Auditorium at 3:00 o'clock, for a program of "Cultivating In Children a Taste for the Good."

With the entire school as guest, Mrs. Albright, public school music director had charge of the music which consisted of choral singing by the 8th grade girls, the flute band by the 6th grade and musical numbers by the other grades.

Mrs. Carver directed the 4th grade in a puppet show. Panel discussion were led by Mrs. Thiebaud on "Music and Art" Mrs. Arnold on "Citizenship."

Mrs. Elkin Warren, president, presided over the business meeting following the program.

Goree Brotherhood To Meet On Friday

The Brotherhood of the Goree Baptist Church will meet on Friday evening, March 16, Rev. S. E. Stevenson, pastor, has announced.

An enjoyable program is being planned, and all the men are urged to be present.

Mr. and Mrs. Leo Mortimer of Tulsa, Okla., were guests in the home of Mr. and Mrs. Gene Harrell several days last week. Mrs. Mortimer and Mrs. Harrell are sisters.

MITIGATING DISASTER

A law suit to collect a fire insurance claim is about as rare as the dodo bird. A recent survey by the National Board of Fire Underwrites shows that of almost 1,250,000 fire and extended coverage claims entered in 1949, less than 3/100th of one per cent were in suit at the end of the year. This is simply a reflection of the pride the fire insurance industry takes in the swift payment of legitimate claims.

Actually, fire insurance companies often voluntarily go beyond their legal obligations in the handling of claims. The Catastrophe Plan, which the National Board placed in operation at the time of the Texas-Houston hurricane in 1943, is a fine example. Last year's Florida hurricane—which caused an estimated \$20,000,000 of damage and resulted in 30,000 claims—was the tenth disaster the property insurance business has handled under the plan. Adjusters and clerical help are hurried into the devastated area. Headquarters are established on the spot. The processing of claims starts immediately. The whole idea is to mitigate the additional troubles wiped-out policyholders would face if payments were long delayed. Everything that is humanly possible is done to expedite the work.

Here is just one of fire insurance's many great services to the nation which supports it. It is the mainstay of credit—no one could risk his money without a policy to stand between him and its loss. It is the leader in the year-round battle to prevent fire in the home, on the farm, and in industry. It provides a protection which is essential to the workings of our complex civilization. It is another outstanding example of the workings of unhampered initiative in our country.

PRIVATE ENTERPRISE IN ENGLAND

The Morning Advertiser, of London, England, recently ran a piece by Ted Updale which began in this wise: "Whats all this about Britain and America falling out? Who says we just can't get on together? Who says it's just a matter of preserving the 'almighty dollar' when the Americans help us?"

"There is a busy place in England where you would get a spanner in your works if you started handing out the hate between Britons and Americans."

The place is Fawley. There the Anglo-American is building the largest refinery in Europe. It will be in operation the first of next year. More than 4,000 workers who have taken part in the construction, and when it is completed it will provide permanent jobs for 2,000. It will save Britain in huge sums of money by cutting out much of the costly business of shipping crude from the Middle East to the United States for refining, before it is sent across the Atlantic for consumption.

Britain is a socialist state—but this great refinery is 100 percent private enterprise. No ECA

or government dollars are involved. The Anglo-American Oil Company, which is predominately American-owned and financed, is doing the whole job.

There are two points of top significance in the Fawley refinery project. First, it is a splendid example of cooperation between the two great English-speaking nations. Second, it is an equally splendid example of how free enterprise makes for progress—and for the security of the western world in this troubled era.

THE BEGINNING AND THE END

Back in 1943, a committee of the Canadian House of Commons made a report of compulsory government health and sickness insurance. In that report it said, "During the early years of Hitler's regime, the government's medical program was looked up by many observers as one of the greatest props of the totalitarian state."

Lenin, who did more than any individual to take the communist theories of Marx and put them into practical effect, always heavily stressed the virtues of socialist medicine as a basic foundation of the communist state.

Government insurance, as we know it today, was an innovation of Bismarck's. As the histories tell, he established it to soften the complaints of the working people who had been thoroughly oppressed by the police methods he used.

In other words, government domination of medical care goes hand in hand with totalitarianism—whether it be of the communist, socialist, or monarchist variety. There are good reasons why that should be so. It brings the government directly into the lives of everyone. It makes everyone look to government for an absolutely essential, life-or-death service. It breeds the heaviest kind of dependency on the government. And, with that kind of beginning, the swift socialization by government of other professions and enterprises is made much simpler.

The compulsory government health insurance scheme is still a very live issue in the country. It may have been temporarily sidetracked because of the emphasis on the international situation. But it will be back, and it will carry strong support. And when it does come back, remember how it served Lenin and Hitler. As a wise man once said, "In democracies the Welfare State is the beginning of the Police State, then end."

We had rather listen to an echo than a gossip, because an echo repeats what you say.

Regardless of your walk in life, smooth running gets you there a lot quicker.

In the good old days the man who saved money was a miser. Now he's a wizard.

Man has now conquered almost everything dangerous in nature, except human nature.

Uncle Sam Says

There is a job to be done and every American citizen has been asked to do his share. Our boys now going into the Defense services need your all-out support and in every possible way, from the manufacture of armament to helping finance our huge defense program. Volunteers are needed to help in a vital part of the country's struggle for existence. Whatever your job you can help in this great program, both by the purchase of Defense Bonds to the limit of your ability and by asking your friends and neighbors to invest in U. S. Defense Bonds.

U. S. Treasury Department

One of the best known of the ranches in the southern section of the state is (said the Taft Tribune some years ago) the 167,000 acre Taft Ranch. To this ranch in 1911 came a 35-year old Georgian engineer. His job was to lay a waterline from Gregory to Taft. Upon completion of his job, his work was so much appreciated that he was hired permanently. From that first visit, 30 years ago, R. H. Anderson has seen Taft grow from a few ranch houses "out in the mesquite brush" to a clean little city of 2,700.

Mr. Anderson's duties were numerous. He had to take care of 78 windmills scattered throughout the vast ranch. He cared for the windmills but wore out six model T's in doing it. Mr. Anderson tells of often fording the bay in a buggy to reach Corpus Christi. He says, "Don't ever think that the ranch was a dull place to live. Something was always happening: barbecues, hunting and fishing parties, and horseback riding were just a few of the ways to pass time. The ranch manager often brought musical companies to Taft for the people's entertain-

ment and besides there was always a constant stream of guests coming to the ranch, such distinguished men as President William Howard Taft."

How fast could the gun-fighters of the old West draw a six-shooter and fire?

It is related that the man known in Western lore as Kid Curry could hold his right hand straight out from the shoulder with a porker chip on it, turn his hand over until the chip fell off, then draw and fire three times before the chip struck the ground.

An experiment shows that it would take a chip six-tenths of a second to fall that distance.

Mrs. J. H. Frazier and son, James Keel, of Baytown, are visiting in the home of Mr. and Mrs. J. J. Keel and Leona this week.

Knox Prairie Philosopher Says He And All Of His Bony Cows Out There Have Another Winter Made

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is slightly serious this week, for a change.

Dear editor:

While it may be cold again by the time this gets to your desk and you get around to reading it, this afternoon the weather was balmy and spring-like, with a gentle breeze makin' everything just right, and I don't mind sayin' I've never enjoyed walkin' over my pasture so much.

I'm proud to say, me and my cows have got another winter made. I'm down to the last half of bale of Johnson grass hay, but today I noticed a green sprig comin' up, and thirty minutes later there was a cow standin' there waitin' for it to get an eighth of an inch taller. Just the hope of green grass to come can carry my cows a few days

longer, and by then there ought to be enough grass to hold on.

There are some people who provide enough feed for their cattle to where the cows hardly know winter from summer, but out here winter is always an adventure and it's a toss-up which will win, the cows or the weather. Spring don't mean near as much to a man or a cow if the barn is still half-full of feed on the first of March.

In some places, the on-coming

WOMEN NOW KNOW WHAT MODERN SCIENCE PROVES

Women judge a clean, bright wash by its appearance, texture and smell. Science explains what homemakers in test areas say about a new all-purpose detergent that gets clothes cleaner and whiter than any known soap, even when used by itself without any bleach, water softener or bluing.

This new household product, named Cheer, was scientifically perfected after 19 years of extensive research by Procter & Gamble, one of the nation's oldest and largest makers of cleaning materials. It is being manufactured in the Southwest at Dallas, Texas.

Intensive laboratory and consumer tests show the new product, due to its patented formula, is guaranteed to get clothes cleaner, brighter and fresher-smelling because the cleaning action goes one

Sudometer test measures sudsing quality of new detergent.

Important step further than soaps. Scientists explain its action as follows:

Both products have what are called "head-and-tail" molecules. The "tail" of the molecule hates water and sinks into the greasy dirt, while the "head" of the molecule surrounds the dirt particles, literally lifting them out of the surface being cleaned and carrying them away with the water.

The new product does not react with minerals in even the hardest water; therefore, leaves no stub-

born soap scum or grayish film to dull bright colors. At the same time, it is kind to hands. It is likewise ideal for those homemakers who prefer the time and effort-saving "no-rinse" method of doing their laundry.

Final testing grounds for any washing product are the clothesline and ironing board. Millions of women in test areas who have used the new product for nearly a year report that their wash is cleaner, brighter and sweeter-smelling—free of hard water film which tends to yellow under the iron's heat.

of spring means the renewal of plans for more fightin', with the roads thawed out and the guns unlimbered, the bombs uncrated and the planes rolled out, but out here spring is a time for tunin' up tractors, for gettin' the earth turned, for watchin' calves gettin' frisky, for meellin' the fresh air, for thawin' out your bones, and, for me, stretchin' out in the sun and restin' my mind from a winter's had thinkin'.

I have never been able to understand the mind of a man who gets more kick out of organizin' a slaughter and conquerin' somebody than he does

out of out-smartin' nature, gettin' a livin' and enjoyin' life from day to day. To get the best of a crop of insects and come out with a crop of cotton or corn or wheat, it seems to me, is ten times more fun than gettin' the best of a neighborin' country and comin' out with some broken-spirited slaves.

If you ask me, spring wasn't designed for Stalin.

Yours faithfully,
J. A.

Burnice L. Bowden was a business visitor in Wichita Falls over the week end.

16 Million Bale Crop Is Asked In '51

The nation's mobilization effort, civilian requirements, and fiber needs of U. S. allies abroad create a pressing demand for the 16 million bales of cotton the Department of Agriculture is asking farmers to produce, the National Cotton Council emphasizes.

If all needs could be filled, the Council estimates, the entire current supply of 16.8 million bales of cotton—6.8 million bales carryover from the previous crop, 9.8 million bales produced in 1950, and 2 million bales imported—would be virtually exhausted by August 1, 1951.

From the total supply of 16.8 million bales it is estimated that domestic demand will take 10 million bales or probably more. If they could get the cotton, foreign customers would buy approximately 6 million bales. This would leave a carryover dangerously low in view of present world conditions.

Demand Stimulated

In the United States greater industrial activity, full employment, increased spending, and population growth have upped the demand for cotton. Foreign demand is being stimulated by rearmament and the world-wide shortage of cotton. Foreign ability to buy U. S. cotton is increasing with the rise in dollars earnings abroad due to U. S. stockpiling of strategic materials from abroad, greater purchases of foreign made goods by U. S. consumers, and more buying of foreign raw materials by U. S. industry.

The same factors which account for the current high consumption of cotton are expected to prevail in the 1951-52 crop year.

1951-52 Needs Estimated

In 1951-52 it is estimated U. S. consumers will continue to use at least 10 million bales annually. The U. S. Department of Agriculture has estimated that 6

million bales of cotton will be needed for the export market. This figure is in line with last years exports and with the estimated amount that could be exported this year if available.

At the above rate, domestic consumption and exports alone would require all the 16 million bales farmers have been called upon to grow, leaving no stocks to increase carryover at a time when this country will need cotton desperately in its mobilization program.

Mrs. Juanita Rippetoe and Mike and Mrs. Fred Reddell, Jr., left Sunday to visit Mrs. Rippetoe's relatives in Fort Worth.

Charles Hardin and Bobby Winchester, who are stationed at March Air Force Base in Riverside, Calif., are visiting here on a 10-day furlough with their parents, Mr. and Mrs. Toby Winchester and Mrs. J. C. Campbell.

Mr. and Mrs. J. J. Moore and family of Vernon spent the week end in the home Mr. and Mrs. Toby Lane.

Mr. and Mrs. P. V. Williams visited in Midland the first part of this week.

Be careful. Observe state and local traffic laws.

REDDY KILOWATT POWER

WORLD WAR II

NOW

Reddy for ANYTHING!

YOU, Mr. and Mrs. America, have the biggest supply of electricity on hand you've ever had! In fact, Reddy Kilowatt Power in the U. S. has doubled in only 10 years. *Businessmen* with "know-how" have been building a bigger and better America for you!

Since World War II your West Texas Utilities Company has increased its generating capacity by 64,000 horsepower to provide you with more and more electric power... and by the end of 1953 two more plant units of 88,000 horsepower capacity will be installed ready for service.

The business-managed electric industry is the one industry that has doubled its capacity with more than double the investment and maintained the low price through efficiency.

Tell
Your Congressman
and Senators.

Taxes for national security, yes... but no tax money for unnecessary, non-defense, duplicating programs for bureaucratic handouts.

West Texas Utilities
Company

In every single state...

ADVANCE-DESIGN TRUCKS

Coast to Coast and Border to Border

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

In 1950, truck buyers in every one of the 48 states chose Chevrolet over any other make. Nationally, Chevrolet has outsold any other truck for the last nine truck production years. That's because Chevrolet trucks do the job better... stay on the job longer. When you

choose a Chevrolet truck, you get the right engine—92-h.p. Thriftmaster or extra-powerful 105-h.p. Loadmaster. You get a chassis that fits your job. You get a truck built to move your loads at lowest cost. Come see the new 1951 Advance-Design Chevrolet trucks.

Betty Sue Yost,
Joe L. Womble
Marry February 27

Miss Betty Sue Yost, daughter of Mr. and Mrs. Jessie Yost, became the bride of Seaman Joe Layne Womble, son of Mr. and Mrs. Layne Womble, at six o'clock, Tuesday, February 27, at the Baptist parsonage in Munday.

The double ring ceremony was read by Rev. Huron A. Polnac, pastor of the First Baptist Church in Munday.

Mrs. Jack Hensley, sister of the groom was maid of honor, while G. C. Crockett was best man.

The bride wore a suit of navy and white accessories. Her flowers were red roses. She is a graduate of Munday High School and has been employed at the City Drug Store, prior to her marriage.

The groom has served the last three years with the United States Navy. He is assigned to a destroyer and at this time is stationed at Norfolk, Virginia.

The bride and groom left after the ceremony for Abilene on a short wedding trip.

Gilliland Club Meets March 7 In Club Rooms

The Gilliland Home Demonstration Club met on Wednesday, March 7, in the club rooms with Mrs. Arnold Navratil in charge. The program opened with group singing, led by Mrs. B. M. Loggins and Mrs. Richard Winstead. Roll call and reading of Minutes were by Mrs. O. R. Miller, and Mrs. Elton Carroll gave the council report.

This club is saving the end flap on Mrs. Tucker's oleo boxes to turn into the secretary. This is an offer for a limited time. So far 18 have been turned in. This will mean cash for the club at the expiration date.

Mrs. Richard Winstead has been appointed delegate to the district meeting in Wellington on April 15.

Each club member is to have a wash dress made for the second meeting in April to be modeled for the dress review.

A delicious refreshment plate was served to 15 members, and six children by Mrs. B. M. Loggins, and Mrs. Dannie Groves.

H. T. Cunningham attended a funeral in Denton on Monday of this week.

Miss Edith Reeves,
Dr. John M. Pierson
To Wed April 7th

Mr. and Mrs. A. R. Reeves of Weinert are announcing the engagement and approaching marriage of their daughter, Miss Edith Marilyn Reeves, to Dr. John Marcus Pierson, son of Mr. and Mrs. George M. Pierson of Pacific Palisades, Calif.

Miss Reeves is a graduate of Parkland School of Nursing, Dallas, and the University of Southern California, Los Angeles.

Dr. Pierson is a graduate of the University of Southern California School of Medicine. He is a World War II veteran of four years in the U. S. Air Force.

The wedding will take place at 8 p. m. April 7, at the First Baptist Church in Munday. The couple will leave immediately after the wedding to make their home in Los Angeles.

Wesleyan Service Guild Meets With Mrs. Weldon Smith

On Monday evening at seven-thirty o'clock, Mrs. J. Weldon Smith was hostess to members of the Wesleyan Service Guild. Co-hostesses for the evening were Mrs. A. H. Mitchell and Mrs. C. P. Baker.

After a short business session was conducted by Mrs. H. R. Hicks, the program opened by singing "Take Time To Be Holy." Prayer was led by Rev. R. L. Butler, and Mrs. O. H. Spann directed the Bible study from the third chapter of James. The closing prayer was by Mrs. Butler.

Ice cream and cookies were served to Mrs. Joe Bailey King, J. B. Scott, Lee Haymes, H. R. Hicks, Jim Reed, Charlie Harpham, Levi Bowden, E. R. Ponder, Jimmy Harpham, I. V. Cook, O. H. Spann, Joe Massey, Rev. and Mrs. Butler, Misses Ruth Baker, Merle Dingus, Florence Gaines, and the hostesses.

She's A Partridge

Patsy Lee made her arrival at the Knox County Hospital at 10 a. m. Wednesday, March 14, and found a hearty welcome awaiting her. She's the new daughter of Mr. and Mrs. Herbert Partridge, weighing eight pounds and four ounces. Mother and daughter are doing nicely and Herbert's able to smile, too.

MISS EDITH REEVES

BENJAMIN NEWS

(Elda Purl Laird, Reporter)

Among the folks in Wichita Falls Tuesday of last week shopping and on business were Mrs. O. L. Patterson, Mrs. Malcolm Shipman, Mrs. Homer T. Melton, and baby son, Jimmy, Kenneth Lewis, Mrs. Wynelle Porter and Miss Elda Purl Laird.

Mr. and Mrs. Henry S. Bryson, of Bryson, visited in the home of Mrs. Ethel Laird and children Tuesday and Wednesday of last week.

Mrs. Floyd Nunley and girls, of Eldorado, visited in the home of her parents, Mr. and Mrs. Lee Snailum during the week end. Mr. and Mrs. Darr Snailum, of Pecos, are visiting in the Snail-

Activities Of The Colored People

Dunbar pupils are enjoying the assortment of magazines donated to them by Mrs. Bowden.

Last Thursday night our entertainment, plus \$4.25 individual donations, helped us to make an \$8.75 payment on our books, leaving a balance of \$8.75.

Monday night, the intermediate grades gave away a cake which went to W. T. Williams Jr. Receipts were \$8.75 which made the final payment on the books.

The primary department is sponsoring a contest which will end in the next few days. A prize will be awarded the one who has the highest amount over \$1.00.

Cakes and pies were made by the following: Mrs. Beatrice

Tucker, Ernestine Napper, Ruby Durham, and Mrs. Fannie M. Johnson. The sale of the above netted our P. T. A. treasury \$8.95.

We wish to thank our many friends who bought tickets, gave a donation, or supported us in any way to pay off the indebtedness on our books.

Many thanks to Mrs. Roberta Sanders for donating the cake which was given away.

Mrs. Fannie Johnson entertained a few children in her home last Friday, honoring her granddaughter, Joyce, on her birthday.

Mrs. Elmer Dickerson, Mr. and Mrs. Clay F. Grove, and Mrs. Ben Yarbrough were visitors in Wichita Falls on Tuesday of this week.

Mr. and Mrs. George Spann of Irving visited Mr. and Mrs. John C. Spann and Mr. and Mrs. Oscar Spann over the week end.

Married For Fifty Years

For the first time in our newspaper experience, we have occasion to run the photo and story of a colored couple who recently celebrated their golden wedding anniversary. They are Frank and Lula Scott, well known Munday couple who have passed the 50-year mark in their married life.

At a recent quiet observance of their golden wedding anniversary, they enjoyed a large wedding cake which was baked

by friends. Frank and Lula were married at Ellinger, Texas, on March 1, 1901. Frank is 70 years old, having been born in 1881. Lula was born in 1886, making her 65 years old. They have one son, Frank has been custodian of the U. S. Post Office in Munday for several years and serves as a steward in the colored Methodist Church. Lula is employed as maid in several Munday homes.

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 5.944 miles of Grading, Structures, Base and Surface from 656 feet East of Highway US 277 in Munday, S. E. to Haskell County L. on Highway No. FM 1587, covered by R 1512-1-L, in Knox County, will be received at the Highway Department, Austin, until 9:00 A. M., March 20, 1951, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on the project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of H. T. Cunningham, Resident Engineer, Munday, Texas, and Texas Highway Department, Austin Usual rights reserved. 32-2tc.

Alfred Guinn of Midwestern College in Wichita Falls spent the week end here with relatives and friends.

Be careful. Observe state and local traffic laws.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer of Texas

AUSTIN—Too prevalent today is the belief that heart disease is the spell of doom and that one must cease all work and activity. Modern medical knowledge easily disproves this notion, and thousands of case histories bear witness to its falsity.

Heart disease, medical science now knows, is not a single ailment. Many troubles can afflict the heart—some less serious than others. While some restrictions are necessary, it is now generally true that patients with any form of heart trouble should be active within the limits of their capacity.

Not all persons with heart ailments can continue working at their same pace. Obviously these are those who require bed rest and often a very strict limitation of physical and mental activity. But there are many who can continue working, performing some type of useful or productive activity, without fear that their hearts will suddenly give out.

A person with a mild heart disorder can in most instances perform any kind of job for

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial membranes. Guaranteed to please you or money refunded. Creomulsion has stood the test of millions of users.

CREOMULSION

relieves Coughs, Chest Colds, Acute Bronchitis

which his skills qualify him. No individual with a heart condition, it should be cautioned, should determine for himself whether he is able to work or not or how much work he can do.

Just as there are many who become cardiac invalids of fear, there are those at the opposite extreme who ignore proper medical advice and subject their hearts to unnecessary strain and abuse by overactivity. Only a competent physician is qualified to say what are the limits of an impaired heart.

Corn yields can be increased from 20 to 30 percent, and in some cases as much as 50 percent, by planting adapted corn hybrids. This has been shown by tests conducted by the Texas Experiment Station and by many farm demonstrators.

Let's Talk LIVESTOCK

(By Ted Gouddy)

FORT WORTH, March 9—The livestock trade maintained a nervous vigil awaiting further Washington developments during the past week. Packers had apparently about worked out their ceiling prices under the OPS rules and some degree of stability in the market was due to the fact they could just about figure what live prices should be if livestock was to be handled under the ceiling prices as allowed.

In many cases movement of meat from plants was in extremely small volume. Pork prices weakened all down the line as heavier hog runs were reported over the nation, but live hog prices were steady to a shade stronger despite this development.

In general the Eastern dressed meat prices, other than pork, were higher. Lamb showed considerable higher prices in the New York area, which inaugurated well for the prospect of Eastern lamb prices at Fort Worth.

Not many choice milk fat lambs are expected this year due to the dry winter but they will likely bring the fanciest prices in history.

Cattle prices were on the mend this week in a slow but steadily stronger market on most kinds. Advances of 50 cents to \$1 per hundred were noted on most cows, fat calves and stocker and feeder cattle and calves. The rise has been very gradual with speculators taking it easy after the thumping they took two weeks ago.

Feed Everything You Grow

with this complete, balanced diet

Now is the time to apply Vigoro for beautiful lawns and producing gardens next spring. See us for your needs.

ATKEISON'S Food Store

and feeder and stocker buyers cast wary eyes in the direction of Washington to try to see what was in the works in the way of ceilings on livestock.

Clipped lambs were 50 cents to \$1 per hundred higher and other sheep and lambs strong. This development was possible for two reasons, despite the fact that the prices in some cases moved well above the Dec. 19 to Jan. 25 period at which prices were frozen.

Some clipped lambs going to stocker buyers are carrying a percentage of ewe lambs, which can be sorted off and sold as breeder stock. Packers paid prices apparently 50 cents to \$1 over the limit for some clipped lambs with No. 2 pelts. This was because these lambs will be put in feedlots and probably be raised from good grade to choice grade because of the additional finish and at the same time, they are expected to grow enough wool to give them a No. 1 pelt credit and thereby make them pay out.

Some sales of typical livestock at Fort Worth this week include 36 steers from Aspermont Farms that averaged 1,146 pounds at \$33.50. Hight Farm and Ranch, Navarro County, had a package of part Brahma yearlings weighing 678 pounds at \$33.50. Charles Carter of Collin County marketed a half load of 966-pound steers at \$33. Lowell Smith, Rio Vista, had 19 yearling cattle at 690 pounds and \$33.50. M. S. Wells, of Childress County, sold two loads of mixed steer and heifer yearlings at \$35.50 that weighed just short of 1,000 pounds. Unusual is the fact that Wells has been shipping on these cattle for four weeks in a row and despite market fluctuations, they have all sold at \$35.50, and scaled from 865 pounds to 1,000 pounds in weights. Looks like a steady market to Mr. Wells, I expect! Corrigan and Corrigan Leon County, had 29 medium quality steers and heifer calves at 430 pounds and \$34, most of them horned. W. B. Barton, Flomot, had 19 yearlings of 880 pounds at \$35; T. A. Bymun of Flomot, had 13 yearlings at 890 pounds at \$32. John Sossamon, Paducah, had 18 yearlings at 882 pounds at \$32.50. J. R. Trout, Terral, Okla., sold 44 heifers at \$33 that weighed 847 pounds. Karl and Mozelle Williamson, Terral, Okla., had 11 steers at 604 pounds at \$33, and five heifers at 604 that brought \$33.60. Cleve Jones, Eldorado, had 33 yearlings at 455 pounds at \$38.

Legal Notices

NOTICE TO THE PUBLIC

The Knox County Commissioners Court urgently requests your cooperation in protecting our lateral roads, especially those traveled by rural carriers and school buses, from being damaged by plowing. We refer to a letter received from the Post Office Department, Washington, D. C., as follows: Gentlemen: It has been reported to the

T. A. Jean, Hamlin, sold 37 calves at \$38. F. M. Miller, Quitaque, sold 41 cattle at about 940 pounds at \$31.50 and \$32.50. John Lee Walker, San Saba, has 35 steers at 715 pounds at \$32. F. J. Hommel, Clarendon, had a load of 1,102-pound steers at \$36, the week's top.

A feature of the week was the visit of the Mozelle High FFA boys with their lambs and calves. This year the boys fed their stock commercially. No nurse cows and no pampering. This feeding program is considered by many observers as a better means of fitting these youths for actual livestock training than the show calf program.

Their lambs sold from \$33 to \$40 per hundred, the latter a new all time record for the market. They were guests during the sock yards broadcast and visited the packing plants.

Department that some roads on the lines of rural routes in the Knox County area have been made impassable for travel by the rural carriers due to the plowing of these roads by tractor-farming patrons of the routes.

In order that efficient and satisfactory service may be afforded, it is essential that roads on the lines of rural routes be maintained in such condition as to be easily and safely passable for the carrier. When a road traveled by a rural route carrier becomes impassable or dangerous to travel, the Department has no alternative but to suspend service over the neglected road temporarily or withdraw it permanently, as the circumstances may warrant.

It is earnestly hoped that sufficient interest will be taken by the persons benefitted to keep the roads in good condition so that it will not be necessary to withdraw service.

Sincerely yours,
V. C. BURKE,
First Assistant Postmaster
General 33-2tc

NOTICE OF ELECTION

Notice is hereby given that an election will be held on Saturday, April 7, for the election of one trustee in each of the following school districts: Benjamin, Brock and Rhineland; and for the election of two trustees in each of the following consolidated school districts: Sunset

FARM PROGRAM NEWS

From the County PMA Committee

ITEMS OF INTEREST TO KNOX COUNTY FARMERS ABOUT YOUR KNOX COUNTY PMA OFFICE:

Mr. Jesse T. Gilpin of Franklin, Texas, will assume the duties of County Administrative Officer of the Knox County P. M. A. Office, March 19, 1951, replacing Mr. Bennett P. Haman, who has accepted a position with Phillips & Dodge Mining Company in Arizona.

Office hours of your County PMA office have been extended to include the noon hours on Saturday mornings. These hours have been extended for the benefit of those who were unable to contact the office week days. Our office hours are: 8:00 A. M. to 5:00 P. M.—5 days weekly. 8:00 A. M. to 12:00 noon—Saturday.

THE UNITED STATES DEPARTMENT OF AGRICULTURE THRU YOUR COUNTY P. M. A. PAID TO 495 FARMERS OF THIS COUNTY \$195,633.51 FOR PARTICIPATING IN SOIL BUILDING PRACTICES IN THE YEAR, 1950.

This money was paid to the farmers for the following soil building practices:

Subsoiling	4,465.6 acres
Deep Plowing	23,403.0 acres
Drainage Ditches	37,500 Cu. Yds.
Stock Tanks	23,148 Cu. Yds.
Superphosphate	502,950 Lbs.
Peas (Austrian Winter and Chinese Red)	49,173 Lbs.
Vetch	7,447 Lbs.
Mesquite, Pricklypear and Cactus	2,298 Acres
Large Ridge Terraces	680,073 Feet
Diversion Terraces	22,475 Cu. Yds.

For your information the total acreage in the county (not including W. T. Wagner Est.) is 214,105.4 Acres in Cultivation, 313,418.7 Acres in Pasture—527,524.1 Acres Total.

Soil building practices which are approved for assistance in 1951 are as follows:

- Constructing Large Ridge Terraces
- Seeding or Sodding Vegetative Waterways
- Subsoiling
- Deep Plowing
- Constructing Drainage Ditches
- Constructing Stock Tanks
- Applying Fertilizer to Applicable Crops
- Growing Green Manure or Cover Crop of Summer Legumes
- Establishing a Satisfactory Cover of Winter Legumes Seed in Fall of 1951
- Elimination of Destructive Plants (Mesquite, Pricklypears and Cactus) on Non-crop Pasture Land
- Grasses and Pasture Legumes

Seeding Adapted Pasture Control of Mesquite on Non-Crop Land by Applying Chemicals.

Any information desired on the above practices and their specifications may be obtained by calling your County PMA Office in Benjamin.

Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., March 10—One of the most controversial pieces of legislation now pending in the Congress is called "The India Emergency Assistance Act of 1951." Under this bill we would give to India 2 million long tons of food grains. This is 112 ship loads. During the movement of this grain it would require 2500 box cars a month. India did not ask for this gift of grain but rather sought to purchase. Our State Department thinks we should give it to India as a good will gesture. The Pakistan League of America has filed a brief opposing this gift of grain. This League states that Pakistan has adequate supplies of food grains which India could buy. They claim India is trying to destroy Pakistan through economic boycotts. However, within the last few weeks India has negotiated a trade agreement with Pakistan through which India will receive 325,000 tons of rice and 25,000 tons of wheat in exchange for iron, coal and other material. Our proposed gift of grain to India will eventually cost up in the neighborhood of 200 mil-

lion dollars. Opponents of the proposal point out that India produces manganese, mica, and many other critical materials which we need and for which we should trade or barter if we are to ship India grain.

Incidentally, India's troubles seem to be of her own making. I am told that they have 180,000,000 sacred cows, millions of sacred monkeys and millions of sacred beggars. It is considered a terrible sin to disturb or abuse sacred cows, monkeys or beggars. If a sacred cow goes into your house you cannot drive her out. If she goes into any of the food stalls, as they frequently do, they can eat up the grain with impunity and must not be disturbed. Indian religion glorifies what, under our code of ethics, would be sexual immorality. Hence, her country has always been overpopulated. If India could reduce her death rate as low as ours and maintain her birth rate, this one country alone would overpopulate our earth six times over within one hundred years. Would our gift of grain purchase their good will; would it serve any useful purpose; or would it simply take 200 million dollars out of our taxpayers' pockets.

Of course, India might well say, "Who are you to talk of morals?" Reports this week are that American gambling alone runs into 20 billions of dollars per year. Some authorities claim that we spend more money for

Explorer Gives Natives "Wonder Drug"

Captain Hassoldt Davis, famed explorer and author, proved on a recent expedition to the Ivory Coast of French West Africa that natives think highly of the white man's "magic" which he works with aureomycin and other drugs. Davis is shown above administering vitamin pills to an exhausted witch doctor. The native "doctor" recovered so rapidly that he wanted the white man to stay and be his partner. At another village, Davis found a native woman near death from mixed infection following childbirth, complicated by pneumonia. After penicillin injections failed, he gave her aureomycin capsules. The woman fully recovered. When his pet chimpanzee showed symptoms of having pneumonia, Davis gave it the same "wonder drug," which the chimp ate like candy. Within a week the animal was as lively as ever. The explorer is now writing a book and editing a film on the expedition. Mrs. Davis, a daring woman, indeed, was official photographer for the safari. She will accompany her husband on a trek this summer into the wilds of Morocco.

liquor than we do for food. All history, both sacred and profane, shows that at all times, among all peoples, spiritual and moral decay precedes political and economic decay. Our society will suffer to the exact extent and to the exact degree of moral and spiritual decadence.

Sometime ago, Mr. M. L. Hunt, published a most interesting booklet, entitled, "Constructive." He suggests that "conservative" has developed an unfair connotation in the minds of the public that many people regard the word "conservative" as meaning unprogressive and un-social. The magazine section of our Sunday papers last week carried an article entitled "Capitalism." The writer is suggesting that a new word be substituted for "capitalism" because capitalism, he says, has accumulated unpleasant connotations and is regarded by many as being anti-social and a simile for greed and avarice. Thus, we appear to confuse labels. Words are used as propaganda slogans. Welfarists state apostles, liberals have done much to discredit the labels "conservative" and "capitalism". Thus some conservatives and capitalists seek to avoid the unfair aspersions cast upon them by adopting labels.

These essays on "capitalism" and "conservatism" remind me of a memory gem I learned when I was in the fourth grade. Such memory gem appears on page 85 of the New Century Spelling Book used by me in 1912. While not entirely apropos, we quote as follows:

"Keep a match on your words, my darlings,
For words are wonderful things;
They are like the bees' fresh

honey,
Like the bees, they have terrible stings.
They can bless like the warm glad sunshine
And brighten a lonely life;
They can cut in the strife of anger
Like an open two-edged knife."

Roy Grantom and Jackie Bookout, who are stationed with the armed forces at Fort Benning, Ga., visited friends and relatives here and at Wichita Falls from Thursday of last week through Saturday of this week.

Mr. and Mrs. Worth Gafford and Mr. and Mrs. Buddy Gafford and Myra, visited with relatives in Coleman over the week end.

Sid Waheed of Lubbock was a business visitor here over the week end.

Soil Conservation Practices

The supervisors of the Wichita-Brazos Soil Conservation District held their monthly meeting recently. The following applications for conservation assistance were approved: G. B. Therwanger, W. E. Peddy, Alton Ward, Orval Manning, and E. E. Lowe. The following conservation plans were approved: Joe Brown, John Andres, Virgil Sonoma, Tom Cluck, and George Steinbach.

The supervisors decided to purchase 500 pounds more of King Ranch bluestem seed to sell to cooperators. This is in addition to 1000 lbs. purchased in January. This seed is being used for the following purposes: to seed waterways for terrace outlets; to seed poor land that is being retired to permanent pasture; to seed on good land for temporary pasture to replace sudan grass; and to seed on good land as a soil conservation crop to improve the structure

and fertility level. If King Ranch bluestem is used as a soil conservation crop it is left on the land for about four or six years, then put back into cultivation in a much better condition. This grass is also being used as a hay crop.

Terrace lines have been run on the following cooperators' places: August Rueffer, John Atterbury, Bush and Burnett farms, Togo Moorhouse Ranch and the League Ranch. A diversion line was run on the Roy Lebus anch west of Benjamin to increase the catch of a pond. The construction of terraces

is but a part of these cooperators' conservation plans. Technicians of the Soil Conservation Service assisting the District ran the terrace lines for these farmers.

ROTO-BALER for power take-off, or engine operation by A-C auxiliary motor.

Easy BALES IT

Easy on your hay... easy on you. That's the labor-saving way of baling with a home-owned ROTO-BALER.

Your ROTO-BALER rolls up the hay, without pounding or shattering. High protein green leaves are sealed inside the weather-resistant bales... safe from shattering... safe from the weather. Rolled bales cannot buckle. They stand rough handling in hauling, storing or shipping. Best of all is the satisfaction of seeing livestock lick up every leaf and fine stem from rolled bales.

Save your hay in leaf-tight rolled bales. Stop in and see the ROTO-BALER.

ROTO-BALER is an Allis-Chalmers trade-mark.

INTERESTING SHORT FEATURES

For the best that's new...

SEE THE NEW DODGE

"Job-Rated" TRUCKS

The trucks that do the most for you!

NEW! More Power

Power increases as high as 20% Eight high-efficiency truck engines—94 to 154 horsepower. The most powerful Dodge "Job-Rated" trucks ever built provide dependable power for your job!

NEW! Better Economy

Higher compression ratio (7.0 to 1) on models through 1 ton, for top efficiency with flashing power. Here's real economy with outstanding performance—more power from every drop of fuel.

NEW! Easier Handling

Shorter turning diameters than ever—and extra-easy steering with new worm-and-roller gears. Short wheelbase, cross-steering and wide front tread assure easier maneuvering.

NEW! Greater Safety

Molded Cyclebond brake linings on hydraulic-brake models 1½-ton and up. Brand-new! Extra-quiet! Other safety features include new, improved independent hand brake, extra-big windshield.

NEW! Bigger Payloads

Increased Gross Vehicle Weights and Gross Combination Weights on many models—made possible by increased rear axle capacity and "Job-Rated" weight distribution. Help cut your trucking costs!

NEW! Better Comfort

"Oriflow" shock absorbers, standard on 1½-, 3¼-, and 1-ton models. New! Revolutionary! Self-adjusting! New seat design, new steering wheel angle—plus lower hood line for improved visibility.

Exclusive! gyrol Fluid Drive... Available on ½-, ¾-, and 1-ton models. Provides marvelously smooth performance with cushioned power.

PLUS all these time-proved features Dodge trucks have had for years...

Steering column gearshift standard on ½-, ¾-, and 1-ton models with 3-speed transmission. Chrome-plated top piston ring for longer ring life, better sealing. Synchronizer transmissions (3-speed, 4-speed, or 5-speed) rugged, silent, precision engineered. Deluxe and Custom cabs (with rear quarter windows) available on all models. And many other dependability features!

What "Job-Rated" means to you

A Dodge "Job-Rated" truck is engineered at the factory to fit a specific job... save you money... last longer. Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require. Every unit that SUPPORTS the load—frame, axles, springs, wheels, tires and body—is engineered right to provide the strength and capacity needed. Every unit that MOVES the load—engine, clutch, transmission, propeller shaft and rear axle—is engineered right to meet a particular operating condition.

Come in for a good deal on a truck that fits your job... a **DODGE TRUCK**

Letters From The People

The following letters appeared in the Sunshine Monthly, magazine published by the Methodist Orphans Home in Waco. As they are from two local boys, they are being reprinted for whatever value they may have for our readers.

San Diego, California.
Dear Mr. Johnson:
I am sorry that I have waited so long in writing you. Since the training program has been cut

to nine weeks, I have a great deal to do, and haven't found time to write.

I am now in my sixth week of training, and will be leaving here in about three weeks. I don't know as of yet where I will go, but I have a pretty good idea. More than likely, I will be stationed on some ship and will be sent right into action. I heard from Edwin Stafford, and he is operating in Korean waters right now.

How is everyone at home? Tell everyone I said hello the first chance you get. I will write again soon.

Love,
PAUL RAYBURN
San Antonio, Texas.
Dear Mr. and Mrs. Johnson:

I was happy the other day when "mail call" came to get a letter from home. It is a very sad feeling to see other fellows getting seven or eight letters and not to get any myself. It kinda makes one feel left out. I am confident that as long as I write you letters, that I will have one coming back to me in a few days.

I had a letter from Paul the same day that I received your letter, and he told me that their boot training is nearly completed. He also told me that there was a possibility of him going overseas. I surely hope he does not have to go to Korea.

Mr. Johnson, I will probably be sent to Georgia for my training. They will ship us out this weekend. I couldn't get into the Gunner School because I didn't have the mechanical background. Just the boys that knew a great deal about mechanics got in. I surely do wish I could have gotten into that school. As it is now, I am up for Air Police, or Clerk Typist. Of the two, I had rather be in the Air Police, that is the same thing as the Military Police in the Army.

There isn't much more to say except that I am doing fine and still in good health, I think. The dust here on the Air base is something terrible. Everyone has a cold.

Please mention me to the kids, for I surely do miss being at home.

Love,
JOE RAYBURN

The following letter, which is self-explanatory, was received last week from Dr. Jow Burton of Nashville, Tenn.:

Dear Mr. Edgar:
I am sincerely grateful to you for the review which you gave my book, TOMORROW WE MARRY.

Still fresh in my memory also in my recollection of the cordial cooperation your paper gave to the church when I was there some years ago for revival services. I note with genuine appreciation that you are continuing that positive policy concerning spiritual matters in the community.

Surely religious forces are a bedrock foundation of any stable society. I commend you for the support you have given through your columns to the Christian institutions of my home community.

Cordially and faithfully yours,
JOE W. BURTON

1951 Refrigerators Solve Food Storage For Large Families

The large family, which has to store big quantities of food, no longer has to face the problem of how to fit an oversized refrigerator into an average-sized kitchen.

The trend in recent years toward greater food storage space without increasing external dimensions has been climaxed in 1951 refrigerators, according to John K. Knighton, general sales manager of Servel, Inc. His firm, for example, is making an 11.5 cubic foot model this year, but the outside of the cabinet is only slightly larger than the eight cubic-foot refrigerator in the company's 1950 line.

Servel engineers worked with the noted industrial designer, Walter Dorwin Teague, to streamline the 1951 gas refrigerators. Mr. Teague, who brings to refrigerator designing the style know-how he has previously applied to airplane interiors, cameras, automobiles, and other products, explained that interiors and cabinets of the new refrigerators have been designed to anticipate homemakers' future demands as much as possible. This is especially true concerning storage space, he said.

Because systematic stocking of the refrigerator is a great ally in making the most of space, new innovations into the larger designing staff has incorporated models to take care of special requirements.

An "odds and ends" basket, new in the refrigerator field, accommodates the small items for which there is usually no special place provided in the conventional refrigerator. This basket is supplied in two of the larger models. A third model has a special "quick-cold" shelf, designed for rapid chilling of salads and desserts. All refrigerators in the line, except the very smallest one, have dew-action vegetable fresheners.

Mr. and Mrs. J. A. Hill, Sr., and Marge spent several days in Fort Worth with their children, Mr. and Mrs. Lowry Wilson and Kathy and Mr. and Mrs. Tom Cloud and Tommy.

Mrs. Carl Jungman and children of Vernon visited with relatives and friends here over the week end.

Andy Pruitt of Abilene was a business visitor here Tuesday of this week.

Mr. and Mrs. C. N. Smith visited relatives in Wichita Falls last Friday.

"Here's the tire I want!"

GOODYEAR

SUPER-SURE-GRIP TRACTOR TIRE

First choice for 2 reasons!

1. Deeper soil penetration — greater pull. Goodyear's open center tread has straight deep-biting lugs. They cut cleanly into the soil, penetrate full depth, full length. Straight bars closer together at the shoulders wedge the soil for firmer grip — don't "plow out" soil at the sides.
2. Balanced straight lug tread design — longer wear. Goodyear open center lugs are all straight, all equal in size and spacing. That's why every lug works equally, pulls fully, wears more evenly.

Goodyear Super-Sure-Grips don't cost a penny more. Get them for your tractor.
