Cross Plains Noses Out Baird 19 to 18

RIISING STAR PLAYS HERE TODAY

Baird rallied with a vengeance last Friday afternoon to score two touchdowns in the last two minutes of play, but the come-back fell just short of victory. Cross Plains' faculty of winning by the narrowest of margins helped clear up the race in district 11, class B.

Atchisons drive throughout the game ended up with the second touchdown just two minutes before the last whistle. After completing several passes he swept the left end for the tally. Cross Plains ran in a substitute center, who passed wildly into the end zone, and Baird covered the ball for the last touchdown. The first score was made early in the second period. Patterson. Cross Plains end, taking a pass after it had passed through the hands of two Baird half-backs, Atchison and Green, and dashed 15 yards across the line. Baird tied the count, 6-6, when Atchison went on a long end run after he had tossed several successful passes.

'Hungry' Spenser, who enjoyed a successful day in the Cross Plains backfield, reeled of runs of from two to thirty-five yards in the third quarter, the last being good for a touchdown. It was followed by Walkers goal kick, bringing the score 13-6. Holbert taking the ball over for the third counter, making the score 19-6. Cross Plains led in tied downs 14-8 Albany, which is first with Cross Plains for first place, won a non-conference game with Stamford, 6-0.

Baird meets the strong Rising Star team here (This Afternoon) on the local gridiron. Rising Star has only two of last year men back with them but they have developed a strong team from the new comers. They played Clyde several weeks ago, the game ending 0-0.

Red Cross Chapter Chairman Urges Roll Call Support

The American Red Cross, local and National, operates entirely on the income derived from memberships of the People. This statement was made today by B. L. Russell, Jr., chairman of the Callahan County Chapter of the American Red Cross in outlining plans for the coming year. This chapter is able to serve the community as it does by reason of the response each year during the Roll Call.

Individual membership provides the motive power behind all the programs of the organization, the chapter chairman said. The generous response of our people in the past years made it possible for the Red Cross to conduct the immense distribution of Farm Board wheat and cotton. This single operation cost the National organization \$685,000.00. Acts of Congress making these Farm Board commodities available for distribution did not provide funds or means of paying overhead costs. The problem was met and handled; Red Cross taking eighty-five million bushels of wheat and eight hundred thousand bales of cotton in storage at hundreds of points in the United States, converting them into flour, cloth and clothing and distributing them to the needy and distressed in the whole country.

In its far reaching disaster relief work, the Red Cross is enabled to give necessary help only because millions enroll each year, the work of disaster relief would necessarily be limited to what it is possible to do with funds voluntarily contributed for the disaster.

There are several types of memberships to be had, the chapter head explained. The Annual Membership is \$1, but any individual may take larger memberships with full confidence that the added support given the chapter is needed and most welcome. Only fifty cents of the membership fee goes to the national organization. In the case of five, ten or twenty-five dollar memberships, the money all stays here to be used locally, except the fifty cents which goes to the National Red Cross.

Our Roll Call in Callahan County will be launched Armistic Day, and during the ensuing two weeks every adult in the county will be invited to join the Red Cross. I am confident that, on account of the service rendered the community during the past years and the continuing need during the months of recovery which are ahead, a larger membership than ever before will be enrolled by the chapter.

Mrs. James Ross has accepted the post of Roll Call Chairman and will be assisted by a large committee of volunteers in conducting the membership campaign.

620,000 Added To Pay Rolls During Sept.

Washington.—The regular monthly report of the Bureau of Labor Statistics of the Department of Labor, showing that more than 620,000 workers returned to jobs during September, covers 17 industrial and business groups. Secretary Perkins said

This increase of employment of nearly three-quarters of a million in one month does not represent the total number in all branches of industry. The industries surveyed each month normally employ about 20,000,000 of the 40,000,000 of gainful workers of the country. Reports of the Interstate Commerce Commission for the same period show an increase of 16,000 workers on class 1 railroads. Only a very small portion of the contracts let by the Public Works Administration to date had been awarded in September. Gains in pay rolls of the 17 industries surveyed indicate that more than \$10,000,000 was paid out to workers in September than in August. Total pay rolls for September were \$24,000,000 more than the weekly aggregate for last March.

WITH BAIRD BAPTIST

It was a mighty good day with us last Sunday and now we are going in for a big day next Sunday. It is to be Mission Day and we are to make a special offering to Missions. All we get in that day goes to the cause of Missions. I am going to preach Sunday morning from this subject: 'Jesus and Missions'. As I study that question I raise these questions: Was Jesus A Missionary? Did He believe in Missions? Are you trying to think and be like Jesus? Is the cause of Missions as we have it today, a worthy cause and way? Now ask yourselves these questions. Pray over the matter and come Sunday morning and let us study it together.

Bro. W. D. Boydston, Royce Gilliland and Mr. and Mrs. H. W. Plowman and I went to Hawley Sunday afternoon and attended the funeral of Dr. R. J. Blackwell. It was the doctor's request that I preach his funeral when he died, so assisted by Brethren F. A. Pope and Perry King both former pastors of the Hawley church, we held the service with a mighty strong attendance.

Our singing school at Admiral is doing fine. We will finish this week and our commencement exercises will be the Home Coming the church is holding at the week end.

My sermon Sunday night will be taken from the 7th chapter of Isaiah and the 14 to 19 verses.

An Opportunity For Service

The warning comes from every side that the Winter of 1933-34 is going to be the hardest yet, from the point of demands upon public and private funds for relief of distress.

While there are more workers back on the payrolls, and projects of public works and private enterprise are beginning to show signs of life, yet there are perhaps as many people who have just reached the end of the rope as there are whose difficulties have been lessened by getting back to work.

Millions have been living on their capital through these past four hard years. Many of these have exhausted their savings and will be forced to look to others for help in keeping warm and getting enough to eat this winter. Other millions have been giving to the relief funds until they, too are feeling the pinch severely. And all of the sources of help based upon taxation are running dry.

We are confident that the peak of the depression has been passed, that the upturn has really begun. But as President Roosevelt told the gathering at the Catholic Charities Association the other night, the hardest pull is still ahead of us.

More than ever is it necessary for everyone who can to help those who cannot help themselves. Looked at in one way, it should not be a burden but a joyous privilege to be able to feel that one has done something for the benefit of somebody else. There is no satisfaction in life like the satisfaction of unselfish service. And now, if ever, is the time when those satisfactions are available to everybody, everywhere.

Buying Champion Gives Nation Wide Stimulus

Washington.—Weekly reports to the permanent statistical agencies of the Government afford definite data as to the success of the first week of the 'Now is the time to buy' campaign inaugurated by merchants and manufacturers at the suggestion of NRA in conjunction with newspapers and advertising firms. As an illustration, new Department of Commerce figures show that the Nation spent 7.5 percent more in 5 and 10-cent and dollar variety stores than during the corresponding period last month. Whole sale trade reports in all lines were reported as averaging 15 percent more activity. Manufacturers are said to be having difficulty in filling forward orders, especially in nearly all grades of wearing apparel, which are predicted as due for sharp upturns in price. The figure set for men's suits is 25 percent by spring. A nationally known manufacturer of overalls reported to General Johnson that sales for September trebled those for the corresponding month last year. National reporting agencies predict the final quarter will show 'tremendous expansion' over the third quarter, which Dun and Bradstreet described as having shown 'impressive proportions', attributed to 'the success of the NRA program made in the solution of other major problems combined to restore confidence on a national scale.'

Did You Ever Stop To Think

By Edson R. Waite
Shawnee, Oklahoma

When all citizens have pride in their home city, they will have a better city.

When they are filled with ambition to have a better, bigger and busier city, they will cooperate together in a way that will make their ambitions become realities.

Spasmodic work on behalf of citizens brings no results; constant effort is the price that must be paid for steady community growth.

The first thing necessary toward making a city better is cooperation. All citizens should be interested in

attracting new business concerns and new capital to their city. The benefits derived does much toward bringing continued prosperity.

The man who has been a study of his home city is a better booster than the man who has not.

The man who knows all about his city can be counted on as a community worker.

Boosting for the home city pays bigger, quicker and steadier dividends than anything you can do.

It doesn't take eloquence to interest people in a live city; they know one when they see it. The idea is to get them to come and see it.

Courtesy to visitors means much to a city.

A Citizen Who Thinks It Isn't Worth While To Be Courteous To Visitors Isn't Worth While To His Home City.

The misfortunes of the great can never apologize for the weak.

The most ignoble character in all the world is the mere money-getting American.

The 'yellow peril' is here now. It is gold that makes life perilous, and the heart's history one supreme tragedy.

The person who deliberately aids in the circulation of a scandal is no better than he or she whose character they would besmirch.

No person can really live whose heart is cold and shriveled. Love and life are one and the same. Life grows richer as love deepens and broadens. The empty life is always self-centered. To save yourself, be spent for others. Selfishness is a high form of suicide.

Be it said in the general defense of men that if women could be immune from the poisoned words of her own sex, the tattle of men could bring no tarnish to their fair names. We have noticed that her very own poured the vitrol on the head of Evelyn Thaw.

Every age has its Napoleon of finance—it's Rockfellers and its Fords. Even in the dim past Noah was able to float a stock company and force the earth into involuntary liquidation. And it seems now as if we were approaching a deluge of gold.

And now, simply that 'Salome' shall be moderated to a no less apostage taste, they put out the lights just as the bewitching damsel presses the disheveled head of John the Baptist to her breast and kisses the gruesome lips. That's the worst, ever! For most the kisses are the worse because they are given in the dark.

Congressman Blanton Opposes Raise In Salary of Federal Employees

HON. THOMAS L. BLANTON

Judge Thos. L. Blanton, congressman of the 17th district, raps salary drive to restore pay scale of federal employees.

In a telegram to Hon. E. Claud Babcock, president of the Federation of Government Employees, Washington, D. C., a few days ago Judge Blanton told him that they should be thankful to God that they had positions with Uncle Sam who pays regularly while many others go hungry. Judge Blanton's telegram was as follows:

Replying your telegram just received stating that Senator Harrison assures you that cuts will be recinded and reductions in salaries of Government employees will be restored in coming session of Congress, and asking for similiar assurance from me, regret that I cannot help you. It is my firm belief that Government salaries have been entirely too high, and out of all proportion to salaries received for like work in private positions. American citizens are tired of being taxed to pay some Government employees three, four, five, six, seven, eight, nine and ten thousand dollars per year, some of whom until recently were granted thirty days vacation on full pay, thirty days sick leave on full pay, no work on Sundays numerous holidays including half of Saturdays, and generous retirement pay, all working under comfortable surroundings. Disabled Veterans have been cut materially, and Government employees must take their cuts, the same as Congressmen and other citizens, with smiling faces, and be thankful to God that they have positions with Uncle Sam, who pays them regularly while many people are starving.

BLANTON, Congressman.

We need more men like Judge Blanton, who is not afraid to stand for what they believe to be right, regardless of whether it is the popular side or otherwise, and there is never any doubt as to how Judge Blanton stands on any question. He has served his district and state well in congress and has made a national reputation for his unfaltering stand against extravagance in national and state administrations and his service to the war veterans of our country.

Hugh Nugent Fitzgerald paid Judge Blanton the following tribute some weeks ago, in the Austin States man in a write-up of a barbecue and reception given Congressman James P. Buchanan of Brenham, at the Brownlee ranch in Burnet county which Judge Blanton attended. Mr. Fitzgerald says:

"Col. Thomas L. Blanton, the fighting Congressman of Abilene, will attend the barbecue and is sure to be given a warm reception. He is one of the most remarkable men in the political life of Texas. Age has mellowed him. During the exciting special session of congress he voted for every administration proposed except the liquor proposal. He is for the Roosevelt program for recovery heart and soul. He is a national figure."

Just before closing day of the special session the cockles of his heart must have been warmed when democratic leaders from Massachusetts and New York and other commonwealths who had been his severe critics on certain occasions publicly thanked the Texan for his splendid services for war veterans, for the farmers and wage earners and for all concerned in the darkest hour of the history of the nation. There are many Texans who were his critics in other years who are willing to accord praise to the Abilene statesman for his record of achievements and for his sturdy defense of the constitution and its bill of rights. He has a fixed place in the picture of today and unless the signs are misleading he will be continued in the public service as long as he cares to offer as a candidate for a congressional post."

Poultry Hints

By Ross B. Jenkins, County Agent

BOLL WEEVIL CONTROL

Rarely, if ever, have the farmers of Callahan County been in such an advantageous condition to deal with the boll weevil as they are this year. The Bureau of Entomology of the U. S. Department of Agriculture has advocated the destruction of cotton stalks early in the fall for 25 years or more and has proven by numerous experiments that those who destroy stalks early are those who profit the following year. This year our fields are clean of cotton, most every farmer is through picking, therefore we should starve out the boll weevil or destroy him in which ever stage he may be found. Community action is the best measure but each man may make money for himself by ridding his place of weevils now.

The two most widely advocated measures are: pasture with cattle or sheep early, thereby destroying the squares and leave any adult weevil to starve or to become so weak that the first freeze will finish him. This heavy stocking will also destroy the grubs now in any bolls or squares as the livestock are very fond of any fruiting buds or bolls. If there are not sufficient livestock on the farm to graze the stalks off the other way is to plow under the stalks now. There is a two fold reason for doing this. One thing is that the weevil is destroyed, the other is the soil gets a good coat of green manure. Early plowing is the better if done with the green crop on it. All of our soils is in need constantly for more humus.

The cotton plan for the next two years requiring us to cut 40 percent next year and 25 percent the following year and to use no fertilizer. This is a step to get a head of the weevil and to enrich our soils with out violating the rules of fair play with the government. It is a man's duty to take care of his soil in every way that nature provides. If we kill out the weevil from our farms now we will be able to get an early crop before any weevils could possibly hatch from the neighboring farms and move in to our own. There is one practice that has been noticed in the years' past that should never be the practice of any sane farmer in Callahan County. That is the practice of burning stalks. Don't burn any kind of stalks. Even weeds when plowed under early will decompose and more seed will be destroyed by fermentation and other sprouting processes

than will be the case if dragged to a pile and burned. The dragging or handling will shake off more seed than are left to grow by turning under and if burned the soil has lost the most important plant food that it needs and that is the most commonly used up. That is the nitrogen which is the most costly and the hardest to restore to the soil. Mr. Cotton Farmer, get ahead of the weevil, restore soil deficiencies, and make a real seed bed for the coming year.

In connection with this talk on soils let us not forget that now is the time to get the terrace lines run and that needs terrace put up. The Commissioners have a new terracing level at our disposal now and many are calling for its use. Get a date set in our office for a visit to your farm and start the rebuilding of that soil that has been growing weaker year by year. Terraces put up in the new approved style are wide and curve slow and the point rows are not a problem any more. We are advocating the planting of two rows and skip one to help eliminate many of the short rows and it has been the experience of many of the best farmers of this section that two rows make more and require less labor and less cost for seed and are easier to harvest.

Let us have your terracing date for this office. We will be at the John W. Hughes farm terracing Wednesday, November 1st. The farmers are cordially invited to attend the school that day.

ECONOMY..CONVENIENCE..SAFETY with a Modern Electric Refrigerator

Three outstanding features of superiority have made modern Electric Refrigeration an overwhelming favorite of progressive home-managers throughout the Nation.

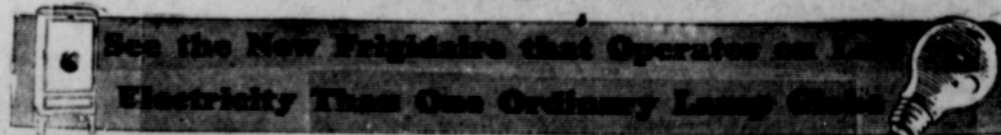

ECONOMY—Unusual economy of operation . . savings realized through the elimination of food-spoilage . . and the profits of buying groceries in larger quantities at bargain prices will net substantial savings for you.

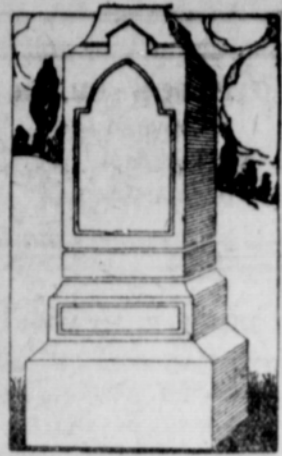

CONVENIENCE—Trouble-free . . constantly dependable . . furnishing an adequate supply of sparkling ice cubes . . offering delicious frozen desserts and salads . . and providing ample storage space for perishable foods, the modern Electric Refrigerator is a model of convenience.

SAFETY—Authorities agree that food-safety depends on a constant temperature of less than 50 degrees—in summer and winter. Electric Refrigeration maintains this safe temperature automatically—providing a constant health safeguard for yourself and your loved ones.

Truly, you cannot afford to be without this efficient "Electrical Servant." Present prices are planned to fit the average family budget—and monthly payments can be made from savings. Ask for your demonstration today.

Better Breakfasts

WITH the little birds singing, from your bed you are springing, and your breakfast is brewing downstairs, where your coffee and bacon both smell good in the makin'. Just forget all your worries and cares! When the coffee's aroma rouses you from your coma, and the melons are chilling on ice, and your cereal creaming calls you out of your dreaming, then you realize life is quite nice!

When the waffles are browning, you will soon stop your frowning, and you'll greet the new day with a grin! When the syrup is waiting, you will not stay debating but will want right away to begin! Like a flash you'll be shaving with razor time saving, you'll be

combing and parting your hair. Of a breakfast like this one you will not want to miss one little bit. But don't fret! You'll be there!
