CLOSE TO THE GRASS ROOTS

The county medical societies-of which there are 1,931 in this country and the territories-are proposed a plan for financing an expanded, ballong established institutions. But comparatively anced highway program based on equity for all few people could give an adequate description of users. A key principle of this plan is that there what these societies do.

find out, and so it conducted a survey. It found one hand-and our 3,500,000 heavy trucks on the that society activities range a wide gamut indeed other. -from cancer and tuberculosis control programs to sponsorship of Little League baseball teams.

"there appeared to be a growing awareness by all the pounding they get from heavy trucks. The societies-both large and small-of the need for Washington Daily News states editorally: "Big them to become participants in community activities." These activities, all aimed at developing better relations between the medical profession and the public, included grievance committees, which serve as "appeal boards" for patients with comlaints; medical economics committees, which maintain business services for doctors and the public, and public relations committees which work to promote better understanding. Many committees maintain speakers' bureaus and sponsor health fairs, special community health days, radio and television programs, and newspaper passing the point of diminishing return. When health columns. And many, in addition to the gen- the big truck operators pay less than their fair eral disease control programs, had committees share of road costs, all the rest of us are subsidizdealing with special problems, such as care of the ing them. There's neither justice nor reason in aged and the chronically ill. Much work was done on behalf of school health and safety programs.

The county societies are close to the grass roots. They have an intimate knowledge of local needs and problems. They're doing a big and essential job.

A LOOK BACKWARD

History is always interesting-and sometimes | pay the fiddler. it makes sad reading.

ual income tax. In 1929, the tax on a \$2,000 income | ity prices. But the unquestionable fact is that it was \$2-and for a married person with two children and a \$10,000 income it was a mere \$40.

Now the tax begins at 20 per cent, on the lowest taxable income levels. From there it goes ernment, instead of for consumption. We cannot swiftly up the ladder, reaching 91 per cent at the have a sound farm economy so long as surpluses top.

66,500 Orphans--Not 750,000

Thirty years ago, there were no less than 750,000 orphans in this country-750,000 children under 18 who had lost both parents.

Today, with a population 50 per cent bigger than it was in 1920, there are only 66,500 orphans.

Here is dramatic proof of the effectiveness of modern drugs in keeping pople alive—in keeping families together. Here is dramatic proof of the fact . . .

> **Today's Prescription Is The Biggest Bargain In History!**

(Courtesy American Druggist)

Big and great as the Lone Star State ... WITH A LOW PRICE TAG TO BOOT!

It's your kind of car . . . this handsome, rugged Texan by Dodge! At the very first glance, you'll know this is true. And when you take the wheel and "give the gun" to its mighty, aircraft-type, Super Red Ram V-8 engine, your enthusiasm will burst all bounds. For the Texan boasts a powerplant just like the sturdy Dodge that made automotive history on the celebrated Bonneville Salt Flats in Utah.

Surely you've read or heard recently how a '56 Dodge stock car shattered 306 AAA records for endurance and speed in that sensational 14-day, non-stop run. In this officially witnessed performance, Dodge covered the first 10,000 miles at an average speed of 105.43 miles per hour . . . then went on to cover more than 31,000 miles of round-the-clock driving at a record-breaking clip. This is the greatest distance at the

Now this handsome, flair-fashioned, specially trimmed Texan offers you the same rugged endurance and the same eager power as the Dodge that established these records. What's more, your biggest sur-

fastest pace any car has ever travelled.

Most likely, you'd expect to pay a pretty price for a great car like this. Not so! The Texan is priced right down with the socalled "low-priced three." Yet it's big and powerful and luxurious . . . actually rivalling cars costing as much as a thousand dollars more!

prise is still to come!

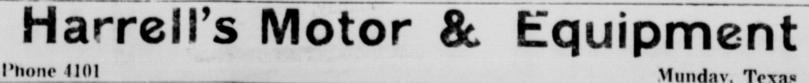

Never will you find a better "buy" nor make a better deal than your nearby Dodge dealer will give you today. Come in today and see the Texan close-up. Then judge for yourself.

Former Munday Couple Observe 50th Wedding Anniversary On February 25th

dents of Morton for the past 15 Burns of Sudan, and a son, Chesyears, observed their golden wedding anniversary on Saturday, February 5.

Mr. Smith and the former Miss Leona Owens were married on February 25, 1906, in Parker County. As a young bride and groom starting life together, they moved to a farm where Mr. Smith was engaged in farming. The couple lived in Parker County until 1932 when they moved to a Van Horn. farm in Knox County.

They lived in Knox County until 1941, moving from here to Morton where Mr. Smith farmed until his retirement six years ago.

To celebrate this happy occasion, children and grandchildren honored the Smiths when they entertained a host of relatives and day, February 25, in the Smith home in Morton.

Forming a centerpiece on the

honorees' table was a decorative arrangement of gladiolus, snapdragons and mums. Suspended above the bouquet was a gilded until six o'clock. 50, surrounded by golden wedding bells.

The beautiful tiered wedding cake was topped with a miniature bride and groom, and gold wedcasion.

Mrs. Smith wore a corsage of gold chrysanthemums tied in gold ribbon, and her husband wore a matching boutonniere.

Mr. and Mrs. Smith have two

THE MUNDAY TIMES, THURSDAY, MARCH 22, 1956

Weekly Health LETTER Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN-Fly densities in Texas will reach their peak within six weeks, state health authorities cautioned today.

Temperature and moisture will be ideal for fly growth and propagation by May, and co-inciding with the increase in the number of flies will be a marked rise in the number of cases of dysentery diseases, State Health Commissioner Henry A. Holle predicted. Last year in Laredo, sanitari-

ans were able to accurately chart on a graph a rise in dysentery diseases side by side with a rise in fly densities. They found that by starting intense fly-killing campaigns at the right time, knocking off the peaks in fly densities as shown on the graph, a parallel drop occured in the incidence of dysentery diseases.

"There is an object lesson in Laredo's experience for the rest of the state," Dr. Holle said. "Right now is the most important time of the year to begin really serious fly control programs."

More than 1100 deaths were attributed to dysentery diseases last year. Most of the victims were babies.

Senior Engineer Frank von Zuben of the State Health Department's environmental sanitation staff pointed to general community sanitation as the most vital aspect of fly control.

"If I had one choice of what I would like to impress on the mind as, it would be neighborhood "Neighborhoods are clean only takes care to keep their own

See You In CHURCH Sunday

places free of litter and fly breed- Engagement Of ing media." **Miss McGaughey**

It is a known principle of disease transmission that flies 'seed" disease organisms among some humans. Thereafter the sisk persons spread the illness to their "contacts," even after peaks in fly densities have passed.

Another "peak" will come in the fall, after hot weather has passed and fall rains come. With ideal conditions of tem-

perature and moisture, flies may

cial Security Act covering farm- this is to be averted, administraers would base the benefits on tion of the program must be their incomes in 1955 and 1956, careful and complete, and consea period in which farm income quently very costly. If the soil dropped drastically.

before Congress would permit be taken. retiring farmers to eliminate their 4 or 5 lowest-income years since 1950 in figuring the base figure for benefits, just as those covered previously are entitled to

This applies to retiring farmers 65 or older this year who have paid Social Security tax on at least 6 quarter-years of income in 1955 and 1956. If they should die, their surviving dependents are eligible for benefits.

Extended coverage to these farmers is a vital, worthwhile thing. However, it would be rank discrimination to base the security of their remaining years on lower prices, higher costs, and natural disasters which have brought their incomes to a 15year low.

TEXAS PRESS MANAGER HONORED — Brig. Gen. Lewis S. Griffing, Chief of the Texas Military District, is pictured here as he presents a U. S. Army Certificate of Achievement to Vernon T. Sanford, general manager of the Texas Press Association. Lt. Gen. J. H. Collier, Commanding General of the Fourth Army at Fort Sam Houston, Texas, signed the Certificate. It was presented in the office of General Griffing, in Austin. Among those present were Col. Thomas C. Green, TMD Executive Officer; Col. David F. Brown, Senior Army Advisor for Texas Reserves: and Charles A. Green Senior Army Advisor for Texas Reserves; and Charles A. Green, editor of the Austin American-Statesman. Sanford was honored for contributing his own time and effort to a publicity campaign pro-moting U. S. Army Reserve Day in Texas. Said General Griffing: "Mr. Sanford has greatly strengthened relations between the United States Army and newspaper publishers in the State of Texas. He has contributed significantly to the Army Reserve Program and the National Defense Effort."

Sharp, a freshman at McMurry is pledging KIVA, men's social club organized in 1939.

Mrs. Phil Chappell, dean of women at McMurry, said that the purpose of the college's nine social clubs for men and women is X to promote social and cultural growth among their members, and to boost school spirit among McMurry students.

A 1955 graduate of Munday High School, Sharp was a member of the all-district basketball team and the all-area basketball team.

At McMurry he is majoring in accounting, and played on the college's freshman basketball team this year.

Wayne Rodgers of Austin was a week end guest of his parents, Mr. and Mrs. Walter Rodgers.

Clarence Allen of Abilene visited his parents, Mr. and Mrs. Ed Allen, over the week end.

The Brazos Valley Postal Association met with the Vera employees last Thursday night at the school house. Twenty-four members and guests were present from Stamford, Haskell, Rule, Sagerton, Weinert, Knox City, Munday and Goree. The Vera employees present were Mrs. Glen Hurd, Wesley Trainham, R. E. SAY, FRIEND

Automotive Repair Work Is

All That I Know!

And I'm ready to give you the best in auto repairs that I know, since I am located in my own building, the building formerly occupied by the Garrett Farm Equipment Co.

I am at present engaged in converting the entire building into a modern and upto-date repair shop, and will add quite a lot of equipment in order to give you first class service.

My motor tune-up equipment will be installed in the near future.

As I said, auto repair work is all that I know, and I specialize in General Motors and Chrysler products. You've known me for years and know my qualifications and training. Give me an opportunity to serve you.

THE MUNDAY TIMES, THURSDAY, MARCH 22, 1956

New '56 Texas **Highway Maps** Now Available

AUSTIN-The new 1956 edition of the Official Highway Travel Map is now available, D. C. Greer, State Highway Engineer, announced in Austin today.

The map has many new features and contains a wealth of information on Texas, Greer said. Most of the topographical relief was removed from the map last year so that more essential information can be read easily and quickly. The growth of the Texas Highway System at the rate of about 3,000 miles a year has made it necessary to gradually remove some of the less important information to make room for the increased mileage, he said.

In addition to the highways and the mileages between various points, the Travel Map shows state parks with recreational facilities, historical state parks, roadside parks, altitudes, and the tion of the state represented.

The Austin office of the Highway Department, the 25 district offices, and the seven Travel Information Bureaus near the state's borders all have maps Program Announced available for distribution. Special map cards for requesting a map may be obtained at the tax collector's office when license plates are purchased.

Medical Group In **Meet Here Tuesday**

By Medical Association met Tuesday night at 7 o'clock at the Cof. be sung are "Open the Gates of fee Shop for a steak supper. After the meal the group met in the Yonder Cross", "Sunrise on a office of Dr. R. L. Newsom where Hill" and "It Was for Me" they saw an educational film at 8 o'clock.

mour; W. M. Taylor of Goree; T. S. Edwards, T. P. Frizzell and Charles Markward of Knox City, program. and Dr. R. L. Newsom of Munday

Florida fruits are in season on roadside parks, altitudes, and the Highway Travel Information Bu-reaus. The pictorial side of the map features scenes of general interest both to Texans and out-of state tourists, with every sec-tion of the state represented. Florida fruits are in season on suit by Alix of Miami. The cotton faille lastex by William Simpson is screen printed with colorful fruits. Style details of the suit in-clude removable straps, a rhine-stone studded yoke, and shirring at the linking the state represented. the hipline.

FRUITS IN SEASON

Annual Palm Sunday
