

## Your 1954 Income Tax

### Expenses for the Care of Children and Other Dependents—

If you are a woman or a widower, the new law will allow you a deduction not to exceed \$600.00 for the care of one or more dependents if such care is to enable you to be gainfully employed or to seek gainful employment.

Under the provisions of the law, a woman may be either married or unmarried. However, if she is married, she must file a joint return with her husband and the deduction is reduced by the amount which their combined adjusted gross incomes exceed \$4500.00. These last two limitations would not apply if her husband is incapable of self-support because of mental or physical incapacity.

A "widower," as used in this section of the law, is a man who

is divorced or legally separated under a decree of divorce or of separate maintenance, as well as one whose wife is deceased and who has not remarried by the end of the taxable year.

Dependent as used in this section is limited to a person for whom the taxpayer is entitled to a deduction for exemption who is (a) a child or stepchild of the taxpayer under the age of 12; or (b) a person who is mentally or physically incapable of caring for himself regardless of age.

The deduction is not allowable to the extent that payments are made to an individual whom the taxpayer claims as a dependent.

### Non-Business Deductions: Interest—

If you itemize deductions on Long-Form 1040, you can deduct interest to you paid during 1954 on your personal debts, such as bank loans and home mortgages.

Interest paid on business debts should be reported in separate Schedule C or Schedule F, Page

### 2. of Form 1040.

In figuring the interest paid on a mortgage on your home or on an installment contract for goods for your personal use, eliminate such items as carrying charges and insurance. These are not deductible.

The law for 1954 returns differ from the law for prior years in regard to interest deductions arising from purchasing personal property on the installment plan. Under the new law, you can deduct interest paid for purchasing personal property, property TV's, etc.) even though the interest charges are not separately set out from other carrying charges. This deduction is equal to 6 percent of the average unpaid monthly balance under the contract but may not exceed the portion of the total carrying charges attributable to the taxable year.

You CAN deduct interest on: Your personal note to a bank or individual

A mortgage on your home. A life insurance loan if you pay the interest in cash. Delinquent taxes.

You CANNOT deduct interest on:

Indebtedness of another person, when you are not legally liable for payment of the interest.

A gambling debt.

A life insurance loan, if interest is added to the loan and you report on the cash basis.

If not pleased, your 40c back at any drug store. Itch-Me-Not has mild anesthetic to ease itch in minutes; has keratolytic, anti-septic action that sloughs off outer skin to kill germs and fungus on contact. Fine for eczema, ringworm, foot itch, other surface rashes. Today at Rexall Drug Store. 33-4tc

### BLAZER STRIPES

A group of cotton separates by Jo Collins of St. Louis shows the influence of the young look of the twenties fashion era. Designed in a new, non-wrinkling cotton, the middy top of this smart outfit is done in blazer stripes, while the skirt is solid. Wrinkle-resistant cottons are favorites because they are as practical as they are pretty, National Cotton Council fashionists say.

### TRAFFIC LAWS MADE TO PROTECT DRIVERS AND PEDESTRIANS

No one can continually violate traffic laws without paying the penalty . . . either a fine or involvement in an accident. If you don't know the laws, learn them, advises the Texas Farm and Ranch Safety Committee, and then obey them.

The committee has figures from the National Safety Council which show that records of fatal accidents in 1953 involved 76 traffic violations per 100 drivers. Speeding, nearly 3 out of 10 drivers in fatal accidents were violating a speed law. The per-

centage in rural areas was even slightly higher, over 10 percent above the rate for cities.

Among drivers involved in fatal traffic accidents, 18 out of 100 had been drinking. Seven out of 100 drivers in fatal accidents did not have the right-of-way. The city rate exceeds by almost three times the rural rate in this classification. Improper passing involved 3 out of each 100 drivers in fatal accidents and 9 out of 100 drivers failed to keep to the right of the center line of the highway.

Disregarding a traffic sign, signal or officer was the violation involving 6 out of 100 drivers in fatal accidents. The committee points out here that rural drivers were more frequently guilty of disregarding stop and warning signs while their city cousins more often disregarded

a signal or officer.

Statistics show 8,600 pedestrian fatalities in 1953 with 36 percent caused from crossing between intersections; more than 1,800 of the 6,650 adult pedestrian deaths were attributed to alcohol while crossing against the signal accounted for 5 percent of those killed. Playing in the roadway accounted for 26 percent of the child pedestrians under 5 years of age killed or injured and 18 percent of those between 5 and 14 years of age.

Finally, warns the committee, don't depend on luck for traffic safety. Know and obey traffic laws, they are passed for your protection.

### NOTE OF APPRECIATION

I want to thank the people of Munday, the nurses and doctors in Knox County Hospital for their kindness to me during my recent illness and stay in the hospital. The pot plants were lovely, and I appreciate them very much. May God bless and keep all of you.

## There's even more to Chevrolet styling than meets the eye!

1 Visored headlights

2 Lowered High-Level air intake

3 Sweep-Sight windshield

4 Distinctive dip in belt line

5 Fender-high taillights

6 Tasteful two-tone color styling

This is beauty with a bonus . . . for Chevrolet styling is designed to add safety and comfort while you drive, and to return greater value when you trade.

Truly modern lines are shaped by usefulness. You can see what we mean in the deep crystal curve of Chevrolet's Sweep-Sight windshield . . . a dramatic style note, certainly, but one that stems from the need for wider, safer vision. Or take high-set taillights—they add to the impressive length of line . . . but they are up where they can be seen for safety's sake.

The smart louvers across the hood aren't just decoration . . . they mark the intake for the High-Level ventilation system for cleaner, fresher air. And the whole shape of the body—its lowness, the dipped belt line—is merely a reflection of a lowered center of gravity, the added stability.

This is truly functional styling that serves you better every mile, and preserves its value against the distant day when you trade. This is Body by Fisher—another Chevrolet exclusive in the low-price field. Come in and let us demonstrate that this new Chevrolet is just as exciting to drive as to look at!

#### FUTURE HOMEMAKERS OF VERA HIGH SCHOOL ATTEND DISTRICT MEET.

Several members of the Future Homemakers of America class of Vera High School attended the Annual F. H. A. Area 4 District meeting at Stephenville last Saturday, March 5th. The group accompanied the Benjamin High School students on the Benjamin school bus. Those making the trip included Maxine Park, Virginia Jackson, Reta Trainham, Patsy Peddy, Riddle Lou Parham, Jan Richards, Jeanette Beasley, Janelle Jackson, Elizabeth Brown, Betty Faye Bradford, Barbara Lee Coffman, Derrell Coffman and Mrs. Benham.

Mr. and Mrs. Hope Bratcher and little son, Wayland, of Childress spent the week end with Mr. and Mrs. Barney Welch.

Week end guests in the home of Mr. and Mrs. Willis Peddy were Mr. and Mrs. Buster Peddy and daughter, Mrs. J. C. Ship-

man and daughter, Janell, of Lubbock, Mr. and Mrs. Hyder Peddy and three children of Grand Prairie, Mr. and Mrs. Orville Peddy and family of Munday and Mr. and Mrs. Junior Peddy and two children of Big Spring.

Mr. and Mrs. Floyd Jordan of Wichita Falls and Mrs. Alvin Roberson and Ronny of Seymour visited in the Rube Richards home Sunday.

Mr. and Mrs. Tom Bowdoin spent the week end with their son, Mr. and Mrs. Johnny Bowdoin and little daughter of Ralls.

Mrs. Gaylan Scott was hostess to the Matrons Club last Thursday afternoon. Members attending were Mesdames Wesley Trainham, Ted Russell, Jess Trainham and Bill Doss.

Mr. and Mrs. J. L. Trainham, Jr. and sons of Duncan, Oklahoma were week end visitors in the Jess Trainham home.

Mrs. Lona Feemster is home after spending Wednesday through Saturday of last week in the Knox County hospital.

Mr. and Mrs. Harold Beck and little daughters were business visitors in Wichita Falls Satur-

day. Monk Bradford and Mr. and Mrs. Garvin King and children of Abilene were home for the week end.

Mr. and Mrs. Harlan Boone and family of Seymour visited Sunday with Mrs. Boone's sister, Mr. and Mrs. Dalton Gore and family.

Miss Jessie Myers and her mother, Mrs. Minnie Myers, visited Sunday with Mrs. Myers's sister, Mrs. Allie Alls of Hamlin, on her 72nd birthday.

#### Easier Tacking

The handling of tacks is greatly simplified with the use of a magnetic hammer and a slanting pickup surface. Here's how it's accomplished: Use a 12 x 14-inch

piece of Masonite Presdwood, fastening a block of wood to one end as illustrated in *American Builder*. Spill some tacks at the upper end of the incline, and they will assume a head down position when the board is jarred slightly. With their heads facing in one direction it's a simple matter to pick them up, one at a time, with a magnetic hammer, and drive them home.

#### Methodist Circle Meets On Monday In Church Parlor

The Woman's Society of Christian Service met Monday afternoon in the church parlor. The hostesses were Mrs. Gill Wyatt, Mrs. H. Doyle Ragle and Mrs. C. R. Hendrix. Mrs. W. R. Rodgers served as hostess in the absence of Mrs. Wyatt. The motif of St. Patrick's Day was used throughout the parlor. A shamrock leaf was pinned on each member upon arrival. The refreshment table was spread with a white linen table cloth; and the beautiful center piece was made of shamrock and white flowers. Lime punch, shamrock cookies, nuts and mints were served to those attending, and a social period was enjoyed before the regular business meeting.

Mrs. E. W. Harrell, program leader, read the scripture.

Mrs. H. Doyle Ragle used as her subject "The Women of the World Council, or United Church Women." Having attended the meetings of the World Council of Churches at Evanston last year, Mrs. Ragle was able to bring a very educational lecture on the work of the United Church Women, also pictures of the thirty-eight women delegates to the council, representing nine countries.

Members present were Mrs. R. D. Atkinson, S. A. Bowden, J. C. Borden, Bruce Burnett, J. A. Caughran, G. R. Elland, Oates Golden, E. W. Harrell, C. R. Hendrix, A. D. Irick, E. E. Lowe, Maude Merrill, W. R. Moore, H. A. Pendleton, H. Doyle Ragle, G. M. Roden, W. R. Rodgers, J. S. Shannon, M. L. Wiggins, and Miss Shelley Lee.

The Circle will begin a new study Monday afternoon, March 14 under the direction of Mrs. J. C. Borden "That They Might Have Life," is the book, the Church is the place, and 3 o'clock is the time. All ladies are urged to be present.

### Munday H. D. Club Meets Recently With Mrs. Peysen

The Munday Home Demonstration Club met recently in the home of Mrs. John Peysen. The meeting was called to order by Mrs. R. M. Almanrode, president, and roll call was answered by naming a favorite shrub.

Minutes were read and approved. Mrs. F. W. Pape gave the cancer report. She resigned as council delegate and Mrs. Joe Patterson was elected. Council recommendations were read and approved, and Mrs. Patterson gave a demonstration on landscaping.

The next meeting will be in the home of Mrs. Frank Bowley, and a "new meat dish" will be the demonstration.

Present were Meses. R. M. Almanrode, Joe Patterson, F. W. Pape, Frank Bowley, J. O. Tynes and John Peysen.

Mr. and Mrs. Gene Thompson and children were business visitors in Amarillo and guests of his sister and family in Hereford last week.

Mr. and Mrs. Clifton Patterson and children, Mrs. Robert Patterson and Mrs. Chas. Bellinghausen were business visitors in Wichita Falls Monday.

**MEXICAN CATTLE RUNS TAPER OFF**  
 FORT WORTH—Imports of Mexican cattle have so far had very little effect on the United States cattle situation in the opinion of observers at Fort Worth, and reports that runs had dropped to a level of 9,000 head per week by end of February indicate that likely they will be a factor this year. Earlier in the year imports averaged 20,000 to 30,000 a week.  
 Some fears had been expressed that the influx of Mexican cattle might further depress prices in the country. Foreign Agricultural Service of the U. S. D. A. this week announced that the total number of cattle imported from Mexico since January 1 was about 163,000 head. Mexico

had set up on original quota of 346,000 head for the year, later trimmed to 331,000 head for 1955.

Packers at Fort Worth have received a few live cattle, mostly bulls and canners and cutters. Some frozen and cured meat has been noted in the trade channels here, but Mexican beef has been a very small factor in prices so far.

**CATTLE STRONGER ON MONDAY AT COWTOWN**

Boys' club steers from last week's livestock show at Paducah, Texas, topped Monday's trade at \$23 to \$26 per hundred, and some commercially fed cattle sold at \$23.50 down. Trade was active and strong throughout the list on all cattle and calves and some sales measurably higher on all kinds. Cows sold to \$13 and \$14 were definitely higher. Slaughter calves were strong, top kinds \$19 to \$21. Stocker cattle and calves met strong demand and strong prices, with quality mainly confined to just fairly good, at best.

**DRAFT HORSES NO MORE AT STOCKYARDS**

The last of the big Percheron and Clydesdale horses that were

once the pride and joy of the Stockyards Company at Fort Worth, gave up the ghost last week. The remaining two, "King" and "Dude" were giants of nearly a ton in weight apiece and were sold.

Thus the tractors, or "mechanical mules" as they are called by the yard hands, are in complete control of the hauling on the yards.

However, there will always be horses on the yards since many of the buyers use them each day in their rounds on the market. A good horse enables a man to save a million steps and get around over the 80 acres of the market more quickly.

**SHEEP AND LAMBS OPEN UP STEADY**

Sheep and lambs at Fort Worth were steady Monday with Milk Fat lambs topping at \$23.50, equaling the season's best level, and old crop fat lambs sold at \$21 downward in the wool and shorn lambs sold from \$20 down. Feeder lambs cashed at \$17 to \$20. Old ewes drew \$6 to \$9. Old bucks sold around \$5 to \$6. Old wethers cashed at \$10 to \$14, and yearling muttons sold from \$17 down.

**HOGS ADVANCED FROM 5-YEAR LOW EBB**

Hogs topped at \$16 and \$16.25, or steady to 25 cents above last week's close at Fort Worth Monday. Last week's closing level at \$16 was the lowest since April 1950! Almost five years ago.

Sows were steady at \$12 to \$14. Chicago Monday had a top of \$15.50 to \$16, with a truck lot at \$16.25. Omaha reported Monday's top \$15.50 to \$16, with one double deck load at the extreme high of \$16.50. St. Louis reported the top \$15.50 to \$16, about a double deck load at \$16.25 Monday.

**MARKETING EXPERTS TO EAST TEXAS**

On March 10-11-12 a group of livestock salesmen from Fort Worth will visit farms and ranches in Hopkins and adjoining Northeast Texas counties to talk over market demand, grades, classes and other livestock matters with producers in that area. Occasion is the Northeast Texas Livestock Association Show at Sulphur Springs. The visit was worked out in cooperation with the association and County Agent Brooks Emmons. The Kaufman County Livestock Association meeting March 17 will be devoted to livestock marketing and a group of experts from Fort Worth will stage the program. Later in the week visits into the territory with farmers and ranchers will be arranged to acquaint them with grades, classes, market demand, etc.

**SOMETHING NEW!**

A new departure in the fashion field and a new addition to the "do it yourself" group of products are ready-to-sew dresses. Packages of pre-cut cotton fabrics with thread, buttons, belts and other accessories are put together quickly and easily by women who sew. The complete package is priced at under ten dollars.  AUTOMATIC GAS WATER HEATER

**Cleaner Washes** because it supplies load-after-load at tank temperature of 180 degrees—recommended for faster and more thorough dirt removal, whiteness retention and bacteria destruction! Soaps, detergents or washers cannot be blamed for dingy results when low water temperatures are used! Laboratory tests prove, the hotter the water the whiter the wash!

**Cleaner Washes** because Ruud-Alcoa withstands the greater corrosiveness of high-temperature water. Aluminum alloy tank never rusts! Water is always sparkling clean even at 180 degree settings.

**Laundry Rating** matches the right Ruud water heater to your particular washer. Washing becomes really automatic... you wash when you please, as often as you please!

### Better Miter Box

HERE'S a miter box that has two advantages. Mitters can be cut on either or both sides, and the outfit has a solid base. Take three pieces of 1 x 2 lumber and cut them to a length of 10 inches, according to *American Builder*. Nail them to a 2 x 4 about 24" long into which 45-degree miters and a straight cut have been sawed. Finally, nail a piece of 1 x 2 about two feet long on each side of the 2 x 4.

75 foot tower and antenna with antenna-rotor. Used about 18 months. Cost \$350. Will sell this week only for \$350. See Pendergraft at 924 West G St., after 5 p. m. 1tp Will sell tower separately.

damaged by wind erosion this winter. If above-normal winds come to the region this spring as they did last year, farmers probably will have a serious dust problem.

If the sand comes, it will again point up the need for adequate conservation practices. The government in the past has provided co-operative funds to encourage permanent improvements that will protect the soil in "blowing" areas. Protected land is the only sure solution to the annual problem.

No gasoline—no, not a single one—has higher octane than

# New 1955 GULF NO-NOX

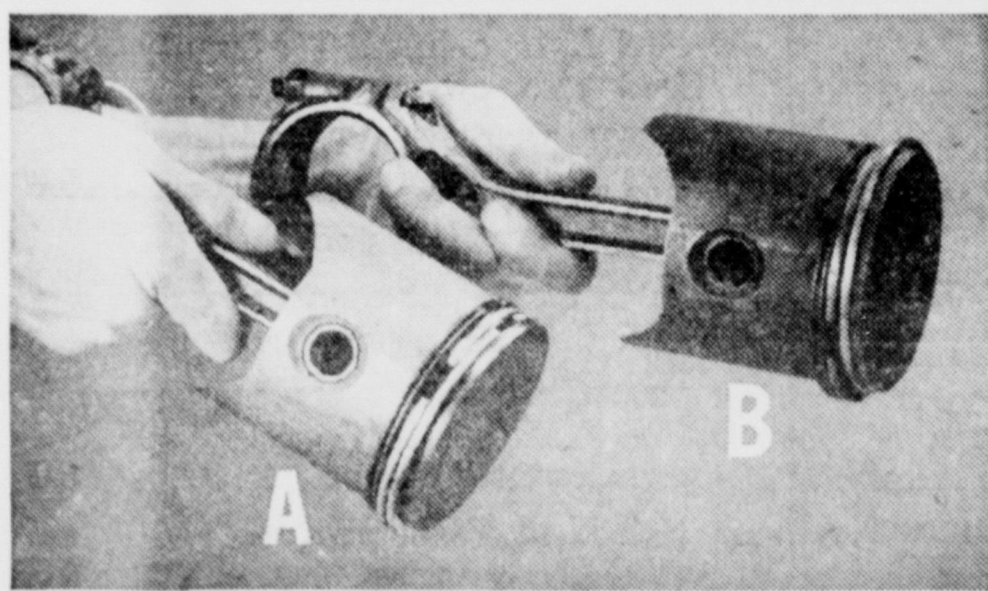

but octane alone is not enough . . . New No-Nox burns clean!

Only a gasoline that burns clean can make its full octane power really work for you. Instead of trying to fight harmful deposits with so-called "miracle additives"—inside your engine—Gulf believes in preventing them from forming in the first place; removes the cause—the "dirty-burning tail-end" of gasoline—at the refinery.

The plates in the photo show what a difference Gulf super-refining makes!

and clean-burning No-Nox gives your engine . . . more complete protection!

Gulf treats new NO-NOX to protect every part it touches against harmful deposits. See for yourself: Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirty-burning tail-end" of gasoline that Gulf refines out. Both pistons, at left, from Gulf test engines, ran the same number of hours under the same conditions.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts. You'll get:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the short-trip, stop-and-go driving motorists do most.
- Stall-proof smoothness . . . instant starts . . . fast, fuel-saving warm-up.
- No knock, no pre-ignition—even in today's high-compression engines.

It's super-refined . . . to burn clean!  
The '55 gasoline for all high-compression engines

#### GULF'S PLEDGE to the motoring public

- We at Gulf make this promise to America's motorists. We will not permit a single competitor —no, not a single one—to offer a gasoline superior to our own superb No-Nox.
- It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest—in power, in performance, in engine protection.
- This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by all the resources—and the integrity—of the Gulf Oil Corporation.

### CARD OF THANKS

To our many friends who were so kind to us in our recent sorrow, we want to express our sincere thanks for their thoughtfulness. We feel as though our burden has been easier to bear with their comforting hand. The deeds that were rendered while our loved one was in the hospital and the beautiful flowers, food, and generous time given at her death to help us, will always be remembered in all our hearts. May God richly bless each of you for his prayer.

The D. R. Donoho Family.

Mr. and Mrs. O. C. Prather and Mr. and Mrs. John Prather attended the funeral of O. C. Prather's father, Solomon B. Prather, in Amarillo last Friday.

## Knox Prairie Philosopher Claims Horror Comics Are Best Ally Parents Have For Explaining Their Children

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek may be entirely out of his field this week, but that's his affair, not ours.

Dear editor:

March winds have been blowing in an extra large number of newspapers out here lately and it's all I can do to keep up with reading em, what with lots of farm work to do, although when it comes to letting farm work or newspapers pile up, the choice is always clear in my mind, as my philosophy is an idle tractor burns no gas, an overturned wheel wastes no rubber, a stalled motor uses no oil, a penny saved is a callous avoided, and yesterday afternoon I was trying to catch up and was going along pretty good when I ran into an article that alarmed me.

According to this article, another organization is after Congress to put stiffer bans on comic books and television programs, on the grounds that horror comics and gun-play television shows are contributing to the delinquency of the children of this nation. This group wants laws passed practically banning comics and T. V. shows.

I sympathize with this group, but I believe they're making a big mistake.

Look at it this way: suppose they get a law passed banning comics and T. V. crime shows, and the rate of child delinquency continues about like it is?

Where's that gonna leave the parents? Who're they gonna put the blame on then?

I tell you, comic books and T. V. shows are the greatest inventions ever perfected for parents hunting for something to put their finger on outside of themselves to blame for the kind of children they're raising, and hey get some laws passed eliminating em and delinquency stays about like it is and they're liable to wake up with the spotlight

J. A.

shining in their own eyes.

The last thing a parents wants is the removal of the best alibi he's got.

Tone down the comics if they like, spill a little less blood on television, but when you start talking about banning em altogether, you're knocking out one of the best props a parents ever had for explaining the type of child he's bringing up, and if grownups are smart they'll go easy on this.

Yours faithfully,  
J. A.

### YULE BREAKFAST TREAT

Many families will be entertaining house guests some time during the holiday season. That means not only extra-special luncheon and dinner menus, but also breakfast entertaining. A grand idea for a Yuletide breakfast treat is this topsyturvy Dutch apple cake—and it's equally good as a tea-time snack.

**Dutch Apple Cake**  
 1/4 cup margarine  
 3/4 cup brown sugar  
 1 teaspoon cinnamon  
 1 tablespoon milk  
 2 baking apples, peeled and sliced thin  
 2 cups sifted enriched flour  
 3 teaspoons baking powder  
 2 tablespoons sugar  
 1/2 teaspoon salt  
 1/3 cup margarine  
 1 egg  
 3/4 cup milk  
 Melt margarine and add brown sugar, cinnamon, and milk. Pour into a 9-inch layer pan or square pan. Arrange sliced apples in brown sugar mixture. Sift together flour, baking powder, sugar, and salt. Cut in margarine as for biscuits. Combine egg with milk and add to flour mixture. Stir only until flour disappears. Spread dough carefully over apples. Bake in a 350 degree oven for 45-50 minutes. Serve upside-down, garnished with whipped cream if desired. This makes one 9-inch cake.

Uses His Head Saves His Feet

Nobody around here can remember when Pop Turner wasn't our town's postman. He must have been totting that big, heavy mail-sack since Pony Express days.

That's why it's sometimes a shock to see him these days pulling his mail bag around in a "caddy cart," a sort of light wagon that golfers use so they don't have to carry their clubs.

"Folks sometimes holler 'fore' at me and ask me how my game is," Pop reports, "but I'm not ashamed to learn something new. Just wish I'd thought about these

golf gadgets years ago!"

From where I sit, it's good to see someone come up with a new wrinkle—keeps us from feeling too regimented. For instance, perhaps you've always felt that hot milk is the only thing to drink at bedtime. Then someday you meet a fellow who prefers a cold glass of beer. Well, that's his choice—and certainly he's entitled to it. We can't expect everyone to follow our old habits to the "letter."

# MORE PEOPLE BOUGHT FORD CARS IN 1954 than any other make!

Ford passenger-car sales to customers outnumbered those of any other make by thousands\*

AND IT'S EASY TO SEE WHY!

Ford is the leader in styling

Motorists know that Ford has set the style trend in the industry for years. And now, with styling inspired by the fabulous Thunderbird, Ford is farther out front than ever!

Ford is the leader in V-8 power

Ford was first in its field (by 23 years) to provide the advantages of V-8 power. Since that time, Ford has built over 14,000,000 V-8 engines—more than all other makers combined! For 1955, Ford offers two new and mighty V-8's, as well as a most modern Six—all with the split-second response of Trigger-Torque power!

Ford is the leader in ride

Ford was first in its field to introduce Ball-Joint Front Suspension—the greatest advance in chassis design in 20 years. And, for '55, it's even better. Springs are set at an angle to smooth out even the tiniest bumps. It's the new Ford Angle-Poised Ride.

## News From The U. S. Congress

Congressman Frank Ikard

America is truly a nation on wheels, and if we are to maintain our rapid economic and social growth and development, it is essential that these wheels keep rolling. If there is any doubt about this, we have only to look at a few facts and figures. 9,700,000 people in this country are employed in the highway transport industries. That is one out of every seven employed persons in the United States. 85% of the workers of this country living over ten miles from their jobs depend on passenger cars for their transportation. We have approximately 700,000 people in Texas employed in the highway transportation industries. Motor vehicle registrations in the country have increased over 3,000,000 vehicles or 5.7% in 1953 over 1952. In Texas, motor vehicle registrations increased over 200,000 in the same one year period or about a 6.5% increase. Our highway system through the years has certainly not kept up with the tremendous strides we have made in motor transportation and the increased usage of automobiles. A few minutes on any highway in the country will convince anyone of this.

Last year the President appointed an Advisory Committee headed by General Lucius D. Clay to study the highway situation. General Clay's report was submitted a short time ago. As a result of this report, the Federal Road Program is apt to become one of the questions that is discussed most heatedly during this session of Congress. There is not enough space here to discuss fully the Clay Report; however, it provides very generally for the

continuing of the regular Federal aid program to highways at the rate of about \$623,000,000 a year and additional expenditures of \$25 billion during the next ten years on a so-called "interstate" highway system. There are many points of the Clay Report with which I cannot agree. In fact, my points of disagreement are too numerous to be set out here; however, even those of us who do not agree with the report should admit that the Advisory Committee has served a good purpose in that it has focused public attention on the inadequacies of our highway system, and even though the plan outlined in the report has at this time practically no chance of being adopted, it has created the public interest that is necessary before our traffic and highway problems can be solved.

Visitors from home this week were Mr. Lee Howell and Mr. Henry Wolfe of Iowa Park; Mr. Sam Davis, Mr. Richard H. Alexander, and Mr. Leon Osborne of Denton; Mr. James Paul Donnell of Justin; Mr. Tom Spauldin of Ponder; Mr. Billy Tindle of Krum; Mr. V. M. Klaborn of Decatur; and Mr. Bob Pedigo of Pilot Point.

## Weekly Health LETTER

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN — A man's best friend can often be his headache, according to Dr. Henry A. Holle, State Health Officer. This is hard to believe when you head is throbbing with pain, but the truth is that a headache is most often Nature's signal that all is not right in your little world.

That's because a headache is not an ailment itself, but a symptom of something else. That "something else" may be as simple a problem as too much food and excitement the night before; it may, on the other hand, be a serious threat to bodily health. In either case, it is a warning that you should act immediately, in the one case by slowing down the tempo of your social life, in the other by seeking the advice of your physician.

Headaches can be caused by fatigue, by infection, by allergy, by an injury or by an emotional

disturbance. But all of them fall into three categories: mechanical, toxic and functional.

A headache from eyestrain, overwork or inflammation of the sinuses is a mechanical one; headache caused by too much acid in the body, by constipation, by over-indulgence in alcohol, by inhaling certain gas fumes, all of which slow up the blood circulation, are toxic headaches. Functional headaches include the oft-mentioned migraine and those caused by high blood pressure.

Most headaches need not cause over-alarm. If they occur infrequently, the trouble is often the "morning after" type, which should, of course, call for the obvious remedy—eliminate the night before. Or is your office

or bedroom improperly ventilated? That could cause the trouble. If headaches recur frequently and under the same conditions and in the same areas of the head, heed the danger signal your own body is giving you. Consult your physician. And don't lean too heavily on the support of aspirin and similar patent remedies. Their aid is only temporary at best and does nothing to affect the real seat of the trouble.

Mr. and Mrs. J. R. King visited in Fort Worth last week.

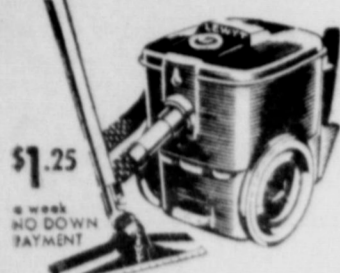

Mr. and Mrs. Jack Benton and sons of Fort Worth were week end guests of her parents, Mr. and Mrs. J. D. Crockett.

Mr. and Mrs. Buster Frailey and Mr. and Mrs. R. L. Wyatt of Shamrock; Mr and Mrs. Orben Wyatt and sons of Mexico; Ralph Wyatt of Los Angeles, Calif.; Mrs. L. Imhoff, St. Louis, Mo.; and Mr. and Mrs. Coy Dial of New Iberia, La., were guests in the home of Mr. and Mrs. Gil Wyatt the first of this week and attended the graveside services of Jack Bee Wyatt in Knox City on Tuesday morning.

Miss Ann Nelson of Dallas spent the week end with her parents, Mr. and Mrs. Clyde Nelson.

Mrs. Charlie Haynie, Jr. and Donnie were visitors in Wichita Falls one day last week.
