

## Kracker Krumb's

Odd Bits Salvaged  
at Random

The pitter-patter of rain on the roof just about our getting up time Tuesday sounded plumb good.

Someone has said we were due to get a good portion of rain in April, and we reckoned the fifth day of the month was just as good a time as any to start.

But, alas! It stopped before any appreciable amount fell. Barely enough to record.

But the big blow at Stamford and the heavy hail at Gilliland made us wonder if we weren't better off.

At Gilliland, they reported hail literally covered the ground and some farmers feared for their wheat. At Stamford the Cowboy Reunion buildings were blown about.

At noon Tuesday, we got reports that Munday was alerted for tornado warnings. Supt. W. C. Cox announced the warnings in the school.

Which reminds us that next Tuesday night we're going to have tornado warnings in Munday.

It won't be the real thing—we hope—at least that's not the way it's planned.

The fire department is giving this "mock alarm" to let us know just what will take place in case we get a real tornado warning during the storm season.

The fireboys want us to cooperate during the warning period—it's to take place at 8:30 p. m.—by staying inside our homes and thinking of what we'd do if it was the real McCoy.

Right at the moment, we don't know what we'd do. Reminds us of the time we told J. C. Shockey when he lived here that we wouldn't know where to go if we started out to hunt a cellar.

Shockey started out naming all of our neighbors who had cellars—those on either and all sides of us—and he lived two blocks further down the street!

Shockey was storm conscious. We weren't. Guess we'll get blown away sometimes, but we can't forget our boyhood.

We'd rush home from a date, just ahead of the rain cloud. As we stretched out in bed and entered the blissfulness of slumberland, there'd come a rap on the stairway and Dad would say: "Let's go to the cellar. That cloud looks like it's got wind in it."

We'd hunker down in a dirt cellar—our family pretty well filled an ordinary cellar to capacity—for what seemed hours on end, and by the time the cloud blew over and morning came, we hadn't been privileged to sleep very much.

But we're not poking fun at those who are scared of clouds. We're just a little more cellar-conscious since that tornado hit Knox City a little over two years ago.

Munday voters are running true to their past history.

In the trustee election last Saturday, the voting was very light. None of the candidates for school trustee received as many as 100 votes.

Our face is red, too. We plumb forgot about the election until Sunday morning when we read the results in a daily paper.

We tried to make amends by voting early in the city election on Tuesday.

The vote was a little better in the city election Tuesday, inspired by a mild write-in campaign.

It rained again Wednesday morning—and hooray—about a half inch.

## Prominent Attorney, County Political Figure, J. C. Patterson, Dies Sunday

A former Knox County judge and well known practicing attorney of this county, J. C. (Carl) Patterson of Benjamin, died of a heart attack last Sunday.

Mr. Patterson had been in failing health for several years and had been under treatment for a heart ailment. His illness had hampered his activities during recent years.

Born on December 31, 1891, Mr. Patterson was 63 years, 3 months and 2 days of age. He had been identified with county political affairs for many years, having served several terms as county attorney and also as county judge of Knox County.

During the time he was not holding county office, Mr. Patterson was engaged in private practice of law.

Funeral services were held from the First Christian Church in Benjamin at 3 p. m. Monday, April 4. Officiating were C. H. Richards of Santa Anna, Rev. K. E. Wooley, pastor of the Benjamin Baptist Church, and M. A. Bumpas of Benjamin. Burial was in Benjamin Cemetery under the direction of Warren Funeral Home of Knox City.

Mr. Patterson is survived by his wife, of Benjamin; one son, Elton Patterson of Lubbock, and one daughter, Mrs. Leona Darwin of Lubbock. Other survivors include two brothers, Oral Patterson of Benjamin and Harry Patterson of Vera.

## Prizes Offered In Child's Photo Contest Of Area

Through arrangements with Winston B. Lucas of Irving, child photo contest is being held for Munday and area, and all children's photos will be published in this paper.

Mr. Lucas will be at Bertha's Babyland on Tuesday, April 12, from 9 a. m. to 5 p. m. for the purpose of taking the pictures.

In addition to having their pictures printed in this paper, the children will be competing for \$18.20 in prizes which are being offered for the three best photographs made during the day.

Profits will be shown at a later date, and from these you may select the picture of your child which you would like to appear in the paper. If you wish extra photos they may be purchased, but no purchase is necessary in order to have your child's picture appear in the paper or in order to compete for the prizes.

There is no age limit on the contest, but it is necessary that all pictures be of uniform size, so they must be made by Mr. Lucas on the above date in order to be published or entered in the contest.

## Junior-Senior Banquet Is Held Here Saturday

The annual Junior-Senior banquet was held Saturday night in the grade school lunch room. There were 105 present for the occasion, including juniors, seniors, faculty and guests.

The theme was "Hitch Your Wagon to a Star," and the room decorations carried out the theme with blue and silver, with red wagons filled with sweetpeas, hitched to stars.

The program consisted of invocation by Durwood Thigpen; toastmaster was Waymon Smith; "Star Gazing," toast to the seniors, by Robert Bowden; "Beware of Meteors" (response), Terry Harrison; music, Edward Melton, senior will, Joe Sharp, class prophesy, Shirley Eubank. Guest speaker was Payne Haddox, minister of the Church of Christ. Using the theme, he said, "aim high, set a high goal and work to that end."

The meal was prepared by the mothers of the junior students and served by the sophomores.

## HASKELL SINGERS TO MEET AT WEINERT

The Haskell County Singing Convention will be held at 2:30 p. m. Sunday at the Methodist Church in Weinert, it was announced Tuesday.

The public is cordially invited to be present and enjoy this program of songs.

## County Raises Quota For Red Cross Drive

A report from Mrs. V. M. Browning of Truscott, county Red Cross chairman, this week showed that Knox County again exceeded her quota in this drive which closed recently.

With a quota of \$2,390, Mrs. Browning reported that the overall amount raised in the county was \$2,506.82.

Mrs. Gene Thompson, chairman for Munday, reported a total of \$812 raised locally. Munday's quota was \$760.

"I want to thank each and everyone who helped in any way to make the drive in Knox County as successful," Mrs. Browning stated.

## Salk Vaccine May Be Given Here In April

The new Salk vaccine for polio will likely be given first and second grade students of Knox County during the third week of April, it was announced Tuesday by Dr. D. C. Eiland, county health officer.

This depends, of course, on the vaccine being approved and licensed, announcement of test results due to be made on April 12.

The County Medical Society met on March 22 and agreed that local physicians would donate their time and that of their assistants, as well as all supplies, free of charge. The vaccine would be furnished by the National Foundation of Infantile Paralysis.

Dr. Eiland also met with the county teachers on March 25 and furnished requests for parents to sign for the children to receive the vaccine. These were passed on to parents, and 92 1/2 per cent were returned requesting the vaccines.

Local physicians are ready to start as soon as the vaccine is licensed and supplies are received. It is assumed this would be the third week in April, should the license be granted. Vaccines will be given at local doctors' offices and at the Knox City Clinic and possibly other places.

The number of first and second graders in each school of the county and the number of requests received are as follows:

Benjamin	24	22
Goree	39	30

## ATTEND BOY SCOUT CONCLAVE SATURDAY

H. T. Cunningham accompanied Tommy Cunningham, Eddie Jackson and Carol Odell to Wichita Falls last Friday night and Saturday where the scouts attended the Scout conclave at Sheppard Air Base. This is held each year for scout explorers.

The boys had airplane rides in a B-25, skeet shooting and watched fire fighting. The boys reported a wonderful time.

## Special Service For Good Friday Is Announced

A special Good Friday service will be conducted at the First Methodist Church as a part of the revival meeting now in progress. The service will begin promptly at 12 o'clock noon and will continue until 3 p. m. in remembrance of the three hours which Jesus Christ spent upon the cross. The evangelist, Dr. Ray N. Johnson, will bring the messages based on the seven statements of Jesus while on the cross. Mr. Bob McDonald, minister of music at the First Methodist Church in Vernon, will be present to sing seven solos which will tell the story of the suffering of Jesus in music. The local church choir will lead the congregation in singing the familiar gospel songs concerning the cross.

The revival in the Methodist Church has been in progress since March 30 and will close with the evening Easter Sunday service. In addition to the Good Friday service there will be a special Youth Night service at 7:30 on Friday. The youth of the church will compose the choir and present special music.

The general public is cordially invited to attend any or all the services of the revival. A special invitation is extended to attend the Good Friday Service. The service has been organized so that individuals may come or go at designated times during the three hour program. The first word, "Forgiveness at the Cross," will begin at noon and continue until 12:30; second word, "Authority at the Cross," 12:30-12:55; third word, "Submission at the Cross," 1:20-1:45; fourth word, "Suffering at the Cross," 1:45-2:10; fifth word, "Victory at the Cross," 2:10-2:35; sixth word, "Consecration at the Cross," 2:35-3:00. Attendance at the entire service is urged by the local pastor.

## Award Winner

CINCINNATI, Ohio—Dr. Chas. William Arnold of Houston, a University of Texas graduate recently received Phi Lambda Upsilon chemical society's first national award for the outstanding 1953-54 doctoral dissertation in chemistry and allied fields.

The society gave Dr. Arnold \$500 and a certificate at a luncheon held in conjunction with an American Chemical Society national meeting here.

Dr. Arnold won the award for developing basic chemical processes involving uses of ethylene oxide, a petrochemical used in the manufacture of permanent anti-freezes and other products.

Experimental techniques presented in Dr. Arnold's dissertation are expected to help researchers studying in many fundamental scientific fields.

Dr. Arnold is a native of Goree. He was principal and science teacher in the high school in that small North Texas community before entering the University of Texas Graduate School in 1946. He received a Master of Science degree in chemical engineering in 1950 and a doctorate in 1954, both from the University. He was a teaching fellow in the University's physics and mathematics departments.

He is now employed by the Humble Oil and Refining Company in Houston.

Dr. Arnold is married to the former Mary Alice Cone of Gonzales.

Mr. and Mrs. B. E. Smith spent the week end in Mineral Wells visiting with his parents Mr. and Mrs. J. C. Smith.

## Three Members Of Local School Board Returned To Posts

Voters here last Saturday returned three incumbent trustees of the Munday Independent School District to office. Following the pattern of several years, voting was very light in this election.

The re-elected trustees and their votes are: Travis Lee, 91; Weldon Floyd, 83; and Ray Holcomb, 62.

Other candidates in the race and the votes they received are: Gene Thompson, 56; John Phillips, 48; and B. B. Bowden, 13, according to the unofficial returns.

## Stamford P. C. A. Annual Meeting Set April 15th

A large attendance from among the approximately 1500 members of the Stamford Production Credit Association is expected at the 21st Annual Stockholders meeting which will be held in Stamford on April 15. Registration will begin at 9 a. m. in the Roundup Hall on the Rodeo grounds. There will be an hour long entertainment period beginning at 9:30. This entertainment will be highlighted by the Starlight Sisters of KRBC-TV, the little Gatlin boys and others. The business session will consist of reports from the Board of Directors, the Secretary-Treasurer and from the Production Credit Corporation of Houston, which will be presented by Ellis Lanier, Assistant Vice President.

The terms of two directors will expire at this meeting. They are C. G. Burson, Sr., of Haskell and J. Spurgeon Reeves of Hawley. The nominating committee has submitted the following report . . . as nominees for the place being vacated by C. G. Burson, Sr., C. G. Burson, Sr. of Haskell and H. H. Segro of Haskell. For the place being vacated by Mr. Reeves, Mack T. Claburn of Hawley and J. B. Morrison, Jr., of Spur.

At the close of the business session a 12 1/2 cubic foot Frigid-air upright deep freeze will be awarded to some member of the association, or to the wife of some member. Following a fine chuck wagon dinner, the meeting will be adjourned.

The association serves farmers and stockmen in Jones, Shackelford, Haskell, Knox, King, Kent, Dickens and Stonewall counties, with offices in Anson, Stamford, Haskell, Munday and Spur.

Since the last meeting several personnel changes have been effected. J. V. Hudson, manager of the Haskell office for 20 years, resigned, effective March 1, 1955. This place is now held by Royce L. Williams, R. C. Cobb, assistant in the Haskell office for several years, has been promoted to the position of an assistant secretary-treasurer and transferred to the Stamford office. Bill L. Glen is now employed in the Spur office as manager. John Lee Gulian of Sagerton will fill the position of assistant in the Haskell office, taking up his duties on April 1. Gerald L. Proctor, formerly of the Stamford office, resigned to accept a position as head of the Vocational Agriculture department of the Avoca High School.

Misses Marie and Alice McNeill spent the week end with relatives in Wichita Falls.

## County Records One Accident Death In March

Capt. K. B. Hallmark, Jr., commanding officer of the Wichita Falls district of Texas Highway Patrol, has released Knox County's rural traffic accident summary for March.

The highway patrol investigated a total of two accidents with the following breakdown: one proper damage with no personal injury and one fatal accident.

Capt. Hallmark reported a total property damage of \$1,525 with seven persons injured and one killed. This is a decrease of two accidents and an increase of one death over the same period of 1954.

## Mobley Rites Held Saturday At Goree Church

Funeral services for Farris Howze Mobley, well known Knox County farmer, were held from the Goree Baptist Church at 2:30 last Saturday afternoon. Officiating were Rev. S. E. Stevenson, pastor, and Rev. Walter Hadley, Methodist pastor of Goree.

Mr. Mobley passed away at the family home at 7 p. m. Thursday. He had been in ill health for several months.

Born in Archer County on November 28, 1908, Mr. Mobley was 46 years, four months and three days of age. He had resided north of Goree since March, 1925. He married Miss Lila Fay Jones on March 25, 1932.

Survivors include his wife; four daughters, Mrs. Gene Bingham of Wichita Falls, Mrs. John Loyd Lambeth of El Paso, and Misses Mona Bell and Gayla June Mobley, both of Goree; his mother, Mrs. I. N. Mobley of Dundee; four brothers, Chester of Bomarton, Moe of Maybelle, Bud of Henrietta and Bruce Mobley of Dundee; a sister, Mrs. Anna Belle Murdock of Wichita Falls, and three grandchildren.

Burial was in Goree Cemetery under the direction of McCauley Funeral Home. Serving as pallbearers were Reuben Bates, Bobby Burnett, Bruce Burnett, Buster Coffman, Weldon Hobbs and Arthur Howard.

Drive carefully. The life you save may be your own!

## Write-in Vote Brings Voters To Polls Here

A mild write-in campaign in the city election created more than the minimum interest here Tuesday as Munday voters named three new members to the city council. The write-in move brought heavier voting near the time for the polls to close, however, all write-ins were defeated. Around 170 votes were cast in the election.

Candidates whose names appeared on the ticket were elected with the following votes: J. W. Massey, 122; Gene W. Harrell, 113, and J. E. Reeves, Jr., 112. They replace A. H. Mitchell, L. W. Hobert and Wallace Reid on the city council.

Write-in votes were cast as follows: E. E. Lowe, 38; Wallace Reid, 48, and L. W. Hobert 49.

How would you like to cook your family's meals simply by turning a switch? Today the homemaker can accomplish just that—cook a complete meal by turning a switch. Mrs. Abbie Andrews, widely known Home Economist, will demonstrate the most recent and proved developments in modern cooking at the demonstration which will be held Wednesday, April 13, at 2:30 p. m. in the school gym at Munday.

A. H. Mitchell, West Texas Utilities Company local manager, has issued an invitation to all the housewives in Munday and the surrounding area to be his guests at the demonstration which is planned as one of the best ever conducted here.

The demonstration, sponsored by the West Texas Utilities Company, will be conducted by Mrs. Abbie Andrews, a senior Home Economist for Frigidaire Sales Corporation.

Mrs. Andrews, who will present the very latest in food preparation and time saving methods, is a graduate Home Economist with years of practical experience. She has had special training in food preparation, preservation, and quick freezing techniques at the nationally famous Frigidaire Home Economics Department at Dayton, Ohio.

Recipes and favors will be given to homemakers who attend the demonstration. All the food used in demonstrating the modern electric way of food preparation will be presented to women attending the school.

## Mock Tornado Warning To Be Given April 11

In cooperation with the Department of Civil Defense, the Munday Fire Department will stage a mock tornado warning at 8:30 on the night of April 11.

This will be done with the three fire engines going in three different directions through the heavily populated areas of town. The truck sirens will sound continuously during the run, and at the same time the "big boy" atop the city hall will be sounding.

We ask all citizens to alert and wherever you happen to be to think clearly of just what you would do should this be the real thing. Weigh your thoughts against the chance of survival.

Our intentions are not to promote this as a sure-fire method in the way of passing the alarm, as time and advance notice of an impending tornado might not permit. The local police department will get the warnings in plenty of time in most cases. It will then be passed on to school officials, should school be in session, and to the fire department when the above plan will be put into action.

The firemen pledge you to do everything in their power to spread the alarm in a fast, safe manner, to police and help with casualties, to cut fire loss to a minimum and to assist in procuring food and shelter for the homeless in the event of a disaster in this area.

This alarm operation will consume about six minutes, and we urge that when this mock warning is staged to please stay in your homes; or, if driving your car, to yield the right of way.

The cooperation of all citizens will be greatly appreciated and will determine the effectiveness of this operation.

—Munday Fire Department.

## RED CROSS QUOTA IS EXCEEDED AT RHINELAND

Rhineland exceeded their Red Cross quota by more than fifty per cent, it is stated. \$158.50 was received through donations by Mrs. A. F. Homer, chairman, and her helpers, A. B. Wilde, Vernal Zeissel, Mrs. Leo Fetsch and Mrs. John Ed Wilde. She expresses her thanks to all who helped make this possible.

## HOME FROM OVERSEAS

### WE LIVE TWO LIVES

There are 963 weekly newspapers in Canada, with a total circulation of 2,500,000. The January issue of a monthly letter issued by the Royal Bank of Canada was devoted entirely to them and their significance. It said: "Singly or taken together these weekly newspapers have a great influence on the thought and action of our people, a small and the other in a great circle. He belongs 'Everybody, in a sense, lives two lives, one in by birth or choice to various intimate groups, like his family, his neighborhood, and his cluster of friends. He is also a member of the whole society of Canada, and he is living within an interdependent system of nations. The weekly newspaper belongs to his intimacy."

The same thing is true of the thousands of United States weekly papers and small-city dailies. They are the running record of the community, and of the individuals, families, enterprises, and institutions which created, forged and maintained it.

### VISUALIZING THE NATIONAL DEBT

The national debt is owed, in part, by every American family. It amounts to a first lien on our national assets.

The magnitude of that debt is graphically pictured by the Tax Foundation. Suppose we took the total annual paychecks of every one of the 55,000,000 people who work in our factories, businesses and farms. Suppose we added to that the pay of the 7,000,000 civilians on government payrolls and the 3,000,000 people in the armed forces. Suppose we then added such extras as all the social security payments made by employers. That would total \$209,000,000,000—which is some \$70,300,000,000 less than the national debt!

### TAXES UPON TAXES

The problem of overlapping taxation—in which more than one unit of government taps the same source—is a critical one.

A survey made in Oregon shows what has happened. The state has six major sources of tax revenue. Four of these—individual income, motor fuels, corporate income, and death and gift—are levies which are also imposed by the federal government. Only two—auto licensing, and he state retail liquor monopoly—are free of federal taxation.

This is probably fairly typical of the whole country. Taxes are piled upon taxes. And even he modest reductions made last year in federal taxes are being largely lost to us because of increased state and local taxation.

### WE ARE DECADENT—BUT!

According to an AP dispatch, Pravda, the newspaper which speaks for the Kremlin, recently gave the Soviet machine building industry a sharp scolding "and said it could learn a lot from Detroit and Pittsburgh." A short time before that Party Secretary Khrushchev told Soviet farmers that they could learn much about corn and hog culture from Iowa.

It is official Communist doctrine that capitalist America is a decadent nation which farmers and workers are ruthlessly exploited. But, when it comes to actual problems, it seems that the communists have to look to us decadent capitalists for solutions.

### GRASS ROOTS OPINION

TALLASSEE, ALA., TRIBUNE: "It is no small feat to try to explain to a customer that the government can print envelopes cheaper than a tax-paying printer because the government, with its vast resources, including the printer's tax money, can simply overpower him in bidding. It seems to make little difference to some customers that this is socialism, pure and simple, and that the money they think they are saving on the printed envelopes will be siphoned off in some other way by the eternal need of the government for more taxes."

BEDFORD, IND., DAILY TIMES-MAIL: "On a nationwide basis the states pay an average of \$6.99 into the Federal treasury for each dollar returned under direct grants and 'matching fund' projects. These figures would indicate that the Federal government in its role as a collection and distribution agency is depriving the states of billions of dollars per year which might be administered more effectively at home."

CARLSBAD, N. M., CURRENT-ARGUS: "Rather than boast about how much federal expenditures mean to the state, we should bend our energies to see that a more firm footing for prosperity is laid . . . in tax-paying industry instead of tax-eating federal pap."

ABILENE, KANS., DAILY REFLECTOR-CHRONICLE: "West Germany and the free world join in extending congratulations and best wishes to Chancellor Konrad Adenauer on his seventy-ninth birthday. . . . After World War II and the years of disgrace under Hitler, all of Germany was in ruins—spiritually as well as physically. It was Adenauer who moved among the wreckage . . . rebuilding the spirit of his people along democratic lines. . . . Germans and free men everywhere are grateful for what he has done."

## THE SECOND COMING OF CHRIST

The apostle Peter warned us saying, "There shall come in the last days scoffers, walking after their own lust, and saying, where is the promise of his coming? For since the fathers fell asleep, all things continue as they were from the beginning of the creation." (2 Pet. 3:3-4.) In this fast moving age, many are saying, "Where is the promise of his coming?" We must continually remember the Lord Jesus Christ is coming again.

### HOW DO WE KNOW HE IS COMING

Jesus said, "I will come again, and receive you unto myself; that where I am there ye may be also." (Jn. 14:1-2.) The angels said, "This same Jesus which is taken up from you unto heaven, shall come in like manner as you have seen him go into heaven." (Acts 1:11.) The apostle Paul said, "The Lord Jesus shall be revealed from heaven with his mighty angels." (2 Thess. 1:7.)

### WHEN IS HE COMING?

No man knoweth the day of his coming. Jesus said, "But of that day and hour knoweth no man." (Matt. 24:36.) The angels do not know, even Christ does not know. (Mk. 13:32.)

### WHAT WILL HAPPEN

All the dead will be resurrected. "The hour is coming, in which all that are in the graves shall hear his voice, and shall come forth. (Jn. 5:28-29.) Every one will be judged. "The Lord Jesus . . . shall judge the quick and the dead at his appearing." (2 Tim. 4:1.) Vengeance is rendered to the disobedient. "The Lord shall be revealed . . . in flaming fire taking vengeance on them that know not God; and that obey not the gospel of our Lord Jesus Christ, who shall be punished with everlasting destruction." (2 Thess. 1:7-8.) The righteous will be rewarded. "There is laid up for me a crown of righteousness, which the Lord, the righteous Judge, shall give to me at that day." (2 Tim. 4:8.)

### WATCH AND BE READY

The antediluvian world was warned that the flood was coming, they did not heed the warning and all creation was destroyed except Noah and his household. The world was not prepared.

Jesus is coming "quickly." "Blessed is that servant, whom his Lord when he cometh shall find so doing." Be prepared when Jesus comes. Obey him today.

## Knox Prairie Philosopher Claims The Weather Never Has Been Normal But Then Neither Has Anything Else

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek, whatever he may think about the weather, sounds normal himself in his letter this week.

Dear editor: While I don't blame the abnormal weather on the fall-out from them hydrogen bombs, in fact, I don't believe the weather ever has been normal, not for longer than a few days at a time, in the history of the world, still, I'll admit that last cold snap, or rather those last two cold snaps, one following on the heels of the other, was a hard thing to figure out and harder still to take.

I would like to mention though that while the freezes caught a lot of farmers in this country off guard and wiped out a lot of crops, it didn't affect me that way out here on my farm on the creek. None of my crops was bothered because none of em is up yet, in fact, some of my last year's crops aren't up yet. I never have

planted before anybody yet, and lots of years I wasn't even the last to plant, I just didn't plant. You don't make as much this way, but you sure save a lot of seeds and disappointment.

But speaking of abnormal weather, I believe it's the only kind we ever have, or ever had. People talk about the weather getting back to normal, like they talk about times getting back to normal, but I'm afraid if they look hard enough at history they'll find times always have been normal, regardless of how rocky things were. If there ever was a time when the world didn't have some kind of crisis on its hands, when it wasn't on the brink of some-

**FORE!**  
"Fore!" yelled Glen Glibb as he sized up the fairway in front of him. "Better wait," cautioned another member of his foursome. "Those people aren't out of range yet."  
"Well, they're too slow," growled Glen. "I'll just crack one over their heads—that'll speed 'em up a little."  
There was a resounding crack as Glen drove, and the golf ball shot out low and hard along the right side of the fairway. As the players watched, admiring the fine shot, the ball began to curve to the left, hooking toward the two men and two women in the fairway. "Fore," Glen yelled frantically, and one of the women moved desperately to one side, ducking her head. The ball struck her on the arm.

**WARNING NECESSARY**  
In all of his conduct which might result in harm to another player, or to a caddy, the golfer must exercise reasonable and ordinary care, according to the circumstances. It is well known that driven balls do not always travel in the straight course intended, but the player must rea-

inably foresee the likelihood of injury to others from his driven ball, and use the care necessary to prevent such injury.  
One duty of a golfer is to give timely warning of an intended drive if the other player is not aware of such intention, but in some cases a mere warning is not enough. The golfer is not necessarily an insurer of the safety of others with reference to the ball he drives, nor is he guilty of negligence because the ball deflects from its intended course, he must have in mind the possibilities or dangers to others.

**ORDINARY CARE NEEDED**

In the case above, Glen was at fault. The players were obviously in a danger zone, and the mere shouted warning was not sufficient to protect them, especially since their backs were to Glen, and they were proceeding ahead of him, in a place where, under the rules of the game, they had a right to be.

On the golf course, remember, use just ordinary reasonable care to see that other players are protected. Be sure they know when you are going to drive, if they are in the danger zone, and don't deliberately drive into the people ahead of you.

**CATTLE TRADE EASY ON MOST KINDS**

FOR WORTH—Cattle and calf prices were inclined to be on the low side of steady in most cases Monday at Fort Worth. Buyers point to a number of factors as influencing the trend, despite the fact that runs reported around the nation were somewhat below a week earlier.

Most important factor in the weakness of fat cattle and fat calves is the expected domination of the Easter diner tables by ham and turkey. Nationwide promotion of Easter hams as handled by the National Livestock and Meat Board has all the purveyors of red meat certain that ham will dominate the holiday trade.

The Texas Turkey Federation and the National Turkey Federation are also pushing turkey as an Easter dinner specialty and between this drive and the ham promotion the Easter lamb trade took a bad tumble last week.

Eastern seaboard wholesale meat dealers, the No. 1 handlers of lamb, openly expressed fears for the lamb market last week in the face of the all-out ham drive.

Another factor that weakens the immediate cattle trade is the continuation of sub-normal moisture in much of the Southwest and the accompanying blowing of the soil. Even the most optimistic cattle buyers are wary of going into the summer without a season in the ground, and much

of the Southwest needs rain right now.

Fed steers and yearlings and cows opened steady to 50 cents lower. Stockers and feeders were mostly 50 cents lower. Fat calves and bulls sold steady at Fort Worth Monday. Top cattle were club steers sold at \$26.50, and some commercially fed cattle sold at \$23 and \$24. Fat cows drew \$12 to \$14.50 and canners and cutters sold from \$8 to \$12. Bulls \$10 to \$15. Fat calves \$21.50 down. Stocker calves and yearlings \$16 to \$22.

**LAMBS REACT AFTER BAD BREAK LAST WEEK**

A good recovery from the lows of last week in sheep and lamb prices continued at Fort Worth Monday. Average prices of most sheep and lambs were fully \$1 and in sport \$1.50 to \$2 above the extreme low spots of last week's trade.

Good and choice fat Spring lambs drew \$20 to \$23, and shorn fat lambs cashed at \$19 down. Old wethers drew \$13 down. Old ewes sold from \$5.50 to \$7, and old bucks drew \$4 to \$5. Yearling muttons sold around \$16 down.

**HOGS OPEN AT \$18.25 TOP AT FORT WORTH**

Good and choice butcher hogs topped at \$18.25 at Fort Worth Monday. This was 25c above the close the week before. Less active butchers sold from \$17 to \$18, and packing sows sold for \$14 to \$16.

**Notes From Knox Farms, Ranches**

By W. J. Bryan, Knox County Agent

Six Knox County 4-H Club boys and girls exhibited their projects at the Abilene Fat Stock Show last week. The show was very good with animals of outstanding quality being shown in each class. Knox County Club members exhibiting in the show were James South of Benjamin, Ava Mary and Rodney Taylor from Munday, Charles Todd, Truscott; Wayland Jackson, Goree, and Robert Jackson, Goree.

The Knox County 4-Hers won third place in the class for a group of three steers fed under the direction of a vocational teacher or county agent. Individual placings in the nurse fed steers show were Rodney Taylor, 16th; Avo Mary Taylor, 18th; Robert Jackson, 21st; and Wayland Jackson, 25th.

In the sheep show, Charles Todd showed his crossbred Hampshire lambs to 10th and 23rd place in a class of over 200 lambs.

James South showed the only fat barrow from the county. He made it by the sifting committee but didn't place in the ribbon (top 25) group out of 175 head of hogs.

day for 4-H judging teams over the 22 county district, with all teams (about 250 members) meeting at Wichita Falls for the Extension District 3 judging contest. Teams winning top honors in this contest will go to A. & M. College to compete in the state judging contest in June.

Five Knox County 4-H members took part in the contest, including Daniel Brown, Clarence Decker, Jerry and William Bellinghausen in the soil judging contest and Maynard Moore in the tractor operator's contest.

In soil judging, the Archer County team won with Knox a very close second. Daniel Brown of Rhineland was the second high scoring individual of the entire contest.

Haskell County had the top tractor operator of the contest. Maynard Moore received the seventh place ribbon in this division.

Mr. and Mrs. Harold Sprague and children of Bellmore, N. Y., visited her brother and family, Mr. and Mrs. Johnny Fruehwirth and daughter, several days this week. They were enroute to San Antonio where they will make their future home.

LEONA BENDER, popular radio star of KTSA says, "Every woman knows light Karo is best for cooking... and on the table..."

it's Karo for me, the best-tasting waffle syrup of 'em all"

Yes, indeed... biscuits go like hot cakes when you pour on plenty of delicious Karo waffle syrup. There's nothing like it for good eating. Satisfyin' flavor. So rich it stands right up on top of biscuits (keeps 'em light and fluffy). Keep Karo on your table morning, noon and night... it tops anything!

Ask your grocer for Karo waffle syrup, in pints and quarts

## New Chemical Kills Grass Weeds

Foreground, heavy old Johnson grass was knocked out by dalapon, new chemical grass killer. Background, same field, Johnson grass grew tall in untreated area.

Grass weeds, including Johnson grass and other heavy-rooted kinds, are quickly knocked out by the new grass-killer chemical, dalapon. Where grasses have taken over whole areas of land, and cultivation only makes it worse by spreading roots, dalapon kills the grasses quickly and economically. Johnson grass, Bermuda grass, Para grass and many others are easily controlled by this new treatment.

Teamed up with cultivation to control seedling grasses and other weeds, dalapon answers many tough grass weed problems.

Austin — "Environmental sanitation is the public health term for clean, safe housekeeping whether it applies to a private home and its surroundings or to towns and cities. Among other things, it insures safe drinking water, proper garbage and sewage disposal, the safe service of wholesome food including milk, rat and insect control, and general cleanliness of the premises. However, for environmental sanitation to be effective, it is essential that not only public health officials but the citizens living in their respective homes or operating establishments serving the public cooperate wholeheartedly," declared Dr. Henry A. Holie, State Health Officer.

Consider for example, the seasonal housefly hazard. It has been determined that 120 eggs are laid by a single female at one time and that a generation is produced every ten days at summer temperature. Thus, the possibility of reproduction during the warm months of a single fly runs into many millions. While the housefly does not bite, it is dangerous because it breeds and feeds upon both filth and food.

Again, rats are the source of several diseases of man including plague, typhus fever, infectious jaundice, and trichinosis, to mention some of the more important ones. Homes can be made comparatively ratproof by removing rubbish and garbage accumulations, and by closing

avenues of access. Approved poisons and traps should be employed when a real problem presents itself.

"Removal of containers of stagnant water such as tin cans and barrels will do much to eliminate the mosquito for householders. The householder needs to devote more seasonal attention to mosquito eradication than he is today if this is to be properly controlled.

"In general, good and thorough housekeeping, inside and out, is the personal and civic duty of every home dweller. It not only adds to the pleasure of living and removes disease hazards, but increases the appearance of one's surroundings."

# LOWEST-PRICE CAR

IN "ALL 3" TO GIVE YOU ALL THIS IS PLYMOUTH!

<b>TOP SIX</b>	<b>TOP SIZE</b>	<b>TOP VALUE</b>
----------------	-----------------	------------------

The *thriftiest, smoothest six* in the low-price 3—that's Plymouth's PowerFlow 117! Its high compression ratio, combined with exclusive Chrome-Sealed Action, gives you more power from less gas, and velvet-smooth performance. You'll enjoy lightning acceleration, thanks to a special metering system in the carburetor. And the PowerFlow thrives on regular, not premium grade, fuel.

The *biggest, longest, roomiest* car of the low-price 3—that's Plymouth! Brilliant new *Forward Look* styling gives you more glamor outside, more luxury inside; plus the new Full-View windshield, swept back to give the greatest visibility in the low-price 3. And Plymouth's big size means you and your passengers will enjoy the smooth, steady ride that only a truly big car can give you.

Plymouth is the only low-price car to give you at no extra cost such extra value features as: electric windshield wipers, Safety-Rim wheels and an independent parking brake for greater safety... Oriflow shock absorbers for a smoother ride... an Oilite fuel filter and oil bath air cleaner for lasting economy. See and drive a Plymouth today—see why it's your best-buy low-price car!

**WHY PAY UP TO \$500 MORE FOR A CAR SMALLER THAN PLYMOUTH?**  
Don't be fooled by the claims of so-called medium-price cars that they cost practically the same as Plymouth. When you compare price tags you'll find that, *model for model*, Plymouth sells for much, much less than medium-price cars, and gives you more car for your money!

BEST BUY NEW; BETTER TRADE-IN, TOO

### Rhineland Girl Takes O. S. B. Habit At Jonesboro, Ark.

Miss Hattie Fetsch of Rhineland, along with Miss Suzanna Boeckman of North Little Rock, Ark., was invested with the habit of the Olivetan Benedictine Sisters at Jonesboro, Ark., recently, the East of St. Joseph, and received their names in religion—Novice Anita and Novice Jean Marie.

The ceremony was conducted at Holy Angels Convent in Jonesboro at 9 o'clock mass offered by His Excellency Bishop Albert L. Fletcher, Master of ceremonies was the Very Rev. Msgr. Jos-

eph A. Murray, diocesan chancellor. Chaplains to the Bishop were the Rev. Harry Chinery and the Rev. Francis D. Colavechio.

Present in the Sanctuary were The Right Rev. Msgr. F. A. Allen, V. G.; the Very Rev. Msgr. Joseph M. Hoffinger, the Very Rev. Msgr. F. M. Donovan and the Very Rev. Edward N. Hinckley, V. F.

Other members of the clergy who attended were the Rev. Bernard L. Bolds, the Rev. John J. Boyce, the Rev. Amos H. Enderlin, the Rev. Joseph B. Heffner, the Rev. F. J. Janesko, the Rev. Joseph Brennan, O. S. B.; the Rev. Joseph A. King, the Rev. L. P. Maus, the Rev. Edward F. Mooney, the Rev. Edward J. McCormick, the Rev. Leo J. Reidmuller and the Rev. L. H. Schaefer.

In his sermon, Bishop Fletcher told the young novices to continue their good dispositions and to strive in every way possible to cooperate with the many graces that God would give them. He told them: "You have been generals in accepting the call and you will now enter upon this period of probation. Continue your generosity and our Lord and His Blessed Mother certainly will not be outdone in generosity. The more generous we are, the less we think of ourselves

and the more we think of our Lord and our fellow sisters, the happier we are going to be. Our life in this world is our novitiate for Heaven."

The seven postulants who will be invested as Novices next August served as bridesmaids for the new novices. These young ladies are Postulants Florence Willett, Doris Jean Hess, Josephine Schneider, Barbara Hager, Ann Schneider, Carline Knauf and Martha Flowers. They wore identical white satin dresses and carried small nosegays of chrysanthemums tied with white satin ribbons. They were placed on the altars of the Blessed Mother and St. Joseph.

Music was furnished by members of the community under the direction of Sister M. Modesta and Sister M. Dolores as organist.

As a special activity for vocation month, young ladies of Junior and senior high school age from the various parishes were present. Approximately 150 teenagers attended the ceremony.

Bishop Fletcher devoted a part of his sermon to very instructive information concerning the religious life.

Little Suzanne Hardin of Shamrock is visiting her grandparents, Mr. and Mrs. W. G. Leflar and Mrs. J. C. Campbell, this week.

Mr. and Mrs. Doug Moore of Alpine visited relatives here and at Goree over the week end.

Layne Womble, who is working in Wichita Falls, visited his family here over the week end.

## \$1,000,000 Gas Range Sale!

This lamp test shows what a difference Gulf super-refining makes. Gulf refines out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new, clean-burning Gulf NO-NOX.

HERE'S HOW New 1955 No-Nox burns clean...

## HERE'S WHAT

New 1955 No-Nox does for engine parts...

This spark plug is from one of the original equipment plugs used in Gulf test fleet cars. Normally, plugs need cleaning or replacement after 5,000 to 10,000 miles. This plug and its mates did not need cleaning or replacement after 15,000 miles with new NO-NOX.

what's more...No gasoline—no, not a single one—has higher octane than...

This is GULF'S PLEDGE to the motoring public

• We at Gulf make this promise to America's motorists. We will not permit a single competitor—no, not a single one—to offer a gasoline superior to our own superb No-Nox.

• It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the finest—in power, in performance, in engine protection.

• This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by the resources—and the integrity—of the Gulf Oil Corporation.

## New 1955 GULF NO-NOX

Fill up now with new Super-Refined Gulf NO-NOX and feel the difference in power that really works for you mile after mile. Right from the start, you'll get these lasting benefits:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the short-trip, stop-and-go driving you do most.

- Stall-proof smoothness... instant starts... fast, fuel-saving warm-up.
- No knock, no pre-ignition—even in today's high-compression engines.

It's super-refined...to burn clean!  
The '55 gasoline for all high-compression engines.

SAVE during NEW GAS RANGE TIME all over LONE STAR LAND\*

In this great showing of special values—with stepped-up allowances for out-moded stoves, and easy, easy terms—gas range dealers are offering you your choice of the most modern cooking aids in the world... cleaner, cooler, most dependable... and in most areas 4-to-1 cheaper to operate, too. Go "Southwest Modern!" Glamorize your kitchen—now—and cook the really modern flame-fast GAS-O-MATIC way!

GAS-O-MATIC means: ranges with such features as: top-burner timers and temperature controls... needle-point pilot lights... automatic ovens... work tops that convert to griddles... smokeless closed-door broiling... 101 heat choices. Be really modern... cook with flame-fast GAS!

*Agriculture*  
Released by  
The Texas Department of Agriculture  
By John C. White, Commissioner

**HYBRID GRAIN SORGHUM PROSPECTS**  
The first large-scale seed stock production of hybrid grain sorghums will be initiated in Texas this year by about 100 seed growers, paving the way for commercial stocks by 1957.  
This will be good news for farmers interested in new hybrids. Comparison tests show increases in production of from 20 to 30 per cent over sorghum varieties now commonly grown.  
Hybrid grain sorghum is the result of many years of experiment and study conducted by the Texas Agricultural Experiment Stations. It had its beginning as far back as 1927 and

was eventually developed at the Chillicothe and Lubbock stations, thanks to the efforts of Chillicothe men, Supt. J. Roy Quinby, and Mr. J. C. Stevnes, as well as Dr. Nicholas W. Kramer and R. E. Karper of Lubbock.  
The Seed Division of the Texas Department of Agriculture will have its role in production, also. Seed stocks will be released to responsible seed growers who will produce small plots under TDA supervision. This program will be conducted with the cooperation of the Extension Service of A. & M. College.  
Present plans call for the distribution of this hybrid seed to farmers in sorghum producing areas for field trial and comparison in 1956. Seed growers who participate in production this year will be eligible for larger and more extensive production next season, also. This should result in the availability of a large supply of hybrid sorghum seen in 1957.

Production methods are somewhat technical, requiring the planting of two rows of pollinator seed rows and the pollinator sterile growths. The hybrid seed is produced from the male sterile rows and the pollinator seed rows are discarded for seed purposes.  
Inspection will be made by T. D. A. men. Rules and regulations of production have been tentatively adopted by the State Seed and Plant Board. These "Seed Certification Standards" help assure the producer of high quality seed.  
These objectives are the primary purpose of field seed certification activities of the Texas Department of Agriculture.

Mrs. H. T. Cunningham visited relatives in Henrietta last Friday night and Saturday.

**Easter Egg Hatches Flowers**

Television actress Georgia Landeau admires an Easter bouquet of spring flowers arranged by Alyn Wayne, official stylist for the Florists' Telegraph Delivery Association, a group of 10,000 retail florists. The flowers are massed in the colorful profusion in which they might grow in a country garden. Using an egg-shaped pottery bowl that complements the beauty of the flowers, Alyn Wayne has chosen daffodils, tulips, and snapdragons for this springtime burst of color. He has completed the arrangement with spiral eucalyptus. Arrangements using these flowers, or others of your choice, can be telegraphed to distant friends throughout the world through the guaranteed services of FTD.

grain sorghum. We have been explaining to the Department of Agriculture just what an extremely serious situation this important segment of our agricultural economy is in.

The House this week acted on the tax bill extending the 52% corporate tax rate for another year and certain excise taxes and also acted upon the Independent Offices Appropriation Bill. This bill, as it finally passed the House, was out considerably from what the Budget estimates called for.

The extremely cold weather that struck Texas and the Southwest last week end also reached Washington. There was a great deal of concern here as to what

effect the cold wave might have on the famous cherry blossoms; however, it now appears that they have survived the cold and that the 500,000 people who will come here from all over the country to see them will not be

disappointed. Mr. H. T. Coe of Quannah visited in Washington this week. Mrs. Marvin Waggoner of Haskell visited her aunt, Mrs. C. H. Mullican Saturday.

**HERE'S PROTECTION FOR YOUR LAWN**

Your lawn represents a big investment in time, labor, and cost. It is worth every bit of its cost for the enjoyment it brings to the whole family and for the real value it adds to your home. Protect your investment by feeding your lawn a square meal this fall. Give it 4 pounds of Vigoro per 100 square feet of area. A well-fed lawn has greater resistance to damage through adverse weather, weeds, or disease.

**News From The U. S. Congress**  
Congressman Frank Icard

It seems as though the hearings on legislation to limit the jurisdiction of the Federal Power Commission so as to prevent that Commission from controlling the sale of gas by the independent producer will last much longer than anyone thought they would at the beginning. April 22nd is now the date the committee seems to be shooting for to finish the hearings. The committee then will have to meet in executive session to finally approve one of the bills that have been introduced or to write a new one. Assuming that

the committee does act favorably on the bill, it will then be at least the second week in May before they are in a position to ask for a rule to bring it before the House. It now seems to be a fair guess that the earliest we can expect to have the bill up for consideration in the House of Representatives will be sometime the latter part of May or early June. The most outspoken opposition to the bill to date has come from the Republican side of the committee, the opposition being led by the ranking Republican member of the committee, Congressman Charles A. W. Wolfson of New Jersey.  
This week I have attended a series of meetings arranged by a committee of grain sorghum growers from the Southwest concerning the support prices of

**MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR**

**No other low-priced car even comes close to matching these important Chevrolet advantages . . .**

**If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet—for 19 straight years America's best-selling car. The Motoramic Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet offers you.**

**The Body's by Fisher!**  
No other low-priced car has a Body by Fisher—but many of the high-priced cars do. That fact alone tells you there must be something extra special about the style, quality and construction of Body by Fisher. And there is! You can see it, feel it and even hear it when you slam the door.

**Today's most modern engines!**  
That goes for Chevrolet's new V8 and two new sixes as well. For example, all Chevrolet engines bring you a modern 12-volt electrical system—double the voltage of other low-priced cars. This means quicker cold weather starting and a greater electrical reserve. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry,

and develops the highest power per pound of any V8 in the low-price field. It takes valve-in-head leadership like Chevrolet's to bring you truly modern engines like these!

**The beauty's built in—not bolted on!**  
And that makes a big difference—not only in how your car looks today, but in how it will look tomorrow, too. Chevrolet's good looks spring from fine, clean, uncluttered design. The beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

**All the power helpers you want!**  
Windows, seat, steering, brakes—all are available with built-in "muscles" to make driving as effortless as you wish.

**Fun is "standard equipment"!**  
You find that out the first time you take the wheel of a new Chevrolet. Here, you discover, is a car that takes the curves like it's on rails, that steers like it's reading your mind. It seems simply to ignore bumps—and when you stop suddenly, there's no excessive lurching or diving, either. There has never been such a difference in low-priced cars as there is today—or so many good reasons why you should drive a new Chevrolet. Come in and take the key.
