## CLYDE BAND LEAVES THURSDAY FOR SUN CARNIVAL PARADE

CLYDE — The Clyde Band will leave on Dec. 31st at the early hour of 4:30 in the morning for the sun city of El Paso. The band will arrive in El Paso at about noon, their time, and stay at the Ramada Inn. That afternoon the band will have free and do some sight-seeing and then that night they play, but not on their musical instruments, as the El Paso Chamber of Commerce hosts them to a big New Years Eve Jamboree.

After the New Year's Eve party the band will head back to the motel for a few hours rest before the big day when they will march before an estimated 400,000 in the 36th annual Sun Carnival Parade. There will be countless others who will see the parade and Clyde Band on television.

The Clyde band is the first

band which has ever marched in the parade with less than 75 playing members. The band was invited to participate this year because of its record and to represent West Texas. All of the band boosters and band students are most excited about the trip, which will be the longest ever for the Clyde band.

After the parade the band will head back to the motel to change and will be back in Clyde late that night, after a couple of rest stops and an evening stop about Midland or Odessa for the evening meal.

All the Clyde band students and band boosters want to thank the townspeople of Clyde for helping to make a trip such as this possible and to give Clyde band members the opportunity to represent Clyde in an event of this importance.

# RECORD NUMBER OF SILVER WEDDINGS LOCALLY

The end of World War II, which occurred just 25 years ago, has special meaning for many married couples in Callahan County.

For it was right afterward, in 1946, that they and some 2,300,000 other couples in the United States descended upon their marriage bureaus in a rush to get licenses to wed.

It was the biggest marrying year of all time. Never before then or since have so many couples marched up the aisles.

The great majority of them, having escaped divorce and death in the intervening years, are now ready to celebrate their

silver wedding anniversaries. Of the 1,560 or so married couples who are now living in Callahan County, approximately 70 of them, a record number, will be marking their 25 years of marriage in 1971.

Incidentally, for local stores selling silverware, crystal and other gift items, the celebrations that will take place are expected to generate a fair amount of new business.

On the basis of government statistics and report from insurance companies, the likelihood that a couple will survive and be together to celebrate their silver anniversary has increased

greatly in recent decades, notwithstanding the high divorce rate.

For the average 23 year old groom in Callahan County, who takes a bride four years younger than himself, the probability is greater than 8 out of 10 that they will celebrate their silver anniversary 25 years hence.

Even for men who marry as late as 35, the chances of a 25th anniversary are better than 7 out of 10, according to

## Chance for Some To Enroll in Medicare

ABILENE — A very important date is near for some area residents over age 65, stated James Smith, Callahan County field representative from the Abilene social security office. This date, January 1, is the beginning of a three month "General Enrollment Period" provided for under the Social Security Medicare Law. A person who is still eligible, but who is not enrolled in part "B" of Medicare, can sign up during this "open" period which ends Mar. 31, 1971, Smith stated. Coverage will be effective the following July 1.

Part "B" of Medicare or medical insurance helps pay for doctor bills, diagnostic tests, and certain other medical expenses incurred outside the hospital, he added.

This will be the last chance to enroll for those people born between October 1, 1902 and September 30, 1903, Smith emphasized. Those born before October 1, 1902 and who never enrolled previously are no longer eligible.

A person who enrolls for part "B" during the "open period" will have to pay a slightly higher monthly premium rate if he has passed up an earlier opportunity to sign up.

## IVEYS HAVE GUESTS

out of 3, which is more than double what they were 50 years ago.

## Aliens Required To Report Addresses

SAN ANTONIO — District Director, John W. Holland of the Immigration and Naturalization Service stated that aliens in the United States will be required to report their addresses to the Attorney General within the near future. All aliens, with few exceptions, who are in the United States on January 1 each year must report their addresses by the end of that month. Only the following classes of aliens are excused from this requirement: (1) Accredited Diplomats; and (2) Persons accredited to certain international organizations.

Forms with which to make the report can be obtained from any Post Office or Immigration and Naturalization Service Office during the month of January. Also, this year the reporting requirement has been broadened to additionally provide for the mailing of completed address reports directly to the nearest office of the Immigration and Naturalization Service. These cards will still be received at all post offices and Immigration and Naturalization Service offices as in the past.

Mr. Holland said that the law provides severe penalties for failure to comply with the reporting requirement.

MODERNIZED TO MEET PRESENT DAY DEMANDS

Callahan County Star

**AUSTIN** — Frantic preparations are underway to ready the State Capitol for the 62nd legislative session which begins January 12.

Construction workmen still have to complete renovation of the building and completion of new offices and committee rooms. Staffs must be hired and assigned, opening sessions planned and the budget and other major bills drafted.

Surveys indicate that most legislators are agreed that taxing and redistricting of congressional and legislative boundaries are their toughest tasks. But there is no shortage of tough tasks for the lawmakers in 1971.

Legislative Budget Board has pushed the estimated new revenue need to \$645.1 million, and many think it will run a great deal higher, perhaps as much as \$800 million or more. Very few ideas have been offered on how to raise the new revenue.

Political futures of many legislators ride on the redrawing of their district boundaries, which must follow population patterns of the 1970 census.

Among other major problems pinpointed by legislators are: A multi-million dollar state budget.

Liquor by the drink legislation.

Welfare programs, including an increase in the \$80 million a year ceiling on categorical assistance payments.

Laws to curb drug use and prevent crime.

Revision of auto insurance regulations.

Air and water pollution control.

Financing higher education, including a proposed tuition hike.

**INAUGURATION PLANNED** — Six inaugural balls will mark the second term inauguration of Gov. Preston Smith and Lt. Gov. Ben Barnes on January 19th.

Main ball, a formal event, is scheduled for the Austin Municipal Auditorium. Governor and Mrs. Smith will lead the traditional grand march of state officials. An admission charge of \$15 a couple will be levied.

Five other dances will be free. A western dance will be held in the Austin coliseum, a square dance at the University of Texas gymnasium and three others at downtown hotels.

Formal inaugural ceremonies will be held at noon on the capitol steps. A prayer breakfast will open the day's events.

Preceding the inaugural will be a Democratic victory dinner on the night of January 18 at the Austin Municipal Auditorium. Singer Wayne Newton is the headline entertainer for the \$30 a plate dinner.

**APPOINTMENTS** — Governor Smith appointed District Judge Wendell A. Odum of Houston to the Court of Criminal Appeals. Judge Odum will take the seat of Judge John F. Onion Jr., who was elected presiding judge of the court and assumes the top post on January 1.

Smith named Gerald T. Bissett of Victoria, as Associate Justice of the 13th Court of Civil Appeals. He succeeds Judge Paul Nye who moves up to Chief Justice on January 1.

To fill Judge Odum's 176th district court bench, Smith appointed Judge William M. Hatten of Houston, now judge of the court of Domestic Relations No. 2.

Andrew L. Jefferson of Houston will succeed Judge Hatten.

**AG OPINIONS** — County commissioners court should order proceeds from the sale of county hospital bonds deposited with the county treasurer pending completion of proposed construction of improvements, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that:

Odessa College cannot lawfully contract with a vending

machine company where a member of its board of regents is president and a stockholder.

State Welfare Department has authority to purchase fidelity bonds but not insurance against loss by theft of food stamps and cash.

Maximum fee schedule authorized for Texas Private Employment Agency Regulatory Board does not apply to those charged by an employment agency to employers, but only to those charged employees seeking work.

**COURTS SPEAK** — A three-judge federal court in Dallas held that Texas' political filing fee are unconstitutional, although low, "reasonable" fees may be permitted. Governor Smith said the ruling would lead to "tremendously chaotic conditions."

Attorney General Martin applauded the decision of the U. S. Supreme Court that voting in national elections must be extended to 18 year olds but that Congress cannot direct states to permit the teenagers to vote in state and local elections.

**RATE HIKE UPCOMING** — Auto owners will be getting notice this week of the new insurance rates which they will be paying after January 1.

News won't be so bad as first anticipated. While an average statewide increase of 23.4 per cent had been recommended by the State Insurance Board staff, it now appears that the jump will be between 12 and 18.6 per cent.

Board calculations indicate companies will get an after-tax rate of return of six or seven per cent of total assets. Companies wanted an increase of 27.7 per cent, and are not expected to be overjoyed with the "compromise."

**ISLAND ROW ROARS ON** — One of the hottest continuing controversies in the state is over the proposed \$4.1 million purchase of land on Mustang Island for Park purposes.

Governor Smith pledged to do all in his power to prevent the buy with state money, and proposes private fund contributions for the purpose.

Parks and Wildlife Commissioners Harry Jersig of San Antonio and L. P. Gilvin of Amarillo bypassed the Governor and PWC Chairman Pearce Johnson of Austin in asking the release of \$2.1 million of federal funds to buy the land. Over \$2.1 million would come from the state bond fund. Bureau of Outdoor Recreation said it would allow use of federal money.

Smith said other areas need parks more.

**SHORT SNORTS**

Texas Research League has recommended a far-ranging study to determine the dimensions of state housing needs.

House sub-committee recommended a \$3.75 million underground addition to the capitol and new publicity services for legislators.

Inter-Agency Task Force on Migrant Labor proposed stiff new housing standards for migrants and a charter for state loan program to improve housing and rebuild barriers.

W. T. (Shorty) Smith of Waco has been named 1971 "national driver of the year" for his 43-year accident-free record as a truck driver.

Governor Smith urges drivers to take coffee breaks to help keep them alert against accidents during this holiday season.

Railroad Commission will ask expansion of the proposed Railpax passenger system to provide an east-west route through Texas.

Federal grant of \$244,000 has been approved for Dinosaur Valley State Park development at Glen Rose, Somervell County.

More than 400 cities got \$36.5 million in local sales tax revenues during the quarter which ended September 30.

State Banking Commission has received an application for the Cypress Bank in Harris Co.

**AS IT LOOKS FROM HERE**

By Omar Burleson

**WASHINGTON** — Just 67 years ago the Wright Brothers crawled onto the lower wing of their biplane, opened the throttle of the 12 horsepower engine and in 12 seconds flew 120 feet. It changed the shape of the world.

For the next 40 years the impact of the airplane on life in America was negligible. It mostly amounted to curiosity and a risky means of travel for the adventurous.

During two World Wars the airplane was honed into an aviation weapon of destruction. Even after that, as a serious means of transportation, flying was still for the birds.

Until about 1940 the railroad continued to be king. Sixty-five percent of all passenger travel was by train. During the next year or two buses had captured more than 26 percent of the traveling market but neither paid too much attention to the overpriced, undependable air carrier which, at that time, had about 2 percent of the travel industry.

Soon after the end of World War II, the percentage of the business to airlines greatly increased, until in 1960 air travel accounted for 43 1/2 percent and by 1968 increased to 67.4 percent.

The growth of the airline industry has been without parallel in industrial history. Profits, of course, spiraled. Only three years ago air carriers rang up almost one-half billion dollars in profits despite inflation and certain Government controls which limit them. Now, the whole industry has sprung a leak and it is a little hard to find. The last 12-month period shows an operating loss of all airlines to be about \$90 million. Some 7,000 employees have been laid off during the last year.

There appears some mystery as to why all of it has happened. The Chairman of the Civil Aeronautics Board recently came to the conclusion that "there are just more seats than bottoms to fill them." Very likely he is correct, but why the reason for empty seats?

Witnesses before Committees of Congress partially analyze what they believe to be the situation. It seems to start with

the fact that in this relatively short period of expansion, false economic dreams were created. In other words, most expanded too rapidly to get in on a good thing.

Then, the airlines are a controlled industry in a free economy. The competition is keen and severe but it is not in the areas of ordinary business competitive operation. Instead of selling their services based on better routing and fare structures, they have resorted to highly expensive advertising battles and other expensive frills. Many of them applied for air routes which was available to them, whether profitable or not, in the expectation that they would have a future service market.

Since they must maintain the latest equipment, and absorb operating expenses which rose 14 1/2 percent during the last year, many are trapped in the inflation escalator. The skyrocketing cost of aircraft and the need to stay ahead has the airlines boxed in. At the present, domestic airlines are committed to the purchase of about \$20 billion worth of aircraft.

It is clear that some major changes are needed. It becomes a matter of some major rethinking by the carriers themselves, by the Government agencies which regulate them and by the public. For instance, it would seem that something has got to give as an alternate to treating passengers on a cross-country flight like visiting royalty and the frills, which go with it, and the rate of fare. A different kind of competition is needed. West Texas is in need of better air service but may be the victim of the overly expensive big lines which drain off the wherewithal necessary to furnish better service. It appears that to get better service, certain regulatory requirements need to be relaxed and probably others need to be strengthened. There must be some practical approaches not yet adequately considered.

**CLYDE** — Mr. and Mrs. John Nance of Dallas spent Christmas with their parents, Mr. and Mrs. Arthur Lee and Mr. and Mrs. Maurice Nance.

Callahan County showed an increase of 100 persons over the 10-year period of time.

### RELIGIOUS DIVISION CONDEMNED IN THE BIBLE

One of the saddest indictments of our generation is the division that exists in what many refer to as "Christian Religion." To think for one moment that the scriptures endorse or condone such a state of affairs in religion is a slander on God and the Bible.

Does God expect us all to believe and "see" alike in matters of religion? Man might, in his own reasoning, think not. But, what does the Bible say? This should settle the matter.

Christ taught that a kingdom divided against itself cannot stand (Mark 3:25,25). The Lord prayed that His followers might be one, even as He and His Father are one (John 17:20,21). Paul taught the members of the true church at Corinth to be of the same mind, to all speak the same thing, and to be perfectly joined together in the same mind and in the same judgment (1 Cor. 1:10).

Some think this is impossible, and it is as long as each person is determined to hold on to his own prejudices. Only when we resolve to follow the precept, "If any man speak, let him speak as the oracles of God" (1 Pet. 4:11) can we all speak the same thing and be of the same mind.

All must follow the expressed will of God in order to be saved (Matt. 7:21). All must walk the same narrow way to reach heaven (Matt. 7:13,14). There is only one way to the Father, not 300 (John 14:6). Christ is the author of eternal salvation only to them that obey Him (Heb. 5:9).

The Bible does, indeed, condemn religious division. It makes plain that only those who are united with Christ and with one another in Christ's one spiritual body can be pleasing to God and live with Him eternally in the world to come (1. Cor. 12,13 Rev. 22:14).
