Lobo's Crash Through Bears Defense To Win 49-20

Carol White-Editor/Staff Writer

Bears looked great up to the 2nd half, but never lost their team spirit when the Cisco Lobos scored 35 victorious points to win 49-20.

With a one-yard run by quarterback Ronnie Casey, it was 7-7 after the first quarter, but only to have Cisco's running back Brian Fleming score on a nine-yard run.

Lobo's continued to score up through the fourth quarter when the Bears team spirit showed through and they scored touchdowns on 2 passes. Ronnie Casey completed a 10-yarder to Jody Turnbow for one score, with Te Howard passing for 30 yards to Chris Graham for another tally.

Coach Conley is pretty satisfied with offense, but disappointed in the defense. He was real pleased with the team effort in 2nd half after being down so many points.

The team is looking forward to playing one of the states top teams when they meet Eastland Friday night. This is Eastland Homecoming.

BIG GAIN—Ronnie Casey keeps the ball for a 20 yard gain in Friday's game against Cisco. Baird went on to score first, but couldn't stay up with the Lobo's.

J.V. UPSET BY CISCO

Junior Varsity met defeat in Thursdays game against Cisco. Cisco scored 24 points in the first quarter, but the J.V. played some very good football after first quarter. Final Score was 36-12.

USDA Announces Farm Program Payment Schedule

Secretary of Agriculture John R. Block today announced a payment schedule under which eligible farmers will receive deficiency payments on 1982 crops and advance deficiency and diversion payments on 1983 crops.

Block said as soon as possible after Dec. 1,

eligible wheat and barley producers will receive all their deficiency payments due under the 1982-crop programs, and eligible corn, upland cotton and grain sorghum farmers will receive 70 percent of the 1982-crop deficiency payments due them.

The remainder of the

1982-crop deficiency payments will be paid in early February to cotton producers, while the final corn and grain sorghum payments will be made after April 1, Block said.

Producers of wheat and feed grains may request 50 percent of the projected 1983 deficiency payments and 50 percent of the 1983 diversion payments at the time they sign up, Block said. Sign up will be held Oct. 1, 1982 through March 31, 1983.

The deficiency payment rate equals the difference between the target price and the higher of the national average loan rate or the five-month weighted average market price received by farmers.

Block said advance diversion payment for wheat will be \$1.35 per bushel times the farm yield times five percent of the farm base.

The advance deficiency payment will be 32.5 cents per bushel times the farm yield times the acres intended to be planted.

Advance payments also will be offered to farmers when they sign up in the 1983 feed grain and cotton programs.

Diversion payments are compensation for land taken out of production in addition to any acreage reduction requirement.

Dyer-Shanks-Parkhill Head List Of Winners In Tennis Tourna

Dyer Sports Alley was the location of a tennis tournament October 2nd and 3rd, in which many Gib Country Players participated. In the High School Mixed Doubles division John Dyer and Stacy Shanks, both of Baird, upset the #1 seed of Chris Porter and Carol Engle (of Cross Plains) in a tight match, 6-4, 7-5. In the other semifinal match, Tamra Wilkinson of Abilene teamed with Mike Odom of Tuscola to pull out a win over Tresa Hatchett and Shane Campbell of Baird; the score was 3-6, 6-3, 6-4. Then in the final of the High School mixed doubles Dyer-Shanks took a decisive win over Odom-Wilkinson 6-0, 6-3.

Stacy Shanks then teamed with Codie Parkhill to win the Jr. High Mixed Doubles. They defeated Ferree Foy (Baird) and Brad Walker (Abilene) in the finals 7-6, 6-0. Foy and Walker had a tough semifinal against Mary Noel Jones (Baird) and Jeffrey Segura (Baird) barely pulling a win out, 7-6, 5-7, 6-0.

Shanks took her third win by defeating Jennifer O'Laughlin of Abilene in the

finals of the Jr. High Girls Singles 6-3, 6-4. Codie Parkhill did not have the same luck; he dropped his final match of the Jr. High Boys Singles to Brad Walker of Abilene, 6-0, 6-1.

Tamra Wilkinson dominated the High School Girls division. Wilkinson dropped Cathy Engle of Cross Plains 6-0, 6-1. Then defeated O'Laughlin 6-0, 6-0 and won her final match by defeating Shanks 6-1, 6-0.

In the largest division of the tournament, the High School Boys Singles, Mike Christopher managed to out last the other players. He defeated Joel Shuler of Abilene 2-6, 6-4, 6-1 and Tim Shake (Abilene) 7-5, 4-6, 6-3. Good Citizenship Portrayed In 4-H Week Theme

Encouraging 4-H members to become responsible, productive citizens is the purpose of "Pathway to the Future", the theme of National 4-H Week, October 3-9.

"During National 4-H Week, nearly five million 4-H members across the nation will rededicate their heads to clearer thinking, their hearts to greater loyalty, their hand to larger service and their health to better living", according to Greg Gerngross, County Extension Agent.

4-H membership in Texas is about 140,000 and has a support force of some 19,000 junior, teen and adult volunteer leaders.

The purpose of 4-H is

to develop leadership and character in young people. 4-H'ers learn by doing through activity-working on projects, participating in club meetings and 4-H activities.

Youth can participate in a variety of projects in 4-H such as foods, clothing, animal projects, electricity, photography, arts and crafts and many others. In fact, almost anything you want can be a 4-H project, points out Gerngross.

Members in 4-H can go on trips, take tours of interesting and educational places and help finance their college education with scholarship awarded through 4-H.

Remember, you are what

you want to be in 4-H, emphasis Gerngross. It is educational, interesting, challenging and lots of fun.

For more information on the local 4-H program, contact the County Extension Office located on the first floor of the Courthouse or call 854-1518.

"Game Scheduled Despite NFL Strike"

Kenneth Robbins, President of the Baird Booster Club, has assured the public that the Booster Club Football Game will be played at Bear Stadium, despite the current strike by the National Football League. He stated that the spirit of the players could not allow the game to be cancelled. However, Bobby Curtis, has been talking about the possibility of him boycotting the event because of contract disputes with management. No management at all could be located, and Mr. Curtis was not available for comment at press time.

The Booster Club Football Game has become one of the major fund raising projects for the Baird Booster Club, and historically fields some of the greatest athletes East of Clyde and West of Putnam.

To be eligible to play in this full contact contest, you must either be 35 years of age or older, or be a member of the Baird Booster Club and have a child

in at least the 7th grade in Baird Schools. Prime positions on the teams are still available and anyone interested in playing is urged to be at the Baird High School practice field this coming Sunday at 1:00 o'clock. You must bring your own bandages and arthritis rub however.

The game will start at 7:30 p.m. on Saturday, October 16. Reservations are suggested for choice 50 yard line seating, but everyone is assured of excellent seating up until kick off. Choice seating will also be available up until the final gun, however.

When asked about the team he was going to quarterback the gridiron classic, veteran James Grant's only comments was "unbelievable." After witnessing his team at a secret practice session, I think he said it very well.

Everyone is urged to come out and support the Booster Club in this effort to assist Baird High athletic programs.

UADA Announces 1983 Feed Grain Program

Secretary of Agriculture John R. Block today announced a 10 percent acreage reduction and a 10 percent paid land diversion for the 1983 feed grain program. Block also announced an additional \$60 million allocated to the fiscal 1983 farm storage facility loan program beyond the \$40 million originally allocated.

Block said current law requires for him to announce only a 10 percent acreage reduction and 5 percent paid land diversion program for feed grains. But, with such large supplies, he said an additional 5 percent paid diversion would help bring supply more in balance with demand. "We must do everything possible to reduce carryover supplies and increase commodity prices," Block said.

Block said the per bushel target prices for 1983-crop feed grains will be: corn, \$2.86; sorghum, \$2.72; barley, \$2.60; and oats, \$1.60. Regular Commodity Credit Corporation price support loan rates, per bushel, will be: corn, \$2.65; sorghum, \$2.52; barley, \$2.16; oats, \$1.36; and rye, \$2.25.

The signup for the 1983 feed grain program will be Oct. 1 through March 31. Producers may request 50 percent of their projected 1983 deficiency payments and 50 percent of their 1983 diversion payments when they sign up.

USDA estimates per-bushel deficiency payments

rates will be: corn, 21 cents; sorghum, 20 cents; and barley, 15 cents. Advance deficiency payments to eligible farmers will be half these rates. Advance deficiency payments are not authorized for oats.

Land diversion payments have been established at \$1.50 per bushel for corn and sorghum, \$1 for barley and 75 cents for oats. The land diversion payment is based on the per bushel payment rate times the farm yield times the acres diverted.

Farmers who request advance diversion payments at the time they sign up for the 1983 program will receive a payment equal to half the established payment rates.

A producer who accepts an advance payment, but who later does not comply with program provisions, must refund the amount of the advance payment with interest. Interest charged will be the rate in effect for commodity loans on the date of the advance payment, plus 5 percentage points.

To be eligible for these benefits as well as for price support loans, a producer must agree to limit corn, sorghum, oats and barley acreage planted for harvest to not more than 80 percent of the farm's feed grain base.

As under the 1982 program, two bases will be established: one for corn and sorghum, the other for

barley and oats. Producers also must devote to conservation uses an acreage equal to both the acreage reduction and land diversion requirements.

Land designated for conservation use must have been devoted to row crops or small grains in two of the last three years except for a summer fallow farm, for which the cropping requirement is for only one of the previous two years. Mechanical harvesting is not authorized and grazing will not be permitted during the six principal growing months on the acreage taken from production, Block said.

The 1983 feed grain bases will remain the same as the 1982 feed grain bases with adjustment for crop rotation. Neither cross compliance nor offsetting compliance will apply to the 1983 feed grain program.

Block said USDA is delaying decisions on the 1983 feed grain reserve program until the domestic and world supply and demand situation is studied.

He said he additional \$60 million for the farm storage facility loan program is necessary because record corn, wheat and soybean crops have created widespread tightness in storage availability.

Genealogical Workshop To Be Held In Jayton October 23

Family tree research is one of the most interesting, pleasurable and gratifying hobbies you can turn to. Following the trails of your forebears can lead you to many exciting tales of successes, triumphs, failures, loves and true life stories-as glamorous as any from Hollywood.

It can also take you to new lands and places, through study and writing, or in person, as you search for the records of your unknown progenitors. You will also broaden your knowledge of history, geography, laws, customs and life in general of the present and the dim past as you delve into records in new and ancient archives.

You will thrill time and time again as you find the accounts of your forefathers' endeavors-births, marriages, deaths, wills, land transfers, moves, etc. Sometimes you will run into puzzles as interesting and hard to explain as it is possible to imagine. You will solve some quickly others may keep you in

suspense for years.

How to get started is the big question with most people. What to do first? How to carry on? Where will I find the records of my people? How and what would I record when I do find them? These questions and many others will be answered or explained at the, Everton Publisher's "Family Tree Climbing Can Be Fun Workshop", to be held in Jayton, Texas, Saturday, October 23, at the Kent County Community Center.

Registration will be from 9:00-9:45 A.M. with the program to begin at 10:00 A.M. and will conclude at 3:30 P.M. The workshop is being conducted by Floren and Phyllis Preece of Logan, Utah. Mr. and Mrs. Preece have planned a unique lecture that will reach all those attending regardless of where their ancestors lived. Each person attending will receive six issues of the "Genealogical Helper" with their \$11.00 registration fee. This

bi-monthly genealogical magazine reviews new publications and stories of various genealogical activities as well as other guides, helps and instructions for all family tree searchers. The workshop is being sponsored locally by the Kent County Genealogical and Historical Society and they will be serving lunch that day for \$3.50 (this of course is optional). The society is asking for as many pre-registrations as possible, because of limited seating and planning for the noon meal.
