Kracker Krumb's Odd Bits Salvaged By The Editor

It's plumb grateful we are to all of you who responded to our appeal for back copies of the Munday Times recently. We got out of our predicament right fast! Scarcely had our paper hit the mails when people had called and offered us the needed papers at four-bits each. Within an hour, we'd say, we had enough copies for our permanent files and some to spare. When this was done, the old copies were no longer worth 50c each. Selling the paper by subscription at scarcely more than 5 cents and buying them back at four-bits is a losing proposition - but as we told one of our come-to-our-aid friends, it's almost a penitentiary offense not to have each copy in our permanent files. Other calls were made, other papers brought in without thought of the four-bit award. Our latest and most remarkable response, we think, came from Calallen, Texas. Mrs. Ben Bickham, one of our readers for many years, mailed us a copy of the June 17 issue - and it cost her ten cents postage to do it! Our thanks to every lovin' one of you. We wish we could have given you all a Kennedy half-dollar! Most Americans had more money to spend - or save - during 1964 than in any previous year in history! Before you get mad at us, let us hasten to explain that we're not making that statement - it's a quote. This is a conclusion which can be drawn from the July issue of Finance Facts, a monthly newsletter on consumer financial behavior. So if you had the biggest struggle of your life with the wolf at the door, it should be some condolence to you to know that, according to Finance Facts, you are in the minority. Sometimes we, too, think that people who come up with such obnoxious ideas or statements ought to be jailed! The first annual Old Timers' Day baseball game to be staged at the Astro dome in Houston will take place on Labor Day, Monday, September 6. The opposing teams will be the Texas All-Stars vs. the Baseball Immortals. The game will be of short duration, probably two or three innings. Names of some of the "Immortals" which are familiar to us are: Dizzy Dean, Lefty Gomez, Hank Greenberg, Pee Wee Reese, Joe DiMaggio, and Stan Musial. If televised, this should be interesting to watch. A manufacturer can have the best national advertising program in his industry, but if he doesn't back it up with a program of good retail newspaper promotion he's in the position of a circus that puts up posters all over town, gives a great parade and forgets to set up a box office. Stamford's city council has again deferred action on Haskell's request for water from Lake Stamford, since the council was told that Stamford will need additional water supply by 1980. Water consumption from the Lake Stamford reservoir is approaching the point where the lake will no longer adequately meet the municipal water needs of Stamford and Hamlin, the council was told by S. W. Freese, a representative of the engineering firm of Freese, Nichols and Endress. "It is evident that within 10 to 15 years you will need an additional water supply," Freese said. In our opinion, the West-Central Texas Municipal Water Authority is wise in continuing efforts to construct the Miller Creek reservoir, and that Haskell would be wise in joining in on these efforts saying: "We erred, and we're sorry." Mr. and Mrs. Melvin Strickland, accompanied by her sisters, Misses Blanche and Clifford El-Hott of Knox City, visited Rev. and Mrs. Bill Wright and family in Josephine last Sunday.

Hightower On Election Law Study Group

AUSTIN — Lieutenant Governor Preston Smith today announced the appointment of Senator Jack Hightower of Vernon to the interim Election Law Study Committee. The 27-member group, creation of which was authorized by resolution during the recent legislative session, will make a complete study of the Texas Election Code with a view to recommending changes which may be necessary or desirable. It will report to the Legislature in 1967. Senator Hightower is serving his first term in the State Senate. He was a member of the House of Representatives during the 53rd Legislature in 1953. During the 59th Legislature this year, he was chairman of the Senate Committee on Labor and Management Relations and a member of the following additional standing committees: Agriculture and Livestock; Contingent Expense; Counties, Cities and Towns; Insurance; Legislative, Congressional and Judicial Districts; Military and Veterans Affairs; Oil and Gas; State Affairs; and Water and Conservation.

Some People Just Like To Be Gyped!

Some people, especially tourists, seem to take pleasure in being gyped. For instance, here's what's happening in the L. B. J. country of Texas: At Lake Lyndon B. Johnson, visitors are grabbing up 6-ounce bottles of murky lake water, labeled "Presidential Nectar," for 39 cents. Familiar garb in the area are T-shirts lettered "Lake Lyndon B. Johnson." Rocks from the LBJ Ranch are selling for 29 cents each, and prices are going up and park attendance is up 65 percent over last year. For one buck, you can become President Johnson's neighbor. That's what you can buy one square inch of land for in Bluebonnet Acres, a tract of land adjoining the President's 450-acre ranch.

GRANDSON LANDS A KING-SIZE FISH!

Sanford Belcher of Commerce, who is a grandson of J. B. Goggans and a nephew of Irey Belcher, recently landed a 38 and one-fourth pound opolousas catfish, caught on a trotline at Lake Tawakoni. Belcher, who sent a grandfather a newspaper photo of his catch, had been running his trotlines all week during his vacation, and his efforts paid off with the prize catch.

New Street Lighting In West Texas Area

As an additional service to the communities, towns and cities it serves, West Texas Utilities Company has extended its street lighting services. The new street lighting schedules provide for mercury-vapor street lights in ratings of 8,000 lumen, 21,500 lumen and 43,000 lumen (two lights per pole). Mercury-vapor lamps, Russell Crowner, district manager said, are more efficient than incandescent lamps and are considered by authorities as the desirable primary source of illumination for modern street lighting. This new service is designed to help communities improve the quality of their street lighting. He said, "That the cost of new mercury-vapor street lights on either conventional wood poles or standard steel poles is low and compares very favorably with rates of other Texas companies." Crowner pointed out that this new street lighting service would be extended to all towns and communities the company serves. The company is eager to assist the progressive, "up-and-coming" communities it serves in having and maintaining good street lighting. Good street lighting is an important plus for a community in attracting new industry. A well lighted town is considered to be one of the sure indicators of a progressive, wide-awake community. In addition to the deserved civic pride of a well lighted community, Crowner pointed out, modern street lighting contributes substantially to crime reduction. It is a positive deterrent to vandalism and hoodlums. Another benefit of modern street lighting is improved public safety. Statistics clearly show that well lighted arterial streets and main thoroughfares reduce the number of traffic accidents and fatalities.

Tax-Man Sam Sez:

Most of us have our taxes taken out of our pay checks by our employers. When we earn outside income we often forget that we owe income tax on this type of income. If you have been lucky enough pay tax on this extra income. Of your regular salary, you need to file a quarterly estimate and pay tax on this extra income. Of course, if you are self employed and are lucky enough to make a profit the same rule applies.

Purcell Urges Cotton Growers To Unite In Support Of New Farm Bill

Congressman Graham Purcell declared Friday afternoon that cotton is in the worst economic straits of all United States farm commodities, stating "it isn't edible and it is not essential in the manufacturing of any needed material." Mr. Purcell was addressing a round 200 cotton men and other interested persons from the 30-odd counties comprising the rolling Plains Cotton Growers, Inc. It was the first annual meeting of the association, which was formed last October to unite cotton growers of the area in a common effort to overcome some problems facing one of the most vital crops of Texas. "We have a bill now in the

Farmer's have until September 30, 1965 to file a claim for refund for the Federal tax on gasoline used for farming purposes. The gasoline must have been purchased during the period from July 1, 1964 to June 30, 1965. The claim for refund of 4 cents per gallon should be made on Form 2240 and mailed to the local U. S. District Director of Internal Revenue. Gasoline subject to the tax refund also includes gasoline used by other persons other than the owner, tenant or operator of a farm as long as it was used for farming purposes. A farmer is entitled to include this gasoline even though it was purchased by a custom operator, a neighbor, or an employee who then used this gasoline on his farm for farming purposes. A statement from the custom operator as to the amount of gasoline used on the farm should be included by the farm operator with his Form 2240. Gasoline is not subject to a tax refund when used: (1) on the highway; (2) in processing, packaging, freezing, or canning operations; (3) for personal or other non-farming purposes; or (4) on the farm of another person even though used for farming purposes. Farmers are relieved of Federal tax on diesel fuel or special motor fuels as butane, propane and "hot tractor fuel" if the fuel is used for farming purposes. This type of fuel is usually purchased free of tax and delivered by the dealer into a storage tank. The storage tank must be one other than the supply tank of a highway vehicle, motorboat or airplane. If the fuel is purchased tax free and is later used in a taxable use the farmer will become liable for the tax. The tax should be paid to the District Director of Internal Revenue. The District Director has appropriate forms and instructions. A farmer may purchase fuel tax paid and have it delivered to his storage tank. However, he must provide the dealer with a written statement showing: (1) his name and address; (2) date fuel was sold to him taxpaid; (3) the number of gallons the farmer purchased on that date; and (4) the number of gallons used on the farm for farming purposes. You can get forms and further information from my office or the office of the Internal Revenue Service located in your area. Sufficient records are required to verify the accuracy of the refund claimed. These records should establish: (1) date of purchase, name of dealer and number of gallons; (2) number of gallons of fuel used for farming purposes between July 1, 1964 and June 30, 1965; and (3) the number of gallons of fuel claimed which was used by custom operators on the farm.

House of Representatives. It isn't necessarily the best cotton legislation we could have, but it is the best we could get through the House Committee on Agriculture. It may be the best we can get passed by Congress," he continued. "The cotton bill that has been approved by the House Committee on Agriculture would continue the national minimum acreage allotment of 16 million acres. It would provide price support of about 90 per cent of the world market price, or 21 cents a pound for 1966, plus direct payments to farmers planting within a domestic acreage allotment of 65 per cent of the farm allotment." Admittedly, he continued, it is not a perfect bill. It doesn't suit everybody. Most segments of the cotton economy and the various production areas "object to some parts of the bill. "But legislation is usually the result of compromise. To get cotton legislation, some concessions are necessary... This is simply facing the political facts of life, especially in the new age of declining influence of the so-called farm bloc in Congress where there are more and more urban congressmen who could care less about farm programs." Cong. Purcell called on all farm groups and everyone interested in the welfare of agriculture to get behind the bill (let representatives in Congress know they want the proposed bill passed.) Action on the floor of the House is due week after next, he said. If this bill is not passed "and there is much opposition from non-farm, anti-farm and some farm groups, we will have to go back to a discredited program that would damage grower income." Cong. Purcell's address was only one phase of the program that was held in the new auditorium of Stamford High School. Sam Reed, O'Brien cotton breeder and one of the organizers of the association, served as president for the first year and at the business session urged directors to elevate Vice President J. B. Cooper, Jr. of Roscoe to the top spot. Cooper, who farms more than 300 acres of cotton in the Roscoe blackland, was elected president by acclamation. Reed was chosen vice president. Gene Howard of Sweetwater and manager of Rolling Plains Cooperative Compress was named secretary. New executive directors elected were P. E. Godfrey of Paducah, Pete Davidson of Winters, Neuman Smith of Ballinger and Joe Lyles of Childress. At the directors meeting a proposed budget was approved which would provide for the employment of a field advisor, increase the number of entomology teams from four to eight, and assess 15 cents a bale for funds to match federal and state funds to continue research on insect control in the Rolling Plains counties. Also, the budget makes provisions for an office for Executive Director Terry Julian. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund to provide retirement, disability, and death benefits for persons employed in the public schools, colleges, and universities supported wholly or partly by the state and all other securities, moneys, and assets of the Teacher Retirement System of Texas shall be administered by said Board and said Board shall be the trustee thereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said Board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any of such investments, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed in whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political division of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Teacher Retirement System including land,

equipment, and office building; or in such corporation bonds, notes, other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any of the states of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments said Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital; and further provided, that a sufficient sum shall be kept on hand to meet payments as they become due each year under such retirement plan, as may now or hereafter be provided by law. Unless investments authorized herein are hereafter further restricted by an Act of the Legislature, no more than one per cent (1%) of the book value of the total assets of the Teacher Retirement System shall be invested in the stock of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that so long as less than \$500,000,000 of said Fund is invested in the government and municipal securities enumerated above, not more than thirty-three and one-third per cent (33 1/3%) of the Fund shall be invested at any given time in common stocks. This Amendment shall be self-enacting and shall become effective immediately upon its adoption without any

Chiropractic Goes To Bat For You To Relieve Misery of Backache

Backache can be very painful . . . What's more, it can lead to serious disorders not immediately associated with the pain itself.

Pain is nature's way of warning that something is wrong. Frequently pain in any part of the back is caused by misaligned vertebra somewhere in the spinal column which places pressure on nerves. Permanent relief is not possible in this type of case until the vertebra is restored to normal position. Most people don't realize that a simple case of backache often leads to more serious troubles later. Subluxations (misalignment of vertebra) set up interference to the flow of energy through the nervous system. Thus, vital organs of the body do not receive normal nerve energy supply, and fail to perform their body function properly. The particular organ affected depends upon which nerves in the central nervous system, are involved.

Your family chiropractor is qualified to correct the cause of this condition. He is able to locate the exact point of interference in the spinal column, and to adjust the vertebra or vertebrae which are at fault.

So if you are troubled with a nagging backache, it will pay you to see your chiropractor.
