F. F. A. AND 4-H PROJECT SHOW TO BE HELD IN CROWELL FEB. 12 AND 13

Rotary Club to Be Host to District Governor Wednesday

The Rotary Club of Crowell on Wednesday, February 10, will be host to Robert R. King, Governor of the 57th District of Rotary International, who is making his annual official visit to each of the 37 Rotary Clubs in North Central Texas. He will address the local club and confer with President Grady Halbert, Secretary Herbert Edwards and committee chairman of Rotary administration and service activities.

Mr. King is superintendent of schools in Haskell and is a member and past president of the Rotary Club of Haskell. He is a graduate of McMurry College and North Texas State College. He was elected as a district governor of Rotary International for the 1959-60 fiscal year at Rotary's 50th annual convention in New York City, last June. He is one of 261 district governors supervising the activities of more than 10,390 Rotary Clubs which have a membership of nearly 500,000 business and professional executives in 115 countries throughout the world.

Wherever Rotary Clubs are located, President Halbert asserted in discussing the governor's visit, their activities are similar to those of the Rotary Club of Crowell because they are based on the same general objectives—developing better understanding and fellowship among business and professional men, promoting community betterment undertakings, raising the standards of business and professions, and fostering the advancement of good will, understanding and peace among all peoples of the world.

Each year, this world-wide service organization continues to grow in numbers and in strength. Mr. Halbert added. During the past fiscal year, 374 new Rotary Clubs were organized in 53 countries, bringing the total number of Rotary Clubs to an all-time high of more than 10,398, and five countries were added to Rotary's roster—British Guiana, Ghana, Madagascar, Nepal, and New Guinea.

The governor will hear reports from all the committees of the local club Tuesday evening at 7 o'clock in a club assembly at the club's regular meeting place.

Twenty-four guests, many of whom were old-time friends of Mrs. Carroll, registered during the afternoon. Out-of-town relatives were Mr. and Mrs. Plato Carroll of Meadow, a son and daughter-in-law.

Genial conversation provided the entertainment and pictures were made of the group. Mrs. Carroll received a large number of useful and attractive birthday gifts.

Refreshments of the birthday cake, coffee or cocoa were served by the hostesses. The pretty, decorated cake was made by Mrs. C. M. Carroll, a niece of the honor guest.

Mrs. Carroll is a pioneer resident of Foard County, having come here in 1909. Mr. Carroll died in 1931. She now makes her home with her children, and is well and active for her age.

Editorial
Like Cool, Man!

The Beatnik movement is headline news in America today. These fads, strange language, odd habits, and coffee houses are sweeping the country. What makes a "Beatnik"? Why do they follow this off beat pattern of life? Are Beatniks here to stay?
CHS students had this to say.
Jo Carol Cooper: People become Beatniks to get away from the world. They feel that everyone is against them; so they conform to society. We've had several ages or centuries; I feel that with the turn of this space age, the Beatniks will be gone.
Tom Crowell: Beatniks will always be here. They may not always be called by the same title, but there will always be people

like that. There always have been. I think it's a "bunch of bull"—real Beatniks never get publicity. The people you read about are only frauds.

Band News and Views
Beginning this week, the CHS Stage Band is rehearsing twice a week for the Quannah Festival. Also, plans and reservations are made for the stage band concert at Brownwood at the end of February. The concert band is planning the annual Variety in Review show and is practicing for the contest at Jacksboro in March. Well, that's the news and views, bye now—

Homemaking II News
Tuesday, the Homemaking II class prepared a meal using food that had previously been canned or frozen. The meal consisted of tuna fish salad (it was good, despite an apple thief) and hush puppies. Also, rolls, squash, and apple pie, which had been previously frozen, and green beans—which had been canned, were served. It was concluded that there was no difference in the taste of unfrozen cherry and apple pie as compared to frozen ones. The meal climaxed the study on how to preserve foods.

Farewell Party
The Freshman class honored Shirley Davidson with a Coke party at school last Friday, and they also feted her with a party at the J. B. Fairchild home Jan. 29.

Shirley was given a beige bag and gloves and a box of Valentine candy as gifts from the class. She is moving from Crowell, and the parties were a way to tell her "good by." The class wished Shirley happiness in her new home and assured her she would be missed.

Invited to Dance
The Sub-Junior Adelpian Club is sponsoring a semi-formal pre-Valentine dance at the Country Club on the evening of Feb. 6. The dance will begin at 8 p. m., and everyone is invited to attend.

Library Donations
The librarians wish to express

thanks to Mrs. H. K. Edwards for her wonderful donation to the high school library. She gave us several copies of the New York Times, as well as the book review and magazine sections of other copies.

Interesting articles found in the magazines deal with foreign countries such as Red China, New South Wales, Australia; also, there are articles that deal with the forthcoming elections and other political issues of importance. We do appreciate the interest shown by Mrs. Edwards, and we are sure the students will profit from reading these magazines.

Dress-Up Day Success
The CHS Student Council designated last Wednesday, January 27, as Dress-Up Day in high school. The boys were required to dress in coats and ties; the girls, in pretty dresses and high heeled shoes. The effect was stunning! Although the girls had cramped feet and the boys thought that they were being choked, everyone enjoyed the chance to show his "finery" and to see how the other students could look. It gave us all the opportunity to realize that C. H. S. is full of grand looking boys and girls and teachers.

Honored at Barbecue
Jack Welch, with the help of Cecil Carroll, Cris Moody, Marion Crowell, Munson Welch and others, sponsored a barbecue last Thursday night for the CHS football team. Forty-three boys, the coaches, special guests and hosts were served delicious home cooked barbecue after Warren Everston gave the invocation. Dick Todd acted as master of ceremonies and the boys were shown a film taken when they played football in grade school.

The boys and coaches wish to thank everyone who had a part in the wonderful evening.

Senior of the Week
This week's featured senior is 17 years old, 5'6" tall; she has light brown hair and blue eyes. She is none other than Patricia Pittillo.

Her list of favorites is long. She enjoys the color blue and any type of music. Shrimp is her favorite food, and football her favorite sport. Bookkeeping is her favorite subject, and typing is her hardest one. When she attends the movies, she enjoys watching Rock Hudson and Susan Hayward. In Pat's opinion, her father is the most important person in the world because of all that he has done for her. Her pet peeve is a "gossipier."
During her spare moments, she enjoys sight seeing or sewing. When Patricia graduates, she hopes to attend business school or to become a certified public accountant. All of us at CHS would like to wish her a lot of success with her future plans.

Spring Fashions
With the warmer weather, everyone begins thinking about spring and summer. Along with all this comes the same old cry, "I haven't a thing to wear!" I'm guilty of it, too.
I have been looking through several magazines, and the bright colors really caught my eye. Each year they seem to get gayer. Crazy prints seem popular too.
Slim jims and tops seem to be following the color and print trend. The pullover top is going to be very good. It can be worn loose or belted, out or in. I saw one with big stripes of almost every color. It was very striking and could be worn with slim jims of several different shades.

Sports clothes are being made from ticking now, too. (That's striped denim. Your mattress is probably covered in it!) Most of these outfits are trimmed in bandana-print cotton.
Coordinates are a good investment. Shirts, blouses, shorts and pants can be used in many different combinations.

Maybe these few suggestions have helped you get some ideas about clothes for the new season. I hope so, and maybe now you can say, "I've got all kinds of things to wear."
P. S. You don't need a whole new wardrobe. By adding a top here, or a pair of slim jims there, you can do wonders with your old clothes.

Club News
The Sub-Junior Adelpian Club had its regular bi-monthly meeting at the club house on Wednesday, Jan. 27, with president, Carolyn Aydelott, presiding.
The hostess, Jo Wynn Ekern, served a delicious refreshment plate to the members present.
Judy Borchardt, introduced by program leader, Wanda James, gave two short comical skits. Then Rev. Carl Hudson, guest speaker of the day, presented an interesting and informative talk on civil defense.

Senior News
In a recent class meeting, the senior class elected Jim Henry to be vice president. He will replace Bill Taylor who has withdrawn from school.
Saturday, some of the members of the class worked at various downtown business houses to help finance the senior trip. The names of the students who worked and the places of business where they worked are: Ivan Cates, Wishon Station; Joe Coufal, Barker Implement; Bill Graves, D&T Foodway; Jim Henry, Bird's Dry Goods; Louis Kajs, Adkins station; Bobby Powers, Borchardt Chevrolet; Judy Borchardt, Womack's; Jo Frances Long, Downtown Florist; and Ann Painter, Crowell Flower Shop. The members of the class certainly appreciate the wonderful opportunities to work which are provided by the merchants.

Employer Should Watch Out for Social Security Protection

If you are a self-employed businessman or farmer, you realize that you must keep good records in order to make out proper social security tax returns on your employees. You need to have an exact account of all wages paid, the full name of the employee, and his correct social security number. The worker is then assured of social security protection for himself and his family.

But are you, the employer, watching out as carefully for your own social security protection? Each year, all over the country, social security offices are notified that self-employed people in their areas have not put their own social security numbers on their tax returns. Without the social security number the self-employed income cannot be credited to the social security account of the person who has already paid for it. Social security offices follow up on all of these cases, but sometimes either receive no reply or cannot locate individuals who have changed their addresses. The best solution to this problem? Be sure to enter your social security number on your tax return. Keep as good social security records for yourself, and your family, as you keep for your employees.

Another social security records-and-benefit problem often concerns the part-time or small-income self-employed person. He must file a self-employment tax return for any year that his net profit reaches or exceeds \$400. Although he may not be liable for income tax on such a small net, he nevertheless must file an income tax return in order to receive social security credit. Again, he must have good records to prove that his net profit is at least \$400. Some of you may not have realized that you should have filed income tax returns for past years in which you netted \$400 or more, and have already missed social security credits that you could otherwise have claimed. What should be done? Here is the answer. At the present time you can go back to 1956, file tax returns, and get credit for all the years beginning then. But all years before 1956 that you failed to report are lost to you so far as social security credits are concerned. If you need further information, get in touch right away with the nearest office of the Social Security Administration or the Internal Revenue Service.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Tex.—Completion of the Interstate Highway System, including 3,033 miles of top-standard expressways, may save as many as 300 Texans a year from traffic deaths.

State Highway Engineer DeWitt C. Greer says that accident records show that controlled access expressways are three times safer. Also, he said, they move three to four times as much traffic.

Greer estimates that the Interstate Highway System, when completed, will save one life a year for each 10 miles of road.

Target year for getting Texas highways to desired standards is 1975.

By that time, said the state highway engineer, the state probably will have 70,000 miles of the state highway system compared to the present 60,000. There will be 5,500 miles of multi-lane highways compared to 1,168 today.

MORE SPEED? — Whether speeds in excess of 60 miles an hour should be legalized for some of the state's top-notch highways will be subject of study between now and the next Legislature.

Committees of the Texas Good Roads Association are to consider this and whether gasoline taxes should be upped to gain school funds.

Governor Daniel has suggested the possibility for raising money for school improvement and teacher salaries through a higher gasoline tax. TGRA, made up of people interested in road building, has, in the past, opposed draining taxes paid by road users for non-highway purposes.

Higher speed limits have been proposed before for four-lane highways, but have failed to pass the Legislature.

DEFICIT GROWS — Deficit in the state's general revenue fund has reached \$78,647,301, an all time high, says State Treasurer Jesse James.

Things should look better after May 1, when corporation franchise taxes will be paid, he adds.

APPOINTEES — Appointed by Governor Daniel to the Texas Commission on Educational Standards are Mrs. W. D. DeGrassi of Amarillo, Horace K. Jackson of Gatesville, Reynaldo Garza of Brownsville, Cullum Greene of Fort Worth and Mrs. E. P. Lamberth of Dallas.

To the Educational Commission, Lt. Gov. Ben Ramsey names Everett Collier of Houston, Joe Anderson of Lufkin, Sens. William Fly of Victoria, Floyd Bradshaw of Weatherford, and Ray Roberts of McKinney.

House Speaker Waggoner Carr designated Mrs. Harry Patterson of Houston, John McKee of Dallas, Reps. C. T. Matthew of Yoakum, Leon Thurman of Anson and Maurice Pipkin of Brownsville, as his appointees to the Educational Commission.

NEW GAME HEADS — Frank M. Wood of Wichita Falls has been elected chairman of the Game and Fish Commission to succeed Herb Frensfley of Houston.

New members of the Commission are Carl L. Dupuy of Lufkin, H. A. Walsh of El Paso, J. F. Corley of Houston and W. O. Reed of Dallas.

BCG DELAYS DECISION — "Flu bug" besides felling Texans by the thousands, contributed to a delay in deciding one of the state's most talked about issues, the new Safe Driving Insurance Plan.

With the other two State Insurance Board members ill, Chairman Ben Jackson said it would be at least several days before the board would announce changes, if any, in the plan.

Board Member Robert W. Strain was in bed with the flu, and Joe P. Biggs, other member, was convalescing from heart attack.

Under the merit plan, the Board

set auto insurance premiums lower for drivers with no record of accidents or traffic violations and proportionately higher for those who have accident and violation records.

Gov. Daniel has said that he hoped the Board would make "some changes" in the plan, but declined to elaborate.

Some legislators declare that, unless non-accident causing violations and the three-year retroactive features are taken from the plan, it will be so unpopular the Legislature will have to change it if the Board doesn't.

But most Texas insurance men declare that, given a fair chance, the plan will grow in favor with the public. They believe there will be an over-all drop in insurance costs as the driving public learns the relationship between bad driving habits and high insurance premiums.

ANTI-NARCOTICS AID PROMISED — Governor Daniel has promised El Paso every possible help in combating its problem of being "a major distribution point of an international narcotics ring."

In response to a telegram in which El Paso Judge Woodrow Bean cited the city's "major" problem, the governor conferred with state and federal authorities.

Daniel said he was assured after talking with Col. Homer Garrison Jr., director of the Department of Public Safety, that DPS men were and would continue to work with local law enforcement officials in El Paso in fighting narcotics traffic.

Also, said the governor, he has been told by the Federal Narcotics Commission that eight federal customs agents in El Paso do anti-narcotics work.

Federal Commissioner H. J. Anslinger promised the governor to survey and consider the request for a special federal narcotics agent in El Paso.

LOWER TRAIN FARES SCOUTED — Railroad Commission has set a hearing Feb. 9 on a request by Texas railroads to reduce passenger fares between Houston and Dallas and Fort Worth.

Railways want to reduce the round trip fare from Houston to Dallas from \$13.05 to \$9 and the fare from Houston to Fort Worth from \$14.80 to \$10.

A spokesman for the Railroad Commission said that no opposition was expected from rail companies not making these runs.

Partisans are responsible for much of the progress of the world and for most of its headaches.

Cemetery Association Says Now Is the Time to Plant Shrubbery

During January, the following have subscribed to the support of the Crowell Cemetery:

Mrs. H. L. Jinks, Wichita Falls, \$5.00; Mrs. O. M. Grimm, Thalia, \$10.00; Mrs. Maude E. Ra-berry, \$10.00; G. C. Lewis, Lockney, \$10.00; Mrs. Sewell Roy, Amarillo, \$10.00; Mrs. Harvey Turnbough, Lubbock, \$10.00; Mrs. Frank Cates, \$5.00; Thorny Cates, \$5.00; Tom B. Anderson, \$15.20; Mrs. Luther Tamplen, \$10.00; Jack Stinebaugh, \$10.00; R. B. Lilly, \$5.00; Maude Fish, \$5.00; John E. Fish, \$5.00.

Mrs. N. J. Roberts, president, stated:

"If there are those who plan to plant shrubbery at the cemetery, this is a good time. We do not encourage planting other than cedars. Nothing else seems to survive the long dry summers and they require less water. When they are once established they thrive in our area. Especially is this true with such varieties as Arizona Cypress, Italian Cypress and red cedars. Pfitzers and arbor vitas cover too much space unless trimmed periodically.

"We also encourage flattening graves and planting native grasses. This keeps down the weeds and makes upkeep much easier. The new addition on the north side is a good example of this. Each year we try to add some permanent improvement to our grounds. In '59, we papered and painted our caretaker's house and placed a new toilet on the property. We still need a shed or out house of some kind to be used as a garage and storage. Right now our road is being repaired and this will be reported later. Drive out and see where your cemetery money goes."

Social Security Urges Those About to Retire to Apply for Benefits

Naturally you want to receive your first social security check soon after you retire. To accomplish this, Erton F. Tate, manager of the Wichita Falls social security office, offers this bit of advice. "Inquire before you retire at your local social security office."

According to Mr. Tate, if you are a working woman age 62 or over or a man age 65 or older planning to retire, you should contact your social security office two or three months before your retirement.

"Why wait those extra weeks for your first social security check when a little foresight will bring it to you soon after your last pay check," Tate concluded.

News From the Congress
by Frank Ikard, 13th Dis.
The Administration's budget for the fiscal year ending June 30, 1961, was officially received by the Congress last week. It calls for expenditures of \$79.8 billion, which is \$1.4 billion more than estimated expenditures for the fiscal year ending this June. It provides for a slight reduction in spending for national security but proposes increases in nearly all other functions of government.
It estimates that revenues in the next fiscal year will be \$84 billion, which would mean a surplus of \$4.2 billion.
There are many facets of this budget that are worthy of consideration and deep concern on the part of both members of Congress and taxpayers. It is doubtful, for example, whether the prediction of a \$4.2 billion surplus is real or illusory, since it is based on many "ifs": a highly optimistic forecast of industrial production for the next fiscal year and sharply increased tax receipts; higher postal rates; higher taxes, and continuation of excessive Korean War tax rates.
It is a large budget, and there are serious doubts on the part of many Congressmen about whether it nevertheless ignores vital defense needs and accents unnecessary and expensive programs. Clarence Cannon, the highly respected chairman of the House Appropriations Committee, summed up the feeling of many members when he said in a speech on the floor of the House: "This budget is too high. It is inflationary. We must cut it. We should probe deeply into every item."

It is questionable whether the budget provides sufficient resources for the United States to close the gap which has opened between ourselves and Russia in the development of missiles. This is a vital matter about which the Administration seems to feel little concern.
The Congress will also have to examine means to reduce the public debt, which at January 1, stood at the staggering total of \$290,924,917,718. It has increased more than \$25 billion since 1953 and the cost for simply paying interest charges on the debt will amount to \$9.5 billion in the next fiscal year. Reduction of this huge sum before it chokes our economy is one of Congress' most pressing problems.
It is with these things in mind—the big "ifs" of the surplus; maintenance of the defense establishment; reduction of unnecessary spending, and easing of the tremendous debt load—that Congress will approach the President's proposed budget.
