SWEET 'N SOUR

By A. DILL

Summer is officially here so you can consider sunburns, mosquito bites, etc. as legal now. Sunflowers and other summer blossoms have replaced the spring varieties and for the first time since the years of drought there are butterflies — hordes of white and yellow ones. It gives you that "things are looking up feeling", and that's good.

We had a welcome guest this week — Sybil Meyers, our well remembered first grade teacher of two years back. Sybil is in school at McMurry College and will receive her Masters Degree there in July.

You gotta have heart — miles and miles of heart — it may be catch line in a popular song but it's true and Bob Estes, Lone Star Ranch Rodeo producer, is a good example of it. Bob suffered a broken leg (that makes four time for each leg) the second night of the Olney Rodeo. He slowed down long enough to get it patched up and was doing business as usual the next night — even rode out on Sundance, his high spirited sorrel horse, to take bows with the rodeo officials. The next morning he left for Dnucan, Okla. and produced a show there. This week Hopalong Estes was back home for a few hours lay over before hitting the trail for Lampasas and another rodeo. If grit plays any part whatever Bob has it made.

The Martins, Hernie, Mary, Martha Ann and Robert are home from a vacation trip to Eldorado, Ark. and points of scenic interest in Arkansas, Louisiana and East Texas. They were accompanied home by Hernie's mother who will spend part of the summer here.

Congratulations to Ann Barton who had a tenth birthday Thursday and celebrated with a simply wonderful party.

Last week was special in more ways than one. We had some more and very welcome guests, Ila Meador of Houston, who is visiting the Hickmans here, stopped by for a chat and it was certainly a pleasant surprise to see Ila and to know that she still carries a warm spot in her heart for the old home town and keeps up with all the happenings via The Baird Star.

Betsy Hickman, visiting home for the summer, was another special visitor and gee it was nice talking over old school memories — 'n stuff like that with Betsy. By the way, the Hickman gals, Bea and Betsy are planning an extended tour of the country this summer.

We had a lovely card from Miss Isadore Grimes this week. It was mailed aboard the Bermuda Queen on high seas and told of some of the exciting things she has seen on her trip and it makes us anxious to get a first hand report of it.

Joan Cockrell, daughter of Dr. and Mrs. Ray Cockrell of Snyder, is visiting Mr. and Mrs. Sidney Foy this week. We don't know whether the child just grows fast or if we're getting old but it seems only a short while ago that she was one of this column's "cute baby" nominees, and now she's a lovely young teenager.

Home-made ice cream and cake will be served.

B. Poe of Dallas visited his father, C. B. Poe, from Friday until Sunday last week.

Mrs. W. E. Cox of Lampasas is visiting with her son, D. C. Cox and wife.

Mrs. Ila Meador of Houston was a visitor in the Ace Hickman home last week.

smiles these days because granddaughter Sandra, Bob and Fay's youngster, is here for a visit. Those smiles work two ways too cause Sandy thinks its great fun to be with her grandmother.

Mr. and Mrs. Hugh Ross and Janet spent the weekend at Kerrville visiting daughter Mary who is at Camp Kickapoo there. We understand Mary's taking a lot of good natured heckling about the size of the town she hails from but if we know Mary she can give just as much as they send and come out "the winnah and still champion" of most any argument. Any way, it sounds like Mary's having oodles and bushels of fun and that's the way it should be for youngsters at camp.

Have you seen the new issue of McCall's Magazine? Just about everything pales before the majestic grandeur of the full color photos it contains of Rin Tin Tin, and oh will wonders never cease? There is also a color picture of Rin and Rusty and scenes from their TV show. If you are a Rin Tin Tin fan (and breathe not the name of the heathen who isn't) you'll want this book. At our house we sleep, eat, and live with ours.

And that signs 30 for this 24th day of June 1955 — see you next week?

Wheat Referendum Polls In County

Chairman William H. Ferguson of the Callahan County Agriculture Stabilization and Conservation Committee has designated six voting places in Callahan County for the wheat referendum to be held June 25.

Here are the places where the eligible wheat growers of the County will indicate whether or not they want the wheat marketing quota program to continue in operation for the 1956 crop:

Cross Plains — City Hall; Putnam, Shackelford's Store; Denton, Methodist Church; Eula, Schoolhouse; Clyde, Community Center; and ASC Office, Court Square.

Wheat growers have been notified of their wheat acreage allotments. All wheat producers who will have more than 15 acres of wheat for harvest in 1956 are eligible to vote. The marketing quota program does not affect those who will have 15 acres or less of wheat for harvest in 1956. The program will be in operation only in the commercial wheat States.

If two-thirds or more of the Nation's wheat growers voting in the referendum approve, marketing quotas will continue in effect for the 1956 crop. This will mean that price support within a probable range of 75 to 82 percent of parity will be available to those who stay within their farm's wheat acreage allotment. Those who exceed the larger of the farm allotment or 15 acres will be subject to a penalty equal to 45 percent of parity on the excess production, and price support will not be available for any of their 1956 wheat crop.

If more than one-third of the growers voting disapprove, marketing quotas will not be in effect and price support will be available at 50 percent of parity for those farmers who stay within the wheat acreage allotments for their farms. Those who exceed their farm wheat allotments will not be eligible for price support.

Q—What changes were recently made in the Social Security law?

A—The 1954 Amendments to the Social Security Law extended and improved the Old-Age and Survivors Insurance program. These amendments to the law extended protection to about ten million additional workers and their families and provided for increased benefit payments for present and future beneficiaries. Brought in the system for the first time in 1955 are self-employed architects, funeral directors, engineers, farmers and accountants. The changes raised the earnings base to \$4200.00 and made an important revision in the retirement test. The new law preserves the benefit rights for the totally disabled and gives the insured worker the right to have up to five years of low or no income disregarded in determining his average monthly wage for social security benefit purposes. There were other important changes in the program and these will be discussed in a later article. For further information contact Social Security Admin., 766 Cedar St., Abilene, Texas.

Mr. and Mrs. Hugh Ross and Janet spent Sunday in Kerrville with their daughter and sister, Mary Ross who is attending summer camp at Camp Kickapoo.

On Tuesday, July 12, 1955, qualified voters of the City of Baird will have an opportunity to vote on a bond issue for the construction of a city park, which will include a swimming pool. The amount is \$24,000.00. Election will be held at the American Legion Building in Baird.

This project was initiated by Baird Lions Club last summer, and the idea was introduced to each Club and Civic Organization in the City. Each Club appointed one member to serve on park planning committee to work on this project and every idea and suggestion as to methods of financing park construction was studied by this committee. The bond issue is the recommendation of the planning committee.

Tentative location of the park is the old softball field on the Red Meadows tract on North Market Street. An option has been secured on this land and permission has been granted to use the American Legion tract adjoining the Meadows property, which will allow plenty of space for a city park.

Elsewhere in this issue of The Star is the Notice of Election, and we ask that you read and study this proposal as it concerns every taxpayer in the City of Baird.

Telephone Calls To Caution Drivers

Mrs. V. E. Hill, president of the Wednesday Club which is affiliated with the Texas Federation of General Federation of Women's Clubs, in cooperation with the Texas Department of Public Safety and the Texas Safety Association, has announced that members of the club will join the 11,000,000 members of the national organization, Wednesday, June 29th in a series of chain telephone calls to appeal to Fourth-of-July holiday travelers to exercise care and courtesy in driving as a measure to prevent the disastrous toll of deaths from highway traffic.

Mrs. L. L. Blackburn, Club Safety Chairman and special committees have worked with other organizations and groups for 100% contact of every licensed driver in Baird. Committee chairman for these contacts are: Mrs. Ace Hickman, civic; Mrs. M. D. Bell, religious.

In 1954 there were 348 deaths during the same holiday period, with ten times that many injured. Your local call may be the means of preventing the dread long distance call reporting tragedy and heartbreak.

Students To Attend Summer Band School

Four Baird students have pre-registered for McMurry College's seventh annual summer vacation band school, to be held in Abilene July 17-30.

They are Wayne Boyd, son of Mr. and Mrs. Lowell Boyd; Evette and Le Vone Meadows, daughters of Mr. and Mrs. C. K. Meadows; and Louanna Ault, daughter of Mr. and Mrs. Preston Ault.

Yvonne Caldwell of Baird, a featured twirler with the McMurry College Indian Band, will serve on the band school's twirling staff. The daughter of Mr. and Mrs. M. M. Caldwell, Yvonne is a sophomore at McMurry. This will be her second year as an instructor in the summer band and twirling clinic.

OFFICIAL PROCLAMATION

The General Federation of Women's Clubs and the Texas Federation of Women's Clubs, as an integral part of the national organization, have achieved outstanding results in recent years by supporting the movement for traffic safety; and specifically have cooperated with the Texas Department of Public Safety, the Texas Safety Association and the Baird Safety Council.

This year, these women are placing special emphasis on traffic safety by conducting "A Telephone Crusade for Safe Driving Over the Fourth of July" among the people of Texas.

THEREFORE, I, As Mayor of Baird, Texas, do hereby designate the week of July 3rd, 1955 as Traffic Safety Week in Baird, Texas, and call upon all our citizens to join in these worthwhile endeavors sponsored by the Texas Federation of Women's Clubs.

Mayor J. T. Lawrence

In official recognition whereof, I hereby affix my signature this 20th day of June, 1955.

Washington

"As It Looks From Here"

The meeting at the "summit" on July 18th in Geneva, Switzerland will probably hold the spotlight in the news for some period of time.

It will be the first top-level meeting between the United States, Britain, France, and Russia since 1945.

There is a wide difference of opinion as to what may be expected. President Eisenhower has warned that no great optimism should be worked up over any immediate results from the conference. It is natural that many Americans be skeptical in meeting the Russians. From past experience, we have learned the "hard way."

Personally, I think if anyone can deal with the Russians, the President can do so without resulting harm.

The key to any conference with the Soviet Union is the control of the A- and H-bombs. No one is going to be foolish enough to agree to outlawing nuclear weapons without some system of strict inspection. The Russians have given no indication they will accept such.

The next question arises as to whether or not even strict inspection would be safe. The time is rapidly passing when it requires any great plant or obvious preparation in manufacturing the A- and H-bombs. The scientists have reduced the size of the operation to the extent that it is much easier to hide than those produced earlier. The A and H weapons have become much simpler and less likely of detection.

Together with the scientific discoveries of our age, probably the advancement made in atomic and nuclear research since 1945

WILL-O'-THE-WISP!

is equally fantastic. Recently a friend of mine told me that he had flown in an ordinary airplane from Mount Sinai to the River Jordan in forty minutes. He flew over the same route taken by Moses and the Israelites. It took them forty years. Perhaps the advancement in the awful weapons of destruction can compare to this progress. It seems to me that the only real decision to reach towards a

guarantee of peace in the world for all nations and men to realize that there will be no victor in an atomic and hydrogen war. This means, as I have maintained since the advent of these awful weapons, that we will be living in a world of tension for a long time to come. The sooner we make up our minds to this proposition, the happier we may be in living with facts we had rather not have to face.

Hi neighbors! This is Father's Day. I did not go to church this morning as there was a big cloud

and some rain but cleared away by church time. I will go tonight if there isn't a cloud.

We had a nice rain the past week. My, how the cotton is growing. Never have got to plow it, Jim will plow it tomorrow if dry enough.

R. C. Yarbrough and family of Rankin spent the weekend with his parents, Dick and Annie Yarbrough. Mr. and Mrs. Guy Eiland of Stanton were visiting with Dick and Annie too this weekend. I went to see them awhile this morning and enjoyed visiting with them.

We had a letter the other day from J. R. Shirley, Jr., of Houston. He is the eldest son of Mr. Jewel Shirley of Putnam. He is a graduate of Putnam High School of '55. He went to Houston to work. He writes he has a good job and a very nice boss. Says his boss is helping him get a good used car and he might get to go to college there. I think that will be nice. He said he went to the Callahan County Reunion they have in Houston every year and thought he might see someone he knew as he was anxious to see someone he knew but saw no one. So when his name was called there were three or four people who wanted to know if he was any kin to Mr. Bill Shirley and which one of the boys was his dad. J. R. told them Mr. Bill Shirley was his granddad and that Jewel Shirley was his dad. He also said there were Baird Stars all over the place and how glad he was to read them to see what had been happening back home since he left. J. R. we hope you get to go to college. We are very proud of our graduates from Putnam school and hope for your every success in the world.

HOGS HIGHEST SINCE LAST SEPTEMBER!

Hog prices opened 25 to 50 cents higher at Ft. Worth Monday and topped at \$21.25 to \$21.50, the best price here since Sept., 1954. Sows were steady at \$16 down.

Some Corn Belt markets reported as high as 40 to 50 percent of their hog receipts were sows on Monday. Indicates the Corn Belt farmers are getting things squared away to devote more time to field work.

This may also indicate that fed cattle offerings will taper off a little at those points. Grainfed cattle have been under heavy pressure due to heavy movements to market since the first of the year. Prices on fed cattle are 20% lower now than on Jan. 1.

packers, as well as the major packers, bore down on cow prices at Ft. Worth in Monday's trade and prices were sharply lower. Slaughter calves also met sharply lower bids in most cases. It was the first serious break in prices on these classes in several weeks.

Fed steers and yearlings were scarce and steady. Two loads of good supplementally fed steers weighing 1,145 pounds from Roscoe Edwards of Ringgold, Texas, were on the market. These sold at \$21 and were one of the first shipments of these good pasture fattened steers from the North Texas area to show on the market this season.

Stocker trade continues to be active and steady to strong. Bulls were also fully steady to strong. Comparative prices included: good and choice fed steers and yearlings \$19.00-\$22.00; common and medium \$11.00-\$18.00; fat cows \$10.00-\$13.50; canners and cutters \$6.00-\$11.00; bulls \$10.00-\$14.50; slaughter calves \$10.00-\$19.50; a few to \$20.00 and better sparingly. Stocker steer calves \$22.50 down; steer yearlings \$21.50 down. Some older feeder steers \$19.50 downward. Stocker cows \$8.00-\$12.50.

SLOCUM AND IDOL TO JUDGE HEREFORDS

Henry Elder, secretary of the Texas Hereford Association, reported that Jack Idol, manager of the League Ranch Estate, Benjamin, Texas, has accepted a judges post in the Hereford feeder calf sale to be held at Ft. Worth June 30. Idol is widely known and has spent a lifetime producing good feeders and will be a popular choice to judge them.

Third judge named was Furd Slocum, Cresson, Texas rancher and member of the famous Slocum Bros., ranching operations Southwest of Ft. Worth. For three generations their ranch has been used to feed and pasture cattle and is in one Texas best grass countries. Slocum is highly regarded among commercial cattle men and his selection was hailed as another very happy choice.

Inquiries from Arkansas, Mississippi, Florida and Iowa have been received from potential buyers, and are heavy, including some from East Texas, North

Once again the marketing opened at Ft. Worth Monday with over 10,000 sheep and lambs at hand and prices were fully steady to strong. Choice fat Spring lambs topped at \$22 and \$22.50, and some good clipped yearling lambs sold at \$16, with choice kinds quotable \$16 to \$17. Feeder Spring lambs at \$15.50 down, and old crop wethers feeder lambs sold around \$12 to \$12.50. Yearling ewes were quotable around \$15, and stocker ewes continued very scarce and in very broad demand.

SOMETHING FOR THE FIGURE ADDICTS!

Somebody figured out that 2,606,000,000 hot dogs will be consumed this year between Memorial Day and Labor Day. This would be a string of hot dogs 246,780 miles long, or ten times the circumference of the earth. This averages 15.85 hot dogs per capita for our over 164,000,000 population. Last year it was only 15.33 hot dogs per capita.

Today's Meditation

Read Colossians 3:1-4.
Your life is hid with Christ in God. (Colossians 3:3.)

Consider the amaryllis, how it grows. In early spring its green shoots quickly become abundant foliage. Then while other plants bloom and fill the air with fragrance, the leaves of the amaryllis fade and die. What once was a lovely green plant, promising even greater beauty, becomes a lifeless brown. But later, in the heat of summer, when spring flowers have gone, the amaryllis sends up a slender stalk to a stately height. Trumpet-shaped blossoms burst open, each a note of triumph in the amaryllis' song of victory over death.

This is one of nature's striking parallels to human life. We go down in defeat before sin. We seem spiritually dead. Then God calls to us. His whispers of reassuring love are like the south wind in spring. His blessings fall, "as gentle rain from heaven." His judgments burst upon us with lightning-and-thunder suddenness. At last, what has seemed dead and hopeless gives way to new and fuller life.

God calls. If we answer, He will raise us up.

Prayer

Father, we thank Thee for Christ in whom we can be born anew to a fuller and more glorious life.

Discover the life that is hid with Him in Thee. Bring our lives to glorious flower; through Jesus Christ our Lord. Amen.

Reminiscing With Sidney Harville

Some of the finest men that ever lived was the family doctor of our yesterday. Who made many a trip in the cold and rain and knew there would be no pay. He has been at the bedside of the sick. He had done his best but had to watch him die. And everyone that lives today some doctor heard their first cry.

Dr. R. L. Griggs is one of the few left and today is getting old. And drove his horse and buggy many a mile in the heat and the cold. He has been our doctor for many years and eased our pains and cured our ills. And today when we feel kinder bad we go to him for pills. In our family he has removed the appendix and cut out some tonsils too. And when we feel kinder bad we went to him to see what he could do. One time our boy and his chum needed some gas for their old Model "T" and they were getting it in a sly kind of way and as quiet as they could be.

They had a rubber hose in the tank of my new Model "A." They struck a match to see how much they had. Well they never forgot that day. The gas in the bucket caught on fire and they kicked it with their shoe. And they found out mighty quick that was one thing they should not do. It burned both our boys legs awfully bad from his ankle to his knees. And for a long long time his pain was so severe it was difficult to ease. To clear away all the burned flesh and graft some new skin we had a lot of skin offered him from a swell bunch of men. But if he could furnish his own skin Dr. Griggs thought it would be best. Five operations had to be made and between each grafting he had to have some rest. Two hundred and thirty patches of skin were placed on his legs but we have our thanks to Dr. Griggs that put him back on his pegs.

This fire cost me a new Model "A", my garage and to save my home I got awful hot. Take my advice, Don't strike a match to see how much gasoline you have got.

"Best Yet" Is Goal Of Cowboy Reunion

"We believe the Silver Anniversary of the Texas Cowboy Reunion will be the best one yet," says President W. G. Swenson.

Over 500 real cowboys of the present day will compete in the four rodeo performances and several hundred old-time cowboys from a dozen states will be in Stamford for the twenty-fifth annual celebration, Friday, Saturday and Monday, July 1, 2 and 4.

"Goat" Mayo of Iowa Park, who owns a big string of fighting bulls and bucking horses, will provide the stock as he has for almost every year since the rodeo started back in 1930. Will Rogers attended the Cowboy Reunion in 1935 just shortly before he took off on the fatal flight to Alaska. Gene Autry, Paul Whiteman, Wild Bill Elliott, Tex Williams, governors and many celebrities have applauded the Cowgirl Sponsors' race (a feature which originated here), the Brahma bull riding, wild cow milking, magnificent grand entry and the other exciting and colorful features of the rodeo.

There will be a downtown, all-western parade opening day, July 1, at 5 p.m., a rodeo all three nights and a matinee on the Fourth. Chuckwagons from famous ranches will serve dinner to the public and there will be an old-time fiddlers' contest, cutting horse contest, roping for old-timer cowboys and many other events.

Let's go fishing. Creeks all full and believe it or not there is fish again in the little water streams. We don't have any cotton to hoe so looks like we might as well go fishing or take a vacation. The only objection I would have of vacationing now is that storm cellars are few and far between so I prefer staying home and enjoy the good rains.
This being Father's Day, Lynda Jean, Hulon, Dale and Bet fixed their dad up with some stay-kool gifts, but Daddy Rogers will be going fishing and stay cool, as best he can.

Highlights and Sidelights FROM Your State CAPITOL

A luncheon that didn't happen in the Governor's Mansion on Monday had statewide repercussions. It could affect the fate of Texas' Democratic delegates at the presidential convention next summer.

Democratic National Chairman Paul Butler completed a six-day speaking tour of Texas at Houston. It was billed as an effort to restore harmony between the liberal and conservative Texas Democrats.

Mrs. Hilda Wehnert of Sequin, loyalist national committee-woman, joined in inviting Butler to Texas. But she boycotted his numerous banquet meetings because, she said, the loyalist Democratic Advisory Council's chairman, Judge Jim Sewell of Corsicana, took over, and froze out contacts with the conservatives.

Gov. Allan Shivers invited Chairman Butler to a luncheon with state officials at the Mansion, to be held June 20. Butler replied that his schedule was "too tight" but he'd be glad to see Gov. Shivers in any city where he was billed to appear.

That angered liberalist John McKelvey of Electra, who had arranged the reconciliation conference of Shivers and Butler in Washington in May. He resigned from the Democratic Advisory Council.

Austin politicians were studying the effect of Butler's speaking tour. Some of them thought there had been considerable "double talk," as Butler's statements could be interpreted to suit any view.

At Waco late last week, Butler abandoned the "open door" theme of trying to lure back Democrats who had voted Republican in 1952. He invited the Democratic Advisory Council, his host on the tour, to "organize" the 6,000 Texas precincts with

loyal leaders, for next year's showdown.

A significant feature of Butler's tour was that four prospective candidates for governor on the liberal ticket basked in the photographer's flash-bulb limelight.

At Dallas, Supreme Court Associate Justice Will Wilson appeared in his former home city as master of ceremonies at the Butler rally of over 1,000 liberalists.

John C. White, commissioner of Agriculture, sat at the head table.

Ralph Yarborough of Austin, strongly rumored as ready for a third try as the governor candidate of the liberals, started out with Butler at Lubbock and showed up at nearly all his meetings.

And Senator Jimmy Phillips of Angleton showed up at a Waco rally for Butler.

Present also were several other Senators who aren't prospective candidates for governor—and half a dozen House members.

Butler's Houston appearance was before the state convention of the Young Democratic Clubs. Virtually all the potential candidates for governor on the liberal ticket showed up there too. White delivered the keynote address at the opening business session and Yarborough also spoke.

Oplin Observations

By Mrs. Daphne Floyd
Odds and Ends Opportunity Offered In Open Order

The Homecoming at the Community Center last Saturday was a huge success. Friends and former residents started gathering at 2 p.m. and by 8 p.m. there was a full house. Donna Sue Pierce, Nancy McIntyre, Dorothy Breeding and Sylvia Gwin presided at the registry. There were about three hundred and twenty-five who registered and the girls each felt sure that many slipped by.

Guest speaker of the evening was Clyde White of Baird who taught at Oplin in the years of '22 and '23. Many of the former teachers were present. One quite familiar to us all, was Ione McIntyre who taught at Oplin for fifteen years. In her brief interview Ione reminded everyone that she would soon have completed forty years of teaching. When the speaker call for all her old pupils to stand, the whole house practically rose to their feet. Other well remembered teachers interviewed were Mrs. Feronia Kimble, Chas. D. Straley of Oplin, Mrs. Bell Fisher Thompson of Abilene, Mrs. Andrew Johnson of Oplin, Mrs. Pat Johnson of Oplin and several others.

Mrs. Winnie Windham Jordan, Mrs. Lilly McBride and Lee Straley remembered starting school at Oplin way back from 1900 to 1903. Mrs. Lena Preston told of going to old Tecumseh, which was later consolidated with Oplin in 1896 in a one room log cabin.

Grandma Mitchel of Lawn, who is 89 years of age was the oldest person present.

Plans got underway for an annual Homecoming. In behalf of the committee consisting of Mmes. Lucien Pierce, Tommie Windham, Howard Chatham, myself and Clarence Breeding, we want to express our gratitude to you of the community who backed us with your splendid cooperation in helping make this our first Homecoming a success. We just hope our visitors enjoyed it as much as everyone in the community did. We'll be looking forward to seeing you next year.

Our weekend festivities were saddened by the death of Mr. C. F. Beaver of Coleman, whose

body lay in state at the home of his son, F. F. Beaver. Funeral services were held at the Baptist Church at Oplin Sunday afternoon at 2:30 p.m.

Mr. and Mrs. Barney Slough of Houston, Mrs. Billy McNeice and son Buster of Big Lake were

guests in the home of Mr. and Mrs. Clint McIntyre and attended the Homecoming.

Mr. and Mrs. Pete Frymire and children of Jal, N. M. arrived for the occasion also and visited her parents, Mr. and Mrs. Albert Betcher.

SUBSTITUTES

"I am the Lord thy God, which have brought thee out of the land of Egypt, out of the house of bondage. Thou shalt have no other gods before me." Our God is a jealous God and forbids man to substitute anything for Him. We have an example of His making a substitution when they made a golden calf and declared that it was the God who brought them out of the land of Egypt. In doing this they sought a substitution for God and were cursed for so doing.

But making a golden calf is not the only way in which man can substitute for God. We can do so by accepting doctrine that is not found in the Bible. Paul warns against this particular type of substitution in Galatians 1:8-9. "But though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed. As we said before, so say I now again, If any man preach any other gospel unto you than that ye have received, let him be accursed." No substitute will take the place of the gospel. To add to the gospel our own creeds, dogmas and doctrines is to bring the curse of God upon us. Because substitutions are wrong we are told not to add to nor to take from God's Holy Word. (Revelation 22:18-19)

That confusion prevails today in the religious world cannot be denied. And this confusion results from one cause, man's substitutions. If we will be content with the Bible and only the Bible religious confusion will be eliminated. Let us work and pray that we will ever serve the true God in the right way and cast aside all substitutions.

1954 Baby Crop Largest On Record

Texas' 1954 baby crop turned out to be the biggest on record, the State Health Department's Bureau of Vital Statistics reported Thursday.

The 240,209 live births registered for the year was an all-time high rate of 28.4 births for every 1000 population, bureau statisticians said.

Most of the new babies were boys—104 for every 100 girls—the summary said, but 881 more male babies than females died during their first year.

"The attrition against the male sex goes on steadily through infancy, childhood, adolescence, maturity, and old age," a statistician commented.

How many mothers of 1954 babies were residents of Texas at the time of the blessed event is not yet known, but every one of the babies are bona fide Lone Star citizens by virtue of state law.

While birth rates were soaring to unprecedented high levels, deaths from selected causes were being cut to the lowest points in history.

"Last year saw the total death rate (7.7 per 1000 pop.), the infant mortality rate (31.0 per 1000 live births), the maternal mortality rate (0.6 per 1000 live births), and the stillbirth rate (17.3 per 1000 live births) at new all-time lows," the report indicated.

In addition to the reductions posted in infant and maternal

deaths, the report said the past two decades have witnessed drastic reductions in deaths from diseases affecting the general population.

There were 99 percent fewer deaths from each of typhoid fever, diphtheria, malaria, and pellagra last year than in 1934. Scarlet fever rates have been cut by 98 percent from the rate 20 years ago. Ninety-six fewer deaths from each of whooping cough and measles are occurring today than occurred in 1934.
