FUNERAL HELD FOR H. HUNT

Jan. 1, were held last Friday morning follows. at ten o'clock at the Margaret Methodist Church with Rev. A. O. Hood, pastor of the church officiating. Following the services at the church, interment was made in the Big Valley cemetery in Hardeman County.

Helm Hunt, a resident of this section for the past forty years, was born in Georgia on December 4, 1848. e was married to Miss Martha A. ears, October 23, 1871. To this union 16 children were born, 8 boys and 8 girls. Seven of this number aurvive. The family moved from Towne County, Gergia, to Foard County in 1890

Mrs. Hunt passed away July 20, 1904. Mr. Hunt was remarried to Miss Mattie Lightfoot, who survives him, on Feb. 17, 1908.

The following children are also left, mourn the loss of their father: rs. Mary Hevrin, Charles and Harris Hunt, all of California; Mrs. Ora Akers, Kansas City, Mo.; Mrs. Bertha White, Mrs. Grace Andrews and Wiley Hunt, all of Texas. Mr. Hunt is also survived by 34 grandchildren and 7 greatgrandchildren.

Mr. Hunt will long be remembered workers of this section. He died as honorary member of the board of stewards of the Margaret Methodist Church and the following members the board of stewards of that church acted as pall bearers: W. A. Dunn, L. A. Goodman, Ben Stokes, Luther Tamplin, Will Tamplin and Ray Hysinger.

All who knew Mr. Hunt regarded him as the finest kind of Christian character. For 65 years he was an active and consistent Christian. Due to ill health and almost total blindss of the last few years he was unable to take an active part in church affairs. Even in his ill health everyhe found it a real inspiration to vis-

His devotion to his church was own by the fact that he used to ide one hundred to one hundred and fifty miles on horseback to attend the conferences of the Methodist Church. During his life he had also known or heard 17 or 18 bishops and was personally acquainted with many

Long will the wholesome character and pleasant, lovable personality of H. Hunt be remembered by his hun-

CHILDRESS IS In Basketball Made LOSER IN GAME WITH WILDCATS

make the highest per cent in both halves, a final game will be played game that has been played here this In the best and fastest basketball season Crowell broke the undefeated record of Childress High School by the score of 46 to 30 Tuesday night. This was the thirteenth victory of the season for the Wildcats, who have not yet tasted defeat.

The Childress team gave the large crowd of fans a real scare by taking the lead early in the game and for the first time this season the opposing team was in the lead at the end of a period, the first quarter of this contest ending 7 to 6 in favor of Childress. The score at the half was tied 10 and 10.

Childress exhibited the best offense that any visiting team has shown here in some time and it was with their neat work in this respect that they ed up a score.

The Wildcats missed great num-

bers of apparently easy shots in the first half and although the half ended in a tie, the ball was around the Crowell goal most of the time. Last Half

Bill Middleton seemed to remember that he was not on a wolf hunt as the last half opened and in a very short time he scored three field goals. Burrow and Lanier joined into the spirit of the cyclone offense and before Childress could score again, Crowell had increased its lead four-teen points. The third quarter endend 28 to 15 with Crowell leading.

Lanier went on a scoring rampage in the last quarter and dropped the ball through the basket five times for 10 points.

Boyd, center, and Faust, forward, were the outstanding players for

WHY PRIDE?

As I stepped out of the Grand Central Station the other day I saw entering it a man whose face seemed familiar, and afer a moment's thought I placed him. He is one of the most distinguished members of the legal profession in America. He was a member of the Cabinet of a former President, and was himself mentioned for

On a sudden impulse I turned and followed him.

The station was full of commuters hurrying to their trains. They looked at him, and through him and around him, but apparently nobody recognized him. He jostled his way across the great floor, down a pair of steps to the platform of the subway. And there the crowd crushed him into the minimum number of cubic inches and flung him into an express train.

My last view of him was as he stood with his face pressed against the glass of the door, a completely squeezed and harassed looking man, in no way different from the sweltering others in

Not one of those others knew that he had been a Cabinet Minister, helping to shape the destinies of a nation during the greatest war. Nor would they have cared, probably, if they had known.

It has been remarked frequently that the really big man is almost always modest. The reasons for this are two-fold. In the first place, he knows how much of his success has been due to causes beyond his own control-his birth, his education, his business opportunities. And he knows, too, what a thin and evanescent

He has walked through places like Central Park and looked at the statues. These are great men who lived only yesterday-fifty or a hundred or a hundred and fifty years ago. Yet how few of them one can recognize without looking at the names. And if their fame is already so faded, what will it be in a thousand years, or

Abraham Lincoln's favorite song was a mournful hymn entitled, "Why Should the Spirit of Mortal Be Proud?" He knew that the river of life races on, and that even the most important of us is soon washed out into the big sea of oblivion.

He knew it because he was really big. It is only the littler men who act as if they were permanent rocks in the river, towering high abov the level, and destined never to be moved.

MAIN EVENTS OF PAST YEAR LISTED BELOW

(Continued from last week) July

Texas Company acquires 10,000 garet complete over half century of cal. Over one hundred flocks were furnished to 29 boys in quantities culled, with 9,850 birds heirs bear dled.

Joe L. Orr of Margaret, one of the poultry demonstrators showed by his records that a flock of 220 White Leghorn pullets produced a net prof-

Drouth Relief Work

Drouth work occupied a considerable portion of time during the year. Assistance was given by the agent in securing seeds and feed. The county agent issued permits on 39 car loads of feed and livestock brought about a saving of \$560.00 in freight rates. The reduced rates were brought about by the railroads for shipping feeds in and livestock

Cullng and sleecting the best animals from the flocks and herds in order that they might be adjusted to drouth conditions was given special attention.

Reports and conditions were gathered, compiled and forwarded proper authorities regarding Foard County's need for assistance from Congress due to drouth conditions. Cotton

Cotton on terraced land has showed a yield of from 15 per cent to as high as 100 per cent above that on land that was unterraced. Although the yield was exceptionally low this year the terraces were responsible for a good per cent of the amount that was produced.

T. F. Lambert of the Rayland community, who lives in a sandy section, "deep broke" 120 acres and planted cotton. This breaking was begun in January and continued almost to planting time. It was broken to a depth of 14 to 16 inches and was planted early with a result that a C. H. S. basketball practice starts. stand was kept and was not blown 2—Football team honored with out by the high spring winds. The yield averaged three-fourths of a bale to the acre on the 120 acres while that on land that was not deep plowed was one-third bale per acre. Chas. Matysek, on 80 acres of deep broke land, produced 700 pounds of

seed cotton while 450 lbs. on land not broken. Roy C. Todd planted 60 acres of terraced land in wheat in the fall of 1929 and also planted 50 acres adjoining that was not terraced, at the same time. This wheat was harvested in June and the terraced land yielded twice as much per acre of high quality wheat as that on un-terraced land. No difficulty was experienced in getting the combine over the wide terraces. The practice of using cow peas on the sandiest section of the county is being encouraged and has proven effective as a soil builder. In most cases the cowpeas are planted in alternate rows with feeds. The left on the ground and plowed under

fairly good cover of vines for protect tion and to add fertility.

Grain Sorghums Farmers of the county received

800 pounds of pureline sorghum see that were secured from Texas experiment stations and reputable growers to be used as a basis for fu ture seed supply. Poor results were reported, however, there is sufficient seed of good quality to carry on t seed demonstrations in 1931, Mr. Rennels reported.

4-H Club Work

4-H Club Work
Club work was conducted with 82 a. m., Wed tions of grain sorghums, cotton, poul-12—Crowell defeats Quanah in Treatment of worms in chickens and try, dairy cattle, swine and a turkeys has been practiced more and other miscellaneous demonstrati ficient to plant from 1 to 5 ac Enough good seed has been produ from these club demonstrations furnish seed for 1931 demonstration

Richard Sparks, Foard City Club boy produced 1900 pounds milo maize heads from one acre onstration. Richard attributes success to the fact that he land v extra well prepared and the planted early before the chinch bug

began to work. There were 24 boys enrolled in dairy clubs. Most of these boys have mature cows with which to The four registered Jersey bulls that are owned and controlled by the dairy club members have sired about 400 calves since they have been in the county for the past three years. Many of these boys have the foundation for excellent herds. Over 120 calves were sired by these bulls during the past yar.

Charlie Haseloff of Margaret four registered heifers from his orig inal dairy heifer that was purchase at the time the co-operative calf cl and bull circle was organized in 193 The cost of his first heifer and his terest in the 4 circle bulls was \$11 He now has a total of 5 head, all reg istered Jerseys, valued at \$350.00 He is yet in the grammar grades school and is planning to use his club Jerseys to aid him to go through co lege.

Miscellaneous Work Considerable work has been done

by the agent in sponsoring a campaign Virginia S for more alfalfa on Foard farms. The veterinary work of the county students in has received considerable attention in treatment of the simpler diseases as there is not a veterinary closer to Crowell than 30 miles. Treatment and instruction was given in the treatment of 30 cases of milk fever. The agent also assisted in the vaccination against black leg. Instructions were given in worming numerous flocks of chickens and turkeys Instruction was given to numerous farmers in the prevention of livestock and poultry diseases and insects and

The encouraging of T. B. testing keeping up the registration papers of their livestock was also given by the

agent. Numerous other duties were also performed by the agent throughout the year.
