spread resentment over making these applicants work for their pay. But taxpayer pressure, plus the fact that the applicants are actually happier when doing something useful, forced the issue."

**Can Handle Local Problems at Home**

"Up until recently, one of the many things which has made this country great has been the way we handled our local problems here at home. Here we all know what's going on, and we maintain control of them, not leaving it to a group of bubble-headed bureaucrats in Washington to tell us how to run our community. If we strive, slave and work, and still can't solve our community problems, we try the next best thing."

"Let's tell our senators and congressmen we want them to choke off this latest move of big central Federal government getting into our home town affairs, and stop this Department of Urban Affairs!"—Benton, Mo., Democrat.

**Licenseless Fishing Tops Arrest Lists**

This is fishing season, and too many are going fishing without buying licenses, according to arrest reports of game wardens for the month of March.

There were 94 arrests for fishing without a license during the month. In all, game wardens arrested 257 persons, and the courts assessed fines and costs amounting to \$8,880 for the month.

Although the deer hunting sea-

son has been closed since Dec. 1961, a number of arrests were made for killing deer in this season, killing does, and hinds at night. In fact, there were 11 arrests made in connection with night hunting.

The licenses were suspended 18 violators, and some of the paid fines amounting to \$200.

A fishing license is required of all persons between 17 and 65 who fish outside their home county or who fish with rod and reel or other winding device any place in the state. The price is \$2 for either resident or non-resident hunting.

**Spring Is Here; Fish Are Biting, Birds Are Nesting**

Doves are beginning to nest and the bobwhite quail are calling. H. D. Dodge, executive secretary of the Game and Fish Commission, says game wardens and biologists throughout the state are now reporting nesting activity of quail. Dove nests have been reported throughout the state, and quail are pairing off for the season.

Most of the Texas lakes are reporting heavy runs of strip bass and crappie. Although March winds continue into April, fishing in inland waters has been very successful, with some unusually large bass reported in spring.

On the coast there was a run of Spanish mackerel, which received a setback from winds during the past week. However, with the warming of the water, mackerel fishing is expected to be hot again in a short time.

**TO VOTERS OF 82nd Legislative District**

When I became a candidate for Representative from the new 82nd District which now includes counties in the old 38th District it was my expectation that the campaign would be devoted to matters connected with the State Government. But since my opponent, Mr. Alex Ben Saied of Childress, has published unfounded charges that insinuate improper conduct on my part as a public official and as a citizen, it seems appropriate to call attention to certain facts in Mr. Saied's record.

1. Records in the District Court of Hood County for the April Term, 1951, show that judgment was rendered against Mr. Saied for personal injuries suffered by the plaintiff in an automobile accident, the amount of the judgment, including costs and interest, was \$3,017.42.
2. The record further shows that on the 30th day of April, 1955, the holder of the judgment against Mr. Saied transferred to five doctors in Tarrant County a portion of the judgment. The amount of the transfer was \$620.35 and was to be satisfied out of the first money obtained in execution of the judgment.
3. On May 10, 1956, Mr. Saied filed a voluntary petition in bankruptcy in the United States District Court in Amarillo. In the sworn statement accompanying the petition Mr. Saied stated he had sold during the month of December, 1955, to Morris Higley the following securities: 50 shares of National Founders Life Insurance Company stock for \$100, eleven shares of American Trust stock for \$7.50 per share, and ten shares of ICT stock for \$5 per share.
4. In the above mentioned petition Mr. Saied listed his assets, which included a contract of purchase with the Veterans Land Board on which a down payment of \$153.53 had been made, a \$2,000 life insurance policy with a surrender value of \$64, a 1955 model Cadillac automobile and unspecified personal effects. The Cadillac was valued at \$3,500. (The referee in bankruptcy held that no equity existed in the land purchased from the Veterans Land Board and that the Cadillac and personal effects are exempt by law from execution for the payment of debts of a bankrupt).
5. Mr. Saied declared in his bankruptcy petition in 1956 that he had no money and no bank account and that his total income for the two years preceding filing of the petition was \$42.50 per week as a clerk.
6. Claims against Mr. Saied listed \$550.00 in fees owed to a Childress attorney, \$300 to a resident of Childress for a loan obtained in 1955, \$1,200 for indebtedness for losses sustained in a partnership business in Duncan, Okla., \$3,000.07 judgment for injuries inflicted in the Hood County accident, and \$275.00 for car damage in the same accident.

Voters of the 82nd Legislative District might be interested in knowing how Mr. Saied was able to own and operate a late model Cadillac automobile, meet payments on a land purchase and maintain the living standards of a successful business man and outstanding civic leader on a total income for the two years preceding his voluntary bankruptcy petition of only \$42.50 per week.

Another matter which Mr. Saied might explain to the voters is why should a man of his reputation file a petition in bankruptcy when the major claim against him was in settlement of a judgment for injuries to a young girl and could have been settled for less than the sworn value of his Cadillac automobile.

**W. S. (BILL) HEATLY**  
 CANDIDATE FOR RE-ELECTION  
 REPRESENTATIVE 82nd DISTRICT

Political Advertising Paid For By W. S. (Bill) Heatly

Word has just been received here of the death of Tommie Locke. He was found dead at an irrigation well Monday night on his farm after he failed to return home. At this time, funeral arrangements are incomplete. He is survived by his wife, one son and two daughters.

S. B. Farrar is confined to a Vernon hospital for treatment.

Mr. and Mrs. Robert Matus and family, Mrs. Bert Cerveny and children, all of Vernon, and Mr. and Mrs. Johnnie Matus and family were dinner guests of their parents, Mr. and Mrs. John Matus, and family Sunday.

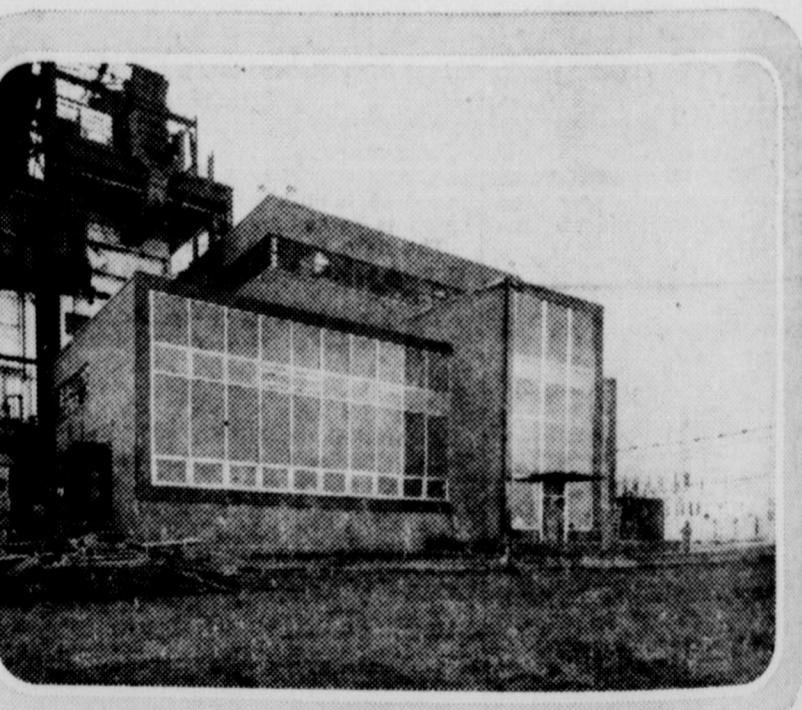

Tony Schwartz of Vernon and Mr. and Mrs. Johnnie Zahn were Easter Sunday guests of their parents, Mr. and Mrs. Herman Schwarz.

Mr. and Mrs. John Showers of Elliott and daughter, Regina, of Denton visited Mrs. Showers' parents, Mr. and Mrs. Henry Bice, Saturday night.

Ira Tole was admitted to a Wichita Falls hospital during the week end. He was removed to the home of his sister, Mrs. Hibit Grishom, for further treatment.

**Unexpected Dividends**

Ralph T. Moore writes, in the Oregon Voter: "The practice of organizing useful work programs to employ applicants for relief under our national welfare system seems to be spreading. It is also beginning to pay dividends in an unexpected way. It is teaching many men how to use ordinary tools properly and so contributes to their ability to compete for employment, a most constructive circumstance and one not contemplated under the relief program. At first there was a wide-

**WE WORK FOR ALL INDUSTRY**  
 in the Center of the Southwest

Modern industry is a complex structure. Manufacturers rely on others to supply many things, among them raw materials, machinery, power, containers, transportation.

West Texas Utilities Company is both an industry and such a supplier. The product we make—electric power—is used by other industries in our service area.

We are proud of this close relationship. It is our job to provide a plentiful supply of electric power today. It is our obligation to increase the supply as present industries expand and new ones come in.

Our current expansion program anticipates continuing industrial growth. One example is our new Oak Creek generating station pictured above, with another and even larger plant already on the drawings boards.

To aid in industrial development, we will continue to tell the Nation's industrialists that "...in this area lies opportunity," as evidenced by the many industries thriving today in the CENTER OF THE SOUTHWEST.

**STATE CAPITAL**  
**Highlights**  
**AND Sidelights**  
 by Vern Sanford  
 TEXAS PRESS ASSOCIATION

Austin, Tex.—Next week some 500,000 Texans will make up their minds whom to cast their ballots for among a huge list of candidates for local, district, state and federal offices.

Prime interest is in the governor's race, where five democrats and two republicans are hoping to replace Gov. Price Daniel. The governor is working hard to see that they don't.

**NOTICE!**  
**ALL VEHICLES MUST**  
**STAY OFF AIRPORT**  
**RUNWAY**

The Commissioners' Court has this week posted signs at the Foard County Airport prohibiting all vehicles, except aircraft vehicles, from entering upon any portion of the run-way or taxi-way. This action is necessary to comply with Federal regulations appertaining to the use of the airport. Warning tickets will be issued for the first ten days, but after such ten-day period, all violators will be prosecuted.

**COMMISSIONERS' COURT OF**  
**FOARD COUNTY, TEXAS**

Down the list, to the office of precinct chairman, there are more candidates than in many years. This is due primarily to the "open races" for the major state offices . . . namely those of attorney general and lieutenant governor. These openings have allowed those down the line to try to move up while at the same time leaving lesser offices open.

Also on May 5, the two parties will hold precinct conventions. They will name delegates to county conventions. County delegates, in turn, will name delegates to state conventions to be held in September. This is where party platforms will be written.

Big side-bar issues on May 5 will be the referendums on horse race betting and poll tax repeal. These will appear on both the republican and the democratic ballots. Also on the GOP ballot is the question whether Padre Island should be developed as a state park. Results of the balloting on these referendums are not binding. But they provide a public opinion poll and legislators are likely to follow the mandates set out by the voters.

**DANIEL BACKS IMPORTS LIMIT** — Governor Daniel sent telegrams to the governors of the other 31 oil-producing states, and asked them to join him in supporting an oil imports limitation amendment. U. S. Congressman Tom Steed of Oklahoma introduced the proposal. It would require oil imports to be cut to the 1956 ratio with U. S. production.

At the 1957 Governors' Conference, Daniel was successful in getting 32 gubernatorial signatures on a petition to Pres. Dwight D. Eisenhower, urging mandatory import controls. But he feels that nothing has been done to prevent imports from supplanting domestic production.

Daniel said that the recent schedule of eight-day allowables in Texas has resulted in a loss of more than \$100,000,000 in tax revenue for the State. May will be another eight-day producing month.

**AGRICULTURAL WAR ON** — About 40,000 bushels of sweet potatoes worth \$100,000 are in danger of being ruined by the sweet potato weevil, according to State Agriculture Commissioner John C. White. Some 1,200 growers in 10 counties plan to join the state in a two-month battle

against the pest. About \$15,000 will be spent to dust sweet potato crops and some 100 storage houses in Anderson, Cherokee, Houston, Leon, Madison, Nacogdoches, Rusk, San Augustine, Shelby and Trinity counties.

White says the war against the Kaphra beetle, which devours grain, has been won at a cost of \$190,000. But every precaution is being taken to prevent another invasion from out-of-state.

On the positive side of the planning problems, the agriculture commissioner said South Texas cotton farmers have been given a 10-day extension—to midnight, April 30 — to plant, or replant where seeds failed to germinate because of unusually dry weather.

**NO SECRETS ALLOWED IN SCHOOLS** — A Texas law that says that public school authorities can suspend or expel a student who solicits members for a fraternity, or other secret society, also prohibits other organizations from doing so. Attorney General Will Wilson has so ruled.

The law allows the formation in schools of Boy Scouts, Hi-Y, Girl Scouts, DeMolay, Rainbow Girls, Pan-American clubs, scholarship societies, and other "kindred education organizations sponsored by state or national education authorities."

But any "public welfare" group which isn't on the list of specifics is forbidden.

**BOAT TRAFFIC BIG PROBLEM** — As warm weather inspires the owners of 177,028 motor boats to launch their crafts on Texas' lakes and streams, the problem of boat safety comes to the fore. The boat safety committee of the Sportsmen's Clubs of Texas plans to study the matter with Rep. Ben Atwell on April 27.

Atwell has been directing questionnaires to all sportsmen's clubs to determine where and how boating accidents occur. Survey is to see if the Boat Safety Act passed by the 56th Legislature contains practical plans for accident prevention.

Henry J. LeBlanc Sr., president of SCOT, called a meeting of the board for the same day in Fort Worth. There members will review the McGee Bend Dam project and other U. S. Corps of Engineers' plans which relate to impoundments on drainage systems in the State.

**NEW HIGHWAY MARKERS** — The 57th Legislature failed to appropriate funds for advertising Texas' tourist attractions out of the state. But the Texas Highway Commission has come up with a dazzling device for pointing out places of interest to travelers once they get in the State.

Historic sites and other spots of unusual interest will be pointed out by big, cast-aluminum markers, such as those used in Virginia. These markers will be erected at roadside parks and turnoffs, so drivers can pull over and read the legends at leisure.

Markers are three feet wide and four feet, 10 inches, high and look like they're made of Swedish steel. They'll be mounted on six-foot aluminum poles.

Two already have been erected at a cost of \$1,000 each. One,

placed two miles northeast of Tyler, marks the site of the largest Confederate Army prisoner of war camp west of the Mississippi. It was paid for by the grandson of a Union soldier who spent some time there.

The other was purchased by the Odessa Chamber of Commerce to point to the famous Meteor Crater near Odessa.

On May 4, a third plaque will be set up at McCamey. It will mark Castle Gap—the old Butterfield State pass.

Attorney general ruled that such markers are necessary for maximum use of modern highways, and thus okayed the expenditure of state funds for future plaques.

Cost of plaques can be reduced to \$700 each in mass lots.

A committee headed by George W. Hill of the State Historical Survey Committee and composed of representatives from the Highway Department, the Parks Board and the Game and Fish Commission screens all recommended sites. About 100 spots are being considered right now.

**Short Shorts**  
 Governor Daniel picked Lewis Spears of the Texas Education Agency to represent him at the White House Conference on the Youth Fitness Program.

A Dallas law graduate, Robert E. Wade, scored an average of 87 1/4 to make the highest grade of the 145 applicants who recently passed the 1962 Texas Bar examinations.

Odessa won second place in the National Cleanest-Town contest. Honored also were six other Texas cities—Devine, Brazoria, Pleaston, El Paso, Fort Worth and San Antonio.

**Mercury Space**  
**Capsules to Tour**  
**Nation for Bonds**

Three Project Mercury manned spacecraft—replicas of the famous "Freedom 7," "Liberty Bell 7" and "Friendship 7" which carried America's first astronauts into space—will tour the country for U. S. Savings Bonds during the Treasury's Freedom Bond Drive in May and June. The public will be invited to examine at close range the entire spacecraft, including the interior of the capsule.

The tour, which is made possible by the cooperation of McDonnell Aircraft Corporation of St. Louis and the Chevrolet Motor Division of General Motors Corporation, Detroit—two of the nation's best promoters of the Treasury's Payroll Savings Plan was announced by William H. Neal, National Director, U. S. Savings Bonds Division.

The McDonnell Corporation, which designed and built the Mercury capsules for the National Aeronautics and Space Administration, is now making the three full-size replicas for the Freedom Bond Drive. The spacecraft will be lent to the Treasury Department for the bond drive period, and returned to the company after touring the nation.

Chevrolet will provide as a pub-

lic service three trucks and trailers on which the spacecraft will be mounted, as well as drivers, display signs and public address systems.

The mounted space capsules will tour 150 major cities during the drive and serve as a nucleus around which community Freedom Bond promotions will take place. In addition to these cities where the capsules will have formal showings they will pass through hundreds of other cities and towns enroute—so that millions of citizens will be enabled to see them.

"It is appropriate that these spacecraft will be exhibited in connection with the Freedom Savings Bonds Drive," Mr. Neal said. "Our explorations in space over the years will require substantial sums of money. The extent and success of this program ultimately rests upon a strong and growing economy. The continued sale of Savings Bonds—and extra sales during this drive—is an essential ingredient of a healthy economy."

"Millions of Americans will be able to see and examine spacecraft similar to the ones that were manned by Alan Shepard, Gus Grissom and John Glenn in their pioneer flights — and will be used by the other astronauts in future trials. At the same time, they will be receiving a timely reminder that, as our drive slogan puts it, they can help keep freedom in their future through the regular purchase of Savings Bonds."

### Rabbit Fever Shows Small Increase in Texas

Tularemia—alias "rabbit fever"—increased in Texas last year compared to 1960. The actual number of cases, 13 during 1961 as against nine for 1960, is not startling, but is of concern to victims and to people engaged in communicable disease control.

The figures are tallied each week by the Texas State Department of Health from reports gathered throughout the State. In all probability there were actually more cases than were reported.

Tularemia is caused by an oval-shaped organism called *Pasteurella tularensis* in dubious honor of Tulare County, California, where it was first discovered as an infection of wild rabbits and squirrels.

The disease is transmitted to humans by the bite of an infected fly or tick, or when the germ is accidentally introduced into the body during the process of dressing wild game. It can also be acquired by eating insufficiently cooked meat from an infected game bird or animal. The death rate of untreated cases is usually about five per cent.

The infection has been and is still known all over Texas, but is reported most often from the eastern section of the state. Outdoorsmen are more susceptible than the general population be-

cause of a greater chance for exposure.

According to the best authorities, on a nationwide basis 90 per cent of human cases are acquired from rabbits, chiefly wild cottontails. Other susceptible native animals are coyotes, opossums, deer, skunks, and some species of snakes.

As for domestic animals, natural infections have been found in cats, dogs, hogs, and sheep. Among susceptible wild birds are quail, chicken hawks, and horned owls—all native to Texas.

There is no truth in the belief that rodents are tularemia-free in winter, health authorities advise. Cases occur every month of the year, but mostly in April, May and June, the months of greatest tick activity.

The danger of contracting tularemia is another reason for not drinking raw creek or lake water. The organism can live in water where the disease prevails in wild-life.

The use of rubber gloves when handling wild game, refraining from drinking raw water, thorough cooking of all game, and prompt disinfection of scratches and insect bites will help prevent tularemia infection. (A feature of the Health Education Division, Texas State Department of Health.)

The four elevators at Carlsbad Caverns National Park in New Mexico transport 1,200 persons an hour. The 754 foot trip to or from the subterranean wonderland takes 57 seconds.

### Two Minutes With the Bible

**"The Death of the Cross"**

There are four words which every one of us should consider in connection with Christ's death at Calvary if we would fully appreciate what our Savior did for us there.

**Crucifixion**

It is doubtful whether man has ever conceived a more cruel and humiliating way to execute even the vilest criminals. The physical agony alone must have been horrible to even contemplate. The criminal was nailed to a tree and left to hang there, writhing in the most intense pain until, fevers wracking his body, he died. And then think of the humiliation as he was nailed there, stripped and naked, to suffer shame and disgrace before the public gaze. Little wonder Phil. 2:8 says that Christ humbled Himself to become obedient "unto death, even the death of the cross."

**Substitution**

We have not even begun to understand the cross if we do not understand that Christ died there as our Substitute, paying for our sins.

"Christ died for our sins" (I Cor. 15:3). "His own self bare our sins in His own body on the tree" (I Pet. 2:24).

**Representation**

But Christ was more than our Substitute; He was our voluntary Representative at Calvary. He had taken on Himself human form that He might represent man before God and die as a Man for men.

"As it is appointed unto men once to die but after this the judgment, so Christ was once offered to bear the sins of many" (Heb. 9:27,28).

"(He) was made . . . lower than the angels . . . that He by the grace of God should taste death for every man" (Heb. 2:9).

**Identification**

It follows from this that if Christ represented me at Calvary, He became identified with me there, and I am identified with Him as I accept this by faith. Hence Paul exclaims:

"I am crucified with Christ, nevertheless I live; yet not I, but Christ liveth in me; and the life which I now live in the flesh, I live by the faith of the Son of God, who loved me and gave Himself for me" (Gal. 2:20).

### Valuable Guns Described in Magazine Story

Today's old guns are those involved in some period of history, or which were owned by men who made that history. This is the story of Henry Stowers on gun collectors in the April issue of Texas Game and Fish magazine.

In this article the author presents the pictures and the history of some of these guns. He deals specifically with a gun collector who owns a buffalo gun with a value of \$4500.

"Fake antiques are the bane of both dealers and collectors," Stowers writes. One of the first things a collector should learn is to evaluate the gun's condition. He cites the set of standards adopted by the National Rifle Association.

Many collectors have found their hobby financially profitable. Some spend time on restoring them to their original finish. Others find their guns more valuable left in the condition in which they are found.

The article is illustrated with a number of pictures of valuable guns from the collection of guns now owned by Col. Leon Jackson, Dallas gun collector and appraiser.

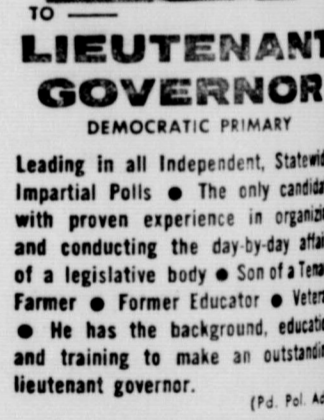

To light a staggering array of magnificent limestone formations in Carlsbad Caverns in New Mexico, 28 miles of wiring and 500 bulbs—all hidden from view—used. About 50 bulbs a week are replaced, and two full-time electricians are employed.

### Can We Follow It Without Disaster?

"From the Rooseveltian days of spending ourselves into prosperity and preoccupation with man's inhumanity to man, we have produced some mighty fine slogans to justify the ever-increasing concentration of wealth, influence, and power in a paternalistic government . . . Big government, soft living, lowering productivity, ever-rising taxes taking away incentive, fiddling in the bath . . . these presaged the fall of the Roman Empire. Our feet are firmly set in the same path. Can we follow it without disaster?" — Buffalo, S. D., Times-Herald.

### May Plentiful Foods in Tune with Spring

May plentiful foods—five on the official list—can make your menus sing a merry air, right in key with perked-up spring appetites, suggests the Texas Agricultural Extension Service.

Milk and the whole family of dairy foods are the feature. Production in early 1962 was averaging more than 2 per cent above that of a year earlier. It's at its peak in May and June. Further, lower milk support prices, effective April 1, are being reflected in lower consumer prices on some dairy foods.

Other items on the May plentiful foods list, as determined by the Agricultural Marketing Service, include tender broiler-fryers, canned freestone peaches, eggs and vegetable fats and oils. The supply of each is expected to exceed normal trade needs.

Broiler-fryers, once considered a rare spring treat, now rate high as a year-around economy meat. Prices have been unusually attrac-

tive, except for producers. February at-the-farm prices were the lowest on record for that month. And production in April, May and June is expected to increase more sharply than usual.

Eggs are another typically spring item. Biddy is producing more, as she does each spring. And the number of Biddies is up 2 per cent from a year ago. So eggs are plentiful; prices are low.

Stocks of salad and cooking oils continue at record levels. They go naturally with the abundance of spring salad greens. And you likely will find many stores running specials on canned freestone peaches this spring. Last fall's pack was huge. They're still plentiful.

### Tommy Locke Found Dead at Farm Near Thalia Monday

Tommy Locke was found dead at his farm east of Thalia Monday evening.

Mr. Locke apparently died while working in his field and the body was found by a neighbor.

A Vernon justice of the peace said there was evidence that Mr. Locke had been struck by lightning.

Funeral services were held at 3 p. m. Wednesday at the Thalia Church of Christ conducted by Oliver Holland and Welton E. Nickel.

Survivors include his wife, two daughters, one son, a grandson; four sisters and his step-mother.

### Asks Ban on Seaway Promotion Using Tax Dollars

Representative Van Zandt of Pennsylvania asks a ban on St. Lawrence Seaway promotion using tax dollars or toll revenues. In his view, if the Seaway is benefiting Great Lakes port cities, "it is clearly detrimental to ports such as New York, Philadelphia, Hampton Roads, New Orleans and Galveston, as well as to the railroads with which the Seaway is in competition."

### Will Have to Be Guaranteed

Walter Lippmann writes: "Sooner or later the freedom of West Berlin will have to be guaranteed in an international covenant which makes it an international city under the specific protection of the great powers, the general protection of the NATO and the Warsaw Alliance, and of the United Nations. But that eventual solution, although both sides know that it is coming, cannot now be spelled out in a treaty which everyone concerned with Germany could sign. . . . All that both sides

can now do is what they appear to have done, which is to deflate the Berlin crisis without reaching a Berlin settlement."

### Critical of Employers Who Talk of But Do Not Hire the Handicapped

President Wagner of the Chamber of Commerce of the United States is critical of employers who pay lip service to hiring qualified handicapped persons and don't follow through. In his words, "More acceptance of the idea that handicapped persons can make good employees is a long way removed from actually hiring them. And the boss who says that they should be hired but does nothing to make sure that employment opportunities are available to them, falls short of doing a good job."

### Investor-Owned Nuclear Power Plants Now in Operation

An Edison Electric Institute spokesman, in a report delivered to the Joint Committee on Atomic Energy, says that seven investor-owned nuclear electric power plants will begin operation this

year. That will bring to 12 the number of such projects in which the investor-owned utilities are participating.

### Three Main Causes of Blindness in U. S.

The American Medical Association points out that the main causes of blindness in the United States are glaucoma, cataracts and accidents. Most of the accidents could be prevented by the exercise of simple precautions on the part of children and their parents. Many cases of cataracts can be dealt with by surgery. Glaucoma, if recognized in its early stages, and if adequate and sustained treatment is given, can be checked and stabilized. One reliable estimate says that half the blindness in this country could be prevented or cured.

**Costly**

If President Kennedy's entire legislative program — including aid to education, medical care for the aged, public welfare and the rest — were approved in toto by Congress, what would the costs be? U. S. News & World Report has totaled up the tab and finds

that increases would come to \$2,538,000,000 in the fiscal year ending June 30, 1963, and \$9,076,000,000 for the fiscal year ending in 1965.

Modest reductions in the cost of dairy products are anticipated. Reason is a cut in federal price supports to the minimum legal level.

## Miss Janey Bowers Honored by Reception in Quanah Friday

Mrs. J. C. Baker and Miss Beth Baker of Quanah held an introductory reception last Friday, April 20, from 8 to 9 p. m. in honor of Miss Janey Bowers, bride-elect of Joe Gayle Baker. The refreshment table was covered by a white cloth which was trimmed in cut-work embroidered in blue. The table was accented by an arrangement of white stock and blue daisies, with appointments of two

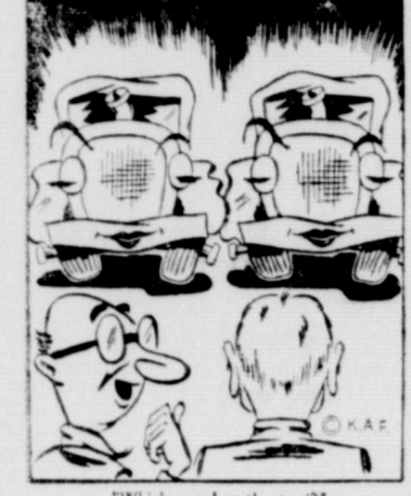

candelabras, each holding three white candles. Mrs. Floyd Ferguson, aunt of the honoree, and Mrs. Key Dennison, aunt of her fiancé, served at the refreshment table. Also serving were Miss Beth Baker and Mrs. Jack Caldwell. Mrs. Van D. Sparkman served at the guest register. Also attending the reception were Mrs. J. G. Standifer and Mrs. J. T. Baker, grandmothers of the groom-elect. One hundred and ten friends and neighbors called.

## G. A. Coronation Sunday Afternoon

The largest and probably the most beautiful G. A. Coronation ever held in this area will be conducted at the Baptist Church Sunday afternoon at 3 p. m. The public is welcome to attend. More than 20 girls, ranging in age from 9 through 15, will receive honor recognition, with girls from all three of the auxiliaries participating. The high point of the ceremony will be the awarding of scepters to Queens Scherry Goodwin and Ella Ann Cates, who have been working toward this goal for over a year. The seven maidens

who will receive their green octagons, Kathy McLain, Deborah Rasberry, Pauline Quintana of Truscott, Zerne Gafford, Vicki James, Sharon Evenson and Sheryl Willson, are all members of the Cecilia Lancaster Auxiliary, and this will be their first step along the way that leads to a queen's crown. Miss Saunna Martin will be the only lady-in-waiting. The three princesses are Pam Carter, Renee Daniel and Joylyn Haynie. The large group of queens who will be crowned are from the two older auxiliaries: Nelda Chappell and Sharon Glover from the Jaxie Short Auxiliary, and Lanette Lemons, Frances Cates, Deborah Jones, Joy Trawcek, Virginia Stapp and Jon Ann Carter from the Martha Low Auxiliary. The last-named group of six queens started their G. A. work together nearly three years ago, and have progressed through every step since that time in the same group together.

This coronation ceremony is remarkable for the unusually large number of girls who have attained the rank of queen or above and who will receive the advanced awards of crowns or scepters. Each queen or queen-with-scepter will choose her little flower girl and crown or scepter bearer who will accompany her in the procession and who will be her attendant for the remainder of the ceremony. The theme for the coronation will be taken from the International G. A. hymn, "We've a Story to Tell." The special music will be "Send Me, O Lord, Send Me," by Ross Coggins, who wrote both words and music. Rev. Coggins was formerly of Wichita Falls, and at one time was a member of a team who led a youth revival in Crowell. For several years he has been a missionary in Indonesia. Another special feature of the program will be a choral reading, conducted by Mrs. W. F. Stotter.

A committee of G. A. mothers, with Mrs. Lomine Carter as chairman, will decorate the building for this special occasion, and the W. M. U. will sponsor a reception in honor of the girls afterward. A number of the W. M. U. ladies have served on the reviewing councils before which the girls have recited their memory work or have submitted written work for approval. Auxiliary sponsors who will have a part in the coronation program are Mrs. Richard Blackburn, Mrs. Ramon Rasberry, Mrs. Glen Goodwin, WMU president Mrs. Stotter, and G. A. Director, Mrs. Glenn Willson.

Many of the intermediate G. A. girls are making plans to attend the G. A. Galaxy in San Antonio June 28-29 with 6,000 other G. A.'s from all over Texas. This state convention is in celebration of the 50th anniversary of G. A. Work in Texas, and is considered as a "once in a lifetime" opportu-

nity. Rev. Ross Coggins, mentioned above, will be pastor of the Galaxy.

## Foard City H. D. Club

The Foard City Home Demonstration Club met in the home of Mrs. G. C. Owens on Tuesday, April 17. Roll call was answered with "my busy day dinner."

Council report was given by Mrs. Glenn Jones and the laundry workshop to be held at Lake Pauline in May was discussed. The program on craft was brought by Mrs. C. N. Barker, who showed several Easter arrangements. The afternoon was spent in making Easter favors for the patients in the hospital and the rest home.

## Riverside H. D. Club

Nine members enjoyed a covered dish luncheon at the home of Mrs. Cap Adkins Tuesday last week when the Riverside H. D. Club met for a craft demonstration given by Mrs. Grover Moore and Mrs. Billie Cleveland. Visitors included Mrs. Ben Hopkins of Lemon Grove, Calif., Mrs. Houston Adkins of Crowell, Mrs. H. L. Ayers Jr., Cindy Bice and Alecia Hardy. The next meeting will be May 1 with Mrs. Sam Kuehn as hostess.

## Short Changing Themselves

"Great numbers of Americans who think they enjoy the full advantages of a civilized society are badly short-changing themselves when it comes to use of their cultural heritage. Many of them go for weeks, perhaps even much longer, without listening to first-rate music; many of them rarely open a book more rewarding than the latest paperback sensation; many have not spent an hour in an art gallery since they were school children. . . . But pity those who confine themselves to vapid popular music, to empty TV drama

## LET'S RE-ELECT BILL HEATLY

DEMOCRAT FOR STATE REPRESENTATIVE  
82nd District

As a senior member of the Legislature Heatly has served as chairman of the State Affairs Committee and the Appropriations Committee, probably the two most important committees in the Legislature. He has also represented Texas many times at the meetings of the Southern Regional Education Board. Bill Heatly's experience and effective service will stand him in good stead in representing the people of the 82nd district.

Bill Heatly is the recognized ardent foe of Legalized Gambling. He succeeded in his fight to curb this unwholesome growth during the last Legislature.

Bill Heatly is the leader in the struggle to equalize the tax on beer with cigarettes and gasoline.

Cigarettes pay 27 1/2% sales tax  
Gasoline pays 18% sales tax  
**BEER PAYS ONLY 3% sales tax**

Bill Heatly's untiring efforts in this matter is gaining the support and recognition of Texans from all walks of life.

Bill Heatly is one of the authors of the Farm to Market road bill that was passed during the last Special Session, and has maintained an outspoken record of voting for ALL constructive legislation affecting the farmer, cattleman and merchant.

Bill Heatly has at all times voted to maintain the operation of Rural Electrification.

★ Because it would have been less expensive to administer, fewer loopholes and more convenient for the merchant to collect, Bill Heatly supported a 1% across-the-board sales tax.

★ Bill Heatly states that there are inequities in the insurance rating system and after a report from the study committee corrective legislation should be introduced.

★ Bill Heatly states that 85% of every tax dollar spent by the Legislature goes to EDUCATION (both public and higher levels), HIGHWAYS, MENTAL INSTITUTIONS, WELFARE, PENAL AND REFORMATORY SCHOOLS. Bill Heatly has supported all constructive measures which have aided in elevating the standards of both the Public Schools and colleges and will continue to support such measures.

★ Bill Heatly points with pride to his work on our hospitals and special schools in elevating them, thereby helping many of our unfortunate citizens who have become afflicted. He is particularly proud of his support of the M. D. Anderson Hospital in Houston which is responsible for the care, treatment and research of cancer.

**Plastic Covers for Plows Aid Soil Shedding**  
Ever have trouble with soil sticking to your plows? U. S. Department of Agriculture agricultural engineers may have found an answer to this problem, according to Joe Burkett, County Agent.  
In tests conducted at Auburn, Alabama, moldboard plows covered with sheet plastic did an excellent job of shedding soil. Two plastics, Teflon and H. D. polyethylene, were effective in turning sticky, difficult-to-plow clay soil.  
The plow covered with Teflon required 23 per cent less pulling power than a conventional steel moldboard plow. The USDA engineers say this is the first time the Davidson clay used in the test has been satisfactorily plowed with a moldboard since the tillage machinery laboratory began using this soil for tests nearly 25 years ago.  
Later tests of the plastic-covered plows were conducted at Plains, Ga. A rye cover crop was completely turned under with six inches or more of soil by a Teflon-covered moldboard. In an adjacent field, an uncovered moldboard failed to shed the soil, which was merely broken loose and pushed over. The soil in these fields was a very sticky clay.  
Although both Teflon and H. D. polyethylene were effective in shedding soil, tests comparing sheets of equal thickness showed that Teflon lasts longer. The engineers estimate a 14-inch moldboard plow covered with Teflon will turn about 30 more acres of highly abrasive, sticky soil than will a similar plow covered with H. D. polyethylene.  
USDA engineers are presently working with coverings for moldboard plows only, but they believe plastic coverings may eventually prove useful on any farm implement that comes in contact with the soil. This research is continuing.  
The plow coverings are not yet commercially available. Manufacturers will have to determine, on the basis of potential demand, whether production of these items is economically feasible.

**Worry Is a Disease**  
Worry is a disease. It leaves lines on your face and marks on your mind which time will never eradicate. Learn to face things as they come, and when they come, with calm deliberation. We may not be able to control events, but we can control our attitude toward them. A contented mind is a continual feast.

**Stimulating Demand for Petroleum**

Oil companies generally are intensifying their efforts to stimulate demand for petroleum products, and especially gasoline. It is reported that the use of one additional tankful of gasoline by each automobile owner during the year would more than wipe out the excessive gasoline inventories overhanding the market.

**Imported Birds Being Studied in Lamar County**

Some 400 French redlegged partridges have been released in the prairie grass and meadows of Lamar County in recent weeks, according to W. J. Cutbirth Jr., assistant executive secretary of the Game and Fish Commission. This is a European import, native to France, and the birds have successfully transplanted to England. Brood stock was obtained from England about four years ago, through the cooperation and recommendation of the Bureau of Sport Fisheries and Wildlife of the U. S. Fish and Wildlife Service. The purpose of the releases is to make a study of the exotic game bird, to determine if it is adaptable to the Texas environ-

**Know the Truth**

Due to some of the untruths being used against ALEX SAIED, one being that his pastor is not for him, here is a letter from his pastor, Rev. Graham, who desires that everyone sees the letter which appears below that was mailed by him to all ministers in this district last month.

Rev. Graham further states that it be known that he has voted absentee—FOR ALEX SAIED.

FIRST PRESBYTERIAN CHURCH  
317 N. Commerce  
Childress, Texas

Rev. Edgar H. Graham  
Minister

Dear Fellow Ministers,

On May 5th there is an election of State Officers. This letter is to introduce to you ALEX SAIED who is a candidate for STATE REPRESENTATIVE from the 82nd District Texas. Childress is his home town. Alex is a member of the First Presbyterian Church, and the Church has made him a Deacon.

Behind Alex is a family of wonderful people whom I have known in my Church the past five years. I have been in their home under many circumstances and I know that the family sets a high standard of example—not only in the home but also in the community.

Alex has been an outstanding citizen in Childress. Just last year he was selected Outstanding Citizen of the year. I have seen him organize and develop the Christmas Party for the under privileged Children of our town, both white and colored. I have seen him organize and develop the Green Belt Bowl activities and parade which were the best we have had. I have seen him work on projects of the Chamber of Commerce and in the Rotary Club. In these and other activities he has set the highest standards of morality and personal example and Childress has accepted him as the outstanding person that he is.

I do not ask you for your vote or for your influence in the coming election—because I do not believe that is what I am to do as a minister. All I want you to have by letter is the kind and type of character that he is—and then for you to make up your mind and vote for the best man in the race.

Alex Saied is my friend and if you knew him as I do you would be proud to own him as your friend too. Enclosed you will find a statement by Alex which I hope you will read. With very best regards, I am

Sincerely,  
EDGAR H. GRAHAM.

ment, and if it will be a game bird. The release of Lamar County was selected cause conditions appear to be similar to the native habitat in England. To date, approximately 700 have been released into the area.

The redlegged partridge is three to four times the size of the bobwhite quail. They are reported to eat a considerable amount of green foods, and because of their preference for open range with a minimum escape cover, they are not to compete directly with bobwhite for available food.

A check of the banded shows that to date they have remained within the study area. A limited number of redlegged partridges raised at the Tyler game farm for this study, and they will be available for release until such time as the study has accomplished its purpose.
