GROUND SORGHUMS ARE POPULAR LIVESTOCK FEEDS

In certain sections of the southern states where grain sorghums are an important crop, farmers are making such feeds as kaffir and milo the basis of their livestock rations, according to the research department of the National Association of Farm Equipment Manufacturers. Some feeders and dairymen grind the heads and supplement this ground feed with cottonseed meal, linseed oil meal or alfalfa meal. Others run the entire bundle through a feed mill, heads and all, and feed the chopped roughage.

The county agent of Swisher County, Texas, estimates that between 25 and 30 per cent of the farms in his territory are equipped with feed mills and grinders. He has sent out over 600 balanced rations for the various classes of livestock, all of which include some of the sorghums as a basis.

With the aid of improved machinery and equipment for cultivating

and harvesting the crop, Texas farmers are able to grow the sorghums very economically and with yields of 40 bushels or more per acre, they are finding the production of these crops quite profitable.

Popular Brands

About the best way to prove to the buying public that your goods are of good quality is to give the brands. For instance "Red Bird" Coffee means much less to the buyer than "White Swan" Coffee. Mr. Merchant may say Red Bird is good but you know it is not as good as White Swan. The same is true with all the popular brands, such as Del Monte, New State, First Pick, etc. They are the brands of canned goods we sell and the customer knows the balance. He knows also that we sell them at a saving in most cases.

We have other brands of goods we offer but always with a guarantee that relieves the customer of all risk. We are offering this week Sam Houston Coffee with such a guarantee. We would like for you to try a can of it. Each can contains 3 pounds of coffee and a cup and saucer.

We are also pushing this week Davis Baking Powders, one of the oldest and best brands on the market. With each can is given free a beautiful measuring spoon.

Remember that our vegetable department is kept up to its normal standard. We find the demand for first class vegetables is growing all the time and it is hard for us to supply the demand but we do our best and must insist that you make your purchases as early as possible after each day's supply arrives. That means the early morning is the best time to order.

One of the most exciting events in the Senior-Junior entertainments of this year's closing of school was the Treasure Hunt for the Pirates hidden treasure on last Saturday night.

The treasure was hidden near the Country Club lake by W. R. Hartman and Miss Louise Stovall. The Senior Juniors and a few invited guests, all dressed as pirates met at the home of J. A. Stovall. Mr. Hartman gave them directions as to the hunt and told them to go first to the place "where the Antelopes drink" and there they would find further directions. From there they were led by numerous signs and posters to different places in and near Thalia and Crowell. Some even misread the signs and went as far as Sloan Springs. The treasure was finally located by Messrs. Avis Whitman, Glen Fox, Aurel Whitman and Charlie Roberts. Some few of the "Pirates" never got any further than the "vacant house" in Thalia for they failed to find any directions on it and finally returned home bewailing their fate at not finding a "buried treasure."

OUR DEBT TO THE PAST

The present holds much of interest and much gossip, and the future great hopes, but we must go to the past for history.

The world has been so full of thrills for ten years that the past has almost dropped out of sight.

The younger generation—perhaps no more than the youth of any other age—too often shows a silent contempt for the past.

Not all of the people who have gone before us were old-fashioned.

They were up-to-date in their time, else this community would not have made the progress that it has.

It would not be as prosperous as it is, would not have the advantages that it now possesses, would be lacking in many of the essentials of modern life, if it had not been for the thoughtfulness of those who have passed on.

Our debt to the past is too great not to give it due recognition, and our debt to the future also, is deserving of thoughtful consideration.

The condition of this community

fifty years from now depends in some measure on what we do today. This is something well worth remembering in solving community problems that arise from day to day.

CARD OF THANKS

We wish to thank all of our good friends and especially Dr. Clark for the many kind services during the illness and death of our wife, daughter and sister, Eva.

Rev. Noblet and his father and mother of Chillicothe visited in the Dick Pharr home here Sunday.

One of the most exciting events in the Senior-Junior entertainments of this year's closing of school was the Treasure Hunt for the Pirates hidden treasure on last Saturday night.

The treasure was hidden near the Country Club lake by W. R. Hartman and Miss Louise Stovall. The Seniors, Juniors and a few invited guests, all dressed as pirates met at the home of J. A. Stovall. Mr. Hartman gave them directions as to the hunt and told them to go first to the place "where the Antelopes drink" and there they would find further directions. From there they were led by numerous sings and posters to different places in and near Thalia and Crowell. Some even misread the signs and went as far as Sloan Springs. The treasure was finally located by Messrs. Avis Whitman, Glen Fox, Aurel Whitman and Charlie Roberts. Some few of the "Pirates" never got any further than the "vacant house" in Thalia for they failed to find any directions on it and finally returned home bewailing their fate at not finding a "buried treasure."

OUR DEBT TO THE PAST

The present holds much of interest and much gossip, and the future great hopes, but we must go to the past for history.

The world has been so full of thrills for ten years that the past has almost dropped out of sight.

The younger generation—perhaps no more than the youth of any other age—too often shows a silent contempt for the past.

Not all of the people who have gone before us were old-fashioned.

They were up-to-date in their time, else this community would not have made the progress that it has.

It would not be as prosperous as it is, would not have the advantages that it now possesses, would be lacking in many of the essentials of modern life, if it had not been for the thoughtfulness of those who have passed on.

Our debt to the past is too great not to give it due recognition, and our debt to the future also, is deserving of thoughtful consideration.

The condition of this community

fifty years from now depends in some measure on what we do today. This is something well worth remembering in solving community problems that arise from day to day.

CARD OF THANKS

We wish to thank all of our good friends and especially Dr. Clark for the many kind services during the illness and death of our wife, daughter and sister, Eva.

Poultry Calendars Are Sent to County Agent

Fred Rennels, county agent, has received ten highly detailed poultry calendars from O. B. Martin, director of the Extension Service of A. and M. College, that are to be distributed to representative poultrymen of Foard County. Most of the calendars have already been distributed.

The calendars are exceptionally interesting and valuable. Thirteen sheets of card board are contained in each. The daily egg record, mortality record, valuable information for the particular month and illustrations are contained on one side of the card board and the record for poultry expenses and receipts are contained on the other. Rations for various chicken feeds and mash are given throughout the calendar and hundreds of suggestions dealing with culling, equipment, feeds, diseases, pests, preserving eggs, best methods for getting rid of rats and mice, and a great many other poultry subjects are dealt with on the calendar.

The calendars have been distributed throughout the state for Texas demonstration flocks and the summary of the records from these are to be sent to A. & M. College at the end of the year by the county agent. The record is furnished by the county agent to poultry demonstrators as an aid to them and others in understanding the causes for successes and failures. It is hoped that the record will encourage the keeping of accurate records without which no demonstration is complete and that the timely information scattered throughout the calendar will guide poultrymen in carrying out the suggestions made by agents. The minimum of eggs a hen should lay each month is stated in each monthly summary.

Through the simplicity of the calendars, poultrymen can easily keep the daily egg record, the number of hens dying and the number removed by culling, the average number of hens on hand each month, the value of eggs and fowls sold or eaten, and the cost or value of feed used. These items are reported monthly to the county agent and at the end of the year a complete summary of the year's business is made.

Finest Ford Automobile Will Be Here Saturday

The finest automobile bearing the name of "Ford" will be on display at the showrooms of Self Motor Company Saturday. The car is known as the "Town Car," a chauffeur driven machine. The front seat of the car is left with the rear enclosed with non-shatterable glass. The front part can be closed in case of bad weather.

Many desirable features bring the cost of this car to \$1,500.00. It has a custom built body by Briggs, velour upholstery, solid leather top, vanity cases, mirrors and all other features to be found in the costliest of automobiles. The body is mounted on a regular Model A chassis.

Geo. Self stated that this particular car was proving extremely popular in the cities where business men valued their time, as this chauffeur driven machine can get in and out of traffic quicker than the big cars and at the same time afford the same comfort and beauty.

The car that will be shown here belongs to Langford Motor Company, Ford dealers of Wichita Falls.

Baseball Team Is Practicing Daily

The first call for candidates for Crowell's baseball team met with outstanding success last Friday when a greater number of players reported than were expected. Since that time practice has been taking place almost daily and on the first day of practice, the team played the Black Giants, negro team, in a practice game, defeating them 7 to 3 and then beating them again Saturday.

Thus far the pitching staff is made up of Grady Graves, Glenn Jones, George Cates, Jim LaRue and Chic Buchabe, the latter playing for Beaumont in the Texas League for a short while last season. E. F. Henry and Ern Cox are serving as catchers. Gordon Bell has been playing first base in the practice games and the other positions in these games have been filled by Howell Hallmark, second; Charlie Ashford, short; Paul Crews, third; Henry Moss, Lewis Rader, Guy Todd, Irving Fisch and Ragsdale Lanier, outfielders. A number of other players have also reported for practice and it is hoped by Manager Jesse Owens that other players of this section will come out for the team.

Mr. and Mrs. Clarence Self and T. V. Rascoe left for Dallas Tuesday morning, returning Thursday. Mr. Rascoe drove a new Ford truck back to Crowell that was purchased by George Hinds for the use of his Magnolia Oil Agency.

Beresford Lovett In The Role of Christ In Passion Play

The part of Christ in the great Passion Play production at Wichita Falls on May 1, 2 and 3 is taken by Beresford Lovett, who enacts the role with saintly mien and dignified bearing. Mr. Lovett is one of the most distinguished scholars of the English drama.

Maudie Fealy, a distinguished actress, has the part of Mary, the mother of Jesus.

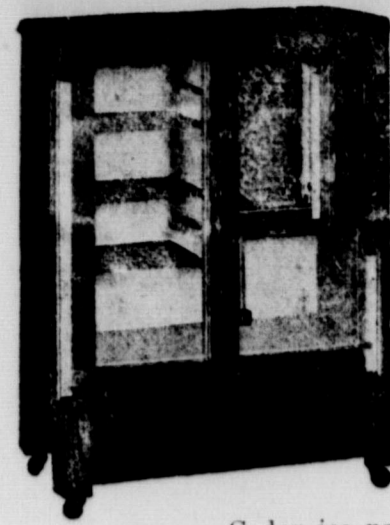

In the other roles of the disciples and other characters in the play appear a supporting cast of metropolitan players.

Direction of the colossal production is in the hands of no less a person than Charles Nichols Lum, acting under the personal supervision of Clarence E. Cramer, artist director of Chicago.

The play in its entirety is to be presented at each performance.

So beautifully does the cast present the play that no sect, no creed could possibly find in it cause for offense. And it is all done with such sympathy and reverence that to the mind of every individual who has seen it, this remarkable drama stands shining alone among all the Biblical productions.

It is utterly without pretention. Its big dramatic moments are only its big human ones. They do not occur with fanfare and no brilliant bursts of pantomime to distinguish them. They are just there to hold your soul still and prayer-book locked. You are in the presence of the Savior.

The play proper starts with Jesus, a man grown, ascending the mountain to talk with the Father, and then with His disciples He descends among the people to fulfill His destiny, which has given the word that sweetest and saddest and most tragic story ever told, with the happiest ending.

The play in reality was first produced in 1264. In the seventh century it was given in Oberammergau and has been presented decennially as the result of a vow made by the inhabitants in 1633 on the cessation of a plague.

Reservations are being filled in the order received for the three performances at the Passion Play headquarters, 904 Eighth street, Hamilton building, Wichita Falls, Texas.

KNOW TEXAS

Most of the Texas honey crop comes from cotton blossoms and the millions of acres of cotton put Texas in second place in honey production, excelled only by California.

Texas leads the United States in the number of domestic livestock animals on farms and ranches.

Two Texas counties—Brazoria and Matagorda—furnish most of the world's sulphur.

In addition to the public schools and state supported higher institutions of learning, there are in Texas more than 100 educational institutions of university, college and sub-college rank supported by churches, private individuals and endowments.

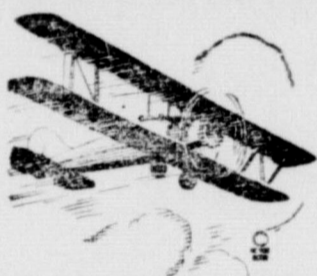

Brewster—with an area of 3,798,400 acres—is the largest Texas county.

Texas stood ninth in number of individual income tax returns in 1926 and also in net amount of income, 111,438 Texans reporting \$547,562,501 net income. California, Illinois, Massachusetts, Michigan, New Jersey, New York, Ohio and Pennsylvania were ahead of Texas. Texas had one taxpayer of more than 100,000 net income.

The Texas syrup crop, from cane and sorghum, is valued at 600,000 a year.

Texas produces more sheep, goats and more wool and mohair than any state in the union.

West Texas, which according to the West Texas Chamber of Commerce comprises the area west of the M-K & T Railroad to Wichita and Rock Springs to Del Rio, includes 135 counties and approximately 91,000,000 acres of land, to it could be dropped Maine, Hampshire, Rhode Island, Connecticut, New York, New Jersey, Delaware and Maryland and still be unoccupied 10,000 square miles more Rhode Islands.

Above Them All

High in quality but low in price—that characterizes the M SYSTEM service.

Though we may know little about aviation, all of us do know that a machine capable of soaring majestically through the air day after day, is a well balanced and an outstanding machine and to keep it going that way requires skillful manipulation.

The same is true with our store. That is why we are continually improving and adding to our firm so that with each week we can give better service to our patrons than we did the week before. Like the airplane, our store is well balanced and outstanding in every particular, and it is guided with the same careful attention that the pilot gives his airplane in flight.

Manure Worth \$15 Per Cow a Year

How dairy farmers can make \$15 more per cow each year by saving and spreading good old-fashioned manure is told by J. L. Thomas, Dairy Specialist in the Extension Service. "An average cow produces 10 tons of manure annually," he declares, "and at least half of this can be saved if suitable barns and lots are provided and the herd managed properly. Manure is worth about \$3 per ton if applied on land. An example of its value is found in Franklin county where Ross Newsome has been conducting a cropping demonstration involving the use of manure for three years. He scattered ten tons each year on each of three acres. In 1925, before the manure was applied, this land produced one-third of a bale of cotton to the acre; in 1926 it raised 30 bushels of corn per acre; in 1927 more than a half a bale of cotton; and last year Mr. Newsome gathered 52 bushels of corn to the acre."

Yiddish Made Up of Variety of Tongues

Yiddish is a middle German dialect derived from Hebrew and Slavic influences. It is the language spoken by the Jews in eastern Europe, the most widely spread dialect of the Jews. Those Jews who, toward the end of the Middle Ages, left Germany for the Slavic lands (Bohemia, Poland, Galicia and Lithuania) spoke the middle-high German of their places of origin and up to the sixteenth century wrote it quite correctly, although they employed the Hebrew alphabet. The absence of active intercourse with Germany, however, led in time to a process of simplification of morphology and syntax. Thus the imperfect, subjunctive, and to a large extent the neuter gender were lost; all the prepositions came to be constructed with the dative, etc. At the same time the German sounds underwent certain changes, and a large number of Hebrew, Aramaic and Slavic words were incorporated in the language. The resultant idiom, the Yiddish, supplanted the Slavic spoken by the primitive Jewish settlers in the east of Europe, and has been carried to all parts of the world, including Germany, admitting words and idioms from all the languages with which it has come into contact.

At The Christian Church

At a meeting of the Teachers and Official Board members last Sunday afternoon it was decided to enlist in the national Pentecost-to-Pentecost Program. This is a great and worthy program and much permanent good will result from our participation in it. Full particulars will soon be given each member.
Special Mother's Day services will be observed at Sunday School, morning preaching service and evening service on Sunday, May 12th. Great spiritual feast will be ours at all the services.
Every Member Attendance Communion Service will be observed on Pentecost Sunday, May 19th. Let's remember the great and glorious service on that first Pentecost at Jerusalem and make ours a fitting remembrance in our congregation of that great day.

Information relative to the young people's Christian Endeavor is given elsewhere in this paper.

Methodist Church

We appreciate the co-operation of Christian people in our revival. The meeting has begun in a splendid way. Two services are being conducted each day at 10 o'clock in the morning and 7:45 in the evening. The interest is deepening and growing with each service.

The choir under the direction of Brother Wright, Mrs. Shirley and their assistants is rendering a real service. All lovers of good music will greatly appreciate the song services.

The boys and girls composing the Junior choir are being trained by Brother Mills and Mrs. Klepper. They sing at each evening service to the delight of the congregation. Come and hear them.

We want to make Sunday a high day in our meeting, a day of special service and worship. Sunday School at 10 o'clock and preaching at 11 and 7:45.

Baptist Church News

Last Sunday closed one of the best revivals in the history of our church. The crowds grew until it was almost impossible to handle them. The last night marked perhaps the largest crowd of the entire meeting.

There were 54 conversions and 30 additions to the church. The pastor baptized 31 at the closing service.

The Ogdens who had charge of the music and personal work rendered splendid service, perhaps the best music Crowell ever had. A large crowd voted to have them return some time and assist us in another meeting. They left Monday morning for Sweetwater, Texas, where they will be engaged in a big tent meeting for some weeks.

Pastor Woodie W. Smith who did the preaching spoke the last night from the theme, "The Cat Came Back." This was a message on Heavenly Possessions vs Earthly Possessions. Many said it was one of his best sermons.

There were just over 200 in Sunday School last Sunday. This compared with 78 the first Sunday in February is not bad. We hope to have 350 each Sunday hereafter. We have the equipment and possibilities and why not every body help make our Sunday School reach its highest limit.

We organized another B. Y. P. U. Sunday evening with a very large number. This is for the Junior age. Mrs. Woodie Smith and Mrs. Clarence Self will have charge of the Union. This speaks success. May all parents co-operate with these workers in making this section grow.

The work of the "Booster Band" will be continued. Meeting each Friday evening, at 4:10 p. m., at the Baptist Church. Rev. Woodie W. Smith, who for years did this special work with children in revival meetings, will carry on this work. We will be happy to have your children take this weekly course regardless of church affiliation. We will try to be fair to all and give the children a worth while service.

Next Sunday, Sunday School at 9:45, perching at 11 a. m. B. Y. P. U.'s at 6:45. The evening service will be let out on account of the Methodist revival.

Special music by Mrs. Wright at the morning worship. Mrs. Rucker at the piano.

There Must Be Something To It

When a book has a circulation of more than 3,000,000 copies and has been read by more than 5,000,000 persons, there must be something in it. That is the record made by the Handbook for Boys of the Boy Scouts of America, the most widely read book for boys in the world and reputed to have an annual circulation in excess of every American book excepting the world circulation of the Bible.

The esteem with which the Boy Scout Movement is held in this country and abroad is in a great measure due to what boys practice from the lessons learned in the Handbook for Boys. In it are recorded the ideals and rules of the Scout Movement. To a boy reader it is a book of romance, inspiration and information. The book was produced after long study to determine what would most help boys to help themselves. Leading educators, over a period of many years, considered the problem and cooperated in the compilation of a book which would at once interest and instruct boys, and at the same time direct their activities along lines in keeping with the Boy Scout program of character building and citizenship training.

From Japan, from Alaska, from the Philippines, orders have come for the Handbook for Boys. Down on the continent of Antarctica, where Commander Byrd's expedition is writing history, the knowledge contained in the Handbook for Boys is standing Paul Stiple, the Boy Scout member of the Byrd crew, in good stead. It was the lessons he learned from scouting as revealed in the Handbook for Boys that gave this husky American lad the background which enabled Commander Byrd to select him as one of the members of his crew. He is an outstanding member, Commander Byrd has reported by radio.

If you want a book that will fill the leisure time of your boy with useful activity and put into his mind ideals that are truly American, get him a copy of the Handbook for Boys. He will likely consider it one of the finest gifts that he has ever received.

"This Orgatone Is Some Medicine," Says Curry

"I'll Tell the World I Feel Like a New Man Now, And Am Getting Better Every Day," Says Bellvue, Tex., Farmer

Still the demand for Orgatone in Texas is increasing.

Reader's Drug Store is now becoming accustomed to the enormous sales of the great health builder and what a few weeks ago seemed a phenomenal record has now paled into insignificance in the face of steadily increased number of bottles sold daily.

Such an acceptance however, of a medicine is amazing. Nothing like it has ever been heard of.

There is only one answer to this demand—merit. Orgatone produces results as nothing else can in the

of restoring people to normal health, and nothing on earth can keep it from out selling all other preparations.

With convincing proof of the remarkable health powers of the medicine, such as that of Wm. Curry, living at Bellvue, Texas, it is easy to understand why every body is taking and praising Orgatone.

"I'll tell the world I feel like a new man and am getting better every day—this Orgatone is some medicine," declares Mr. Curry. "I'll tell you it just beats anything I have ever taken or heard of for stomach trouble."

"I know I had a bad case of stomach trouble as any man ever had, I simply had gotten to the point where I was forced to live on nothing but the lightest of food—mild, soft boiled eggs, cereals—no sooner would I eat a meal than every thing would sour and feel like lead in my stomach, and I would have such terrible spells of heart burn and sick headaches I could hardly stand them."

"Gas would bloat me up until I was in agony all over. I would get so weak and out of strength that many times I didn't feel like I could go to work, much less do anything after I got there. I had to always be taking strong laxatives for constipation, and my nerves were so upset I could hardly get a wink of sleep. Mornings I got up with a bad taste in my mouth, my stomach feeling upset and feeling like I just couldn't make it through the day and the bad part of it was that nothing I could find seemed to relieve me a particle."

"Well, sir, so many Texas people were praising Orgatone that when one of the druggists here recommended it to me also, I didn't wait any longer to try it out, and from the quick way it brought me relief I knew I had got hold of the best medicine ever sold in a drug store."

"I am just starting on my second bottle now and I'll tell the world my stomach just seems to have been made over. I am gaining in strength daily, sleeping like a top every night and feel full of new life and energy. I am certainly glad to recommend Orgatone."

Genuine Orgatone may be obtained in Crowell at the Reader Drug Co. (Adv.)

EAT LESS, LIVE LONGER

Beware of the tables of "normal weight," says Dr. Leonard Williams, of New York. These tables tell you that a man of certain height weighs normally 147 pounds at twenty-five, and at fifty, 162 pounds. It is a dangerous falsehood. A man should always weigh less at fifty than at twenty-five. If he does not he will live longer than he might die.

One pound or two added weight on a horse's back will make him lose a race. Imagine the handicap put on an old heart, old lungs and old kidneys, by adding twenty or twenty-five pounds of fat at fifty. Dr. Williams says find out what your so-called "normal weight" is, then reduce twenty pounds below it. Weight is fat, displacing muscle, which connects on the heart as well as the abdomen.

Men old in years and great intellectual power, Voltaire, and Von Moltke, were almost living skeletons, all at least 20 to 30 percent below

what would be called "normal weight." Every one of us could live well and longer on half of what he eats now.

Why not move the standing army in Chicago down to settle the dispute in Mexico?

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members, and for continuous session of that court.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 and 3 of Article 5 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Article 5. Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; in other matters, until otherwise provided by Law, the jurisdiction of the Court shall be exercised under such regulations and orders as the Court by a majority vote may prescribe. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this State and unless he shall have attained the age of thirty years, and shall have been a practicing lawyer or a judge of a court, or such lawyer and judge together at least seven years. Said Chief Justice and Associate Justices shall be elected by the qualified voters of the State at a general election, shall hold their offices six years, or until their successors are elected and qualified, and shall receive such compensation as may be provided by law. In case of a vacancy in the office of Chief Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for State officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the State. The Judges of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. When this amendment takes effect, the Governor shall immediately appoint six additional Associate Justices of the Supreme Court for terms of office so that the terms of two of such appointed Associate Justices shall expire with the term of office of each of the present members of the Supreme Court, and, upon the qualification of such new Justices, the Commission of Appeals of the State of Texas shall terminate."

"Article V. Section 3. The Supreme Court shall have appellate jurisdiction only except as herein specified, which shall be co-extensive with the limits of the State. Its appellate jurisdiction shall extend to questions of law arising in cases of which the Courts of Civil Appeals have appellate jurisdiction under such restrictions and regulations as the Legislature may prescribe. Until otherwise provided by law, the appellate jurisdiction of the Supreme Court shall extend to questions of law arising in the cases in which the Judges of any Court of Civil Appeals may disagree or where the several Courts of Civil Appeals may hold differently on the same question of law, or where a Statute of the State is held void, and shall extend to such other questions as may be within the Court's Appellate Jurisdiction under the Statutes of the State in force when this amendment takes effect. The Supreme Court and the Justices thereof shall have the power to issue writs of habeas corpus, as may be prescribed by Law, and under such regulations as may be prescribed by Law, the said Court and the Justices thereof may issue the writs of mandamus, procedendo, certiorari and such other writs, as may be necessary to enforce its jurisdiction. The Legislature may confer original jurisdiction on the Supreme Court to issue writs of quo warrantum and mandamus in such cases as may be specified, except as against the Governor of the State.

The Supreme Court shall have power, upon affidavit or otherwise as by the Court may be determined, to ascertain such matters of fact as may be necessary to the proper exercise of its jurisdiction. The Supreme Court shall be open at all times and shall sit at the State Capitol for the transaction of business at such times as may be designated by the Court.

The Supreme Court shall appoint a clerk, who shall give bond in such manner as is now or may hereafter be required by law, and he may hold his office for four years and shall be subject to removal by said Court for good cause entered of record on the Minutes of said Court who shall receive such compensation as the Legislature may provide."

Sec. 2. Said proposed Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on Tuesday, July 16, 1929, at which election each voter opposing said proposed amendment shall scratch off the ballot with a pen or pencil the following words printed on said ballot: "For the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot: "Against the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." If it appears from the returns of said election that majority of the votes cast are in favor of said amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and Laws of this

NOW as never before you should be careful about lubrication

THE lubrication requirements of the present high speed motors are most exacting. With their fine adjustments, these motors will not operate efficiently with every oil. They require a lubricant which is made especially to meet the particular conditions which they have created.

That's why it's most important to always specify the oil you want—and it will pay you well to insist always on a brand which has back of it the resources and experience of the Continental Oil Company. Then you will always be sure to get the right oil—in the grade made especially for your motor.

Conoco Motor Oil insures protection. It seals compression—saves gasoline—fights friction. Flows freely at low temperatures. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather. Ask for the grade made especially for your car.

Ask for these brands at the better service stations and garages.

CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers of high grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts. Through exhaustive laboratory and road tests has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

FORD TRAILER

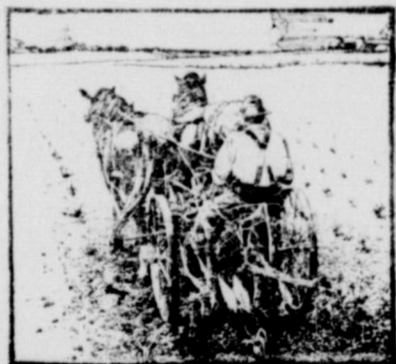

The best Ford trailer we have ever seen; new tires, factory made hitch that is guaranteed to prevent the trailer from whipping.

OUR used car department is operated under the famous Chevrolet Red O. K. Tag system. Under this plan, we attach the Chevrolet Red O. K. Tag to the radiator cap of every reconditioned car—showing exactly what vital units of the car have been checked or reconditioned by our expert mechanics.

We believe that no fairer system of used car merchandising has ever been worked out—for it assures the customer honest value.

Due to the great popularity of the new Chevrolet Six, we have on hand at this time a wide selection of "O. K.'d" used cars taken in trade on new cars. Come in and look them over. You are sure to find exactly the car you want at a price that will amaze you. Terms are exceptionally easy.

Put Your Feet on the Pedals for an Easy, Thorough Job

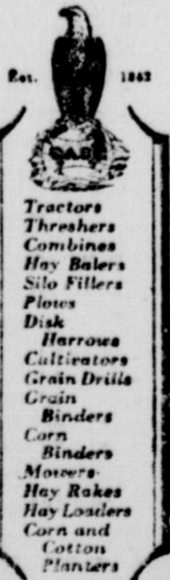

THAT'S WHAT you get with the Case Pivot Axle Cultivator!

Change the direction of the wheels left or right by slight foot pressure. Pivot wheel action combined with the gang-shift feature gives you almost unlimited dodging range. Quickly responsive to a touch of the foot. Gangs are suspended on steel rollers. Instant, effortless control.

Shovels always face forward. Its far-reaching gangs leave no unworked spots—it gets all the weeds. Works equally well on straight or irregular rows. You have a clear view of the shovels and of the rows ahead.

Easily adjusted for all field conditions and for rows of different widths. Easy to operate—strong—light of draft. Special shovel equipment for all crops. See this time-saving, profit-making cultivator, and other one-row cultivators. You'll like our service.

WHEN BRAKES ARE NEEDED

In the early days of automobiles,
when the world was in the horse and
buggy age, a horn was probably es-
sential. Today, in most cases, it is
used by drivers in lieu of brakes, and
thus it is not only annoying, but ex-
tremely dangerous. Many drivers to-
day dash through a populated district
without abating their speed one bit,
sounding their horns almost contin-
uously so that they may take the
right of way by reason of their in-
sistence and their recklessness.

The difficulty is that many drivers
think that the sounding of a horn is
the mark of a careful driver and is
to be commended rather than con-
demned. Such, however, is not the
case; the good driver is so careful
himself and has his car so constantly
under control that he has absolutely
no need of a warning signal. If he
is approaching a dangerous intersec-
tion he need not sound a long blast
on his noisemaker, but approaches
the crossing at low speed and makes
certain that it is safe to proceed be-
fore he does so.

WHAT'S DOING
IN WEST TEXAS

(By West Texas Cham. of Com.)

Carbon saw the installation of a
cream route on April 22. This is the
result of cooperation of the commu-
nity club with farmers. O. Stone and
County Agent Patterson made a car-
vas of the territory south and west
of Carbon and reported at a meeting
of the club presided over by S. P.
Rumph that conditions were favor-
able.

Rochester is laying claim to being
the smallest town in the world with
talking pictures. Greenwade, owner
of the Rochester Theatre says that
the newly installed machinery will
make it possible to feature all the
latest Vitaphone pictures. All talk-
ing pictures will be shown the first
three nights of the week.

Sweetwater's band will be in
charge of Geo. H. Winter after May
1. Winter has a record of 24 years
in band experience in university and
industrial organizations. He was
leader of four different army bands
during the war. He will conduct
classes in band and orchestra instru-
ments at his Municipal Building of-
fices.

Munday will keep several hundred
dollars at home since the establish-
ing of a modern laundry there by Miss
Jewell McKee of Knox City. The
capacity of the plant will be increas-
ed as fast as the patronage justifies.
The plant is equipped with several
washing machines and a drying
closet.

Winters will hold an annual "Liv-
ing at Home Fair" beginning with
June 20, 21, and 22 of this year.
Exhibits by communities and indi-
viduals 4-H Clubs, vocational agricul-
tural judging contest, short courses
and field day, a "Live at Home" Ban-
quet and the opening of the airport
will be featured.

Stephenville will start work on the
paving of 70,000 square yards of
brick pavement to begin soon. The
contract went to the Thurber Brick
Company whose price on concrete
was \$2.01 for six inch thickness re-
inforced with 40 pound steel. The
paving will amount to between six
and ten miles.

Junction's beautiful lawns this
summer will be inspired partly by the
contest being sponsored by the Par-
ent-Teachers Association and other
civic organizations. Kimble Courts
is one of the models, and the work
there is attracting the attention of
all interested in landscape work.

Levelland's latest scholastic census
showed a tabulation of 837 school
children between the ages of 7 and
18 years instead of 206 as given out
previously. This is an increase of
about 33 per cent, and indicates that
the county has a population of more
than 12,600 at this time.

Turkey is elated over the announce-
ment of a \$30,000.00 sanitarium to

CLAYTONVILLE CLUB

The Claytonville Home Demon-
stration Club met in the home of Mrs.
A. W. Johnson, Friday afternoon,
April 19.

A most interesting session was had
with an excellent percentage of mem-
bers present.

After the usual opening program,
singing two songs and repeating the
Lord's prayer, the roll call and min-
utes were read by Mrs. Owens. The
meeting was turned over to Miss
Freeman at this point.

Miss Freeman gave a very inter-
esting talk on making and serving
salads, and supplemented these talks
with demonstrations on the making
of mayonnaise dressing, a pear salad,
cabbage and tomato salad, and meat
and tomato salad, which she made
to look very beautiful as well as ap-
petising.

After a short business session, Mrs.
Pearl Logan and Mrs. Howell were
appointed as a committee to arrange
a Mother's Day program for the next
meeting.

Refreshments were served and
afterwards we adjourned to meet in
the home of Mrs. Pearl Logan, on
May 3.

An invitation is extended to all of
the ladies of the Beaver community
who wish to join a club of this kind.
We are glad to have new members

SUCCESS IS NOT LUCK

It is a timely topic for newspaper
discussion, to inquire why it is that
some people attain large business
success, while many others secure
only moderate attainment, or are buff-
eted from failure.

Many people say it is all luck. One
man, they say, by no merit of his own
had fine opportunities thrust in his
face. Someone opened a door in
front of him. All he had to do was
to walk in. Anyone could do it with
the same chance.

In so far as people inherit money,
or gain positions through family in-
fluence, that is true. Yet the great
majority of successful men did not
have wealthy parents. If they found
opportunities, it was because they
had the energy to force themselves
into situations where opportunities
open.

If a big business concern has an
exceptional opportunity to offer, it
does not snap up a cent to see which
office boy shall have it. It does not
not look around among the fellows
who are doing the work requiring the
least intelligence. Nor does it select
the man most popular in society, who
can tell the best stories and play the
best pool game.

But it does devote thoughtful
scrutiny to the men of its force to
see who previously had shown the
most initiative and power to do things
though in a small way. The man
who gets it has earned it. The fel-
low who says it is all luck thereby
shows that he has no conception of
the methods by which success is at-
tained.

An international code is being
evolved so that directions for emer-
gency medical treatment can be ra-
dioed to small ships at sea.

Miss Mildred Russ and Miss Nola Bradford, both of Thalia were operated on for appendicitis, Thursday and Friday respectively. Both are doing nicely.

SOCIETY

ADELPHIAN CLUB

Members of the Adelpian Club were entertained at the home of Mrs. Sam Bell Wednesday, April 17, with Mrs. Brown Franklin hostess.

After a short business meeting, a one act play, "The Borrowed Lunch," was given by five members of the club. The cast consisted of Mesdames Sam Bell, Byron Reese, Arthur McMillan, T. S. Haney, and Esca Brown.

Victrola music was rendered during the social hour. A refreshing ice course was served to club members and Mesdames Dunn, Williams, and G. C. Walker of Dallas.—Reporter.

EVA TODD HOSTESS

Miss Eva Todd was hostess to a beautiful five course dinner in her home on Saturday evening at eight o'clock. Silver pink and blue green formed the color scheme carried out in the decorations and plate favors. Evelyn Sloan and Lella Ben Allee furnished a program of songs and dances and assisted the hostess in serving.

Those present were Misses Louise Thomas, Gussie Todd, Edith Jones, Elizabeth West, Artie Anthony and Messrs. Burnell Mitchell, Joe Roberts, Gordon Gribble, Jess Brown and Thomas Bursey.—Contributed.

DINNER PARTY

Mr. and Mrs. J. C. Brian were hosts to a few of their friends at a dinner party in their home Tuesday night. Following an excellent four course dinner, games of bridge were played.

Those present were Mr. and Mrs. B. D. Miller, Mr. and Mrs. Bill Norman, Mr. and Mrs. M. M. Hart, Jr., and the host and hostess.

STUBBLEFIELD-SIMS

Miss Grace Sims became the wife of J. L. Stubblefield in a marriage performed by M. M. Hart, Jr., Saturday.

Mr. and Mrs. Stubblefield have been living in the Black Community. Mr. Stubblefield is the son of W. D. Stubblefield.

WIMODASIS

The Wimodasis were entertained with a luncheon last Thursday at the home of Mrs. Frank Cates. A profusion of cut flowers lent the correct touch to the general decorations and also formed the centerpiece for the dining table. A lovely menu was served by Mesdames Jim Shook, Jim Cles, Troy Erwin, Kelly Erwin, Tom Russell, Roy Todd, Herman Gentry and Frank Cates.

The club met in regular session with Mrs. Hubert Brown last Wednesday. Miss Freeman gave an instructive lecture on dress design.

Refreshments were served to the members, Miss Freeman and Mrs. J. C. Brown, Miss Fannie Moore and Miss Jewel Brown.—Reporter.

Gambleville Community Club

The Gambleville Community Club met at the home of Mrs. Mollie Free, on April 18th.

After the regular opening, Miss Freeman gave a demonstration on salads and salad dressings. This proved to be one of the most interesting demonstrations we have had since organization.

Delicious refreshments of sandwiches, angel food cake and iced tea were served to 22 ladies.

The next meeting will be at the home of Mrs. F. J. Jonas on May 2nd. We have a "Mother's Day" program planned for that day. Come and enjoy the day by hearing our program.—Reporter.

BAPTIST LADIES

The Baptist Ladies of Foard City met Monday with 16 members present and one visitor. Mrs. Bailey was leader of the program. It was voted to send a crate of eggs to Buckners Orphan Home and to sell ice cream cones at the school building Monday. The next meeting will be held May 6 with Mrs. Harden Russell as leader. Mrs. Crosnoe will also give a talk on our Missionaries in China.—Reporter.

SECURES PLAINS LAND

A. J. Blakemore and J. W. McCaskill returned from a trip to the Plains Saturday. While on their trip Mr. Blakemore purchased 371 acres of improved land northwest of Dimmitt in Castro County. Part of the land is in Parmer County. One hundred acres are in wheat and the rest of the land is ready for row crops. The farm is 12 miles southwest of Hereford and is one hundred percent tillable according to Mr. McCaskill.

Mr. McCaskill reported that all of the wheat they saw around Dimmitt, Plainview and Floydada was in excellent condition.

Cooling System At Rialto Is Improved

T. B. Richmond has improved the cooling system at the Rialto and stated that it is the coolest place in town outside the ice plant while the show is in operation. A large blower which furnished cool air was in operation last year and now improvements have been made which wash and cool the air as it leaves the blower.

Between 1920 and 1925, 75,000 new farms were brought into cultivation in the United States. Thirty thousand of them were in Texas.

NOTES OF FASHION and Store News

Miss Grace Heppler of the Gossard Corset Company spent a very successful day here in our store last Thursday. We were very gratified with the number who responded to our urge to meet her and those who came seemed very pleased over having been here. Our new line of Gossards have arrived and we are prepared to fit all types of figures.

Dots, plaids, checks and stripes are seen even more this season than ever before, and are shown in many vivid colors as well as pastel shades.

Have you seen the new suspender and golf pajamas? Don't miss them—they're the smartest things in a long time in pajamas. They are developed in rayon in a variety of color combinations. A new step-in is of printed chiffon lace trimmed, and ribbon tied.

Color has taken a definite place in the modern home, and the new colored tablecloths in damask are almost indispensable. They come in pink, jade, maize and blue and are only 80c per yard.

This is the season of housecleaning and new draperies. Cretonnes, marquisette, scrim and silk over drapes are the materials being used and you will find a nice selection of them here.

From the Philippines comes one of the most beautiful selections of hand made underwear and children's dresses for tiny girls—each one made entirely by hand.

Style notes: "Shirring and piping are especially good and are frequently of contrasting color. Ruffles and narrow pleating are also used as effective trims. Fringe is coming in quite strong and is used a great deal with pastel prints."

Friday and Saturday are "Opportunity Days"—take advantage of them. Not just one special—numbers of them from each department in the house.

CROWELL, TEXAS

Christian Endeavor Met First Time Sun.

About twenty-five members were present Sunday for the first meeting of the newly organized Christian Endeavor that was held at the Christian Church at 3 p. m. The organization is made up of young people of the Christian and Presbyterian Churches.

Following an interesting program the business session was held and the following officers were elected: Mack Boswell, president; Teddy Burrow, vice-president; Elizabeth Kincaid, recording secretary; Frankie Kirkpatrick, corresponding secretary; Martha Rettig, treasurer; Mary Clayton Giddings, pianist; Gray Walker, song leader; Elizabeth Kincaid, assistant pianist; Edith Schooley, program committee chairman; Vera Patton, social committee chairman; and Blanche Schooley, reporter.

C. V. Allen took charge of the meeting Sunday, assisting in the program and presiding during the election of officers. A number of visitors were also present for the meeting.

A meeting of officers and committee chairmen was held Monday at the home of C. V. Allen and plans for the organization were worked out.

Meetings are to be held at 6:45 p. m. each Sunday and an urgent invitation is extended to all the young people of the Christian and Presbyterian Churches to attend these meetings. All other young people who do not have similar organizations in the churches of their choice are urged to come.—Reporter.

METHODIST W. M. S.

The Missionary Society of the M. E. church met in a social meeting, April 22nd, at the home of Mrs. S. S. Bell with Mesdames Bell, Tate and Clint White as hostesses.

The leader, Mrs. Jack Brian, led the devotional in a very impressive way, making vivid the duty and privilege of doing all we can for Christ as the women of the Bible did.

"The Risen Christ and Woman" was the topic for the afternoon. Mesdames Hughston, Clark, J. W. Klepper and Edwards brought out in different ways what Christianity has meant to women. Miss Purcell told a story of a negro girl coming to this country as a slave and what achievement she made as a Christian girl and a poet.

Mrs. George Self told of "Sinner Beloved," a one act drama as presented by a dramatic reader and her assistant during the district conference. The program was interestingly presented and was enjoyed by all.

We were glad to have as guests Mesdames Shirley, Walker of Dallas, Carter of Oklahoma, and Williamson of Ft. Worth.

Refreshments were served to twenty-four members and visitors.

It was voted to have a Bible study on next Monday, it being the fifth Monday of this month. The study will include Second Corinthians, Galatians, Ephesians and Philippians.—Reporter.

"THE HOME OF SPLINTERS"

R. J. ROBERTS, Local Manager

April 26, 1929.

Dear Friends:

Swat the fly is a good slogan and we should not miss an opportunity to kill the pesky things. But to keep our homes free from the fly we must have screens, and there is no home too well screened against these disease carrying pests. Our stock of screen doors, screen wire and screen fixtures are complete. If you have a good screen door that is sagging and does not close properly we have an anti-sag which will do the trick in a most satisfactory way, fifteen cents and a few minutes time is all it takes. Screen wire, the kind that lasts for years, in all widths from 18 inches to 48 inches.

If you are thinking of recovering your home or building a new one you will make no mistake in buying the best roofing you can get, and there is no better roofing material than a good shingle. There is a shingle made that will give you 50 years of good service on your roof, yes it is a wood shingle and we have them in stock for your convenience.

Salesmanager—"What's that scar on your forehead?"
Salesman—"That's a birthmark."
Salesmanager—"Yes?"
Salesman—"Yep, I got into the wrong berth."

Yours truly,
