## Little Britches Rodeo is filled with 238 entries

There are 133 peewee and 125 junior division entries in Post's first Little Britches Rodeo, to be held Friday and Saturday nights at the Post Stampede arena.

"We've had to close the books ahead of time because of the large number of entries," Fred Myers said at noon Wednesday. "It was just a case of having as many entries as we can accommodate in two nights."

Doc Edwards of Girard will be producer of the rodeo, which will

have a peewee division for contestants 11 years old and under and a junior division for those 12, 13 and 14 years old.

Myers said the arena had been plowed up and put in shape for the rodeo and other improvements made at the grounds. He said the stock for the rodeo will arrive Friday morning.

"The response has been tremendous, and we are anticipating one of the best Little Britches rodeos ever held in this area," Myers

said.

Events in the peewee division will be flag racing, barrel racing, pole bending, calf roping, Shetland bareback riding and ribbon roping. Junior division events will be the same except for the addition of bull riding and for bareback pony riding instead of Shetland riding.

Trophy buckles will be awarded first place winners in each event and there will be ribbons through sixth place. High point division

trophies also will be awarded.

There will be a teen-age dance at the rodeo dance pavilion Saturday night. The only way for an adult to be admitted to the dance is to be accompanied by a teenager or a younger child, Myers said.

Jimmy Moore and Ned Myers will be the bucking judges for the rodeo. Color bearers will be L. P. Kennedy Jr. and Jack Myers.

Each night's performance is to start at 8 o'clock.

### PLAQUE TO HONORARY FFA MEMBER

Harold Lucas of Harold Lucas Motors is presented his Future Farmers of America honorary membership plaque at last night's annual FFA ice cream supper. Making the presentation is John Johnson, an area nominee for a state

FFA office. At the left is Andy Williams, president of the Post chapter, and at the right is Jay Pollard, recently elected Area II secretary. A. C. Cash also was made an honorary FFA member, but was unable to be present to receive his plaque.

### BANK GIVES SCHOLARSHIP

C. Herron, a vice president and agricultural advisor at the First National Bank, presents the bank's \$150 scholarship to Tol Thomas for his outstanding record in vocational agriculture and as a member of the FFA chapter. Tol is the son of Mr. and Mrs. Wayne Thomas.

## VFW Memorial Day service to be at 10 a. m. Monday

Memorial Day services, sponsored by the Veterans of Foreign Wars Post No. 6797, are to be held at 10 a. m. Monday, May 28, at Terrace Cemetery. The public is invited to attend.

Rev. George L. Miller, pastor of the First Baptist Church, will be the speaker at the service. The list of the county's war veterans will be read by Gandy.

A salute by a VFW

firing squad. Rust Conner will blow taps. Decoration of graves of veterans of later wars will be by members of the VFW post, with the graves of Civil War veterans buried at the cemetery to be decorated by members of the Garza County Historical Survey Committee.

The courthouse, city hall, bank, post office and other government offices will be closed Monday, a-

long with a number of business places. Memorial Day is a Chamber of Commerce-designated holiday here.

May 30 is the traditional Memorial Day date, but it was moved up to the prior Monday a few years ago by an act of Congress, which also changed a number of other holidays from their traditional dates to the nearest prior Monday.

## Sousa award goes to band president

Post High School band's top honor, the John Philip Sousa Award, was presented to Rusty Conner, band president, by Director of Music, Sunday afternoon at the end-of-school concert. The award was presented at a large crowd.

The band played four numbers at the beginning fifth grade concert, followed by the sixth grade, junior high and high school bands.

Presenting the Outstanding Band award were: Daniel Mor-

row, fifth grade; Bryan Compton, sixth grade; Tiana Shiver, junior high, and Sherell Guichard, high school.

The band director recognized the "first chair" in each band, next year's twirlers, band officers, regional band members, and others named as having done outstanding jobs in their respective bands this year.

Introduced as next year's junior high twirlers were: Kerri Pool, Karla Duren, Dana Babb, Peggy Jackson and Kelly Mitchell. High school twirlers will be Donna Ammons, Jana McKamie, Tina McAlister and Jodi Norman.

## District 7 VFW elects Post man

David A. Cheshire of Post took office as District 7 commander of the Veterans of Foreign Wars and its ladies auxiliary at the May convention last Sunday at Post No. 2466 in Lubbock.

Cheshire, a lifetime member of the organization, has his membership in the local post, No. 6797, which he has served as quartermaster for two years and commander for three years.

Other members of John Miller Post 6797 installed in district offices were Nicholas Vukad, quartermaster, and Max Chaffin, judge advocate. Both are past District 7 commanders.

Installed as senior and junior vice commander at the district convention were Bobby Altman of Levelland and Vincent Schertz of Brownfield. Peggy Grant was in-

We have thoroughly enjoyed this week—the last one for us in publishing The Dispatch via "hot type" and our own old flatbed press.

Next week we'll shuck some 33 years of newspaper backshop habits and start over with photo-composition. We'll also exchange some of our freedom for progress.

The whole staff is looking forward with anticipation to the change-over to offset. When we get into the new swing of it, things should be a whole lot easier.

We know we're going to miss getting up early Thursday morning and coming down to make up most of the last four pages. That was a fun time with no phones ringing and no one around to interrupt. But it made for a long Thursday—by the time we took our "paper route" to the stores—after the mailed papers were loaded out to the postoffice.

Next week when we "go offset" The Dispatch will be printed in Snyder Wednesday night. Then we'll haul it back to Post and get the mail ready for the postoffice that night.

So, starting next week you'll get your Dispatch in the mail—to home, store, or office—Thursday morning. That is, if you remembered to stop in and buy an annual subscription for \$4.

Although the Memorial Day holiday is Monday here at The Dispatch we'll be working—trying to master our new offset habits. So if you have news items or ads, bring them in. And remember, there won't be time next Wednesday to write everything if you wait until then to bring it in. We're due in Snyder at 6 p.m. that day with all pages made up and "camera ready" as they say in the new lingo.

### Rites conducted for Miss Mickey

Funeral services for Miss Ollie Mickey, 84, were held at 10 a. m. Wednesday in Hudman Funeral Home Chapel with Bernard S. Ramsey, minister of the First Christian Church, officiating.

Miss Mickey, who was born April 21, 1889, in Bosque County, had been a resident of Post for 57 years. She had been in failing health for the last few years and had been a resident of the Twin Cedar Nursing Home since about 1966. She died at 6 p. m. Monday in Garza Memorial Hospital, where she had been a patient since Friday.

Survivors are nieces and nephews, including Johnny Mickey and Mrs. Willie Scarborough, both of Post.

Miss Mickey was a member of the Post Church of Christ.

Burial was in Terrace Cemetery under the direction of Hudman Funeral Home. Pallbearers were Lester Josey, Kyle Josey, R. L. Simpson, Paul Simpson, A. T. Gurley and Darien White.

## 1973 graduates to join big group

More than fifty Post High School seniors will become members Monday, May 28, of a group of several thousand others — all known as "graduates of Post High School."

This group, which dates back to 1913 (perhaps a year or two earlier), is not an organized group. They are scattered to the four corners of the earth, and many of them have passed on. The nearest thing to an organization they've ever had is the Post Ex-Students Association, which includes them all, of course, but the fellowship of which only a comparatively few of them have been able to enjoy.

The men and women who have graduated from Post High School since its beginning are to be found today in all walks of life. Their number includes doctors, nurses, lawyers, farmers, bankers, preachers, missionaries, journalists, teachers and coaches, merchants, marticians and other business and professional men and women, housewives, etc. Taken as a whole, we'd say all these Post High School graduates have turned out as well as those of any other school—better, perhaps, than some.

All these graduates have sat through baccalaureate sermons and commencement

addresses, and there is nothing we could say to this year's graduating class that hasn't been said before.

But we do want to say that as another school year ends, life will take a new twist for the Post High School graduates and millions of other young people like them throughout the nation.

With graduation from high school, many of them will experience their first real taste of the workaday world. For many, the transition from the classroom to the working world will be fraught with uncertainty and apprehension. They must face important decisions concerning career, life-style and personal goals—decisions deeply affecting their future and that of the communities and of the nation where they will live their lives.

Let us hope that as they walk down the aisle, decked out in caps and gowns with the music of "Pomp and Circumstance" ringing in their ears, this year's graduates will be both equipped by their education and inspired by their vision to acquit themselves with honor and distinction in the task of helping shape the destiny of the world that will be theirs. The Dispatch, in pride and in hope, wishes them well.—CD

## Let us honor our war veterans

Monday, May 28, is Memorial Day — a time to honor those who have lost their lives in this country's wars, as well as all the men and women who have served their country in the armed forces.

It is also a time to remember the widows and orphans of veterans of recent wars in which this nation has been engaged, and also to remember the many veterans in our hospitals. This remembrance usually takes the form of purchasing a poppy for the benefit

of the hospitalized veterans and the widows and orphans.

The sale of these artificial poppies has become a part of the Memorial Day observance, with the first nationwide sale for the benefit of war veterans having been conducted in the 1920's by the Veterans of Foreign Wars.

Everyone is urged to attend the traditional Memorial Day service to be held Monday at Terrace Cemetery in honor of our veterans—living and dead.

## Attend the Little Britches Rodeo

Babe Ruth League baseball action is shut down this week because of final examinations out at the schools, and the Little League and Minor League won't open play until later. But if you're hankering to see youngsters in spirited competition against each other, you're invited to attend the Little Britches Rodeo this Friday and Saturday nights out at the Post Stampede arena.

It will be the first Little Britches Rodeo ever held in Post and the entry lists are filling

up fast, indicating that there will be plenty of action both nights.

The rodeo is being sponsored by the Garza County Junior Livestock Association and besides getting your money's worth in roping and riding action, you'll be helping the junior livestock association's building fund by attending the rodeo.

Go out both nights. You'll enjoy it. Rodeo still ranks as the No. 1 sport in Post.—CD

## What our contemporaries are saying

Politics is the art of making yourself popular with people by giving them grants of their own money.—Tri-County (Wis.) Press.

The best years of a man's life are when the kids are old enough to help shovel snow but too young to drive the car.—The Langford (S.D.) Bugle.

You hear so much about crime these days that it gets tiresome, yet the changes of law by our courts should give us great concern. How can you fight crime when law officers are stripped of their authority and criminals are released almost as fast as they are apprehended. Until the time comes that law enforcement officers are restored their former powers, crime will continue to plague our nation. Out here in the rural areas the crime statistics don't bother us much, but it

seems almost unbelievable when you read in the big city papers about some of the cases being brought into the courts and the criminals are being granted more respect at every court session.—Menville (Iowa) Record.

The move to centralize collection of local taxes by a single agency, which means abolishing the local tax collector, perhaps strikes a nostalgic note in those who cherish our yesterdays, the yesterdays when local community affairs were handled by the local community. They were quiet times, far less hectic than today and far less government. It was a time when the trolley passed fresh-cut fields, a time when the rivers were crystal clear and a time when the air was uncommonly clean. And now, unfortunately, the past is with us no more. The local tax collector, like the once-clean air, may vanish, vivid only in our memories.—Quakertown, Pa., Free Press.

An entire family of itinerant workers, a large family at that, was killed in the accident, which occurred when the vehicle in which they were traveling left the highway and overturned in a gully at the side of the road. The accident happened between midnight and 6 a.m. Thursday, and Jim and I started working on it as soon as we got to the office.

IN THE COMPANY of a Dispatch printer, I made at least three trips up and down the highway between here and Justiceburg, while Jim stayed at the office and wrote the story as I called in the facts. Getting all the facts together required a half-dozen or so interviews with highway patrolmen, fully as many calls to hospitals, which included lots of arguing back and forth, and considerable use of a service station telephone at Justiceburg.

And then, just when we thought we had the story all wrapped up and ready for the press, searchers found in the wreckage the body of a baby they had missed the first time. That brought the death toll, as we remember it, to six, and made it necessary to rewrite the lead paragraph of the story before we could go to press.

their papers late that Thursday, but the first of the papers were out well before noon, and what if we did have to run through the noon hour here at The Dispatch before eating lunch. We'd done it before on press breakdowns, etc.

No one, of course, wants to see such tragedies happen as that awful wreck between here and Justiceburg, but when they do happen, a paper owes it to its readers to let them have the story, if the timing is right — and we made it right that Thursday morning.

BUT, AS I said earlier, this wind of change that blows in offset printing will also blow away the chance of getting any other such late-breaking stories into your Dispatch. As I see it, that's the only unredeeming feature about the new process.

## A Time of Peaceful Remembrance

Democracy. Freedom. The American experience and spirit is founded on these words. In times of peril our servicemen have defended this spirit with dedication and courage. Many have given their lives to preserve it.

Memorial Day is a time for quiet reflection. A time to honor our servicemen of past and present. And, as we rekindle the memory of what they have given to their country and to each of us, we also prayerfully work and hope for peace. Across the land there will be parades and speeches of commemoration. It's our way to proudly and reverently give thanks.

## Potluck

By ROSEMARY CHAPMAN

So many people seem ashamed of mental illness, I've never understood this attitude. One should learn to appreciate one's neurosis, psychosis, or whatever.

Some of my best friends are nuts. I've thoroughly enjoyed their viewpoints, and I've been secretly envious of some of them for years.

When I was a freshman in college, I went to an Episcopal youth group meeting with a good friend who had recently spent a month in a plush sanitarium near Dallas. A handsome, rather dashing young minister at the meeting commented to my friend that he hadn't seen her around lately. She hesitated and then said softly, "No, I had a baby breakdown and I've been out of touch."

That may not seem like much of a line but coupled with R's pale, translucent skin, further enhanced by a black velvet dress and romantic dark circles under the eye, it created quite an impact. The young minister led her by the hand to a quiet corner where they chatted solemnly for the rest of the evening. Two weeks later they were engaged to be married.

I was suitably impressed. Breakdowns obviously make terrific opening conversational gambits. I've been doing my best to have one for 20 years.

Psychoanalysts intrigue me. I'd love to be analyzed. Wouldn't it be heaven to lay on a couch and tell all of your problems to some guy who couldn't jump up and run off? Talk about your captive audience! The problem is I can't think of any problems.

Others may daydream about winning gold medals or being President. I dream about me and my analyst. I even have him picked out—Dr. David Viscott, author of "The Making of a Psychiatrist." (There's a copy at the library.) I'm certain that he's the one who could help me best if only I needed help.

"Dr. Viscott," I say in my daydream, "My kids are sick and my favorite dog was bitten by a rattlesnake. I think I'm a Manic-Depressive."

"My dear," says Dr. Viscott, "You look schizophrenic to me."

"That's rather common, isn't it, Dr.?" I ask coolly.

"You're right. How about Paranoia?" Viscott suggests.

"That's it! Thank you, Dr.! Now let's get down to the nitty-gritty of my case. Actually, no one ever gives me a fair shake, etc."

I should be so lucky. People who are mentally ill are just plain more interesting than the average person. They ought to be proud of it. They're often right, too. Fearing heights is better than falling. Move over, Passive, Aggressive Personalities, here I come!

# Top seniors' autobiographies

(EDITOR'S NOTE: Following are brief autobiographies of this year's 11 honor students among Post High School's graduating seniors. In publishing the autobiographies, The Dispatch continues a custom it began more than 20 years ago.)

## RUSTY CONNER

Since this is written by and about me, it is only fair to assume that it will contain only what I think is vital and acceptable; therefore, if at any time you wish to stop, feel free to do so.

It starts, as many such stories start, in a hospital in the company of my mother, Lil Conner, a number of nurses, and a doctor to whom I was never formally introduced. My father, R. S. Conner, eventually heard news of my arrival, and the beginning ended.

The first few years are now composed of portions of memories, all incomplete and all creating a scene of little worry and much activity. I have no recollection of Lubbock, Texas, my original home town, but have fond memories of the other towns I have lived in: Rosenberg, Spur, Dickens and Post. I remember times at the ocean, times on a train, and even times with small girl friends. All these are common to most children and led me to the conclusion that mine was a typical childhood.

The coming of school brought a drastic change to my way of life, for I was suddenly in a strange town, among even strange people. I was also faced with a terrible invention of my teacher—the alphabet; not to mention the realization that there were indeed numbers beyond 12, my limit at that time.

The first five grades were occupied with trying to master the pen and pencil and cultivating a taste for reading. Therefore, upon entering junior high school, I enjoyed reading and was able to write where only I could read it. Junior high added athletics to my rapidly filling life.

High school has been the fastest four years of my life. I have seen nothing but more worry, more responsibility and more fun than at any other time of my life. Except for a course in typing, I have taken only band, science, math, history, English and athletics every year. Experiences at school and at related activities have done much to educate me as far as people are concerned.

I feel that each day I mature more and become better equipped to face the world. I have been accepted at Rice University and am looking at the future with subdued excitement.

## WILLIAM THOMAS HUDMAN

The doctor's cold gloved hand made a swift assault on my posterior. Rather than say "Ouch!" or something profane, I quickly retreated to the traditional act of crying. Thus, on March 2, 1955, I came into being and, needless to say, not without the proper fanfare. I wanted my mother, Maurine Hudman, and my father waiting down the hall, H. H. Hudman, to recognize the act of violence that I had endured. However, instead of retaliating and pushing my weight of 10 pounds, 11 ounces around, I again simply fell back upon tradition.

The first six years of adolescence flew by hurriedly, leaving only a faint remembrance of events. Curiosity was the most dominant trait of this era. This trait was also present when I first entered school. There I became introduced to a creature known as a girl. Though I pretended to hate the fairer sex (which at the time was not so fair), I had an interest in them that was explained to me many years later by Mother Nature. Again, this era also left faint remembrance, mainly because events of this time were not worth remembering.

When my feet first trod the halls of Post Junior High School, I became aware of the many phases and mysteries of life. Hardships, such as hospitalization due to an

injury, plagued my life. However, the good times outnumbered the bad by a considerable margin. Though troubles may have bothered my peers and I, the fun times were even more enjoyable than before. In junior high, I became introduced to a pastime that will last my lifetime — sports. Also, a new system of operating learning procedures and session enlightened me.

Looking back over my life, I feel that my entrance into high school is the turning point thus far. Though I was familiar with the system, it was not what I expected. Many things took place that I still think about today. My character as a whole was beginning to take form. Through high school, I have had many trials and achievements. Sometimes I was victorious in my efforts and other times I was not. However, even more satisfying than my achievements are the people around me with whom I worked, strove, laughed and cried. At this time, they stand forth in my mind.

And so, in a few short lines, I have covered my life thus far. What lies ahead of me is uncertain. Again, however, I would like to fall back, as I have so often done in the past, upon tradition and end this monstrosity with a philosophical point of view. One is never too old or young to experience life.

## JAN BILBO

The Virgil Bilbo family was increased by one member on April 24, 1955, with the addition of me, Jan Carol Bilbo. This event took place at Alamogordo, N.M. At the age of two, I moved to Post and I've been here ever since.

I began my education in 1961 with Mrs. Ivan Jones as my first grade teacher. That year I received my first spanking and I learned when not to talk.

I moved on through primary into elementary. In the fifth grade I joined the band and I've stayed a member of this organization to the present date. In junior high I began playing basketball and my eighth grade year I became twirler for the band.

Then I entered Post High School. During these four years, and especially this past one, I have had many enjoyable and busy times. I have been active in several groups and organizations while in high school. My time has been given to FHA, band and twirling, the National Honor Society, the Science and Math Club, and I participated in the senior play this year.

At the present date I have many fond memories to look back on and many things to look forward to. This summer, I plan to work at Denison, Texas. Also, I plan to further my education by attending Texas Tech University this fall.

## JOHN JOHNSON

I was born March 2, 1955, in Post, and began my education in 1961. My school years were uneventful until my seventh grade year. It was at this time I began competing in athletics.

In 1969, I entered the new world of high school. While a member of the student body at PHS, I have served as class officer and been a member of the Post FFA chapter.

While in FFA, I served as chapter president, Mesa District president, Area II first vice president, and I am now the state officer nominee from Area II.

In October of this year, I received the Santa Fe Railway Educational Award. In February, I was honored at the San Antonio Livestock Show as one of the ten top FFA members in Texas.

I lettered two years in varsity football, and was a member of the National Honor Society, and Post chapter of Fellowship of Christian Athletes.

## DONNA McBRIDE

On Dec. 3, 1954, I was born in the Spur Hospital. At this time my parents, Mr. Bill McBride and Myrtle Alma, lived in Dickens.

When I was about two, we moved to Pampa, Texas, where my father worked for the highway department. After a few months he started working for Skelly Oil. My brother Danny, was born when I was three years old. When I was five my mother passed away.

I attended Horace Mann elementary school in the first grade; we moved 14 miles to Kellytown where I went to the first half of my second grade year. We then moved to Dickens so Daddy could go to barber school in Lubbock. The last half of my second grade and my third grade years, I went to Spur school.

My father found a job here, in Post and we moved here when I was in the fourth grade. While in high school, I have been in FHA, band, choir, Top Twenty, National Honor Society and Drama Club. I will be married by the time school is out and right now I'm not certain that I will attend college.

## RODNEY COMPTON

On June 20, 1955, at 7:25 a.m., I came into this world. I was born in Colorado Springs, Colo., to the proud parents, Mr. and Mrs. H. M. Compton.

At the age of five, I moved to Lubbock, Texas. There I attended my first year of school. When my second grade year came around I moved to Knox City, Texas. There I finished the eighth grade. I started my freshman year there but moved very soon afterwards to Post.

I have participated in football 1, 2, 3, 4; basketball 1, 2, 3, 4; track 1, 2; tennis 3, 4; and golf 4. I have taken science four years, math four years, choir four years, English four years, history three years and agriculture one year. I am a member of the Drama Club, of which I am treasurer. I am also vice president of the Science and Math Club, and a member of the Top Twenty. I am also a member of the First Baptist Church, and am very fortunate to be in their youth group.

I was fourth in the class with a 94.5 average. I have been accepted to Baylor University and plan to major in medicine. The people who I admire most are Robert Griffin and Bob Stice.

## CRYSTAL ARNETTE NICHOLS

My arrival on Feb. 18, 1955, at the Garza Memorial Hospital signified that the Martin Nichols family had been completed. I don't remember doing anything out of the ordinary during my early childhood, but I am sure I did.

At the age of six, I entered the Post schools for the first time. School was an exciting experience for me. It was the beginning of new friends, new types of toys and games, and new things to learn.

Upon entering junior high, things changed. I had Coke breaks instead of milk breaks. I changed classrooms instead of different teachers coming to my room, and recesses were cut out of my school life. Band also became part of my school life. Those days flew by and it was time to graduate from junior high and enter high school.

Along with this promotion came invitation from my seniors, extra activities, cars, more studies and, of course, lots more fun!

Some of the activities I participated in were FHA, band, choir, Top Twenty, National Honor Society, annual staff, and parts in the junior and senior plays. My high school years have been filled with many memories—some sad, but most are happy ones. The time has come now for this part of my life to end and a new and exciting life to begin.

## CONSUELA FLORES

My name is Consuela Flores. I am the daughter of Mr. and Mrs. Agapito Flores of Route 3, and was born on June 22, 1954, in Mathis, Texas. My family and I moved to Post when I was six years old. I have attended school in the

Post School District all my life. During the elementary years, I enjoyed playing tether ball a great deal and my interest in books and art rose during the fifth grade. While in junior high school I enjoyed working in the science lab and English became my favorite subject. My junior high years were highlighted by the eighth grade graduation and banquet.

As I entered high school as a freshman it seemed like my world was just a small island upon the ocean. I remember that first day. I was nervous and scared standing with the group and being watched by the upper classmen. However, I soon learned that my freshman year would be the stepping stone to a wonderful and exciting life through high school. As a freshman I began to take on new responsibilities both in school and at home. I was allowed to take part in decision making and go out where I needed to with more freedom. My sophomore year seemed the busiest as far as school work was concerned. I was always rushed to meet deadlines.

My most exciting event during my junior and senior years has been having the opportunity to train as a child care aide in kindergarten. It is through this experience that I have learned the meaning of having a job, working with people, and being depended upon to carry out my responsibilities on the job and to myself. I have learned to work with individuals, especially children, and observe their different stages of growth. I've learned to carry on a few projects, study about child related occupations and to evaluate my progress at different periods in time.

I have prospered and matured at a fairly fast rate. Other events which have highlighted my junior and senior years have been the junior-senior banquets, attending the area and state FHA meetings in Odessa and San Antonio, and owning my first car to go wherever I need to go. I have been a member and officer of FHA, president of HECE, National Honor Society, class reporter, basketball, and a member of the Catholic Church.

As I get ready to leave high school and look back, the person who has influenced my life the most in school is Mrs. Mary Lee Wristen. She has been my teacher, my supervisor on the job, and above all a true friend. She has helped me to learn to see myself as I really am, realize what my assets are, to work and enjoy myself and at the same time to see myself in what I want to do and where I am going with that extra self-confidence that everyone needs.

My future plans are to go to Dallas and get a summer job. During the fall I will attend West Texas State University in Canyon and hopefully earn my teacher's certificate and degree in elementary education.

### EX-POSTITE IN HOSPITAL

Dear Editor:  
Three weeks ago my father, Cal Casteel, ex-Postite, suffered a pulmonary embolus and has been in the hospital since that time. It appears that he will have to remain there for several weeks yet, and I thought that perhaps some of his old friends would like to send him a card or note. I'm sure it would mean a lot to him and go a long way toward boosting his morale. The address is:  
Calvin C. Casteel

# Top seniors' autobiographies

**PAMELA CAROL GRAY**  
My name is Pamela Carol Gray. I was born on Jan. 26, 1955, in Post to Mr. and Mrs. J. W. Gray of 611 West 12th St. I have an older sister, Debbie, and a younger brother, Rodney.

I attended kindergarten when I was five and I developed a strong desire to learn and a respect for my teachers that followed me all through school.

I did not have any trouble when I started school. In fact, I loved it. My teachers prompted and praised me for my work and my behavior. I loved my third grade year more than any other, even now. My teacher was really fun and I think all of the other pupils in my class loved her like I did. She treated us like we were her special class and she certainly was a very special teacher. The school days following that year were never quite as much fun, although I did continue to like school a lot.

In the seventh grade, I fell in love. He was a "Monkee" and I propped myself stolidly in front of the television every Monday night for the thrill of my life. I bought every scrap of valuable information or glossy color pictures I could find. I had found someone who could never talk back and ruin my dreams. My whole life evolved around my "idol" and I would not have traded one picture or record for the world. Then he married. I condemned my childishness and vowed never to love anyone like that again.

I found a new Messiah, but he was the one in the Bible. I was really stable for awhile, until social pressures made me gradually lose my faith. I really began to notice the people around me in high school. I found acceptance more important than convictions. But, even when I forfeited my convictions I was never accepted.

I found another Messiah. He was a folk-rock musician from North Carolina. His music came from the soul, and it filled mine. All I had was his music and his haunting eyes, but I found a peace and fulfillment in both that could never be measured. He also married, but the love I had has not faded. I think I have finally learned that love can be shared.

All the influencing factors of my emotional life have also had significant bearing on my social and academic life. I have learned a lot in my 12 years in school. I have formed some positive attitudes and beliefs that will endure for the rest of my life. I have seen dreams and aspirations crushed by defeat, but somehow I believe I will

always have lasting victories that will make some of my dreams come true.

**JOHNNY MINOR**  
I was born Jan. 13, 1955, in Garza Memorial Hospital. I entered the first grade on Sept. 2, 1961, at the age of six, and have attended the Post schools ever since.

I began football and other sports in the seventh grade and have played the remainder of my school years at Post. As a freshman in Post High School I was elected as a student representative on the Student Council, also being a member of the FFA Greenhand chapter, of which I was secretary. I participated in freshman football, basketball and track.

My sophomore year I participated in varsity football and was elected class favorite. I began choir the same year. My junior year I was elected vice president of the junior class. I participated in the junior play, Top Twenty and was also class favorite, and entered the National Honor Society.

Last of all, my senior year I was elected as representative to the Student Council. I am a member of the Fellowship of Christian Athletes and Science and Math Club. This fall I will attend Texas Tech University.

**ROGER PACE**  
I was born in Lea County Hospital in Hobbs, N.M., on Jan. 18, 1955, as the son of Mr. and Mrs. Robert H. Pace. I don't remember much about Hobbs, at the age of two years.

At the age of six I started to the Post Public Schools with Mrs. Buchanan as my first grade teacher. My first five years of school were uneventful, or I just don't remember much about them. But I really felt that I had grown up when I entered junior high school in the sixth grade.

In the seventh grade I felt even more grown up when I started playing football and basketball and participating in track. Throughout my eighth grade and freshman years sports continued to be the main part of my life.

In my sophomore year I received a scholastic sweater and became a provisional member of the National Honor Society. Also my sophomore year I participated in varsity football, basketball and track. I also was a member of the boys choir which won sweepstakes.

My junior year in high school was very eventful. Such things as ordering senior rings, working toward the junior-senior banquet and becoming an official member of the National Honor Society were things that led to an eventful junior year.

My senior year I was elected class president and became a member of the Student Council, of which I was elected treasurer. My senior year was climaxed when I became fifth highest in my class and writ-

## Success hints given Rotarians

J. B. Potts interviewed a number of Post's retired business and professional leaders to obtain information for an interesting philosophical talk which he gave Post Rotarians at their Tuesday luncheon in City Hall.

He entitled the talk, "Successful Aging."

The banker pointed out that this community owed much of its success to the work and dedication of such men who once wore the mantle of community leadership and now have successfully undertaken a new role as senior citizens.

Some of the rules of life which Potts passed on from these men included such suggestions as: learn to treat the people you love the best, always spend a little less than you take in and you'll never be broke, work, and write it down if you want to remember it.

# Braves take over lead in Babe Ruth League action

The Braves won two games last night, taking the Indians and Cubs to go into first place in the Babe Ruth League standings. The Braves' record is 1-0 for a week because of forfeits.

Play will be resumed Monday night with the Cubs and the Indians.

The Braves scored four runs in the first inning of last Thursday's game with the Indians and Indians in the second inning. The Braves had also scored in the second and third innings, and came up with a run in the fourth to lead 6-4 at the end of four innings. The Braves led 2-0 at the end of the fifth, then held the Indians to two runs the rest of the game for an 8-6 win.

Greene, the Braves' starting pitcher, went three innings and received credit for the victory, with Garland Dudley also pitching three.

Kyle Duren went all the way on the mound for the Indians, holding the Braves to six hits, which was one less than the losers collected off Greene and Dudley.

Benny Greene led the Brave hitters with two hits in two official trips to the plate, while catcher Danny Garza got three-for-four for the Indians.

## Swim pool will open Tuesday

The city-county swimming pool will open next Tuesday afternoon at 1:30 p.m., Randy Hudman, who will operate the pool this year, announced this week.

Randy came up with something new price-wise in these inflationary times. He is lowering the adult single admission price from 75 cents to 50 cents this season.

"We'd like to have more adults come swimming," he said.

His brother, Bill Hudman, will assist Randy with the life guard duties. The pool will remain open an extra hour each afternoon too, closing this summer at 6:30 p.m.

Hudman, who arrived in Post Saturday after completing his junior year at the University of Wyoming, is looking forward to a great football year next fall in his senior season.

Southland, the league newcomer, won its first game Thursday night by drubbing the White Sox, 12 to 1, behind the six-hit pitching of Kenyon Wheeler, who went the route. Thomas DeLeon was the White Sox starter and loser, with relief furnished by David McBride, Evans Heaton and Ronnie Bratcher.

Larry Koslan led the Southland hitters with two triples in three times at bat, with K. Wheeler and Billy Alexander also getting two hits each. The White Sox' only run came on a double by Mike Hair and a triple by Donnie Greathouse.

Saturday night, the Braves romped on Southland, 23 to 11, in a free-swinging contest. Buddy Britton was the winning pitcher and Mark Bevers the loser. Britton and Garland Dudley led the Brave hitters with three safeties each. Britton getting three doubles and driving in two runs.

Larry Koslan got a double and a single for the losers and Billy Alexander a triple.

The Indians disposed of the Cubs, 15 to 3, Saturday night, with Ricky Sanchez the winning pitcher and Joe Clary the loser. First baseman Danny Saldivar led the Indian batters with three hits in four trips, while catcher Randy Baker and second baseman Billy Smith got two hits apiece for the losers.

Little League play opened this week, but only two games out of three were completed, with one called because of rain Tuesday night after five innings.

In Monday night's opener, the Red Sox blanked the Wildcats, 6 to 0, in a game called complete after four innings because of the weather.

Tuesday night, the Yankees edged the Dodgers, 13 to 12, and the Red Sox-Tiger game was called after five frames with the teams dead-locked, 4-4.

Tonight (Thursday), the Cardinals play for the first time, going against the Tigers, and the Dodgers take on the Wildcats.

In Monday night's four-inning opener, Scott Walker and Ray Morales combined to pitch a two-hitter, Walker going three innings and giving up just one hit, and Morales also yielding one safety in the inning he pitched.

Terry Odom was the losing pitcher, although giving up only four hits. Three of the Red Sox runs came in the first inning when Scott Walker doubled after Jimmy Odom had reached base on an error. Terry Holloway had singled and Jeff Williams had doubled.

The only hit Walker gave up was a single by Owen Gilbert, and David Poole's single was the only hit off Morales.

In the Yankees' 13-12 win over the Dodgers Tuesday night, James Bilberry was the winning pitcher, and Mike Gonzales the loser. The Yanks got a total of nine hits, with Bryan Compton getting three in four at-bats, while the Dodgers collected six hits, including two each by Mike Dye and Danny Nelson.

The sixth inning of the Red Sox-Tiger game called by rain Tuesday night will be played later to break the 4-4 tie.

# Bright future seen for most Seniors

(EDITOR'S NOTE: Roger Pace, an honor student in this year's Post High School graduating class, read the class prophecy at the junior-senior banquet.)

By ROGER PACE

A strange thing happened to me recently in my English class. As usual, I was asleep and dreaming. But this dream was different. I dreamed what all my senior peers would be doing in the future. Strange enough, there were similarities between the present and the future.

The first person I recognized was Robert Mindeta. He is head football coach at Post High School after receiving the job because of recommendations from earlier coaches. At Post he has introduced the Brownie point lettering system.

Next I see Rodney Compton as a multimillionaire. This came about after his founding of the Compton Fertilizer Co., of which he is the largest supplier of his product.

I then see Terry Shedd as proprietor of Terry's Tater Tots and Hamburger Hut. Also in this fine establishment is Gilbert "Queen" Harper, who is in charge of the pinball machines.

Maude Cade has opened her own charm school right next door to Dennis Higgins' Salon of Hair Style. Maude's success came about after her new book entitled "How to Act Like You're Twenty, but Look Like You're Fifty."

Next I saw Rafael Rios purchasing his new western apparel from Steve Cooper's "Duds for Dudes" Shop. Employed as stock boy there is Howard Halford.

A recent addition to the community of Post is the nationally acclaimed shop, "The Hole in the Head," owned and operated by Philly Eckols. It features not only a clothes shop, but a speed-talking clinic and a funeral parlor. Philly guarantees to increase your speed by 100 per cent, without making any more sense than usual.

Next I saw Ann Aten married to a local cowboy. They have three little kids, all named Buzzy.

Freddy Huff is now commissioner of the National Bull Riders Association. After taking office, Freddy required that the caution, "Bull Riding May Be Hazardous to Your Chin," be put on all applications.

Johnny Minor and Robert Varela have taken over the Lance and Tom's Cracker Companies. They have introduced a burglar proof machine. Also they have introduced stomp-proof crackers.

Then I saw Crystal Nichols and Jan Bilbo as they were working to organize a Lonely Hearts Club in Post.

Frances Griggs and Sue Britton have opened up their own little grocery store. Their motto is "Service With a Smile."

Dan Hodges is now owner and operator of Hodges' Texaco and Carwash. In his spare time he directs the community choir.

Danny Lee has signed with the Los Angeles Lakers. They always did need a janitor.

Diane Woods, Colleen Gilmore, Connie Flores and Pam Feagin are now working for Troubleshooters, Inc. It seems they always did like to worry about other people's business.

Trena Jackson is now girls' basketball coach at Post High School. I guess she just grew fond of sitting on the same old bench.

John Johnson and Jr. Stelzer have become ag teachers, but just can't find a job. This comes as no surprise after the fine ag students they were in high school.

I then recognized Betty Abraham and Maria Lopez in my dream. They were working for Anita Crisde in her Spanish restaurant.

Next I saw David Rogers working for the City of Post. David has been hired as truant officer because of his previous experience in high school. It seems he knows the streets around Post pretty well. In his spare time, David still works on his Beowulf packet.

Gail Browning and Glenda New-

diger are now actresses living in Hollywood. Gail specializes in foreign parts.

Steve Mason and Steve Lemon are now superintendent and principal, respectively, at Post High School. We always thought they loved school.

I then saw Mike Huff in his job as a car dealer. He spends most of his time riding in and testing the blue and white Super Sports.

I saw next Rusty Conner after he received his automotive degree from Rice. He is employed by Gene's Honda Sales. I hope you like your janitor's job, Rusty.

I saw Kenneth Price and Willie Bell standing on a street corner passing out Bibles. They always did say the Bible had "Soul."

Bill Hudman is a happy man after completing his four-year football scholarship with the Wyoming Cowboys. Bill is one of the greatest place-kick holders and managers in the history of Wyoming.

The National Roller Derby Association is even greater due to the singing of Jo Beth Gandy. Strangely enough, she dyes her hair in different bright colors before every roller derby match.

It seems that unsurprisingly enough, Randy Kennedy is in business with Pat Walker.

Donna McBride has become sole owner of the national chain of White Auto Stores, Inc.

Vince Gribble is now stunt man for Paramount Pictures, Inc. In his spare time, Vince sells life insurance.

Ricky King and Ricky Thomas are selling slightly damaged pickups. They have a wide assortment of these pickups with caved-in cabs.

Arthur Ayala and Noel Saldivar have started a Mexican band. They call themselves "The Electric Enchiladas."

Rodney "Gene" Ray and Chris "Ken" Reiter are now working for the Department of Public Safety as highway patrolmen.

Gaynell King is now teaching English IV in Post High School.

Carmen Villa has opened her own little dress shop in Post. She not only named it "Carmen's," but dyed her hair red to attract business.

Mike Smith and Ricky McDougle are now working for the Highway Department. We always knew they would amount to something.

Debbie Hood and Mary Cheshire have opened their own drive-in. They call it Holly's No. 2.

Pam Gray has become a family doctor. It seems she always did like to worry about other people's problems.

Tol Thomas now owns his own ranch. He leads a very simple life. All he raises is a few cattle and a lot of grass.

My foreboding dream ended when the words of "Research paper" echoed from the resonant voice of Mrs. Alexander. The future turned again to the present.

## Balloon launched here lands in Sooner State

Sharla Riley, daughter of Mr. and Mrs. Donald Riley of 416 West 14th St., was one of a number of Church of the Nazarene youngsters who let loose helium-filled balloons about 10 a.m. Sunday, May 6, in a Sunday School primary department promotion sponsored by Earl Rogers.

Sharla is also the first to "hear from" the balloon she launched, along with her name and address, and Sharla's balloon might well have set a record for the longest distance traveled in the shortest length of time.

The balloon that Sharla turned loose at 10 o'clock that Sunday morning was found about 3 o'clock that same afternoon by a farm couple who live near Pawhuska, Okla. That's at least 400 miles from Post. What's more, Pawhuska, Okla., isn't even in the direction taken by the balloons when they were let loose, since they headed from Post toward Snyder, to the southeast.

Sharla received the following letter from the finders of her balloon.

Dearest Sharla:  
This was the nicest thing. We

had a terrible wind and rain storm today about 3 o'clock. After the rain, my husband went to check on some young cows and baby calves and your balloon was in the pasture, so we were interested in when you let it go.

It came a long way, as we live in northeastern Oklahoma, about 30 miles from the Kansas state line, on a cattle ranch. We, my husband and I, have been in Post, Texas, and if we are ever there again would love to visit with you.

I think the idea is one of the nicest things. Such a nice surprise on a Sunday, too.

Would like to know more about you. We are a couple 39 years of age, have a grown son just out of college, married. We have our first grandchild. We are members of the Methodist Church, but don't get to attend as often as we would like, since we live 27 miles from town. But do write us, and thank you for the balloon. It is still about the size of a basketball. God bless and keep you. Yours truly,

Jim and Edna Barker

## Master's degree to Emily Potts

Miss Emily Potts, daughter of Mr. and Mrs. J. B. Potts, received her master's degree in elementary education from Texas Woman's University at Denton last week.

She will be a reading specialist. Her professional paper was written on the subject, "Suggestions for Implementing Poetry into the Curriculum of the Elementary School."

Miss Potts will be employed this summer in the education department of Lubbock Christian College.

## ENTERED IN ROPING

## Mitchell funeral held in Childress

Funeral services for Mrs. Mary Alice Mitchell, 82, who died last Thursday in Garza Memorial Hospital, were held at 2:30 p.m. Saturday in the Newberry Funeral Home Chapel at Childress, with the Rev. H. Paul Henderson, pastor of the Presbyterian Church, officiating. Burial was in the Childress Cemetery.

Mrs. Mitchell, who had been a resident of Childress for 64 years, moved to Post about three months ago and was a resident of Twin Cedar Nursing Home. She was born Nov. 16, 1890, in Lawrenceburg, Tenn.

Survivors include a son, James, and a grandson, James Mitchell III, both of Post.

Local arrangements were in charge of Hudman Funeral Home.

## Museum program presented Scouts

Girl Scout Troops 112 and 308 met recently at the Garza County Museum for a historical program and tour to meet requirements for the Sign of the Star Badge.

A lecture on C. W. Post and the founding of Post City was presented by Mrs. Winnie Tuffing. Mrs. Gwen Baren described life and culture of early day Post. A history of the Post Sanitarium and a tour of the Garza County Museum, now located in the historic sanitarium building, was given by Mrs. Ruby Kirkpatrick.

Lemonade was served from a crock in the pioneer kitchen of the museum, at which time, the scouts enjoyed an interesting "touch and feel" session" which included the many kitchen utensils on display there. Group singing around the pump organ ended the tour.

Twenty-one scouts and their leaders, Mrs. D. E. Morris, Mrs. A. D. Halford, Mrs. T. C. Polk and Mrs. A. J. Howell attended.

The program was sponsored by the Garza County Historical Survey Committee. Groups interested in similar programs are invited to contact Mrs. J. R. Shelton, youth chairman, GCHSC.

To Mr. Pollard and Mr. Shiver we leave the pleasure of remembering what a great class we've been.

The fortunate beneficiaries may take possession of these new found treasures upon the date we cease to exist, which we feel is drawing near. We appoint the Principal as executor of this, our will and testament.

We, the class of 1973, do set our names and our seal to this document, witnessed by our sponsors, Mrs. Joy Pool, Mr. Dwayne Harris and Mr. George Pierce.
