Farm Planning Will Pay In Texas Again This Year

Ten years of soil conservation and farm planning will hit pay dirt in Texas again this year and continuation of these practices will assure indefinite top speed production.

That's the emphasis Fred Renels, assistant administrative officer of the AAA, placed upon the farm program this week when he urged Texas farmers and ranchers to continue soil-building practices at the same time they produce food for freedom at maximum capacity.

"Texas farmers contribute enormous amounts of food and feed to the nation's needs and the only way they can continue this job is to keep their soils in condition to produce," he said in encouraging farmers to earn their maximum production allowances during 1943.

Under this year's AAA program, approximately 40 practices are offered for soil and pasture improvement through which the production allowance can be earned. At the same time Texas farmers and ranchers are signing production plan sheets under the Food for Freedom program, they also are working out with community AAA committeemen a farm plan for investing their maximum soil-building allowance into approved practices.

Follow through on these farm plan sheets during the program year will assure continued production of food and feed needed for "unconditional surrender" of the Axis, the AAA official said.

Two Post Youths Join N. Y. A. War Work Program This Month

Two young people from Post entered NYA war work last week, according to information released from Miss Louise Lomax, NYA field director.

J. Weldon Williams, a former Post High student, entered the radio field of the NYA program and started training March 9 at Burnet, Texas.

Stella Marie Howell went to the sheet metal center at Ranger, Texas, on March 5.

Both young people will qualify for war jobs when their training periods are completed. Miss Lomax is in Post each week and will interview other persons who are interested in the NYA war work program.

Junior Class To Present Play On Friday, March 26

After much deliberation, the Junior class has finally selected its offering for this season. The announcement came from Betty Jane Travis, Junior class reporter.

It will be "My Cousin From Texas," a brand new farce comedy by Pete Williams, which will be presented by special arrangement with Samuel French of New York City.

The Junior Players, who refuse to divulge the story of "My Cousin From Texas," claim that, before making their decision, they read upwards of two hundred plays, and of all of these, they found "My Cousin From Texas" to be the funniest by a wide margin. It had its initial presentation in the east only last year, but in the short time since then, it has already taken its place as one of the most successful plays of its type in many years. This, perhaps, cannot be classed under the heading of "surprises," because Pete Williams, the author, is one of the most consistently popular of all present-day playwrights. And many critics are already calling "My Cousin From Texas" his finest play.

Tickets will go on sale soon for the local production of this outstanding hit play, and the Junior class advises early reservation. The performance will take place on March 26 at the High School auditorium.

Try-outs for the cast of characters were made under the direction of the speech director, Miss Maxine Durrett.

Mr. and Mrs. Foy Wint were business visitors in Post the first of the week. The Wints who formerly lived here are now living in Littlefield.

SERVICE MEN TO BE HONORED ON FRIDAY

World Day of Prayer Program To Be Presented At Methodist Church From 10:00 - 11:00 a. m.

A World Day of Prayer observance will be held next Friday morning at the First Methodist church in honor of the Service men of Garza county. The program will be given from 10:00 until 11:00 o'clock. A special invitation is being given to every person in Post to attend the affair which is under the sponsorship of all churches in Post.

The following program will be presented: Organ meditation, Mrs. Ashley Lawson; prayer, Mrs. J. A. Stallings; Devotional, Mrs. A. W. Bouehier; "If Millions Prayed," Mrs. Willard Kirkpatrick; vocal duet, Mmes. Frank Nease and J. E. Parker; "Being a Christian In Time of War," Rev. A. T. Moore; "Bible Verses Used By Presidents," Mrs. John Cearley; poem, "I Cannot Hate A Mother" by Grace Noel Crowell, Mrs. A. T. Moore; Tribute to Service Men, Mrs. T. L. Jones; prayer, Rev. O. B. Herring.

Timely Subjects Used For Talks At Rotary Club

"Point Rationing" was discussed in a brief but concise manner last week by Rotarian Pat O'Connor, manager of the Garza Frozen Locker plant. Assisting him were two grocers who gave interesting worthwhile facts on the new system.

Bob Warren had charge of the program this week and discussed in a very able fashion "Plight of Small Business."

Three new directors are to be elected this month, it was announced. Retiring directors are B. J. Edwards, Ira Greenfield and Lester Bearden. Holdover directors are Roy Holland, Clint Herring, A. B. Haws, and W. F. Presson.

In a recent directors' meeting held at the home of Mr. and Mrs. B. J. Edwards it was voted to continue the \$50.00 scholarship award as well as the annual donation to the Texas Crippled Children's Society.

Next week J. E. Parker will give a talk on "Rise and Fall of Capitalistic Democracy."

Mrs. G. C. Custer left Tuesday for Sidney, Texas, to visit Mrs. Bud Collins who formerly lived in Southland.

Point Rationing Chairman Urges Women To Budget

Now that we have all tried using the point system of rationing we can see how fair and worthwhile it is. When shopping, budget your points carefully and do not use more than one-quarter of your month's points in any one week period.

There is a 7-day overlap period the last week of March during which you may spend first and second period stamps for processed food. Stamps for the first period, March 1 thru March 31, are the blue A, B and C stamps in Book No. 2 and stamps for the second period may be used from March 25 through April 30, so that both first and second period stamps will be valid from March 25 through March 31. This is a convenience designed for those that failed to budget their points and at the end of the month were left with no points with which to buy needed supplies.

Housewives should use fresh fruits and vegetables whenever possible. Try out recipes that make your rations go further.

Now that we have learned how to use our points to buy canned vegetables and fruits we must learn next how to buy meat. Soon every shopper will know at a glance exactly how much she can be charged for any cut of pork sold at retail. Regulation on pork prices are scheduled for release Friday morning.

Similar cents per pound retail prices will be announced within the next several weeks for beef, veal, lamb and mutton and their products. Watch your newspaper for the news of the new "dollar and cents" prices.

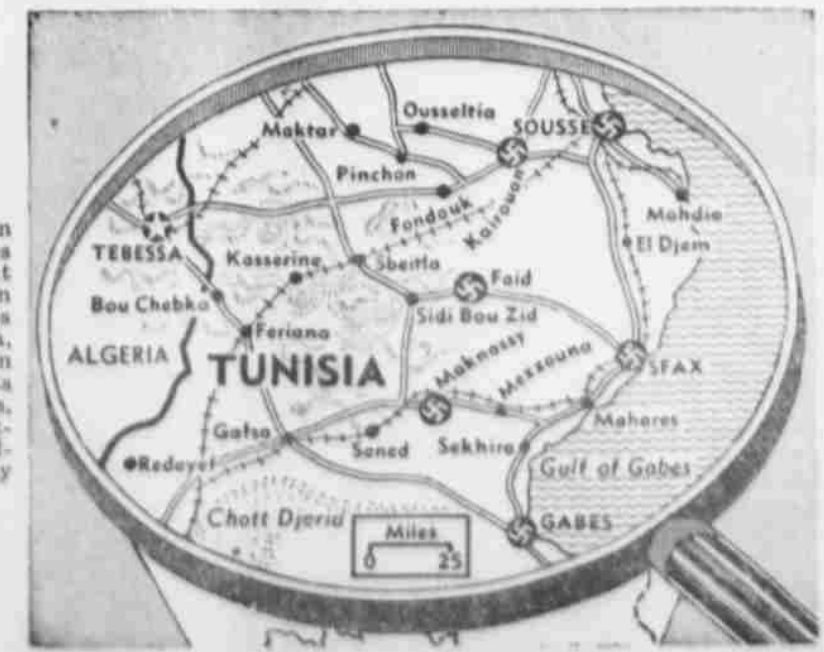

Are You Planning A Victory Garden?

Are you planning a Victory Garden? If so, helpful information concerning soil, seedbeds, fertilizers, cultivating, etc. can be secured by taking advantage of the offer presented to Dispatch readers this week in an advertisement by Greenfield Hardware Company.

A chart on what to plant in this soil and when to plant is also available. The chart was mailed to all farmers in the county by the county agent. Other residents who are interested in Victory Garden information may obtain desired information by watching for news releases from offices of the county agent, the Triple A, or the Soil Conservation or by contacting personnel in these branch offices of the A. & M. Extension Service.

NO MAN'S LAND IN TUNISIA

TELEPHOTO—Big German drive against American forces has turned the war spotlight on this mountainous area in central Tunisia. U. TEACHERS TO HEAR NOTED EDUCATOR

County Teachers Urged To Attend One Of The Eight District Meetings

Miss Mary Ruth Haggard, president of the Garza county unit of the West Texas Teachers Association received information recently concerning the annual spring convention of the association.

The WTTA is bringing its program directly to the teachers and people over the twenty-eight counties of this area this year. One of the outstanding school men of the nation, Dr. Willis A. Sutton, Superintendent of Schools of Atlanta, Georgia, will speak at eight different places over the West Texas district. Dr. Sutton is an inspirational speaker who can help teachers and patrons solve the war problems now confronting education. All teachers, trustees and friends of public schools should hear him. Miss Haggard said.

Dr. Sutton's itinerary will include: March 29, Big Spring, 3 p. m.; Odessa, 8 p. m.; March 30, Lamesa, 3 p. m., Brownfield 8 p. m.; March 31, Spur 3 p. m., Lubbock, 8 p. m.; and April 1, Littlefield 3 p. m., and Plainview 8 p. m. Each of these places was selected on the basis of location in the District, availability to other schools, and size of the school where meeting will be held.

Miss Haggard and Dean A. Robison, delegate from this district, will attend a House of Delegates meeting in Lubbock on March 20.

Women Offered A Chance To Serve In Women's Corps

Never in history have American women been offered such a chance to serve their country as they may now do as a member of the WAVES, SPARS or Marine Corps Women's Reserve. Frank Knox, secretary of the Navy, has pointed out. This is total war—a war in which every woman, as well as every man must play a part, Knox added.

The men in the Navy, Coast Guard and Marines are in for one reason alone—to fight! They're in to man the ships, fly the planes, smash Nazis and the Japs.

But to keep them fighting, there are important service jobs that must be carried on at home, man-size, full-time jobs which the women of America can fill—jobs which if filled by women will release the men to fight.

These three women's reserve groups are organizations whose jobs it is to replace sailors, coast guardsmen and Marines in office jobs. As members of each of these groups, these women will wear the same uniforms and win the same ratings, as well as earn the same pay as America's finest fighting men.

An extensive campaign is being conducted at the present time by the U. S. Navy recruiting service to enlist thousands of women so that men urgently needed at sea can be released from their office jobs. All women between the ages of 20 and 49, inclusive, are urged to investigate immediately the opportunities offered in the WAVES, SPARS and Marine Corps women's reserve.

An officer of one of these groups is scheduled to be in Post soon to conduct interviews for interested women. Apply room 206, post office building in Lubbock for further information.

Rev. Louis McMahan To Conduct Revival At Nazarene Church

Plans were announced this week for the spring revival at the Church of the Nazarene on March 19. The announcement was made this week by Rev. A. T. Moore, pastor.

Rev. Louis McMahan of Morton will be guest evangelist for the meeting which will continue through March 29. Rev. McMahan is well known here and will be welcomed back to his former home by his many friends and acquaintances. He is the son of Mr. and Mrs. Oliver McMahan. Singing and music will be under the direction of members of the local congregation.

February Bonds Total \$20,775; Quota Is \$17,600

Garza county folks bought \$20,775 in bonds during the month of February, according to a report made by Bond Chairman Marshall Mason. Quota for the month was \$17,600.

The March quota for the county has been set for \$17,600 and it is hoped that this county can maintain the record it is building up of over-subscribing. "Some months we have fallen far below our quota," the chairman asserted.

Records at the grade school show a steady increase in sales of bonds and stamps and this group is to be commended highly for their participation in this Victory Fund.

WAAC Officers To Be In Post On Monday, March 15

Women and young ladies who are interested in seeking information concerning the WAACs are advised that representatives from the Lubbock Recruiting center will be in Post next Monday, March 15, from 10:00 a. m. to 3:00 p. m., according to Mrs. E. J. Edwards, county recruiting chairman. Recruiting offices will be established in the Post Dispatch.

Lieutenant Gardner and Auxiliary Elizabeth Alford will represent the Lubbock Office and will be glad to interview any woman in the county who is interested in the Woman's Army Auxiliary Corps. Lieut. Gardner has been in Post several times and has made many friends by her charming and business like manner. Previous information about the trip can be obtained from Mrs. Edwards.

Lions Hear Talks On Army-Navy At Regular Meeting

Interesting discussions were heard Tuesday night at the regular meeting of the Lion's club. R. D. Travis and Don Cochrum gave talks on the Navy and Army. Cochrum presented some interesting facts on various branches of the army before introducing Gerald Bowen who this week went through the Army Induction Center at Lubbock. He gave first hand information on the various steps required for each induction. Travis discussed the Navy and his talk also proved very enlightening.

President Marvin H. Holman introduced one new member, Walter Crider, after which plans for the forthcoming June meeting to be held here were made. It was voted to engage a speaker for the meeting which will be held on Tuesday, March 23. The meeting will also be ladies night and plans will be completed during the week for the event.

GRAHAM SINGING CLASS TO BE HELD SUNDAY NIGHT, 8:15 P. M.

There will be singing and a re-organization of the Graham Singing Class Sunday night starting at 8:15 at the Graham Methodist church.

Officer Training Examination To Be Given At High School Tuesday, April 2

Superintendent L. V. Bearden and Principal S. I. Smith have been appointed by the Bureau of Naval Personnel of the United States to administer the qualifying test for the new Navy College Training program. The new program, known as the V-12 unit, will be given in Post High school from 9:00 until 11:00 a. m. on Friday, April 2. Bearden announced this week.

The purpose of the V-12 program is to produce Naval officers. High school seniors, high school graduates, and college students who appear to have potentialities for ultimate selection as officers will be chosen for college training. The plan contemplates that this college training will be carried on while the men are on active duty, in uniform, receiving pay, and under general military discipline.

The program will affect several thousand young men between the ages of 17 and 20 not now enrolled in any branch of the armed forces. The new program will be put in motion about July 1. It will absorb college students now enlisted in the Navy and Marine Corps Reserves and will absorb dental and medical students who hold probationary commissions. For general duties students will receive one and one-third years of studies at colleges and universities under contract to the Navy department divided into four terms of 17 weeks each.

There are three classes of eligibility: The high school senior who will have graduated by July 1, 1943, provided he is 17 years old and not yet 20 by July 1. The second class is the high or preparatory school graduate whose age falls between 17 and 20 on July 1, regardless of whether he is attending college. The third group will include students in an accredited college or university whose ages July 1 are between 17 and 20 years.

Other requirements besides the scholastic and physical attainment are that applicant must be a citizen of the United States and morally and physically qualified for the program. His minimum physical activity must not be less than 1800. Further information may be obtained through the school superintendent.

Thirteen boys have made application to stand the examinations to date.

City Commission Makes Report On Year's Work

At a recent meeting of the city commission, the question of new machinery for street maintenance was discussed. It was also decided to replace the old cow manure wagon with new equipment just as soon as it could be procured.

It was disclosed that the city had a very successful administration under the leadership of Walter W. Hyde as mayor, and J. A. Stallings and T. R. Greenfield commissioners, who are now rounding out their first terms in office.

It was revealed that not only had \$5,000.00 of the city's bonded indebtedness been retired, but that \$3,000.00 in city debt against the city had been wiped out.

At this meeting a city-wide clean up campaign was ordered by Mayor Hyde to take place in April. A proclamation relative thereto will appear in the Post Dispatch at an early date.

Outwear Garments Prices

Consumers will find women's and children's dresses, suits, coats, skirts and blouses, for sale at approximately the same price levels of last spring and summer for substantially the same quality of apparel, OPA has announced.

This is assured through issuance of the OPA pricing rules that retailers and wholesalers of these outwear garments will use. Ceiling prices for these garments must be plainly marked on the apparel or posted in that part of the retail store where the commodity is offered for sale.

Mrs. Tom Gates and daughter Ann of Clovis, New Mexico, arrived here for a few days visit with Mr. and Mrs. Bob Warren. They returned to their home Tuesday. Mrs. Warren who has been in Snyder with her father, J. W. Merrill, who has been seriously sick, will remain at home for the remainder of the week.

GREENFIELD HARDWARE COMPANY EXCLUSIVE FULLER BRUSH DEALER

Greenfield Hardware is now exclusive Garza county dealer for the Fuller Brush Company. Patrons who have through the years been customers of the nationally known and reputable firm are invited to contact Greenfield Hardware for their brush supplies. The new line of Fuller Brushes is now on display.

More Rubber For Recapping

Owners of tires smaller than 7.50x20 now may have their casings recapped with reclaimed rubber "camelback" without applying to their rationing boards for certificates. This does not relax the need for continued observance of rubber conservation measures. The change was made to reduce the demand for replacement tires by encouraging recapping, which takes less than half as much reclaimed rubber as a new war tire.

Bobbie Cash received a letter from Corporal Weldon Skinner who is somewhere in England. He gave an interesting account of some of the customs of the English people and described in detail some of the hunting customs there. Brief bits of news concerning his regular army life were also clearly described. Cpl. Skinner was principal of the Grade school before joining the army.

Mr. and Mrs. R. Hardin left Tuesday for an extended visit with their two sons in Huntington Park, California. Before they left they visited their daughter, Mrs. Julian Pirtle, and Mr. Pirtle in Tahola.

3 letters spelling ACID

Your engine's cylinders can't stop empty. They'll either load up with fresh raw gas when you shut 'er off, or get caught with stale burned gas they can't belch out.

In those useless leftovers are corrosive acids, trapped in the engine you can't replace—along with moist "sweat" as the interior cools. Any chemistry freshman knows these causes of biting corrosion, always present—long before wartime. But when your car was in frequent use, at speeds that thoroughly warmed the engine, it helped to offset the worst acid effects. How different today, when mileage, speed, and average engine heat are all down—giving acid its chance to run riot!

You can't open the engine and keep

sponging out any acids or other moisture, while your car stands little used nowadays. But without extra fuss or extravagance you can change to Conoco Nth motor oil and get your engine internally OIL-PLATED.

You're familiar with anti-corrosive plating...like chromium-plating. Just as closely, this protective OIL-PLATING will be kept surfaced to delicate parts by advanced synthetic means—as described in the celebrated patent on Conoco Nth. Though your gasoline-rationed car makes few runs, you can combat corrosion between times. For you can keep your engine OIL-PLATED by changing to Conoco Nth this Spring at Your Mileage Merchant's Conoco station. Continental Oil Company

There are not nearly so many complaints about the weather as there would be if the government regulated it. —Exchange

The Terry County Herald—Some one noted last week that we just about had all the front page devoted to the boys in service, the Red Cross and Texas Defense Guard. After all, there could not be much of a better subject to write about.

Liberty Vindicator— We are twice blessed in this county of large size and comparatively small population. We have the advantage of more wholesome living than our city-dwelling cousins. And we have the advantage of living closer to the soil than those in the population centers.

Both these advantages will be impressed on us as the war moves farther and farther along. In fact, our blessings are being revealed daily, as the rationing program becomes as stiff as a dead cat. We have not suffered any of the real shortages of our neighbors in the Beaumont and Houston areas. Nor have we been quite so adapted in the past to the can opener and the carton sifter.

A small percentage of Liberty County's population is endeavoring to beat the rationing program—and that is another advantage of living among the kind of folk that inhabit low-population areas. Now that point rationing is becoming a reality, we can serve our country and ourselves by adapting ourselves quickly to the new existing program—by raising gardens of our own and by buying products of Liberty County and from our neighbors who produce them to earn a livelihood.

The Ralls Banner— Gone are the days when we stood back with lifted brows when gardening time came around. Especially about English peas. You know, buy a twenty-cent package of the seed, plant them with extreme care and tend them the same way. Pour plenty thousand gallons of store bought water on them, and in June harvest a dime's worth of fancy peas. But now we are going to garden in earnest. After hearing the town meeting discussion Monday night on gardening for Victory, we know there will be a great deal of food for eating raised. Assurance was given that the farmers would produce all the acreage crops needed, but in a country town like this every householder can raise many of the

lating pioneers and trail blazers." The Committee on Interstate and Foreign Commerce began its study of aviation in 1923. This resulted in the Air Commerce Act of 1926. From that time until the passage of the Civil Aeronautics Act in 1938, the Committee was progressively pushing economic research and regulation of the aviation industry. Since then its handling of aviation problems, and the coordination of our transport resources with our armed services, has been phenomenal. The present attempt to promote a new committee to tamper with aviation is just another example of political tinkering such as is creating waste and confusion in many lines of industry, and thereby hampering rather than aiding the war effort.

rationed foods. And that is about the only way to get most foods now. You got to raise it at home.

Scurry County Times— We know, Mr. Business Man and Mr. Citizen, that you're mighty busy these days, short handed and probably just a little out of sorts at the acute shortages of many things you need, but don't you think a kindly word, and a pat on the back will do more to help your neighbors and friends keep even tempers than almost anything else? War-time irritations and lack of words, at times, from our boys overseas is downright maddening, but worrying and fretting always prove boomerangs at unexpected moments.

Why not see if a moment given over to kindly words and sincere encouragements doesn't pay you big dividends?

SAVING OUR SHIRT

For many years, "soak the rich" was the slogan for raising tax money. It was very misleading, but a vote-getter. Taxes were something for the guy who had three shirts, instead of one or two, to worry about.

So the three-shirt man was finally squeezed dry. Then the two-shirt man was put through the wringer.

Last year the tax collector, for the first time, was forced to turn to the one-shirt man. Tax waste of per-centime had come home to meet its wastime.

Senator Bennett Champ Clark of Missouri, says that we face a "crisis in Federal taxation" and advocates prompt passage of a pay-as-you-go tax law. Millions of "first time" taxpayers find themselves faced with paying taxes on 1942 income, without cash saved for that purpose. On top of that, taxes on 1943 income are already accumulating.

So far, the only definite solution that has been proposed is the so-called Ruml plan. Briefly stated, it would provide taxes on 1942 personal incomes be disregarded and that the payments which we will have to make at the new and higher rates during 1943 be considered as taxes on 1943 income rather than 1942 income.

"No one would escape the payment of taxes," says Senator Clark. "The only difference would be that we would each be paying in 1943 on 1943 income, instead of paying in 1943 on 1942 income and waiting for 1944 to pay for the old dead horse of 1943."

"Theoretically, the government would lose a year's taxes scattered over a period of 40 or 50 years as the present generation of taxpayers cease to be taxpayers. This would, in the opinion of the most responsible authorities on accountancy be far more than offset by the greater promptness and certainty of collection."

"I urge every man and woman who is interested in this vital problem to write his Congressman and Senators expressing his view, whatever it may be."

By a Ruml plan the nation may save its remaining shirt and prevent chaos in government financial affairs which would result from inability of millions of citizens to pay income taxes on income long since spent.

A small town is a place where you can take a correct census at any fire.

Navy Seeks Women Reservists

The Navy Department is seeking approximately 5,000 women with experience in a variety of medical and dental fields for service with the Hospital Corps. Procurement and recruiting offices have been asked to enlist 600 women a month for the next eight months in order to provide replacement for many of the male Hospital Corps personnel stationed at Navy Medical activities on shore.

TRANSFUSION—Thousands of American soldiers wounded in battle on the world's fighting fronts today are alive because they received transfusions of Red Cross blood plasma. Made possible through the donations of thousands of patriotic men and women, the Red Cross blood plasma project ranks as the world's largest medical undertaking.

Scrap Collection Top Quota

Scrap collections of iron and steel during the last six months of 1942 were 95.7 percent of the national quota of 17,000,000 tons. Total visible stocks of iron and steel scrap were 7,760,000 net tons of stocks which was the objective set last summer.

ON THE HOME FRONT

By Office For Emergency Management

As the rationing of processed fruits and vegetables begins to hit full stride and plans for control of the meat supply takes form, the average housewife now has a fairly good picture of the food outlook as it affects her household and what she will do about it.

She already has made the pleasant discovery that the OPA rationing order, covering chiefly canned fruits and vegetables, leaves a long appetizing list of staple foods in the non-rationed class and that these items alone are of a sufficiently varied nature to provide a healthful, nourishing diet.

This means that under present regulations food purchases which require stamps from Ration Book Two can be held to a minimum without allowing the family diet to suffer. It means also that housewives will pay closer attention to the foods for which no ration stamps are required.

Whatever changes occur in our dietary habits, they cannot be compared with British food experience since the beginning of the war. Britons have had to fall back on a diet that is nourishing but monotonous, supported chiefly by home-raised fresh vegetables. Their war gardens—both private and community ones—and the Volunteer Women's Land Army are as vital to the United Kingdom as its military defenses. In fact, they are classed as a vital part of the total defense of the British Isles.

In this agricultural region, most of the farm folk and some city dwellers have had gardening experience, but thousands of our people will plant their first row of beans this spring. They will want to read all they can on gardening and get hints from their

which each and all of said defendants have in and to the above described premises.

"The New Canada" Latest March of Time Coming Here Soon

The first film to put the question of post-war relations between the United States and Canada has just been completed by The March of Time. Titled "The New Canada," it shows how almost overnight this vast agricultural country has been industrialized to meet the demands of her lend-lease commitments to Britain. The film will be shown here at the Garza Theatre, Wednesday and Thursday, March 17-18.

New pictures, new facts, and new light on what the changes in Canada will mean to the U. S. Make this a picture no one interested in these two countries will want to miss.

more experienced neighbors.

If the victory gardener expects to get bountiful crops containing health-protecting vitamins and minerals, he'll have to be sure that the soil in his plot gets plenty of sunshine. Gardening in distant spots which involve use of the family car should be avoided, for saving rubber is just as important as growing food. Rationing of rubber and gasoline has cut the national average of 5400 miles annually for passenger cars, but a further reduction may be necessary. In the areas where rationing began last December 1, a 36 per cent decline in rural traffic contrasts with 47 per cent in December.

Mrs. Frank Nease Is Hostess To Club Last Wednesday

Texas was the theme of the Culture club program last week in observance of Texas Independence Day. Mrs. Frank Nease was hostess to the group in her home which was appropriately decorated with the six flags of Texas. A brief business session was presided over by Mrs. Jones. A roll call "Are You From Texas?" answered by members giving their birth places proved very interesting. "Did You Know This About Texas?" was a compilation of the facts about our state presented by Mrs. Power. A great state not only in size but in accomplishment. Texas abounds in colorful history. Mrs. Pover's talk was enlivened by some of her own experiences and by stories told her as a child by the early settlers in this country. Club members rendered their own arrangement of the state song, "Texas, Our Texas." Other numbers prepared for the program were "Poems—about Texas and by Texas authors" by Mrs. L. W. Kitchen and "Texas Personalities" a who's who in Texas with emphasis on our war leaders and political figures, collected from the War Scrapbook of Mrs. John Cearley. Mrs. Nease passed refreshments of cookies and hot spiced tea. Plate favors were miniature cut-outs of Texas tied in the patriotic red, white and blue. The club will meet again March 17 with Mrs. J. E. Parker as leader for the Time Magazine program. Mmes. Lee Davis and J. N. Power are the hostesses.

Graham Club In All-Day Meeting Last Thursday

The Graham Homemakers club met on Thursday, March 4 with Mrs. Berniece Propst in an all-day meeting. The meeting was transferred to the Propst home, from the home of Mrs. Hoover on account of illness. Mrs. Hoover's club quilt was out up and almost quilted out during the day. A delicious dinner was served to eight members and one visitor. In the afternoon three members and one visitor came. Music by Mesdames Dorothy and Mary Cowdrey and singing by the group was enjoyed in the afternoon. The next meeting will be with Iris McMahon on Thursday afternoon, March 18. The following members and visitors were present: Myrtle Hoover, Naomi and Mae Norman, Nettie Seay, Iris McMahon, Minnie Wright, Viva Davis, Dorothy and Mary Cowdrey, Mrs. R. P. Cowdrey, Lola Peel and the hostess. —Reporter

LATEST IN WAR PLANT UNIFORMS

Safety and style are combined in these two uniforms recommended for war workers by the Linen Supply Association of America. The gauge inspector on the right wears a one-piece light blue twill with a ski-trouser device to prevent catching her clothing in machinery, while the pleated pants and tailored shoulders and waist give a trim appearance to the garment. The mulling machine operator on the left is wearing a dark blue twill, identical with the other except that the pants are not pleated. Both garments are made to withstand hard wear.

W. V. Roy Home Scene Of Luncheon Club Party Sat.

Mrs. W. V. Roy of Justiceburg was hostess to the Novelty Luncheon club on Saturday. A beautifully arranged party with luncheon settings of colorful pansies as the floral motif was planned by the hostess. In the business meeting held following the luncheon and games of bridge, it was voted to contribute \$40.00 to the Red Cross. Other matters of business were completed. Mrs. T. L. Jones was elected new president of the club to succeed Mrs. Giles Cornell and Mrs. Willard Kirkpatrick was elected vice-president. Twelve members attended.

L. G. Thuett, Jr. Home Scene Of Party Friday Night

Mr. and Mrs. L. G. Thuett, Jr. were charming host and hostess last Friday evening to a number of their friends. Games of forty-two and "Quiz Me" formed the diversion for the evening. PRISONERS RECEIVE PACKAGES AND MAIL FROM RED CROSS

First confirmation that American Red Cross relief goods and mail from home actually have been received by American prisoners of war in the prison camp at Zentsubashi, Japan, has come from the International Red Cross Committee delegate in Tokyo. Two hundred and thirty-four American, of whom 54 are officers, are in the camp. All were reported in good health.

Contributions to the Red Cross during the War Fund drive now in progress in this county will be used by the organization to provide supplies for prisoners of the U. S. army. Volunteer workers urge every person to contribute something to the Red Cross.

Uncle Sam has imposed no priorities on laughter, as you are slated to discover when Warner Bros.' "George Washington Slept Here" makes its debut at the Garza at the Saturday night preview and runs through Sunday and Monday. As a play it kept New Yorkers laughing, and advance reports indicate that the motion picture, boasting one of the finest casts of this season's crop of laugh hits, will carry on that reputation.

In the leading roles are Jack Benny and Ann Sheridan. Benny is cast as the average American big city dweller, reared in comfortable apartment houses, whose wife, an avid antique hunter, carries matters too far when she buys a house where George Washington was supposed to have slept.

Against Benny's protests they move in to find the house in a state of dilapidation so advanced that it leads Benny to wonder what's holding it up.

Fun is provided when they are informed by the lugubrious caretaker, played by Percy Kilbride, that the well is dry, and it will be necessary to dig a new well.

In the midst of it all, the proverbial rich uncle (Charles Coburn's role) arrives, and must be made comfortable and happy at all costs.

The house proves to be a certifiable gargantuan for it swallows repairs without showing signs of improvement, and the situation becomes more involved when the money for the mortgage must be raised—or else.

When matters close in on the couple and there's no quarter in sight, Rommie the dog, saves the situation in a laughter-provoking climax.

Keith Kemp Home Sold To Rancher

The home of Mr. and Mrs. Keith Kemp was purchased this week by Mr. and Mrs. B. F. Franklin of Colorado City. The Franklins bought ranch land from the Porter ranch recently. The new family moved into the house this week. Mr. and Mrs. Kemp moved to a farm near the Close City community.

Mrs. James Minor who left Saturday night to join her husband in Virginia was called back to Post before taking the plane in Fort Worth Sunday. A message from her husband, First Lieutenant James Minor, advised her not to make the trip as he was being moved. She had received a message several days before asking her to come to Virginia.

FIRST WAAC UNIT IN NORTH AFRICA

WASHINGTON, D. C.—U. S. Army Photo—The first detachment of the Woman's Army Auxiliary Corps is now in North Africa and is attached to the headquarters staff of Lt. General Dwight D. Eisenhower, commander of Allied Forces there. This pioneer women's American expeditionary force is composed of picked stenographers, clerks, typists, bi-lingual telephone operators and girls capable of driving staff cars and light trucks. This photo shows First Leader Elaine M. Olmstead, (right), of Phoenix, Ariz. checking the WAACs through the pier shed.

Interesting Facts Of Importance On Food Revealed

A soldier drinks 403 quarts of milk in one year. This statement and others as interesting are re-reported by the Soil Conservation office in Post. He eats 253 pounds of potatoes, 24 pounds of dry beans and nuts, 142 pounds of tomatoes and citrus fruits, 142 pounds of leafy and green vegetables and fruits, 525 eggs, 287 pounds of meats, poultry and fish, 215 pounds of flours and cereals, 133 pounds of fats, oils (bacon and salt pork), 114 pounds of sugar, syrups and preserves.

With these figures before them farmers today are growing more conscious of the tremendous job of growing foods. The Victory garden will be of more importance this year than ever before not only for supplying the armed forces but for helping to supply the demand for civilian use and for use on the farm.

Wallace Kimbrough, educational member of the Garza County USDA War Board, James Boyd of the AAA office and Jack Martin of the Soil Conservation office have worked out a Victory garden chart suitable for Garza county soil. Those who plan a garden are advised to contact members of the three A & M Extension offices here for further information. Bulletins on gardening are available in the County Agent's office. Charts were mailed to every farmer in the county recently by the offices here giving the vegetable, the variety, the planting date and other important information.

Mrs. Arno Dalby who has been in San Antonio for several weeks returned to Post recently. She is making her home with her parents.

Methodist Parsonage Sold To San Angelo Man

The Methodist parsonage was sold this week to Ralph Welch of San Angelo who is moving his family to Post within the very near future. Welch has ranch and farming interests in this county. Plans are under way for the Methodist church to purchase the home of the late Mrs. J. W. Cowan for a parsonage.

A NEW WAR SHORTAGE IS FELT AT LAFS

From Lubbock Army Flying School where numerous boys from this county are in training comes the following news story told by one of the trainees:

A man served as "bridesmaid" at a wedding at the school last week. And therein lies the story of another war "shortage."

The wedding was ready to take place when it was learned that the bridesmaid would not be present due to late train schedules. Something had to be done—and in a hurry.

The solution was found when an officer at the field, a friend of the groom's, was called in as "bridesmaid." He kept the traditional bouquet. He is single.

INSURANCE

IS ALL THAT WAS LEFT

Insurance was the only thing left for the members of the family that survived the fire! Their home—everything lost to them.

Insurance could at least give some compensation with which to carry on. It's foolhardy to put off being protected with the right insurance—because fires give no warning.

RAISE More Food— and Save It All!

Uncle Sam Wants GARDENS!

• Uncle Sam insists that we all have Victory gardens this year —big ones and small ones, in town and country.

Plan your garden now, or join in the plans of your neighbors. Grow your own vegetables because the chances are you won't be able to buy them at the corner grocery. Gardens mean fresh food all summer and a food reserve stored away for winter. Gardens mean Health

—lowered food costs—and practical PATRIOTISM!

Ask us about International Harvester's 84-page booklet, "Have a Victory Garden." It's a dandy—packed with helpful information on soil, seedbeds, fertilizers, hotbeds, cold frames, planting, cultivating, weed control, insect and disease control, harvesting, winter storage, etc.

Let's all garden for Victory and save all we raise.
