### NEED OF TRAFFIC REGULATION IS APPARENT

Almost any hour a heavy truck breaks through the traffic signal at the Market Street and Highway 80 intersection.. And they say there is no such thing as luck. Anyway, no lives have been lost at this point that we know about. Let's keep our fingers crossed, lest a tragedy does occur and one or more of our loved ones is caught in the trap.

A car is parked in the center of the street, and the driver failed to pull up the emergency brake. The car stood for a time and then began to roll. As it reached the side of the street, there was a crash and two cars had crumpled fenders. There could have been a broken limb of some bystander, but that so-called luck was with us again.

An out-of-state car was cruising up Market Street, and Mrs. Hornsby's dad, Mr. Marthe driver decided to make a U turn in the middle of the shall street, and got by with it. Lucky there wasn't another car speeding down the thoroughfare, or there might have been a sad story to read on the front page of The Star.

All this carelessness begins with the fact that there is no enforcement of traffic rules in our city. Wouldn't it be wise for us to stop now and employ a traffic officer? It might be better to take a few precautions now than to be sorry later after Christmas. when our luck runs out.

### IMPORTANT DATES ON POLITICAL CALENDAR

The first outstanding date on the 1950 political calendar is January 31st, which is the last day to pay poll taxes and secure exemption certificates when required. If Callahan! county citizens expect to vote in the elections this year, they must pay their poll tax before this deadline. Bob Joy, tax assessor-collector, states that poll tax payments thus far have been fewer than ever before. This is probably due to the new law which allows property taxes to be paid with-out the payment of the poll taxes. Many folks are evidently of the opinion that they paid their poll taxes when they paid their property taxes, but such was not done. It might save some embarassment if you will check again to see if you actually have a poll tax receipt for 1950.

The last date of District candidates to have their names placed on the ticket is May 15th. County and Precinct of-fice seekers will have until June 17th to have their names placed on the election ticket.

July 2nd is the first day for absentee voting. Absentee voters shall apply to County Clerk to vote not more than 20 nor less than 3 days prior to first primary.

July 17 - If a voter moves his residence to a new voting precinct within a city of 10,000, or more, he must apply to tax collector, not less than 4 days before election, to quali-

July 22 is the date of the first Democratic primary elec-

On July 29th or prior thereto, as returns are received from each election precinct, the Chairman of the County Executive Committee shall convene the County Executive Committee the succeeding day, declare the results of the election, and certify candidates to County Clerk, and the County Clerk shall publish the same in a newspaper published in County.

July 29th the County Convention elects delegates to State Convention.

september 12th is the date for the State Convention. November 7th is the date of the General Election.

### ARE WE BEGINNING A NEW DECADE?

Just because we said goodbye to the fast forties when the old year 1949 passed away, it's no sign we are now entering a new decade. During the last few days we have heard long-winded speeches over the radio about our beginning a new decade. Maybe we can't count, but we figure that we have another year to go before we complete the decade. Another decade will not begin until January 1951.

### WINTER HAS ARRIVED AT LAST

We've been wondering if the wonderful fall weather would last through the entire winter, but at last, cold weather is upon us. The first real cold spell of the season nere Tuesday afternoon, bringing mercury down below the freezing point. We wanted cold weather, but now most of us have decided we are ready for an early spring.

The heavy ice storms, snow and wintry weather of last winter is credited with having brought on the fine crops that this section harvested. With more of that, the coming year might also bring forth a productive season.

# What Can The People Believe?

When the anti-trust lawyers in Washington filed their suit to put the A&P out of business, they immediately handed out for all the newspapers of the United States a story giving in detail their "allegations" against

When we published advertisements giving our side of the case, they protested, even though they had made, and have continued to make, in newspapers, in speeches and over the radio these charges that would seriously damage our business, if they were believed by the public.

Every week millions of American housewives patronize A&P stores. Many of them would not want to deal with the kind of people that the anti-trust lawyers represent us to be.

We think we have a right to protect this 90-year old business which has made it possible for millions of American families to get more and better food for their money, which is providing high-wage employment for 110,000 Americans and which is helping millions of farmers to improve the methods of distributing

would be necessary if the anti-trust lawyers were always right.

But they, like all other human beings, can be wrong

In this case we know they are wrong.

They have been wrong before.

In case after case they made charges against A&P which were proved in court to be utterly without foun-

We will prove that statement right up to the hilt.

The anti-trust lawyers tell the public that they won a previous anti-trust suit against us at Danville, Illinois.

What they do not tell you is that they brought case after case against the A&P in federal courts all over the United States. Before they won this case they suffered three defeats.

The anti-trust lawyers have told everybody about the time that the courts said they were right. We think you are entitled to know about the three times the courts said they were wrong.

Now we are going to tell you about the first one. In future advertisements we will tell you about all of them.

## The Washington Bread Case

In April, 1941, the anti-trust lawyers brought a criminal suit in Washington, D. C.

They charged that the A&P, two grocery chain competitors, two labor unions and other good American citizens had conspired to fix the price

Can anyone imagine any charge calculated to be more damaging to a retail grocery business? They asked millions of people to believe that we were the kind of grocers who would take bread out of the mouths of poor people and make it harder for a wife and mother to feed her family.

These charges were false. In that case it developed that the A&P and the two competitors who were charged with conspiring with us to maintain high bread prices actually sold bread cheaper than most of the other stores in Washington.

The anti-trust lawyers presented and argued their case. When they were through, Federal District Judge Allen T. Goldsborough ruled that A&P and the other defendants did not even have to put in a defense. He ordered the jury to bring in a verdict of "not guilty."

### Judge Goldsborough said to the anti-trust lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all.

"Honestly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth. I have never seen one like it." So here was a case in which the anti-trust lawyers made seriously damaging charges against the A&P, in support of which, in the words of the court, they did not have "any evidence at all."

This was not the only time the anti-trust lawyers made charges against the A&P which the courts said were not true. In future ads we are going to tell you about these other suits. We are not going to duck, either. We are going to tell you about the criminal suit that the anti-trust lawyers won at Danville, Illinois.

The anti-trust lawyers say that they are not attacking "bigness" or efficiency. They have to say that because the courts have decided that "bigness" and efficiency and selling at low prices is not a crime.

But the fact is crystal clear that they only brought their bread suit against the big companies and against companies that sold good bread at the lowest prices; just as in this current suit they are attacking a big company that sells good food cheap.

We are going to show the American people that the suit to destroy A&P is really a suit against efficiency and against real competition.

The real question involved in this suit is whether businessmen are going to be encouraged to do a better and more efficient job; or whether we are going to let the anti-trust lawyers in Washington blow the whistle on anybody who gets big by giving the people more for their money.

No one can make us believe that it is a crime to try to sell the best quality food at the lowest possible price.

Seasonal health azards for young children are ed in the winter o be guardjust as carefully as they in the summertime in the nion of Dr. W. State Health George Officer.

"Every mother is familiar with so-called summer complaints which affect small children but certain winter diseases and be just as harmful and are just as likely to make their appearance unless proper precautions are used." Dr. Cox said.

In the group of winter dis-eases Dr. Cox included influenza, tonsillitis, pneumonia, bronchitis, asthma, and even diptheria when a child has not been immunized. Any such disease affecting a child's respiratory or breathing system is apt to be very serious and only too often fatal. Pneumonia often develops from a neglected cold or may follow a severe case of measles or whooping cough. Bronchitis condition may also prove to be an after effect of these diseases and these respiratory ailments are much more difficult to combat successfully than the digestive ailments which are prevalent in the summertime and

These winter diseases are especially dangetons to babies and very young children, Dr. Cox stated. "Nearly all of them are spread from the secretions of urally more susceptible to these complaints and the first line

## No drafts... no chilly corners... no frigid floors with Flue-Vented gas heating equipment

OMMON colds strike with such viciousness that 3 out of 5 people will have three or more "colds" this winter. All together over 200 million

Many of these colds, particularly childrens', may be avoided by keeping the entire home at uniform temperature with automatic flue-vented gas heating equipment. Sudden changes in temperature, as when children dash from a warm room to a cold room, are eliminated. Chilling drafts are swept away, too.

Only flue-vented gas heating equipment is available with automatic controls. It keeps your home at the ideal temperature without attention. No overheating or underheating, as is commonly experienced with open flame heating equipment.

You never know when a serious, expensive illness may strike-following a cold that might have been avoided. Act now. Investigate the various types of flue-vented gas heating equipment for the health protection of you and your family, today.

Gas Floor Furnaces, Closet-Type Central Furnaces, Gas-Steam Radiators, Vented Circulators and other types of modern Flue-Vented gas heating appliances work three ways to help prevent colds:

have no exposed flame. The air in doors is noticeably fresher because products of combustion are carried off through the vent to the out of doors. Flue-venting eliminates wall

tive air circulation. They don't just throw out" heat. Results: No frigid floors. No chilly corners. No cold feet when Flue-Vented gas heating equipment is installed throughout.

matic thermostatic controls. This protects you against common colds and more serious sickness by preventing sudden temperature changes, drafts, chills and overheating.

### County Agent's Column Oliver F. Werst

SUMMARY OF COUNTY AGENT'S WORK IN 1949

1949 was a good year for agri-culture in Callahan County. The farmers and ranchers stayed busy most of the year and they kept the county agent busy also. The agent worked 294 days durthese in the field and only 72 in the office. 150 days were spent helping 4-H club boys and 144 days were spent in aiding adult farmers and ranchers.

During the year the agent helped in reviving the Callahan County Fair and time has already been set to have it again Sept. 28, 1950. The agent worked with 148 4-H club boys during the years. These boys had 190

took place. There was no in-sect damage to the cotton.

Demonstrations were given on Complete abstracts to all lands pruning fruit and berry plants and information was given out all year on control of insects in erchards. H. A. Calloway was aided in determining the mixture to use in spraying pecan trees in and around Clyde. Ed Cornelius and a lot of other people were aided in the fight on the peach tree borer. Many people were aided in control measurer for aphids, grasshoppers, cutworms, various fruit worms, borers, and a lot of other insects caused by the wet spring

> The Baird Veterans agriculture classes was aided in purchasing a large supply of DDT and methoxychlor to be used in fly and other insect control

> Due to the extreme dry fall and winter in 1948, there was much interest in feeding and supplemental feeding in winter months of January and February, 1949. Lea Macdonald was aided in getting information on comparative feeding value of cottonseed products and alfalfa and on values of various native grasses as winter feeds. Vitamin and protein content of native grasses interested many ranchers during the winter. C. B. Snyder was aided in comparing the value of cotton seed meals of different protein and fat content and finding the difference

in their feeding values. A few of the people who were aided with hog production problems during the year were

# THE BIG VALUE IS DODGE!

You could pay a thousand dollars more and still not get all the new beauty . . . extra room ... famous ruggedness of this great new Dodge

HERE'S BIGGER VALUE in smart new styling . . . in ease of handling . . . in comfort . . . in sound engineering. And in actual dollars and cents, too, because the big new Dodge costs just a few dollars more than the lowest-priced cars.

Despite its smart, low, graceful lines OUTSIDE, Dodge is higher, wider, longer on the INSIDE to give you the roominess that spells solid comfort . . . that means extra room for your head, your legs. Less overhang front and rear makes parking and garaging simpler, easier.

See this great new Dodge. Sample the flashing performance of the powerful high-compression "Get-away" Engine . . . the smoothness of Dodge Fluid Drive. Come in today.

Just a few dollars more than the lowest-priced cars!

NEW VALUE! You'll thrill to the smooth ness of Dodge Fluid Drive. Gyro-Matic, to free you from shifting, optional on Coronet models at moderate extra cost.
