

Antelopes Show Speed, Quickness

By WES BURNETT

It's been a case of too fast, too quick all season long as the Post Antelopes remain undefeated and came home from Childress with a 27-6 win in the first district contest for both teams.

Following a pattern in each of the preceding five games, the Antelopes stumbled along during the first quarter, unable to mount a scoring drive, but holding off a determined Childress offense.

With 8:32 remaining in the first half, the 'Lopes got (Continued On Page 8)

United Fund Drive Opens

The Garza County United Fund campaign for 1982 will begin October 25 and continue to Thanksgiving, with a special effort to broaden the community support offered this year.

"No amount of contribution is too small," United Fund chairman Jack Alexander comments, "and we want to give everyone an opportunity to participate."

Organizations which benefit from the fund drive are to present their individual requests for funding at a special budget hearing at 4 p.m., Oct. 21 in the First National Bank Community Room.

A contributor form is provided in the Dispatch for the convenience of those who wish to donate this year.

Saturday is the Day for Donors

Final plans for the community-wide blood drive, to be held Saturday from 9 a.m. to 5 p.m. at the Community Center, are being coordinated by the Post Ministerial Alliance.

Members of the Alliance churches have scheduled times during the day when donors are to give their life-giving gift.

Approximately 15-20 donors per hour are expected during the day, with more than 100 people anticipated to take part in the drive.

Conducted by United Blood Services of Lubbock, the non-profit activity is designed to allow Post residents an opportunity to demonstrate their concern for people in this area.

"We have no idea who will use our blood, or when or where," drive chairman Rev. Tom Pass comments.

People who want to contribute a pint of blood this Saturday should contact one of the following:

Slaton Tigers to Test 'Lopes

By WES BURNETT

Well, it's only a game...so let's not get too emotional about Friday night's big district rivalry with Slaton...although if history is any indication, it would be advisable to get to the stadium early.

I have reports that one year there wasn't enough room in the home stands for Post folks...

Back to the real issue...can the Antelopes keep up the precision winning against what is surely to be an extremely emotional game?

My guess is that they will and the folks from Slaton will be going home mumbling the same song that other Antelope opponents have sounded this year.

"They're just too fast and too quick."

GOLD STAR GIRL AND BOY — Jana Middleton, daughter of Mr. and Mrs. Tommy Middleton, and Tommy Payton, son of Mr. and Mrs. J. W. Payton, were presented the County's top 4-H awards as Gold Star Girl and Boy, Saturday night at the annual 4-H Achievement banquet held in the community center.

FRIENDS OF 4-H — These three Post business men were presented with Friends of 4-H Awards, for their devoted contributions to the 4-H program in the County.

Child Welfare Board Looks for 'Parents'

The Garza County Child Welfare Board, in cooperation with the Texas Department of Human Resources, is involved in a continuing campaign to identify victims of child abuse, and locate qualified adults who are willing to serve as foster parents.

Foster parents are provided extensive training and generally accept children in their homes who come from outside this area.

Carol Dean, a member of the Garza County Child Welfare Board, is coordinating the search for foster parents here, and she may be reached at 495-3955.

The identification of child abuse victims starts with some understandings of what to look for.

Some children can not or will not cry for help when they need it, even when their lives may be in danger.

They are among the thousands of victims of child abuse and neglect whose suffering may go unchecked for years, often permanently impairing their health and development, and sometimes costing them their lives.

Such children may be too young, too terrified, or simply too confused to be able to tell anyone about it.

But even without being told, people may still be able to spot the symptoms of abuse and neglect by knowing what to look for in a child's appearance and behavior and in the parent's or caretaker's behavior.

It is essential that any suspected case of child abuse or neglect be reported...that number in Garza County is 495-2881.

The state law in Texas requires the reporting of suspected cases of child mistreatment and the failure to do so is in violation of the law.

People who report suspected cases of child abuse are protected by the law and the report is handled in a strictly confidential manner.

In future articles, specific signs of child abuse will be outlined.

MONTFORD VISITS HERE

State senate nominee John Montford will be in Post at the First National Bank community room for a rally Saturday, Oct. 16 from 3 until 3:30.

And I'll add, they're well coached and as a team are efficient and uniform as any high school football team I've seen.

It's not just the speed and quickness of our running backs...although we've got plenty of that...but it's the overall team speed and well-executed blocking that makes this year's Antelope team one of the best in the state.

When offensive lineman move as fast as running backs, the downfield blocking is bound to be effective.

Now, let's look at Slaton...certainly a better team than their 3-3 record indicates.

They are well coached also and no matter what has happened this season, they'll be ready to give Post a tough time Friday night.

Operating from a Slot I offense, the big threat is 156 pound junior Gerald Lacy, with 161 pound junior quarterback David Henzler at the helm and throwing to 140 pound senior Timmy Slay.

They have a big offensive line, with 178 pound Alex Hernandez, 240 pound Jeff Ferguson and 185 pound Craig Limmer providing the holes.

The Tigers use a 5-2 defensive alignment with Limmer at the end, Ferguson at tackle, with 6' 4" 217 pound Jerry Thomas at nose guard.

Arthur Arguello, 179 pound junior linebacker and Slay in the secondary rounds out the Tiger defense.

My prediction? Slaton will be coming to Antelope stadium with sweaty palms and nervous tension.

The Way I See It...

By WES BURNETT

Recently the U.S. Congress failed to pass the legislation which would have begun the process of amending the constitution to force a balanced federal budget.

The Way I See It, that's not so bad, the way the proposed amendment was worded would have created more problems than it would have solved.

I'm in favor generally of the idea of forcing a balanced budget, but I think we have to be extremely careful when we tamper with the constitution.

The constitutional amendment I'd like to see congress work on is even more revolutionary...I'd like to see a constitutional amendment to do away with congress meeting around the clock.

I'm reminded of the comment former Texas Governor Dolph Briscoe made in West Texas a few years ago...the U.S. Congress could take a lesson from Texas," Governor Briscoe told the audience, "where our legislature only meets once every two years...then for a limited time period...if congress would follow that lead, we've have a whole lot less spending and a lot less government."

We have a fairly efficient state government, which generally responds to the wishes of Texans...who have historically been in favor of as little government as possible.

I guess you'd call us Jeffersonians in the historical sense...you remember Thomas Jefferson...he was one of the early creators of this federal government structure and he believed the central government ought to be answerable to the people and have very limited powers.

Jefferson argued that the federal government should be concerned with the safety and defense of the nation as a whole...and as far as other matters, the people in their localities should decide what is best for them.

His ideas lost favor through the years, and only in a few isolated places, such as Texas and Alaska, do these

Jeffersonians live on today. Jeffersonians really lost all hope following the civil war, where bloodshed and grief ended all discussion about states' rights and placed the burden of legislation for the entire nation at the federal level.

And ever since then, more and more each generation, the American people have come to look to Washington D.C. and the congress to answer and find solutions to every conceivable problem.

In some places in this country the local government bodies have forgotten how to make decisions without checking with a higher legislative agency.

Oh well, The Way I See It, the idea of trimming the fat in federal government is probably just a dream anyway...

Montford on Agriculture

Some politicians are always looking for a race. They will say or do anything to get elected. They would rather "bad mouth" their opponents, than talk about the issues.

Sometimes what they do not say reflects more on their sincerity and ability than what they do say when they are criticizing their opponent.

Take the Texas State Senate Race for instance—Here's what the Texas Senate Candidates for District 28 have to say about Agriculture:

JIM REESE
Stock Broker, Actor, TV Performer

*NOTHING

*NOTHING

*NOTHING

JOHN T. MONTFORD
District Attorney, Lubbock

Campaign Platform on Agriculture
"All of us are extremely affected by the health of the agricultural business community. West Texas depends to a large degree on an agricultural based economy. The farm dollar multiplies roughly eleven (11) times through our State's economy and roughly seven (7) times through our local economy. We must support our farmers. I will fight any efforts to repeal the gasahol tax exemption, one of the few pieces of legislation passed by the State to assist the farmer in gaining a fair market price for his product. I will take the lead in promoting our farm industry by studying and seeking to implement innovative marketing concepts being utilized by other states. The farmers need a strong voice, a fighting senator, that will not run from a vote or a debate, someone who will continuously be of support and counsel. This I will do."

Primary Campaign Brochure
"Commodities, such as cotton, sorghum and corn, have provided us with the dollars that have fueled our economy for years, but, today, the farm community is facing a crisis forcing many farmers out of business. We must support our farmers, open new markets and assist in implementing new, orderly marketing concepts. I am committed to taking positive action now, for without strong action the farmers' demise could very well be our own."

General Campaign Brochure
"West Texas depends to a large degree on an agriculturally based economy. The farm dollar multiplies roughly eleven times throughout our local economy . . . I will take the lead in seeking and implementing new marketing concepts for our agricultural products . . ."

* (The word "agriculture" was never mentioned in Jim Reese's campaign literature nor was agriculture listed as a priority in his statement of platform delivered March 12, 1982.)

'Lopes Win at Childress

(Continued From Page 1)
the football on a fumble recovery on the Childress 30, setting up the first score.

The fumble came on the first play following a Post fumble a play earlier.

On first down from the 30, quarterback Tim Tannehill ran the keeper over right end to the 27, then on second down Milton Williams took the pitchout on the sweep around left end and avoiding three tacklers, raced into the end zone, with 7:44 on the clock. Kirkpatrick's extra point kick was good.

The Antelopes scored again on their next possession, following a punt by Childress to the Post 49.

The four play drive opened up with Williams over left tackle to the Childress 48, followed by a hand off to Richard Cisneros over left tackle as he broke into the secondary to the four yard line.

On first down at the four, Williams got the call over right guard to the three and then he went over right tackle to the end zone for a 13-0 score. Kirkpatrick's extra point put the 'Lopes out front 14-0 with 4:27 remaining in the half.

The defense took over and held Childress.

Second Half
On their first possession in the second half, the Antelopes drove the ball to the Childress eight yard line, then on fourth down the Bobcats recovered a fumble at the 19.

Failing to post a first down, the Bobcats punted to the Post 46, where the 'Lopes opened up another touchdown drive.

The seven play scoring effort started with Cisneros

over left end to the 47, then a blast by Williams over right tackle to the 23, followed by the sweep around left end to the 19 and Will Kirkpatrick over left guard to the 18.

On third down Williams scooted over right guard to the 10 and on first down, took it over right tackle to the eight.

The touchdown came on a pass from Tannehill to Kirkpatrick who was untouched in the end zone. His extra point made it 21-0.

The fourth quarter opened up with Childress mounting its only scoring drive of the game, ending with a quarterback keeper over left guard from the two yard line.

The extra point attempt failed.
With 7:17 on the clock, Childress kicked the ball to Kirkpatrick on the 10, he went to the 15, faked a handoff to Tannehill, then gave the ball to Williams.

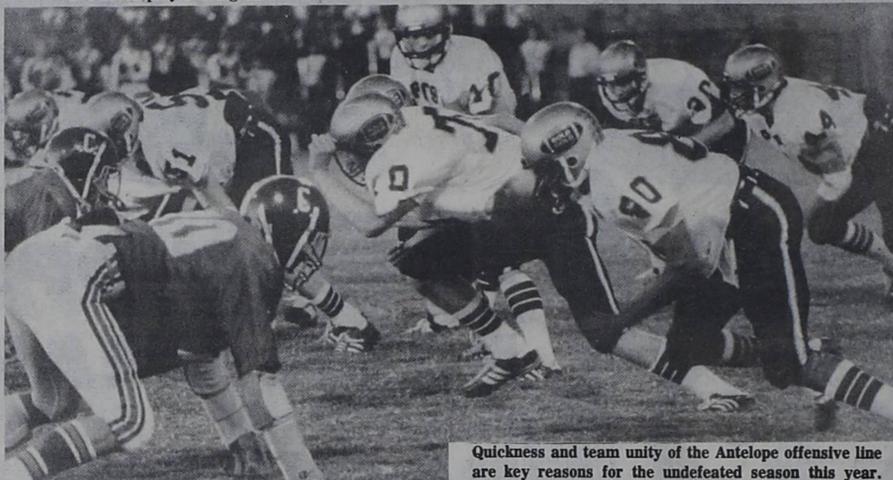

Cutting through the excellent blocking of his teammates, Williams blasted into the secondary, behind the wall, and raced down the right sidelines, with one lone defender in the way at about the Childress 25.

Curtis Clinesmith was there to provide the clearing block as Williams zipped around and into the end zone.

The clock showed 14 seconds had elapsed for the 85 yard dash by Williams.

The extra point attempt was ruled wide, the 'Lopes closed out the scoring 27-6.

Childress was unable to mount a consistent offense, as the 'Lope defense took over control of the scrimmage line.

Quickness and team unity of the Antelope offensive line are key reasons for the undefeated season this year. The entire offensive line moves in unison at the snap of the ball and is one step ahead of the defenders.

Antelope Captains

Post Antelope team captains, elected by the team last week, are (left to right) Richard Cisneros, Bill Black, Will Kirkpatrick and Tim Tannehill, all seniors.

J. V. Continues Winning Ways

It was obvious from the opening drive that the Post junior varsity would domin-

ate last week's contest with Brownfield here. The statistics of 362 yards

for the Antelopes compared to 72 for the visitors shows that the score of 14-0 is only

part of the story. Coach Ken Plumlee singled out defensive players Rodney Hays, Ricky Moore, Keith Osborne, Charles Johnson and Kenneth Gill for their efforts.

On offense the coach praised Todd Angerer, Curt Greer, Curt Cowdrey, Rodney George and Chuck Morris.

The first drive was a 47 yarder, capped by a two yard run by Mike Ollison, following a 41 yard run by Curt Greer.

The two point conversion came on a pass from Terry Kennedy to R. J. Greathouse.

The next touchdown came on an 84 yard drive, again ending with a two yard run by Ollison. The touchdown was set up by Kenneth Gill's 51 yard run.

The junior varsity travels to Slaton Thursday for a 6:30 p.m. kickoff.

Greg Adams returns a kickoff during last week's freshmen win over Brownfield here, as Tracy Price goes out front to provide the blocking.

Junior varsity running back Curt Greer clears the secondary against Brownfield last week.

8th Grade Short by Six

Brownfield edged the Post 8th grade football team 18-12 in last week's contest in Brownfield.

The 'Lope scoring included an 11 play drive of 58 yards with tailback Marvin Lee breaking loose on a 20 yard run to the two and then ran it in off tackle for the touchdown.

The second drive took seven plays with tailback Anthony Perez running outside for the final 24 yards.

The drive started from the Brownfield 43 with six minutes left in the game.

"We drove the ball to the 12 in the first half, stalled out, drove to the two with three minutes left and stalled out..." coach Darrell Radle comments.

"It was the best we've played in three weeks, we kept up good effort to come back and stay in the game," he adds.

Coach Radle praised the defensive play of Johnny Frank, Anthony Perez, Steve Price, Eddie Moat,

Bart Mason and Tony Angerer.

On offense the coach recognized Lupe Perez, Clay Cowdrey, Marvin Lee, Derrick Dunn, Rodney

Guthrie, Randy Lewis, Jay McCook and Anthony Perez.

The 8th grade team hosts Slaton Thursday, game time at 6:30 p.m.

J. V. Whips Tahoka

The Post junior varsity football team came home from Tahoka Sept. 30 with a 46-6 victory, gaining 350 yards on the ground and 20 in the air and holding the Bulldogs to a meager 100 total yards.

The first touchdown came on a two yard run by Curt Greer, following a 40 yard drive, with the two point conversion credited to Rodney George on a pass from Terry Kennedy.

The next touchdown was on a 64 yard drive, completed by a three yard run by Mike Ollison.

Ollison scored again following a 51 yard, six play

drive and he also took the ball over for the two-point-er.

Chuck Morris got the call on a 15 yard touchdown run and Greer ran in for the two-points.

The fifth touchdown came on a 72 yard blast by Ollison, followed by Ricky Moore's extra points.

The final eight points came on a 40 yard drive, finished off by a 15 yard run by Albert Nava and the extra points by Tony Curtis.

Coach Ken Plumlee praised Todd Angerer, Charles Johnson, Rusty Morris, Chuck Morris, Ray Perez, and Mike Ollison for their efforts in the contest.

7th Graders Slip by Brownfield 12-6

The 7th grade Antelopes outscored Brownfield 12-6 with 170 total yards offense, holding their hosts to only 34 yards total.

"We received the opening kickoff and began our first drive on our own 44," Coach Fred Postell reports.

Ben Kirkpatrick hit the line a couple of times for four yards, then six and a first down.

Mike Bartlett carried for eight and then got the call again, fighting for three yards and another first down.

"We just kept driving the ball with Kirkpatrick and Bartlett doing most of the running," the coach adds.

"We pushed the ball down to the Brownfield eight and the quarter ended, we had kept the ball the entire first quarter," he continues.

With second and four at the eight, Bartlett got six yards and put the 'Lopes at the two and from there Kirkpatrick drove in for the score.

"The drive was made possible by the fine blocking of Glenn Hardin, Wade Bridgemen, Bobby Gonzales, Greg Benham, Roger Martinez, Mark Tyler, Tony

Ramirez, Mike Ayala, Lex Dunn, and Mike Bartlett," the coach adds.

"Eric Reece did an excellent job directing the attack as quarterback," Postell continues.

On the ensuing kickoff, kicker Augustine Soto hit a low line drive, that Brownfield mishandled and the ball rolled into the end zone.

"A Cub runner tried to run it out, but our coverage team was down very quickly and hit the runner, causing him to fumble...we recovered at the one yard line and in one play Kirkpatrick scored off right tackle," the coach concludes.

He praised the defense and pointed out that Brent Jones was credited with an interception.

Assembly of God Pastor Undergoes Eye Surgery

Sunday was rather hectic around here as our Pastor was in the hospital. Brother Brown had a cornea transplant Sunday morning and came home Monday morning. The surgery went excellent and sight has been restored to his left eye. We will definitely have services here Wednesday night. Our thanks to Bucky Phelps who took over services Sunday in our Pastor's absence. From what we hear Brother

Phelps did a great job. Sunday, Oct. 17 we have scheduled Teen Challenge to be here both services. They are doing a great job rehabilitating kids who got on drugs, and helping parents to be able to spot potential drug problems and deal positively with them. We invite the public to this informative meeting, a film will be shown. Remember to bring your canned goods for Teen Challenge. Clarence Warren is at home and doing well. Rene Seckman had a son, Christopher Michael and is at home doing great. Happy Birthday, Thursday to Oleain Seals.

Richard Cisneros picks up yardage as a Childress defender struggles to bring him down. Derrick Walls (64) provides the clearing block.

When the sweep works for the Antelopes, you can count on key blocking as James Lee (80) and Tim Tannehill (10) open the way for Milton Williams. (Photo by Norma Baumann)

Garza County is eligible for loans

Governor Bill Clements has announced that the Small Business Administration has included Garza County among 68 West Texas and Panhandle counties as disaster areas and eligible for emergency economic injury loans.

The SBA loans will aid cotton gins, warehouses, implement dealers and other agribusinesses affected because heavy rain and hail damaged area crops last June.

These loans would have been automatic at the end of this crop year, when exact amount of crop losses are determined and Farmers Home Administration loans are made available.

Governor Clements requested the SBA loans be made available now, because these small non-farm businesses need the financial aid immediately.

The loans will carry an eight percent rate of interest.

Business people may apply for the SBA loans from now until June 23, 1983 at the following locations: SBA Office, 1611 10th Street, Suite 200 Regency Plaza, Lubbock, Texas, 806-762-7481.

When heat and air make the difference

A crowd gathered in the country square, curious to see the large, strange-looking contraption of paper and cloth. The on-lookers laughed at Joseph and Etienne Montgolfier as the two men ignited the pile of straw and rags beneath their invention.

The unbelieving crowd gasped as heated air began to fill out the paper and cloth of the world's first hot-air balloon as it climbed steadily to the then-stunning altitude of about six thousand feet.

As the inventive partners had managed the dynamics of heat and air to give flight to their idea, you and SPS and the High-Efficiency Add-On Heat Pump can make a difference with the everyday management of heat, air and electricity in your home. When you install a High-Efficiency Add-On Heat Pump you increase the heating efficiency of your existing furnace, and add cooling efficiency next summer. You also qualify for a special electric rate from SPS for seven months of the year. Call us to see what your savings could be.

FIRST WELL - Everett "Heavy" Windham is shown by Post Estate Well No. 17, which is the first well he worked on after starting to work in the oil fields here some 36 years ago. Windham retired from George R. Brown, Oct. 1, following 36 years of service. (Staff Photo)

Hatton Moore (left), new manager at United Supermarkets in Post, is joined by (left to right) assistant manager Mike Gordon, a five year employee; Larry Morman, marketing manager; Junior Mahan, assistant manager with five years experience and Raymond Ramirez, produce manager, a two year United employee.

Promotions Announced at United

Hatton Moore, who has 14 years of experience in the grocery business and three years with United Supermarkets, has been named manager of the Post United Supermarket store.

Moore, who has moved his family to Post, comes from Borger. He has also served with United in Lubbock and Slaton.

He is married to the former Kathy Morrison of Ft. Worth, and they have a

son, Dustin, two years old. They are members of the Baptist Church.

Moore is a 1969 graduate

of Wylie H.S. in Abilene and graduated from McMurry College with a BBA in marketing in 1973.

A drop of liquid can contain as many as 50 million bacteria.

Windham Has Seen a Lot of Changes

Following 36 years of service with George R. Brown, starting as a roughneck and ending as superintendent of the West Texas District, Everett "Heavy" Windham called it "a day" Oct. 1.

Upon his retirement, Mr. Windham stated: "I never dreamed the day I went out as a roughneck in 1945 that I would still be in the oilfield work 36 years later. It has been an interesting 36 years as I watched Brown's interest grow in Garza County from a few wells to near 500 and that I had worked in almost every capacity."

After moving to Post in 1945 from Carlsbad, N.M., Windham went to work for Comanche Corporation with whom Brown had half interest as a roughneck on May 4, 1946. He helped run casing in the Post Estate No. 17 well (Mr. Windham is pictured with the well he first worked on) on his first day on the job and then moved to Post Estate No. 22 the next day. They were told at the time that they would probably drill one or two more wells and then move to Merkel, Tex. After completing the Post Estate No. 22 in approximately 10 days, they moved to the K. Stoker Lease and drilled five more wells, from there to the Montgomery-Davies "A" No. 1. This location was thought to be "out of the oil patch," by most people around Post, but this made a good well and led to 32 more wells drilled on the "A" lease. Nineteen wells on the "B" Lease, four on the "C" Lease and 10 wells on the "D" Lease.

After finishing there they moved to the Post Texas Mill No. 1 well and he remembers vividly the night they ran casing. Halliburton spotted their pump truck and went in to eat. The drilling crew finished running pipe, circulated the hole clean and was ready to cement. The pumper and cementer weren't back, so the crew hooked up and cemented the well, washed up the pump and equipment and when Halliburton returned, the job was completed and the drilling crew was ready to leave.

After moving across town, they drilled a wild cat on the F. B. Robinson Unit which developed into the best lease Browns had. A number of wells were drilled north and west of the city which then had the city surrounded with oil wells.

Heavy was pushing tools and drilling days when orders came for locations within the city. The first two wells were drilled with little difficulty but then problems began. Some of the locations were too near houses or the alleys. There would hardly be room to get a truck in, much less a drilling rig. The crew found that there were too many gas and water lines to dig pits, so they had to rent metal pits which were placed on top of the ground. They also knew there could be a lot of problems as they had struck Yates air in some wells all around the city. Knowing what this could do to city property for several yards they were always on guard for when you hit this air, it blew out mud, water and anything else that happened to be in the hole. Sometimes it would go higher than the derrick. They were fortunate though, as they did not strike any Yates air in any of the wells within the city. However, damages did have to be paid on some clothes that were soiled while drying on clothes lines near the rigs, after which, permission was asked to take the washing off the lines and took them to the washeteria to be dried.

The most unusual damage case, Heavy can

remember was on some unborn rabbits. Occasionally the Magneto would go bad causing the engine to back fire.

This happened when they were drilling City Unit No. 4.

The people living near the rig had a pregnant rabbit in a cage about thirty feet from the pump motor.

They said the noise caused her to miscarry and wanted them to pay for the unborn rabbits and pay they did!

He said, overall they were very lucky with the city drilling and managed to have good relations with the people and paid very little damage.

In January, 1952 the cable tool and pulling machine became Windham's responsibility along with the rotary rig.

He remembers that in December 1956, they were drilling City Unit No. 16 right off main street and everyone was decorating for Christmas. His drilling rig had the most unique decoration of all as they used different colored derrick light bulbs and a big red star on the top of the derrick which could be seen for miles. It looked like a huge Christmas tree.

In December, 1957, they drilled a well on the C. A. Coleman lease near Wilson, Texas, and this was the last well they drilled with his rig as the wells drilled since that time have been contracted.

Windham went into the Production Department full time as head roustabout in 1957.

In 1965, new production was discovered in the San Andres B, C, D and E and Glorieta No. 1 and No. 5 zones and Heavy had the honor of opening the valve on their first flowing dual well.

In 1966, Windham was promoted to assistant superintendent of the West Texas District with the water flooding project beginning in 1967 with Browns now having five water flood situations with production increasing each month.

In 1976 Heavy was promoted to Superintendent of the West Texas District and has been busy this past year with a drilling program to prepare for CO-2 injection which will be the third phase of oil recovery.

When asked what he was going to do with his spare time now, Windham replied he was going to "piddle" around for a month or so then probably go into consulting work.

Along with his oil field work he is currently serving on the White River Water Board, is a Rotary Club director and a Post Chamber of Commerce Director.

He was honored with a luncheon at the Lubbock Club, Wednesday, Sept. 22 with Ralph O'Conner, president of Highland Resources, Inc., attending along with W. H. Heisler, Jr., vice president, Jim Batt, vice president, Bob Burnham, reservoir engineer and Mr. and Mrs. Neal Clary. He was presented with a watch upon his retirement.

A retirement party was also held in his honor at the city-county park with 53 employees and spouses attending Sept. 29. Special guests included Mr. and Mrs. Jerry Windham, Mr. and Mrs. Danny Windham, and Mr. and Mrs. Robert Mock of Slaton. Mr. and Mrs. Windham were presented with a portable TV for their travel trailer.
