Governor Notes Start Of Holiday Season

Governor Dolph Briscoe has reminded Texans of the forthcoming holidays and urged extreme caution in driving in this potentially dangerous period.

Said the Governor, "Thanksgiving is a time to reflect our successes and to be thankful for the good things of life. It is a time for us to consider a closer relationship with our neighbors, friends and families. But, it is also a time to be mindful of the start of the busy holiday season.

"We are all going to be rushing to enter the spirit of the holidays. And, with this fast paced life style, some people are forgetful of the need to slow down and be more careful when

But, in order to place a float or other entry in the parade, one must fill out an entry blank, which may be obtained from Cobbs, Decorators 216, Western Auto or the office of the Muleshoe Chamber of Commerce.

"Crime doesn't pay; it costs, particularly when it comes to businesses," cautioned Wayne Holmes of the Muleshoe Police Dept. crime prevention unit.

Burglary, robbery, shoplifting-they all mean loss or damage to property, the risk of insurance rate increases, and untold manhours spent dealing with the crime after the fact," Holmes continued. "It makes much better sense to keep crimes from happening in the first place, to decrease the opportunity for crime."

By way of comparison, the average in other counties of its size in the United States, under 10,000 population, is \$437 per capita. The overall national average for all counties, irrespective of size, is \$575 and,

in the State of Texas \$444. In most counties, the services covered by these expenditures include education, highways. public welfare, health, fire and police protection, sanitation and urban renewal among others.

The high rates in certain communities are attributed to special local conditions, such as unusually large welfare costs, housing problems and the like. As for the revenue to finance these outlays, close to \$206 per capita was collected in Bailey County in local taxes and charges, the rest coming from Federal and state payments.

Crime...

Cont. from Page 1. fact, many crime prevention measures cost nothing but a little time, some attention to detail and the individual advice the Muleshoe Police Department provides free of charge to, members of the business community.

'One of our main jobs as law enforcement officers is to act as professional Consultants Against Crime and to offer security advice based on our specialized training," explained Holmes. "We'd rather prevent crimes from ever happening, and many of our services are directed toward this goal.

"Take our security surveys. At the request of a manager or proprietor, we'll send a trained crime prevention officer or proprieter, we'll send a trained crime prevention officer to examine a place of business thoroughly and recommend

ways to make it more secure." According to Holmes, the best results are achieved when all the businesses in a neighborhood participate in the crime prevention program, so that the neighborhood gets to be known as a high risk area for burglars.

"Crime is largely a matter of opportunity. When a businessman reduces the opportunity for crime, he reduces his chances of becoming a victim," Holmes concluded. "Of course, we're here to help, but it's up to the individual to take that first step and call us." Cattle Outlook Hinges On Grain **Prices**

COLLEGE STATION -- Grain prices will have a big influence of the livestock outlook for this fall and next year, contends a livestock marketing specialist for the Texas Agricultural Ex-

tension Service. Dr. Ed Uvacek points out that whether grain prices go up or down will affect both fed and feeder cattle prices.

"If grain prices stay high, the number of cattle placed in feedlots this fall will probably not be high enough to cause supply problems next spring and summer," says Uvacek. "That could mean higher fed cattle prices next year.

"On the other hand, if grain prices ease down somewhat as the harvest season moves forward, placements will be large and fed cattle marketings by next spring and summer could be burdensome. This would, however, in the short run provide more strength for feeder cattle prices than if grain prices

stay high." Uvacek says that early fall sales of feeder cattle were much higher than summer levels and that even though fed cattle marketings will not be large, they will be up from recent levels. Many nonfed cattle will also be slaughtered during the next three months, and this could lower fed cattle prices, says the specialist with the Texas A&M University System.

"The proportion of fed beef to nonfed beef, then, for next year will depend greatly upon the price of feedgrains," contends Uvacek.

College costs to rise 6 to 8 per cent.

Farm Bureau Membership Increases

WACO--Texas Farm Bureau has shown an increase in membership for the 23rd consecutive year, according to Carrol Chaloupka, president of the state's largest general farm organization.

Official tabulations just completed show that the TFB now has 180,470 member families in the organization, an increase of 14,254 over last year's total, Chaloupka announced. The TFB's membership year runs from Nov. 1 to Oct. 31.

All of the 210 organized county Farm Bureau organizations had an increase for the third year in a row, the Dalhart grain and livestock farmer said.

"This phenomenal increase in membership indicates farmers and ranchers are depending more and more on organized efforts to solve their problems," Chaloupka said. "Among the more serious problems facing agriculture in the past 12 months has been government and union interference with grain exports, restrictive environmental regulations, and the continuing increases in costs of production.

The ten largest counties in the state in membership size are (1) Harris--2,811; (2) McLennan--2,632; (3) Fayette--2,456; (4) Fort Bend--2,452; (5) Ellis--2.441: (6) Van Zandt--2.387: (7) Wharton--2,319; (8) Bell--2,014; (9) Nacogdoches--1,198; and (10) Hidalgo-1,887.

MissMoen, Roubinek Say Wedding Vows

After a honeymoon in Florida and the Carribean, the former sharon Kay Moen and Jack L. Roubinek will reside in Lubbock. The couple exchanged vows at 7:30 p.m. Saturday in Trinity Church with the Reverend Morris Sheats performing the ceremony.

The bride wore a formal length gown of ivory satin organza fashioned with a victorian neckline of ivory venise lace and short cap sleeves edged with lace. The empire bodice has a sheer square yoke outlined with a narrow band of venise lace and softly gathered into an 'A' line skirt extending into a chapel length train. Narrow bands of lace and lace motifs accented the skirt and train. The headpiece was a ripple brim picture hat of horse hair braid and venise lace.

Debbie Moen, sister-in-law of the bride served as matron of honor. She was gowned in

blue-bell and ivory colored printed English chintz. The turn of the century styling featured a moulded basque bodice with a

deep portrait neckline framed in a Bertha collar edged in Irish crochet lace. An ivory satin ribbon sashed the natural waistline and complimented the full dirndle skirt. The entire hemline was flounced in a deep ruffle which was edged in the Irish crocheted lace.

Kim Roubinek, daughter of the groom, served as candlelighter. Jerry Moen of Midland. brother of the bride served the groom as best man. Jerry Cypert and Vernon Medlock, both of Lubbock served as ushers.

The bride graduated from Coronado High School and West Texas State University. He is the owner of Century 21 Real Estate Company.

Dear Louisa.

We have one daughter and one son. The son has finished college and has a good job. Our daughter will be ready to enter college this next year. Now our problem is this.

Our daughter is eager to start her college career and to get a good education but our son says that college is not like it used to be and he is afraid for her to go there. He says most of the students have no morals and even some of the faculty are no better. He is afraid she will not be able to cope with all the temptations.

I agree with a part of what your son has said and that is that college is not what it used to be. However, if you look over the different schools, carefully, and your daughter has been taught what is right should be able to cope with situations which occur.

There is entirely too much permissiveness in some schools. I think that your best bet would be a school, not too large and probably one sponsored by your church.

Toy Buying Tips Help Parents

COLLEGE STATION--Christmas toy selections can be frustrating for parents and even dangerous for children unless some toy buying guides are followed, Mrs. Ilene Miller, a family life education specialist,

'Many appealing toys that seem to be good buys may be unsafe and inappropriate for the children," she said

Mrs. Miller is with the Texas Agricultural Extension, The Texas A&M University System. She suggested three guides for selecting toys.

--Is it appropriate?
--Is it safe?

-- Is it worth the cost? "To be an appealing and an appropriate gift, the toy must be suitable for the child's age, size and developmental level. Choose toys which fit the child's interests and abilities, such as brightly colored, lightweight toys of different textures for infants and toddlers.

"Make sure the toys are washable, too big to swallow and have no sharp edges or corners. Choose balls, a colorful mobile for the crib, a soft doll or string of large wooden or plastic beads," she advised.

The toddler will enjoy pushand-pull toys, balls or blocks. Simple picture books about animals or children are also good gift choices for the one- to two-year-old.

"If shopping for a preschooler, choose toys the child can use in imaginative play. Dolls, puppets, costumes and equipment for dress-up can provide hours of creative play.

A bullet may be deadly, but rapid-fire tongues often claim many victims.

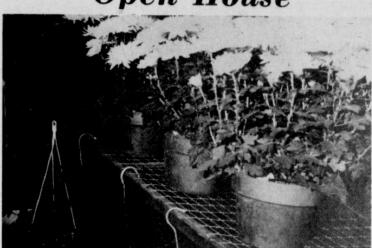

Registering the guests was Miss Debbie Kerr and serving was Miss Ginger Johnson.

The table was covered with an ecru linen cloth accented with a floral arrangement of pink and burgundy Daisy mums and pink tapers. Refreshments of coffee, spiced apple juice, banana, apricot, and apple bread, and fruit bowl were served from silver appointments.

The hostess gifts were a set of stainless steel cookware, towel set, sheet set, and a bath mat. Serving as hostesses for the occasion were Mrs. F.F. Blackman, Mrs. Joel Young, Mrs. James Crane, Mrs. Ernest Kerr, Mrs. Lewis Wayne Shafer, Mrs. S.P. Stockard, Mrs. Roy Dyer, Mrs. T.R. White, Mrs. J.A. Nickels, Mrs. Flo Morris, Mrs. B.E. HOW'S The Electric Company DOING?

Let's ask J. T. Burk, stores superintendent...

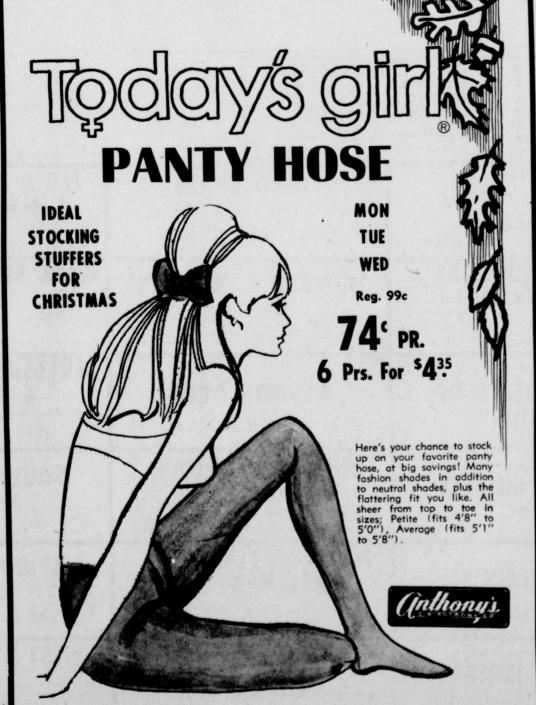

"Crossarms are such a common sight that you probably don't even notice them. But we have thousands of crossarms in our system . . . and they're necessary to bring electricity to you. Ten years ago, one of these crossarms cost \$3.43, but today an identical crossarm is \$11.46."

That's a whopping 234% increase . . . a reason electricity may be costing you more these days. Even so, electricity is still a big bargain . . . because it's always there when you need it.

"Surely he hath borne our griefs, and carried our sorrows: yet we did esteem him stricken, smitten of God, and afflicted."

"But he was wounded for our transgressions, he was bruised for our iniquities: the chastisement of our peace was upon him; and with his stripes we are healed."

"All we like sheep have gone astrau: we have turned every one to his own way; and the Lord hath laid on him the iniquity of us all." Isaiah 53:4-6

Our prayer this Thanksgiving Season is that everyone will attend the house of God, giving thanks unto him for his great gift, which is eternal life through his son.

The Church is God's appointed agency in this world for spreading the knowledge of His lave for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, ever from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Every Day is a Day of Thanksgiving...

ven as we join family and friends in the traditional holiday feast, we should remember that this day has been set aside for us to do officially the very thing we should be doing every day of our lives: thanking God for our blessings. We have so many, regardless of our own situation. that we cannot begin to count them all; not only the tangible things we can see all around us, but also the invisible blessings. such as the misfortunes we have been spared. Go to your Church on Thanksgiving Day and every Sunday and give your thanks to God for all of them. The Pilgrims were grateful for so little; and you have so much.
