MARRIED AT PECOS.

J. B. Van Deren and Miss Jamie Walker, both of Balmorhea, were married at the Christian church in Pecos, Monday afternoon at 2 o'clock by Homer L. Magee. The parents and brother of the groom and Mr. and Mrs. Lee Kingston, brother-in-law and sister of the bride, were the witnesses. After the ceremony the couple left for El Paso for a short stay.

The groom is a son of Mr. and Mrs. B. W. Van Deren, and the bride is a daughter of Mr. and Mrs. J. H. Walker. Both families are prominent in the Toyah Valley. May there be plenty of good times ahead for Jim and Jamie is our wish. —Pecos Enterprise.

Jamie is the grand-daughter of Mr. and Mrs. W. E. Gilliland of Baird, and daughter of Mr. and Mrs. Jim Walker formerly of Baird, and has many friends and relatives in this county who wish her and her husband many years of happiness and prosperity.

Rev. J. A. Owens, of Strawn, spent Wednesday in Baird.

BAIRD BOYS ALL WELL.

The Editor of THE STAR received a letter a few days ago from Sergt. Jas. D. Rondeaux who is in France and said all the Baird boys in Hdq. Co., 142nd Infantry, 36th Division, were well, and mentioned Sergt. Otho Lidia, Royce Gilliland, Carl Cornett, Less Walker, DeWitt Gibson and Murman McGowen. Jimmy has been transferred to Q. M. C. Says he was only on the front fifteen days, not many days but mighty long ones.

CLOTHING FOR BELGIANS

The Red Cross want's your old clothing for the destitute Belgian people. All clothing that is not absolutely worn out will be accepted, if it can be repaired at all. Old shoes and pieces of leather are also asked for.

The county's quota is 2000 lbs. and Bairds part of this is 500 lbs.

Look through your clothing and send a bundle to the building formerly occupied by Scott's Furniture Store. The drive will be on from March 24 to 31.

NOTICE TO THE PUBLIC

Beginning April 1st, THE STAR will make a charge of one-half cent per word for obituaries, card of thanks, resolutions and all notices of meetings where admission is charged. Count the words in the articles you send in and send cash with copy. THE STAR has never made any charge for these notices, but we find that a change is necessary, and the public will please take notice of the change, as the notices can not be published after April 1st, unless accompanied by the cash.

EPISCOPAL SERVICES

Arch Deacon W. C. Williams will hold services at the Episcopal Church, Friday night, March 21st at 7:30 p. m. and the public is cordially invited to attend.

TO OUR GIRLS.

(The following notice was received by the Editor from one of the Baird boys who is now in France, with the request that we publish same:)

Don't lose any beauty sleep over the possibility of your soldier forgetting you for the first pretty French girl he meets. He'll think of you a lot more often "Over There" than he ever did over here. Every woman he sees there will remind him of you in some subtle way—the sound of a voice, the soft curve of a throat, the mere fact that she is a woman, and, therefore, like you. You and home are his religion and the things he is fighting for. Don't you worry, girls: the father away he may be, the more whole-heartedly does he belong to you, and to you alone.

GIRLS! LOTS OF BEAUTIFUL HAIR

A small bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now—it costs but a few cents—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never fails to stop falling hair at once. If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this. Adv.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these lowly spots. Simply get an ounce of Othine—double strength—from your drugist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is a fact that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

AFTER INFLUENZA—WINTER COLDS—BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion. Doctor Pierce's Golden Medical Discovery, made from wild roots and herbs, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take it as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels. You can procure a trial package by sending 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Kingfisher, Okla.—"I have often thought of sending my statement in regard to the 'Golden Medical Discovery.' About nine years ago I had a very bad case of pneumonia; it left me weak and with a hacking cough. Nothing the physicians gave me seemed to relieve it in the least. Finally, my son came home one day with a bottle of Dr. Pierce's Golden Medical Discovery. I commenced taking it and before the first bottle was used I was so much better; my cough was gone and my strength greatly renewed, and since that time a bottle of it is always on our medicine shelf."—Mrs. Sarah J. SEEING ROME FROM DIRIGIBLE

Correspondent Gives Interesting Description of Trip Over Eternal City.

WONDERFUL SCENE UNFOLDS

Plan to Make Aerial Tours of City an Attractive Feature for Visitors When Normal Conditions Return—Trip is Marvelous Experience.

By LLOYD ALLEN. Western Newspaper Union Staff Correspondent.

(Copyright, 1919, by Western Newspaper Union.) Rome.—When you make that long promised European trip to see the great battlefields of France and Italy and get to Rome you will undoubtedly have the opportunity of inspecting the Eternal City from the deck of a dirigible.

By the time Europe has set its house in order and has recovered sufficiently from war to make tourists comfortable Rome will be featuring an aerial tour of the city which no one will care to miss, even though the cost of the trip may be something like \$20.

Instead of lumbering through the streets in the old-time rubberneck wagons, or in a taxi, you will be able to lounge comfortably in well padded seats of an airship and see at fairly close range the layout of Rome with its glories of ancient and modern architecture and at the same time feel perfectly safe, because a dirigible moves along with even less vibration than a Pullman sleeper or American parlor car.

I have just landed from such an inspection of Rome. Except for a few moments' uneasiness while the dirigible was leaving the ground the trip was a marvelous experience and almost absolutely free from any anxious moments, even though the big ship sailed along 2,000 feet in the air at times. It was a war craft, built for scout duty, and capable of carrying 30 persons and was nothing like the comfortable passenger airships that are now being planned and which will soon be in actual operation not only in Rome but in other European capitals as well.

The big factories and the men who designed these ships are now turning their thoughts to the possibilities of passenger traffic and they know that Americans are going to be some of their best customers during the days of enormous tourist traffic that are to come. In Italy, as well as France and England, it is taken for granted that the day of air travel is here.

No Chance for Civilians Now. Just now, of course, civilians find it impossible to fly over Rome, or even visit Rome for that matter, unless they have special business there. All transportation facilities are being used to demobilize sections of the armies and there is general congestion of railroads and hotels. But this reconstruction period is not expected to last many months.

As guests of the Italian government and armed with a special permit to fly, our party of American newspaper men, eight in number, were taken up at mid-afternoon for a one-hour flight in which our ship did a figure-eight course over Rome, flying directly above the magnificent structure of St. Peter's, the Quirinal palace, the Coliseum and the newer monumental edifice in white marble and gold that has been erected to commemorate the creation of new Italy, the vast edifice of simple and severe architecture of the monument to Victor Emmanuel II.

In automobiles we were rushed out of Rome through the ancient city walls, some of which were built during the days of the old Roman republic, across the gardenlike campagna of green fields and flocks of sheep to an immense airfield in the prairie land. The whole of the interior was one vast room in which three dirigibles were moored safe from rain and storm.

MADE RECORD ALTITUDE FLIGHTS

Captain Lang, R. A. F., and Lieutenant Howes, observer, who made a world's record altitude flight in a British biplane equipped with a single engine. They reached the unprecedented height of 30,500 feet, or six miles up, at Matlesham, England.

By means of a portable staircase on wheels we climbed into the swinging basket, of the dirigible and took places where we could find them around the three gasoline engines, 12-cylinder Fiats, each attached to a separate propeller.

Carries Crew of Seven. Leather coats lined with sheepskin were distributed, although the weather on the ground was springlike. Seven Italian army men composed the crew of the ship. The officers used megaphones at times to shout orders to the crew and to communicate with the small army of soldiers that held the guide ropes on the ground.

The final sand bags were thrown from a pile on deck and the ship started ascending without a tremor. Unless one looked at the ground the sensation of moving was not noticeable.

I watched for a few moments the manner in which a gas engine man tuned up one of the three motors aboard, and was startled a few seconds later to find that we had moved skyward about 300 feet.

The hundred odd helpers on the ground had already been dwarfed into mere pygmies. The Roman campagna with the mountains in the distance, was unfolding into a vast panorama. We continued to ascend to more than 1,000 feet, moving all the time with increased speed toward the city of Rome, ten miles away.

Panorama of Rome. At a speed of 40 to 50 miles an hour we sped over barnhouses and ruins of the Applan way toward the city. Within five minutes the miles of arched stone aqueducts that stretch from Rome to the mountains had been passed and we were in the outskirts of the town with the River Tiber just ahead threading the solidly packed rows of houses like a dull blue ribbon.

They tell you in Rome that the most satisfactory view of the wrecked Coliseum, where the Caesars used to murder Christians by the hundred and where the gladiatorial combats of the old days were held, may be had by moonlight.

However, a much better idea of the Coliseum and its size can be obtained by viewing it from the air. From 1,000 to 1,500 feet above earth you can get a better estimate of its size, and as you float by you have to scrutinize closely to notice the damage time has brought to walls and arena.

Near the Coliseum the other ruins are less distinguishable. They are so small to stand out in the panorama. The palace of Augustus is a mere pile of bricks. The world-famous Palatine hill near by is to all appearances an irregular strip of brick-strewn meadowland, and loses all of the grandeur that the fanciful tourist, on foot among the ruins, is able to reconstruct from his imagination.

On the other hand, the Quirinal palace, the Rome residence of the king of Italy in peace times, is notably uninspiring when viewed from the street. But seen from the air, the magnificence of the Quirinal is impressive.

Wonderful Scene Unrolls.

To all appearances we were barely moving. Whole sections of landscape presented themselves, smoothly and seemingly slowly. We had ample time to inspect with considerable care the larger points of interest from our vantage point in the steady basket, and it was only after landing that we learned our speed had averaged 40 miles an hour. The distance above the ground was responsible for the delusion of slow speed.

The glories of St. Peter's, viewed from the air, are no small part of the joy of flying over Rome. It is only from a high elevation that one is able to appreciate the perfect symmetry of design that represents the best genius of architectural thought in Rome through four centuries under the patronage of over a score of popes.

Naturally enough the finer embellishments of St. Peter's are more or less invisible from the air. The famous Egyptian obelisk, brought to Rome by one of the old emperors, who utilized 800 men and 140 horses to perform part of the work and spent a small fortune in gold on the enterprise, is a dot in the landscape. The statues are mere blurs, the fountains are simply brighter spots in the landscape.

Trip Quickly Made. One of the disappointing features of a first flight over Rome is the quickness with which the trip is accomplished. You have no sooner gotten aloft until your machine scoots outside the city over the green fields again and you have groups of country people below gazing skyward for the ever interesting sight of an airship.

Once headed toward the airfield, you will probably worry a bit about how efficiently the crew is going to manage the descent and landing. You commence to realize what an unwieldy thing an airship is, how sensitive it is to the air currents, how much it weighs, and, above all other things, how far away the ground appears. You consider, after a bit of thought, that after all it was an idiotic idea to fly while the airship business is in a state of comparative infancy.

About that time the airfield, with its immense roof and sides of corrugated iron, is in sight. The pilots circle the airfield and do a sort of figure six in the air. On the ground nearly a battalion of men are rushing along to the spot the pilot has picked for the landing. Sure enough, just as you feared they are dropping the huge machine just like an elevator. The ground, suddenly, looks very close. About that time you get your first slight jar; it is the crew dumping several barrels of water ballast to lighten the machine and stop the car. The jerk is less than the usual elevator makes when stopping for a floor. Had you not been watching closely you would not have noticed it.

WAR STAMP IS BRITISH IDEA

Washington.—An interesting comparison between the systems of War Savings stamps in Great Britain and America is made by the savings division of the United States treasury.

England had been selling War Savings certificates for more than a year before this attractive form of investment was offered to the people of the United States. This country has had the advantage of the Britons' experience in this field, and while the two savings stamps are alike in most respects, there are a few interesting differences.

The British War Savings stamp is dated when purchased and is due exactly five years from that date. This enables them to sell the certificates always for the same—15s. 6d. (\$3.83). The American War Savings stamps are issued in annual series, and each series has a uniform date of issuance and of maturity. The present rate is

kept uniform by increasing the purchase price one cent each month. This means that all of the 1919 War Savings stamps will mature in January, 1924, while in three or four years British War Savings stamps will begin coming up for redemption in varying amounts each day.

The British System.

The British have developed the system of purchasing the regular sixpence postage stamps, which are pasted on a card until 31 are obtained. Then the card is exchanged for a War Savings certificate. Americans, on the other hand, can purchase a 25-cent Thrift stamp, and thus gradually accumulate the required 16 stamps necessary to purchase a War Savings stamp, adding, of course, the necessary amount according to the month, namely, 12 cents for January or 23 cents for December.

War Savings societies, or associations as the British term them, are very numerous in the British Isles. Each person affiliated with the association contributes either a fixed sum or any amount he can at regular intervals, say, each week. Whenever the secretary finds 15s. 6d. or more in the treasury he immediately purchases one or more War Savings certificates for his society, so that the certificates begin to draw interest. As soon as a number of persons have completed their payments it is customary to draw lots for the advantage of the earliest dated certificates in the association treasury. Thus, the lucky person may obtain a certificate which has been accumulating interest for weeks possibly, while the last stamp drawn will, of course, be only a few days old.

Exempt From Taxation.

Both British Savings certificates and American War Savings stamps are exempt from taxation, and for this and other reasons there is a limitation to the amount that may be held by one individual. In the early war days in England persons with income exceeding \$1,500 were not permitted to buy Savings stamps. This condition was later changed so that anyone may hold Savings certificates up to about \$2,500 maturity value. In the United States one individual may not hold more than \$1,000 of any one series. In both countries there is no limitation preventing each member of a family from holding the prescribed limit.

Trust Me! Try Dodson's Liver Tonic! Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless. Calomel is a dangerous drug. It is

mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.—Adv.

DRUGGISTS! VICK'S VAPORUB SHORTAGE OVERCOME AT LAST

The Deal Scheduled for Last November, Which Was Postponed on Account of the Influenza Epidemic, is Now Reinstated—Good During the Month of March.

OVER ONE MILLION JARS OF VAPORUB PRODUCED EACH WEEK

It is with pride that we announce to the drug trade that the shortage of Vick's Vaporub, which has lasted since last October, is now overcome. Since January 1st, we have been running our laboratory twenty-three and a half hours out of every twenty-four. Last week we shipped the last of our back orders, and retail druggists, therefore, are no longer requested to order in small quantities only.

NOVEMBER DEAL RE-INSTITUTED

This deal, which we had expected to put on last November and which had to be postponed on account of the shortage of Vaporub, is re-instated for the month of March. This allows a discount of 10% on shipments from jobbers' stock of quantities of from 1 to 4 gross. 5% of this discount is allowed by the jobber and 5% by us.

We advise the retail druggists to place their orders immediately, so that the jobbers will be able to get prompt shipments to them.

THANKS OF THE PUBLIC DUE THE DRUG TRADE DURING THE INFLUENZA EPIDEMIC.

The thanks of the American public are certainly due the entire drug trade—retail, wholesale and manufacturing—for what they accomplished during the recent influenza epidemic. The war caused a shortage of physicians—nurses were almost impossible to obtain—the demand on the drug trade was unexpected and overwhelming, and to this demand they responded nobly. Retail druggists kept open day and night and slept where they dropped behind the prescription counter. Wholesale druggists called their salesmen off the road to help fill orders—hundreds wired us to ship Vick's Vaporub by the quickest route, regardless of expense.

The moment you eat a tablet of Pape's Diapepsin all the indigestion pain, dyspepsia misery, the sourness, gases and stomach acidity ends. Pape's Diapepsin tablets cost little at any drug store but there is no surer or quicker stomach relief known. Adv.

A TREMENDOUS JOB TO INCREASE OUR PRODUCTION

In this emergency we tried to do our part. We scoured the country for raw materials—our Traffic Manager spent his days riding freight cars in—we shipped raw materials in carload lots by express and pleaded with manufacturers to increase their deliveries to us.

But it was a slow process. Some of our raw materials are produced only in Japan—supplies in this country were low and shipments required three months to come from the Far East. Then we had to recruit and train skilled labor. We brought our salesmen into the factory and trained them as foremen. We invented new machinery, and managed to install it on Christmas Day, so as not to interfere with our daily production.

143 JARS OF VAPORUB EVERY MINUTE DAY AND NIGHT

By January 1st we had everything ready to put on our night shift, and since then our laboratory has been running day and night. To feed our automatic machines, which drop out one hundred and forty-three jars of Vaporub a minute or one million and eighty thousand weekly, has required a force of 500 people. Our Cafe Department, created for the benefit of these workers, served 7,000 meals during the month of January alone.

13 MILLION JARS OF VAPORUB DISTRIBUTED SINCE OCTOBER.

An idea of the work we have accomplished this fall may be given by our production figures—13,928,975 jars of Vaporub manufactured and distributed since last October—one jar for every two families in the entire United States.

During the influenza epidemic Vick's Vaporub was used as an external application in connection with the physician's treatment, and thousands of people, unable to obtain a doctor, relied on Vick's almost exclusively.

Literally millions of families all over the country, from California to Maine, and from the Great Lakes to the Gulf, have found Vick's Vaporub the ideal home remedy for croup and cold troubles.

Aunt Marie was discouraged. She had just applied for a situation and her application had not been successful.

"I just told myself before I went up that I wouldn't get it," she told her family. "I always have the worst luck."

Her ten-year-old niece looked up from her game. "You shouldn't have said that, Aunt Marie," she said earnestly. "I believe that's the reason you didn't get it. Why, auntie when we girls play 'Hands Held Open' I always watch and see that the girl who gets the button when it's passed is the girl who holds her hands just right to get it, and who looks just like she was sure she was going to get it. So I always just fix my hands in just the right way, and then I look exactly like I expected it, and if I do that way I do get it. Maybe that's the way you'd better do about getting a job."

Auntie thought the matter over and decided that perhaps after all that was a good way to do.

Kakana Language Going.

Is the Kakana tongue to become extinct? This is the question the elder Hawaiians are asking themselves, and all they can see is an affirmative answer.

The children go to the American schools and are taught in English. It has become the language of the childhood of Hawaii, and they are rapidly forgetting the language of their fathers, which they first learned to speak.

One old Hawaiian bewailed the fact that his grandson, aged fifteen years, who visited an elderly uncle on another island, was unable to talk with the latter, because he knew only his native tongue and the child had forgotten it and could speak only in English.

The Japanese and Chinese have schools where they teach their progeny their native tongues, but the nation of Hawaiians has no government to maintain such schools, and the United States has not established any nor provided any course in the native language in the American schools.

The younger generation minds it not at all, but the elders are sad.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(By REV. F. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago.) Copyright, 1919, by Western Newspaper Union.

LESSON FOR MARCH 23

ISRAEL WARNED AGAINST COM-PROMISE.

(May be used with Temperance Applications.)

LESSON TEXT—Joshua 23:1-16. GOLDEN TEXT—Evil companionships corrupt good morals.—1 Corinthians 15:2. ADDITIONAL MATERIAL—Numbers 25:9-16; Joshua 9:3-7; Judges 2:1-3; 2:1-6; Colossians 2:8.

PRIMARY TOPIC—Loving and obeying God.—Joshua 24:16-25. JUNIOR TOPIC—Standing up for the right. INTERMEDIATE, TOPIC—Dangerous company.

Joshua, knowing that his life was drawing to a close, summoned the leaders of Israel to appear before him. He knew the tendencies which the nation was developing and the peril which faced it as his leadership was coming to an end. His jealousy for God and solicitude for them prompted him to assemble them and point out the great dangers which confronted them.

I. A Review of What God Had Done (23:3, 4).

1. God had fought Israel's battles (v. 3). He gave them victory over the strong nations which inhabited Canaan. Striking evidences of this are the capture of Jericho and victory at Gibeon when the sun stood still at Joshua's command. This victory had been secured quickly, which indicates that God had interposed in their behalf.

2. God by the hand of Joshua had apportioned the land among the tribes (v. 4) for an inheritance. In chapter 24 Joshua rehearses the wonderful things God had done for the nation extending from Abraham down through the ages.

II. Points Out the Promises as Yet Unfulfilled (23:5-10).

1. "He shall expel them before you" (v. 5). The actual possession which God had given was the pledge that he would give them full possession. God's promise was the guarantee of this. In view of God's faithful performance of all his promises there should be no room for doubt.

2. "One man of you shall chase a thousand" (v. 10). The reason of this was because the Lord God would fight for them. To have the Lord fight for us is to have the assurance of victory regardless of how few or how many.

3. The condition upon which these promises would be realized. (1) "Be very courageous" (v. 6). At a time like this it required courage to look to God for all the nation's needs. (2) "Keep and do all that is written in the law of Moses" (v. 6). Fidelity to God's law was essential. Turning aside in any particular would forfeit their claims upon him. (3) "Keep aloof from the Canaanites" (v. 7). This separation was to obtain with reference to (a) marriage among them (b) idolatrous customs. (4) Cleave wholly unto God (v. 8).

III. Solemn Warnings Issued (23:11-16).

1. Take good heed that you love God sincerely (v. 11). Love to God is the sum total of duty toward him.

2. Refrain from intermarriage among the Canaanites (v. 12). For God's people to intermarry among the heathen is to set in motion influences which would issue in confusion and disaster.

3. God will make the heathen snares, traps and scourges instead of giving victory over them (v. 13).

4. Evil things will come upon them just as good things had been done for them even to their destruction (v. 15).

5. The wrath of God kindled against them (v. 16).

Peace and Righteousness.

Righteousness means victory with the help of the Spirit of God over ourselves, over our inclinations, our passions, our tempers, our whole sinful natures. There is no peace without victory in the spiritual life, and I am inclined to think that holds good between men and nations. There is no peace until righteousness is done. The Prophet said: "They have healed also the hurt of my people slightly, saying Peace, Peace, when there is no peace." There must be righteousness toward God and our fellowmen if there is to be peace and good will on earth.

If We Suffer.

"If we suffer, we shall also reign with him," says St. Paul. What a crown is that for this, O sufferer! "Thy pains and sickness are all cured; thy body shall no more burden thee with weakness and weariness; thy aching head and heart, thy hunger and thirst, thy sleep and labor, are all gone. Oh, what a mighty change is this which shines as the brightness of the firmament!"—Baxter.

God's Will.

The kingdom of heaven is not come even when God's will is our law. It is come when God's will is our will. When God's will is our law, we are but a kind of noble slaves. When his will is our will, we are free children.—George Macdonald.

Follow Jesus Only.

Let this be thy whole endeavor this thy prayer, this thy desire—that thou mayest be stripped of all selfishness, and with entire simplicity follow Jesus only.—Thomas a Kempis.

CALLUS CORNS LIFT RIGHT OFF

Doesn't hurt to lift them off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of the feet, the skin beneath is left pink and healthy and never sore or tender.

That Was All.

Lives 200 Years!

For more than 200 years, Haarlem Oil, the famous national remedy of Holland, has been recognized as an infallible relief from all forms of kidney and bladder disorders. Its very age is proof that it must have unusual merit.

If you are troubled with pains or aches in the back, feel tired in the morning, headaches, indigestion, insomnia, painful or too frequent passage of urine, irritation or stone in the bladder, you will almost certainly find relief in GOLD MEDAL Haarlem Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboratories, and you can get it at any drug store. It is a standard, old-time home remedy and needs no introduction. Each capsule contains one dose of five drops and is pleasant and easy to take. They will quickly relieve those stiffened joints that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust," etc. Your money promptly refunded if they do not relieve you. But be sure to get the genuine GOLD MEDAL brand. In boxes, three sizes.—Adv.

His Nibs.

"There goes Mr. Nibs, my boss." "Is that a respectful way to speak of your employer?" "It's all right in his case He manufactures pens."

The Cuticura Toilet Trio

Having cleared your skin keep it clear by making Cuticura your every-day toilet preparations. The soap to cleanse and purify, the Ointment to soothe and heal, the Talcum to powder and perfume. No toilet table is complete without them. 25c everywhere.—Adv.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Catarrhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy.

HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE. All Druggists 5c. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Bake More Save More

More and more, thoughtful women are decreasing the cost of living by increasing the variety of their home baking. They have learned to bake the Dr. Price way with fewer eggs. They have found that more baked foods mean less meat. They have further discovered that their baking keeps fresh longer when made with

DR. PRICE'S CREAM BAKING POWDER

In many recipes, only half as many eggs are required, in some none at all, if an additional quantity of Dr. Price's Cream Baking Powder is used, about a teaspoonful in place of each egg omitted.

W. E. GILLILAND,
Editor and Proprietor.

From the dawn of history there has been friction between the have nots, and the have got, and we suppose it will be so to the end.

Wonder what some of these fellows who never tire of spouting about our capitalistic government, would do if they struck a ten thousand barrel oil well on their land?

Many of the Congressmen who voted to make Washington, D. C. bone dry are charged with shipping in an extra supply of liquor before the law went into effect. Consistency in politics is no longer expected.

The Japs do not care any more for the white races than the white races care for them, but as a matter of race pride they want the United States to admit her people on an equality with all other nations. The wily Japs may have another think coming before he secures any concessions from this country.

News comes from Paris that Japan demands equality in immigration laws as the price of that nation's endorsement of the League of Nations. If true this means that either the United States or Japan will not join the League, because we do not believe the people of the United States will under any consideration permit immigration of Japs to this country. We have too many of them here now.

Three Constitutional amendments are to be voted upon on May 24th state wide prohibition, equal suffrage and to give the state authority to lend its credit to assist citizens of the state to buy homes. The two

first amendments have been thoroughly discussed and fully understood by the voters, but the latter is not understood therefore in danger of defeat. We believe the latter is a meritorious proposition but political demagogues are liable to use it to the injury of the state in order to promote their own political fortunes.

It looks like our new road, Callahan County part of the Ft. Worth—El Paso Highway is hung up for keeps. We had hoped that work could start on this in the fall and give our people work, but owing to unavoidable delays the bonds could not be sold, but Commissioner Kendrick informs us that they expect to sell them soon. They may be sold now, and it is hoped to begin work soon.

The world seems to have an idea that money grows on every tree and bush in this country. We are called upon to feed Belgium, France, Italy, Germany and the starving Armenians and our people are doing all they can to help the world, but there is a limit. The promoters of the "Irish Republic" are planning to raise two billion dollars in this country to secure their independence. By the time we get through helping all the impetuous nations of the earth will we have anything left?

General Pershing inspected the U. S. Army on the Rhine last week and the papers tell us that every soldier he asked replied that he was anxious to come home. Of course all our American boys want to come home and are getting impatient at the slow work of the peace conference. We hope all the delegates will hurry up, too much time has been wasted and longer delay is dangerous. The delegates realize this and we hope will hurry things along.

Why don't the city do something to enforce the speed law before someone is killed by reckless auto drivers? Some of the small boys who drive delivery trucks are reckless drivers and seem to think the streets of Baird are made for speedways and that a footman has no right at all to the streets, not even to cross them.

Frost Proof Cabbage plants ready shipping now. We grow our plants and can fill orders now: 1000, \$2.50; 500, \$1.50; 100, 50c. Leading varieties, all delivered.—Young Plant Co., Fort Worth, Texas. 12-6tp.

T. W. Hearrian sold the Driskill place to W. K. Boatwright and has moved back to Caddo, Stephens Co. He did not intend to move but could not find another place that suited him. He bargained for one place, but says the party raised the price five hundred dollars in four days. He offered six thousand dollars for a suburban home and said he would pay as much as seven thousand for it, but the owner refused to make any price. We regret that Mr. Hearrian could not find a place so he could remain with us.

R. J. Harris, of Admiral, was in town last week and from him we learned that people around Admiral had to take their cattle off the wheat because of blight and believe he said some had died from this cause. This is something new to us, we will admit, and never before heard of wheat causing blight colic, in stock.

LOOK AT TONGUE! THEN GIVE
FRUIT LAXATIVE FOR STOM-

"CALIFORNIA SYRUP OF FIGS"
CAN'T HARM CHILDREN AND
THEY LOVE IT.

Mother! Your child isn't naturally
cross and peevish. See if tongue is
coated; this is a sure sign the little
stomach, liver and bowels need a
cleansing at once.

When listless, pale, feverish, full of
cold, breath bad, throat sore, doesn't
eat, sleep or act naturally, has stom-
ach-ache, diarrhoea, remember, a gen-
tle liver and bowel cleansing should
always be the first treatment given.

Nothing equals "California Syrup of
Figs" for children's ills; give a tea-
spoonful, and in a few hours all the
foul waste, sour bile and fermenting
food which is clogged in the bowels
passes out of the system, and you
have a well and playful child again.
All children love this harmless, deli-
cious "fruit laxative," and it never
fails to effect a good "inside" clean-
ing. Directions for babies, children
of all ages and grown-ups are plainly
on the bottle.

Keep it handy in your home. A little
given today saves a sick child tomor-
row, but get the genuine. Ask your
druggist for a bottle of "California
Syrup of Figs," then see that it is
made by the "California Fig Syrup
Company."—Adv.

RANGER BILL FINALLY
PASSED IN SENATE

SENATE APPROVES BLEDSOE BILL
AFTER ATTEMPTS TO AMEND
PROVE INEFFECTUAL.

Austin, Texas.—House bill No. 5,
providing for the reorganization of
the state ranger force, has been finally
passed by the senate after several
ineffectual attempts to amend had
been made. The bill as it passed pro-
vides for better men at better pay on
the force, it was explained, but does
not provide for the giving of bonds by
the rangers.

In the senate final passage was given
the bill providing that only one-
sixth of the textbooks needed can be
changed by the board any one year.

House bills providing for the care
of lepers until the federal government
takes them over were finally passed.
House bill to vest the power to buy
prison lands in the legislature only,
was called up and finally passed.

Austin, Texas.—A total of 1,040 bills
and sixty-six joint resolutions were
introduced in the thirty-sixth legisla-
ture. Of these 639 bills originated in
the house and 401 in the senate.
There were forty joint resolutions pre-
sented in the house and twenty-six
in the senate.

A total of thirty-three senate bills
and 129 house bills had been finally
passed up to Saturday night. The
senate was a little more expeditious
than the house, but the predominance
of house bills is somewhat attribut-
able to the large number of local bills,
which originated in that body, and
were finally passed. It is only natural
that the local bills should largely
originate in the house. In the senate
only thirty-one counties are represent-
ed, while the 142 house members come
from more than 100 counties. House
members are more often solicited by
"home folks" to introduce the home
measures.

Of the eleven joint resolutions
which were finally adopted seven first
saw light in the house and four came
from the senate.

Senate
Austin, Texas.—The senate has
passed finally the joint resolution
proposing an amendment to the con-
stitution in accordance with the Gov-
ernor's recommendation providing
for a division of the net profits from
the penitentiary farms among the
convicts of their dependents. Submis-
sion of the proposition will be
Nov. 4, 1919.

The bill, providing for the incor-
poration of mutual insurance com-
panies to write every form of insur-
ance except life, was finally passed.
The joint resolution authorizing a
county tax of 50c for school purposes,
was adopted. Submission will be
Nov. 4, 1919.

The bill, providing that the Depart-
ment of Agriculture be abolished and
its duties transferred to A. & M. col-
lege, failed of passage by 19 to 13.

The joint resolution, providing the
revision of an amendment in No-
vember, failed of passage by 19 to 13.

A house joint resolution, proposing
to submit to the voters a constitu-
tional amendment seeking to change
the length of the regular session of
the legislature from 60 to 129 days
has been introduced.

The house by a vote of 55 to 43,
used to pass to a third reading the
bill validating titles to school
asylum lands sold in excess of the
lot sections allowed to individual
basars.

Refusing to adopt the concurrent
resolution the house has voted against
the revenue bill proposed for
fiscal session.

Joint resolution No. 13, pro-
posing an amendment to the consti-
tution, authorizing the issuance of
bonds not to exceed \$75,000,000,
has been signed by the governor. The
amendment is to be submitted on Nov.
4, 1919.

Austin, Texas.—The house has
adopted, by a vote of 119 to 3, the
constitutional amendment that will permit
the division of profits of prisoners be-
tween the state and relatives of men
incarcerated in the penitentiary. The
amendment has the indorsement of
Governor Hobby. It will be offered
for ratification at a constitutional amendment Nov.
4, 1919.

Austin, Texas.—The house has re-
jected, by a vote of 55 to 52 to en-
able the legislature to appropriate of
the income of the state.

The house has tabled the resolu-
tion providing for a committee to in-
vestigate the proposition of locating
prison in the state.

An inquiry is urged.

Austin, Texas.—The house finally
passed the senate bill, fixing the salar-
ies of clerks of the courts of civil
appeals at \$3,000 and those for deputy
clerks at \$1,500.

The board of control bill was de-
feated in the house by a vote of 53
to 55, but its proponents have not
abandoned hope for the measure in
some form. If an attempt to recon-
sider the vote in the house, and finally
pass the bill should fail, the scene of
action will be shifted to the senate in
an effort to have the bill traverse the
path made by the maneuver which
revived and saved the constitutional
convention resolution.

The house passed to a third reading
the senate bill reorganizing the
state health department.

The house bill to permit county
commissioners' courts to set apart
funds for a restroom for women, was
finally passed.

The bill making it a misdemeanor
to trespass a vacant house was en-
gaged.

The house concurred in the free
conference report on the labor depart-
ment bill, creating the woman's division.
This report adopted the bill as
drawn in the senate and rejected the
house amendment, offered by the Ap-
propriation Committee.

The child labor bill has met defeat
in the house by a vote of 55 to 51.
The measure is the one introduced in
the senate. It was offered as an
amendment to the present child labor
law.

Austin, Texas.—The senate bill ap-
propriating \$1,000,000 as a deficiency
for the public school fund was finally
passed in the house. This money is
to be used to supplement the \$7.50
per capita for the school population of
the state.

House
Austin, Texas.—Two senate bills in-
troduced to amend the levee and re-
clamation laws were passed in the
house. One is make sure that any
district taking advantage of the law
passed at the fourth called session of
the thirty-fifth legislature shall not
jeopardize any other indebtedness it
may have. The other bill provides for
assessment by taxation, after being
authorized by an election, in levee
districts that have suffered damage
during 1915. It applies to districts
created in that year. It is for special
instances of damage done by flood.

the industrial welfare commission. As
amended in the house, it would form
this commission by present state of-
ficials, the superintendent of educa-
tion, the commissioner of labor and
the representative of employers on the
industrial accident board.

The bill to give owners of lands
bought from the state, titles to all
hard and soft metals, was finally
passed in the house. The measure
applies to all minerals except oil, gas
coal and petroleum products.

PLAN FOR HANDLING
COTTON EXPORTS

\$50,000,000 CORPORATION PRO-
POSED BY GOVERNOR HARD-
ING OF RESERVE BOARD.

FEDERAL FUNDS CAN BE USED

Combination Authorized Under Webb
Act and War Finance Corpora-
tion Loan Available.

Washington.—Organization of a co-
operative cotton export corporation
with capitalization of \$50,000,000 is ad-
vocated by W. P. G. Harding of the
Federal Reserve Board.

This corporation, organized under
the Webb act, solely for foreign trade
transactions, could be financed to
some extent by the War Finance Cor-
poration, under the recent act author-
izing \$1,000,000,000 to exporters. Gov-
ernor Harding suggested.

In payment for the stock southern
cotton producers and business men
participating in the corporation might
use Liberty bonds which they hold,
thus eliminating the necessity of ty-
ing up large quantities of cash.

Mr. Harding suggested that a con-
gress of cotton producers and other
business men be held at once to dis-
cuss the project. He explained that
by using Liberty bonds these would be
held by the corporation as perma-
nent investments and would not be
placed on the market. This would re-
move any objection by government
agencies to exchange of the corpora-
tion's stock for Liberty bonds.

"Every large manufacturing and
mining concern has a well organized
sales department," said the governor.
"It would be suicidal for any large
manufacturer to devote his activities
to production alone. Many millions
of people are engaged in the production
of cotton, but of all our great indus-
tries it is the only one, I believe,
which has no organized sales depart-
ment. A farmer or a merchant who
has cotton for sale must either take
the price offered him or he must hold
his cotton in the hope of obtaining a
higher price, and he has no assurance
that he will get a higher price by
holding. The cotton spinners have
their own organizations; those who
have cotton for sale have none."

Cattlemen Meet at Dallas.

Dallas is completely in charge of the
sturdy and sunburnt men from the
broad cattle country. Slingingly Dal-
las awaits the branding iron, for she
knows from last year's experience
that the impression left by the men
who are frugal with words but prodigal
with friendship is indeed most
pleasant and lasting. The forty-third
annual convention of the Cattle Raisers'
association of Texas, from early
indications, will be one of the best
attended in the history of the organi-
zation. Before it closes some of the
most important business it has ever
faced will have been transacted, ac-
cording to the statement of President
James Callan of Menard.

Separation of Schools Bill Passes.

Austin, Texas.—The house and sen-
ate has adopted the free conference
committee report on the joint resolu-
tion proposing the constitutional
amendment for the separation of the
university and the A. & M. college;
permitting the issuance of the \$5,500,
000 in bonds for permanent improve-
ments; division of the permanent uni-
versity fund and providing for a co-
ordinated administration of the high-
er institutions of learning. Amend-
ment will be submitted Nov. 4, 1919.

To Test Phone Rates.

Washington.—Authority of Postmas-
ter General Burleson to increase tele-
phone rates throughout the country
is to be determined by the supreme
court, which has granted the state of
Kansas permission to institute origi-
nal proceeding against the postmaster
general, questioning the validity of
his order of Dec. 13 last establishing
new toll rates. The court ordered
that a return be made in the case at
the next term in October.

Would Increase Tax Rates.

Austin, Texas.—The house has
adopted the senate joint resolution
granting to cities of less than 5,000
the right to increase their tax rate
from one-fourth of 1 per cent to not
more than 1 1/2 per cent.

Railroad Clerks Strike.

Atlanta, Ga.—Clerks on all roads
entering Atlanta have joined the
walkout of the Nashville, Chattanooga
& St. Louis railroad clerks and left
the city's freight traffic at virtually
a standstill.

Endorses League of Nations.

Austin, Texas.—At a recent meet-
ing of the general faculty of the uni-
versity of Texas a resolution approv-
ing the covenant of the proposed
league of nations was adopted.

Gross Production Bill Passed.

Austin, Texas.—With the signature
of the governor the tax of 1 1/2 per
cent on the gross production of oil
will become effective at once. The
senate amendment has been accepted
in the house.

H. Boleau, T. J. McClellan, Harold W. Semon, I. W. Semon, whose residences are unknown to plaintiffs, to be and appear before the Honorable District Court at the next regular term thereof, to be held in the County of Callahan, at the Courthouse thereof, in the City of Baird, on the 24th day of March, 1919, then and there to answer a petition filed in said court, on the 12th day of February, A. D. 1918, in a suit numbered on the docket of said court No. 1825, wherein F. M. Mitchell, are plaintiffs, and said B. F. Hoffacker, I. W. Semon and Harold W. Semon are defendants. The nature of the plaintiffs demand being as follows, to-wit: Suit for the cancellation of a lease executed by plaintiffs to F. M. Mitchell, on or about the 15th day of February, 1917, on a tract of land in said lease described as being 100 acres out of the R. A. Pennell survey in Callahan County, Texas, of the value of \$100 per acre, and for the following reasons, that said lease is void in mutualty and is void; that same is a naked agreement; same promises to convey an interest in the future, and to be developed in the future; money to be paid in the future to extend said lease, same is not a lease on said land or mineral; same is for the sale of minerals; same is an option to explore mineral resources on said land; defendants do not bind themselves to exercise such option; there is no unconditional obligation on said defendants. Object of plaintiff being to have mineral developed thereon, fraudulently had no intention to develop same; they failed to commence to develop said minerals; they refused to pay annual quarterly money; does not show when said lease shall terminate or when said defendants are bound to perform same; that there is no termination of same at their option; there is no description of the land by which it can be identified; said lease is vague and uncertain; defendants are in possession of said lease and any assignments thereunder and sub-leases and are notified to have same on trial or secondary evidence thereof will be introduced in plaintiff's behalf. Plaintiff prays for cancellation of said lease and costs.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your indorsement thereon, showing how you have executed the same. Given under my hand and seal of said court at office in Baird, Texas, this 12th day of February, A. D. 1919.

Semon, whose residences are unknown to plaintiffs, to be and appear before the Honorable District Court at the next regular term thereof, to be held in the County of Callahan, at the Courthouse thereof, in the City of Baird, on the 24th day of March, 1919, then and there to answer a petition filed in said court, on the 12th day of February, A. D. 1918, in a suit numbered on the docket of said court No. 1827, wherein George T. Beaum, and C. H. Boleau, B. F. Hoffacker, I. W. Semon and Harold W. Semon are defendants. The nature of the plaintiffs demand being as follows, to-wit: Suit to cancel a lease dated January 2, 1917, executed by plaintiffs to Geo. H. Boleau, defendant, on a tract of land in Callahan County, Texas, containing 686 acres, of the value of \$100 per acre, and out of Victoria county school lands for reasons; that defendants fraudulently agreed to develop the minerals; that they failed to commence to develop the minerals; that they failed to pay said plaintiff said annual quarterly sum of money; said lease is wanting in mutualty, and is void; that there is no time for the termination of same; defendants alone have power to terminate same; they failed to commence operations to develop said minerals within a year from date of lease; that defendants can terminate same at their option, and perpetuate same indefinitely without developing such minerals; there is no legal consideration; same is vague and uncertain, and a naked agreement with promise to convey an interest, to pay money in the future to extend same; defendants do not bind themselves to perform same, but retain power to terminate or perpetuate same at their option; same is no lease of land or minerals; is only for sale or purchase of an option in same no unconditional obligation is set out; there is no description of the land by which it can be identified; that there is no permission of plaintiff to assign lease; that all defendants are acting together, and claim under said lease. Defendants are notified to have in court on the trial hereof, the original lease and any assignments or sub-leases or secondary evidence thereof will be introduced in plaintiff's behalf. Plaintiff prays for cancellation of said lease and costs.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your indorsement thereon, showing how you have executed the same. Given under my hand and seal of said court at office in Baird, Texas, this 12th day of February, A. D. 1919.

Semon and John Hembree are defendants. The nature of the plaintiffs demand being as follows, to-wit: Suit to cancel a lease executed by plaintiffs to defendant Geo. H. Boleau, on the 20th day of

November, 1917, wherein said plaintiffs leased to said Boleau 138 acres out of Morgan L. Smith survey No. 778 in Callahan and Eastland counties, Texas, for five years from date, for the purpose among other things, to mine and operate for oil and gas, in consideration of \$24.50 to deliver to the credit of lessors, one-eighth of all oil produced and saved from this land; if no well be commenced on said land on or before November 20, 1918, lease terminates unless lessee on or before that date shall pay or tender to lessor or credit \$24.50 to defer the commencement of said well for 12 months from said date, and further deferred for like periods successively; plaintiffs allege all said defendants are asserting some rights under said contract and have been and are now acting together; said land is of the value of \$100 per acre; that \$24.50 is not a valuable or adequate consideration; that defendants breached said contract in this, they refused in any way to commence said well at any time; that they have refused, to pay, or to their credit, anywhere, the \$24.50 to defer the commencing of said well, that said contract is unipart and void in that defendants have reserved to themselves only, their right to continue the commencement of said well for five years from date of said contract; that defendants fraudulently induced plaintiffs to execute said contract and promised to commence said well, which they had no intention of doing; that plaintiffs would not have executed said lease without said promise; that if it had been assigned, that said contract is a naked agreement with a promise to convey an interest in said land or a part of the minerals therein to be developed in the future; that same is not a lease of land or minerals, only a contract for the sale of an option to develop the minerals; the land is not sufficiently described to be located on the ground. The defendants are in possession of said lease, all assignments thereof and sub-leases, and they are notified to have the same on trial or secondary evidence thereof will be introduced in plaintiff's favor. Plaintiffs pray to have said lease cancelled, and for costs.

District Court, at the next regular term thereof, to be held in the County of Callahan at the Court House thereof, in Baird, on the 24th day of March, 1919, then and there to answer

a petition filed in said court, on the 13th day of February, A. D. 1919, in a suit numbered on the docket of said court No. 1829, wherein W. B. Varner is plaintiff and Reuben Hornsby and unknown heirs of said Reuben Hornsby are defendants. The nature of the plaintiffs demand being as follows, to-wit:

The State of Texas—County of Callahan. In the District Court of Callahan County, Texas, March Term, A. D. 1919.

To the Honorable District Court of said County:

1. Now comes W. B. Varner, who resides in Callahan County, Texas, hereinafter called plaintiff complaining of Reuben Hornsby, and the unknown heirs of the said Reuben Hornsby, whose residence is unknown to this Plaintiff and who are hereinafter styled Defendants; and for cause of action Plaintiff represents to the Court that on or about the first day of February, A. D. 1918, he was lawfully seized and possessed of the following described lands and premises situated in Callahan County, Texas, holding and claiming the same in fee simple to-wit: 213 acres of land of the Mrs. Lettingwell survey No. 753 certificate 3-19, abstract No. 264, and being described by metes and bounds as follows: Situated about 2 miles north from the town of Cottonwood, said 213 acres described by field notes as follows: Beginning at the North E. corner of said survey; thence South 73° 28' 30" East 1650 varas; thence North 73° 28' 30" East 2000 varas to the beginning.

2. That on the day and year last aforesaid the Defendant unlawfully entered upon said premises, and ejected Plaintiff and unlawfully withheld from him the possession, use and enjoyment of the same and

3. That Plaintiff herein has had and held peaceably the land claimed and has had adverse possession of same, cultivating, using and enjoying the same for a period of more than 10 years, before Defendants cause of action occurred or before the commencement of this suit.

4. That Plaintiff herein claims said premises under deeds duly registered and Plaintiff has had peaceable, continuous and adverse possession of the said land and premises aforesaid, cultivating, using and enjoying the same and paying all taxes due thereon for a period of more than five years preceding the filing of this suit.

5. Wherefore Plaintiff prays judgment of the court that Defendant be enjoined to depart from the premises, and that Plaintiff have judgment for the title and possession of said above described lands, and premises, and that he be placed in possession of said land and for such other and further relief, special and general, in law and equity that he may be justly entitled, etc., etc.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your indorsement thereon, showing how you have executed the same. Given under my hand and seal of said court, at office in Baird, Texas, this 12th day of February, A. D. 1919.

Making Themselves at Home.
I called at the offices of the International Y. M. C. A. Hospitality league, says the "Clubman," in Fall Mail Gazette, and heard a delightful tribute to the United States bluejackets, of whom so many thousands have been in London recently. Quite a number of them were entertained at private houses—free to go when they pleased in the daytime, free to become members of the family when they had tired themselves with sightseeing. I overheard two would-be hostesses talking of their recent guests. "Mine, too, were delightful," one said; "so happy, and so perfect in their manner. But my dear, they had not the least notion of what war means." "How so?" "Well, of course, I didn't grudge, but it was a little trying to one's nerves. Every morning they ate butter with their bacon and left half a spoonful of marmalade on their plates!"

A Good Decoy.
An officer of the medical department was paying his first visit to the front-line trenches. A corporal from Missouri was standing on the fire step engaged in the pleasant pastime of sniping at whatever there was to snipe at. The doctor wandered by an open loophole in the parapet.

"Crack!" came from a German sniper across No Man's Land. "Whang—ploey!" The bullet came whizzing through the loophole and with a naughty thud splashed mud right on the doctor's new trench coat. "Bang!" replied the corporal's rifle. Deep silence reigned for ten seconds. Then the doctor picked himself up from his hands and knees and asked: "Did you get him, corporal?" "No, sir," replied the corporal, "but if you'll just walk by that loophole again I'll sure get him next time."

The Sword of Prince Maurice.
The London Evening News tells a pathetic story of a soldier's sword. It had once belonged to Prince Maurice of Battenberg, and it has just been given to his mother, Princess Beatrice. Prince Maurice was killed in the Ypres salient in November, 1914, and buried in our lines. Our forces had just retreated, and all the prince's kit fell into the hands of the Germans, except his inscribed sword. This was secreted in the rafters of a Flemish cottage, where the owner had been billeted, and for four years it has been lying there, with Germans billeted in the house. Now the poor Belgian family, to whom the place belonged, have sent it to the dead soldier's mother.

Shaping Steel.
Repeated quenching tends to change the shape of steel. In a recent experiment, a small tank of water was heated by raising to redness a soft-steel cylinder 3.5 inches in diameter, and then plunging it into the water. After 800 quenchings the metal was found to have been shortened three-fourths of an inch, with a corresponding increase in width. The steel contained 0.05 per cent of carbon, 0.01 of silicon, 0.5 of phosphorus, 0.05 of sulphur and 0.45 of manganese.

ARE NOW CONSIDERING LEAGUE AMENDMENTS

COVENANT BEING SHAPED FOR INCLUSION IN PRELIMINARY PEACE TREATY.

Paris.—Efforts are now being directed to shaping the league of nations covenant to insure its acceptance by the supreme council and win the approval of those Americans who are demanding its amendment.

Colonel House has conferred with Lord Robert Cecil, Leon Bourgeois and the American delegates and reported to President Wilson. It is conceded that some of the suggested amendments can safely be adopted, for instance, those safeguarding the Monroe doctrine and fixing conditions which will permit of the adherence of the late enemy powers.

One of the five powers has hesitated to accept a distinct impression of the right of secession from the language. The Americans are proceeding on the supposition that the covenant may be included in the peace treaty.

Foreign Minister Flicha states that he feels it is practically impossible to include the covenant in the final treaty.

The present determination in peace conference circles is that, after the allied and associated powers have reached a complete understanding regarding the conditions to be imposed on Germany, the German delegates will be called to Versailles, but they will not be allowed to discuss the conditions, the intention of the allied and associated powers being to dictate peace.

Either the German delegates must accept the terms and sign or a state of war will continue. The general opinion here is that, in view of the internal situation in Germany, the delegates of that country will accept rather than expose the country to a graver risk and more drastic measures.

KOREA WOULD THROW OFF JAPANESE RULE

Osaka, Japan.—Disturbance continues in the provinces of Korea and are resulting in bloodshed on both sides, according to advices received here. Eighty-five localities have been affected by the riots.

Some of the Japanese say mission aries have encouraged or even instigated the riots. The leading missionary at Seoul, however, has refuted the accusation that the missionaries inspired the unrest, declaring that none of them knew that trouble was brewing.

Isaburo Yamagata, deputy resident general of Korea, is quoted as saying that the chief cause of the turmoil has been an erroneous conception of self-determination. M. Yamagata added that as a result of the disturbances the government had discovered a flaw in its administration of Korea.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything; I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 478 So. 14th St., Newark, N. J.

SMOKING TOBACCO FACTS FROM THE ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brand.

The Encyclopedia Britannica says about the manufacture of smoking tobacco: "... on the Continent and in America, certain 'sauces' are employed... the use of the 'sauces' is to improve the flavour and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco. Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands; pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured. Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.
