Voters to Make Amendments Decisions Nov 7

by Lonnie Welborn

A light turnout is expected on Tuesday, November 7 when Garza County voters will be faced with 21 proposals in a Constitutional Amendment election.

Four of the 21 amendments - 1, 3, 5, and 11 - have generated interest locally and received publicity, both for and against.

Amendment 1 is concerned with Legislative salaries, which are set in the Texas Constitution and require voter approval to be changed. Amendment 1 would change the current salaries by setting the salary of the members of the legislature at a figure equal to one-fourth of the salary of the governor, whose salary is set by law. The speaker of the house and the lieutenant governor would each receive an amount equal to one-half of the governor's salary.

Since the governor is now paid \$93,432 a year, under this provision legislators would be paid \$23,358 a year - a 224 percent raise, considering current legislative salaries of \$7,200 a year. The speaker and lieutenant governor would receive an annual salary of \$46,716.

Amendment 11 is also concerned with legislative salaries and would set the amount of per diem (daily allowance for food and lodging) received by a member of the legislature at the amount allowed for federal income tax purposes as a deduction for living expenses incurred by a state legislator in connection with official business.

The amendment would increase the per diem from \$30 a day to \$81 a day during the 140 day legislative session.

Amendment 3 would provide financing for small businesses, new products, and agricultural enterprises, including funding for the Texas Agricultural Fund to provide financial assistance for production, processing, marketing, or export of Texas agricultural products grown by small businesses; the Rural Mi-

Photo Club Holds Annual Fall Show

The Caprock Photographers Fall show at the Algerita Art Center, October 26-29 attracted forty area photographers who exhibited 198 entries in the popular annual show.

Don Brown, professor of Photojournalism at Western Texas College in Snyder judged the show and awarded ribbons to nineteen of the exhibitors.

First place blue ribbon winners were Howard Bigham of Snyder, Judy Featheruffle of Slaton, Sue Holder of Denver City, Zoe Kirkpatrick of Post, Ann McDonald of Ralls, Ron Mouser of Lubbock, Bill Mueller of Post, Marie Neff of Post and Lynn Wild of Lubbock.

The winner of the Post Chamber of Commerce Award, for the special "Garza County" category, was Charles Wallace of Post with his entry "East of Gail Crossing."

The Juror's Choice in black and white photography was "Getting Ready to Ride," by Zoe Kirkpatrick. The Juror's Choice in color was "A Beautiful Noise," by Judy Featheruffle of Slaton. The People's Choice award, chosen by popular vote of the visitors to the show, was "A Lone Juniper" by Joe Miller of Post.

The Caprock Photographers presented two awards for pictures which the club thought deserving of recognition. The awards were given to Bobby Hall of Plainview for "Mountain Stream" and to Bob Mueller of Eastland for "Rocks and Cactus."

Plans are already underway for the sixth show next fall. The club meets the first Tuesday of each month at the SPS Reddy Room at 7 p.m., and visitors are welcome.

SWCD Offers Windbreak Trees, Wildlife Packets

The Garza Soil and Water Conservation District is presently taking orders for seedling trees for Farmstead Windbreaks. The trees will be delivered in March, 1990.

Farmstead windbreaks have long been recognized as a practical and efficient method of reducing utilities cost and damage to homes and gardens from high winds.

Windbreaks add value as well as beauty to farmsteads as they protect property. The SWCD offers many different varieties of trees suitable for windbreaks. In addition they also offer trees and shrubs for wildlife plantings.

Contact your local Soil Conservation Service to place orders, or for more information: Soil Conservation Service, 210 West Main Street, Post, Texas 79356.

croenterprise Development Fund to foster the creation and expansion of small businesses in the rural areas; the Texas Product Development Fund to encourage development and production of new and improved products; and the Small Business Incubator Fund to stimulate small business growth through loans and grants.

Amendment 5 would enable the legislature to exempt from property taxation any goods, wares, merchandise, and ores that are in the state no more than 175 days for processing or manufacturing purposes. The amendment would apply to property brought into or acquired in the state to be assembled or processed and then shipped out of state, such as fabric to be made into clothing, or components for computers.

Proposition 20 would abolish the county surveyor office in seven

counties: Garza, Cass, Ector, Smith, Bexar, Harris and Webb. The office of surveyor in Garza County is unfilled.

To be effective, the amendment not only must be approved statewide, but also by a majority voting in each individual county affected. Where the office is abolished, the commissioners court would assign the surveyors' duties to some other county office or employee.

Voting places will be open Tuesday, November 7, 1989 from 7 a.m. to 7 p.m. Voting places in Garza County include:

1. Presbyterian Church; Susan Pennell, election judge

2. Southland School in Southland; Mrs. Ruby Ellis, election judge

3. First National Bank Community Room; Mrs. Betty Striblin, election judge

4. Justiceburg School; John Boren, election judge

5. Close City Community Center; Mrs. Cleao Sappington, election judge

6. Graham Community Center; Quannah Maxey, election judge

7. Post High School Library; Mrs. Ida Mae Wilks, election judge

8. Post Junior High School Library; Harold Lucas, election judge

9. Lorenzo Alexander Community Center; Mrs. Billie Jean Cross, election judge.

Absentee voting by personal appearance will continue in the County Clerk's office through Friday, November 3, Wednesday, November 1 is the last day to request applications to vote absentee by mail and marked mail-in absentee ballots must be mailed back to the county clerk's office in an envelope bearing a postmark not later than election day, Nov. 7.

October Sales Tax Rebate Shows Increase of 11.16 Percent for City

For the first time in several months, the sales tax rebate for the City of Post was up, with an increase of 11.67 percent over the comparable period in 1988. The recent rebate from the State Comptroller's office totaled \$10,973.78; 1988's rebate for the same period was \$9,827.15.

However, Post's 1989 payments to date, \$132,123.63 are down 5.91 percent from 1988's \$140,425.29.

Rebates for area cities included: Slaton, \$16,052.09, up 4.73 percent from 1988's \$15,327.51. Total to date \$168,181.40, down 4.37 percent from 1988's total of \$175,869.21.

Tahoka, \$3,390.79, up 3.72 percent from 1988's \$3,269.08. Total to date, \$52,100.16, down 0.16 percent from 1988's total of \$52,181.39.

Crosbyton, \$4,944.14, up 44.12 percent from 1988's \$3,430.61 in 1988. Total to date, \$43,742.33, down 6.43 percent from 1988's total of \$46,748.72.

Ralls, \$3,739.59, up 7.73 percent from 1988's \$3,471.41. Total to date, \$45,040.12, down 1.34 percent from 1988's total of \$45,651.

Spur, \$540.18, down 80.12 percent from 1988's \$2,717.56. Total to date, \$11,770.44, down 72.03 percent from 1988's total of \$42,077.25.

State Comptroller Bob Bullock said the recent sales tax rebates to cities and counties continue to tell the story of an economy that's steadily growing.

Bullock said that October's rebates statewide are up almost 11 percent from October 1988, and year-to-date payments to cities are up an average of 9.5 percent.

Lack of Positive ID in Abduction Attempt

by Lonnie Welborn

The lack of positive identification of a suspect has temporarily halted the Garza County Sheriff's Department's investigation of the attempted abduction Friday, October 27 of a seven year old Post girl during her school lunch break.

According to a report from the sheriff's office, the girl was crossing the street in front of the school on her way to lunch when a man grabbed her sweater and told her to get in his car. The girl screamed and started to run. When she saw a friend a block away, she began to call the friend's name. When she reached the girl, they both ran to the friends' nearby home.

The police were called, and within 20 minutes had picked up a suspect for questioning. No charges were filed, however, and the man was released on the advice of District Attorney Ricky Smith who told Sheriff Freddy Cockrell that the suspect could not be held since there was no positive identification and no one to come forward to make an identification.

Cockrell added that there was "absolutely no evidence that the attempt was cult related," which was rumored around Post following the Friday incident.

Officers investigating the abduction attempt were Deputy Ken Ratke, Constable Lonnie Gene Peel and Sheriff Cockrell.

Some things are so dependable, we can't help taking them for granted.

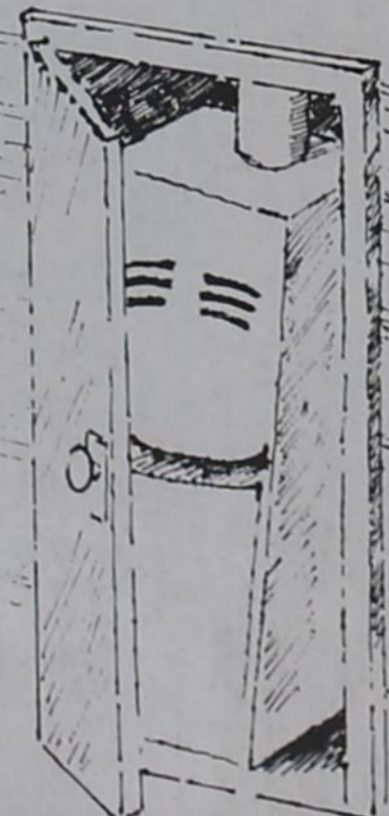

It's easy to take your natural gas furnace for granted. It sits quietly in a dark room and year after dependable year, keeps your family warm and cozy through the toughest West Texas winters.

Comfort

Natural gas heat from your furnace is warmer than heat from a heat pump. Your furnace gets your home cozy warm in a hurry, and keeps it that way.

Very Low Maintenance

After its annual pre-season check-up, your natural gas furnace should require very little attention the rest of the winter. What peace of mind that is!

ENERGAS

We're proud to be your gas company

Low Cost

Over the life of your furnace, you'll save thousands of dollars compared to the cost of electric heating in West Texas, it just doesn't make sense to heat with anything but natural gas.

Dependability

From a chilly morning to the coldest days, you'll have plenty of natural gas from Energas to take care of your family. Just set your thermostat and have a great winter!

Dependable natural gas. It's still West Texas' best energy value.

Mike Jones will be one of the outstanding soloists featured in the performance of Mozart's "Requiem" by the 85-voice Chancel Choir of Lubbock's First United Methodist Church, 1411 Broadway, Sunday, November 5 at 5 p.m.

Jones, formerly choir director with the Post ISD, is currently a voice teaching assistant at Texas Tech while working on this master's degree in music. He has soloed in Handel's "Messiah," Haydn's "Creation" and most recently with the University Civic Choral in a performance of Schubert's "Mass in B."

There is no admission charge for the concert, but a free-will offering will be taken at the conclusion of the program. A reception

will be held in the church parlor following the performance.

Help from TDH

The Texas Department has a service for families who are faced with the emotional and financial difficulties of placing an elderly or disabled family member in a nursing home or similar facility. Through a toll-free number - 1-800-252-9106 - TDH offers information and guidance through each stage of decision-making.

The toll-free line is used by people inquiring about the types and locations of facilities, how to select the facility best suited to the individual's needs, and other information vital to families who must place a relative in a nursing facility.

However, the line is also used for complaints about violations of any kind and complaints are given priority while the names of both the complainant and the resident are protected.

Last year, more than 7,000 complaints were received, requiring investigation and TDH has recently added specially trained nurses and investigators to ensure prompt and thorough responses to all complaints.

Hopefully, you'll never have to use the number, but it's a good one to write down - just in case. 1-800-252-9106.

Thomas Reunion

There were a lot more people at the recent H.D. Thomas reunion than we thought. Attending the get-together, but not included in the reunion article were Angela and Patricia Hester, Charles and Kay Wallace, and Dennis, Debbie and Amy Mason.

Girl Scouts

If you don't already know about it, the Girl Scouts of Post are involved in a very worthwhile project to benefit the Ronald McDonald House in Lubbock.

The girls are collecting a list of items from food to cleaning supplies to toys to garden tools - and you're sure to have some of the items on the list.

If you'd like to help, call 495-4001 or contact a Girl Scout.

Lee Ann Calvert and Robert in the Lampasas home of the Duncan Gevertz, both of El Paso, bride's parents, with the immediate family present, exchanged wedding vows Saturday, October 7 in an afternoon ceremony. The bride is the daughter of

Jack and Fran Calvert and the granddaughter of Ada Buchanan of Lampasas, formerly of Post.

The groom is the son of Harry and Ann Gevertz of El Paso.

The Reverend Calvin Peterson of the First United Methodist Church performed the double-ring ceremony in front of the fireplace which was filled with magnolia leaves and flanked by antique white pedestal baskets filled with all-white flowers.

The bride attended Central Texas College and Texas Tech University. She is employed as a programmer/analyst for Datronics Inc. in El Paso.

The groom is an MBA graduate of Texas Tech and employed as a regulator analyst with El Paso Natural Gas Company.

McCampbell, Vitt Engagement

Laura Lee McCampbell

The engagement and approaching marriage of Laura Lee McCampbell to Douglas William Vitt, both of San Diego, California, is announced by the bride's parents, Jerry Don and Barba McCampbell of Roswell, NM. She is the granddaughter of J.D. and Vada McCampbell of Post.

The prospective groom is the son of George and B.J. Vitt of Mid-Idelburg Heights, Ohio.

The couple will be married March 3, 1990 in San Diego.

The bride-to-be attended Abilene Christian University and is presently attending MiraCosta University in San Diego. She is employed with Trammell Crow Company.

Vitt is a graduate of Ohio University in Athens, Ohio and the University of Toledo Law School in Toledo, Ohio. He is with the Koll Company.

Mr. and Mrs. Lee Davis Celebrate Anniversary

Mr. and Mrs. Lee W. Davis, Sr., celebrated their 70th Wedding Anniversary with a quiet candlelight dinner in their home on October 24, 1989.

Lee Davis, of Spur, married Estelle Miller, a school teacher from Cleburn, on October 24, 1919 in Spur. They moved to Garza County in 1929. In January of this year they moved from their ranch into Post.

The couple has four children: Sol Davis of Brownfield, Sue Cornell of Post, Sally Luttrell of Lubbock and Lee W. Davis, Jr., of Post; 12 grandchildren; 22 great-grandchildren; and three great great-grandchildren.

Charles Wayne Sparks and Dawn Pierce

Pierce, Sparks Wedding is Thanksgiving Weekend

The family of Dawn Pierce announces her engagement and approaching marriage to Charles Wayne Sparks, son of Mr. and Mrs. Donald Sparks of Victoria.

The bride-to-be is the daughter of Mrs. Wendell McClendon of Tahoka and Mr. Pete Pierce of Lubbock, and the granddaughter of Mr. and Mrs. James Stone of Post.

She is a graduate of Post High School and Lubbock Christian University, where she received a BA degree in Liberal Arts. She is employed as a photographer for CPI in Lubbock.

The prospective groom is a graduate of Wichita Falls High School and will shortly receive a BA in Business at Texas Tech University. He is employed as an engraver at Welch Jewelry and Trophy Shop in Lubbock.

The couple will be married November 25, 1989 at 3 p.m. in the Tahoka Church of Christ.

Friends and relatives are invited to attend the celebration and a reception hosted by the bride's mother immediately following the ceremony.

Donna Weston Honored With Wedding Shower

The Garden Room of the Chaparral Restaurant was the scene of a wedding shower honoring Donna Weston of Lubbock, bride-elect of Curt Cowdrey.

Guests were greeted by Mrs. Nona Lusk; the honoree; the honoree's mother, Mrs. Beverly Weston; and Mrs. Bobby Cowdrey, mother of the prospective groom.

Approximately 50 guests were registered at a round table covered with a burgundy cloth and featuring a burgundy and white silk flower arrangement.

Special guests included: Mrs. Mary Peel, Cowdrey's grandmother; and out-of-town relatives, Mrs. Carlos Alexander of Lovington, NM, Mrs. Dan Berry and Mrs. Danny Berry and Jessica of Eunice, NM, and Mrs. Hubert Cook of Levelland.

Refreshments of sausage balls, cinnamon rolls, blueberry muffins and miscellaneous breads, orange juice and coffee were served by Diane Graves and Jane George.

The serving table was covered with a burgundy cloth and centered with a basket of greenery and apples. China doves adorned the table in front of the basket, and brass appointments were used.

The 20 hostesses presented the couple with a vacuum cleaner.

Hostesses were Orabeth White, Sue Maxey, Jane Mason, Diane Graves, Judy Bush, Imogene Stone, Lola Mae Ledbetter, Debbie Ledbetter, Mary Stone, Myrtle Peel, Jancy Middleton, Joy Greer, Kay Hays, Jane George, Linda Lewis, Tommie Williams, Donna Craig, Betty Jo Sharp, Joyce Nelson and Nona Lusk.

Manna Square

by Jan Herring Crawford

I am writing from beautiful MANNA SQUARE.

Do you feel dull, lusterless, a drag, down at the heels after a long, limp, hot summer?

Then come on down to RUMORS, Post's very special beauty salon, where Juanella, Janice and Jesse can remedy the situation.

I welcome Janice Moreman to Rumors. She brings her expertise of giving the perfect permanent that is exactly right for your hair.

Each operator has his own specialty. THE THREE J'S ARE GOOD! Rumors is open for one more operator and a manicurist. Come join us for fun.

THE BALLOON POST is located in Manna Square. Della is a delight and imaginative, so plan a party and leave the rest to Della. "DELLA IS CLEVAH."

JAN'S is the flagship shop for Manna Square. JAMIE PEWITT shows his artistic talent in displays. He plans carefully then creates. Let him help you with your Swarovski Silver Crystal collection.

JANET JUSTICE is equally good and is qualified to show estate jewelry like a pro as well as Lladro porcelain and Lalique crystal. And, of course, JAN'S has the most beautiful and unusual gift packages in town.

A shopper should feel at total peace and at ease the moment he enters a shop. If not, he should leave. JAN'S serves every customer as if he were the ONLY CUSTOMER. We know he always has a choice but will stay with the highest possible level of personal service.

The Founder's Day celebration was not only tremendous from an historical viewpoint but it was a boon to all merchants on Main Street.

It seems that I am never satisfied about the progression of growth for retail business in Post. People tell me they are happy to see someone with enough nerve to write such a column. FEAR keeps most people quiet.

I state facts as well as opinions. Secretly I really think I'm just plain dumb because it irks some people to hear the truth and that reverberates to me. I get a whip lash.

But anyway, here goes. Founder's Day proved what I have hammered for the past three years.

1. Post needs a major motel. The Austin rep stressed this three years ago.

2. Post needs bill boards on all highways leading into our town. This was recommended by Austin rep three years ago. I had a Lubbock customer recently to say, "Post is the best kept secret in this area. Why? Look at the shops. Fantastic!"

3. What has happened to the landscaping project?

4. Post needs people for businesses to flourish. Small town businesses cannot wait years for a lake to entice investors to move into Post. I have pointed towards short term growth in addition to long term to no avail. Short term should be imminent for survival of Main Street business.

This week I have one BIG GRIPE. Manna Square was not shown to a prospective new business for Post. I was asked later why my building was not shown to him. (He was here two days for research.) I had no answer. It is my opinion that all locations should be presented without favoritism. Manna Square has always been the prime one for foot traffic as was proved Founder's Day weekend.

A town is not a town without a Main Street. A Main Street cannot exist without people.

The Main Street program could have been great by now if the initial interest had been maintained and the momentum not be allowed to die. Some have said that the program moved too fast. Not true. Retail business must move at a rapid pace or die.

Let us all get busy to help generate enthusiasm once again for the Main Street project.

We Favor Proposition 3

An Editorial Opinion

Next Tuesday Garza County voters will look at 21 proposed amendments to the Texas constitution in the November 7 election. Of the 21 propositions on the ballot, one in particular deserves approval, in our opinion.

Proposition three is the constitutional amendment authorizing the legislature to provide for the recovery and further development of the state's economy, with goals of increasing job opportunities and other benefits for Texas residents, through state financing of the development and production of Texas products and businesses.

Earlier this year, the legislature passed a resolution to allow voters to authorize \$75 million in general obligation bonds to fund two new economic development programs at the Texas Department of Agriculture.

The Texas Agricultural Finance Authority (TAFA) will issue \$25 million in bonds to finance agricultural processing and marketing businesses and new crop development.

With TAFA's assistance, Texans will be able to process more cotton into textiles...raise shrimp and crawfish on state-of-the-art aquaculture farms...supply Asian vegetables to Chinese restaurants...put Texas-grown table grapes on Texas tables...and in general begin both producing and processing locally a lot more of what we've been importing from out-of-state and even from overseas.

The Rural Microenterprise Support Program will receive \$5 million in bond money to provide loans of up to \$30,000 to family-owned and operated businesses. Bond money will be used primarily for cooperative loan programs established in partnership with rural banks, chambers of commerce, local governments and community organizations.

An additional \$45 million will go toward the Product Development Fund and the Small Business Incubator Fund, programs administered by the Texas Department of Commerce to finance new businesses and provide management guidance.

The passage of the proposition could be a shot in the arm for our local economy as we seek to find ways to expand our agricultural and industrial businesses

Post, Texas 79356

Dear Editor,

Since the organization of Post Economic Development Corporation (PEDC) late in 1984, the Board of Directors have received numerous proposals for locating a variety of manufacturing operations in the Post mill property. On each proposal we have encouraged the individual or organization to develop their idea with a sound business and marketing plan for which we could provide building space for location of good jobs in Post. With every proposal that we have considered, the need for working capital appears. The lack of financing in the current economy is a universal obstacle to carrying forward these several projects.

Proposition No. 3 on the November 7 ballot on Texas Constitutional Amendments offers some new sources of financing economic development in rural areas such as Post. The issuance of \$75 million in State guaranteed bonds for business and industry loans will not add to our tax burdens since the loans will be repaid to the State at fair interest rates. We endorse Proposition No. 3 because it would provide another source of funds that could help us in Post.

Whether you are interested in the other twenty amendments or not, we would urge every voter in Garza County to go vote for Proposition No. 3. Our showing in this election can influence further favorable consideration of our interests in Austin. Absentee voting is now open at the Court House through November 3.

Sincerely

Post Economic Development Corporation Board of Directors

'Lopes Overwhelm Eagles 38-6

by Wes Burnett
A slow first half turned into a second half blitz for the Post Antelopes last Friday at Roosevelt as the visitors marred the Eagles' homecoming celebration 38-6.
Leading only 12-6 at halftime, the 'Lopes roared into action after intermission, scoring twice in both the third and fourth quarters.
It wasn't just the offense that shined, the Antelope defense matched the effort with four pass interceptions in the second half.
The after-game on-field celebration burst into a major rally outside the dressing room when assistant coach Fred Postell announced to fans and players that a call to Denver City confirmed that Lamesa had upset the district leading Mustangs, setting up a wide-open race for the district championship.
First Half Action
A larger than normal number of penalties hampered the Antelopes in the first half, but the team overcame the adversities to score first near the end of the first quarter on their first possession.
The drive was set up by a strong goal line stand after the Eagles, aided by penalties, marched smartly down the field after the opening kickoff. The Post defense stood toe-to-toe at the 10 yard line as the Eagles tried four times to penetrate the end zone. Billy Murdock was hammered to the ground at the eight over his left guard spot, Jimmy Holleman smothered quarterback Mike McClure at the six, Roosevelt called a time out with 7:03 left on the clock, then Murdock was gang tackled at the four and on fourth down McClure was met by half the Antelope defense at the three yard line as he tried to scoot around his left end.
With 6:16 left in the first quarter, the Antelope offense opened up a 13 play, 97 yard touchdown drive, featuring one fourth down conversion and a fourth down touchdown pass.
Quarterback Rance Sappington led the 'Lopes down the field with options, aided by solid blocking up front and hard running by Floyd Slay and Lannie Lee. The first major break for the 'Lopes came on fourth down at the 42, short of the first down marker by eight inches, when Sappington tossed the ball back to Lee who broke through one tackler around his left end, bursting to the Roosevelt 46.
On third down from the 43, Lee hauled in a Sappington pass at the 35, broke a tackle and carried one defender with him to the 17.
A holding penalty set the ball back to the 27, Sappington penetrated to the 16 and on third down a pass to Bobby Blair sailed high out of the end zone, setting up a fourth down situation.
The play came in from coach Dewayne Osborne by way of Jacob Bustoz, who floated out into the secondary, got behind the defender in the end zone, turned and caught the perfectly timed pass from Sappington for the touchdown. Sappington released the football high and long as Bustoz had yet made his move...but the receiver and the ball arrived at the same point just

at the right time. Matt Holly's extra point attempt failed.
After forcing a punt, the Antelopes' second possession was nullified when Lee coughed up the football at the Roosevelt 49. The fumble followed a brilliant fourth down fake punt play, when Sappington took the short snap, tossed the ball across the field to Bill Rankin, who threw a wobbly pass into a stiff breeze to Jamie Perez. Surrounded by three defenders, somehow Perez came up with the ball at the Roosevelt 45 for a first down.
The Eagles were unable to take advantage of the turnover as the 'Lope defense came up with the big plays, led by Victor Chapa, Rankin, Kevin Crispin, Trey Jones and Holleman at the line and two pass defensive plays by Roger Adams in the secondary.
With 8:03 left in the first half, the 'Lopes began their second touchdown drive, an eight play drive that went 69 yards.
Lee, Slay and Kevin Williams provided the power running in the series, with Slay getting a critical first down on fourth from the Roosevelt 39, breaking a tackle and dragging defenders to the 23.
On first down from that spot, Sappington faked the inside handoff and lofted another timed pass over the head of Bobby Blair in the left end zone corner and with 4:29 left in the half the 'Lopes led 12-0.
The defense held again, the Eagles punted, then a fourth down effort by the Antelopes failed at their own 46 yard line.
With 1:14 left on the clock, Roosevelt got the ball. A first down pass was tipped, with pressure by Holleman. On second down McClure faded back into the pocket, couldn't find a receiver, raced up the middle, cut to his left and went the distance to the end zone as Post defenders missed three opportunities to bring him down.
The two point conversion pass attempt was intercepted by Sappington, who returned it to the 42. Had he gone the distance the 'Lopes would have picked up another two points.
Neither team could mount a drive in the remaining seconds.
Second Half Spree
"They just decided to come back out and play like they knew they could," Osborne commented about the second half surge.
The Eagles got the ball, picked up a first down and then faced a charging 'Lope defense with Crispin, Perez, Chapa, Holleman and Rankin forcing a punt on fourth down.
Lee, Slay and Blair took the offense down the field behind great offensive line blocking by Mike Brogden, Jones, Keith Holly, Rankin and Robby Blair.
The eight play drive featured first down conversions by Lee over right tackle to the 36, Sappington to Bobby Blair across the middle to the Eagle 41 and Lee blasting over left tackle behind Slay's clearing block to the 26.
Sappington faked the inside handoff to Slay, fooling Eagle defenders as the shifty quarterback raced the distance untouched to the end

zone, putting the 'Lopes out front 18-6 with 4:23 left in the second quarter. The two point conversion attempt failed.
The next Eagle threat was cut short by the first of four interceptions as Sappington picked off McClure's pass to Jimmy Naughton at the seven yard line. A late hit penalty set the ball at the three.
The Eagles bunched up tight to the line, Sappington handed the ball to Lee, who burst off left tackle, pulled away from the secondary and ripped off a 97 yard touchdown run that left the Eagles gasping for air.
Holly's extra point kick made it 25-6 with 2:18 left in the third quarter.
Naughton fumbled the kickoff and recovered it at the Eagle four yard line. McClure was sacked at the one, Chris Adkins go nowhere over left guard and on third down McClure was raked up at the two by Benji Vargas, setting up a fourth down punt from deep in the end zone. Before Roosevelt could get the kick off, a penalty flag went down, the referees conferred and penalized the Eagles for illegal motion, then the 'Lopes 15 yards for a dead ball foul, claiming a defender hit one of the Eagles after the whistle was blown.
The Eagles got a first down at the 16, the quarter ended, with Crispin and Holleman forcing a third down pass situation, which gave Perez a chance to pick off the pass at the 15, returning it to the six. The clock showed 11:00 left in the game.
An illegal motion penalty set the ball back to the 11. Bustoz went over left guard to the six and on second down Perez got the call over left guard, breaking a tackle and slamming into the end zone with 10:17 left on the clock. Holly added one more to give the 'Lopes a 32-6 advantage.
Roosevelt's one play drive ended on its next possession as Holly picked off McClure's pass, broke two tackles, returning to the Roosevelt 49, the ball popped loose and Slay fell on it for the Antelopes.
With 9:55 left in the game, the offense went to work with Holly calling the signals.
Darren Brown carried the ball four times in the six play touchdown drive, picking up three first downs along the way. On first down from the six, Holly faked the ball inside to Brown, then quietly rolled to his right and slipped untouched into the end zone. The extra point kick was blocked and the 'Lopes sat on a 38-6 win.
Roosevelt had two more attempts, but the second team defense held its own until late in the game when the first team defense came on the field to stop a threat inside the Post 20 yard line as time ran out.
The Antelopes host the Seminole Indians Friday night with a 7:30 p.m. kickoff.

7th Graders Win 28-8

The Post 7th grade football team came back from Roosevelt last Thursday with a 28-8 win, coming from behind for the victory.
Roosevelt scored first, but it was all Post after that.
In the second quarter the young 'Lopes hit pay dirt at the end of a nine play, 53 yard drive. Tailback Russ Bird went in from two yards out and fullback Brad Lawson picked up the two point conversion.
Later in the same quarter Lawson scored on a 30 yard scamper at the end of a six play, 62 yard effort, the two-pointer failed and the team led 14-8 at the half.
Lawson scored one more time in the third quarter as the team drove 60 yards in four plays. This time Lawson went the final 40 yards. Bird took the ball in for the two point conversion.
Bird got the final touchdown on a 31 yard run at the end of a three play, 39 yard drive. The extra point failed.
"Our offensive line did a good job blocking, allowing our backs to rush for 266 yards," coach Chili Black commented.
Bird had 56 yards, Lawson had 108, Lance Clay got 30 and Oscar Acevedo had 77 yards.
Defensively the coach praised the efforts of Tracy Morris, Stewart Childers, Ray Perez, Jeremy Eilenberger and Manuel Zubia.
The team hosts Seminole tomorrow afternoon.

Indians Use 'Run and Shoot' Offense to Test 'Lope Defense'

by Wes Burnett

The Post Antelopes play their last home game Friday night when the Seminole Indians invade Antelope Stadium with a high-powered "run and shoot" offense which will test the "Lope pass defense."

The Indians have improved every week with the new offense, last week crippling Cooper 30-0. "Their record doesn't show it, but they really are a lot better team than you would think," Antelope coach Dwayne Osborne says. "They are typical of our opposing teams...bigger than we are and they will get after us on defense," the coach adds.

LANNIE LEE clipped off a 97 yard touchdown run from scrimmage during the 38-6 win over Roosevelt last Friday. Helping Lee get another first down on this play is Robby Blair (60).

The Indians spread out all across the line of scrimmage, and then throw the football about half the time. "We're going to have play good ball control," Osborne continues, "so we can keep them from getting a chance to set up their offense." The biggest Indian defender is junior tackle Chris Grady, a 274 pounder who will present a problem for the Antelope offense. They share with Slaton the opportunity to be spoilers in district competition.

The Indians opened the season with a 21-0 win over Coahoma, then whipped Colorado City 14-0, shot past Crane 15-9, then fell behind to Roosevelt 19-16, Denver City 23-22, and scored Slaton 33-12, lost to Brownfield 29-12 and shut out Cooper 30-0. "We're happy about last week's win at Roosevelt," coach Osborne emphasizes, "it was good to get back to our game, and we've put ourselves in position to be district champions, it's just going to be a matter of our players doing what they do best."

Denver City's loss to Lamesa last Friday sets up a potential first place for Post if the Mustangs happen to lose one more game. They travel to Brownfield Friday. Lamesa faces Slaton this week and Seminole the final game as the Tornados and Brownfield Cubs battle for second place.

8th Grade Swamps Eagles in 44-0 Rout
The Post 8th grade football team put it all together in a 44-0 rout at Roosevelt last Thursday four times in the first half and three times in the final two quarters. "We had great effort by all 16 players," coach Darrell Radle comments. "Our linemen played hard and a couple of our backs, who were linemen before last week, ran hard. Good blocking credit goes to Kelly Line and Shawn Pennell. Adrian Castillo was moved from fullback to tailback and ran for 236 yards on 15 carries. Ta Watson, from center to back, had 12 carries for 79 yards. Other players getting praise included Bret Marin, Russell Baldree, Mario Tobias, Clint Melton and Joey Cowley. The scoring began in the first quarter with a 10 play, 58 yard effort, capped off by Adrian Castillo's six yard run and Tony Vargas going in for the two point conversion. Later in the same quarter Watson went in from one yard out at the end of a four play, 35 yard drive, with Rynn Sappington getting the two-pointer. In the second quarter Castillo ran 39 yards and Vargas got the two-pointer. Later Castillo clicked off a 55 yard scamper and Danny Reyna got the two point conversion. In the same quarter Lane Jones went four yards on a one play drive. In the final quarter the team marched 97 yards in 11 plays, with Cody Collier going the final 11 yards for the touchdown. The team hosts Seminole tomorrow afternoon.

J.V. Shuts Out Roosevelt 26-0

Scoring on their first possession, the Post Junior Varsity football team shut out the visiting Roosevelt Eagles 26-0 last Thursday, as both freshmen players joined the team.

Brandon Bird took the ball twice, first for nine yards and then 71 yards for the first score, behind the blocking of Tommy Ammons, Donnie Ryan, Gabe Perez, David Dean and Shannon Scott. The two point conversion failed. Following a fumble recovery, the young "Lopes opened up a two play, 25 yard drive with quarterback Mike Radle going 21 yards on the keeper around right end and then the final four on a quarterback sneak. The two-pointer failed. The third score was a five play, 88 yard drive with Bird sharing the running with Scott, who went 60 yards on a trap up the middle. Shane Horton went over right tackle the two point conversion.

Following another fumble, the 'Lopes scored on a three play, 25 yard drive with running by Dean, a pass from Radle to Ammons to the one yard line and then Radle going in the final yard. The two-point conversion failed. Bird collected 182 yards on 22 carries, Scott got 77 yards on four tries, Radle picked up 38 yards on seven tries, Dean got five yards on two tries and Rene Armendariz went two yards on one carry. Radle was one of four for 20 yards passing and Ammons was credited with one catch for 20 yards.

"We had great offensive line play by Michael Harper, Chad Kirkland, Ty Hill, Aaron Davis, Gabe Perez, Donnie Ryan and Tommy Ammons," coach Fred Postell comments. He also praised the defensive efforts of Kirkland, Isidor Morales, Scott Haynes, Horton and freshmen Josh Bush, Anthony Cruse and a tipped pass by Justin Johnson. "It was a great job by all players," the coach adds. The team travels to Seminole where the freshmen will play at 5 p.m. and junior varsity following.

Constitutional Amendment Election - November 7, 1989

On November 7, 1989, 21 proposals will face the electorate in a constitutional amendment election that includes propositions ranging from legislative pay raises to charitable raffles by nonprofit organizations.

In this report, made available by the "Texas Political Report," a project of Free Market Foundation, the 21 proposals are discussed briefly, along with short statements "for" and "against" the amendment. This voter's guide is not an attempt to influence the passage or defeat of any Amendment, but simply to inform and educate the public and to help citizens prepare to cast an informed vote.

PROPOSITION 1 - To limit the salary of the Lieutenant Governor and the Speaker of the House of Representatives to not more than one-half of the Governor's salary and to limit the salary of a member of the Legislature to not more than one-fourth of the Governor's salary.

- For - Legislators are long overdue for a salary increase from the \$600 a month they are currently making. This salary level ranks them 36th out of 50 states.
- Against - Amendment is deceptive; "to limit the salary" actually triples their pay and removes forever taxpayers ability to control their pay scale. Future raises would be tied to the Governor's salary and therefore, the legislators would get a pay raise simply by raising the Governor's salary.

PROPOSITION 2 - Authorize the issuance of an additional \$500 million of Texas water development bonds for water supply, water quality, and flood control purposes.

- For - The state must continue to protect and preserve its important water resources through such a comprehensive approach.
- Against - The use of bonds is debt and violates Texas' pay-as-you-go constitutional mandate. Water promoters already have from previous elections 1.38 billion in state bond money approved by unused.

PROPOSITION 3 - Authorizing the legislature to provide for the recovery and further development of the state's economy, with goals of increasing job opportunities and other benefits for Texas residents, through state financing of the development and production of Texas products and businesses.

- For - In today's economy, it is difficult for the agriculture industry and for small businesses to survive. The state dollars would serve to boost these industries and to improve the economy.
- Against - The state should not finance "risky" businesses who cannot obtain financing through regular sources. Voters rejected an almost identical proposal in 1987, because voters object to increasing state debt to subsidize private business.

PROPOSITION 4 - To authorize the legislature to exempt property of nonprofit veterans organizations from ad valorem taxation.

- For - Historically, charitable organizations have not been subject to taxes. This amendment would make clear a previous law and ease the burden making sure charitable organizations maintain their tax-exempt status.
- Against - By including charitable organizations on property tax rolls, it increases revenues for cities. Charitable groups, including the veterans, already receive enough benefits.

PROPOSITION 5 - Promoting economic growth, job creation, and fair tax treatment for Texans who export goods to other states and nations by restoring and allowing, on a local option basis, an ad valorem tax exemption for certain personal property that is in Texas only temporarily for the purpose of assembling, storing, manufacturing, processing, or fabricating.

- For - The "freeport" exemption would encourage companies to bring their business to Texas, creating more jobs and bolstering economic development in the state. Proponents say this will boost free enterprise in Texas.
- Against - Such an exemption may result in lost revenues to municipal governments.

PROPOSITION 6 - Authorizing the members of a hospital district governing board to serve four year terms.

- For - Allowing for extended terms gives greater flexibility in order to meet local needs. Extended, staggered terms allows elections to coincide with county elections, saving tax dollars.
- Against - Two year terms make board members more accountable to the public and opponents feel it limits government.

PROPOSITION 7 - To require that a member of the Legislature, the Secretary of State, and an elected or appointed officer, before assuming office sign a written oath stating that the member, the Secretary of State, or the officer did not engage in bribery to obtain the office.

- For - The written statement, which would eliminate the part of the present oral oath relating to bribery, would have greater significance. The new oath would be shorter and more similar to those used by other states.
- Against - The oral sworn statement against bribery has been used for more than a century. There is no need to fix what is not broken. Why waste tax dollars on another method, when the current one is satisfactory and more cost effective.

PROPOSITION 8 - Authorizing the issuance of general obligation bonds for projects relating to facilities of corrections institutions, and mental health and mental retardation institutions and for the expansion of statewide law enforcement facilities.

- For - Measure provides an additional \$400 million to construct and equip badly needed new facilities for correction institutions and mental retardation institutions.
- Against - The use of bonds is debt and violates Texas' pay as you go constitutional mandate. Total payment on these bonds over 20 years equals \$809.7 million.

PROPOSITION 9 - Authorizing the legislature to organize and combine various state agencies that perform criminal justice functions.

- For - Measure attempts to streamline the administration of the state criminal justice system, eliminating duplication of efforts by departments and opening communication in the system.
- Against - The plan eliminates the separation of powers among the three branches of government needed to provide checks and balances especially crucial in the criminal justice area to protect the accused.

PROPOSITION 10 - Authorizing the Legislature to require or permit courts to inform juries about the effect of good conduct time and eligibility for parole or mandatory supervision on the period of incarceration served by a defendant convicted of a criminal offense.

- For - Allows the jurors to know how much of a prison sentence the defendant would actually be required to serve.
- Against - Such knowledge would add confusion to the process and cause jurors to impose longer prison sentences.

PROPOSITION 11 - To set the amount of per diem received by a member of the Legislature at the amount allowed for federal income tax purposes as a deduction for living expenses incurred by a state Legislator in connection with official business.

- For - Increasing the per diem from \$30 a day to \$81 is justified since costs for room and board during the 140 day session has increased significantly.
- Against - Future per diem increases would be automatic and the citizens would no longer have a vote to control the amount of per diem paid to the Legislators.

PROPOSITION 12 - To provide for using the permanent school fund and its income to guarantee bonds issued by the state for the purpose of aiding school districts.

- For - School districts would be able to save money with this program, as it makes use of less expensive bond money.
- Against - The program would allow the state to evade the constitutional requirement for voter approval of all state debt created through general obligation bonds.

PROPOSITION 13 - Providing a bill of rights for crime victims.

- For - By recognizing their rights, crime victims would be guaranteed a more active role in the judicial process. For too long, victims of crime have not been given free access to the judicial process, even to the extent of being barred from the courtroom.
- Against - Victims should be given every courtesy, but their rights should not be allowed to undermine the principle of the accused being innocent until proven guilty. Too, a criminal defendant might feel harassed having the victim in court during proceedings.

PROPOSITION 14 - Requiring a District Attorney serving in Fort Bend County to be elected and serve a term in the manner provided by general law for Criminal District Attorneys.

- For - Passage would ease the transition as Fort Bend County divides the office of Criminal District Attorney into two new offices of District Attorney and County Attorney.
- Against - Voters statewide do not need to resolve the whims of local officials in one out of 254 counties. The proposal is an attempt to avoid a gubernatorial appointment, the normal procedure, for the new office of District Attorney.

PROPOSITION 15 - Authorizing the Legislature to permit and regulate raffles conducted by certain nonprofit organizations for charitable purposes.

- For - Hundreds of legitimate charitable groups, unaware of the present illegality, use raffles now to raise funds.
- Against - Raffles only open the door still wider to legalized gambling. A previous exception for bingo has been abused by commercial operators, gaining little for charities. Opponents feel this amendment goes against traditional family values.

PROPOSITION 16 - Granting to the people the right to decide whether to create and maintain hospital districts to protect the public well-being in a manner independent of the legislature.

- For - Local option elections to create such entities better reflect the will of the citizenry.
- Against - The proposal would cause a proliferation of hospital districts, with taxing authority, to be established in haste.

PROPOSITION 17 - Authorizing the state to provide scholarships, grants, loans and other financial assistance to local fire departments and other public fire-fighting organizations to purchase fire-fighting equipment, to aid in providing necessary equipment and facilities to comply with federal and state law, and to educate and train their members.

- For - State assistance would benefit smaller communities which cannot afford to provide adequate services.
- Against - State money should not be used to finance a local concern when other financing alternatives already exist.

PROPOSITION 18 - To eliminate certain time limitations relating to the issuance of Texas agricultural water conservation bonds.

- For - Passage would provide for the implementation of the \$200 million Agricultural Water Conservation Bond Program authorized in 1985. The nine-week "window" now available for issuance of the bonds is too narrow.
- Against - The time limits built into bond programs are there to insure their proper usage and to prevent unnecessary state debt. The time limit should not be disregarded. \$200 million is also far more money than the program is ever likely to use.

PROPOSITION 19 - To authorize local governments to invest their funds as provided by law.

- For - Passage would allow local governments to earn a better rate of return on their money.
- Against - This proposed amendment would open the door to investment in risky money-market mutual funds by local governments not accustomed to evaluating such investments.

PROPOSITION 20 - To abolish the office of County Surveyor in Cass, Ector, Garza, Smith, Bexar, Harris and Webb counties.

- For - Passage would abolish unneeded positions and save tax dollars.
- Against - Maintaining the surveyor job assures public access to the county survey records.

PROPOSITION 21 - Providing for the issuance of general obligation bonds as college savings bonds to provide educational loans to students and to encourage the public to save for a college education.

- For - Bonds will finance student loans and promote long term savings for college education.
- Against - Demands for these loans are so low the previous issue has not even been fully subscribed. Why do we need more?
